Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of the 2% redemption fee imposed when shares are redeemed or exchanged within 30 calendar days from their date of purchase. If imposed, the fee would reduce the performance quoted. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average

#### Fund Objectives and Strategy

#### Fund Objectives and Strategy

The Sit Developing Markets Growth Fund seeks to maximize long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in common stocks of companies domiciled in a developing market. In selecting investments for the Fund, the Adviser selects countries or regions that exhibit positive economic trends, earnings outlook, liquidity within the market, fiscal and monetary policy, currency exchange rate expectations, investment valuation, market sentiment, and social and political trends. The Adviser seeks industries and sectors that appear to have strong earnings growth prospects. Within the selected industries and sectors, the Adviser invests in foreign growthoriented companies it believes exhibit the potential for superior growth.

# Risk-Reward Profile

The Sit Developing Markets Growth Fund has higher risk and higher reward potentials.

# Investment Style

The Fund seeks to achieve its objective by investing, under normal market conditions, at least 80% of its net assets in common stocks of companies domiciled or operating in a developing market.

International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. Risks are enhanced for emerging market issuers. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. MSCI Emerging Markets Index is an unmanaged free float-adjusted market capitalization index that measures equity market performance of emerging markets. It is not possible to invest directly in an index.

#### Average Annual Returns

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

#### Fund Objectives and Strategy

The Sit Dividend Growth Fund seeks current income that exceeds the dividend yield of the S&P 500® Index and grows over a period of years and long-term capital appreciation. To achieve its objectives, the Fund invests, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks. The Adviser invests in dividendpaying, growth-oriented companies it believes exhibit the potential for growth and growing dividend payments. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.

# Risk-Reward Profile

The Sit Dividend Growth Fund has moderate risk and moderate reward potentials.

# Investment Style

The Fund invests in large cap growth-oriented stocks that pay dividends. The Fund's holdings exhibit a blend of growth and value characteristics.

# Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc., an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.2 billion (as of 3/31/19). The firm's sole business is investment management.

# Portfolio Management

#### Fund Objectives and Strategy

The Sit Global Dividend Growth Fund seeks current income that exceeds the dividend yield of the MSCI World Index® and grows over a period of years and long-term capital appreciation. To achieve its objectives, the Fund invests, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks issued by U.S. and foreign companies. The Fund will invest significantly (at least 30% of its net assets) in companies outside the U.S. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.

3 Month

# Risk-Reward Profile

The Sit Global Dividend Growth Fund has medium risk and medium reward potentials.

# Investment Style

The Fund invests in large cap, growth-oriented stocks that pay dividends. The Fund's holdings exhibit a blend of growth and value characteristics.

#### Disclosure

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Dividend paying stocks may not experience the same capital appreciation as non-dividend paying stocks, and the stocks held by the Fund may reduce or stop paying dividends. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The *prospectus* may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The MSCI World Index is an unmanaged free float-adjusted market capitalization index that measures the equity market performance of 23 Developed Markets countries.
