HNI CORPORATION ANNOUNCES RESULTS FOR SECOND QUARTER FISCAL 2008

MUSCATINE, Iowa (July 16, 2008) – **HNI Corporation** (NYSE: HNI) today announced second quarter sales of \$613.1 million and net income of \$13.5 million for the quarter ending June 28, 2008. Net income per diluted share for the quarter was \$0.30. When excluding restructuring charges and transition costs, non-GAAP net income per diluted share was \$0.36.

Second Quarter Summary Comments

"We managed well during the quarter, confronting the challenging economic conditions and adapting our businesses to them. Demand continued to be weak in our hearth business and in the supplies-driven channel of our office furniture business. The lower demand levels along with dramatically higher freight costs pressured our profitability. We responded to these pressures with broad-based cost management and, as a result, were able to exceed our expectations for the quarter.

"Simultaneous to our cost management efforts, we continued to increase our investment in new products and selling initiatives. We are improving our competitive position and laying the foundation for long-term value creation," said Stan Askren, HNI Corporation Chairman, President and Chief Executive Officer.

- Consolidated net sales for the second quarter decreased 0.8 percent to \$613.1 million. Acquisitions contributed \$36.5 million or 5.9 percentage points of sales.
- Gross margins were 0.7 percentage points lower than prior year primarily due to decreased volume, increased material costs and accelerated depreciation and transition costs related to the shutdown of office furniture facilities partially offset by increased price realization.
- Total selling and administrative expenses, including restructuring charges, as a percent of sales, increased due to costs associated with new acquisitions, higher non-volume related freight costs, increased investments in selling initiatives and product development, and increased restructuring costs associated with plant consolidation. These were partially offset by lower volume-related and incentive-based compensation costs and cost containment initiatives.
- The Corporation incurred \$3.6 million of restructuring charges and transition costs during the second quarter in connection with a facility shutdown, a facility ramp-up, closure of two distribution centers and start up of a new distribution center. These included \$0.1 million of accelerated depreciation and \$1.5 million of other transition costs recorded in cost of sales, and \$2.0 million of costs recorded as restructuring costs.
- The effective tax rate for the second quarter 2008 was 34.5 percent compared to 35.3 percent in second quarter 2007 primarily due to a reduction in state taxes. The Corporation anticipates its annualized tax rate for 2008 to be approximately 35.7 percent.
- Net income per share was favorably impacted \$0.01 per share as a result of the Corporation's share repurchase program.

Year-to-Date Results – Continuing Operations

Consolidated net sales for the first six months of 2008 decreased \$50.9 million, or 4.1 percent, to \$1.18 billion compared to \$1.23 billion in 2007. Acquisitions added \$56.7 million or 4.6 percentage points of sales. Gross margins decreased to 33.4 percent compared to 34.4 percent last year. Income from continuing operations was \$17.4 million compared to \$47.0 million in 2007, a decrease of 62.9 percent. Earnings per share from continuing operations decreased 60.6 percent to \$0.39 per diluted share compared to \$0.99 per diluted share last year. Earnings per share was positively impacted \$0.02 as a result of the Corporation's share repurchase program.

Cash flow from operations for the first six months was \$60.2 million compared to \$95.7 million last year. The decrease was due to lower earnings and an increase in working capital requirements in the current year. Capital expenditures increased to \$35.9 million in 2008 from \$29.1 million in 2007 primarily due to new product introductions and the previously mentioned facility consolidation. The Corporation completed the acquisition of HBF, an office furniture provider, for a total purchase price of \$75.3 million. The Corporation repurchased 1,004,700 shares of its common stock at a cost of approximately \$28.6 million during the first six months of 2008, compared to \$85.0 million in the same period last year. Approximately \$163.6 million remains under the current repurchase authorization.

Discontinued Operations

The Corporation completed the sale of a small, non-core component of the office furniture segment during the second quarter of 2007. Revenues and expenses associated with the business operations are presented as discontinued operations for all periods presented in the financial statements.

Transition costs	\$ 1.5	\$ -	
Operating profit, excluding restructuring and transition costs	\$33.7	\$45.3	-25.6%
% of Net Sales	6.6%	9.0%	

- Second quarter net sales for the office furniture segment increased \$10.9 million to \$514.5 million due to acquisitions contributing \$21.5 million or 4.3 percentage points of sales. Organic sales decreased due to lower sales in the supplies-driven channel.
- Operating profit for the quarter decreased \$14.5 million as a result of lower organic volume, increased freight costs, restructuring and transition costs related to a plant shutdown, a facility ramp-up, closure of two distribution centers and start-up of a new distribution center, and increased investments in selling initiatives and product development.

Hearth Products

Dollars in Millions	<u>Three Months Ended</u>		Percent
	<u>6/28/2008</u>	<u>6/30/2007</u>	<u>Change</u>
Sales	\$98.6	\$114.6	-13.9%
Operating Profit	\$1.6	\$9.7	-83.7%
Operating Profit %	1.6%	8.5%	

- Second quarter net sales for the hearth products segment decreased \$16.0 million. Acquisitions completed during 2007 contributed approximately \$15.0 million or 13.1 percentage points. Excluding acquisitions, sales declined 27.0 percent driven by the continuing severe decline in new construction channel revenue.
- Operating profit for the quarter decreased \$8.1 million due to the lower volume and a larger mix of lower margin remodel/retrofit business.

Outlook

"We expect another challenging period in the third quarter. Inflationary cost pressures, primarily from steel and freight costs, will negatively impact profitability. In response, we are implementing price increases, eliminating waste and attacking structural cost. We will begin to see the benefit of these actions in the third and fourth quarter and anticipate they will fully offset the current inflationary pressures by the beginning of next year.

"Demand will remain mixed. We expect further declines in the new construction channel of our hearth business due to the continuing drop off in new home construction, but growth in the sales of our alternative fuels appliances, driven by high energy costs, will partially offset this. We also expect office furniture sales to show some growth due to relative strength in our contract-oriented businesses and HBF acquisition.

"Consistent with our actions in the second quarter, we will continue to tightly manage our costs and maintain our increased investment in new products and selling initiatives. We remain excited about our strong business platforms and our position once the business cycle turns," said Mr. Askren.

The Corporation remains focused on creating long-term shareholder value by growing its business through investment in building brands, product solutions and selling models, enhancing its strong member-owner culture, and remaining focused on its long-standing rapid continuous improvement programs to build best total cost and a lean enterprise.

Non-GAAP Financial Measures

This earnings release contains certain non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the statements of income, balance sheets, or statements of cash flow of the company. Pursuant to the requirements of Regulation G, the Corporation has provided a reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measure.

The non-GAAP financial measures used within this earnings release are: gross profit, operating income, operating profit and net income per diluted share (i.e., EPS), excluding restructuring and transition costs. These measures are presented because management uses this information to monitor and evaluate financial results and trends. Therefore, management believes this information is also useful for investors.
