ITEM 1- DESCRIPTION OF BUSINESS

Advanced Oxygen Technologies, Inc. ("Advanced Oxygen Technologies", "AOXY", "AOT" or the "Company"), incorporated in Delaware in 1981 under the name Aquanautics Corporation, was, from 1985 until May 1995, a development stage specialty materials company producing new oxygen control technologies. From May of 1995 through December of 1997 AOXY had minimal operations and was seeking funding for operations and companies to which it could merge or acquire. In March of 1998 AOXY began operations in California. From 1998 through 2000, the business consisted of producing and selling CD- ROMS for conference events, advertisement sales on the CD's, database management and event marketing all associated with conference events. From 2000 through March of 2003, the business consisted solely of database management. From 2003 forward, the business operations were derived totally from the Company's wholly owned business, IP Service, ApS, a Danish IP security vulnerability company("IP Service"). IP Service provides network administrators early IP security warnings and vulnerabilities.

THE PATENT SALE

On May 1, 1995, the Company sold its patents, and all related technology and intellectual property rights (collectively the "Patents Rights") to W. R. Grace & Co. Conn., a Connecticut corporation ("Grace"). The price for the Patents Rights was \$335,000, in cash, and a royalty until April 30, 2007 of two percent (2%) of the net sales price of (a) all products sold by Grace that include as a component, material that absorbs, bars, climinates, extracts and/or concentrates oxygen that, but for the purchase of the Patents

Rights, would fringe the Patents Rights, and (b) any mixture or compound (other than a finished product) which includes as a component material that absorbs, bars, eliminates, extracts and/or concentrates oxygen that, but for the purchase of the Patent Rights, would infringe the Patent Rights. Subsequently these royalties and associated liabilities were transferred to a trust (see Trust Agreement 12/18/97 below).

The general partner of ETPII is Harry Edelson, Chairman of the Board and Chief Executive Officer of AOXY prior to the transactions resulting in the change of control (the "Transactions"). Prior to the Transactions Mr. Edelson directly or indirectly owned approximately 25% of the issued and outstanding common stock of AOXY, and following the completion of Mr. Edelson's consultancy he will own approximately 1.5%.

The 23,750,000 shares of AOXY common stock sold by AOXY as of December 18, 1997 to Crossland, Eastern, Coastal and CLB pursuant to the Stock Acquisition Agreement (the "Regulation S Shares") were not registered under the Securities Act of 1933, as amended, in reliance on the exemption from registration provided by Rule 903(c)(2) of Regulation S. ACQUISITION OR DISPOSITION OF ASSETS, 03/09/98.

On March 9, 1998, pursuant to an Agreement for Purchase and Sale of Specified Business Assets, a Promissory Note, and a Security Agreement all dated March 9, 1998, Advanced Oxygen Technologies, Inc. (the "Company") purchased certain tangible and intangible assets (the "Assets") including goodwill and rights under certain contracts, from Integrated Marketing Agency, Inc., a California Corporation ("IMA"). The assets purchased from IMA consisted primarily of furniture, fixtures, equipment, computers, servers, software and databases previously used by IMA in its full service telemarketing business. The purchase price of \$2,000,000 consisted of delivery at closing by the Company of a \$10,000 down payment, a Promissory Note in the amount of \$550,000 payable to IMA periodically, with final payment due on April 10, 2000 and accruing compounded interest at a rate of nine percent (9%) per annum, and 1,670,000 shares of convertible, preferred stock, par value \$.01 per share, of the Company (the "Preferred Stock"). The Preferred Stock is automatically convertible into shares of the Company's common stock, par value \$.01 per shares (the "Common Stock"), on March 2, 2000, at a conversion rate which will depend on the average closing price of the Common Stock for a specified period prior thereto. The purchase price was determined based on the fair market value of the purchased assets. The down payment portion of the purchase price was drawn from cash reserves of the Company, and the cash required for payments due under the Promissory Note will be generated by future revenues from the Company's business.

SET OFF OF PROMISSORY NOTE, 9/4/98

Pursuant to the Note, the Purchase Agreement, and the Security Agreement between the Company and ("IMA"), the Company on September 04, 1998 exercised its right of "Set Off" of the Note, as defined therein due to IMA's breach of numerous representations, warranties and covenants contained in the Note and certain ancillary documents. The Company further reserved any and all rights and remedies available to it under the Note, Purchase Agreement and Security Agreement.

CALIFORNIA FACILITIES, 9/30/98

The Company entered into a lease agreement as contained in Exhibit I of the registrants SEC Form 10-QSB for the period ending September 30, 1998 with America-United Enterprises Inc. PURCHASE AGREEMENT OF 1/29/99

("AOXY") purchased 1,670,000 shares of convertible preferred stock of Advanced Oxygen Technologies, Inc. ("STOCK") and a \$550,000 promissory note issued by Advanced Oxygen Technologies, Inc. ("Note") from Integrated Marketing Agency, Inc. ("IMA"). We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Advanced Oxygen Technologies, Inc. as of June 30, 2005 and the consolidated results of operations and cash flows of the Company and its former subsidiary for the years ended June 30, 2005 and 2004 in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company and its former subsidiary incurred operating losses of \$33,546 and \$37,201 respectively during the fiscal years ended June 30, 2005 and 2004 and as of June 30, 2005, current liabilities exceeded current assets by \$86,205. The foregoing raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on the attainment of profitable operations and meeting its obligations on a timely basis. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 1- ORGANIZATION AND LINE OF BUSINESS

Organization:

Advanced Oxygen Technologies, Inc. (formerly Aquanautic Corporation) (the "Company") was a specialty materials company in the development stage (as defined by the Financial Accounting Standards Board ("FASB") in Statement of Financial Accounting Standards ("SFAS") no. 7, "Accounting and Reporting by Development Stage Enterprises"). The Company's core technology consisted of a variety of materials, which have a high affinity for oxygen. Through 1993 the Company also conducted research through funding from various government agencies such as the office of Naval Research and from Small Business Innovative Research ("SBIR") grants, as well as through its own internally generated funds.

The Company has agreed to indemnify Grace for any out of pocket costs incurred because of the claims, litigation, arbitration, or other proceedings (a) relating to the validity or ownership of the Patent Rights, (b) relating to any infringement by the Patent Rights of any other patent or trademark owned by a third party, (c) relating to any breach by the Company of its representations, warranties, covenants in the Purchase Agreement, or (d) arising from any state of affairs existing at closing which was not this indemnity. The indemnity is for all such costs up to \$75,000 and for 50% of such costs over \$75,000. Amounts due Grace under the indemnity would be paid by withholding royalties from the Company.

The Company ceased its previous operations described above during 1995 and had dormant operations until March 1998. During 1997, the Company entered into the following agreements in preparation of starting a new line of business:

Stock Acquisition Agreement:

Pursuant to a Stock Acquisition dated as of December 18, 1997, the Company issued 23,750,000 shares of its common stock, par value \$0.01 per share, to several investors for \$60,000 in cash, plus consulting services with a fair value of \$177,500. In December, 2000 an affiliated creditor received \$125,000 to reduce the Company's debt from an unrelated buyer of 3,000,000 shares of common stock which the Company issued during the year

On March 9, 1998, pursuant to an Agreement of Purchase and Sale of Specified Business Assets ("Purchase Agreement"), a Promissory Note, and a Security Agreement, the Company purchased certain tangible and intangible assets (the "Assets"), including goodwill and rights under certain contracts from Integrated Marketing Agency, Inc. ("IMA"). The assets purchased from IMA consisted primarily of furniture, fixtures, equipment, computers, servers, software, and databases previously used by IMA in its full-service telemarketing business. The purchase price consisted of (a) a cash down payment of \$10,000, (b) a note payable of \$550,000, and (c) 1,670,000 shares of the Company's Series 3 convertible preferred stock. As described in Note 10, the preferred shares automatically convert into the Company's common shares on March 2, 2000 in a manner that depends on the value of the common stock during the ten trading days immediately prior to March 1, 2000. However, as part of the Purchase Agreement, IMA has the option to redeem the converted shares for the aggregate sum of \$500,000 by delivering written notice to redeem the converted shares within ten business days after the conversion date. At the time of the purchase, the fair value of the preferred shares was not clearly evident, even though it appeared to be less than \$500,000. Therefore, the purchase price had a fair value of at least \$1,060,000. The assets purchased were recorded based upon their fair values.

Pursuant to a Purchase Agreement dated January 28, 1999, the Company purchased the 1,670,000 shares of the Series 3 convertible preferred stock and the promissory note discussed in the preceding paragraph. As part of the agreement, the Company paid \$15,000 to IMA, assumed a certain computer equipment lease with remaining obligations totaling \$44,811 and executed a one-year \$5,000 promissory note to IMA. In addition, both IMA and the Company provided mutual liability releases to each other.

On March 5, 2003, the Company, in exchange for 14,000,000 common shares, acquired the common stock of IP Service Aps("IP") a Danish corporation which developed and sells a software package "Analizt". Analizt is a security early warning tool used by network administrators in order for them to implement security patches on software installations. The product is sold as installed software together with a subscription for information updates for the security database. The common shares issued at the date of acquisition were valued at 2 cents per share assigned entirely to software costs, an intangible asset, which has no fixed determinable life. This asset is evaluated at least annually and any decline in value is charged to operations during that year.

On April 23, 2005 Mobile Group Inc., a formerly fully owned subsidiary of Advanced Oxygen Technologies, Inc., acquired 100% of the issued and outstanding stock of Mobiligroup, ApS from all of its owners in exchange for 80% of its stock. The Company will account for the investment of 20% of Mobile Group Inc. by the equity method.

Waiver Agreement: On April 23, 2005 the shareholders that sold IP Service ApS to Advanced Oxygen Technologies, Inc. ("IP Sellers") entered into a waiver agreement with Advanced Oxygen Technologies, Inc. whereby: 1) The IP Sellers waived and relinquished all rights to collect the share conversion owed to the IP Sellers from the conversion of a preferred share pursuant to the stock acquisition agreement of March 3, 2003 (agreement governing the purchase of IP Service ApS, "IP Purchase Agreement"), 2) The IP Sellers release and indemnify Advanced Oxygen Technologies, Inc. and Advanced Oxygen Technologies, Inc. release and indemnify the IP Sellers for breach of contract, making false warranties and representations, and, liabilities associated with the remedies of set off pursuant to the IP Purchase Agreement, and, 3) For consideration of the above the IP Sellers will deliver to Advanced Oxygen Technologies, Inc. the Preferred Share and One Million One hundred twenty thousand (1,120,000) shares of Advanced Oxygen Technologies, Inc.,

Sale of IP Service: On April 23, 2005 Advanced Oxygen Technologies, Inc. sold 100.00% of the stock of IP Service ApS to Securas, Ltd. 7 Stewards Court, Carlisle Close, Kingston Upon Thames, Surrey KT2 7AU, United Kingdom ("SecurAs") for consideration as follows: 1) The purchase price will be Seven Hundred and Fifty Thousand US Dollars payable as follows:a) Cash and or b) Royalties, which are comprised of 33.33% of all revenue derived from or associated with IP Service ApS or any of its products, which shall be payable quarterly on the 10th day following each quarter and SecurAs will deliver a certified audit of the revenues of IP Service ApS annually to Advanced Oxygen Technologies Inc. At any time Advanced Oxygen Technologies, Inc. can conduct an independent audit of IP Service ApS. At closing, SecurAs did NOT pay any cash to Advanced Oxygen Technologies, Inc. The revenues for IP Service for the period years ended June 30, 2005 and June 30, 2004 were \$41,420 and \$41,421 respectively. The losses for IP Service for the period years ended June 30, 2005 and June 30, 2004 were \$204,058 and \$27,408 respectively. No income has been recognized from the sale.

Lines of Business:

Software Development:

On April 23, 2005 the Company's revenues will be derived completely from its investment in Mobile Group, Inc. which owns a company that develops and sells wireless software applications.

Reclassifications:

The figures for the period ending June 30, 2004 have been reclassified so that both periods are presented on the same basis considering the sale of IP Service ApS.

NOTE 2 - GOING CONCERN AND BASIS OF PRESENTATION:

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. As shown in the financial statements, the Company incurred operating losses and negative working capital at June 30, 2005 and 2004 respectively. These factors raise substantial doubt about the Company's ability to continue as going concern.

In view of the matters described in the preceding paragraph, continued operations are dependent upon the Company's ability to continue to raise capital and generate positive cash flows from operations. These financial statements do not include any adjustments relating to the classification of recorded asset amounts or amounts and classifications of liabilities that might be necessary should the Company be unable to continue its existence.

Management plans to take the following steps, which it believes will be sufficient to provide the Company with the ability to continue in existence:

- Acquire profitable operations
- Acquire additional debt or equity financing.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Revenue Recognition:

Product Sales:

Revenue is recognized when delivery is made and risk has passed to the buyer. Revenues are recognized net of value added taxes, where required, duties and sales discounts.

Consulting Income:

Revenue is recognized at the time the consulting work is performed.

Foreign currency translation:

Foreign currency transactions are translated applying the current rate method. Assets and liabilities are translated at current rates. Stockholders' equity accounts are translated at the appropriate historical rates and revenue and expenses are translated at weighted average rates for the year. Exchange rate differences that arise between the rate at the transaction date and the one in effect at the payment date, or at the balance sheet date, are recognized in the income statement.

Income Taxes:

The Company accounts for income taxes under the asset and liability method of accounting. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is required when it is less likely than not that the Company will be able to realize all or a portion of its deferred tax assets. Because it is doubtful that the net operating losses of recent years will ever be used, a valuation allowance has been recognized equal to the tax benefit of net operating losses generated.

Net Earnings per Share:

The Company adopted SFAS No. 128, "Earnings per Share". Basic earnings per share is computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Company considers all highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to major credit risk consist principally of a single investment in Mobile Group Inc, and its subsidiary Mobiligroup ApS.

NOTE 4 - RELATED PARTY TRANSACTIONS AND COMMITMENTS-IP SERVICES APS

Kurt Soendergaard, an officer of IP, and a shareholder prior to its acquisition by the Company was authorized to receive a salary of approximately \$14,000 during the period March 5, 2003 to June 30, 2003, but has not received the salary and has agreed to postpone the payment of the salary indefinitely. The amount of the salary due to the officer had been recorded as a current liability.

NOTE 5 - COMMITMENTS AND CONTINGENCIES:

Contingency:

Contingency for the period ending April 23, 2005: Since July 2002 IP has been developing the internet security software, Analizt. Prior to July 2002 research was carried out by a related party to IP (IP Solutions A/S) pertaining to a product (MYTH-Software) with some of the same characteristics as Analizt. IP Solutions A/S filed for bankruptcy in April 2002. Soon after a Danish public funding organization (Vaekstfonden) continued the research which had been carried out prior to bankruptcy. In August 2002 IP purchased the project from Vaekstfonden. However, since Vaekstfonden did not deliver the research, IP never paid the contract price of approximately \$3,750 in cash plus a loan of approximately \$45,000 on special terms and Vaekstfonden finally revoked the sale on October 2, 2002. It is uncertain whether Vaekstfonden will file a lawsuit against IP for violation of the sales contract. It is also possible that Vaekstfonden will seek compensation due to the similarity of the product functionality of MYTH-Software and the new developed product ANALIZT. According to management, IP has not infringed on Vaekstfonden's rights to the MYTH-Software, as ANALIZT is developed in a different platform environment.

For the period ending June 20, 2005, the Company no longer considers this a contingency as IP Service ApS was sold on April 23, 2005 and all commitments, contingencies and liabilities transferred with IP at the time of the sale.

NOTE 6 - DUE TO AFFILIATE

Due to affiliate at June 30, 2005 consisted of advances payable to Crossfield, Inc., a related party, which are not collateralized, non-interest bearing, and payable upon demand, however, the Company did not expect to make payment within one year. During the year ended June 30, 2005 and 2004 the Company borrowed \$17,545 and \$8,010, respectively, from affiliates and officers to meet expenses. The balances were not collateralized, were non-interest bearing and were payable on demand.

NOTE 7 - SUBSEQUENT EVENTS

On July 10, 2005, in accordance with the terms of the sale of IP Service, ApS, the buyer, Securas Ltd is to provide a quarterly accounting of the sales of the products of IP Service, whereby a percentage of the sales (royalty) is due the Company. Securas has provided the accounting that indicated that they had no IP product sales for the period ending June 30, 2005

NOTE 8 - INCOME TAXES

As of June 30, 2005, the Company had federal and state net operating loss carryforwards of approximately \$12,400,000 of which approximately \$1,600,000 may be utilized to offset future taxable income. Section 382 of the Internal Revenue Code imposes substantial restrictions on the utilization of net operating loss and tax credit carryforwards when a change in ownership occurs. No deferred tax debits have been recorded because it is considered unlikely that they will be realized. The loss carryforwards will expire during the fiscal years ended June 30 as follows:

Year	Amount
2012	\$464,000
2018	236,000
2019	548,000
2020	351,000
<u>2021</u>	<u>29,000</u>
Total	\$ 1,628,000

The overall effective tax rate differs from the federal statutory tax rate of 34% due to operating losses and other deferred assets not providing benefit for income tax purposes.

NOTE 9 - SHAREHOLDERS' EQUITY:

Preferred Stock:

The Company is authorized to issue 10,000,000 shares of \$0.01 par value preferred stock. The Company may issue any class of preferred shares in series. The board of directors has the authority to establish and designate series and to fix the number of shares included in each such series.

Series 2 Convertible Preferred Stock:

Each Series 2 preferred share is convertible into two shares of common stock at the option of the holder. Each Series 2 preferred share also includes one warrant to purchase two common shares for \$5.00. The warrants are exercisable over a three-year period. In the event of the liquidation of the Company, holders of Series 2 preferred stock would be entitled to receive \$5.00 per share, plus any unpaid dividends declared on the Series 2 preferred stock from the funds remaining after the Company's creditors, including directors, have been paid. There have been no dividends declared.

During November 1997, 172,000 shares of Series 2 preferred stock were converted into 344,000 shares of the Company's common stock.

Series 4 Convertible Preferred Stock:

The shares are collectively convertible to common stock of the Company on March 5, 2004, in an amount equal to the greater of a.)290,000 shares divided by the ten day closing price, prior to the date of acquisition of IPS, of the Company's common stock as quoted on the national exchange and not to exceed twenty million shares, or b.) six million shares.

Compensation Committee Report

The Compensation Committee of the Board of Directors was responsible for reviewing and approving the Company's compensation policies and the compensation paid to executive officers. Mr. Wolfe and Mr. Donofrio, who comprise the Compensation Committee are employee and non-employee directors respectively.

Compensation Philosophy

The general philosophy of the Company's compensation program, which has been reviewed and endorsed by the Committee, was to provide overall competitive compensation based on each executive's individual performance and the Company's overall performance.

There are two basic components in the Company's executive compensation program: (i) base salary and (ii) stock option awards.

Base Salary

Executive Officers' salaries are targeted at the median range for rates paid by competitors in comparably sized companies. The Company recognizes the need to attract and retain highly skilled and motivated executives through a competitive base salary program, while at the same time considering the overall performance of the Company and returns to stockholders.

Stock Option Awards

With respect to executive officers, stock options are generally granted on an annual basis, usually at the commencement of the new fiscal year. Generally, stock options vest ratably over a four-year period and the executive must be employed by the Company in order to vest the options. The Compensation Committee believes that the stock option grants provide an incentive that focuses the executives' attention on managing the Company from the perspective of an owner with an equity stake in the business. The option grants are issued at no less than 85% of the market price of the stock at the date of grant, hence there is incentive on the executive's part to enhance the value of the stock through the overall performance of the Company.

Compensation Pursuant to Plans

The Company has three plans (the "Plans") under which its directors, executive officers and employees may receive compensation. The principal features of the 1981 Long-Term Incentive Plan (the "1981 Plan"), the 1988 Stock Option Plan (the "1988 Plan"), and the Non-Employee Director Plan (the "Director Plan") are described below. During the fiscal year ended June 30, 1994, the Company terminated its tax qualified cash or deferred profit-sharing plan (the "401(k) Plan"). During fiscal 1998, no executive officer received compensation pursuant to any of the Plans except as described below.

The 1981 and 1988 Plans

The purpose of the 1981 Plan and 1988 Plan (the "Option Plans") is to provide an incentive to eligible directors, consultants and employees whose present and potential contributions to the Company are or will be important to the success of the Company by affording them an opportunity to acquire a proprietary interest in the Company and to enable the Company to enlist and retain in its employ the best available talent for the successful conduct of its business.

The 1981 Plan

The 1981 Plan was adopted by the Board of Directors in May 1981 and approved by the Company's stockholders in March 1982. A total of 500,000 shares have been authorized for issuance under the 1981 Plan. With the adoption of the 1988 Plan, no additional awards may be made under the 1981 Plan. As a result, the shares remaining under the 1981 Plan are now available solely under the 1988 Plan. Prior to its termination, the 1981 Plan provided for the grant of the following five types of awards to employees (including officers and directors) of the Company and any subsidiaries: (a) incentive stock rights, (b) incentive stock options, (c) non-statutory stock options, (d) stock appreciation rights, and (e) restricted stock. The 1981 Plan is administered by the Compensation Committee of the Board of Directors.

The 1988 Plan

The 1988 Plan provides for the grant of options to purchase Common Stock to employees (including officers) and consultants of the Company and any parent or subsidiary corporation. The aggregate number of shares which remained

available for issuance under the 1981 plan as of the effective date of the 1988 Plan plus an additional 500,000 shares of Common Stock.

Options granted under the 1988 Plan may either be immediately exercisable for the full number of shares purchasable thereunder or may become exercisable in cumulative increments over a period of months or years as determined by the Compensation Committee. 1. Summary of Significant Accounting Policies

Description of Business

The Company is developing mobile software solutions. The company is focusing on selling selected service for mobile telephony during the year 2005.

Reporting currency

The functional currency of the Company is the local currency of the country in which the company conduct its business. Balance sheet accounts are translated into DKK at the year end exchange rate and items in the statement of operations are translated at the average exchange rate. Resulting translation adjustments are charged or credited to a separate component of shareholders' equity.

Information expressed in US dollars

The Consolidated Financial Statements are stated in Danish Kroner (“DKK”), the currency of the country in which the Company is incorporated and operate. Translation of DKK amounts into US Dollar amounts is included solely for the convenience of the reader and has been made at the rate of 5.5529 DKK to US \$ 1, the approximate exchange rate at March 10, 2005. Such translation should not be construed as a representation that the DKK amounts could be converted into US Dollars at that or any other rate.

Risks and uncertainties

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents represent cash and short-term deposits with maturities of less than three months at the time of purchase.

Equipment, works of art and improvements

Equipment and improvements are carried at cost. Equipment is depreciated on a straight-line basis over the expected useful lives at rates varying between 10% and 20% per annum. Leasehold improvements are amortized over the shorter of their expected lives or the non-cancelable term of the lease.

Software rights

Software rights are carried at cost. Software rights is depreciated on a straight-line basis over the expected useful lives at rates between 33% and 20% per annum.

Revenue recognition

Revenues from services are recognized at the date of delivery of the service. Subscriptions are recognized over the subscription period.
