-Critical Accounting Policies, page 36

-Impairment of Long-lived Assets and Goodwill, page 39

1. In order to provide investors with greater insight into the probability of a future material impairment charge, please revise your disclosures in future filings to disclose the following for any of your reporting units with material amounts of goodwill that are at risk of failing step one:
 - Disclose the percentage by which the fair value exceeded carrying value as of the date of the most recent test;
 - Disclose the amount of goodwill allocated to each reporting unit;
 - Describe the methods and key assumptions used and how the key assumptions were determined;
 - Describe the degree of uncertainty associated with the key assumptions; and
 - Describe the potential events and/or changes in circumstances that could reasonably be expected to negatively affect the key assumptions.

-Fiscal Year 2009 Compared to Fiscal Year 2008, page 43

2. We note disclosures throughout this section that the acquisitions of IKON and InfoPrint Solutions impacted your results of operations. In order to provide the reader with greater insight into your results of operations and the comparability between periods, please revise future filings to quantify the impact of acquisitions on your results of operations.
3. We note your disclosures on page 46 related to the change in your effective tax rate from fiscal 2008 to fiscal 2009. Please revise your future filings to explain in greater detail why your effective tax increased significantly from fiscal 2008 to fiscal 2009. For example, we note from your disclosure on page F-32 that tax benefits not recognized on operating losses of certain consolidated subsidiaries significantly impacted your effective tax rate. Provide investors with a more detailed explanation on the nature of these benefits, why the benefits were not recognized and why the benefits not recognized resulted in a significant increase in the effective tax rate.
