PROXY STATEMENT

This Proxy Statement has been prepared to provide the stockholders of PerkinElmer, Inc. with information pertaining to the matters to be voted on at the PerkinElmer, Inc. Annual Meeting of Stockholders to be held on Tuesday, April 23, 2002 at 10:30 a.m., at the Sheraton Needham Hotel, 100 Cabot Street, Needham, Massachusetts, and at any adjournment of that Meeting. The date of this Proxy Statement is April 1, 2002, the approximate date on which the Proxy Statement and form of Proxy were first sent or given to stockholders. PerkinElmer, Inc. is sometimes referred to in this Proxy Statement as “PerkinElmer” or the “Company.” PerkinElmer, Inc. Common Stock, \$1 par value per share (the only outstanding PerkinElmer security with voting rights), is referred to as the “Common Stock.”

This proxy is solicited on behalf of the Board of Directors of PerkinElmer. You are requested to sign and return your proxy card promptly. You have the right to revoke your proxy and change your vote at any time prior to its exercise at the Meeting by filing written notice with the Clerk of PerkinElmer, by signing and delivering a new proxy card bearing a later date, or by attending the meeting to cast your vote in person. **It is important to sign and return your proxy card.** It helps to establish a quorum so that the Meeting may be held, and permits your votes to be cast in accordance with your directions.

The expenses connected with soliciting proxies will be borne by PerkinElmer. The Company expects to pay brokers, nominees, fiduciaries, and other custodians their reasonable expenses for forwarding proxy materials and annual reports to principals and obtaining their voting instructions. The Company has engaged Georgeson Shareholder Communications, Inc. (“Georgeson”) of New York, New York to assist in soliciting proxies from brokers, nominees, fiduciaries, and custodians and has agreed to pay Georgeson \$7,500 and out-of-pocket expenses for such efforts. In addition to the use of the mails, certain Directors, officers, and employees of the Company may solicit proxies in person or by use of other communications media.

The stock transfer books of PerkinElmer will not be closed; however, the Board of Directors has fixed the close of business on February 22, 2002, as the record date for determining the stockholders entitled to receive notice of and to vote their shares at the Meeting. On the record date, there were 125,752,011 shares of Common Stock outstanding and entitled to vote. Each share of Common Stock carries the right to cast one vote, with no cumulative voting. The presence at the Meeting, in person or by proxy, of a majority of the shares of Common Stock issued and outstanding on the record date constitutes a quorum.

The proposal being presented for stockholder action is set forth on your proxy card and is discussed in detail on the following pages. Shares over which you maintain voting power and which are represented by proxy will be voted at the Meeting in accordance with your instructions indicated on the enclosed proxy card.

The proposal is to elect nine Directors for terms of one year each. You may grant or withhold authority to vote your shares to elect all nine nominees by marking the appropriate box on the proxy card. Should you desire to withhold authority to vote for one or more nominees, please identify the exceptions in the appropriate space provided on the proxy card. Your shares will be voted as you indicate. **If you sign and return your proxy card and make no indication on the proxy card concerning this item, your shares will be voted “For” electing all nine nominees named in this Proxy Statement.**

Management does not anticipate a vote on any other proposal at the Meeting. If, however, another proposal is properly brought before the Meeting, your shares will be voted in accordance with the discretion of the named proxies.

PerkinElmer’s Annual Report to Stockholders for 2001 has been mailed to its stockholders or is enclosed herewith. It is not part of this Proxy Statement or incorporated herein by reference.

Votes Required

The affirmative vote of the holders of a plurality of the votes cast at the Meeting is required for the election of each of the nine Directors.

A majority in interest of all Common Stock issued, outstanding and entitled to vote at the Meeting constitutes a quorum. Shares of Common Stock represented by executed proxies received by the Company will be counted for purposes of establishing a quorum at the Meeting, regardless of how or whether such shares are voted on any specific proposal. Shares that are withheld or that abstain from voting, and shares held in "street name" by brokers or nominees which indicate that they do not have discretionary authority to vote such shares as to a particular matter ("broker non-votes"), will not be counted as votes in favor of that matter, and will also not be counted as shares voting on that matter. Accordingly, shares withheld or abstaining and broker non-votes will have no effect on voting on the proposal to elect Directors as described in this Proxy Statement.

ITEM NO. 1

ELECTING THE NINE NOMINEES NAMED ABOVE

It is intended that the shares represented by proxies will be voted for the election of the nine nominees (unless one or more of the nominees is unwilling or unable to serve) for terms of one year each, unless a contrary instruction is indicated on the proxy cards. BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation and Benefits Committee (the “Committee”) of the Board of Directors is composed of four independent outside Directors. The Committee’s report on executive compensation follows.

Overall Philosophy

The Company’s overall executive compensation philosophy is based on the premise that compensation should be aligned with and support the Company’s business strategy and long-term initiatives, enhance shareholder value and be competitive with that offered by comparable companies. Under the guidance of the Committee, compensation policies have been designed to link executive compensation to the attainment of the Company’s specific short and long term goals. These policies also allow the Company to attract and retain senior executives critical to the long-term success of a global technology organization by providing a competitive compensation package and recognizing and rewarding individual contributions. The key elements of the Company’s executive compensation are base salary, annual incentive awards, stock and stock options.

Base Salary

Each year, the Committee reviews and establishes the base salary of the Chief Executive Officer based on the Company’s performance, as measured by a combination of factors consisting principally of sales, earnings per share growth, return on equity, cash flow, return on capital, and net income. The Committee also takes into account a comparison to executive compensation in other companies as revealed by an executive compensation survey referred to below. The Committee also reviews, approves or modifies, as deemed appropriate by the Committee, a salary plan recommended by the Chief Executive Officer and the Senior Vice President of Human Resources for the corporate officer positions. This plan, developed by the Human Resources staff, is based on the performance of each such officer while taking into consideration the Company’s performance as measured by the factors described above.

The Company uses a nationwide executive compensation survey to provide general overall compensation guidance. The survey shows market competitive information for the total compensation for selected officer positions for companies comparable in revenue size to PerkinElmer and in similar high technology sectors. Generally, the compensation levels of PerkinElmer officers are comparable with those holding similar positions within the companies included in the above-mentioned survey.

In accordance with the Company’s policy to pay competitive salaries, the base salaries of most officers were increased in 2001. Mr. Summe’s salary was increased in January 2001 from \$725,000 per year to \$850,000 per year.

Incentive Compensation

The Company’s Performance Incentive Plan (PIP) provides incentive compensation to certain key employees. Mr. Summe and the other executive officers named in the Summary Compensation Table are participants in the PIP. Although the PIP is the primary source of cash incentives for officers, the Committee may award additional incentives to selected officers outside of the PIP in circumstances in which the Committee determines that an additional incentive established on a different basis is appropriate.

In 2001, the PIP measured Mr. Summe and other senior staff officers (i.e., Finance, Human Resources and Legal) on the basis of growth in earnings per share (EPS) and cash measures. The bonus program for officers and other key employees in the strategic business units (SBU’s) were measured on SBU net operating profit after tax (NOPAT), cash measures, and achievement of goals related to integrating acquisitions and facilitating divestitures. Each participant was assigned a target incentive, expressed as a percentage of base salary ranging between 10% and 100%. The target percentage represents the amount of the incentive award if performance targets are met. The targets are generally based on the performance of the participant’s SBU or strategic business enterprise (SBE). Performance targets for certain officers and other corporate participants are based on consolidated performance. For SBU/SBE managers and participants, performance targets are

based on SBU/SBE consolidated performance. The actual incentive award is determined by multiplying the target incentive by a formula performance factor based upon actual performance compared to the target performance.

In 2001, Mr. Summe's target bonus was 100% of base salary. His target PIP was based on consolidated performance. For 2001, the actual EPS and cash measures exceeded targets. As a result, he received a PIP award of \$1,360,000, which represents 160% of his target incentive. In addition, the Board awarded Mr. Summe an additional bonus of \$815,000 under the CEO Incentive Plan based on the CEO evaluation by the Compensation Committee of his accomplishments against additional performance measures under three categories: strategic — 40%; operational — 30%; and organizational — 30%.

In February 2000, the Company provided Mr. Summe with a full recourse interest free loan of \$875,000, which included a forgiveness feature whereby the loan would be forgiven based on Mr. Summe meeting or exceeding significant performance goals. The loan was forgiven on December 31, 2001 based upon the Company having exceeded the performance goal of 50% growth in EPS over 1999 in two years or less (adjusted for the impact of acquisitions and divestitures).

Stock Options

Many studies indicate a correlation between employee stock ownership and Company performance. Under the Company's stock option plans, the Committee grants stock options to the Company's senior executives following established guidelines. These guidelines are based primarily on competitive industrial practice as revealed by a long-term executive compensation survey covering a large number of public companies in a variety of industries in which the Company participates. The survey data show that a typical stock option award is a multiple of base salary. The Committee uses the Black-Scholes option pricing method as the basis for determining the value of option grants. This method takes into consideration a number of factors, including the stock's volatility, dividend rate, option term, and interest rates to estimate the option's present value.

Mr. Summe was granted a multi-year option grant of 900,000 shares in April 2001, which was adjusted to 1,800,000 shares after giving effect to the two-for-one stock split effective June 1, 2001. This grant was subject to a six-year cliff vesting schedule, with a special provision for accelerated vesting based on the Company meeting or exceeding significant performance goals, as described in Footnote (3) to the "Option Grants in Last Fiscal Year" table on Page 20.

Stock Ownership Program by Officers

The Committee has determined that in order to further align management and shareholder interests, PerkinElmer stock ownership by PerkinElmer officers should be significant relative to each officer's base salary. The market value of PerkinElmer stock expected to be owned by the Company's officers is as follows:

CEO	2 times base salary
President and COO	1½ times base salary
Senior Vice Presidents	1½ times base salary
Other Officers.....	1 times base salary

Officers are expected to attain these ownership levels within four years after their election or appointment to the specified officer position.

Section 162(m)

Section 162(m) of the Internal Revenue Code generally limits the deductibility of public companies of annual compensation for certain officers to \$1 million. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. It is the general intention of the Committee to attempt to structure performance based compensation to executive officers who may be subject to Section 162(m), where appropriate, in a manner that satisfies the statute's requirements. However, in order to retain necessary flexibility to enable the Company to meet its objectives, the Committee reserves the right to

use its judgment to authorize compensation payments which may be subject to the limits when the Committee believes such payments are appropriate. Given the uncertainties as to the application and interpretation of the statute and regulations thereunder, no assurance can be given that the compensation intended by the Committee to satisfy the requirements will do so. The Committee will review its policy concerning Section 162(m) on a year-by-year basis.

NOTES

- (1) All information shown above reflects that on April 24, 2001, the Company declared a stock dividend of one share of stock for each share of Common Stock outstanding, payable to all holders of record on May 15, 2001. As a result, the number of shares of Common Stock and options held by each individual doubled, and the exercise price of outstanding stock options was reduced by half.
- (2) This represents the amount of the declared awards under the Company's PIP and CEO Incentive Plan. Mr. Summe's 2001 bonus includes two components. A \$1,360,000 award was granted under the PIP and an additional \$815,000 award was granted under the CEO Incentive Plan.
- (3) With the exception of Mr. Summe and Mr. Engel, other annual compensation did not in the aggregate exceed the lesser of \$50,000 or 10 percent of the total of annual salary and bonus reported in this table for any named executive officer. Benefits for Mr. Summe in 2001 included a car allowance, Company furnished transportation services, and a financial planning allowance, valued at, respectively, \$25,000, \$22,225 and \$20,000. Benefits for Mr. Summe in 2000 and 1999 included \$68,215 and \$110,849, respectively, of mortgage interest differential payments provided to Mr. Summe for his relocation to a higher cost housing region and additional amounts to gross-up the differential payments for taxes as well as a car allowance of \$25,000 in both years. Benefits for Mr. Engel include \$45,004 of mortgage interest differential payments provided for his relocation to Massachusetts at the Company's request and additional amounts to gross-up the differential payments for taxes.
- (4) As part of the Corporate Officer's Long Term Incentive Program, on January 7, 2000, Messrs. Summe, Friel, Engel, Walsh and Carlson received 50,000, 20,000, 20,000, 20,000 and 20,000 shares, respectively, of restricted stock on a post-split basis. The Program is intended to motivate corporate officers to meet aggressive performance targets, and the restricted stock vests on the seventh anniversary of issuance or

upon a change in control. Vesting would accelerate on meeting or exceeding the performance targets of three consecutive years of 15% growth in Earnings Per Share (EPS) or 50% growth in EPS in either 2000 or 2001 (adjusted for the impact of acquisitions and divestitures) from the base year of 1999. The performance measure of 50% growth in EPS over two years or less was exceeded in 2001. In exchange for having elected in 2000 to further defer the vesting of these shares so that they vest in two equal installments on December 31, 2002 and December 31, 2003, Messrs. Friel, Engel, Walsh and Carlson each received a grant of restricted shares equal to the initial grant (and Mr. Summe received a grant of double the number of his original grant) in January 2002. These additional restricted shares vest in three equal installments on December 31, 2003, December 31, 2004, and December 31, 2005. As of the end of fiscal 2001, Messrs. Summe, Friel, Engel, Walsh, and Carlson held 50,000, 20,000, 20,000, 20,000 and 20,000 shares, respectively, of restricted stock, which had an aggregate value at fiscal year end of \$1,787,000, in the case of Mr. Summe, and \$714,800 each for Messrs. Friel, Engel, Walsh and Carlson. Dividends are paid on all restricted shares.

- (5) The amounts reported in this column for 2001 for Messrs. Summe, Friel, Engel, Walsh and Carlson include \$5,610 as the Company's contribution to the PerkinElmer, Inc. Savings Plan for each of the aforementioned executives. The Company also maintains a 401(k) Excess Plan whereby an amount equal to the Company matching contribution that was limited due to the compensation limit under the PerkinElmer, Inc. Savings Plan is contributed to each executive's Deferred Compensation Plan account. The amounts contributed for Messrs. Summe, Friel, Engel, Walsh and Carlson and reflected in this column are \$22,440, \$7,590, \$7,590, \$5,280 and \$5,478, respectively. In addition, Mr. Summe's interest free loan of \$875,000 was forgiven on December 31, 2001 when the performance target of 50% EPS growth in two years or less was exceeded. The loan forgiveness of \$875,000 and the foregone interest related to this loan and the gross-up for taxes for the loan forgiveness and foregone interest totaling \$880,932, are represented in this column. Mr. Summe was provided with a full recourse interest free loan of \$1,592,500 in January 2002. This loan was structured with a forgiveness feature whereby the loan would be forgiven based on the Company meeting the performance targets described in Footnote (3) to the "Option Grants in Last Fiscal Year" table on page 20. This column also includes relocation expenses paid to Mr. Engel of \$70,327. In connection with his relocation, Mr. Engel was provided with a full recourse interest free loan of \$250,000, which was structured with a forgiveness feature whereby the loan would be forgiven based upon the Life Sciences SBU meeting the performance targets described in Footnote (4) to the "Option Grants in Last Fiscal Year" table on page 20, the death or disability of Mr. Engel, a change in control of the Company, or December 31, 2003. The forgone interest (including gross-up for taxes) totaling \$11,783, associated with Mr. Engel's loan is represented in this column.

PENSION PLANS

Employees Retirement Plan

The Company and its subsidiaries maintain several retirement plans for the benefit of their employees. All executive officers, including the CEO and the four highest compensated executive officers named in the Summary Compensation Table above, participate in the PerkinElmer, Inc. Employees Retirement Plan (the "Retirement Plan"). The Retirement Plan, which was closed to new participants as of January 31, 2001, has the following principal features.

Subject to maximum benefit limitations prescribed by law, a participant will be entitled to receive an annual payment equal to the sum of 0.85 percent of the participant's Final Average Earnings (the average of the employee's base salary for the five consecutive highest-salaried years out of the last ten years of credited service with the Company) multiplied by the number of years of credited service with the Company plus 0.75 percent of the excess of such earnings over the Social Security Tax Base multiplied by the number of years of credited service (not in excess of 35) with the Company. The maximum benefit payable from the Retirement Plan for 2001 is \$140,000.

All employees of the Company who participate in the Retirement Plan are required either to complete five years of service or to reach their normal retirement date, whichever is first to occur, before they have a vested interest in the Retirement Plan.

Supplemental Executive Retirement Plan

In addition to the Retirement Plan described above, the Company has created the PerkinElmer, Inc. Supplemental Executive Retirement Plan (the "Supplemental Plan"), which provides additional benefits for certain executive officers. Officers previously designated by the Board of Directors are eligible to receive benefits under the Supplemental Plan when they have completed five years of service and reached 55 years of age while employed by the Company. In the event of a change of control as defined in the Supplemental Plan, however, participants in the Supplemental Plan are eligible to receive benefits regardless of age or years of service. If a participant dies prior to attaining age 55, but after the completion of five years of service, the participant's eligible spouse is entitled to receive a benefit in the form of 50 percent of the benefit the participant would have received upon attaining age 55 commencing on the date the participant would have attained age 55.

During 2001, the Company recognized \$1,181,613 as an expense and \$307,357 as income for the Supplemental Plan and made payments to retired officers and beneficiaries in the amount of \$1,372,613. While the Company is not required to fund the Supplemental Plan, effective April 6, 1989, the PerkinElmer, Inc. Non-Qualified Benefit Trust Agreement (the "Trust") was established by and between the Company and Mellon Bank, NA. As of December 31, 2001, the Trust had a balance of \$7,986,945. The purpose of the Trust is to provide greater assurance of the receipt of Supplemental Plan benefits. Amounts held in the Trust are subject to the claims of the Company's general creditors in the event of the Company's insolvency or bankruptcy.

The Supplemental Plan is administered by the Compensation and Benefits Committee of the Board of Directors. The Board of Directors may amend or terminate the Supplemental Plan at any time; however, such amendment or termination shall not reduce or eliminate the benefit payments currently being made or the accrued plan benefit of any participant. The Supplemental Plan was closed to new participants effective July 1, 2000.

The Supplemental Plan provides an annual benefit payable at retirement equal to:

- (a) 0.85 percent of average total compensation (as defined below) for each year of credited service, plus 0.75 percent of average total compensation in excess of the Social Security Tax Base for each year of credited service limited to 35 years; less,
- (b) 100 percent of the participant's benefit accrued at date of termination and payable at normal retirement age under the Retirement Plan; plus,
- (c) the reduction, if any, to the early retirement benefit payable under the Retirement Plan due to the limitations as set forth in Section 415(b) of the Internal Revenue Code of 1986.

The benefit payable under the Supplemental Plan, however, shall in no event be less than (c) above.

No actuarial adjustment is made as a result of retirement before or after age 65. Average total compensation is the average of a participant's total cash compensation for the highest-compensated consecutive five years of credited service out of his last ten years of credited service prior to age 65 (or his age at earlier termination of employment).

Compensation covered under the Supplemental Plan includes the salary and bonus shown in the Summary Compensation Table.

Employment and Other Agreements

Compensation in the form of salary to Mr. Summe is paid pursuant to a three-year employment agreement with the Company dated January 8, 1998, as amended November 5, 1999 and March 3, 2000, which automatically renews for successive three-year intervals, and which provided for a minimum annual payment in 2001 of \$850,000. Compensation in the form of salary to Messrs. Friel, Engel, Walsh and Carlson is paid pursuant to one-year employment agreements with the Company dated November 18, 1999, December 1, 1999, July 29, 1999 and June 1, 1999, respectively, which automatically renew for successive one-year intervals, and which provided for minimum annual payments in 2001 of \$400,000, \$400,000, \$330,000, and \$336,000, respectively.

All of the employment agreements with the named executive officers contain provisions that provide that, in the event of a change in control of the Company, the employment term shall be extended for a period of three years from the date of the change in control. Following a change in control, if the executive is terminated without "cause" or resigns for "good reason" (each as defined in the agreement), the executive is entitled to

receive a severance payment equivalent to three years of base salary plus bonuses and continuation of certain benefits for three years from the date of termination. In addition, the executive is entitled to receive a “gross-up payment” (as defined in the agreement) for any excise tax due on account of any such payments, whether payable under the agreement or otherwise, plus any additional excise tax and income tax occasioned by the gross-up payment itself.

Generally, a change in control will be deemed to have occurred in any of the following circumstances:

- (1) 20% or more of the outstanding voting stock of the Company is acquired by any person or entity;
- (2) the “Continuing Directors” (as defined in the agreement) do not constitute a majority of the board;
- (3) a business combination involving the Company or the sale or disposition of all or substantially all of the assets of the Company, in which (a) the voting securities of the Company outstanding immediately prior thereto would represent 50% or less of the voting securities of the resulting or acquiring entity or (b) any person or entity newly owns 20% or more of the resulting or acquiring entity; or
- (4) the complete liquidation or dissolution of the Company is approved by the stockholders of the Company.

All of the employment agreements with the named executive officers, with the exception of Mr. Summe, provide that upon termination initiated by the Company without cause and with one year’s notice, apart from a change in control, the executive would be entitled to continuation of his salary, bonus, and employee benefits for one year from the date of termination. The employment agreement with Mr. Summe provides that he would be entitled to the continuation of his salary, bonus, and employee benefits for three years from the date of termination.

(1) All information shown above reflects that on April 24, 2001, the Company declared a stock dividend of one share of stock for each share of Common Stock outstanding, payable to all holders of record on May 15, 2001. As a result, the number of shares of Common Stock and options held by each individual doubled, and the exercise price of outstanding stock options was reduced by half.

(2) The exercise price is equal to the fair market value of the Common Stock as determined by the average of the high and low price on the New York Stock Exchange on the date of grant.

- (3) Options granted by the Company on April 25, 2001 to Messrs. Summe, Friel, Walsh and Carlson are performance based options that vest on the sixth anniversary of the grant date, with a 10 year term. Vesting is accelerated if either of the following targets is met: (i) 15% growth in earnings per share, adjusted for the impact of acquisitions and divestitures (“EPS”), for three consecutive periods of four calendar quarters (each a “One Year Period”), or (ii) EPS in a One Year Period ending no later than the end of the second fiscal quarter of 2003 is at least 50% higher than EPS for the One Year Period ending with the end of the second fiscal quarter in 2001. Upon death or total disability, the unvested stock options become 100% vested, and the optionee or estate has one year or, if earlier, the scheduled “Last Date to Exercise” to exercise vested options; upon retirement at a Company-recognized retirement age, the optionee has the earlier of three years from the date of retirement or the scheduled “Last Date to Exercise” to exercise vested options; upon termination of employment all further vesting stops and all unvested options are cancelled; upon change in control all unvested options become 100% vested.
- (4) Options granted by the Company to Mr. Engel in 2001 will vest on the sixth anniversary of the grant date, with a ten year term. Vesting will be accelerated if either of the following performance targets is met: (i) Net operating profit after tax for the Life Sciences SBU (adjusted for the impact of acquisitions and divestitures and extraordinary items) (“Life Sciences NOPAT”) grows by at least 35% per year for three consecutive One Year Periods over base year 2000, or (ii) Life Sciences NOPAT for any One Year Period ending after the second calendar quarter of 2001 and prior to the second anniversary of the grant date is at least \$90 million. Upon death or total disability, the unvested stock options become 100% vested, and the optionee or estate has one year or, if earlier, the scheduled “Last Date to Exercise” to exercise vested options; upon retirement at a Company-recognized retirement age the optionee has the earlier of three years from the date of retirement or the scheduled “Last Date to Exercise” to exercise vested options; upon termination of employment all further vesting stops and all unvested options are cancelled; upon change in control all unvested options become 100% vested.
- (5) The options granted by the Company on January 5, 2001 to Mr. Carlson are for 100,000 shares that vest equally over three years, rounded to the nearest whole share, with a seven year term. Upon death or total disability, the unvested stock options become 100% vested, and the optionee or estate has one year or, if earlier, the scheduled “Last Date to Exercise” to exercise vested options; upon retirement at a Company-recognized retirement age the optionee has the earlier of three years from the date of retirement or the scheduled “Last Date to Exercise” to exercise vested options; upon termination of employment all further vesting stops and all unvested options are cancelled; upon change in control all unvested options become 100% vested.
- (6) The Black-Scholes option pricing model was chosen to estimate the grant date present value of the options set forth in this table. The assumptions used for the grants issued during 2001 included expected market volatility of 45.58%, a 5.14% risk-free rate of return, a 1.88% dividend yield, and a 6 year expected life.

OTHER MATTERS

The Board of Directors knows of no other business to be presented for consideration at the Meeting other than that described above. However, if any other business should come before the Meeting, it is the intention of the persons named in the Proxy to vote, or otherwise act, in accordance with their best judgment on such matters.

SELECTION OF AUDITORS

On January 16, 2002, the Board of Directors selected the firm of Arthur Andersen LLP, independent public accountants, to act as the Company's auditor and to audit the books of the Company and its subsidiaries for the Company's 2002 fiscal year. Arthur Andersen LLP is currently performing these duties and has done so continuously since 1968.

Representatives of Arthur Andersen LLP are expected to be present at the Meeting, and will have an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions from stockholders.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, Directors, and 10% stockholders to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. Due to administrative error, Forms 5 timely filed in prior years inadvertently omitted acquisitions of Common Stock pursuant to the Company's Deferred Compensation Plan in the following amounts and periods: Mr. John J. Engel (59 shares in 2000); Mr. Nicholas A. Lopardo (572 shares in 2000); Mr. Robert F. Friel (149 shares in 2000); Mr. Terrance L. Carlson (59 shares in 2000); Mr. Gregory L. Summe (149 shares in 2000); Mr. Richard F. Walsh (4,977 shares in 1999 and 1,529 shares in 2000); Mr. Kent F. Hansen (5 shares in 2000); and Mr. Robert A. Barrett (492 shares in 1999 and 157 shares in 2000). These acquisitions were reported on the Forms 5 filed for such persons for 2001. In each instance, the omitted acquisitions of Common Stock resulted from (i) the reporting person's election to defer stock and/or compensation received by such person into the Company's Deferred Compensation Plan and/or (ii) the reinvestment of dividends paid on the reporting person's holdings in the Company's Deferred Compensation Plan. In addition to the foregoing, Mr. Lopardo inadvertently failed to file a Form 4 reporting his acquisition of 270 shares of Common Stock in October 2000. The acquisition of such shares by Mr. Lopardo was reported on the Form 5 filed for him for 2001. Except for the foregoing, based on a review of the copies of such reports and written representations from the Company's executive officers and Directors, the Company believes that during 2001 its executive officers, Directors, and 10% stockholders have complied with all Section 16(a) filing requirements.

**STOCKHOLDER PROPOSALS
FOR 2003 MEETING**

In order to be considered for addition to the agenda for the 2003 Annual Meeting of Stockholders and to be included in the Proxy Statement and form of proxy, stockholder proposals should be addressed to the Clerk of the Company and must be received at the Corporate Offices of PerkinElmer no later than December 2, 2002.

Stockholders who wish to make a proposal at the 2003 Annual Meeting — other than one that will be included in the Company's proxy materials — should notify the Company no later than February 17, 2003. If a stockholder who wishes to present a proposal fails to notify the Company by this date, the proxies that management solicits for the meeting will have discretionary authority to vote on the stockholder's proposal if it is properly brought before the meeting. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the proxy rules of the Securities and Exchange Commission.
