

Professionally managed mutual funds allow smaller investors to pool their resources to invest in diversified portfolios. Individual investors can select from a variety of mutual fund strategies to find those compatible with their unique investment goals, timelines and risk tolerance. In addition, mutual fund shares are liquid, and the funds are regulated by The Securities and Exchange Commission (SEC). Sit Mutual Funds has a variety of funds to fit your investment objectives, timelines and risk tolerance.

Income Funds

Primary objective is to generate current income. Best suited for investors seeking income, those with lower risk tolerance, and/or shorter investment timelines. May offer tax benefits.

Performance figures are historical and do not guarantee future results. Investment return and principal value will vary, and you may have a gain or loss upon sale of shares. Current performance may be lower or higher than the performance data shown. Returns include changes in share price as well as reinvestment of dividends and capital gains and all expenses if applicable. Without the sales waiver total returns and yield figures would have been lower. Returns do not reflect the deduction of the 2% redemption fee imposed on those who fund their Shares on redemptions or exchanged within 30 calendar days from their date of purchase. Instead, the fee would reduce the redemption proceeds. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and other expenses are deducted from the Fund's investments. Information regarding the Fund's investment objectives, risks, charges and expenses before investing. The prospectus contains this and other important Fund information and may be obtained by calling SEI Mutual Funds at 1-800-321-9500 or by visiting our website. Read the prospectus carefully before investing.

Sample Asset Allocation Portfolios

Your choice of investment products will depend on your investment goals and time horizons, as well as your tolerance for risk. A diversified portfolio of growth and income invested in an array of products helps investors weather market volatility and adapt to market trends. Here are a few ways to allocate your portfolio to fit your goals, timelines, and risk tolerance.
