

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

(Mark One)

☒ Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.
For the quarterly period ended September 27, 2008.

OR

☐ Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.
For the transition period from _____ to _____.

Commission File Number: 001-13748

ZiLOG, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

13-3092996
(I.R.S. Employer
Identification Number)

6800 Santa Teresa Boulevard
San Jose, California 95119
(Address of Principal Executive Offices)

(408) 513-1500
Registrant's telephone number, including area code:

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Accelerated filer ☐
Smaller Reporting Company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes ☒ No ☐

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at October 24, 2008
Common Stock, \$0.01 par value per share	16,961,541 shares

FORWARD-LOOKING STATEMENTS

Some of the statements under the sections entitled “Risk Factors” and “Management's Discussion and Analysis of Financial Condition and Results of Operations,” and elsewhere in this Form 10-Q, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. In some cases, you can identify forward-looking statements by terminology such as “may”, “will”, “should”, “expects”, “anticipates”, “believes”, “estimates”, “potential”, “continue”, or the negative terms or other comparable terminology. These statements include, without limitation:

- estimates of market growth;
- estimates of capital expenditures;
- the adequacy of available cash;
- the cost or outcome of any litigation pending or threatened;
- the impact on recent accounting pronouncements;
- any gross margin improvement resulting from our research and development effort; and
- the expected cost of compliance with environmental laws.

These statements relate to future events or our future financial performance and involve known and may involve unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by forward-looking statements including, but not limited to, prospects for future market growth. Other factors that may cause or contribute to differences include, but are not limited to, continued availability of third-party foundry, assembly and test services with commercially-reasonable quality and prices; under-absorption of manufacturing costs in the remaining manufacturing support facilities from under-utilization of capacity; our distributors and customers significantly reducing their existing inventories before ordering new products and the costs associated with the Microchip lawsuit. In evaluating these statements, you should specifically consider various factors, including the risks outlined under “Risk Factors” in our Form 10-K for the fiscal year ended March 31, 2008.

Although we believe that the expectations in the forward-looking statements contained in this Form 10-Q are reasonable, we cannot guarantee future results, levels of activity, and performance achievements. These forward-looking statements are based on our current expectations, and we disclaim any obligation to update these forward-looking statements for subsequent events or to explain why actual results differ unless otherwise required by law. You should not place undue reliance on these forward-looking statements.

Unless otherwise specified as a forward-looking statement, the information contained in this report is historical in nature and speaks as of the date of this report unless otherwise clearly indicated. We disclaim any obligation to update this information for subsequent events.

Based in San Jose, California, we were incorporated in California in September 1973 and merged with a subsidiary of Exxon (which subsidiary changed its name to ZiLOG, Inc.) in November 1981. We were reacquired by an affiliate of Warburg Pincus and Management in 1989 and reincorporated in Delaware in April 1997. We were acquired by an affiliate of Texas Pacific Group in 1998 and we were reorganized in bankruptcy in 2002. In this report, “ZiLOG,” “the Company,” “our,” “us,” “we,” and similar expressions refer to ZiLOG, Inc. and its subsidiaries. However, when these expressions are used throughout this report in connection with ZiLOG, Inc.’s reorganization under Chapter 11 of the U.S. bankruptcy code, they are referring only to the parent company, ZiLOG, Inc., and not to any of its subsidiaries. EZ80ACCLAIM!, CRIMZON, Zatarra, ZiLOG, Z8, Z80, eZ80, Z8 ENCORE!, Encore!XP and Zneo are registered trademarks of ZiLOG, Inc., in the United States and in other countries. ARM is a registered trademark of ARM Limited in the EU and other countries. Other product and or service names mentioned herein may be trademarks of the companies with which they are associated.

ZILOG, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

The accompanying interim financial information is unaudited. In the opinion of ZiLOG, Inc.'s ("ZiLOG" or the "Company") management, all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of interim results have been included. The results for interim periods are not necessarily indicative of results to be expected for the full fiscal year. These unaudited condensed consolidated financial statements and notes should be read in conjunction with the Company's annual consolidated financial statements and notes thereto contained in the Company's 2008 Annual Report filed on Form 10-K (File Number 001-13748) for the fiscal year ended March 31, 2008, filed on June 30, 2008 with the Securities and Exchange Commission.

The Company's fiscal year ends March 31 with interim results based on fiscal quarters of approximately thirteen weeks in duration ending on the closest Saturday to each calendar quarter end, with the exception of the fiscal fourth quarter, which ends on March 31. Certain reclassifications have been made to prior-period balances to present the consolidated financial statements on a consistent basis with the current year presentation. Any reference to year pertains to the fiscal year unless otherwise indicated. The operating results for any period are not necessarily indicative of results for any subsequent period or the full fiscal year.

The condensed consolidated balance sheet at March 31, 2008 was derived from audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Company's significant accounting policies is described in its Annual Report for the 2008 fiscal year ended March 31, 2008, filed on Form 10-K with the Securities and Exchange Commission on June 30, 2008. The Company's significant accounting policies remain unchanged from those disclosed on Form 10-K for the fiscal year ended March 31, 2008, except for the following:

Adoption of Accounting Standards. Effective April 1, 2008, the Company adopted SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"). The Company did not elect to adopt the fair value option under this pronouncement which permits entities to choose to measure many financial instruments and certain other items at fair value on a contract by contract basis.

Effective April 1, 2008, the Company adopted SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). In February 2008, the Financial Accounting Standards Board ("FASB") issued Staff Position No. FAS 157-2, "Effective Date of FASB Statement No. 157," which provides a one-year deferral of the effective date of SFAS No. 157 for non-financial assets and non-financial liabilities, except those that are recognized or disclosed in the financial statements at fair value at least annually. In September 2008, the FASB issued Staff Position No. FAS 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active", which clarifies the application of SFAS No. 157 in a market that is not active. The Company has adopted the provisions of SFAS No. 157 with respect to its financial assets and liabilities only. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles and enhances disclosures about fair value measurements. Fair value is defined under SFAS No. 157 as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value under SFAS No. 157 must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes a fair value hierarchy based on the following three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1 - Quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that

are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In accordance with SFAS 157, the following table represents the Company's fair value hierarchy for its financial assets (cash equivalents and available for sale investments) as of September 27, 2008 (unaudited, in thousands):

	Sept. 27, 2008			
	Fair Value	Level 1	Level 2	Level 3
Money market funds	\$ 11,197	\$ 11,197	\$ -	\$ -
Commercial paper	296	-	296	-
Auction rate preferred securities	1,450	-	1,450	-
Total	\$ 12,943	\$ 11,197	\$ 1,746	\$ -

Since February 2008, due to various factors including the tightening of liquidity in the financial market, regularly held auctions for Auction Rate Preferred Securities ("ARPS"), have been unsuccessful. Following the failure of these auctions, the Company has received \$2.5 million from redemptions of its ARPS. The remaining ARPS balance of \$1.45 million as of September 27, 2008, has been classified as long-term investments and accrues interest pending their redemption or sale.

In determining fair value, the Company uses various valuation techniques, including market and income approaches to value available-for-sale investments. The availability of observable inputs can vary from instrument to instrument and to the extent that valuation is based on inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. The degree of judgment exercised by the Company's management in determining fair value is greatest for instruments categorized in Level 3. All of the Company's ARPS have AAA credit ratings, are 100% collateralized and continue to pay interest in accordance with their contractual terms. Additionally, the issuers reported collateralized asset value ranges which exceed the value of ARPS held by the Company by 200 to 300 percent. Accordingly, the remaining ARPS balance of \$1.45 million is categorized as Level 2 for fair value measurement under FAS 157 and has been recorded at full par value on the consolidated balance sheet as of September 27, 2008. The Company currently believes the ARPS values are not impaired and as such, no impairment has been recognized against the investment. If future auctions fail to materialize and the credit rating of the issuers deteriorates, the Company may be required to record an impairment charge against the value of its ARPS.

NOTE 3. INVENTORY

Inventories are stated at the lower of cost (which approximates actual cost on a first-in, first-out basis) or market. Provisions, when required, are made to reduce inventory values from cost to their estimated net realizable values. It is possible that estimates of net realizable value can change in the short-term. Inventory reserves for excess or obsolete inventory are released only upon sale, scrap or other disposition of the reserved inventory. Inventories, net of provisions, consist of the following (unaudited, in thousands):

	Sept. 27, 2008	March 31, 2008
Raw materials	\$ 248	\$ 447
Work-in-progress	5,351	5,924
Finished goods	2,009	2,042
Inventory, net	<u>\$ 7,608</u>	<u>\$ 8,413</u>

NOTE 4. SPECIAL CHARGES AND CREDITS

The components of special charges and credits are as follows (unaudited, in thousands):

	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>Sept. 27,</u>	<u>Sept. 29,</u>	<u>Sept. 27,</u>	<u>Sept. 29,</u>
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Restructuring of operations:				
Engineering consolidation severance and termination costs	\$ -	\$ 124	\$ -	\$ 883
MOD II maintenance and selling costs	-	-	-	248
Manufacturing test outsources:				
Employee severance and other costs	263	311	292	388
Other	291	36	852	36
Reimbursement of retirement benefits - Philippines defined benefit plan	-	-	-	(661)
Total special charges and credits	<u>\$ 554</u>	<u>\$ 471</u>	<u>\$ 1,144</u>	<u>\$ 894</u>

As part of the Company's ongoing efforts to reduce costs and streamline activities, in November 2007, the Company initiated a plan to outsource its production test operations currently performed in its Philippines facility to third party manufacturing partners. Previously, the Company also reorganized certain of its sales offices, relocated its corporate headquarters to a new facility in San Jose, California in July 2007. Additionally, in April 2007, the Company consolidated certain research and development activities from its Shanghai, China and Seattle, Washington facilities to its San Jose, California and Meridian, Idaho facilities.

During the three and six months ended September 27, 2008, the Company incurred \$0.6 million and \$1.1 million, respectively, in special charges. Special charges include severance and other costs related to the Company's test outsourcing activities.

During the three and six months ended September 29, 2007, the Company incurred \$0.5 million and \$1.3 million, respectively, for severance, lease termination costs and other closure costs related to the consolidation of its research and development efforts and test outsource activities. During the six months ended September 29, 2007, the Company incurred period expenses of \$0.2 million related to maintenance costs and subsequent costs associated with the sale of its MOD II facility. Additionally in May 2007, the Company received a refund of \$0.7 million from its Philippines defined benefit plan related to its prior over funded status. The refund was recorded as a credit to special charges during the six months ended September 29, 2007.

The following table summarizes activity in accrued special charges which is included in other accrued liabilities on the condensed consolidated balance sheets (unaudited, in thousands):

	<u>Accrued Special Charges</u>
Balance at March 31, 2008	\$ 489
Accruals	548
Cash payments	(469)
Balance at Sept. 27, 2008	<u>\$ 568</u>

NOTE 5. GEOGRAPHIC AND SEGMENT INFORMATION

Segment Information. The Company's business is comprised of one operating segment. The Company engages primarily in the design, development, manufacture and marketing of semiconductor products. The Company sells its products to distributors and direct customer accounts including original equipment manufacturers ("OEMs") and original design manufacturers ("ODMs") in a broad range of market segments. The Company's operations outside the United States consist of a final test and global support facility in the Philippines and sales and support and design centers in certain foreign countries. Domestic operations are responsible for the design, development and the coordination of production planning and shipping to meet worldwide customer commitments. The Philippine facility is reimbursed in relation to its value added with respect to test operations and other functions performed, and certain foreign sales offices receive a commission on export sales within their territory. Accordingly, for financial statement purposes, it is not meaningful to segregate sales or operating profits for the test and foreign sales office operations.

The Company has two broad current product categories based on product technologies, referred to as new products and 8-bit classic products. The new products category includes universal remote control solutions, Zatara 32-bit secured transaction processors and 8-bit embedded flash microcontrollers. Classic products primarily reflect sales of Z8 microcontrollers including both ROM and OTP, Z80 microprocessors and serial communications controllers.

Sales by Product Category. The following table represents the Company's net sales by product category for each of the periods indicated (unaudited, in thousands):

	Three Months Ended		Six Months Ended	
	Sept. 27, 2008	Sept. 29, 2007	Sept. 27, 2008	Sept. 29, 2007
Net sales by product category:				
New Products	\$ 12,048	\$ 8,304	\$ 23,112	\$ 17,199
8-bit classic products	6,978	8,355	14,068	16,249
Total Net Sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448

The following table summarizes the Company's net sales by region and by channel (in thousands):

	Three Months Ended		Six Months Ended	
	Sept. 27, 2008	Sept. 29, 2007	Sept. 27, 2008	Sept. 29, 2007
Net sales by region:				
Americas	\$ 6,084	\$ 4,798	\$ 11,729	\$ 11,211
Asia	10,604	9,519	20,220	17,739
Europe	2,338	2,342	5,231	4,498
Total net sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448
Net sales by channel:				
Direct	\$ 9,400	\$ 6,693	\$ 18,502	\$ 13,592
Distribution	9,626	9,966	18,678	19,856
Total net sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448

Major customers: For the three and six months ended September 27, 2008, one distributor and two customers each individually accounted for greater than 10% of the Company's total net sales. The distributor accounted for approximately 24% of net sales during the three and six months ended September 27, 2008. For the three months ended September 27, 2008, two customers each accounted for approximately 13% of net sales. For the six months ended September 27, 2008, two customers accounted for approximately 14% and 12% of net sales.

For the three and six months ended September 29, 2007, one distributor accounted for greater than 10% of the Company's total net sales. This distributor accounted for approximately 35% and 33% of net sales, respectively. For the six months ended September 29, 2007, one customer accounted for approximately 10% of the Company's total net sales.

NOTE 6. STOCK, OPTIONS AND STOCK-BASED COMPENSATION

Stock-based compensation. The Company has a stock-based compensation program that includes non-statutory stock option awards and restricted stock awards ("RSAs"). Stock options are generally time-based, vesting 25% on the first anniversary of the grant-date and monthly thereafter over the next three years and expire ten years from the grant-date. As of September 27, 2008, the Company had 2,125,577 shares available for grant under all plans.

Additionally, the Company has an Employee Stock Purchase Plan ("ESPP") that allows employees to purchase shares of common stock at 85% of the fair market value at the lower of either the date of enrollment or the date of purchase. In addition to the shares available for issuance under the stock option and restricted stock plans, the Company had approximately 942,378 shares of common stock reserved for future issuance under its ESPP plan as of September 27, 2008.

The Company has a fiscal 2009 Employee Stock Incentive Program ("SIP") that provides eligible employees an incentive award based upon the Company's achievement of goals related to revenue growth and product and customer program development. The incentive award is calculated as a fixed dollar amount in the first and second half of fiscal 2009 and is settled in the form of restricted stock awards. The classification of obligations and expense recognition related to these awards is recognized in accordance with FASB Statement 150 "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity" and SFAS 123R "Share Based Payments". During the three and six months period ended September 27, 2008, the Company recognized \$0.2 million and \$0.1 million, respectively of stock compensation expenses related to the SIP. The total value of the SIP earned by eligible employees for the first half of fiscal 2009 was \$0.7 million with an unrecognized portion of \$0.4 million that will be recognized ratably through the expected final vesting date of May 8, 2009. SIP stock awards for the first half of fiscal 2009 were made at the market price on September 27, 2008. Currently, the estimated shares expected to be issued are 234, 612 at the closing market price of \$3.19 per share.

During the three and six month periods ended September 27, 2008, the Company recorded \$0.3 million and \$0.8 million in stock compensation expense which includes the applicable compensation expenses for the Company's fiscal 2009 stock incentive plan, respectively. In comparison, for the three and six months ended September 29, 2007, the Company recorded \$0.4 million and \$0.8 million of stock compensation expense, respectively.

The following table sets forth the total stock-based compensation expense resulting from equity plans and incentive programs included in the Company's unaudited condensed consolidated statements of operations (unaudited, in thousands):

	Three Months Ended		Six Months Ended	
	Sept. 27, 2008	Sept. 29, 2007	Sept. 27, 2008	Sept. 29, 2007
Cost of sales	\$ 30	\$ 31	\$ 73	\$ 67
Research and development	85	68	220	151
Selling, general and administrative	211	287	467	573
Total stock-based compensation expense	<u>\$ 326</u>	<u>\$ 386</u>	<u>\$ 760</u>	<u>\$ 791</u>

The fair value of stock-based awards expense resulting from equity plans was estimated on the date of grant using the Black-Scholes valuation pricing model with the following weighted-average assumptions:

<u>Stock Options</u>	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>Sept. 27, 2008</u>	<u>Sept. 29, 2007</u>	<u>Sept. 27, 2008</u>	<u>Sept. 29, 2007</u>
Expected life (in years)	4.8	5.2	4.8	5.2
Interest rate	3.3%	4.3%	3.3%	4.6%
Volatility	49.1%	45.0%	49.1%	44.6%
Dividend yield	-	-	-	-
Weighted-average per share fair value at grant date	\$ 1.53	\$ 1.77	\$ 1.54	\$ 2.07

<u>Employee Stock Purchase Plan</u>	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>Sept. 27, 2008</u>	<u>Sept. 29, 2007</u>	<u>Sept. 27, 2008</u>	<u>Sept. 29, 2007</u>
Expected life (in years)	0.7	0.9	0.7	0.7
Interest rate	1.9%	5.0%	2.2%	5.0%
Volatility	64.7%	38.6%	59.9%	36.0%
Dividend yield	-	-	-	-
Weighted-average per share fair value at grant date	\$ 0.91	\$ 0.89	\$ 0.87	\$ 0.86

The computation of expected volatility for the three and six months ended September 27, 2008 and September 29, 2007 is based on a blended calculation of historical and market-based implied volatility. The computation of expected life is based on a combination of historical and expected exercise patterns. The interest rate for periods within the contractual life of the award is based on the U.S. Treasury yield curve in effect at the time of grant.

Stock option activity for the six months ended September 27, 2008, is as follows (unaudited):

	<u>Shares (000's)</u>	<u>Weighted- Average Exercise Price (per share)</u>	<u>Weighted- Average Remaining Contractual Term (years)</u>	<u>Aggregate Intrinsic Value (000's)</u>
Outstanding at March 31, 2008	2,083	\$ 4.89		
Grants	26	\$ 3.43		
Exercises	(3)	\$ 2.70		
Forfeitures or expirations	(19)	\$ 7.07		
Outstanding at June 28, 2008	2,087	\$ 4.85		
Grants	42	\$ 3.38		
Exercises	(2)	\$ 2.70		
Forfeitures or expirations	(31)	\$ 4.40		
Outstanding at September 27, 2008	<u>2,096</u>	<u>\$ 4.83</u>	<u>7.5</u>	<u>\$ 108</u>
Outstanding Vested and Expected to Vest at September 27, 2008	<u>1,880</u>	<u>\$ 4.97</u>	<u>7.4</u>	<u>\$ 98</u>
Exercisable at September 27, 2008	<u>982</u>	<u>\$ 6.17</u>	<u>6.1</u>	<u>\$ 50</u>

The aggregate intrinsic value in the table above represents the total pretax intrinsic value, that is, the difference between the Company's closing stock price on the last trading day of the period and the exercise price times the number of shares that would have been received by the option holders had all option holders exercised their options on September 27, 2008. This amount will change based on fluctuations of the fair market value of the Company's stock. The total intrinsic value of options vested and expected to vest is approximately \$98,000 at September 27, 2008.

There were 2,449 and 5,240 stock option exercises during the three and six months ended September 27, 2008, respectively. The weighted-average exercise price of options granted for the three and six months ended September 27, 2008 and September 29, 2007 was \$3.38 and \$3.41 per share, respectively.

No income tax benefit was realized from stock option exercises during the three and six months ended September 27, 2008 and September 29, 2007. In accordance with SFAS 123R, the Company presents excess tax benefits from the exercise of stock options, if any, as financing cash flows rather than operating cash flows.

As of September 27, 2008, \$1.18 million of total unrecognized compensation costs related to stock options is expected to be recognized over a weighted-average remaining period of 2.66 years. The total unrecognized compensation cost related to restricted shares granted as of September 27, 2008 is less than \$0.1 million, which is expected to be recognized over a weighted-average remaining period of 0.4 years.

NOTE 7. CONTINGENCIES

On August 11, 2005, Microchip Technology, Inc. ("Microchip") filed a patent infringement claim against the Company in the U.S. District Court of Arizona (case number CV05-2406-PHX-MHM). Microchip alleges that the Company has infringed, and currently infringes, its patents numbered 5,847,450, 6,696,316 and 6,483,183. Microchip claims that unspecified products of the company, including the Z8 Encore! XP 4K Series of products, infringe these patents and is seeking preliminary and permanent injunctive relief, unspecified damages and costs, including attorneys' fees. The Company filed a response to the claims on September 15, 2005 generally denying the claims and challenging the validity of the patents. On January 10, 2006, the Company filed a request for patent re-examination with the U.S. PTO, which was granted in February and March 2006 for all 3 patents. On April 11, 2008, the Company received a notice that all of Microchip's claims under these three patents have been rejected by the U.S. PTO. Notwithstanding this favorable ruling, because Microchip has a right to appeal the patent office's decision, the Company does not believe it is feasible to predict or determine the outcome or resolution of this litigation at this time. The Company believes it has meritorious defenses and will defend itself vigorously against these claims. The Company may incur substantial expenses in its defense against these claims. In the event of a determination adverse to the Company, it may incur substantial monetary liabilities and be required to change our business practices. Either of these could have a material adverse effect on its financial position, results of operations and/or cash flows.

On December 1, 2006, the Company filed a patent infringement claim against Altera Corporation ("Altera") and Actel Corporation ("Actel") in the U.S. District Court of California (civil docket number 4:06-cv-07388-SBA). The Company alleges that Altera and Actel have infringed, and currently infringe, its patent numbered 4,670,749 which the Company believes to be the fundamental patent for programmable logic. The Company claims that Altera's and Actel's products infringe these patents and is seeking unspecified damages and costs, including attorneys' fees. Actel settled their case with the Company on June 11, 2007 for an undisclosed amount. The case against Altera is currently on stay pending reexamination of the patent in suit.

On May 23, 2008, Altera filed a patent infringement claim against the Company in the U.S. District Court of Texas (civil action number 2:08-CV-218). Altera alleges that the Company has infringed, and currently infringes, its patents numbered 6,097,211, 6,147,511 and 6,314,550. Altera claims that unspecified products of the Company's, including its eZ80 and Zneo series of products, infringe these patents and is seeking preliminary and permanent injunctive relief, unspecified damages and costs, including attorneys' fees. The Company does not believe it is feasible to predict or determine the outcome or resolution of this litigation at this time. The Company will defend itself vigorously against these claims. The Company may incur substantial expenses in its defense against these claims. In the event of a determination adverse to the Company, it may incur substantial monetary liabilities, and be

required to change its business practices. Either of these could have a material adverse effect on its financial position, results of operations or cash flow.

The Company is participating in other litigation and responding to other claims arising in the ordinary course of business. The Company intends to defend itself vigorously in these matters. The Company's management believes that it is unlikely that the outcome of these matters will have a material adverse effect on the Company's financial statements, although there can be no assurance in this regard.

From time to time the Company has agreed to indemnify and hold harmless certain customers for potential allegations of infringement of intellectual property rights and patents arising from the use of its products. During the ordinary course of business, in certain limited circumstances, the Company has agreed to reimburse the indemnified party for losses suffered or incurred by the indemnified party, generally parties with which the Company has commercial relations, in connection with certain intellectual property infringement claims by any third party with respect to its products and services. The Company has indemnification arrangements that limit its net contingent obligation to pay for defense costs, if any, up to a maximum of \$2 million. To date, there have not been any costs incurred in connection with such indemnification arrangements; therefore, there is no accrual of such amounts at September 27, 2008. The Company discloses indemnification liabilities according to FASB Staff Position FIN 45-1, "Accounting for Intellectual Property Infringement Indemnifications under FAS Interpretation No. 45." Under FAS No. 5, "Loss Contingencies," a claim would be accrued when a loss is probable and the amount can be reasonably estimated. At September 27, 2008, no such amounts are accrued.

In connection with the lease in July 2007 for its new corporate headquarters located in San Jose, California, the Company established an Irrevocable Letter of Credit in the amount of \$0.3 million with its bank for the security deposit.

NOTE 8. SHORT-TERM DEBT AND LICENSE AGREEMENTS

During the fiscal year ended March 31, 2008, the Company entered into a short term financing agreement totaling \$1.4 million. Borrowings on the agreement bear interest at a rate per annum equal, at the Company's option, to the Lender's stated prime rate or LIBOR, plus 1.75% which was 5.0% at September 27, 2008. As of September 27, 2008, the Company had \$1.0 million of borrowings outstanding under this agreement payable through June, 2009. As noted previously, the Company had \$0.3 million of standby letters of credit with its bank as of September 27, 2008 and September 29, 2007, respectively.

In October 2007, the Company entered into a three year development software license agreement beginning December 30, 2007 for a total of license fee of \$2.2 million. The Company retains perpetual use of the software at the end of the agreement. The total unpaid portion of \$0.6 million has been included in short and long-term liabilities on the Company's consolidated balance sheet as of September 27, 2008.

In April 2008, the Company entered into a three-year agreement to license certain technologies to further develop its 32-bit ARM core based technology. The total cost of this agreement was \$2.4 million and the unpaid portion of \$2.2 million has been included in short and long-term liabilities on the Company's consolidated balance sheet as of September 27, 2008.

NOTE 9. INCOME TAXES

The Company adopted the provisions of Financial Standards Accounting Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 ("FIN48") effective April 1, 2007. In connection with the adoption of FIN 48, the Company has analyzed filing positions in all of the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions.

As of September 27, 2008, the total amount of unrecognized tax benefits was approximately \$5.4 million of which \$4.6 million is recorded as a deferred tax asset that is fully offset by a valuation allowance and \$0.8 million which if recognized would affect the Company's effective tax rate. The calculation of unrecognized tax benefits involves dealing with uncertainties in the application of complex global tax regulations. Management assesses the Company's

tax positions in light of legislative, bilateral tax treaty, regulatory and judicial developments in the countries in which the Company does business.

A valuation allowance is required to be recorded if in management's judgment, based on available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Based on available evidence, management has concluded that a valuation allowance is necessary to reduce the net deferred tax asset. Accordingly, deferred tax assets have been recognized only to the extent of deferred tax liabilities.

The Company recognizes interest in accordance with Paragraph 15 of FIN48 and recognizes penalties in accordance with Paragraph 16 of FIN48 which are classified as part of income taxes. As of September 27, 2008, the Company had approximately \$0.1 million of accrued interest and penalties related to uncertain tax positions.

The Company's operations are subject to income and transaction taxes in the United States and in multiple foreign jurisdictions. Significant estimates and judgments are required in determining its worldwide provision for income taxes. Some of these estimates are based on interpretations of existing tax laws or regulations and as a result the proper amount of tax liability may be uncertain.

The Company is subject to taxation in the United States and various states and foreign jurisdictions. There are no ongoing examinations by taxing authorities at this time. The Company's various tax years beginning in 2001 through 2007 remain open in various taxing jurisdictions.

During the three and six months ended September 27, 2008, the Company's income tax provision was \$0.1 million and \$0.2 million, respectively, which primarily reflects provisions for taxes in certain profitable foreign jurisdictions. During the three and six months ended September 29, 2007, the Company's income tax provision was \$0.1 million and \$0.6 million, respectively, which primarily reflects amortization of deferred charges and provisions for taxes in certain profitable foreign jurisdictions.

The Company provides for income tax expense in foreign jurisdictions where its foreign subsidiaries operations generate profits that are taxable. The Company's income tax expense reflects the estimated annual effective tax rate at that time based on projections of operations. Tax authorities may challenge the allocation of profits between the Company's subsidiaries and may challenge certain tax benefits claimed on its tax returns, and the Company may not prevail in any such challenge. If the Company were not to prevail, it could be subject to higher tax rates or lose certain tax benefit that could result in a higher tax rate.

NOTE 10. RETIREMENT AND BENEFIT PLANS

U.S. 401(k) retirement plan: The Company has an employee savings plan that qualifies as a deferred salary arrangement under Section 401(k) of the Internal Revenue Code (the "401(k) Plan"). Under the 401(k) Plan, participating U.S. employees may defer a portion of their pretax earnings, up to the Internal Revenue Service annual contribution limit. The Company may make matching contributions on behalf of each participating employee in an amount equal to 100% of the participant's deferral contribution, up to 1.5% of the participant's compensation on a quarterly basis. The Company may also make additional discretionary contributions to the 401(k) Plan. Matching contributions to the 401(k) Plan were less than \$0.1 million for the six months ended September 27, 2008 and the six months ended September 29, 2007, respectively. There were no discretionary contributions made in the six months ended September 27, 2008 and the six months ended September 29, 2007, respectively.

Philippine defined benefit plan: The Company's Philippines subsidiary maintains a defined benefit pension plan for local employees, which is consistent with local statutes and practices. The Company has adopted SFAS 158, which supersedes the previous accounting under SFAS 87. As of September 27, 2008 based on its actuarial report as of March 31, 2008, the pension plan was over-funded by approximately \$0.1 million which is classified as other assets on the consolidated balance sheet. The over-funded position generally reflects a decline in the number of employees who are eligible for entitlements under the plan, coupled with increased returns on the plan assets that are greater than the increase in the employees' entitlement liabilities. During the six months ended September 27, 2008, the net periodic benefit costs were immaterial.

During the six months ended September 27, 2008, the Company received \$0.7 million of plan assets as entitlement benefits for terminated employees, which was included in the net severance payments related to the Company's restructuring and outsourcing activities in its Philippines operations.

Additionally in May 2007, the Company received a refund of \$0.7 million from its Philippines defined benefit plan related to its prior over funded status. The refund was recorded as a credit to special charges during the six months ended September 29, 2007.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors including those set forth in the section entitled "Risk Factors" in our Form 10-K for the year ended March 31, 2008 and in other sections of this quarterly report.

Overview

The following is management's discussion and analysis of financial condition and results of our operations and those of our subsidiaries for the three-month and six-month periods ended September 27, 2008 and September 29, 2007. This discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto included elsewhere herein and in our 2008 annual report on Form 10-K. Management's discussion and analysis provides information concerning our business environment, consolidated results of operations and liquidity and capital resources.

Our fiscal year ends on March 31 with interim results based on fiscal quarters of approximately thirteen weeks in duration ending on the closest Saturday to each calendar quarter end, with the exception of the fourth quarter, which ends on March 31. The operating results for any interim period are not necessarily indicative of results for any subsequent period or the full fiscal year.

Critical Accounting Estimates

Our critical accounting policies are disclosed in the Annual Report on Form 10-K for the year ended March 31, 2008 and have not changed materially as of September 27, 2008, with the exception of the following:

On an on-going basis, we evaluate our estimates and assumptions, including those related to sales returns, allowance for doubtful accounts, inventory write-downs, asset impairments, stock-based compensation expense and deferred taxes. We base our estimates on historical trends and various other assumptions that we believe to be reasonable at the time the estimates are made. Actual results may differ from those estimates. Critical accounting estimates are described in our Form 10-K for the 2008 fiscal year ended March 31, 2008, filed on June 30, 2008.

Reporting Segments

We conduct our business in one reportable segment to reflect the manner in which our chief operating decision-maker allocates resources and assesses the performance of our business.

Results of Operations

Our net sales by region, by channel, and by product category are summarized for each period indicated, as follows (unaudited, in thousands):

	Three Months Ended		Six Months Ended	
	Sept. 27, 2008	Sept. 29, 2007	Sept. 27, 2008	Sept. 29, 2007
Net sales by region:				
Americas	\$ 6,084	\$ 4,798	\$ 11,729	\$ 11,211
Asia	10,604	9,519	20,220	17,739
Europe	2,338	2,342	5,231	4,498
Total net sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448
Net sales by channel:				
Direct	\$ 9,400	\$ 6,693	\$ 18,502	\$ 13,592
Distribution	9,626	9,966	18,678	19,856
Total net sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448

	Three Months Ended		Six Months Ended	
	Sept. 27, 2008	Sept. 29, 2007	Sept. 27, 2008	Sept. 29, 2007
Net sales by product category:				
New Products	\$ 12,048	\$ 8,304	\$ 23,112	\$ 17,199
8-bit classic products	6,978	8,355	14,068	16,249
Total Net Sales	\$ 19,026	\$ 16,659	\$ 37,180	\$ 33,448

Key Metrics

Other key indices relevant in understanding our business and financial performance include the following metrics (unaudited):

	Three Months Ended	
	Sept. 27, 2008	Sept. 29, 2007
Days sales outstanding	34	43
Net sales to inventory ratio (annualized)	10.0	7.7
Weeks of inventory at distributors	10	12
Current ratio	1.6	2.1

We calculate each of these key metrics based on annualized quarterly results of operations data and balance sheet data as of the end of the period indicated. Each of these key metrics is described below:

Days sales outstanding, DSO, is a common metric used to analyze how quickly our customers pay us. This metric is influenced largely by the timing of our customer billings, collections, and individual payment terms. At September 27, 2008, our DSO was 34 days as compared to 43 days at September 29, 2007. This improvement in DSO is largely due to increased linearity of our shipments in the quarter ended September 27, 2008 versus the comparable quarter a year ago, thus allowing a higher portion of customer receivables to be collected during the quarter in which they were sold.

Net sales to inventory ratio is a metric we use to analyze how quickly our investment in inventories is recovered by our sales and is calculated by dividing ending inventory into sales for the quarter annualized. This metric may not be comparable to other companies who use inventory ratios to analyze inventory and is not the same as a typical inventory turns ratio. Our annualized net sales to inventory ratio increased to 10 from 7.7 in the quarter ended September 27, 2008 compared to the quarter ended September 29, 2007 reflecting lower inventory levels on significantly higher sales. We have continued to manage inventories closely and improve the overall mix of the products as compared to revenue and revenue forecasts.

Weeks of inventory at distributors measures how quickly our distributors sell the inventories that we sell to them. We do not recognize revenue on shipments to distributors until our distributors resell our products. Although our distributors in various regions of the world maintain different inventory stocking levels, globally we maintain 10 to 13 weeks of inventories at our distributors. Both actual inventory levels and the weeks of inventory at distributors decreased in the quarter reflecting generally lower inventory levels held by our distributors versus their resale levels. Distributors have continued to reduce their overall inventory levels given the deterioration in the global economic environment.

Current ratio represents current assets divided by current liabilities and is commonly used to assess a company's liquidity. We use this ratio to make spending determinations on discretionary items. Our current ratio as of September 27, 2008 was 1.6 a decrease from 2.1 as of September 29, 2007. This decrease is primarily due to a decrease in cash which was used for working capital needs and the reclassification of our ARPS from cash and cash equivalents to long-term investments, offset by a decline in deferred income on shipments to our distributors as their inventory levels decreased.

Three Months Ended September 27, 2008 Compared to Three Months Ended September 29, 2007

Net Sales. Net sales were \$19.0 million for the quarter ended September 27, 2008, an increase of 14 percent as compared to net sales of \$16.7 million for the quarter ended September 29, 2007.

Net sales of our new products which include our 32-bit Zatara secured transactions microprocessors, universal remote control solutions and 8-bit embedded flash microcontrollers increased 45 percent to \$12.0 million for the three months ended September 27, 2008 compared to \$8.3 million for the three months ended September 29, 2007. This increase reflects an increase in our 32-bit Zatara product sales for the point of sale market, an increase in sales

of our remote control solutions reflecting continued customer expansion and existing customer growth with new programs, including shipments of our new low power Crimson™ products, partially offset by a decrease in our embedded flash sales reflecting lower sales to customers primarily in the consumer market.

Net sales of our 8-bit classic products, consisting of our traditional Z8, Z80 and SCC products decreased by 16% to \$7.0 million for the quarter ended September 27, 2008, from \$8.3 million for the quarter ended September 29, 2007, reflecting a decline in demand for certain consumer, security and telecommunications applications and lower distribution resales into the broad based general purpose market including industrial market applications.

Compared to year ago levels, we have continued to experience a reduction in sales reflecting the impact of the global economic crisis, especially as it relates to the sales of our consumer based products.

Gross Margin. Cost of sales primarily represents manufacturing costs relating to wafer fabrication, package assembly, product testing operations and logistics costs. Cost of sales fluctuates, depending on materials and services prices from our vendors, manufacturing productivity, product mix, equipment utilization and depreciation. Gross margin as a percent of net sales was 46 percent of sales for the quarter ended September 27, 2008 relatively consistent with gross margin percent for the quarter ended September 29, 2007. Overall gross margin was higher in the quarter than for the comparable quarter a year ago reflecting higher shipment volumes and overall higher revenues. Costs and associated margins can be influenced by the variation in the mix of products sold.

Research and Development Expenses. Research and development expenses were \$4.0 million for the quarter ended September 27, 2008 and were relatively consistent with expenditures of \$3.9 million for the quarter ended September 29, 2007. Research and development spending for the quarter ended September 27, 2008 reflects continued development of products for the Company's three focused markets and applications : universal remote controls, secured transaction processors and embedded flash microcontrollers.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$5.9 million for the quarter ended September 27, 2008 from \$5.1 million for the quarter ended September 29, 2007. Both sales and marketing and general and administrative costs increased reflecting costs to support new sales and marketing programs, professional fees associated with our proxy contest and our strategic alternatives review as well as the incremental costs of the fiscal 2009 employee incentive plans and expenses associated with first half scores for the plans versus the pre-established incentive goals that included revenue growth and product and customer program development.

Special Charges and Credits. Special charges and credits for the periods indicated were as follows (unaudited, in thousands):

	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>Sept. 27,</u>	<u>Sept. 29,</u>	<u>Sept. 27,</u>	<u>Sept. 29,</u>
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Restructuring of operations:				
Engineering consolidation severance and termination costs	\$ -	\$ 124	\$ -	\$ 883
MOD II maintenance and selling costs	-	-	-	248
Manufacturing test outsources:				
Employee severance and other costs	263	311	292	388
Other	291	36	852	36
Reimbursement of retirement benefits - Philippines defined benefit plan	-	-	-	(661)
Total special charges and credits	<u>\$ 554</u>	<u>\$ 471</u>	<u>\$ 1,144</u>	<u>\$ 894</u>

During the quarter ended September 27, 2008, special charges totaled \$0.6 million representing costs associated with our manufacturing test operations outsource activities. During the quarter ended September 29, 2007, special charges totaled \$0.5 million representing severance and termination costs associated with the consolidation of our research and development sites.

Amortization of Intangible Assets. Under the provisions of SFAS No. 142, “Goodwill and Other Intangible Assets”, goodwill and intangible assets with indefinite lives are not amortized, but are reviewed annually or more frequently if impairment indicators arise.

We performed our annual impairment test of goodwill and intangible assets during the quarter ended March 31, 2008. As of September 27, 2008, there was no indication of impairment of our intangible assets’ carrying value.

Separable intangible assets that are deemed to have defined lives have been recorded and continue to be amortized over their useful lives. These intangible assets are being amortized utilizing the pattern-of-use method over their estimated useful lives of six years for current technology and ten years for brand name.

The separable intangible assets identified in connection with fresh-start accounting and included in the unaudited condensed consolidated balance sheet are as follows (in thousands):

	Current	Brand	
	Technology	Name	Total
Gross carrying amount, recorded May 2002	\$ 16,959	\$ 9,243	\$ 26,202
Accumulated amortization	16,943	7,148	24,091
Book value at September 27, 2008	<u>\$ 16</u>	<u>\$ 2,095</u>	<u>\$ 2,111</u>

The anticipated remaining amortization schedule for these assets is as follows (unaudited, in thousands):

	Current	Brand	
Fiscal Year	Technology	Name	Total
2009 - remaining 2 quarters	\$ 16	\$ 368	\$ 384
2010	-	680	680
2011	-	617	617
2012	-	430	430
Total	<u>\$ 16</u>	<u>\$ 2,095</u>	<u>\$ 2,111</u>

Interest and Other Income (Expense). Interest income relates to interest earned on our cash and cash equivalents included in our short-term investment portfolio and auction rate preferred securities. Cash equivalents are primarily invested in money market funds and high-grade commercial paper with maturities of 90 days or less. Interest income for the quarter ended September 27, 2008, was \$0.1 million as compared to \$0.2 million for the quarter ended September 29, 2007. The lower interest income in the quarter ended September 27, 2008 is due to lower average invested cash balances, lower interest rates and a more conservative investment strategy given the continued uncertainty in the global money markets. Other income (expense) primarily includes other income and expense reflecting foreign currency gains and losses. During the quarter ended September 27, 2008, \$0.3 million other income primarily relates to foreign exchange gains. During the quarter ended September 29, 2007, other expense primarily includes foreign currency losses.

Income Taxes. For the quarter ended September 27, 2008, our income tax provision reflects provisions for taxes in certain profitable foreign jurisdictions. For the quarter ended September 29, 2007, the income tax provision reflects the amortization of deferred charges and provisions for taxes in certain profitable foreign jurisdictions. The amortization of deferred charges is now complete and as such, no amortization charges were required to be recorded in the quarter ended September 27, 2008. We anticipate operating at a loss for U.S. tax purposes for the fiscal year ending March 31, 2009 however, we provide for income tax expense in foreign jurisdictions where the foreign subsidiaries' operations generate profits that are taxable.

Deferred tax assets have been recorded net of valuation allowances. A valuation allowance is required to be recorded if in management's judgment, and based on available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Based on available evidence, we have concluded that a valuation allowance is necessary and have reduced our net deferred tax assets to the extent of our deferred tax liabilities.

Six Months Ended September 27, 2008 Compared to Six Months Ended September 29, 2007

Net Sales. Net sales were \$37.2 million for the six months ended September 27, 2008, an increase of 11 percent as compared to net sales of \$33.4 million for the six months ended September 29, 2007.

Net sales of our new products which include our 32-bit Zatar secured transactions microprocessors, universal remote control solutions and 8-bit embedded flash microcontrollers increased 34 percent to \$23.1 million for the six months ended September 27, 2008 compared to \$17.2 million for the six months ended September 29, 2007. This increase reflects an increase in our 32-bit Zatar product sales for the point of sale market, an increase in sales of our remote control solutions reflecting continued customer expansion and existing customer growth with new programs, including shipments of our new low power CrimzonTM products, partially offset by a decrease in our embedded flash sales.

Net sales of our 8-bit classic products, consisting of our traditional Z8, Z80 and SCC products decreased by 13% to \$14.0 million for the six months ended September 27, 2008, from \$16.3 million for the six months ended September 29, 2007, reflecting a decline in demand for certain consumer, security and telecommunications applications and lower distribution resales into the broad based general purpose market including industrial market applications.

Compared to year ago levels, we have continued to experience a reduction in sales reflecting the impact of the global economic crisis, especially as it relates to the sales of our consumer based products.

Gross Margin. Cost of sales primarily represents manufacturing costs relating to wafer fabrication, package assembly, product testing operations and logistics costs. Cost of sales fluctuates, depending on materials and services prices from our vendors, manufacturing productivity, product mix, equipment utilization and depreciation. Gross margin was 46.7 percent of net sales for the six months ended September 27, 2008, compared to gross margin of 45.2 percent for the six months ended September 29, 2007. During the six months ended September 27, 2008, our gross margin increase was primarily the result of a higher mix of our higher margin Zatar and universal remote control products. Additionally, we have been able to improve certain components of product costs including reductions in wafer costs from suppliers and enhanced yields and improved output as a result of focus on cost improvement programs.

Research and Development Expenses. Research and development expenses were \$7.9 million for the six months ended September 27, 2008 as compared to \$8.4 million for the six months ended September 29, 2007. Research and development spending for the six months ended September 27, 2008 is lower compared to the six months ended September 29, 2007 reflecting overall lower variable costs associated with the development programs as certain of the programs came to completion.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$11.5 million for the six months ended September 27, 2008 from \$10.1 million for the six months ended September 29, 2007. The increase in our selling, general and administrative spending reflects overall higher sales support costs for

the field and distribution channel and increased marketing costs in promotion and support of market development. General and administrative costs were higher reflecting higher professional costs associated with the proxy contest and the strategic alternatives review. Additionally, S,G&A was higher for the six months ended September 27, 2008 reflecting the fiscal 2009 employee incentive compensation plans and expenses associated with first half scores for the plans versus the pre-established incentive goals that included revenue growth and product and customer program development.

Special Charges and Credits. Specials charges and credits totaled \$1.1 million for the six months ended September 27, 2008 as compared to \$0.9 million for the six months ended September 29, 2007. The 2008 charges primarily reflect the manufacturing test operations outsource and the 2007 special charges include the consolidation of the research and development sites. Additionally, the 2007 charges included \$0.2 million for the MOD II facility held for sale and the associated maintenance and selling costs of that site in Nampa, Idaho. This was offset by a \$0.7 million refund received from our Philippines defined benefit plan as the plan was in an overfunded position.

Interest Income and Expense. Interest income relates to interest earned on our cash and cash equivalents. Cash equivalents are primarily invested in a mixture of treasury backed securities, money market funds and high-grade commercial paper with maturities of 90 days or less. Interest income for the six months ended September 27, 2008 was \$0.1 million as compared to \$0.5 million for the six months ended September 29, 2007. The lower interest income is the result of a lower cash balance as well as the investment in treasury guaranteed short term investments yielding lower interest rates. During 2008, with the anomalies in the financial market and the uncertainty caused by tightening of liquidity requirements, including the failure of the ARPS, we moved a considerable amount of our cash and cash equivalents to government guaranteed securities to ensure availability and safety. Other income expense was \$0.4 million income for the six months ended September 27, 2008 as compared to \$0.1 million expense for the six months ended September 29, 2007. The income in 2008 primarily reflects currency exchange gains on the strengthening US dollar versus the currencies of India and the Philippines versus currency losses in 2007.

Income Taxes. For the six months ended September 27, 2008 and September 29, 2007 our income tax provisions were \$0.2 million and \$0.6 million, respectively. For the six months ended September 27, 2008, our income tax provision reflects the provisions for taxes in certain profitable foreign jurisdictions. For the six months ended September 29, 2007, our income tax provision reflects the amortization of deferred charges, provisions for taxes in certain profitable foreign jurisdictions and the release of a 2003 tax reserve on which the statute of limitation expired during the quarter ended September 29, 2007. We have operated at a cumulative loss for U.S. tax purposes and we provide for income tax expense in foreign jurisdictions where the foreign subsidiaries operations generate profits that are taxable.

Deferred tax assets have been recorded net of valuation allowances. A valuation allowance is required to be recorded if in management's judgment, and based on available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Based on available evidence, we have concluded that a valuation allowance is necessary and have reduced our net deferred tax assets to the extent of our deferred tax liabilities.

Liquidity and Capital Resources

As of September 27, 2008, we had \$1.0 million of bank borrowings outstanding primarily reflecting borrowings under a short term bank arrangement utilized to finance a three-year license agreement for engineering development software. As of September 29, 2007, we had no debt or bank borrowings outstanding. Additionally, in April 2008, we entered into a three-year agreement to license certain technologies to further develop our 32-bit ARM core based technology. The total cost of this agreement was \$2.4 million and the unpaid portion of \$2.2 million has been included in short and long-term liabilities on our consolidated balance sheet as of September 27, 2008.

We had \$0.3 million in standby letters of credit as of September 27, 2008 and as of September 29, 2007 related to the lease for our corporate headquarters facility in San Jose, California.

At September 27, 2008, we had cash and cash equivalents of \$16.9 million, compared to \$16.6 million as of March 31, 2008. We classified \$1.45 million of our Auction Rate Preferred Securities ("ARPS"), as long-term investments as of September 27, 2008, due to the continued disruption in the credit markets that resulted in widespread failed auctions. Those failed auctions resulted in a loss of liquidity for sellers but did not constitute a default by the issuer of the underlying security. As of March 31, 2008 we held \$3.9 million in ARPS and subsequently have received \$2.5 million from the redemptions of our ARPS, which have been included in cash and cash equivalents as of September 27, 2008.

We adopted SFAS No. 157 (SFAS 157), "Fair Value Measurements," on April 1, 2008. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad categories for disclosure to show the extent and level of judgment used to estimate fair value measurements. In determining fair value, we use various valuation techniques, including market and income approaches to value available-for-sale investments. The availability of observable inputs can vary from instrument to instrument and to the extent that valuation is based on inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. The degree of judgment exercised by our management in determining fair value is greatest for instruments categorized in Level 3. All of our ARPS have AAA credit ratings, are 100% collateralized and continue to pay interest in accordance with their contractual terms. The issuers reported collateralized asset value ranges which exceed the value of ARPS held by us by 200 to 300 percent. Accordingly, our remaining ARPS balance of \$1.45 million has been categorized as Level 2 for fair value measurement and has been recorded at full par value on our consolidated balance sheet as of September 27, 2008. We believe the ARPS values are not impaired and as such, no impairment has been recognized against the investment. If the investment bankers are unable to successfully close future auctions and their credit rating continues to deteriorate, we may be required to record an impairment charge against the value of our ARPS investments.

We believe that existing cash, cash equivalents and investments, together with any cash generated from operations will be sufficient to meet normal operating requirements including capital expenditures for the next twelve months.

Cash Flows From Operating Activities. During the six months ended September 27, 2008, net cash used by operating activities was \$0.2 million compared to \$1.8 million net cash used in operating activities during the six months ended September 29, 2007. This \$1.6 million improvement primarily reflects the lower net loss of \$1.7 million resulting from higher sales and higher gross margin. Additionally, cash was provided by a reduction of inventory levels of \$1.0 million, and increases in accounts payable and accrued employee benefits. This was by offset by changes in other assets and liabilities including the reduction in non-cash deferred charges that were amortized in fiscal 2008.

Cash Flows From Investing Activities. During the six months ended September 27, 2008, net cash provided by investing activities was less than \$0.1 million, a decrease of \$2.2 million from \$2.3 million during the six months ended September 29, 2007. Cash provided by investing activities in the six months ended September 27, 2008 includes \$0.5 million of redemptions of our investment in ARPS classified as long term investments, partially offset by \$0.4 million of software and IT infrastructure related capital expenditures. Cash provided by investing activities in the six months ended September 29, 2007 included the sale of our MOD II facility for a gross sales price of \$3.2 million offset by the purchase of \$1.0 million of capital expenditures primarily related to our headquarter facility relocation.

Cash Flows From Financing Activities. During each of the six month periods ended September 27, 2008 and September 29, 2007, \$0.4 million and \$0.1 million in net cash were provided by financing activities, respectively. During the six months ended September 27, 2008, our financing activities included the receipt of cash under our short term financing arrangement of \$0.6 million offset by payments of \$0.3 million and \$0.1 million from proceeds from the issuance of common stock under employee stock purchase and stock option plans. During the six months ended September 29, 2007, \$0.3 million of cash was provided by proceeds from the issuance of common stock under employee stock option and stock purchase plans.

Contractual Obligations. We lease certain of our facilities and equipment under non-cancelable operating leases, which expire in fiscal 2009 through fiscal 2014. These facility lease agreements generally provide for base rental rates, which may increase at various times during the terms of the leases and also provide for renewal options at fair market rental value. We are also responsible for common area maintenance charges on certain office leases, which are not included in the table below. These charges are generally less than 10% of base rents.

		Payment due by period (unaudited, in thousands)			
	Total	Within 1 year	1-3 years	3-5 years	Greater than 5 years
Operation lease obligations	\$ 5,421	\$ 1,647	\$ 2,609	\$ 1,145	\$ 20
Purchase obligations	5,996	4,612	1,366	18	-
Total	\$ 11,417	\$ 6,259	\$ 3,975	\$ 1,163	\$ 20

We generally make purchases under cancelable purchase orders and do not enter into long-term supply agreements. Certain of our wafer foundry, assembly, materials suppliers, software vendors and support tool manufacturers require non-cancelable purchase orders since they often provide products and services tailored to our specifications.

On September 24, 2008, we renewed the lease of our global support facility in the Philippines. The lease extension period is from April 1, 2009 through March 31, 2012 with total lease payment commitments of \$1.8 million. We have options to extend the lease at its expiration in 2012.

From time to time, we have agreed to indemnify and hold harmless certain customers for potential allegations of infringement of intellectual property rights and patents arising from the use of our products. During the ordinary course of business, in certain limited circumstances, we have agreed to reimburse the indemnified party for losses suffered or incurred by the indemnified party, generally parties with which we have commercial relations, in connection with certain intellectual property infringement claims by any third party with respect to its products and services. We have indemnification arrangements that limit our net contingent obligation to pay for defense costs, if any, up to a maximum of \$2 million. To date, there have not been any costs incurred in connection with such indemnification arrangements; therefore, there is no accrual of such amounts at September 27, 2008. We disclose indemnification liabilities according to FASB Staff Position FIN45-1, "Accounting for Intellectual Property Infringement Indemnifications under FAS Interpretation No. 45." Under FAS No. 5, "Loss Contingencies," a claim would be accrued when a loss is probable and the amount can be reasonably estimated. At September 27, 2008, no such amounts have been accrued.

Off-Balance Sheet Arrangements

As of September 27, 2008, we are not involved in any off-balance sheet arrangements, as defined in Item 303(a) (4) (ii) of SEC Regulation S-K

Seasonality

Sales typically increase in the June quarter and peak in the September quarter driven by increased holiday demand from our customers in the home entertainment and consumer products markets. Our sales are generally lower in the March and December quarters as compared to the June and September quarters, although our trends have fluctuated considerably in the most recent periods. Our sales have been impacted by non-seasonal trends including sales reductions by certain direct customers and declines in our classic business. Additionally, general world-wide economic, political and regional instabilities may impact our results of operations in any given period.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates primarily to our short-term investment portfolio. We do not use derivative financial investments in our investment portfolio. Our primary investment objectives are to preserve capital and maintain liquidity. These objectives are met by investing in high-quality credit issuances and limiting the amount of credit exposure to any one company. Our policy is to mitigate default risk by investing in only the highest quality securities and monitoring the credit ratings of such investments.

As of September 27, 2008, our cash and cash equivalents of \$16.9 million were invested in treasury backed bank time deposits and money market funds. Cash and cash equivalents were \$16.6 million at March 31, 2008. Cash and cash equivalents consist primarily of cash in bank accounts and money market accounts, which are readily convertible to cash and have maturities of three months or less at the time of acquisition.

In February 2008, tightening of the U.S. liquidity markets caused the auction rate process to default and our Auction Rate Preferred Securities (“ARPS”) could not be successfully sold. At that time, we had \$3.9 million invested in ARPS. Subsequently, we have received cash proceeds from the redemption at par of \$2.5 million of our ARPS. As of September 27, 2008 our remaining investment in ARPS of \$1.45 million has been classified as long-term investments at full par value on our consolidated balance sheet.

Foreign Currency Exchange Risk

We transact business in various foreign countries of which a significant portion of our consolidated net sales and purchases are denominated in U.S. dollars. Currently, we do not employ a foreign currency hedging program to mitigate our foreign currency exchange risk as we believe the risks to date have not been significant or economically viable to conduct such activities. We maintain local currency bank accounts in our international offices to facilitate payment of local operating costs.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures. The Company’s management, with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company’s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of September 27, 2008. Based on such evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that, as of September 27, 2008, the Company’s disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Internal Control Over Financial Reporting. There have been no changes in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 27, 2008 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

On August 11, 2005, Microchip Technology, Inc. (“Microchip”) filed a patent infringement claim against us in the U.S. District Court of Arizona (case number CV05-2406-PHX-MHM). Microchip alleges that we have infringed, and currently infringe, its patents numbered 5,847,450, 6,696,316 and 6,483,183. Microchip claims that unspecified products of ours, including the Z8 Encore! XP 4K Series of products, infringe these patents and is seeking preliminary and permanent injunctive relief, unspecified damages and costs, including attorneys’ fees. We filed a response to the claims on September 15, 2005 generally denying the claims and challenging the validity of the patents. On January 10, 2006, we filed a request for patent re-examination with the U.S. PTO, which was granted in February and March 2006 for all 3 patents. On April 11, 2008, we received a notice that all of Microchip’s claims under these three patents have been rejected by the U.S. PTO. Notwithstanding this favorable ruling, because Microchip has a right to appeal the patent office’s decision, we do not believe it is feasible to predict or determine the outcome or resolution of this litigation at this time. We believe we have meritorious defenses and will defend ourselves vigorously against these claims. We may incur substantial expenses in our defense against these claims. In the event of a determination adverse to us, we may incur substantial monetary liabilities and be required to change our business practices. Either of these could have a material adverse effect on our financial position, results of operations and/or cash flows.

On December 1, 2006, we filed a patent infringement claim against Altera Corporation (“Altera”) and Actel Corporation (“Actel”) in the U.S. District Court of California (civil docket number 4:06-cv-07388-SBA). We allege that Altera and Actel have infringed, and currently infringe, our patent numbered 4,670,749 which we believe to be the fundamental patent for programmable logic. We claim that Altera’s and Actel’s products infringe these patents and are seeking unspecified damages and costs, including attorneys’ fees. Actel settled their case with us on June 11, 2007 for an undisclosed amount. The case against Altera is currently on stay pending reexamination of the patent in suit.

On May 23, 2008, Altera filed a patent infringement claim against us in the U.S. District Court of Texas (civil action number 2:08-CV-218). Altera alleges that we have infringed, and currently infringe, its patents numbered 6,097,211, 6,147,511 and 6,314,550. Altera claims that unspecified products of ours, including our eZ80 and Zneo series of products, infringe these patents and is seeking preliminary and permanent injunctive relief, unspecified damages and costs, including attorneys’ fees.

We do not believe it is feasible to predict or determine the outcome or resolution of this litigation at this time. We may incur substantial expenses in our defense against these claims. In the event of a determination adverse to us, we may incur substantial monetary liabilities, and be required to change our business practices. Either of these could have a material adverse effect on our financial position, results of operations and/or cash flows.

We are participating in other litigation and responding to claims arising in the ordinary course of business. We intend to defend ourselves vigorously in these other matters. Our management believes that it is unlikely that the outcome of these other matters will have a material adverse effect on our consolidated financial statements, although there can be no assurance in this regard.

Item 1A. Risk Factors

Risk Factors.

In addition to the other information set forth in this report, you should consider the risk factors discussed in Part I “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2008, which could materially affect our business, financial condition or future results. The risk factors in our Form 10-K have not materially changed. The risk factors described in our Form 10-K, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial conditions and/or operating results.

Our business may be negatively impacted by the volatility and disruption of the capital and credit markets, and adverse changes in the global economy.

Current uncertainty in global economic conditions poses a risk to the overall economy as consumers and businesses may defer purchases in response to restricted access to credit and negative financial news, which could negatively affect product demand and other related matters. Consequently, demand could be different from our expectations due to factors including changes in business and economic conditions; conditions in the credit market that could affect consumer confidence; customer acceptance of our and our competitors' products; changes in customer order patterns including order cancellations; and changes in the level of our customers' inventory. Credit market conditions also may slow our collection efforts as customers experience increased difficulty in obtaining requisite financing, leading to higher than normal accounts receivable. This could result in greater expense associated with collection efforts and increased bad debt expense. In addition, credit conditions may impair our vendors' ability to finance the portion of raw materials or general working capital needs to support our production requirements, resulting in a delay or non-delivery of inventory shipments.

Our ability to find investments that are both safe and liquid and that provide a reasonable return may be impaired. This could result in lower interest income, longer investment terms and/or higher impairments.

Additionally, the inability of our customers or distributors to access capital efficiently could cause disruptions in their businesses, thereby negatively impacting ours. For example, if our customers or distributors do not have sufficient liquidity, they could reduce or limit new purchases, which could result in lower demand for our products and/or we may be at risk for any trade credit we have extended to them, due to their inability to repay us. This risk may increase if there is a general economic downturn affecting significant customers or a large number of our other customers and they are not able to adequately manage their business risks or do not properly disclose their financial condition to us.

We have implemented measures to consolidate our activities and/or significantly reduce our costs, and we may be required to implement additional measures depending upon our future revenues and operating results.

In the past, we have implemented measures designed to consolidate our activities and/or reduce our costs, including during the four years ended March 31, 2008. These cost reduction efforts have included:

- transferring our production test operations currently performed in our Philippines facility to third party suppliers;
- consolidation of our research and development activities including the closure of design and development sites in Shanghai, China and Seattle, Washington;
- restructuring our manufacturing operations, which has included closing and subsequently outsourcing all of our wafer fabrication and assembly operations and consolidating probe and final test operations, as well as certain customer service and accounting functions at our Philippines site;
- refocusing our strategic priorities;

- reallocating personnel and responsibilities to better utilize human resources;
- reducing our workforce; and
- instituting temporary office and facility shutdowns.

In light of the slowing global economy we expect lower revenues and may be required to cut costs to preserve our cash and reach cash flow break even. Cost reduction measures may not increase our efficiency, lead to profitability or result in the cash savings anticipated. In the past, we have reduced our spending on research and development. Reducing research and development spending could harm our ability to introduce new products in the future. If we reduce our sales staff it could also result in lower revenue. If our revenue or operating results significantly decline in the future, we may be required to institute further cost reduction measures.

From time to time, we evaluate our strategic alternatives with respect to our cost structure and we may take actions which may result in the occurrence of accounting charges. Some or all of these charges may be non-cash. Such charges would have a negative impact on our GAAP profitability and may have a negative impact on our cash balance.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders.

We held our Annual Meeting of stockholders on October 6, 2008. At the meeting, the stockholders elected each of Mr. David G. Elkins (with 13,999,702 shares voting for, zero against and 433,440 abstaining) to serve as a Group III Director and Mr. Eric Singer (with 14,348,186 shares voting for, zero against and 84,956 abstaining) to serve as a Group III Director each for a three-year term expiring at the Annual Meeting of stockholders in 2011. Richard L. Sanquini and Robin A. Abrams, each an incumbent Group I Director, and Darin Billerbeck and Federico Faggin, each a Group II Director, will continue serving as directors.

Additionally, the stockholders ratified the appointment of Armanino McKenna LLP as our independent auditors for the fiscal year ending March 31, 2009 (with 14,414,131 shares voting for, 12,501 against and 6,510 abstaining).

Item 5. Other Information

None.

Item 6. Exhibits

a) Exhibits are filed or incorporated herein by reference as indicated below:
