**RE: Emerson Radio Corp.
Form 10-K for Fiscal Year Ended March 31, 2008
Filed July 11, 2008**

**Form 10-Q for Fiscal Period Ended September 30, 2008
File No. 001-07731**

Dear Mr. Pitts:

We have reviewed your supplemental response letter dated February 12, 2009 as well as your filing and have the following comments. As noted in our comment letter dated January 29, 2009, we have limited our review to your financial statements and related disclosures and do not intend to expand our review to other portions of your documents.

Form 10-K for Fiscal Year Ended March 31, 2008

1. We note in your response to comment two you provided some information regarding your policy for recognizing license revenue. However, you do not state how or when that revenue is recognized. Please provide us with a revised draft disclosure, expanded to include these items.

Form 10-Q for the Fiscal Quarter Ended September 30, 2008

2. We note in your response to comment four that beginning in January 2006 you began accruing costs you believed were likely to be incurred in connection with future sales of later generations of your iPod products. Your accruals were for future anticipated consideration to be provided to your customers, which included "buyback dollars" for previously sold products and "slottage fees" to secure future shelf space. It appears that an enforceable obligation to pay your

customers for these items was not created upon the sale of the first generation of your iPod product. In fact, it appears that the purpose of the company paying for these items in the future would be to derive a future benefit. It is unclear to us why such costs were considered to be incurred by the company when selling the first generation of your iPod products when they clearly relate to sales of future products. Explain to us how the company incurred a legally enforceable obligation to pay its customers for these items, upon the sale of its first generation iPod products, or revise your financial statements. You should include in your response your detailed analysis explaining how this accrual was appropriate under the guidance in SFAS No. 5.
