Residential Constant Pressure Systems

Franklin U.S. Market Potential

- Franklin residential well installed base: 11 million wells (without constant pressure)
- Provide constant pressure without replacing existing pump and motor
- Free “Test Drive” option
- Estimated 80%+ buy after “Test Drive”
- Franklin revenue per installation: \$400
- Franklin market opportunity:
 $2.75 \text{ million wells} \times \$400 = \$1.1 \text{ billion}$

Inline Pressure Boosting Systems

Franklin U.S. Market Potential

- Target homeowners with lower than desired incoming pressure (municipal or water well)
- Provides boosted and constant pressure over a wide range of flow demands
- Low cost, quiet, compact & easy to install
- Proprietary Franklin drive and pump technologies
- US market potential = \$175 M

Replacement Business

- Nozzles and hanging hardware
- Limited product life due to wear and tear
- \$10-\$20 M sales by 2010 and growing as installed base increases and ages

Pressure Systems for Europe

- Vast majority of European stations are 'suction'
- New standard for 'pressure' systems, Franklin will be first approved system
- Major multi-national oil company has mandated pressure for all new installs and upgrades

Vapor Recovery India/China

- Air quality is a continued and growing concern
- Less than 5% of stations have stage II
- Franklin is market leader in both countries
- With over 60,000 stations yet to convert, market opportunity exceeds \$350 M
