Exhibit 13.1

1. We note the significant unrealized losses related to your trust preferred securities at December 31, 2008. We have the following comments:
 - please provide us a full detailed analysis of these securities' impairment as of December 31, 2008 that identifies all available evidence, explain the relative significance of each piece of evidence, and identify the primary evidence on which you rely to support a realizable value equal to or greater than the carrying value of the investment; and
 - please provide us, and consider disclosing in future filings, a table detailing the following information for your trust preferred securities: deal name, class, book value, fair value, unrealized gain/loss, credit ratings, number of banks in issuance, deferrals and defaults as a percentage of collateral, and excess subordination after taking into account your best estimates of future interest deferrals and defaults.

2. We note your presentation of “tangible common equity to asset ratio” and “tangible equity to risk-weighted assets ratio.” These ratios appear to be non-GAAP measures as defined by Regulation G and Item 10(e) of Regulation S-K as they are not required by GAAP, Commission Rules, or banking regulatory requirements. To the extent you plan to provide these non-GAAP ratios in the future, the staff notes the following:
 - to the extent these ratios are disclosed in future periodic filings on Form 10-K or 10-Q, or in registration and proxy statements, you should comply with all of the requirements in Item 10(e) of Regulation S-K, including clearly labeling the ratios as non-GAAP measures and complying with all of the disclosure requirements;
 - to the extent that you plan to disclose these ratios in future Item 2.02 Form 8-Ks, you should provide all of the disclosures required by Item 10(e)(1)(i) of Regulation S-K as required by Instruction 2 to Item 2.02 of Form 8-K;
 - to the extent you disclose or release publicly any material information that includes a non-GAAP measure, such as these ratios in your Item 8.01 Form 8-K, you should be cognizant of the requirements in Regulation G to label the measure as non-GAAP and provide a reconciliation to the most closely comparable GAAP measure; and
 - as it relates to the presentation of risk weighted assets, in future filings, please generally disclose how risk weighted assets are calculated under

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In connection with responding to our comments, please provide, in writing, a statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in our review of your filing or in response to our comments on your filing.
