

Zilog ANNOUNCES SECOND QUARTER FISCAL 2009 FINANCIAL RESULTS

SAN JOSE, Calif., October 30, 2008 – Zilog®, Inc. (NASDAQ: ZILG) Zilog, Inc. (NASDAQ: ZILG), a leading supplier of embedded system-on-chip (SoC) solutions for consumer and industrial applications, and an industry leader in remote control and universal IR database solutions, today reported results for its 2009 fiscal year second quarter ended September 27, 2008.

Sales for the three month and six month periods ended September 27, 2008 were \$19.0 million and \$37.2 million, respectively, versus \$16.7 million and \$33.5 million for the comparable periods a year ago. Sales for the second fiscal quarter sequentially increased 5 percent and were at the high end of the previously announced guidance range. The sales growth reflected an increase in new product revenues. New products consist of universal remote controls, Zatara™ 32-bit secured transaction processors and 8-bit embedded flash microcontrollers. New product sales increased sequentially and comprised 63 percent of total sales in the quarter as compared to 61 percent in the previous quarter and 50 percent as compared to the second fiscal quarter a year ago.

The GAAP net loss for the three month period ended September 27, 2008 was \$1.6 million or 9 cents per share as compared to \$1.9 million or 11 cents per share for the same period a year ago. The GAAP net loss for the six month period ended September 27, 2008 was \$3.3 million or 19 cents per share versus \$5.0 million or 30 cents per share for the comparable six month period a year ago. The net loss for the quarter, as compared to the same quarter a year ago, includes higher gross margin contribution from higher sales, partially offset by costs associated with a proxy challenge, an ongoing strategic alternatives review and higher employee incentive compensation expenses. On a non-GAAP basis adjusted EBITDA, as defined below, was positive \$0.5 million and positive \$0.9 million for the three and six months ended September 27, 2008, respectively, as compared to negative \$0.2 million and negative \$1.1 million for the comparable periods a year ago.

"We were pleased with the growth in sales for the quarter which follows the previous quarter's positive growth trend led by our new products. Our product development investments have been focused on these new product portfolios and we are now starting to see positive results from these efforts" said Darin Billerbeck, Zilog's president and chief executive officer. "We achieved positive adjusted EBITDA for the second consecutive quarter and, in October, we essentially completed our production test transfer activities and a successful transition to a fully outsourced manufacturing model," stated Billerbeck.

Mr Billerbeck continued, "The global financial crisis and growing recessionary concerns are creating significant difficulties in the semiconductor industry. The current uncertainty in the market has disrupted new order patterns by customers, especially in the consumer related markets. Estimating near term demand levels in this current environment is

difficult”. Billerbeck concluded “As such we have implemented aggressive expense and inventory management programs to reduce our costs and manage our cash flow. These programs include but are not limited to work place temporary shutdowns, discretionary and travel spending reductions along with aligning our product inventory purchases to our expected demand. Currently we expect sales for the December, 2008 quarter will sequentially decline by as much as 16 to 23 percent”.

NON-GAAP FINANCIAL INFORMATION (Unaudited)

The Company may make reference to certain Non-GAAP financial measures. Management believes that these Non-GAAP measures are useful measures of operating performance and liquidity because they may exclude the impact of certain items, such as amortization of intangible assets, stock-based compensation, depreciation, non-operating interest, income taxes and special charges. However, these Non-GAAP measures should be considered in addition to, not as a substitute for, or superior to, net income (loss) and net cash provided by (used in) operating activities, or other financial measures prepared in accordance with GAAP.

	Three Months Ended				
	Sept. 27, 2008	June 28, 2008	March 31, 2008	Dec. 29, 2007	Sept. 29, 2007
	(in millions)				
<u>Reconciliation of Non-GAAP Net Loss to GAAP Net Loss</u>					
Non-GAAP net loss	(\$0.5)	(\$0.5)	(\$1.3)	(\$1.4)	(\$0.8)

GAAP Net loss	(\$1.6)	(\$1.7)	(\$1.9)	(\$2.4)	(\$1.9)

Non-GAAP Net Loss (Unaudited)

Non-GAAP net loss excludes special charges and non-cash charges relating to the amortization of intangible assets and stock-based compensation. We believe that Non-GAAP net loss is a useful measure as it excludes certain special charge items as well as certain non-cash charges, which facilitates a comparison of the Company’s operating performance. However, this Non-GAAP measure should be considered in addition to, not as a substitute for, or superior to, the net loss measured in accordance with GAAP.

<u>Reconciliation of Net Loss and Cash Flows From Operating Activities to EBITDA</u>	Three Months Ended				
	Sep. 27, 2008	Jun. 28, 2008	Mar. 31, 2008	Dec. 29, 2007	Sept. 29, 2007
	(in millions)				
Reconciliation of net loss to EBITDA:

Non-GAAP EBITDA (Unaudited)

Management believes that Non-GAAP EBITDA (“EBITDA”), that is Earnings or loss Before Interest, Taxes, Depreciation and Amortization, is a useful measure of financial performance. We believe that the disclosure of EBITDA helps investors more meaningfully evaluate our liquidity position by the elimination of non-cash related items such as depreciation and amortization. We believe that our investor base regularly uses EBITDA as a measure of the liquidity of our business. Our management uses EBITDA as a supplement to cash flows from operations as a way to assess the cash generated from our business available for capital expenditures and the servicing of other requirements including working capital.

<u>Reconciliation of Net Loss and Cash Flows From Operating Activities to Adjusted EBITDA</u>	Three Months Ended				
	Sep. 27, 2008	Jun. 28, 2008	Mar. 31, 2008	Dec. 29, 2007	Sept. 29, 2007
	(in millions)				
Reconciliation of net loss to Adjusted EBITDA:

Loss on disposition of operating assets	-	-	0.1	-	0.1
Changes in other operating assets and liabilities	(0.5)	0.6	3.0	(0.6)	1.3
Net cash provided by (used in) operating activities	<u>(\$0.6)</u>	<u>\$0.4</u>	<u>\$2.0</u>	<u>(\$1.9)</u>	<u>\$0.9</u>

Non-GAAP Adjusted EBITDA (Unaudited)

EBITDA reflects our Earnings or loss Before Interest, Taxes, Depreciation and Amortization. Additionally, management uses separate “Adjusted EBITDA” calculations for purposes of determining certain employees’ incentive compensation and, subject to meeting specified Adjusted EBITDA amounts, for accelerating the vesting of EBITDA-linked stock options. Adjusted EBITDA, as we define it, excludes interest, income taxes, effects of changes in accounting principles and non-cash charges such as depreciation, amortization, in-process research and development, and stock-based compensation expense. It also excludes cash and non-cash charges associated with reorganization items and special charges and credits, which represent operational restructuring charges, including asset write-offs, employee termination costs, relocation costs and lease termination costs. Adjusted EBITDA also excludes changes in operating assets and liabilities, which are included in net cash provided by (used in) operating activities. Our management uses Adjusted EBITDA as a supplement to cash flows from operations as a way to assess the cash generated from our business available for capital expenditures and the servicing of other requirements including working capital. This Non-GAAP Adjusted EBITDA measure allows management to monitor cash generated from the operations of the business. However, this Non-GAAP measure should be considered in addition to, not as a substitute for, or superior to, net loss and net cash provided or used in operating activities prepared in accordance with GAAP.

About Zilog, Inc.

Founded in 1974, Zilog is a global supplier of 8, 16 and 32-bit microcontroller and microprocessor "system-on-a-chip" (SoC) solutions that allow design engineers the freedom and creativity required for continued innovation in embedded design. The company won international acclaim for designing one of the first architectures in the microprocessors and microcontrollers industry. Today, Zilog designs, develops and markets a broad portfolio of devices for embedded control and communication applications used in consumer electronics, home appliances, security systems, point of sales terminals, personal computer peripherals, as well as industrial and automotive applications. Zilog is headquartered in San Jose, California, and employs approximately 400 people worldwide with sales offices throughout Asia, Europe and North America. For more information about Zilog and its products, visit the Company's website at: <http://www.zilog.com>.

EZ80ACCLAIM!, CRIMZON, Zatarra, Zilog, Z8, Z80, eZ80, Z8 ENCORE!, Encore!XP and Zneo are registered trademarks of Zilog, Inc. in the United States and in other countries.

Cautionary Statements

This release contains forward-looking statements (including those related to our expectations for our December 2008 quarter and the impact of the global financial crisis and recessionary concerns) relating to expectations, plans or prospects for Zilog, Inc. that are based upon the current expectations and beliefs of Zilog's management and are subject to certain risks and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. For example, delay in customer ramps of our 32-bit products or weakness in our 8-bit classic products could negatively impact our December 2008 quarter. The current financial market volatility and the impact of the recession on our customers make it especially difficult to predict our results for the December 2008 quarter. Our expense and inventory management programs may not be sufficient to manage our cash flows. Additionally, our ability to attract and retain technical employees may be negatively impacted by uncertainties relating to potential future changes in the ownership and control of the Company.

Design wins are defined as the projected one-year net sales for a customer's new product design for which the Company has received at least a \$1,000 purchase order for its devices. Design win estimates are determined based on projections from customers and may or may not be realized. Whether or not Zilog achieves anticipated revenue from design wins can be dependant on the timeliness of customers to ramp and whether or not the project in question is as commercially successful as the customers anticipated. Notwithstanding changes that may occur with respect to customer matters relating to the forward-looking statements, Zilog does not expect to, and disclaims any obligation to

update such statements until release of its next quarterly earnings announcement or in any other manner. Zilog, however, reserves the right to update such statement, or any portion thereof, at any time for any reason.

The financial information presented herein is unaudited and is subject to change as a result of subsequent events or adjustments, if any, arising prior to the filing of the Company's Form 10-Q for the period ended September 27, 2008.

For a detailed discussion of these and other cautionary statements, please refer to the risk factors discussed in filings with the U.S. Securities and Exchange Commission ("SEC"), including but not limited to, the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2008, and any subsequently filed reports. All documents also are available through the SEC's Electronic Data Gathering Analysis and Retrieval system (EDGAR) at <http://www.sec.gov> or from the Company's website at www.Zilog.com.
