## SIT MID CAP GROWTH FUND

Ticker: NBNGX

**Overview**

[Returns](#)

[Risk](#)

[Holdings](#)

Information reported as of March 31, 2021

### Fund Details

Inception Date: 9/2/82  
Fund Assets (Millions): \$216.1

Wtd. Avg. Market Cap (Billions): \$30.7  
Median Market Cap (Billions): \$17.2

Ticker: NBNGX  
CUSIP: 829796-10-1  
Minimum Investment Amount: \$5,000  
Minimum IRA: \$2,000  
Investment Amount:  
Expense Ratio: 1.25%

### Average Annual Returns (%)

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains and all fee waivers. Without the fee waivers, total return figures would have been lower. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

### Fund Objectives and Strategy

The Sit Mid Cap Growth Fund objective is to maximize long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in the common stocks of companies with capitalizations of \$2 billion to \$15 billion. The Adviser invests in domestic growth-oriented medium to small companies it believes exhibit the potential for superior growth. The Adviser believes that a company's earnings growth is the primary determinant of its potential long-term return and evaluates a company's potential for above-average, long-term earnings and revenue growth.

### Risk-Reward Profile

The Sit Mid Cap Growth Fund has higher risk and higher reward potentials.

### Investment Style

The Fund invests in mid-cap size, growth-oriented stocks.

### Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$15.3 billion (as of 3/31/21). The firm's sole business is investment management.

## Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, such as futures contract and large cap stock risks, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Russell Midcap® Growth Index is an unmanaged index that measures the performance of those Russell Midcap® Index companies with higher price-to-book ratios and higher forecasted growth values. Russell Midcap® Index is an unmanaged index that measures the performance of approximately 800 of the smallest companies in the Russell 1000® Index. Russell Investment Group is the owner of the registered trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a registered trademark of Russell Investment Group. It is not possible to invest directly in an index. Weighted Average Market Cap is the average market capitalization of companies held by the Fund, weighted in proportion to their percentage of the Fund's net assets.

Cap Size: Mid

Investment Style: Growth

[Overview](#)
[Returns](#)
[Risk](#)
[Holdings](#)

Information reported as of March 31, 2021

### Return Volatility

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the [Mid Cap Growth Fund returns page](#).

### Up and Down Markets Performance

#### Up Market Performance

Average 3-Month Returns of 96 Up Quarters

#### Down Market Performance

Average 3-Month Returns of 41 Down Quarters

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, September 2, 1982. For complete performance data see the [Mid Cap Growth Fund returns page](#).

### Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the [Performance Summary page](#).

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

[Risk](#)

[Holdings](#)

Information reported as of March 31, 2021

#### Fund Details

Inception Date	12/1/93
Fund Assets	\$680.3M
Average Maturity	16.6 Years
Duration (Avg. Life)	4.5 Years
Ticker	SMTFX
CUSIP	82979K-10-0
Minimum Investment	\$5,000
Minimum IRA Investment	\$2,000
Expense Ratio	0.80%

#### Tax-Equivalent Yields

Income earned from investments in the Sit Minnesota Tax-Free Income Fund is exempt from both Federal and state taxes.

Tax-Equivalent 30-Day Yields		
30-Day SEC Yield	44.83% Tax Rate	46.63% Tax Rate
1.81	3.52	3.67

#### Average Annual Returns

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

#### Fund Objectives and Strategy

The Sit Minnesota Tax-Free Income Fund seeks current income that is exempt from federal regular income tax and Minnesota regular personal income tax consistent with preservation of capital. To achieve its objective, the Fund invests primarily in municipal securities that generate interest income that is exempt from federal regular income tax and Minnesota regular personal income tax. In selecting securities for the Fund, the Adviser seeks securities providing high current tax-exempt income. In making purchase and sales decisions for the Fund, the Adviser considers their economic outlook and interest rate forecast, as well as their evaluation of a security's structure, credit quality, yield, maturity, and liquidity.

#### Risk-Reward Profile

The Sit Minnesota Tax-Free Income Fund has lower risk and lower reward potentials.

#### Investment Style

The Fund invests in investment-grade, intermediate-duration municipal bonds.

#### Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$15.3 billion (as of 3/31/21). The firm's sole business is investment management.

## Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the [Performance Summary page](#).

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Tax, legislative, regulatory, demographic or political changes in Minnesota, as well as changes impacting Minnesota's financial, economic or other conditions may adversely impact the Fund. The Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. A relatively small number of Minnesota tax-exempt issuers may necessitate the Fund investing a larger portion of its assets in a limited number of issuers than a more diversified fund, and the Fund may be more susceptible to any single economic, political or regulatory occurrence than a more diversified fund. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 5-Year Municipal Bond Index is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rated investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Income from tax-exempt funds may be subject to state & local taxes, and a portion of income may be subject to federal income tax including the alternative minimum tax (AMT). Capital gains distributions, if any, will be subject to tax.

### Tax-Equivalent Yields (%)

30-Day SEC Yield	1.81
44.83% Tax Rate	3.52
46.63% Tax Rate	3.67

Tax-Equivalent Yields represent the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis at a specified tax rate. The effective combined federal and Minnesota rates include the federal 3.8% net investment income tax for the top two tax brackets and a Minnesota tax rate of 9.85%.

### Average Annual Returns (%)

#### Annualized Returns

	Three Month	One Year	Three Year	Five Year	Ten Year	Since Inception*

2017	5.83	3.14
2018	1.03	1.69
2019	6.70	5.45
2020	3.50	4.29
2021	0.00	-0.31

### Growth of \$10,000

From December 1, 1993 to March 31, 2021

### Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the [Performance Summary page](#).

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Tax, legislative, regulatory, demographic or political changes in Minnesota, as well as changes impacting Minnesota's financial, economic or other conditions may adversely impact the Fund. The Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. A relatively small number of Minnesota tax-exempt issuers may necessitate the Fund investing a larger portion of its assets in a limited number of issuers than a more diversified fund, and the Fund may be more susceptible to any single economic, political or regulatory occurrence than a more diversified fund. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment

[Risk](#)
[Holdings](#)

Information reported as of March 31, 2021

### Return Volatility

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the [Minnesota Tax-Free Income Fund returns page](#).

### Up and Down Markets Performance

#### Up Market Performance

Average 3-Month Returns of 86 Up Quarters

#### Up Market Performance

Average 3-Month Returns of 20 Down Quarters

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, December 1, 1993. For complete performance data see the [Minnesota Tax-Free Income Fund returns page](#).

### Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Tax, legislative, regulatory, demographic or political changes in Minnesota, as well as changes impacting Minnesota's financial, economic or other conditions may adversely impact the Fund. The Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. A relatively small number of Minnesota tax-exempt issuers may necessitate the Fund investing a larger portion of its assets in a limited number of issuers than a more diversified fund, and the Fund may be more susceptible to any single economic, political or regulatory occurrence than a more diversified fund. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 5-Year Municipal Bond Index is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity

Information reported as of March 31, 2021

#### Fund Details

Inception Date: 12/31/12  
Fund Assets (Millions): \$108.8  
  
Average Maturity: 9.8 Years  
Effective Duration: 1.2 Years  
  
Ticker: SQIFX  
CUSIP: 82979K-50-6  
Minimum Investment: \$5,000  
Amount:  
Minimum IRA: \$2,000  
Investment Amount:  
Expense Ratio: 0.90%

#### Average Annual Returns

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

#### Fund Objectives and Strategy

The Sit Quality Income Fund objective is to provide high current income and safety of principal by investing, under normal market conditions, at least 80% of its assets in debt securities issued by the U.S. government and its agencies, debt securities issued by corporations, mortgage and other asset-backed securities.

The Fund invests at least 50% of its assets in U.S. government debt securities, which are securities issued, guaranteed or insured by the U.S. government, its agencies or instrumentalities. The balance of the Fund's assets will be invested in investment-grade debt securities issued by corporations and municipalities, and mortgage and other asset-backed securities. Investment-grade debt securities are rated at the time of purchase within the top four rating categories by a Nationally Recognized Statistical Rating Organization or of comparable quality as determined by the Adviser. The Fund's dollar-weighted average portfolio quality is expected to be "A" or better.

#### Risk-Reward Profile

The Sit Quality Income Fund has lower risk and lower reward potentials.

#### Investment Style

The Fund invests in high-quality, short-duration bonds.

#### Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$15.3 billion (as of 3/31/21). The firm's sole business is investment management.

## Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the [Performance Summary page](#).

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, as futures, contacts and options, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 1-3 Year U.S. Government/Credit Index is an unmanaged index of Treasury or government agency securities and investment grade corporate debt securities with maturities of one to three years. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Information reported as of March 31, 2021

### Return Volatility

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the [Quality Income Fund returns page](#).

### Up and Down Markets Performance

#### Up Market Performance

Average 3-Month Returns of 24 Up Quarters

#### Down Market Performance

Average 3-Month Returns of 5 Down Quarters

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, December 31, 2012. For complete performance data see the [Quality Income Fund returns page](#).

### Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the [Performance Summary page](#).

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, as futures contracts and options, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 1-3 Year U.S. Government/Credit Index is an unmanaged index of Treasury or government agency securities and investment grade corporate debt securities with maturities of one to three years. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index.

The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 1-3 Year U.S. Government/Credit Index is an unmanaged index of Treasury or government agency securities and investment grade corporate debt securities with maturities of one to three years. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.
