GENERAL:

Advanced Oxygen Technologies, Inc. ("Advanced Oxygen Technologies", "AOXY", "AOT" or the "Company") sole operations are derived from its wholly owned subsidiary Anton Nielsen Vojens, ApS ("ANV"). ANV is a Danish company that owns commercial real estate in Vojens, Denmark. ANV's revenues are derived solely from the lease revenue from its real estate. StatOil AS leases the facility from ANV. The lease expires in 2026.

AOXY, incorporated in Delaware in 1981 under the name Aquanautics Corporation, was, from 1985 until May 1995, a development stage specialty materials company producing new oxygen control technologies. From May of 1995 through December of 1997 AOXY had minimal operations and was seeking funding for operations and companies to which it could merge or acquire. In March of 1998 AOXY began operations in California. From 1998 through 2000, the business consisted of producing and selling CD- ROMS for conference events, advertisement sales on the CD's, database management and event marketing all associated with conference events. From 2000 through March of 2003, the business consisted solely of database management. From 2003 through April 2005, the business operations were derived totally from the Company's wholly owned business, IP Service, ApS, a Danish IP security vulnerability company ("IP Service").

HISTORY OF THE COMPANY:

THE PATENT SALE

On May 1, 1995, the Company sold its patents, and all related technology and intellectual property rights (collectively the "Patents Rights") to W. R. Grace & Co. Conn., a Connecticut corporation ("Grace"). The price for the Patents Rights was \$335,000, in cash, and a royalty until April 30, 2007 of two percent (2%) of the net sales price of (a) all products sold by Grace that include as a component, material that absorbs, bars, eliminates, extracts and/or concentrates oxygen that, but for the purchase of the Patents Rights, would infringe the Patents Rights, and (b) any mixture or compound (other than a finished product) which includes as a component material that absorbs, bars, eliminates, extracts and/or concentrates oxygen that, but for the purchase of the Patent Rights, would infringe the Patent Rights. Subsequently these royalties and associated liabilities were transferred to a trust (see Trust Agreement 12/18/97 below).

The general partner of ETPII is Harry Edelson, Chairman of the Board and Chief Executive Officer of AOXY prior to the transactions resulting in the change of control (the "Transactions"). Prior to the Transactions Mr. Edelson directly or indirectly owned approximately 25% of the issued and outstanding common stock of AOXY, and following the completion of Mr. Edelson's consultancy he will own approximately 1.5%.

The 23,750,000 shares of AOXY common stock sold by AOXY as of December 18, 1997 to Crossland, Eastern, Coastal and CLB pursuant to the Stock Acquisition Agreement (the "Regulation S Shares") were not registered under the Securities Act of 1933, as amended, in reliance on the exemption from registration provided by Rule 903(c)(2) of Regulation S. Consideration for the Regulation S Shares consisted of \$60,000 cash and consulting services rendered valued at \$177,500. Each of the purchasers of the Regulation S Shares (a "Buyer") has represented to AOXY that (i) it is not a "U.S. Person" as that term is defined in Rule 902 (o) of Regulation S; (ii) the sale of the Regulation S Shares was taking place outside of the United States; (iii) no offer was made in the United States; (iv) it was purchasing the Regulation S Shares for its own account and not as a nominee or for the account of any other person or entity; (v) it had no intention to sell or distribute the shares except in accordance with Regulation S; (vi) it agreed that it would not transfer Regulation S Shares to a U.S. Person before the 41st day from the date the Buyer purchased the Regulation S Shares.

The Preferred Stock is automatically convertible into shares of the Company's common stock, par value \$.01 per share (the "Common Stock"), on March 2, 2000, at a conversion rate which will depend on the average closing price of the Common Stock for a specified period prior thereto. The purchase price was determined based on the fair market value of the purchased assets. The down payment portion of the purchase price was drawn from cash reserves of the Company, and the cash required for payments due under the Promissory Note will be generated by future revenues from the Company's business.

Pursuant to the Note, the Purchase Agreement, and the Security Agreement between the Company and ("IMA"), the Company on September 04, 1998 exercised its right of "Set Off" of the Note, as defined therein due to IMA's breach of numerous representations, warranties and covenants contained in the Note and certain ancillary documents. On April 18, 2000, notice was given that the Board of Directors and persons owning 64.7%, or 19,180,500 shares of common stock of Advanced Oxygen Technologies, Inc. have elected to adopt the following proposals: 1. The Board of Directors believes it would be more appropriate for the Company to utilize a corporate name which more accurately describes the current focus of the Company or is not misleading as to the Company's operations. The above amendments to the Certificate of Incorporation will be filed with the Secretary of State of the State of Delaware, and the Name Change will become effective as of 5:00 p.m. Eastern Time, on the date of such filing.

FACTORS THAT MAY AFFECT OUR BUSINESS:

WE PLAN TO GROW OUR BUSINESS THROUGH ACQUISITIONS AND JOINT VENTURES, WHICH WILL RESULT IN OUR INCURRING SIGNIFICANT COSTS

The acquisition of new businesses is costly, such new businesses may not enhance our financial condition, and we may face difficulties and be unsuccessful in integrating new businesses. The resources expended in identifying, negotiating and structuring acquisitions and joint ventures may be significant and may not result in any transactions. Any future acquisitions will be subject to a number of challenges in integrating new operations into our existing operations, including but not limited to:

- diversion of management time and resources;
- difficulty of assimilating the operations and personnel of the acquired companies;
- potential disruption of our ongoing business;
- difficulties in maintaining uniform standards, controls, procedures and policies;
- impairment of relationships with employees and customers as a result of any integration of new management personnel; and
- potential unknown liabilities associated with acquired businesses

WE ARE SUBJECT TO RISKS ASSOCIATED WITH OPERATIONS IN MULTIPLE COUNTRIES

ANV is a Danish company with operations only in Denmark. During the year ended June 30, 2008, foreign revenues accounted for approximately 100% of our total revenue. As a result, we are subject to risks associated with generating revenue in multiple countries, including:

- increased time, effort and attention of our management to manage our foreign operations;
- balance sheet fluctuations.
- currency devaluations and fluctuations in currency exchange rates, including impacts of transactions in various currencies and translation of various currencies into dollars for U.S. reporting and financial covenant compliance purposes;

IN THE FUTURE, WE MAY NEED TO OBTAIN ADDITIONAL FINANCING TO FUND OUR OPERATIONS AND TO ACQUIRE ADDITIONAL BUSINESSES

In the future, we may need to obtain additional financing to fund our operations and to acquire additional businesses. There is no guarantee that we will be able to raise additional capital under terms and conditions that are favorable to us, if at all.

EFFORTS TO COMPLY WITH RECENTLY ENACTED CHANGES IN SECURITIES LAWS AND REGULATIONS HAVE REQUIRED SUBSTANTIAL FINANCIAL AND PERSONNEL RESOURCES AND WE STILL MAY FAIL TO COMPLY

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, the SEC adopted rules requiring public companies to include a report of management on our internal controls over consolidated financial reporting in our annual reports on Form 10-KSB. In addition, the independent registered public accounting firm auditing our consolidated financial statements must attest to and report on management's assessment of, and the effectiveness of our internal controls over financial reporting. This requirement is to first apply for management's assessment in our annual report on Form 10-KSB for our fiscal year ending June 30, 2008, and for the independent registered public accounting firm's assessment for fiscal year ended June 30, 2008. Depending on a number of variables and the significant resources required to comply, uncertainty exists regarding our ability to continue to comply with these rules.

PROVISIONS OF OUR CORPORATE DOCUMENTS AND DELAWARE CORPORATE LAW MAY DETER A THIRD PARTY FROM ACQUIRING OUR COMPANY

Provisions of our articles of incorporation and our bylaws, authorize our Board of Directors to, among other things, issue preferred stock and fix the rights, preferences, privileges and restrictions of such shares without any further vote, approval or action by our stockholders. Our Board could take actions that could discourage a third party from attempting to acquire control of us and that could make it more difficult for a third party to acquire us. Our Board could take such actions even if our stockholders consider a change in control to be in their best interests.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following should be read in conjunction with our Consolidated Financial Statements and the notes thereto included in "Item 7. Financial Statements."

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the U.S. ("GAAP") requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Following are accounting policies that we believe are most important to the portrayal of our financial condition and results of operations and that require our most difficult judgments as a result of the need to make estimates and assumptions about the effects of matters that are inherently uncertain.

Recognition of rental income..

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms.

Revenue recognition on the sale of real estate.

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, "Accounting for Sales of Real Estate" ("SFAS No. 66"), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been met, transactions are accounted for using either the deposit, the installment, the cost recovery, or the financing method, whichever is appropriate.

Interest Recognition on Notes Receivable

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

Foreign currency translation:

Foreign currency transactions are translated applying the current rate method. Assets and liabilities are translated at current rates. Stockholders' equity accounts are translated at the appropriate historical rates and revenue and expenses are translated at weighted average rates for the year. Exchange rate differences that arise between the rate at the transaction date and the one in effect at the payment date, or at the balance sheet date, are recognized in the income statement.

Income Taxes:

The Company accounts for income taxes under the asset and liability method of accounting. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is required when it is less likely than not that the Company will be able to realize all or a portion of its deferred tax assets. Because it is doubtful that the net operating losses of recent years will ever be used, a valuation allowance has been recognized equal to the tax benefit of net operating losses generated.

Net Earnings per Share:

The Company adopted SFAS No. 128, "Earnings per Share". Basic earnings per share is computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Company considers all highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

The Company maintains its cash in bank deposit accounts which, at June 30, 2008 exceeded federally insured limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on such amounts.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to major credit risk consist principally of a single subsidiary of Anton Nielsen Vojens ApS.

Recently Issued Accounting Standards

In February 2006, the FASB issued SFAS No. 155, “Accounting for Certain Hybrid Financial Instruments—an Amendment of FASB Statements No. 133 and 140” (“SFAS No. 155”). The purpose of SFAS No. 155 is to simplify the accounting for certain hybrid financial instruments by permitting fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity’s first fiscal year that begins after September 15, 2006. We do not expect the adoption of SFAS No. 155 to have a material impact on our cash flows, results of operations, financial position or liquidity.

In March 2006, the FASB issued SFAS No. 156, “Accounting for Servicing of Financial Assets—an Amendment of FASB Statement No. 140” (“SFAS No. 156”). SFAS No. 156 requires recognition of a servicing asset or a servicing liability each time an entity undertakes an obligation to service a financial asset by entering into a servicing contract. SFAS No. 156 also requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value and subsequently measured at fair value at each reporting date. SFAS No. 156 is effective as of the beginning of any entity’s first fiscal year that begins after September 15, 2006. We do not expect the adoption of SFAS No. 156 to have a material impact on our cash flows, results of operations, financial position or liquidity.

In June 2006, FASB issued FIN No. 48, “Accounting for Uncertainty Taxes”. The interpretation applies to all tax positions related to income taxes subject to FASB Statement No. 109, “Accounting for Income Taxes”. FIN No. 48 clarifies the accounting for uncertainty in income taxes by prescribing a minimum recognition threshold in determining if a tax position should be reflected in the financial statements. Only tax positions that meet the “more likely than not” recognition threshold may be recognized. The interpretation also provides guidance on classification, interest and penalties, accounting in interim periods, disclosure, and transition requirements for uncertain tax positions. FIN No. 48 will be effective for the Company’s fiscal year ending June 30, 2007. We do not believe that there are material tax positions that would result in a material impact upon implementation of FIN No. 48.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements”. This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 will be effective for the Company’s fiscal year ending June 30, 2009. The Company is currently evaluating the requirements of SFAS No. 157 and has not yet determined the impact on its financial condition and results of operations.

In September 2006, the FASB issued SFAS No. 158, “Employers’ Accounting for Defined Benefit Pension and other Postretirement Plans - an amendment of FASB Statement No. 87, 88, 106 and 132R”. This pronouncement requires an employer to make certain recognitions, measurements, and disclosures regarding defined benefit postretirement plans. The Company does not have any defined benefit postretirement plans and SFAS No. 158 will not have any impact on its financial condition and results of operations.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108 “Considering the Effects of Prior Year Misstatements in Current Year Financial Statements” (“SAB 108”). SAB 108 provides guidance on consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. SAB 108 is effective for fiscal years ending after November 15, 2006. The adoption of SAB 108 did not have an impact on the Company’s consolidated financial statements.

In February 2007, the FASB issued SFAS No 159, “The Fair Value Option for Financial Assets and Financial Liabilities” (“SFAS 159”) which permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 will be effective for us on July 1, 2008. The Company is currently evaluating the impact of adopting SFAS 159 on its financial position, cash flows and results of operations.

RESULTS OF OPERATIONS 2008 COMPARED TO 2007

REVENUES. Revenues from operations were \$41,079 for 2008 compared to \$71,846 for 2007. The decrease was attributable to the Anton Nielsen Vojens sub division a sale of a parcel of commercial real estate and the related adjustment in rental revenues associated with that sale.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. SG&A expenses were \$5,199 for 2008 compared to \$21,980 for 2007. The expenses are attributable to ANV's operations and decreased due to management and the sale stated above.

INTEREST EXPENSE. Interest expense was \$7,967 for 2008 compared to \$4,081 for 2007. Interest expense for 2008 are higher due to currency fluctuations.

OTHER INCOME (EXPENSE), NET. Other income (expense), net was \$85,559 for 2008 compared to \$346,852 for 2007 . Other income, net for 2008 largely includes \$47,818 of the Gain on the sale of an asset associated with the subdivision and sale of commercial real estate owned by ANV, fluctuation in currency and other income of 26,651 primarily attributable to vendor writedowns from the 1990's. Other income, net for 2007 largely includes \$344,576 of the Gain on the sale of an asset associated with the subdivision and sale of commercial real estate owned by ANV and other income of 2,275 primarily attributable to Interest Income.

NET INCOME (LOSS) ATTRIBUTED TO COMMON STOCKHOLDERS. Net income attributed to common stockholders was \$91,722 or \$0.002 per share, for 2008, as compared to \$379,677 or \$0.0081 per share, for 2007.

As of June 30, 2008 we had \$133,962 of cash and cash equivalents and working capital of \$224,109, compared to June 30, 2007 where we had \$241,945 of cash and cash equivalents and working capital of \$132,387. The change in cash is primarily due to the payments made on the debt of the acquisition of ANV and normal operations. The increase in the working capital is primarily related to the sale of a portion of ANV real estate and the reduction of debt associated with the ANV acquisition

Net cash used in operating activities for 2008 was \$107,983, compared to net cash used in operating activities for 2007 which was \$137,039. The net cash used in operating activities during 2008 and 2007 was primarily and respectively due to the \$181,908 and \$142,326 reduction in the debt associated with the acquisition of ANV

Net cash provided by financing activities for 2008 was \$12,959, compared to the net cash provided by financing activities for 2007 which was \$5,558. Net cash provided by financing activities for both periods is related to borrowings from officers and directors and changes in currency valuations.

ITEM 8A. CONTROLS AND PROCEDURE

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and our Chief Financial Officer (CFO), we conducted an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act), as of the end of the period covered by this Annual Report on Form 10-K. Based upon that

[Return to Table of Contents](#)

evaluation, our CEO and our CFO have concluded that the design and operation of our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and (ii) is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the last quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework set forth in Internal Control - Integrated Framework, our management concluded that our internal control over financial reporting was effective as of June 30, 2008. The effectiveness of our internal control over financial reporting as of June 30, 2008 has been audited by Revisorerne Strandvejen 58 V.m.b.a, an independent registered public accounting firm, as stated in their report which appears in Item 7 of this Annual Report on Form 10KSB.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Our disclosure controls and procedures and our internal controls over financial reporting have been designed to provide reasonable assurance of achieving their objectives. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Compensation Committee Report

The Compensation Committee of the Board of Directors was responsible for reviewing and approving the Company's compensation policies and the compensation paid to executive officers. Mr. Wolfe and Mr. Donofrio, who comprise the Compensation Committee are employee and non-employee directors respectively.

Compensation Philosophy

The general philosophy of the Company's compensation program, which has been reviewed and endorsed by the Committee, was to provide overall competitive compensation based on each executive's individual performance and the Company's overall performance.

There are two basic components in the Company's executive compensation program: (i) base salary and (ii) stock option awards.

Base Salary

Executive Officers' salaries are targeted at the median range for rates paid by competitors in comparably sized companies. The Company recognizes the need to attract and retain highly skilled and motivated executives through a competitive base salary program, while at the same time considering the overall performance of the Company and returns to stockholders.

Stock Option Awards

With respect to executive officers, stock options are generally granted on an annual basis, usually at the commencement of the new fiscal year. Generally, stock options vest ratably over a four-year period and the executive must be employed by the Company in order to vest the options. The Compensation Committee believes that the stock option grants provide an incentive that focuses the executives' attention on managing the Company from the perspective of an owner with an equity stake in the business. The option grants are issued at no less than 85% of the market price of the stock at the date of grant, hence there is incentive on the executive's part to enhance the value of the stock through the overall performance of the Company.

Compensation Pursuant to Plans

The Company has three plans (the "Plans") under which its directors, executive officers and employees may receive compensation. The principal features of the 1981 Long-Term Incentive Plan (the "1981 Plan"), the 1988 Stock Option Plan (the "1988 Plan"), and the Non-Employee Director Plan (the "Director Plan") are described below. During the fiscal year ended June 30, 1994, the Company terminated its tax qualified cash or deferred profit-sharing plan (the "401(k) Plan"). During fiscal 1998, no executive officer received compensation pursuant to any of the Plans except as described below.

The 1981 and 1988 Plans

The purpose of the 1981 Plan and 1988 Plan (the "Option Plans") is to provide an incentive to eligible directors, consultants and employees whose present and potential contributions to the Company are or will be important to the success of the Company by affording them an opportunity to acquire a proprietary interest in the Company and to enable the Company to enlist and retain in its employ the best available talent for the successful conduct of its business.

The 1981 Plan

The 1981 Plan was adopted by the Board of Directors in May 1981 and approved by the Company's stockholders in March 1982. A total of 500,000 shares have been authorized for issuance under the 1981 Plan. With the adoption of the 1988 Plan, no additional awards may be made under the 1981 Plan. The aggregate fees billed include amounts for an interim review of Form 10-QSB, audit of Anton Nielsen Vojens, ApS, audit of Internal Control over Financial Reporting, and the audit of the consolidated financial statements for 2008. Approximately 90% of the total hours spent on audit services for the Company for the year ended June 30, 2008, were spent by Revisorerne Strandvejen.

In January 2003, the SEC released final rules to implement Title II of the Sarbanes-Oxley Act of 2003. The rules address auditor independence and have modified the proxy fee disclosure requirements. Audit fees include fees for services that normally would be provided by the accountant in connection with statutory and regulatory filings or engagements and that generally only the independent accountant can provide. In addition to fees for an audit or review in accordance with generally accepted auditing standards, this category contains fees for comfort letters, statutory audits, consents, and assistance with and review of documents filed with the SEC. Audit-related fees are assurance-related services that traditionally are performed by the independent accountant, such as employee benefit plan audits, due diligence related to mergers and acquisitions, internal control reviews, attest services that are not required by statute or regulation, and consultation concerning financial accounting and reporting standards.

The board has reviewed the fees paid to Revisorerne Strandvejen and has considered whether the fees paid for non-audit services are compatible with maintaining Revisorerne Strandvejen's independence. The board has also adopted policies and procedures to approve audit and non-audit services provided in the fiscal year 2008 by Revisorerne Strandvejen in accordance with the Sarbanes-Oxley Act and rules of the SEC promulgated thereunder. These policies and procedures involve annual pre-approval by the board of the types of services to be provided by our independent auditor and fee limits for each type of service on both a per-engagement and aggregate level. The board may additionally ratify certain de minimis services provided by the independent auditor without prior board approval, as permitted by the Sarbanes-Oxley Act and rules of the SEC promulgated thereunder.

Our responsibility is to express an opinion on these financial statements and an opinion on the company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements appearing under Item 8(a) present fairly, in all material respects, the financial position of Advanced Oxygen Technologies, Inc. and its subsidiary as of June 30, 2008 and June 30, 2007 and the results of its operations and its cash flows for each of the three years in the period ending June 30, 2008, in conformity with accounting principles generally accepted in United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2008, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 8A. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits.

NOTE 1- ORGANIZATION AND LINE OF BUSINESS

Organization:

Advanced Oxygen Technologies, Inc. (formerly Aquanautic Corporation) (the "Company") was a specialty materials company in the development stage (as defined by the Financial Accounting Standards Board ("FASB") in Statement of Financial Accounting Standards ("SFAS") no. 7, "Accounting and Reporting by Development Stage Enterprises"). The Company's core technology consisted of a variety of materials, which have a high affinity for oxygen. Through 1993 the Company also conducted research through funding from various government agencies such as the office of Naval Research and from Small Business Innovative Research ("SBIR") grants, as well as through its own internally generated funds.

The Company has agreed to indemnify Grace for any out of pocket costs incurred because of the claims, litigation, arbitration, or other proceedings (a) relating to the validity or ownership of the Patent Rights, (b) relating to any infringement by the Patent Rights of any other patent or trademark owned by a third party, (c) relating to any breach by the Company of its representations, warranties, covenants in the Purchase Agreement, or (d) arising from any state of affairs existing at closing which was not this indemnity. The indemnity is for all such costs up to \$75,000 and for 50% of such costs over \$75,000. Amounts due Grace under the indemnity would be paid by withholding royalties from the Company.

The Company ceased its previous operations described above during 1995 and had dormant operations until March 1998. During 1997, the Company entered into the following agreements in preparation of starting a new line of business:

Stock Acquisition Agreement:

Pursuant to a Stock Acquisition dated as of December 18, 1997, the Company issued 23,750,000 shares of its common stock, par value \$0.01 per share, to several investors for \$60,000 in cash, plus consulting services with a fair value of \$177,500. In December, 2000 an affiliated creditor received \$125,000 to reduce the Company's debt from an unrelated buyer of 3,000,000 shares of common stock which the Company issued during the year

On March 9, 1998, pursuant to an Agreement of Purchase and Sale of Specified Business Assets ("Purchase Agreement"), a Promissory Note, and a Security Agreement, the Company purchased certain tangible and intangible assets (the "Assets"), including goodwill and rights under certain contracts from Integrated Marketing Agency, Inc. ("IMA"). The assets purchased from IMA consisted primarily of furniture, fixtures, equipment, computers, servers, software, and databases previously used by IMA in its full-service telemarketing business. The purchase price consisted of (a) a cash down payment of \$10,000, (b) a note payable of \$550,000, and (c) 1,670,000 shares of the Company's Series 3 convertible preferred stock. As described in Note 10, the preferred shares automatically convert into the Company's common shares on March 2, 2000 in a manner that depends on the value of the common stock during the ten trading days immediately prior to March 1, 2000. However, as part of the Purchase Agreement, IMA has the option to redeem the converted shares for the aggregate sum of \$500,000 by delivering written notice to redeem the converted shares within ten business days after the conversion date. At the time of the purchase, the fair value of the preferred shares was not clearly evident, even though it appeared to be less than \$500,000. Therefore, the purchase price had a fair value of at least \$1,060,000. The assets purchased were recorded based upon their fair values.

Pursuant to a Purchase Agreement dated January 28, 1999, the Company purchased the 1,670,000 shares of the Series 3 convertible preferred stock and the promissory note discussed in the preceding paragraph. As part of the agreement, the Company paid \$15,000 to IMA, assumed a certain computer equipment lease with remaining obligations totaling \$44,811 and executed a one-year \$5,000 promissory note to IMA. In addition, both IMA and the Company provided mutual liability releases to each other.

On March 5, 2003, the Company, in exchange for 14,000,000 common shares, acquired the common stock of IP Service Aps("IP") a Danish corporation which developed and sells a software package "Analizt". Analizt is a security early warning tool used by network administrators in order for them to implement security patches on software installations. The product is sold as installed software together with a subscription for information updates for the security database. The common shares issued at the date of acquisition were valued at 2 cents per share assigned entirely to software costs, an intangible asset, which has no fixed determinable life. This asset is evaluated at least annually and any decline in value is charged to operations during that year.

On April 23, 2005 Mobile Group Inc., a formerly fully owned subsidiary of Advanced Oxygen Technologies, Inc., acquired 100% of the issued and outstanding stock of Mobiligroup, ApS from all of its owners in exchange for 80% of its stock. The Company will account for the investment of 20% of Mobile Group Inc. by the equity method.

Waiver Agreement: On April 23, 2005 the shareholders that sold IP Service ApS to Advanced Oxygen Technologies, Inc. ("IP Sellers") entered into a waiver agreement with Advanced Oxygen Technologies, Inc. whereby: 1) The IP Sellers waived and relinquished all rights to collect the share conversion owed to the IP Sellers from the conversion of a preferred share pursuant to the stock acquisition agreement of March 3, 2003 (agreement governing the purchase of IP Service ApS, "IP Purchase Agreement"), 2) The IP Sellers release and indemnify Advanced Oxygen Technologies, Inc. and Advanced Oxygen Technologies, Inc. release and indemnify the IP Sellers for breach of contract, making false warranties and representations, and, liabilities associated with the remedies of set off pursuant to the IP Purchase Agreement, and, 3) For consideration of the above the IP Sellers will deliver to Advanced Oxygen Technologies, Inc. the Preferred Share and One Million One hundred twenty thousand (1,120,000) shares of Advanced Oxygen Technologies, Inc.,

Sale of IP Service: On April 23, 2005 Advanced Oxygen Technologies, Inc. sold 100.00% of the stock of IP Service ApS to SecurAs, Ltd. 7 Stewards Court, Carlisle Close, Kingston Upon Thames, Surrey KT2 7AU, United Kingdom ("SecurAs") for consideration as follows: 1) The purchase price will be Seven Hundred and Fifty Thousand US Dollars payable as follows: a) Cash and or b) Royalties, which are comprised of 33.33% of all revenue derived from or associated with IP Service ApS or any of its products, which shall be payable quarterly on the 10th day following each quarter and SecurAs will deliver a certified audit of the revenues of IP Service ApS annually to Advanced Oxygen Technologies Inc. At any time Advanced Oxygen Technologies, Inc. can conduct an independent audit of IP Service ApS. At closing, SecurAs did NOT pay any cash to Advanced Oxygen Technologies, Inc. The revenues for IP Service for the period years ended June 30, 2005 and June 30, 2004 were \$41,420 and \$41,421 respectively. The losses for IP Service for the period years ended June 30, 2005 and June 30, 2004 were \$204,058 and \$27,408 respectively. No income has been recognized from the sale.

Purchase of Anton Nielsen Vojens ApS: On February 3, 2006 Advanced Oxygen Technologies, Inc. ("AOXY") purchased 100.00% of the stock of Anton Nielsen Vojens ApS ("ANV"), a Danish company from Borkwood Development Ltd. (a current shareholder of AOXY) for Six Hundred and Fifty Thousand US Dollars. The transaction was financed as follows: 1) AOXY executed a promissory note ("Note") for \$650,000, payable to the sellers of ANV ("Sellers") payable and amortized monthly and carrying an interest at 5% per year. AOXY has the right to prepay the note at any time with a notice of 14 days. To secure the payment of principal and interest the Sellers will receive a perfect lien and security interest in the Shares in the company ANV until the note with accrued interest is paid in full., and, 2) In the case that the Note has not been repaid within 12 months from the day of closing the Sellers have the right to convert the debt to common stock of Advanced Oxygen Technologies, Inc. in an amount of non diluted shares calculated on the conversion Date, equal to the lesser of : a) Six hundred and Fifty thousand (650,000) or the Purchase Price minus the principal payments made by the buyer, which ever is greater, divided by the previous ten day closing price of AOXY as quoted on the national exchange, or b) Fifteen million shares, which ever is lesser.

Subdivision and Sale of ANV Real Estate: Pursuant to an acquisition agreement ("Acquisition Agreement"), on March 3, 2006 Anton Nielsen Vojens ApS ("ANV"), a wholly owned subsidiary of Advanced Oxygen Technologies, Inc. ("AOXY") entered into an agreement to sub divide and sell a 3,300 M2 portion of its Vojens City property ("Property") for Two Million Three hundred Thousand Danish Krone (2.300.000 DKK) to Ejendomsselskabet Ostergade 67 ApS, a Danish company ("EO").

Lines of Business:

The Company through its wholly owned subsidiary ANV owns income producing commercial real estate leased to Statoil AS until 2026.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Revenue Recognition:

Recognition of rental income:

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms.

Revenue recognition on the sale of real estate:

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, "Accounting for Sales of Real Estate" ("SFAS No. 66"), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been met, transactions are accounted for using either the deposit, the installment, the cost recovery, or the financing method, whichever is appropriate.

Interest Recognition on Notes Receivable

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

Foreign currency translation:

Foreign currency transactions are translated applying the current rate method. Assets and liabilities are translated at current rates. Stockholders' equity accounts are translated at the appropriate historical rates and revenue and expenses are translated at weighted average rates for the year. Exchange rate differences that arise between the rate at the transaction date and the one in effect at the payment date, or at the balance sheet date, are recognized in the income statement.

Income Taxes:

The Company accounts for income taxes under the asset and liability method of accounting. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is required when it is less likely than not that the Company will be able to realize all or a portion of its deferred tax assets. Because it is doubtful that the net operating losses of recent years will ever be used, a valuation allowance has been recognized equal to the tax benefit of net operating losses generated.

Net Earnings per Share:

The Company adopted SFAS No. 128, "Earnings per Share". Basic earnings per share is computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Company considers all highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

The Company maintains its cash in bank deposit accounts which, at June 30, 2007 exceeded federally insured limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on such amounts.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to major credit risk consist principally of a single subsidiary of Anton Nielsen Vojens ApS.

Recently Issued Accounting Standards

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments—an Amendment of FASB Statements No. 133 and 140" ("SFAS No. 155"). The purpose of SFAS No. 155 is to simplify the accounting for certain hybrid financial instruments by permitting fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect the adoption of SFAS No. 155 to have a material impact on its cash flows, results of operations, financial position or liquidity.

In March 2006, the FASB issued SFAS No. 156, “Accounting for Servicing of Financial Assets—an Amendment of FASB Statement No. 140” (“SFAS No. 156”). SFAS No. 156 requires recognition of a servicing asset or a servicing liability each time an entity undertakes an obligation to service a financial asset by entering into a servicing contract. SFAS No. 156 also requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value and subsequently measured at fair value at each reporting date. SFAS No. 156 is effective as of the beginning of any entity’s first fiscal year that begins after September 15, 2006. The Company does not expect the adoption of SFAS No. 156 to have a material impact on its cash flows, results of operations, financial position or liquidity.

In June 2006, FASB issued FIN No. 48, “Accounting for Uncertainty Taxes”. The interpretation applies to all tax positions related to income taxes subject to FASB Statement No. 109, “Accounting for Income Taxes”. FIN No. 48 clarifies the accounting for uncertainty in income taxes by prescribing a minimum recognition threshold in determining if a tax position should be reflected in the financial statements. Only tax positions that meet the “more likely than not” recognition threshold may be recognized. The interpretation also provides guidance on classification, interest and penalties, accounting in interim periods, disclosure, and transition requirements for uncertain tax positions. FIN No. 48 will be effective for the Company’s fiscal year ending June 30, 2007. The Company does not believe that there are material tax positions that would result in a material impact upon implementation of FIN No. 48.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements”. This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 will be effective for the Company’s fiscal year ending June 30, 2009. The Company is currently evaluating the requirements of SFAS No. 157 and has not yet determined the impact on its financial condition and results of operations.

In September 2006, the FASB issued SFAS No. 158, “Employers’ Accounting for Defined Benefit Pension and other Postretirement Plans - an amendment of FASB Statement No. 87, 88, 106 and 132R”. This pronouncement requires an employer to make certain recognitions, measurements, and disclosures regarding defined benefit postretirement plans. The Company does not have any defined benefit postretirement plans and SFAS No. 158 will not have any impact on its financial condition and results of operations.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108 “Considering the Effects of Prior Year Misstatements in Current Year Financial Statements” (“SAB 108”). SAB 108 provides guidance on consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. SAB 108 is effective for fiscal years ending after November 15, 2006. The adoption of SAB 108 did not have an impact on the Company’s consolidated financial statements.

In February 2007, the FASB issued SFAS No 159, “The Fair Value Option for Financial Assets and Financial Liabilities” (“SFAS 159”) which permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 will be effective for us on July 1, 2008. The Company is currently evaluating the impact of adopting SFAS 159 on its financial position, cash flows and results of operations.

NOTE 3 - MAJOR CUSTOMER:

The Company's subsidiary, Anton Nielsen Vojens, ApS has sales to two major customers who were non related parts. For the period ending June 30, 2008 and June 30, 2007 the major customer concentrations were as follows:

Customer	Percent of Sales for the Period ending June 30,	
	2007	2007
A	100%	65%
B	-	35%
Total Sales from Major Customers	100%	100%

NOTE 4 - RELATED PARTY TRANSACTIONS ANTON NIELSEN VOJENS, ApS

The Company purchased Anton Nielsen Vojens ApS from a previous shareholder of the Company, Borkwood Development LTD ("Borkwood"). At the time of the acquisition, even though Borkwood was not a shareholder, a director of Borkwood was an officer of Anton Nielsen Vojens ApS. The Company had outstanding balances of long term debt to Borkwood Development LTD at June 30, 2008 and June 30, 2007 of \$325,765 and \$507,674 respectively.

NOTE 5 - CLIENT ESCROW FUNDS:

The Company's subsidiary Anton Nielsen Vojens, ApS entered into an agreement to sub divide and sell a portion of its commercial property in Vojens, Denmark for kr 2,300,000. At June 30, 2006 all of the conditions of the sales agreement had not been met and the funds remained encumbered by a bank pursuant to the sales and escrow agreement. In the period ending June 30, 2007 all the terms and conditions of escrow were met and the encumbrance was lifted.

NOTE 6 - COMMITMENTS AND CONTINGENCIES:

Commitments:

The Company has issued a promissory note ("Note") for \$650,000, payable to the Borkwood Development Ltd, a previous shareholder of the Company ("Seller"), payable and amortized monthly and carrying a interest at 5% per year. The Company has the right to prepay the note at any time with a notice of 14 days. To secure the payment of principal and interest the Sellers will receive a perfect lien and security interest in the Shares in the company ANV until the note with accrued interest is paid in full., and, 2) In the case that the Note has not been repaid within 12 months from the day of closing the Sellers have the right to convert the debt to common stock of Advanced Oxygen Technologies, Inc. in an amount of non diluted shares calculated on the conversion Date, equal to the lesser of : a) Six hundred and Fifty thousand (650,000) or the Purchase Price minus the principal payments made by the buyer, which ever is greater, divided by the previous ten day closing price of AOXY as quoted on the national exchange, or b) Fifteen million shares, which ever is lesser. The Note has been extended until July 1, 2009 and interest waived through the period ending June 30, 2008.

The Company's wholly owned subsidiary Anton Nielsen Vojens, ApS has a note payable with a bank. The original amount of the note was kr 750,000 Danish Krone (kr). The note is unsecured and uncollateralized, with a 7.00% interest rate and 8 years left on the term. borrowed \$2,150 and \$2,200, and had balances of \$35,785 and \$33,535 respectively , from affiliates and officers to meet expenses. The balances were not collateralized, were non-interest bearing and were payable on demand.

NOTE 8 - INCOME TAXES

As of June 30, 2008, the Company had federal and state net operating loss carryforwards of approximately \$12,400,000 of which approximately \$1,600,000 may be utilized to offset future taxable income. Section 382 of the Internal Revenue Code imposes substantial restrictions on the utilization of net operating loss and tax credit carryforwards when a change in ownership occurs. No deferred tax debits have been recorded because it is considered unlikely that they will be realized. The loss carryforwards will expire during the fiscal years ended June 30 as follows:

Year	Amount
2012	\$464,000
2018	236,000
2019	548,000
2020	351,000
2021	29,000
Total	\$ 1,628,000

The overall effective tax rate differs from the federal statutory tax rate of 34% due to operating losses and other deferred assets not providing benefit for income tax purposes.
