FORM 10-Q

(Mark One)

- ☒ Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended March 31, 2014

or

- ☐ Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission file number 1-6368

Ford Motor Credit Company LLC
(Exact name of registrant as specified in its charter)

Delaware
(State of organization)
One American Road, Dearborn, Michigan
(Address of principal executive offices)

38-1612444
(I.R.S. employer identification no.)
48126
(Zip code)

(313) 322-3000
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).
☐ Yes ☒ No

All of the limited liability company interests in the registrant ("Shares") are held by an affiliate of the registrant. None of the Shares are publicly traded.

REDUCED DISCLOSURE FORMAT

The registrant meets the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and is therefore filing this Form with the reduced disclosure format.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information, and instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, these unaudited financial statements include all adjustments considered necessary for a fair statement of the results of operations and financial condition for interim periods for Ford Motor Credit Company LLC, its consolidated subsidiaries and consolidated VIEs in which Ford Motor Credit Company LLC is the primary beneficiary (collectively referred to herein as "Ford Credit," "we," "our," or "us"). Results for interim periods should not be considered indicative of results for any other interim period or for the full year. Reference should be made to the financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2013. We are an indirect, wholly owned subsidiary of Ford Motor Company ("Ford").

We reclassified certain prior period amounts in our consolidated financial statements to conform to the presentation in our 2013 10-K Report.

Provision for Income Taxes

For interim tax reporting we estimate one single effective tax rate, which is applied to the year-to-date ordinary income/(loss). Tax effects of significant unusual or extraordinary items are excluded from the estimated annual effective tax rate calculation and recognized in the interim period in which they occur.

Adoption of New Accounting Standards

Income Taxes - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. On January 1, 2014, we adopted the new accounting standard that requires an unrecognized tax benefit to be presented as a decrease in a deferred tax asset where a net operating loss, a similar tax loss, or a tax credit carryforward exists and certain criteria are met. The new accounting standard is consistent with our prior practice, thus the adoption did not impact our consolidated financial statements.

Foreign Currency Matters - Parent's Accounting for Cumulative Translation Adjustment. On January 1, 2014, we adopted the new accounting standard that clarifies the applicable guidance for a parent company's accounting for the release of the cumulative translation adjustment into net income upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. The new accounting standard is consistent with our prior practice, thus the adoption did not impact our consolidated financial statements.

Liabilities - Obligations Resulting from Joint and Several Liability Arrangements. On January 1, 2014, we adopted the new accounting standard that provides guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements. The adoption of this accounting standard did not have a material impact on our consolidated financial statements or financial statement disclosures.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. FINANCE RECEIVABLES

We segment our North America and International portfolio of finance receivables into “consumer” and “non-consumer” receivables. The receivables are generally secured by the vehicles, inventory, or other property being financed.

Consumer Segment. Receivables in this portfolio segment include products offered to individuals and businesses that finance the acquisition of Ford and Lincoln vehicles from dealers for personal or commercial use. Retail financing includes retail installment contracts for new and used vehicles and direct financing leases with retail customers, government entities, daily rental companies, and fleet customers.

Non-Consumer Segment. Receivables in this portfolio segment include products offered to automotive dealers and receivables purchased from Ford and its affiliates. The products include:

- *Dealer financing* – wholesale loans to dealers to finance the purchase of vehicle inventory, also known as floorplan financing, and loans to dealers to finance working capital and improvements to dealership facilities, finance the purchase of dealership real estate, and other dealer vehicle program financing. Wholesale financing is approximately 95% of our dealer financing.
- *Other* – purchased receivables from Ford and its affiliates, primarily related to the sale of parts and accessories to dealers, receivables from Ford related loans, and certain used vehicles from daily rental fleet companies. These receivables are excluded from our credit quality reporting since the performance of this group of receivables is generally guaranteed by Ford.

Notes and accounts receivable from affiliated companies are presented separately on the balance sheet. These receivables are based on intercompany relationships and the balances are settled regularly. We do not assess these receivables for potential credit losses, nor are they subjected to aging analysis, credit quality reviews, or other formal assessments. As a result, *Notes and accounts receivable from affiliated companies* are not subject to the following disclosures contained herein.

Net finance receivables subject to fair value (f)			\$ 82,338			\$ 79,969
Fair Value			84,005			81,658

- (a) At March 31, 2014 and December 31, 2013, includes North America consumer receivables of \$20.4 billion and \$21.8 billion and non-consumer receivables of \$18.9 billion and \$18.9 billion, respectively, and International consumer receivables of \$6.4 billion and \$5.9 billion and non-consumer receivables of \$5.6 billion and \$5.0 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. The receivables are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. See Note 5 for additional information.
- (b) Ford-sponsored special financing programs attributable to retail financing.
- (c) At March 31, 2014 and December 31, 2013, includes \$63 million and \$67 million, respectively, of North America dealer financing receivables with entities (primarily dealers) that are reported as consolidated subsidiaries of Ford. At March 31, 2014 and December 31, 2013, includes \$472 million and \$399 million, respectively, of International dealer financing receivables with entities (primarily dealers) that are reported as consolidated subsidiaries of Ford. The associated vehicles that are being financed by us are reported as inventory on Ford's balance sheet.
- (d) At March 31, 2014 and December 31, 2013, excludes \$184 million and \$196 million, respectively, of accrued uncollected interest, which we report in *Other assets* on our balance sheet.
- (e) See Note 4 for additional information related to our allowance for credit losses.
- (f) At March 31, 2014 and December 31, 2013, excludes \$1.7 billion and \$1.7 billion, respectively, of certain receivables (primarily direct financing leases) that are not subject to fair value disclosure requirements.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. FINANCE RECEIVABLES (Continued)**Aging**

For all finance receivables, we define “past due” as any payment, including principal and interest, that is at least 31 days past the contractual due date. The recorded investment of consumer receivables greater than 90 days past due and still accruing interest was \$11 million and \$14 million at March 31, 2014 and December 31, 2013, respectively. The recorded investment of non-consumer receivables greater than 90 days past due and still accruing interest was \$21 million and \$21 million at March 31, 2014 and December 31, 2013, respectively.

The aging analysis of finance receivables balances was as follows (in millions):

	March 31, 2014			December 31, 2013		
	North America	International	Total	North America	International	Total
Consumer						
31-60 days past due	\$ 583	\$ 50	\$ 633	\$ 715	\$ 39	\$ 754
61-90 days past due	56	15	71	88	17	105
91-120 days past due	15	7	22	18	9	27
Greater than 120 days past due	32	26	58	37	26	63

Current	38,749	11,006	49,755	38,789	10,459	49,248
Consumer finance receivables	39,435	11,104	50,539	39,647	10,550	50,197
Non-Consumer						
Total past due	28	55	83	49	40	89
Current	24,117	9,641	33,758	23,140	8,567	31,707
Non-Consumer finance receivables	24,145	9,696	33,841	23,189	8,607	31,796
Total recorded investment	\$ 63,580	\$ 20,800	\$ 84,380	\$ 62,836	\$ 19,157	\$ 81,993

Credit Quality

Consumer Segment. When originating all classes of consumer receivables, we use a proprietary scoring system that measures the credit quality of the receivables using several factors, such as credit bureau information, consumer credit risk scores (e.g., FICO score), and contract characteristics. In addition to our proprietary scoring system, we consider other individual consumer factors, such as employment history, financial stability, and capacity to pay.

Subsequent to origination, we review the credit quality of retail financing based on customer payment activity. As each customer develops a payment history, we use an internally-developed behavioral scoring model to assist in determining the best collection strategies which allows us to focus collection activity on higher-risk accounts. These models are used to refine our risk-based staffing model to ensure collection resources are aligned with portfolio risk. Based on data from this scoring model, contracts are categorized by collection risk. Our collection models evaluate several factors, including origination characteristics, updated credit bureau data, and payment patterns.

Credit quality ratings for consumer receivables are based on our aging analysis. Refer to the aging table above. Consumer receivables credit quality ratings are as follows:

- *Pass* – current to 60 days past due
- *Special Mention* – 61 to 120 days past due and in intensified collection status
- *Substandard* – greater than 120 days past due and for which the uncollectible portion of the receivables has already been charged-off, as measured using the fair value of collateral

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. FINANCE RECEIVABLES (Continued)

Non-Consumer Segment. We extend credit to dealers primarily in the form of lines of credit to purchase new Ford and Lincoln vehicles as well as used vehicles. Payment is required when the dealer has sold the vehicle. Each non-consumer lending request is evaluated by taking into consideration the borrower's financial condition and the underlying collateral securing the loan. We use a proprietary model to assign each dealer a risk rating. This model uses historical dealer performance data to identify key factors about a dealer that we consider most significant in predicting a dealer's ability to meet its financial obligations. We also consider numerous other financial and qualitative factors of the dealer's operations including capitalization and leverage, liquidity and cash flow, profitability, and credit history with ourselves and other creditors. A dealer's risk rating does not reflect any guarantees or a dealer owner's net worth.

Dealers are assigned to one of four groups according to risk ratings as follows:

- *Group I* – strong to superior financial metrics
- *Group II* – fair to favorable financial metrics
- *Group III* – marginal to weak financial metrics
- *Group IV* – poor financial metrics, including dealers classified as uncollectible

We suspend credit lines and extend no further funding to dealers classified in Group IV.

We regularly review our model to confirm the continued business significance and statistical predictability of the factors and update the model to incorporate new factors or other information that improves its statistical predictability. In addition, we regularly audit dealer inventory and dealer sales records to verify that the dealer is in possession of the financed vehicles and is promptly paying each receivable following the sale of the financed vehicle. The frequency of on-site vehicle inventory audits depends on the dealer's risk rating. Under our policies, on-site vehicle inventory audits of low-risk dealers are conducted only as circumstances warrant in North America and at least annually internationally, and audits of higher risk dealers are conducted with increased frequency based on risk ratings worldwide. We perform a credit review of each dealer at least annually and adjust the dealer's risk rating, if necessary.

The credit quality of non-consumer receivables is evaluated based on our internal dealer risk rating analysis. A dealer has the same risk rating for its entire dealer financing regardless of the type of financing.

The credit quality analysis of our dealer financing receivables was as follows (in millions):

	March 31, 2014			December 31, 2013		
	North America	International	Total	North America	International	Total
Dealer financing						
Group I	\$ 19,527	\$ 6,379	\$ 25,906	\$ 18,424	\$ 5,450	\$ 23,874

NOTE 2. FINANCE RECEIVABLES (Continued)

Impaired Receivables

Impaired consumer receivables include accounts that have been rewritten or modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code that are considered to be Troubled Debt Restructurings ("TDRs"), as well as all accounts greater than 120 days past due. Impaired non-consumer receivables represent accounts with dealers that have weak or poor financial metrics or dealer financing that has been modified in TDRs. The recorded investment of consumer receivables that were impaired at March 31, 2014 and December 31, 2013 was \$424 million, or 0.8% of consumer receivables, and \$435 million, or 0.9% of consumer receivables, respectively. The recorded investment of non-consumer receivables that were impaired at March 31, 2014 and December 31, 2013 was \$92 million, or 0.3% of non-consumer receivables, and \$71 million, or 0.2% of non-consumer receivables, respectively. Impaired finance receivables are evaluated both collectively and specifically. See Note 4 for additional information related to the development of our allowance for credit losses.

Non-Accrual Receivables

The accrual of revenue is discontinued at the earlier of the time a receivable is determined to be uncollectible, at bankruptcy status notification, or greater than 120 days past due. Accounts may be restored to accrual status only when a customer settles all past-due deficiency balances and future payments are reasonably assured. For receivables in non-accrual status, subsequent financing revenue is recognized only to the extent a payment is received. Payments are generally applied first to outstanding interest and then to the unpaid principal balance.

The recorded investment of consumer receivables in non-accrual status was \$220 million, or 0.4% of consumer receivables, at March 31, 2014, and \$238 million, or 0.5% of consumer receivables, at December 31, 2013. The recorded investment of non-consumer receivables in non-accrual status was \$54 million, or 0.2% of non-consumer receivables, at March 31, 2014, and \$41 million, or 0.1% of non-consumer receivables, at December 31, 2013.

Troubled Debt Restructurings

A restructuring of debt constitutes a TDR if we grant a concession to a borrower for economic or legal reasons related to the debtor's financial difficulties that we otherwise would not consider. Consumer and non-consumer receivables that have a modified interest rate below market rate or that were modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code, except non-consumer receivables that are current with minimal risk of loss, are considered to be TDRs. We do not grant concessions on the principal balance of our receivables. If a receivable is modified in a reorganization proceeding, all payment requirements of the reorganization plan need to be met before remaining balances are forgiven. The outstanding recorded investment at time of modification for consumer receivables that are considered to be TDRs was \$50 million, or 0.1%, and \$55 million, or 0.1%, of consumer receivables, during the periods ended March 31, 2014 and 2013, respectively. The annualized subsequent default rate of TDRs that were previously modified in TDRs within the last twelve months and resulted in repossession for consumer receivables was 6.4% and 6.3% of TDRs at March 31, 2014 and 2013, respectively. There were no non-consumer receivables involved in TDRs during the periods ended March 31, 2014 and 2013.

Finance receivables involved in TDRs are specifically assessed for impairment. An impairment charge is recorded as part of the provision to the allowance for credit losses for the amount that the recorded investment of the receivable exceeds its estimated fair value. Estimated fair value is based on either the present value of the expected future cash flows of the receivable discounted at the contract's original effective interest rate, or for receivables where foreclosure is probable, the fair value of the collateral adjusted for estimated costs to sell. The allowance for credit losses related to all active consumer TDRs was \$23 million and \$22 million at March 31, 2014 and 2013, respectively. The allowance for credit losses related to all active non-consumer TDRs was de minimis during the periods ended March 31, 2014 and 2013.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 3. NET INVESTMENT IN OPERATING LEASES

Net investment in operating leases consist primarily of lease contracts for vehicles with retail customers, daily rental companies, government entities, and fleet customers with terms of 60 months or less.

Net investment in operating leases were as follows (in millions):

	March 31, 2014	December 31, 2013
Vehicles, at cost, including acquisition costs	\$ 21,784	\$ 21,092
Less: Accumulated depreciation	(2,928)	(2,792)
Net investment in operating leases before allowance for credit losses (a)	18,856	18,300
Less: Allowance for credit losses	(24)	(23)
Net investment in operating leases	<u>\$ 18,832</u>	<u>\$ 18,277</u>

- (a) At March 31, 2014 and December 31, 2013, includes net investment in operating leases of \$9.6 billion and \$8.1 billion, respectively, that have been included in securitization transactions but continue to be reported in our consolidated financial statements. These net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. See Note 5 for additional information.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 5. TRANSFERS OF RECEIVABLES

We securitize finance receivables and net investment in operating leases through a variety of programs using amortizing, variable funding, and revolving structures. We also sell finance receivables in structured financing transactions. Due to the similarities between securitization and structured financing, we refer to structured financings as securitization transactions. Our securitization programs are targeted to institutional investors in both public and private transactions in capital markets primarily in North America and Europe.

We engage in securitization transactions to fund operations and to maintain liquidity. Our securitization transactions are recorded as asset-backed debt and the associated assets are not derecognized and continue to be included in our financial statements.

The finance receivables sold for legal purposes and net investment in operating leases included in securitization transactions are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. They are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. The debt is the obligation of our consolidated securitization entities and not the obligation of Ford Credit or our other subsidiaries.

Most of these securitization transactions utilize VIEs. See Note 6 for more information concerning VIEs. The following tables show the assets and debt related to our securitization transactions that were included in our financial statements (in billions):

March 31, 2014					
	Finance Receivables and Net Investment in Operating Leases (a)				Related Debt
	Cash and Cash Equivalents	Before Allowance for Credit Losses	Allowance for Credit Losses	After Allowance for Credit Losses	
VIE (b)					
Retail financing	\$ 1.7	\$ 21.2	\$ 0.2	\$ 21.0	\$ 18.8
Wholesale financing	0.6	23.4	—	23.4	13.6

(a) Unearned interest supplements and residual support are excluded from securitization transactions.

(b) Includes assets to be used to settle the liabilities of the consolidated VIEs.

Interest expense related to securitization debt for the periods ended March 31 was as follows (in millions):

	First Quarter	
	2014	2013
VIE	\$ 126	\$ 151
Non-VIE	21	17
Total securitization transactions	\$ 147	\$ 168

Certain of our securitization entities enter into derivative transactions to mitigate interest rate exposure, primarily resulting from fixed-rate assets securing floating-rate debt and, in certain instances, currency exposure resulting from assets in one currency and debt in another currency. In many instances, the counterparty enters into offsetting derivative transactions with us to mitigate its interest rate risk resulting from derivatives with our securitization entities. See Note 7 for additional information regarding the accounting for derivatives. Our exposures based on the fair value of derivative instruments with external counterparties related to securitization programs were as follows (in millions):

	March 31, 2014		December 31, 2013	
	Derivative Asset	Derivative Liability	Derivative Asset	Derivative Liability
Derivatives of the VIEs	\$ 1	\$ 73	\$ 5	\$ 88
Derivatives related to the VIEs	19	19	23	30
Other securitization related derivatives	5	6	5	7
Total exposures related to securitization	\$ 25	\$ 98	\$ 33	\$ 125

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES

VIEs	\$ 20	\$ (92)
Related to the VIEs	(6)	3
Other securitization related derivatives	4	1
Total derivative expense/(income) related to securitization	\$ 18	\$ (88)

NOTE 6. VARIABLE INTEREST ENTITIES

A VIE is an entity that either (i) has insufficient equity to permit the entity to finance its activities without additional subordinated financial support or (ii) has equity investors who lack the characteristics of a controlling financial interest. A VIE is consolidated by its primary beneficiary. The primary beneficiary has both the power to direct the activities that most significantly impact the entity's economic performance and the obligation to absorb losses or the right to receive benefits from the entity that could potentially be significant to the VIE. Nearly all of our VIEs are special purpose entities used for our securitizations.

We have the power to direct the activities of our special purpose entities when we have the ability to exercise discretion in the servicing of financial assets, issue additional debt, exercise a unilateral call option, add assets to revolving structures, or control investment decisions.

Assets recognized as a result of consolidating these VIEs do not represent additional assets that could be used to satisfy claims against our general assets. Conversely, liabilities recognized as a result of consolidating these VIEs do not represent additional claims on our general assets; rather, they represent claims against the specific assets of the consolidated VIEs.

VIEs of Which We Are the Primary Beneficiary

We use special purpose entities to issue asset-backed securities in transactions to public and private investors, bank conduits, and government-sponsored entities or others who obtain funding from government programs. We have deemed most of these special purpose entities to be VIEs. The asset-backed securities are backed by finance receivables and interests in net investments in operating leases. The assets continue to be consolidated by us. We retain interests in our securitization VIEs, including subordinated securities issued by the VIEs, rights to cash held for the benefit of the securitization investors, and rights to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions.

The transactions create and pass along risks to the variable interest holders, depending on the assets securing the debt and the specific terms of the transactions. We aggregate and analyze the asset-backed securitization transactions based on the risk profile of the product and the type of funding structure, including:

- Retail financing – consumer credit risk and pre-payment risk
- Wholesale financing – dealer credit risk and Ford risk, as the receivables owned by the VIEs primarily arise from the financing provided by us to Ford-franchised dealers; therefore, the collections depend upon the sale of Ford vehicles
- Net investment in operating leases – vehicle residual value risk, consumer credit risk, and pre-payment risk

As residual interest holder, we are exposed to the underlying residual and credit risk of the collateral and are exposed to interest rate risk in some transactions. The amount of risk absorbed by our residual interests generally is represented by and limited to the amount of overcollateralization of the assets securing the debt and any cash reserves.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 6. VARIABLE INTEREST ENTITIES (Continued)

We have no obligation to repurchase or replace any securitized asset that subsequently becomes delinquent in payment or otherwise is in default, except when representations and warranties about the eligibility of the securitized assets are breached, or when certain changes are made to the underlying asset contracts. Securitization investors have no recourse to us or our other assets and have no right to require us to repurchase the investments. We generally have no obligation to provide liquidity or contribute cash or additional assets to the VIEs and do not guarantee any asset-backed securities. We may be required to support the performance of certain securitization transactions, however, by increasing cash reserves.

VIEs that are exposed to interest rate or currency risk have reduced their risks by entering into derivative transactions. In certain instances, we have entered into offsetting derivative transactions with the VIE to protect the VIE from the risks that are not mitigated through the derivative transactions between the VIE and its external counterparty. In other instances, we have entered into derivative transactions with the counterparty to protect the counterparty from risks absorbed through its derivative transactions with the VIEs.

Although not contractually required, we regularly support our wholesale securitization programs by repurchasing receivables of a dealer from a VIE when the dealer's performance is at risk, which transfers the corresponding risk of loss from the VIE to us. In order to continue to fund the wholesale receivables, we also may contribute additional cash or wholesale receivables if the collateral falls below the required levels. The balances of cash related to these contributions were \$26 million and \$0 at March 31, 2014 and December 31, 2013, respectively, and ranged from \$0 to \$68 million during the first quarter of 2014. In addition, while not contractually required, we may purchase the commercial paper issued by our FCAR Owner Trust asset-backed commercial paper program.

See Note 5 for information on the financial position and financial performance of our VIEs and Notes 7 and 12 for additional information regarding derivatives.

VIEs of Which We Are Not the Primary Beneficiary

We have an investment in Forso Nordic AB, a joint venture determined to be a VIE of which we are not the primary beneficiary. The joint venture provides retail and dealer financing in its local markets and is financed by external debt and additional subordinated debt provided by the joint venture partner. The operating agreement indicates that the power to direct economically significant activities is shared with the joint venture partner, and the obligation to absorb losses or right to receive benefits resides primarily with the joint venture partner. Our investment in the joint venture is accounted for as an equity method investment and is included in *Other assets*. Our maximum exposure to any potential losses associated with this VIE is limited to our equity investment and amounted to \$73 million and \$72 million at March 31, 2014 and December 31, 2013, respectively.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 7. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, our operations are exposed to global market risks, including the effect of changes in interest rates and foreign currency exchange rates. To manage these risks, we enter into various derivative contracts:

- Interest rate contracts including swaps, caps, and floors that are used to manage the effects of interest rate fluctuations;
- Foreign currency exchange contracts that are used to manage foreign exchange exposure; and
- Cross-currency interest rate swap contracts that are used to manage foreign currency and interest rate exposures on foreign-denominated debt.

Our derivatives are over-the-counter customized derivative transactions and are not exchange traded. We review our hedging program, derivative positions, and overall risk management strategy on a regular basis.

Derivative assets and derivative liabilities are recorded in *Derivative financial instruments* on our balance sheet at fair value and presented on a gross basis.

We have elected to apply hedge accounting to certain derivatives. Derivatives that are designated in hedging relationships are evaluated for effectiveness using regression analysis at the time they are designated and throughout the hedge period. Cash flows and the profit impact associated with designated hedges are reported in the same category as the underlying hedged item.

Some derivatives do not qualify for hedge accounting; for others, we elect not to apply hedge accounting. Regardless, we only enter into transactions that we believe will be highly effective at offsetting the underlying economic risk. We report net interest settlements and accruals and changes in the fair value of derivatives not designated as hedging instruments in *Other income, net*. Cash flows associated with non-designated or de-designated derivatives are reported in *Net cash provided by/(used in) investing activities* in our statement of cash flows.

Fair Value Hedges. We use derivatives to reduce the risk of changes in the fair value of debt. We have designated certain receive-fixed, pay-float interest rate swaps as fair value hedges of fixed-rate debt. The risk being hedged is the risk of changes in the fair value of the hedged debt attributable to changes in the benchmark interest rate. If the hedge relationship is deemed to be highly effective, we record the changes in the fair value of the hedged debt related to the risk being hedged in *Debt* with the offset in *Other income, net*. The change in fair value of the related derivative (excluding accrued interest) also is recorded in *Other income, net*.

Net interest settlements and accruals on fair value hedges are excluded from the assessment of hedge effectiveness. We report net interest settlements and accruals in *Interest expense*. We report foreign currency revaluation on accrued interest in *Other income, net*. The cash flows associated with fair value hedges are reported in *Net cash provided by/(used in) operating activities* in our statement of cash flows.

Hedge ineffectiveness is the difference between the change in fair value of the derivative instrument and the change in fair value of the hedged item attributable to changes in the benchmark interest rate. Ineffectiveness is recorded directly to income.

When a fair value hedge is de-designated, or when the derivative is terminated before maturity, the fair value adjustment to the hedged debt continues to be reported as part of the carrying value of the debt and is amortized over its remaining life.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 7. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES (Continued)**Income Effect of Derivative Financial Instruments**

The following table summarizes by hedge designation the pre-tax gains/(losses) recognized in income for the periods ended March 31 (in millions):

	First Quarter	
	2014	2013
Fair value hedges		
Interest rate contracts		
Net interest settlements and accruals excluded from the assessment of hedge effectiveness	\$ 69	\$ 61
Ineffectiveness (a)	5	(6)
Total	<u>\$ 74</u>	<u>\$ 55</u>
Derivatives not designated as hedging instruments		
Interest rate contracts	\$ (18)	\$ 2
Foreign currency exchange contracts (b)	(5)	75
Cross-currency interest rate swap contracts (b)	(5)	138
Total	<u>\$ (28)</u>	<u>\$ 215</u>

- (a) For the first quarter of 2014 and 2013, hedge ineffectiveness reflects change in fair value on derivatives of \$105 million gain and \$91 million loss, respectively, and change in value on hedged debt attributable to the change in benchmark interest rate of \$100 million loss and \$85 million gain, respectively.
- (b) Gains/(Losses) related to foreign currency derivatives were mostly offset by net revaluation impacts on foreign denominated debt, which were also recorded in *Other income, net*.

Balance Sheet Effect of Derivative Financial Instruments

The following table summarizes the notional amount and estimated fair value of our derivative financial instruments (in millions):

	March 31, 2014			December 31, 2013		
	Notional	Fair Value of Assets	Fair Value of Liabilities	Notional	Fair Value of Assets	Fair Value of Liabilities
Fair value hedges						
Interest rate contracts	\$ 18,637	\$ 338	\$ 175	\$ 18,778	\$ 360	\$ 179
Derivatives not designated as hedging instruments						
Interest rate contracts	66,917	325	109	69,863	224	126
Foreign currency exchange contracts (a)	2,271	4	21	2,410	1	25
Cross-currency interest rate swap contracts	2,927	1	165	2,620	—	176
Total derivatives not designated as hedging instruments	<u>72,115</u>	<u>330</u>	<u>295</u>	<u>74,893</u>	<u>225</u>	<u>327</u>
Total derivative financial instruments	<u>\$ 90,752</u>	<u>\$ 668</u>	<u>\$ 470</u>	<u>\$ 93,671</u>	<u>\$ 585</u>	<u>\$ 506</u>

- (a) Includes forward contracts between Ford Credit and an affiliated company.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 7. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

Notional amounts are presented on a gross basis. The notional amounts of the derivative financial instruments do not represent amounts exchanged by the parties and, therefore, are not a direct measure of our exposure to the financial risks described above. The amounts exchanged are calculated by reference to the notional amounts and by other terms of the derivatives, such as interest rates or foreign currency exchange rates.

Counterparty Risk

The use of derivatives exposes us to the risk that a counterparty may default on a derivative contract. We establish exposure limits for each counterparty to minimize this risk and provide counterparty diversification. Substantially all of our derivative exposures are with counterparties that have an investment grade rating. The aggregate fair value of derivative instruments in asset positions at March 31, 2014 was \$668 million, representing the maximum loss we would recognize at that date if all counterparties failed to perform as contracted. We enter into master agreements with counterparties that may allow for netting of exposures in the event of default or termination of the counterparty agreement due to breach of contract.

The gross and net amounts of derivative assets and liabilities were as follows (in millions):

	March 31, 2014		December 31, 2013	
	Fair Value of Assets	Fair Value of Liabilities	Fair Value of Assets	Fair Value of Liabilities
Gross derivative amounts recognized in the balance sheet	\$ 668	\$ 470	\$ 585	\$ 506
Gross derivative amounts not offset in the balance sheet that are eligible for offsetting	(307)	(307)	(296)	(296)
Net amount	<u>\$ 361</u>	<u>\$ 163</u>	<u>\$ 289</u>	<u>\$ 210</u>

We may receive or pledge cash collateral with certain counterparties based on our net position with regard to foreign currency derivative contracts. As of March 31, 2014 and December 31, 2013, we did not receive or pledge any cash collateral.

We include an adjustment for non-performance risk in the measurement of fair value of derivative instruments. Our adjustment for non-performance risk is relative to a measure based on an unadjusted inter-bank deposit rate (e.g., LIBOR). At March 31, 2014 and December 31, 2013, our adjustment increased derivative assets by \$2 million and \$2 million, respectively, and decreased our derivative liabilities by \$12 million and \$25 million, respectively. See Note 12 for additional information regarding valuation methodologies.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 8. OTHER ASSETS AND OTHER LIABILITIES AND DEFERRED INCOME

Other assets and other liabilities and deferred income consist of various balance sheet items that are combined for financial statement presentation due to their respective materiality compared with other individual asset and liability items.

Other assets were as follows (in millions):

	March 31, 2014	December 31, 2013
Accrued interest and other non-finance receivables	\$ 1,133	\$ 1,010
Collateral held for resale, at net realizable value	545	399
Restricted cash (a)	116	169
Deferred charges	238	252
Deferred charges – income taxes	180	184
Prepaid reinsurance premiums and other reinsurance receivables	354	340
Investment in non-consolidated affiliates	133	133
Property and equipment, net of accumulated depreciation (b)	120	120
Other	76	59
Total other assets	<u>\$ 2,895</u>	<u>\$ 2,666</u>

- (a) Restricted cash primarily includes cash held to meet certain local governmental and regulatory reserve requirements and cash held under the terms of certain contractual agreements. Restricted cash does not include required minimum balances or cash securing debt issued through securitization transactions.
- (b) Accumulated depreciation was \$329 million and \$343 million at March 31, 2014 and December 31, 2013, respectively.

Other liabilities and deferred income were as follows (in millions):

	March 31, 2014	December 31, 2013
Interest payable	\$ 586	\$ 615
Tax related payables to Ford and affiliated companies	730	941
Unrecognized tax benefits	110	101
Unearned insurance premiums	363	350
Other	414	515
Total other liabilities and deferred income	<u>\$ 2,203</u>	<u>\$ 2,522</u>

In the first quarter of 2014 and in the year ended December 31, 2013, we paid \$262 million and \$288 million, respectively, to Ford to settle tax related payables which were reflected in *Other liabilities and deferred income*. The payment in the first quarter of 2013 reduced the liability for unrecognized tax benefits reflecting the settlement of tax deficiencies related to the 2008 and 2009 tax years.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 9. DEBT

We have a commercial paper program with qualified institutional investors. We also obtain other short-term funding from the issuance of demand notes to retail investors through our floating rate demand notes program. We have certain securitization programs that issue short-term asset-backed debt securities that are sold to institutional investors. Bank borrowings by several of our international affiliates in the ordinary course of business are an additional source of short-term funding. We obtain long-term debt funding through the issuance of a variety of unsecured and asset-backed debt securities in the U.S. and international capital markets.

Asset-backed debt issued in securitizations is the obligation of the consolidated securitization entity that issued the debt and is payable only out of collections on the underlying securitized assets and related enhancements. This asset-backed debt is not the obligation of Ford Credit or our other subsidiaries.

Debt is recorded on our balance sheet at par value adjusted for unamortized discount or premium (with the exception of fair value adjustments related to debt in designated hedge relationships; see Note 7 for further policy information). Debt due within one year at issuance is classified as short-term. Debt due after one year at issuance is classified as long-term. Discounts, premiums, and costs directly related to the issuance of debt generally are capitalized and amortized over the life of the debt or put date and recorded in *Interest expense* using the effective interest method. Gains and losses on the extinguishment of debt are recorded in *Other income, net*.

Interest rates and debt outstanding were as follows (in millions):

	Interest Rates				Debt	
	Average Contractual		Average Effective			
	2014	2013	2014	2013	March 31, 2014	December 31, 2013
Short-term debt						
Asset-backed commercial paper	0.2%	0.2%			\$ 1,331	\$ 3,364
Floating rate demand notes	1.1%	1.1%			5,513	5,319
Other asset-backed short-term debt	0.7%	0.7%			1,972	1,963
Commercial paper	0.8%	0.9%			2,464	2,003
Other short-term debt	5.7%	5.3%			2,532	2,372
Total short-term debt	1.7%	1.5%	1.8%	1.5%	13,812	15,021
Long-term debt						
Senior indebtedness						
Notes payable within one year					5,675	4,479
Notes payable after one year					39,533	38,617
Asset-backed debt						
Notes payable within one year					17,409	17,322
Notes payable after one year					24,448	23,238
Unamortized discount					(77)	(87)
Fair value adjustments					190	103
Total long-term debt	2.9%	3.0%	3.1%	3.2%	87,178	83,672
Total debt	2.7%	2.8%	2.9%	3.0%	\$ 100,990	\$ 98,693
Fair value of debt						
					\$ 103,968	\$ 101,866

With the exception of commercial paper, which is issued at a discount, the average contractual rates reflect the stated contractual interest rate. Average effective rates reflect the average contractual interest rate plus amortization of discounts, premiums, and issuance fees. Fair value adjustments relate to designated fair value hedges of unsecured debt.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 9. DEBT (Continued)

The fair value of debt reflects interest accrued but not yet paid of \$586 million and \$618 million at March 31, 2014 and December 31, 2013, respectively. Interest accrued is reported in *Other liabilities and deferred income* for outside debt and *Accounts payable - affiliated companies* for debt with affiliated companies. The fair value of debt also includes \$10.5 billion and \$9.7 billion of short-term debt at March 31, 2014 and December 31, 2013, respectively, carried at cost, which approximates fair value. See Note 12 for additional information.

Debt with affiliated companies included in the above table was as follows (in millions):

	March 31, 2014	December 31, 2013
Other short-term debt	\$ 10	\$ 27
Notes payable within one year	100	4
Notes payable after one year	231	307
Total debt with affiliated companies	<u>\$ 341</u>	<u>\$ 338</u>

Debt Repurchases and Calls. From time to time and based on market conditions, we may repurchase or call some of our outstanding unsecured and asset-backed debt. If we have excess liquidity and it is an economically favorable use of our available cash, we may repurchase or call debt at a price lower or higher than its carrying value, resulting in a gain or loss on extinguishment.

In the first quarter of 2014, through market transactions, we called an aggregate principal amount of \$195 million (of which none were maturing in 2014) of our unsecured debt. As a result, we recorded a pre-tax loss of \$1 million, net of unamortized premiums, discounts, and fees in *Other income, net*. There were no repurchase or call transactions for asset-backed debt during the first quarter of 2014.

In the first quarter of 2013, through market transactions, we called an aggregate principal amount of \$33 million (of which none were maturing in 2013) of our unsecured debt. As a result, we recorded a de minimis pre-tax loss, net of unamortized premiums, discounts, and fees in *Other income, net*. There were no repurchase or call transactions for asset-backed debt during the first quarter of 2013.

Debt Maturities. Short-term and long-term debt matures at various dates through 2048. At March 31, 2014, maturities were as follows (in millions):

	2014 (a)	2015 (b)	2016	2017	2018	Thereafter (c)	Total
Unsecured debt	\$ 13,013	\$ 9,961	\$ 9,293	\$ 7,298	\$ 5,596	\$ 10,556	\$ 55,717
Asset-backed debt	15,300	14,905	9,293	4,546	498	618	45,160
Total	28,313	24,866	18,586	11,844	6,094	11,174	100,877
Unamortized (discount)/premium							(77)
Fair value adjustments							190
Total debt							<u>\$ 100,990</u>

(a) Includes \$12,668 million for short-term and \$15,645 million for long-term debt.

(b) Includes \$1,144 million for short-term and \$23,722 million for long-term debt.

(c) Includes \$10,540 million of unsecured debt maturing between 2019 and 2024 with the remaining balance maturing after 2031.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 10. ACCUMULATED OTHER COMPREHENSIVE INCOME

The changes in the accumulated balance of AOCI for the periods ended March 31 were as follows (in millions):

	First Quarter	
	2014	2013
Foreign currency translation		
Beginning balance	\$ 717	\$ 743
Net gain/(loss) on foreign currency translation	(82)	(187)
Other comprehensive income/(loss), net of tax	(82)	(187)
Ending balance	\$ 635	\$ 556
Total AOCI ending balance at March 31	\$ 635	\$ 556

NOTE 11. OTHER INCOME

Other income consists of various line items that are combined on the income statement due to their respective materiality compared with other individual income and expense items.

The amounts included in *Other income, net* were as follows for the periods ended March 31 (in millions):

	First Quarter	
	2014	2013
Gains/(Losses) on derivatives (a)	\$ (23)	\$ 209
Currency revaluation gains/(losses) (a)	7	(208)
Interest and investment income	14	15
Insurance fee income	26	16
Other	27	45
Total other income, net	\$ 51	\$ 77

- (a) Currency revaluation gains/(losses) primarily related to foreign denominated debt were mostly offset by gains/(losses) on derivatives. See Note 7 for detail by derivative instrument and risk type.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 12. FAIR VALUE MEASUREMENTS

Cash equivalents, marketable securities, and derivative financial instruments are presented in our financial statements on a recurring basis at fair value, while other assets and liabilities are measured at fair value on a nonrecurring basis such as when we have an asset impairment.

Fair Value Measurements

In measuring fair value, we use various valuation methodologies and prioritize the use of observable inputs. The use of observable and unobservable inputs and their significance in measuring fair value are reflected in our fair value hierarchy assessment.

- Level 1 – inputs include quoted prices for identical instruments and are the most observable
- Level 2 – inputs include quoted prices for similar instruments and observable inputs such as interest rates, currency exchange rates, and yield curves
- Level 3 – inputs include data not observable in the market and reflect management judgment about the assumptions market participants would use in pricing the instruments

We review the inputs to the fair value measurements to ensure they are appropriately categorized within the fair value hierarchy. Transfers into and transfers out of the hierarchy levels are recognized as if they had taken place at the end of the reporting period.

Valuation Methodologies

Cash and Cash Equivalents. Included in *Cash and cash equivalents* are highly liquid investments that are readily convertible to known amounts of cash, and which are subject to an insignificant risk of change in value due to interest rate, quoted price, or penalty on withdrawal. A debt security is classified as a cash equivalent if it meets these criteria and if it has a remaining time to maturity of three months or less from the date of acquisition. Amounts on deposit and available upon demand, or negotiated to provide for daily liquidity without penalty, are classified as *Cash and cash equivalents*. Time deposits, certificates of deposit, and money market accounts that meet the above criteria are reported at par value on our balance sheet and are excluded from the tables below.

Marketable Securities. Investments in securities with a maturity date greater than three months at the date of purchase and other securities for which there is more than an insignificant risk of change in value due to interest rate, quoted price, or penalty on withdrawal are classified as *Marketable securities*. We generally measure fair value using prices obtained from pricing services. Pricing methodologies and inputs to valuation models used by the pricing services depend on the security type (i.e., asset class). Where possible, fair values are generated using market inputs including quoted prices (the closing price in an exchange market), bid prices (the price at which a buyer stands ready to purchase), and other market information. For fixed income securities that are not actively traded, the pricing services use alternative methods to determine fair value for the securities, including: quotes for similar fixed-income securities, matrix pricing, discounted cash flow using benchmark curves, or other factors. In certain cases, when market data are not available, we may use broker quotes to determine fair value.

An annual review is performed on the security prices received from our pricing services, which includes discussion and analysis of the inputs used by the pricing services to value our securities. We also compare the price of certain securities sold close to the quarter end to the price of the same security at the balance sheet date to ensure the reported fair value is reasonable.

Realized and unrealized gains and losses and interest income on our marketable securities are recorded in other income/(loss), net. Realized gains and losses are measured using the specific identification method.

We have entered into repurchase agreements with certain counterparties where we are the transferee. These agreements allow us to offset our entire gross exposure in the event of default or breach of contract. The gross value of these assets and liabilities reflected on our balance sheet at March 31, 2014 and December 31, 2013 was \$308 million and \$227 million, respectively.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 12. FAIR VALUE MEASUREMENTS (Continued)

Derivative Financial Instruments. Our derivatives are over-the-counter customized derivative transactions and are not exchange traded. We estimate the fair value of these instruments using industry-standard valuation models such as a discounted cash flow. These models project future cash flows and discount the future amounts to a present value using market-based expectations for interest rates, foreign exchange rates, and the contractual terms of the derivative instruments. The discount rate used is the relevant interbank deposit rate (e.g., LIBOR) plus an adjustment for non-performance risk. The adjustment reflects the full credit default swap ("CDS") spread applied to a net exposure, by counterparty, considering the master netting agreements. We use our counterparty's CDS spread when we are in a net asset position and our own CDS spread when we are in a net liability position.

Finance Receivables. We measure finance receivables at fair value for purposes of disclosure (see Note 2) using internal valuation models. These models project future cash flows of financing contracts based on scheduled contract payments (including principal and interest). The projected cash flows are discounted to present value based on assumptions regarding credit losses, pre-payment speed, and applicable spreads to approximate current rates. Our assumptions regarding pre-payment speed and credit losses are based on historical performance. The fair value of finance receivables is categorized within Level 3 of the hierarchy.

On a nonrecurring basis, we also measure at fair value retail contracts greater than 120 days past due or deemed to be uncollectible, and individual dealer loans probable of foreclosure. We use the fair value of collateral, adjusted for estimated costs to sell, to determine the fair value of our receivables. The collateral for a retail receivable is the vehicle financed, and for dealer loans is real estate or other property.

The fair value of collateral for retail receivables is calculated based on the number of contracts multiplied by the loss severity and the probability of default ("POD") percentage, or the outstanding receivable balances multiplied by the average recovery value ("ARV") percentage to determine the fair value adjustment.

The fair value of collateral for dealer loans is determined by reviewing various appraisals, which include total adjusted appraised value of land and improvements, alternate use appraised value, broker's opinion of value, and purchase offers. The fair value adjustment is calculated by comparing the net carrying value of the dealer loan and the estimated fair value of collateral.

The fair value of retail and dealer loans measured on a nonrecurring basis was \$55 million and \$61 million at March 31, 2014 and December 31, 2013, respectively. Changes in the significant unobservable inputs will not materially affect the fair value of these loans. The fair value adjustment recorded to expense for these receivables was \$19 million and \$25 million during the first quarter of 2014 and 2013, respectively.

Debt. We measure debt at fair value for purposes of disclosure (see Note 9) using quoted prices for our own debt with approximately the same remaining maturities, where possible. Where quoted prices are not available, we estimate fair value using discounted cash flows and market-based expectations for interest rates, credit risk, and the contractual terms of the debt instruments. For certain short-term debt with an original maturity date of one year or less, we assume that book value is a reasonable approximation of debt's fair value. The fair value of debt is categorized within Level 2 of the hierarchy.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 12. FAIR VALUE MEASUREMENTS (Continued)**Input Hierarchy of Items Measured at Fair Value on a Recurring Basis**

The following table categorizes the fair values of items measured at fair value on a recurring basis on our balance sheet, none of which are Level 3 (in millions):

	March 31, 2014			December 31, 2013		
	Level 1	Level 2	Total	Level 1	Level 2	Total
Assets						
Cash equivalents-financial instruments						
Non-U.S. government	\$ —	\$ 75	\$ 75	\$ —	\$ 24	\$ 24
Total cash equivalents-financial instruments (a)	—	75	75	—	24	24
Marketable securities						
U.S. government	794	—	794	418	—	418
U.S. government-sponsored enterprises	—	340	340	—	25	25
Non-U.S. government agencies (b)	—	303	303	—	128	128
Corporate debt	—	1,246	1,246	—	1,273	1,273
Mortgage-backed and other asset-backed	—	41	41	—	43	43
Non-U.S. government	—	93	93	—	56	56
Total marketable securities	794	2,023	2,817	418	1,525	1,943
Derivative financial instruments						
Interest rate contracts	—	663	663	—	584	584
Foreign currency exchange contracts	—	4	4	—	1	1
Cross-currency interest rate swap contracts	—	1	1	—	—	—
Total derivative financial instruments	—	668	668	—	585	585
Total assets at fair value	\$ 794	\$ 2,766	\$ 3,560	\$ 418	\$ 2,134	\$ 2,552
Liabilities						
Derivative financial instruments						
Interest rate contracts	\$ —	\$ 284	\$ 284	\$ —	\$ 305	\$ 305
Foreign currency exchange contracts	—	21	21	—	25	25
Cross-currency interest rate swap contracts	—	165	165	—	176	176
Total derivative financial instruments	—	470	470	—	506	506
Total liabilities at fair value	\$ —	\$ 470	\$ 470	\$ —	\$ 506	\$ 506

(a) Excludes time deposits, certificates of deposit, and money market accounts reported at par value on our balance sheet totaling \$6.2 billion and \$6.6 billion at March 31, 2014 and December 31, 2013, respectively. In addition to these cash equivalents, we also had cash on hand totaling \$2.1 billion and \$2.8 billion at March 31, 2014 and December 31, 2013, respectively.

(b) Includes notes issued by non-U.S. government agencies, as well as notes issued by supranational institutions.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 13. SEGMENT INFORMATION

We conduct our financing operations directly and indirectly through our subsidiaries and affiliates. We offer substantially similar products and services throughout many different regions, subject to local legal restrictions and market conditions. We divide our business segments based on geographic regions: the North America Segment (includes operations in the United States and Canada) and the International Segment (includes operations in all other countries).

We measure the performance of our segments primarily on an income before income taxes basis, after excluding the impact to earnings from gains and losses related to market valuation adjustments to derivatives primarily related to movements in interest rates. These adjustments are included in unallocated risk management and are excluded in assessing our North America and International Segment performance, because they are carried out on a centralized basis at the corporate level, with only certain elements allocated to these segments. We also adjust segment performance to re-allocate interest expense between the North America and International Segments reflecting debt and equity levels proportionate to their product risk. Receivables for the North America and International Segments are presented on a managed basis. Management believes that managed receivables is the appropriate measurement of business growth, as it closely approximates the customers' outstanding balance on the receivables, which is the basis for earning revenue. As a result, managed receivables equals total net finance receivables and net investment in operating leases, excluding unearned interest supplements and residual support, allowance for credit losses, and other (primarily accumulated supplemental depreciation).

Key operating data for our business segments for the periods ended or at March 31 were as follows (in millions):

	Unallocated/Eliminations					
	North America Segment	International Segment	Unallocated Risk Management	Adjustment to Receivables (a)	Total Unallocated/ Eliminations	Total
First Quarter 2014						
Total revenue (b)	\$ 1,769	\$ 401	\$ (11)	\$ —	\$ (11)	\$ 2,159
Income before income taxes	378	132	(11)	—	(11)	499
Other disclosures						
Depreciation on vehicles subject to operating leases	695	10	—	—	—	705
Interest expense	512	154	—	—	—	666
Provision for credit losses	29	2	—	—	—	31
Net finance receivables and net investment in operating leases	85,130	21,335	—	(3,587)	(3,587)	102,878
Total assets	92,566	25,798	—	—	—	118,364
First Quarter 2013						
Total revenue (b)	\$ 1,582	\$ 369	\$ 9	\$ —	\$ 9	\$ 1,960
Income before income taxes	407	91	9	—	9	507
Other disclosures						
Depreciation on vehicles subject to operating leases	476	5	—	—	—	481
Interest expense	517	166	—	—	—	683
Provision for credit losses	22	7	—	—	—	29
Net finance receivables and net investment in operating leases	76,829	17,496	—	(2,999)	(2,999)	91,326
Total assets	83,523	22,413	—	—	—	105,936

(a) Includes unearned interest supplements and residual support, allowances for credit losses, and other (primarily accumulated supplemental depreciation).

(b) Represents *Total financing revenue*, *Insurance premiums earned*, and *Other income, net*.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 14. COMMITMENTS AND CONTINGENCIES

Commitments and contingencies consist primarily of lease commitments, guarantees and indemnifications, and litigation and claims.

Guarantees and Indemnifications

Guarantees and indemnifications are recorded at fair value at their inception. We regularly review our performance risk under these arrangements, and in the event it becomes probable we will be required to perform under the guarantee or indemnification, the amount of probable payment is recorded.

In some cases, we have guaranteed debt and other financial obligations of unconsolidated affiliates, including Ford. Expiration dates vary, and guarantees will terminate on payment and/or cancellation of the obligation. A payment by us would be triggered by failure of the guaranteed party to fulfill its obligation covered by the guarantee. In some circumstances, we are entitled to recover from Ford or an affiliate of Ford amounts paid by us under the guarantee. However, our ability to enforce these rights is sometimes stayed until the guaranteed party is paid in full.

In the ordinary course of business, we execute contracts involving indemnifications standard in the industry and indemnifications specific to a transaction. These indemnifications might include and are not limited to claims relating to any of the following: environmental, tax, and shareholder matters; intellectual property rights; governmental regulations and employment-related matters; dealers and other commercial contractual relationships; and financial matters, such as securitizations. Performance under these indemnities generally would be triggered by a breach of terms of the contract or by a third-party claim. While some of these indemnifications are limited in nature, many of them do not limit potential payment. Therefore, we are unable to estimate a maximum amount of future payments that could result from claims made under these unlimited indemnities.

The maximum potential payments under these guarantees and limited indemnities totaled \$102 million and \$100 million at March 31, 2014 and December 31, 2013, respectively. Of these values, \$96 million at March 31, 2014 and December 31, 2013, were counter-guaranteed by Ford to us. The carrying value of recorded liabilities related to guarantees and limited indemnities were de minimis at March 31, 2014 and December 31, 2013.

Litigation and Claims

Various legal actions, proceedings, and claims (generally, "matters") are pending or may be instituted or asserted against us. These include but are not limited to matters arising out of governmental regulations; tax matters; alleged illegal acts resulting in fines or penalties; financial services; employment-related matters; dealers and other contractual relationships; personal injury matters; investor matters; and financial reporting matters. Certain of the pending legal actions are, or purport to be, class actions. Some of the matters involve or may involve claims for compensatory, punitive, or antitrust or other treble damages in very large amounts, sanctions, assessments, or other relief, which, if granted, would require very large expenditures.

The extent of our financial exposure to these matters is difficult to estimate. Many matters do not specify a dollar amount for damages, and many others specify only a jurisdictional minimum. To the extent an amount is asserted, our historical experience suggests that in most instances the amount asserted is not a reliable indicator of the ultimate outcome.

Litigation and claims are accrued when losses are deemed probable and reasonably estimable. In evaluating matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood of our prevailing, and the severity of any potential loss. We reevaluate and update our accruals as matters progress over time.

FORD MOTOR CREDIT COMPANY LLC AND SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS

NOTE 14. COMMITMENTS AND CONTINGENCIES (Continued)

For nearly all of our matters, where our historical experience with similar matters is of limited value (i.e., “non-pattern matters”), we evaluate matters based on the individual facts and circumstances. For non-pattern matters, we evaluate whether there is a reasonable possibility of a material loss in excess of any accrual that can be estimated. It is reasonably possible that some of the matters for which accruals have not been established could be decided unfavorably to us and could require us to pay damages or make other expenditures in amounts or a range of amounts that cannot be estimated at March 31, 2014. We do not reasonably expect, based on our analysis, that such matters would have a material effect on future financial statements for a particular year, although such an outcome is possible.

As noted, the litigation process is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Our assessments are based on our knowledge and experience, but the ultimate outcome of any matter could require payment substantially in excess of the amount that we have accrued and/or disclosed.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder of
Ford Motor Credit Company LLC:

We have reviewed the accompanying consolidated balance sheet of Ford Motor Credit Company LLC and its subsidiaries (the "Company") as of March 31, 2014 and December 31, 2013, and the related consolidated statements of income and of comprehensive income for the three-month periods ended March 31, 2014 and 2013 and the consolidated statements of shareholder's interest and of cash flows for the three-month periods ended March 31, 2014 and 2013. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2013, and the related consolidated statements of income, of comprehensive income, of shareholder's interest, and of cash flows for the year then ended (not presented herein), and in our report dated February 18, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2013, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Overview

In general, we measure period-to-period changes in pre-tax profit using the causal factors listed below:

- **Volume** – Volume is reflected within *Net financing margin* on the income statement.
 - Volume primarily measures changes in net financing margin driven by changes in average finance receivables and net investment in operating leases at prior period financing margin yield (defined below in financing margin).
 - Volume changes are primarily driven by the volume of new and used vehicle sales and leases, the extent to which we purchase retail installment sale and lease contracts, the extent to which we provide wholesale financing, the sales price of the vehicles financed, the level of dealer inventories, Ford-sponsored special financing programs available exclusively through us, and the availability of cost-effective funding for the purchase of retail installment sale and lease contracts and to provide wholesale financing.
- **Financing Margin** – Financing margin is reflected within *Net financing margin* on the income statement.
 - Financing margin variance is the period-to-period change in financing margin yield multiplied by the present period average receivables. Financing margin yield equals revenue, less interest expense and scheduled depreciation for the period, divided by average receivables for the same period.
 - Financing margin changes are driven by changes in revenue and interest expense. Changes in revenue are primarily driven by the level of market interest rates, cost assumptions in pricing, mix of business, and competitive environment. Changes in interest expense are primarily driven by the level of market interest rates, borrowing spreads, and asset-liability management.
- **Credit Loss** – Credit loss is reflected as the *Provision for credit losses* on the income statement.
 - Credit loss measures changes in the provision for credit losses. For analysis purposes, management splits the provision for credit losses primarily into net charge-offs and the change in the allowance for credit losses.
 - Net charge-off changes are primarily driven by the number of repossessions, severity per repossession, and recoveries. Changes in the allowance for credit losses are primarily driven by changes in historical trends in credit losses and recoveries, changes in the composition and size of our present portfolio, changes in trends in historical used vehicle values, and changes in economic conditions. For additional information on the allowance for credit losses, refer to the “Critical Accounting Estimates – Allowance for Credit Losses” section of Item 7 of Part II of our 2013 10-K Report.
- **Lease Residual** – Lease Residual is reflected within *Depreciation on vehicles subject to operating leases* on the income statement.
 - Lease residual measures changes to residual performance. For analysis purposes, management splits residual performance primarily into residual gains and losses, and the change in accumulated supplemental depreciation.
 - Residual gain and loss changes are primarily driven by the number of vehicles returned to us and sold, and the difference between the auction value and the depreciated value of the vehicles sold. Changes in accumulated supplemental depreciation are primarily driven by changes in our estimate of the number of vehicles that will be returned to us and sold, and changes in our estimate of the expected auction value at the end of the lease term. For additional information on accumulated supplemental depreciation, refer to the “Critical Accounting Estimates – Accumulated Depreciation on Vehicles Subject to Operating Leases” section of Item 7 of Part II of our 2013 10-K Report.
- **Other** – Primarily includes *Operating expenses*, *Other revenue*, and *Insurance expenses* on the income statement.
 - Changes in operating expenses are primarily driven by salaried personnel costs, facilities costs, and costs associated with the origination and servicing of customer contracts.
 - In general, other revenue changes are primarily driven by changes in earnings related to market valuation adjustments to derivatives (primarily related to movements in interest rates), which are included in unallocated risk management, and other miscellaneous items.

First Quarter 2014 Compared with First Quarter 2013

On a pre-tax basis we earned \$499 million in the first quarter of 2014, compared with \$507 million a year ago. The following chart shows the factors that contributed to the largely unchanged pre-tax profit:

2014 FIRST QUARTER PRE-TAX RESULTS COMPARED WITH 2013

- (a) Net receivables reflect net finance receivables and net investment in operating leases reported on Ford Credit's balance sheet. The prior period was revised to conform to the presentation in our 2013 10-K Report.
- (b) Managed receivables equal net receivables, excluding unearned interest supplements and residual support, allowance for credit losses, and other (primarily accumulated supplemental depreciation). The prior period was revised to conform to the presentation in our 2013 10-K Report.

The higher volume reflects increases in nearly all products: leasing in North America, and both consumer and non-consumer finance receivables in all geographic segments. The increases in leasing and consumer finance receivables reflect improved Ford Credit financing share as a result of changes in Ford's marketing programs. The increase in non-consumer finance receivables is due to higher dealer stocks.

The unfavorable residual performance primarily reflects revised depreciation due to expectations of lower auction values in the North America lease portfolio.

Our pre-tax profit was higher than fourth quarter 2013 explained primarily by favorable lease residual performance due to higher auction values, as well as lower operating costs included in Other. These factors are consistent with normal seasonality.

Results of operations by business segment and unallocated risk management for the periods ending March 31 are shown below (in millions). For additional information, see Note 13 of our Notes to the Financial Statements.

	First Quarter		
	2014	2013	2014 Over/(Under) 2013
Income before income taxes			
North America Segment	\$ 378	\$ 407	\$ (29)
International Segment	132	91	41
Unallocated risk management	(11)	9	(20)
Income before income taxes	<u>\$ 499</u>	<u>\$ 507</u>	<u>\$ (8)</u>

North America Segment

The decrease in the North America Segment pre-tax profit is largely explained by unfavorable lease residual performance primarily reflecting revised depreciation due to expectations of lower auction values in the lease portfolio. A partial offset is higher volume, which is driven by increases in leasing as well as increases in both consumer and non-consumer finance receivables. The increases in leasing and consumer finance receivables reflect improved Ford Credit financing share as a result of changes in Ford's marketing programs. The increase in non-consumer finance receivables is due to higher dealer stocks.

International Segment

The increase in the International Segment pre-tax profit is attributed to Europe and China, primarily explained by higher volume driven by an increase in consumer and non-consumer finance receivables.

Unallocated Risk Management

The decrease in unallocated risk management primarily reflects unfavorable performance in market valuation adjustments to derivatives. For additional information, see Notes 7 and 12 of our Notes to the Financial Statements.

Contract Placement Volume and Financing Share

Total worldwide consumer financing contract placement volumes for new and used vehicles for the periods ended March 31 were as follows (in thousands):

	First Quarter	
	2014	2013
North America Segment		
United States	284	272
Canada	24	25
Total North America Segment	308	297
International Segment		
Europe	112	103
Other International	34	18
Total International Segment	146	121
Total contract placement volume	454	418

Shown below are our financing shares of new Ford- and Lincoln-brand vehicles sold by dealers in the United States and new Ford-brand vehicles sold by dealers in Europe for the periods ended March 31.

Also shown below are our wholesale financing shares of new Ford- and Lincoln-brand vehicles acquired by dealers in the United States, excluding fleet, and new Ford-brand vehicles acquired by dealers in Europe for the periods ended March 31:

	First Quarter	
	2014	2013
United States		
Financing share		
Retail installment and lease	44%	40%
Wholesale	76	77
Europe		
Financing share		
Retail installment and lease	34%	34%
Wholesale	98	98

North America Segment

The increase in total contract placement volume primarily reflects higher financing share of new Ford and Lincoln vehicles. The increase in Ford and Lincoln retail financing share primarily reflects changes in Ford's marketing programs that favored us.

International Segment

The increase in total contract placement volume primarily reflects growth in sales of new Ford vehicles in China and in Europe, and Ford Credit's re-entry into consumer financing in Mexico.

Financial Condition*Finance Receivables and Operating Leases*

Our receivables, including finance receivables and operating leases, were as follows (in billions):

	March 31, 2014	December 31, 2013
Net Receivables		
Finance receivables – North America Segment		
Consumer - Retail financing	\$ 40.7	\$ 40.9
Non-Consumer		
Dealer Financing (a)	23.2	22.1
Other	1.0	1.0
Total finance receivables - North America Segment (b)	64.9	64.0
Finance receivables – International Segment		
Consumer - Retail financing	11.3	10.8
Non-Consumer		
Dealer Financing (a)	9.3	8.3
Other	0.4	0.4
Total finance receivables - International Segment (b)	21.0	19.5
Unearned interest supplements	(1.5)	(1.5)
Allowance for credit losses	(0.3)	(0.4)
Finance receivables, net	84.1	81.6
Net investment in operating leases (b)	18.8	18.3
Total net receivables	\$ 102.9	\$ 99.9
Managed Receivables		
Total net receivables	\$ 102.9	\$ 99.9
Unearned interest supplements and residual support	3.1	3.1
Allowance for credit losses	0.4	0.4
Other, primarily accumulated supplemental depreciation	0.1	—
Total managed receivables	\$ 106.5	\$ 103.4

- (a) Dealer financing primarily includes wholesale loans to dealers to finance the purchase of vehicle inventory. For additional information, see Note 2 of our Notes to the Financial Statements.
- (b) At March 31, 2014 and December 31, 2013, includes consumer receivables before allowance for credit losses of \$26.8 billion and \$27.7 billion and non-consumer receivables before allowance for credit losses of \$24.5 billion and \$23.9 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. In addition, at March 31, 2014 and December 31, 2013, includes net investment in operating leases before allowance for credit losses of \$9.6 billion and \$8.1 billion, respectively, that have been included in securitization transactions but continue to be reported in our consolidated financial statements. The receivables and net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. For additional information on our securitization transactions, refer to the "Securitization Transactions" and "On-Balance Sheet Arrangements" sections of Item 7 of Part II of our 2013 10-K Report and Note 5 of our Notes to the Financial Statements for the period ended March 31, 2014.

Managed receivables at March 31, 2014 increased from year-end 2013, primarily driven by increases in non-consumer finance receivables in the North America and International Segments.

Credit Risk

Credit risk is the possibility of loss from a customer's or dealer's failure to make payments according to contract terms. Credit risk has a significant impact on our business. We actively manage the credit risk of our consumer (retail financing and operating lease) and non-consumer (dealer financing) receivables to balance our level of risk and return. The allowance for credit losses (also referred to as the credit loss reserve) is our estimate of the probable credit losses inherent in receivables and leases at the date of our balance sheet. The allowance for credit losses is estimated using a combination of models and management judgment, and is based on such factors as portfolio quality, historical loss performance, and receivable levels. Consistent with our normal practices and policies, we assess the adequacy of our allowance for credit losses quarterly and regularly evaluate the assumptions and models used in establishing the allowance. A description of our allowance setting process is provided in the "Critical Accounting Estimates – Allowance for Credit Losses" section of Item 7 of Part II of our 2013 10-K Report.

Most of our charge-offs are related to retail finance and operating lease contracts. Charge-offs result from the number of vehicle repossessions, the unpaid balance outstanding at the time of repossession, the auction price of repossessed vehicles, and other charge-offs. We also incur credit losses on our dealer financing, but default rates for these receivables historically have been substantially lower than those for retail finance and operating lease contracts. For additional information on severity, refer to the "Critical Accounting Estimates – Allowance for Credit Losses" section of Item 7 of Part II of our 2013 10-K Report.

In purchasing retail finance and operating lease contracts, we use a proprietary scoring system that classifies contracts using several factors, such as credit bureau information, consumer credit risk scores (e.g., FICO score), and contract characteristics. In addition to our proprietary scoring system, we consider other factors, such as employment history, financial stability, and capacity to pay. At March 31, 2014 and December 31, 2013, we classified between 5% and 6% of the outstanding U.S. retail finance and operating lease contracts in our portfolio as high risk at contract inception. For additional information on the quality of our receivables, see Note 2 of our Notes to the Financial Statements.

Credit Loss Metrics

Worldwide

The following charts show (i) quarterly trends of charge-offs (credit losses, net of recoveries), (ii) loss-to-receivables ratios (charge-offs on an annualized basis divided by average end-of-period ("EOP") managed receivables), (iii) credit loss reserve, and (iv) our credit loss reserve as a percentage of EOP managed receivables:

WORLDWIDE CREDIT LOSS METRICS

Year-over-year charge-offs were up \$7 million. Quarter-over-quarter charge-offs were unchanged.

The loss-to-receivables ratio was equal to both the same period a year ago and the prior quarter. The loss-to-receivables ratio of 20 basis points is still well below the 10-year average of 54 basis points.

The credit loss reserve was \$358 million, down \$31 million from a year ago, reflecting the continuation of low losses.

U.S. Ford- and Lincoln-Brand Retail Installment and Operating Lease

The following charts show the credit loss drivers for our U.S. Ford- and Lincoln-brand retail financing and operating lease portfolio, which comprised approximately 72% of our worldwide consumer portfolio at March 31, 2014:

U.S. RETAIL AND LEASE CREDIT LOSS DRIVERS

Over-60-day delinquencies were down one basis point from a year ago and equal to the fourth quarter of 2013.

Repossessions in the first quarter were 7,000 units, or 1.12% of average accounts outstanding, down 17 basis points from a year ago and down 2 basis points from the fourth quarter of 2013. The repossession ratio of 112 basis points is well below the 10-year average of 213 basis points.

Severity was \$7,700 in the first quarter, up \$500 from the same period a year ago, primarily reflecting lower auction values and earlier time to repossession as we continue to grow our portfolio. Severity improved \$400 from the fourth quarter of 2013, primarily reflecting seasonally higher auction values.

The year-over-year increase in charge-offs primarily reflects higher severity. The first quarter's LTR of 35 basis points is well below our 10-year average of 76 basis points.

Residual Risk

We are exposed to residual risk on operating leases and similar balloon payment products where the customer may return the financed vehicle to us. Residual risk is the possibility that the amount we obtain from returned vehicles will be less than our estimate of the expected residual value for the vehicle. We estimate the expected residual value by evaluating recent auction values, return volumes for our leased vehicles, industry-wide used vehicle prices, marketing incentive plans, and vehicle quality data. Changes in expected residual values impact the depreciation expense, which is recognized on a straight-line basis over the life of the lease.

For additional information on our residual risk on operating leases, refer to the "Critical Accounting Estimates – Accumulated Depreciation on Vehicles Subject to Operating Leases" section of Item 7 of Part II of our 2013 10-K Report.

U.S. Ford- and Lincoln-Brand Operating Lease Experience

The following charts show return volumes and auction values at constant first quarter 2014 vehicle mix for vehicles returned in the respective periods. The U.S. operating lease portfolio accounted for about 88% of our total net investment in operating leases at March 31, 2014.

U.S. LEASE RESIDUAL PERFORMANCE

(a) During the fourth quarter of 2013, Ford Credit changed its accounting method to include unearned operating lease interest supplements and residual support in Net Investment in Operating Leases. These periods were revised to conform to the presentation in our 2013 10-K Report.

Lease return volumes in the first quarter of 2014 were 34,000 units higher than the same period last year, primarily reflecting higher lease placements in 2011 and 2012 compared with prior years. The first quarter lease return rate was 82%, up 13 percentage points compared with the same period last year, primarily reflecting a higher percent of vehicles with a lease-end purchase price above market value.

In the first quarter of 2014, our auction performance was mixed. Compared to the prior year, 24-month average auction values decreased about \$600, while 36-month average auction values increased about \$300. The differences in our 24-month and 36-month auction value trends primarily reflect vehicle content and segment mix. In addition, the trends were influenced by the non-recurrence of the effects of Hurricane Sandy in the first quarter of 2013, which positively affected later-model vehicle auction prices (primarily 24-month contracts). Both our 24-month and 36-month auction values increased significantly from the fourth quarter of 2013, consistent with normal seasonality.

Our worldwide net investment in operating leases was \$18.8 billion at the end of the first quarter of 2014, up about \$500 million from year-end 2013, and up \$4.1 billion from a year ago.

Credit Ratings

Our short-term and long-term debt is rated by four credit rating agencies designated as nationally recognized statistical rating organizations ("NRSROs") by the U.S. Securities and Exchange Commission:

- DBRS Limited ("DBRS");
- Fitch, Inc. ("Fitch");
- Moody's Investors Service, Inc. ("Moody's"); and
- Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P").

In several markets, locally-recognized rating agencies also rate us. A credit rating reflects an assessment by the rating agency of the credit risk associated with particular securities we issue, based on information provided by Ford, other sources, and us. Credit ratings are not recommendations to buy, sell, or hold securities, and are subject to revision or withdrawal at any time by the assigning rating agency. Each rating agency may have different criteria for evaluating company risk and, therefore, ratings should be evaluated independently for each rating agency. Lower credit ratings generally result in higher borrowing costs and reduced access to capital markets. Credit ratings assigned to us from all of the NRSROs are closely associated with their opinions on Ford.

The following chart summarizes certain of the credit ratings and outlook presently assigned by these four NRSROs:

	NRSRO RATINGS		
	Ford Credit		
	Long-Term Senior Unsecured	Short -Term Senior Unsecured (a)	Outlook / Trend
DBRS	BBB (low)	R-3	Stable
Fitch	BBB-	F3	Positive (b)
Moody's	Baa3	P-3	Stable
S&P	BBB- (c)	NR	Stable

(a) Fitch assigned an F3 rating to the Ford Credit unsecured commercial paper program on April 8, 2014.

(b) On April 22, 2014, Fitch affirmed its Issuer Default Ratings for Ford Credit and improved the outlook to positive from stable.

(c) S&P assigns FCE Bank plc ("FCE") a long-term senior unsecured credit rating of BBB, a one-notch higher rating than Ford Credit, with a negative outlook. The negative outlook reflects the negative trend S&P has assigned to U.K. banking industry risk.

Funding

Our funding strategy remains focused on diversification, and we plan to continue accessing a variety of markets, channels, and investors. The following chart shows the trends in the funding for our managed receivables:

- (a) The Ford Interest Advantage program consists of our floating rate demand notes.
(b) Obligations issued in securitization transactions that are payable only out of collections on the underlying securitized assets and related enhancements.
(c) Excludes marketable securities related to insurance activities.

At the end of the first quarter of 2014, managed receivables were \$106 billion, and we ended the quarter with about \$11 billion in cash. Securitized funding was 42% of managed receivables.

We are projecting 2014 year-end managed receivables of about \$110 billion and securitized funding as a percentage of managed receivables in the range of 36% to 40%. This percentage will continue to decline going forward.

Public Term Funding Plan

The following table illustrates our planned issuances for full-year 2014, our public term funding issuances through April 30, 2014, and our funding issuances for full-year 2013 and 2012 (in billions), excluding short-term funding programs:

	Public Term Funding Plan			
	2014		Full-Year 2013	Full-Year 2012
	Full-Year Forecast	Through April 30		
Unsecured	\$ 9-12	\$ 4	\$ 11	\$ 9
Securitizations (a)	12-15	5	14	14
Total	\$ 21-27	\$ 9	\$ 25	\$ 23

(a) Includes Rule 144A offerings.

Through April 30, 2014, we completed \$9 billion of public term funding in the United States, Canada, and Europe, including about \$4 billion of unsecured debt and \$5 billion of securitizations.

For 2014, we project full-year public term funding in the range of \$21 billion to \$27 billion, consisting of \$9 billion to \$12 billion of unsecured debt and \$12 billion to \$15 billion of public securitizations. These are unchanged from prior guidance.

Liquidity

We define gross liquidity as cash, cash equivalents, and marketable securities (excluding marketable securities related to insurance activities) and capacity (which includes our credit facilities, FCAR Owner Trust retail securitization program ("FCAR"), and asset-backed funding facilities), less utilization of liquidity. Utilization of liquidity is the amount funded under our liquidity sources and also includes the cash and cash equivalents required to support securitization transactions. Securitization cash is cash held for the benefit of the securitization investors (for example, a reserve fund). Liquidity available for use is defined as gross liquidity less asset-backed capacity in excess of eligible receivables.

The following table illustrates our liquidity programs and utilization (in billions):

	March 31, 2014	December 31, 2013
Liquidity Sources (a)		
Cash (b)	\$ 10.7	\$ 10.8
Unsecured credit facilities	1.6	1.6
FCAR bank lines	1.6	3.5
Conduit/Bank Asset-Backed Securitizations ("ABS")	30.8	29.4
Total liquidity sources	44.7	45.3
Utilization of Liquidity		
Securitization cash (c)	(3.1)	(4.4)
Unsecured credit facilities	(0.4)	(0.4)
FCAR bank lines	(1.3)	(3.3)
Conduit/Bank ABS	(16.6)	(14.7)
Total utilization of liquidity	(21.4)	(22.8)
Gross liquidity	23.3	22.5
Capacity in excess of eligible receivables	(0.7)	(1.1)
Liquidity available for use	\$ 22.6	\$ 21.4

(a) FCAR and conduits subject to availability of sufficient assets and ability to obtain derivatives to manage interest rate risk; FCAR commercial paper must be supported by bank lines equal to at least 100% of the principal amount; conduits include committed securitization programs.

(b) Cash, cash equivalents, and marketable securities (excludes marketable securities related to insurance activities).

(c) Securitization cash is to be used only to support on-balance sheet securitization transactions.

At March 31, 2014, we had \$44.7 billion of committed capacity and cash diversified across a variety of markets and platforms. The utilization of our liquidity totaled \$21.4 billion at quarter end, compared with \$22.8 billion at year-end 2013. The decrease of \$1.4 billion reflects lower securitization cash.

We ended the quarter with gross liquidity of \$23.3 billion. Capacity in excess of eligible receivables was \$0.7 billion. This provides a funding source for future originations and flexibility to transfer capacity among markets and asset classes where most needed. Total liquidity available for use continues to remain strong at \$22.6 billion at quarter end, \$1.2 billion higher than year-end 2013. We are focused on maintaining liquidity levels that meet our business and funding requirements through economic cycles.

Cash, Cash Equivalents, and Marketable Securities. At March 31, 2014, our cash, cash equivalents, and marketable securities (excluding marketable securities related to insurance activities) totaled \$10.7 billion, compared with \$10.8 billion at year-end 2013. In the normal course of our funding activities, we may generate more proceeds than are required for our immediate funding needs. These excess amounts are maintained primarily as highly liquid investments, which provide liquidity for our short-term funding needs and give us flexibility in the use of our other funding programs. Our cash, cash equivalents, and marketable securities are held primarily in highly liquid investments, which provide for anticipated and unanticipated cash needs. Our cash, cash equivalents, and marketable securities (excluding marketable securities related to insurance activities) primarily include U.S. Treasury obligations, federal agency securities, bank time deposits with investment-grade institutions and non-U.S. central banks, corporate investment-grade securities, A-1/P-1 (or higher) rated commercial paper, debt obligations of a select group of non-U.S. governments, non-U.S. government agencies, supranational institutions, and money market funds that carry the highest possible ratings.

The maturity of these investments ranges from about 90 days to up to about one year and is adjusted based on market conditions and liquidity needs. We monitor our cash levels and average maturity on a daily basis. Cash, cash equivalents, and marketable securities include amounts to be used only to support our securitization transactions of \$3.1 billion and \$4.4 billion at March 31, 2014 and December 31, 2013, respectively.

Our substantial liquidity and cash balance have provided us the opportunity to selectively call and repurchase our unsecured and asset-backed debt through market transactions. In the first quarter of 2014, we called an aggregate principal amount of \$195 million (of which none were maturing in 2014) of our unsecured debt.

Committed Liquidity Programs. We and our subsidiaries, including FCE, have entered into agreements with a number of bank-sponsored asset-backed commercial paper conduits ("conduits") and other financial institutions. Such counterparties are contractually committed, at our option, to purchase from us eligible retail or wholesale assets or to purchase or make advances under asset-backed securities backed by retail financing, operating leases, or wholesale financing assets for proceeds of up to \$30.8 billion (\$20.5 billion of retail financing, \$6.0 billion of wholesale financing, and \$4.3 billion of operating lease assets) at March 31, 2014, of which \$5.8 billion are commitments to FCE. These committed liquidity programs have varying maturity dates, with \$28.4 billion (of which \$5.4 billion relates to FCE commitments) having maturities within the next twelve months and the remaining balance having maturities in 2015 and 2016. We plan to achieve capacity renewals to protect our global funding needs, optimize capacity utilization, and maintain sufficient liquidity.

Our ability to obtain funding under these programs is subject to having a sufficient amount of assets eligible for these programs as well as our ability to obtain interest rate hedging arrangements for certain securitization transactions. Our capacity in excess of eligible receivables protects us against the risk of lower than planned renewal rates. At March 31, 2014, \$16.6 billion of these commitments were in use. These programs are free of material adverse change clauses, restrictive financial covenants (for example, debt-to-equity limitations and minimum net worth requirements), and generally, credit rating triggers that could limit our ability to obtain funding. However, the unused portion of these commitments may be terminated if the performance of the underlying assets deteriorates beyond specified levels. Based on our experience and knowledge as servicer of the related assets, we do not expect any of these programs to be terminated due to such events.

Credit Facilities. At March 31, 2014, we and our majority-owned subsidiaries had \$1.6 billion of contractually committed unsecured credit facilities with financial institutions, including FCE's £720 million (equivalent to \$1.2 billion at March 31, 2014) syndicated credit facility (the "FCE Credit Agreement"), which matures in 2016. At March 31, 2014, \$1.2 billion was available for use. The FCE Credit Agreement contains certain covenants, including an obligation for FCE to maintain its ratio of regulatory capital to risk-weighted assets at no less than the applicable regulatory minimum, and for the support agreement between FCE and Ford Credit to remain in full force and effect (and enforced by FCE to ensure that its net worth is maintained at no less than \$500 million). In addition to customary payment, representation, bankruptcy, and judgment defaults, the FCE Credit Agreement contains cross-payment and cross-acceleration defaults with respect to other debt.

At March 31, 2014, FCAR's bank liquidity facilities available to support FCAR's asset-backed commercial paper, subordinated debt, or its purchase of Ford Credit's asset-backed securities totaled \$1.6 billion, down from \$3.5 billion at December 31, 2013. This reduction has been offset by increases in other committed liquidity programs, leaving Ford Credit's total sources of liquidity largely unchanged. Ford Credit recently completed the wind down of its FCAR program. Ford Credit began repurchasing asset-backed securities in early 2014 and completed the process in April. No FCAR commercial paper remains outstanding, and all FCAR bank liquidity facilities have been terminated. In October 2013, Ford Credit established a two-year syndicated committed asset-backed liquidity facility. The facility, along with growth in other asset-backed private capacity, offsets the liquidity effects of winding down the FCAR program.

On April 30, 2014, Ford and its lenders entered into the Second Amended and Restated Credit Agreement dated as of that date (the "Ford amended revolving credit facility"), a copy of which is filed as an exhibit to Ford's Quarterly Report on Form 10-Q for the quarter ended March 31, 2014. Under the Ford amended revolving credit facility, lenders have commitments to Ford totaling \$12.2 billion, with about \$9 billion maturing on April 30, 2019 and about \$3 billion maturing on April 30, 2017. On April 30, 2014, Ford designated Ford Credit as a subsidiary borrower under the Ford amended revolving credit facility, which enables us to borrow directly under that facility. Any such borrowings by us would be guaranteed by Ford. Separately, at the same time, we and Ford entered into a Relationship Agreement dated April 30, 2014 that, among other things, limits to \$2 billion the amount we may borrow under the Ford amended revolving credit facility, allocates that amount of commitments to us on an irrevocable and exclusive basis to grow our overall liquidity, supporting growth and expanded funding programs, and requires us to reimburse Ford for the proportionate costs of that amount of commitments under the facility. As a result of this arrangement, we will reflect \$2 billion of the commitments under the Ford amended revolving credit facility as Ford Credit available liquidity. A copy of the Relationship Agreement is filed as an exhibit to this Report.

Liquidity Risks

Refer to the "Liquidity" section of Item 7 of Part II of our 2013 10-K Report for a list of factors that could affect our liquidity.

Leverage

We use leverage, or the debt-to-equity ratio, to make various business decisions, including evaluating and establishing pricing for finance receivable and operating lease financing, and assessing our capital structure. We refer to our shareholder's interest as equity.

The following table shows the calculation of our financial statement leverage (in billions, except for ratios):

	March 31, 2014	December 31, 2013
Total debt (a)	\$ 101.0	\$ 98.7
Equity	10.8	10.6
Financial statement leverage (to 1)	9.3	9.3

(a) Includes debt issued in securitization transactions and payable only out of collections on the underlying securitized assets and related enhancements. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions.

The following table shows the calculation of our managed leverage (in billions, except for ratios):

	March 31, 2014	December 31, 2013
Total debt (a)	\$ 101.0	\$ 98.7
Adjustments for cash, cash equivalents, and marketable securities (b)	(10.7)	(10.8)
Adjustments for derivative accounting (c)	(0.2)	(0.2)
Total adjusted debt	<u>\$ 90.1</u>	<u>\$ 87.7</u>
Equity	\$ 10.8	\$ 10.6
Adjustments for derivative accounting (c)	(0.3)	(0.3)
Total adjusted equity	<u>\$ 10.5</u>	<u>\$ 10.3</u>
Managed leverage (to 1) (d)	8.6	8.5

- (a) Includes debt issued in securitization transactions and payable only out of collections on the underlying securitized assets and related enhancements. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions.
- (b) Excludes marketable securities related to insurance activities.
- (c) Primarily related to market valuation adjustments to derivatives due to movements in interest rates. Adjustments to debt are related to designated fair value hedges and adjustments to equity are related to retained earnings.
- (d) Equals total adjusted debt over total adjusted equity.

We plan our managed leverage by considering prevailing market conditions and the risk characteristics of our business. At March 31, 2014, our managed leverage was 8.6:1, compared with 8.5:1 at December 31, 2013. For information on our planned distributions, refer to the "Outlook" section below.

Accounting Standards Issued But Not Yet Adopted

There are no applicable accounting standards issued but not yet adopted to report this period.

Outlook

For the full year, we now expect pre-tax profit to be about equal to or higher than 2013. This reflects improved financing margin performance. We continue to expect managed receivables at year-end of about \$110 billion, managed leverage to continue in the range of 8:1 to 9:1, and distributions to our parent of about \$250 million.

Risk Factors

Statements included or incorporated by reference herein may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated, including, without limitation:

- Decline in industry sales volume, particularly in the United States or Europe, due to financial crisis, recession, geopolitical events, or other factors;
- Decline in Ford's market share or failure to achieve growth;
- Lower-than-anticipated market acceptance of Ford's new or existing products;
- Market shift away from sales of larger, more profitable vehicles beyond Ford's current planning assumption, particularly in the United States;
- An increase in or continued volatility of fuel prices, or reduced availability of fuel;
- Continued or increased price competition resulting from industry excess capacity, currency fluctuations, or other factors;
- Fluctuations in foreign currency exchange rates, commodity prices, and interest rates;
- Adverse effects resulting from economic, geopolitical, or other events;
- Economic distress of suppliers that may require Ford to provide substantial financial support or take other measures to ensure supplies of components or materials and could increase costs, affect liquidity, or cause production constraints or disruptions;
- Work stoppages at Ford or supplier facilities or other limitations on production (whether as a result of labor disputes, natural or man-made disasters, tight credit markets or other financial distress, production constraints or difficulties, or other factors);
- Single-source supply of components or materials;
- Labor or other constraints on Ford's ability to maintain competitive cost structure;
- Substantial pension and postretirement health care and life insurance liabilities impairing liquidity or financial condition;
- Worse-than-assumed economic and demographic experience for postretirement benefit plans (e.g., discount rates or investment returns);
- Restriction on use of tax attributes from tax law "ownership change;"
- The discovery of defects in vehicles resulting in delays in new model launches, recall campaigns, or increased warranty costs;
- Increased safety, emissions, fuel economy, or other regulations resulting in higher costs, cash expenditures, and/or sales restrictions;
- Unusual or significant litigation, governmental investigations, or adverse publicity arising out of alleged defects in products, perceived environmental impacts, or otherwise;
- A change in requirements under long-term supply arrangements committing Ford to purchase minimum or fixed quantities of certain parts, or to pay a minimum amount to the seller ("take-or-pay" contracts);
- Adverse effects on results from a decrease in or cessation or clawback of government incentives related to investments;
- Inherent limitations of internal controls impacting financial statements and safeguarding of assets;
- Cybersecurity risks to operational systems, security systems, or infrastructure owned by Ford, Ford Credit, or a third-party vendor or supplier;
- Failure of financial institutions to fulfill commitments under committed credit and liquidity facilities;
- Inability of Ford Credit to access debt, securitization, or derivative markets around the world at competitive rates or in sufficient amounts, due to credit rating downgrades, market volatility, market disruption, regulatory requirements, or other factors;
- Higher-than-expected credit losses, lower-than-anticipated residual values, or higher-than-expected return volumes for leased vehicles;
- Increased competition from banks or other financial institutions seeking to increase their share of financing Ford vehicles; and
- New or increased credit, consumer, or data protection or other regulations resulting in higher costs and/or additional financing restrictions.

We cannot be certain that any expectation, forecast, or assumption made in preparing forward-looking statements will prove accurate, or that any projection will be realized. It is to be expected that there may be differences between projected and actual results. Our forward-looking statements speak only as of the date of their initial issuance, and we do not undertake any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, future events, or otherwise. For additional discussion, see "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013, as updated by our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Other Financial Information

With respect to the unaudited financial information of Ford Motor Credit Company LLC as of March 31, 2014, and for the three-month periods ended March 31, 2014 and 2013 included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated May 1, 2014 appearing herein states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied.

PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their report on the unaudited financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Securities Act of 1933.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

In our 2013 10-K Report, we discuss in greater detail our market risk, counter-party risk, credit risk, residual risk, liquidity risk, and operating risk.

To provide a quantitative measure of the sensitivity of our pre-tax cash flow to changes in interest rates, we use interest rate scenarios that assume a hypothetical, instantaneous increase or decrease of one percentage point in all interest rates across all maturities (a "parallel shift"), as well as a base case that assumes that all interest rates remain constant at existing levels. The differences in pre-tax cash flow between these scenarios and the base case over a twelve-month period represent an estimate of the sensitivity of our pre-tax cash flow. Under this model, we estimate that at March 31, 2014, all else constant, such an increase in interest rates would increase our pre-tax cash flow by \$37 million over the next 12 months, compared with an increase of \$63 million at December 31, 2013. In reality, interest rate changes are rarely instantaneous or parallel and rates could move more or less than the one percentage point assumed in our analysis. As a result, the actual impact to pre-tax cash flow could be higher or lower than the results detailed in above.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures. Bernard B. Silverstone, our Chairman of the Board and Chief Executive Officer ("CEO"), and Michael L. Seneski, our Chief Financial Officer ("CFO") and Treasurer, have performed an evaluation of the Company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of March 31, 2014, and each has concluded that such disclosure controls and procedures are effective to ensure that information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by SEC rules and forms, and that such information is accumulated and communicated to the CEO and CFO to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting. There were no changes in the internal control over financial reporting during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Ford Motor Credit Company v. Sudesh Agrawal (as previously reported on page 17 of our 2013 10-K Report). As previously reported, this action is pending in the Ohio state court system and was certified by the trial court judge as a nationwide class action with an Ohio subclass in a counterclaim arising out of a collection action. Class claimants allege breach of contract, fraud, and statutory violations for Ford Credit's lease-end wear and use charges. Class claimants allege that the standard applied by Ford Credit in determining the condition of vehicles at lease-end is different than the standard set forth in claimants' leases. The Court of Appeals of Ohio, Eight Appellate District, affirmed nationwide class certification and certification of an Ohio subclass. We appealed, and on December 17, 2013, the Supreme Court of Ohio reversed the Court of Appeals and remanded the case for further proceedings. On March 13, 2014, the Court of Appeals reversed the trial court order certifying the classes and remanded the case for further proceedings.

ITEM 5. OTHER INFORMATION.

We have none to report.

ITEM 6. EXHIBITS.

Exhibits: please refer to the Exhibit Index on page 52.

Instruments defining the rights of holders of certain issues of long-term debt of Ford Credit have not been filed as exhibits to this Report because the authorized principal amount of any one of such issues does not exceed 10% of the total assets of Ford Credit. Ford Credit will furnish a copy of each such instrument to the SEC upon request.

SIGNATURE

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, Ford Motor Credit Company LLC has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

RELATIONSHIP AGREEMENT

This Relationship Agreement (the "Agreement") dated as of April 30, 2014 (the "Effective Date") is made and entered into between Ford Motor Company, a Delaware corporation ("Ford"), and Ford Motor Credit Company LLC, a Delaware limited liability company ("Ford Credit").

RECITALS

- A. Ford Credit supports the sale of Ford's products by providing, among other things, wholesale, retail, and lease financing for the purchase and lease of those products.
- B. Ford Credit is highly dependent on the public debt markets to raise funds for its business.
- C. Ford Credit's ability to raise funds in the public debt markets is highly dependent on its credit ratings, which, in turn, are dependent on the level of Ford Credit's equity, the quality of its assets, and its liquidity.
- D. It is important to the success of Ford that Ford Credit remains a viable finance company that can fund itself in the public debt markets and continue supporting the sale of Ford's products.
- E. Towards maintaining the viability of Ford Credit, the parties entered into (i) an agreement dated October 18, 2001, as amended on December 12, 2006, and as further amended on March 14, 2008 (the "Intercompany Agreement"), which provided for certain agreements regarding transactions between them and the creditworthiness of Ford Credit, and (ii) an Amended and Restated Support Agreement dated November 6, 2008 (the "Support Agreement"), which provided for Ford to make capital contributions to Ford Credit to keep its Managed Leverage (as defined below) from exceeding 11.5 to 1.
- F. The parties desire (i) to combine the provisions of the Intercompany Agreement and the Support Agreement into a new, single agreement, (ii) to make certain revisions to those provisions, and (iii) to allocate and make available to Ford Credit a portion of Ford's Credit Agreement (as defined below). Upon the Effective Date, the parties desire to terminate the Intercompany Agreement and the Support Agreement.

NOW, THEREFORE, for good and valuable consideration and the mutual agreements herein provided, the parties agree as follows:

- 1. The parties agree that all Affiliate Receivables (as defined below) shall be on arm's-length terms. For purposes hereof, "Affiliate Receivables" means any advance, loan, extension of credit, or other financing to Ford or any affiliate of Ford whose assets and liabilities are classified on Ford's consolidated balance sheet as Automotive ("Automotive Affiliate"). Ford Credit shall enforce, and cause any affiliate of Ford Credit whose assets and liabilities are consolidated with Ford Credit's on Ford Credit's consolidated balance sheet ("Credit Affiliate") to enforce, all Affiliate Receivables in a commercially reasonable manner, and Ford shall pay, shall cause its Automotive Affiliates to pay, and shall guarantee its Automotive Affiliates' payment of, Affiliate Receivables in accordance with their terms.
- 2. Ford Credit shall not, nor shall it permit any Credit Affiliate to, guarantee any indebtedness of (other than Permitted Guarantees), or purchase any equity securities issued by, or make any other investment in, Ford (parent company only) or any Automotive Affiliate. In addition, Ford Credit shall not, nor shall it permit any Credit Affiliate to, purchase or finance any real property (other than Permitted Mortgages) or manufacturing equipment (including tooling) from or of Ford or any Automotive Affiliate that is classified as an Automotive asset on Ford's consolidated balance sheet. Ford shall not, nor shall it permit any Automotive Affiliate to request or require Ford Credit or any Credit Affiliate to do any of the transactions prohibited by this paragraph 2. For purposes hereof, "Permitted Guarantees" shall mean guarantees by Ford Credit or Credit Affiliates of indebtedness of Ford or Automotive Affiliates that are cash collateralized in full and guarantees that are not cash collateralized in full but which at any time do not exceed \$500 million in the aggregate, and "Permitted Mortgages" shall mean financing by Ford Credit or Credit Affiliates of real property of Ford or Automotive Affiliates which at any time does not exceed \$500 million in the aggregate.

3. As used herein, "Managed Leverage" means, as of the end of each calendar quarter, Ford Credit's managed leverage reported in, and calculated in accordance with the managed leverage formula as set forth in, Ford Credit's periodic report (Form 10-Q or Form 10-K, as the case may be) covering such calendar quarter filed with the United States Securities and Exchange Commission. In the event that Ford Credit's Managed Leverage as of the end of any calendar quarter, beginning with the calendar quarter ending June 30, 2014, is higher than 11.5 to 1, then, upon demand by Ford Credit, Ford shall make or cause to be made a capital contribution to Ford Credit in an amount sufficient to have caused such Managed Leverage to have been 11.5 to 1. Such capital contribution, if required, will be made not later than 30 days after the filing by Ford Credit of its Form 10-Q or Form 10-K, as the case may be, covering such calendar quarter.
4. Ford Credit shall, and shall cause each Credit Affiliate to, conduct its business, including its finance and lease business, in a prudent and commercially reasonable manner, including maintaining and adhering to credit risk underwriting standards for finance and lease receivables and residual assumptions for lease receivables it acquires or originates that are consistent with industry standards. Ford shall not, nor shall it permit any Automotive Affiliate to, require Ford Credit or any Credit Affiliate to accept credit or residual risk beyond what it would be willing to accept acting in a prudent and commercially reasonable manner. For avoidance of doubt, acquisition or origination of finance or lease receivables having terms that are not market-based shall be considered to be prudent and commercially reasonable if subsidies (in the form of interest rate subvention payments, guarantees, residual risk sharing arrangements, or otherwise) are provided by Ford or an Automotive Affiliate in an amount sufficient to assure that Ford Credit or a Credit Affiliate, as the case may be, will receive the economic benefits of such receivables as if they had been acquired or originated on market-based terms. Notwithstanding the foregoing, in recognition of the fact that Ford uses Ford Credit as the exclusive provider of financial services for special retail and lease programs to support the sale of products manufactured by Ford and other Automotive Affiliates, it is understood that it would be commercially reasonable and prudent for Ford Credit to accept, to a limited extent, higher levels of credit risk than it might otherwise accept in order to continue as the exclusive provider of financial services to Ford and the other Automotive Affiliates with respect to such programs. For any given program, Ford Credit may waive its right to be the exclusive provider of financial services to Ford and the other Automotive Affiliates.
5. Ford and Ford Credit agree that (a) Ford Credit shall at all times maintain its books, records, financial statements, and bank accounts separate from those of Ford and any Automotive Affiliate; (b) Ford Credit shall maintain its assets in such a manner that it will not be costly or difficult to segregate, ascertain, or identify its assets from those of Ford and any Automotive Affiliate; (c) the funds and other assets of Ford Credit shall not be commingled with those of Ford or any Automotive Affiliate; (d) Ford Credit shall at all times hold itself out as a legal entity separate and distinct from Ford and any Automotive Affiliate; (e) except with respect to the agreements set forth in Paragraph 3 hereof and Paragraphs 9 through 16 hereof, each will act in a manner and conduct its business such that creditors of Ford, acting reasonably, will rely primarily on the creditworthiness of, and look solely to the assets of Ford, for repayment of indebtedness, and creditors of Ford Credit, acting reasonably, will rely primarily on the creditworthiness of, and look solely to the assets of Ford Credit, for repayment of indebtedness; and (f) they otherwise will take such reasonable and customary action so that Ford Credit will not be consolidated with Ford or any Automotive Affiliate in any case or other proceeding seeking liquidation, reorganization, or other relief with respect to Ford or any Automotive Affiliate or its debts under any bankruptcy, insolvency, or other similar law.
6. In the event that Ford or any of its subsidiaries engages in a corporate transaction that causes the Pension Benefit Guaranty Corporation ("PBGC") to threaten to terminate the pension plans sponsored by Ford or any of its subsidiaries, Ford shall, or shall cause any of its subsidiaries to, seek to negotiate a settlement with the PBGC to avoid an involuntary plan termination. In connection with such negotiated settlement, Ford shall endeavor not to grant to the PBGC a security interest in the assets of Ford Credit that has priority over the claims of unsecured creditors of Ford Credit.
7. All determinations to be made under this Agreement shall be made in accordance with, or with reference to financial statements prepared in accordance with, United States generally accepted accounting principles. For purposes of this Agreement, the term "lease receivables" shall mean "net investment in operating leases" as stated on or reflected in Ford Credit's consolidated financial statements.

8. During the term of this Agreement, Ford Credit shall continue to make inventory and capital financing generally available to dealers of vehicles manufactured or sold by Ford or its Automotive Affiliates and shall continue to make retail and lease financing generally available to such dealers' customers to substantially the same extent that Ford Credit has historically made such services available, so long as providing such services to such an extent would not result in a breach of any of the foregoing provisions. Nothing herein precludes Ford Credit from providing or continuing to provide financial services to automotive manufacturers other than Ford or its Automotive Affiliates.
9. Subject to the terms set forth in Paragraphs 10-16 hereof, Ford has agreed to designate Ford Credit as a Subsidiary Borrower under the Second Amended and Restated Credit Agreement, dated as of December 15, 2006, as amended and restated on November 24, 2009 and as further amended and restated as of April 30, 2014 (as further amended, supplemented, or modified from time to time, the "Credit Agreement;" unless otherwise defined herein, capitalized terms used in this Agreement have the meanings ascribed to them in the Credit Agreement), among Ford Motor Company, the Subsidiary Borrowers from time to time party thereto, the several banks and other financial institutions or entities from time to time party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and the other agents party thereto.
10. During the term of the Credit Agreement, Ford Credit shall have the irrevocable right to borrow for any purpose up to \$2,000,000,000 (the "Maximum Amount") under the terms and conditions of the Credit Agreement and agrees not to have any outstanding borrowings thereunder at any time in excess of the Maximum Amount.
11. Ford shall not terminate the Credit Agreement prior to its maturity or take any other action that would impair Ford Credit's ability to borrow the Maximum Amount under the Credit Agreement, in each case without Ford Credit's prior written consent.
12. Notwithstanding the foregoing, Ford may take actions with regard to the Credit Agreement (e.g., amendment, restatement, cancellation, and replacement) so long as the resulting credit available thereunder to Ford Credit up to the Maximum Amount is not materially adversely affected.
13. Ford agrees in advance to approve all Ford Credit actions pursuant to its right as a Subsidiary Borrower under the Credit Agreement that would require Ford's consent. No written Ford approvals to Ford Credit's actions under the Credit Agreement will be required except those written consents explicitly required by the terms of the Credit Agreement (e.g., guarantee, legal opinions).
14. Ford agrees to guarantee the Obligations of Ford Credit as a Subsidiary Borrower as required by and in accordance with the terms of the Credit Agreement.
15. Ford Credit will reimburse Ford for a proportion of the total costs incurred by Ford under the Credit Agreement that is equal to the proportion that the Maximum Amount bears to the total Commitments under the Credit Agreement.
16. Ford and Ford Credit will promptly and duly execute and deliver such further documents and assurances and take such further actions as may from time to time be necessary to carry out the intent and purpose of Paragraphs 9 through 15 of this Agreement.
17. This Agreement shall be construed and interpreted in accordance with, and governed by, the internal laws of the State of New York, excluding any choice of law rules that may direct the application of the laws of another jurisdiction.
18. This Agreement shall terminate initially on April 30, 2019 (the "Termination Date"). On April 30, 2015, and on each April 30 thereafter during the term of this Agreement, the Termination Date shall be extended automatically for an additional one-year period (ending on the April 30 next following the then-current Termination Date) unless either party shall have given the other party written notice during the period beginning on the January 1 and ending on the April 1 immediately preceding such April 30, specifying its election not to extend the Termination Date beyond the then-current Termination Date and that the term of this Agreement shall, therefore, expire on such then-current Termination Date.
19. As of the Effective Date, the Intercompany Agreement and the Support Agreement are both terminated.

20. No person other than Ford and Ford Credit, and their permitted successors and assigns, shall have any right to enforce any term of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

Re: Ford Motor Credit Company LLC Registration Statement Nos. 333-194069 and 333-180342 on Form S-3

Commissioners:

We are aware that our report dated May 1, 2014 on our review of interim financial information of Ford Motor Credit Company LLC (the "Company") for the three-month periods ended March 31, 2014 and 2013 and included in the Company's quarterly report on Form 10-Q for the quarter ended March 31, 2014 is incorporated by reference in the aforementioned Registration Statements.

Very truly yours,

/s/ PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP
Detroit, Michigan

CERTIFICATION

I, Bernard B. Silverstone, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 of Ford Motor Credit Company LLC;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dated: May 1, 2014

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chief Financial Officer and Treasurer

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Bernard B. Silverstone, Chairman of the Board and Chief Executive Officer of Ford Motor Credit Company LLC (the "Company"), hereby certify pursuant to Rule 15d-14(b) of the Securities Exchange Act of 1934, as amended, and Section 1350 of Chapter 63 of Title 18 of the United States Code, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

1. the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, to which this statement is furnished as an exhibit (the "Report"), fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
2. the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
