Notes to the Financial Statements

Note 3. Revenue, page 10

We have reviewed your response to prior comment 2. We note you provide other information outside your financial statements regarding the nature, amount, timing, and uncertainty of revenue and cash flows arising from your contracts with customers, including but not limited to:

- Monthly sales reports which include unit sales by brand, by vehicle type, and between retail and fleet sales. These reports also include a discussion of underlying trends for key vehicles and some information on transaction prices.

- A Strategic Update given on October 3, 2017 which includes a discussion of plans to shift allocation of capital from cars to SUVs and trucks and to expand electric vehicles revenue opportunities.
- An earnings call on July 26, 2017 which includes a discussion of the strong performance of commercial vehicles as well as consumers moving away from passenger cars and into utilities and trucks and your increasing investments in these areas as a result.

Given the information cited above, it appears other information about your automotive segment's revenue (beyond geographical information) is used by the company and users of your financial statements to evaluate your financial performance or to make resource allocation decisions. In this regard, please tell us how you considered the presentation and use of such information pursuant to ASC 606-10-55-90(c) when determining the appropriate disaggregated revenue categories that depict how the nature, amount, timing and uncertainty of cash flows are affected by economic factors and in the context of meeting the overall disclosure objective of ASC 606-10-50-1.

You may contact Aamira Chaudhry at 202-551-3389 or Doug Jones at 202-551-3309 if you have questions regarding comments on the financial statements and related matters. Please contact me at 202-551-3380 with any other questions.
