#### FUND OBJECTIVE AND STRATEGY

The Global Dividend Growth Fund seeks to achieve its objectives by investing, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks issued by U.S. and foreign companies. The Fund will invest significantly (at least 30% of its net assets) in companies outside the U.S. The Adviser invests in dividend paying growth-oriented companies it believes exhibit the potential for growth and growing dividend payments. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return, and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.
