President's Letter

September 30, 2007

DEAR SHAREHOLDER:

It's been a rewarding but volatile six months for equity investors. Stock markets around the globe generally provided attractive returns, with energy stocks outpacing all other sectors. Since the spring it has appeared to us that large company domestic growth stocks have generally come back in favor, boosted by low valuations and solid overseas growth for U.S.-based multinational companies. Also, quality now seems to be a more important equity attribute than we have seen in several years.

For the bond market, it's also been a bumpy road. Corporate and mortgage bond prices faced greater volatility as a subprime lending crisis of global dimensions unfolded. The U.S. dollar weakened against most foreign currencies, making dollar-denominated bonds less attractive. High yield investors, meanwhile, demanded greater income to help offset concern about bond defaults and the potential for a U.S. recession. After months of expressing anxiety about lingering consumer inflation, the Federal Reserve changed policy in September and reduced its short-term interest rate target by 50 basis points (0.50 percent) to 4.75 percent. More cuts may follow.

Enclosed is our report on your Ivy Fund's operations for the six months ended September 30, 2007. The S&P 500 Index

advanced 8.44 percent over the period while the Lehman Brothers Aggregate Bond Index rose 2.31 percent.

U.S. growth slows

Dragged down by the worst housing market in a generation, the U.S. economy's four-year-old expansion is slowing. However, growth still appears robust for most of Asia. North America was fortunate to have a relatively mild hurricane season, and this may have been a factor in helping to keep a lid on gasoline prices. This year the biggest financial storm was found not in nature, but in the commercial paper and mortgage markets. Liquidity dried up for both business and consumer borrowers with less than perfect credit. Consequently, the financial and consumer discretionary sectors of the S&P 500 have been hard hit over the past six months, with each falling while most other sectors rose.

The economic news is mixed, as you can see in the Economic Snapshot chart below. Overall inflation is the same as it was six months ago. Unemployment is slightly higher than six months ago but is still relatively low. However, the cost of financing a home is slightly higher. Overall GDP growth is solid, while oil prices are substantially higher.

Economic Snapshot		
	9-30-2007	3-31-2007
U.S. unemployment rate	4.70%	4.40%
Inflation (U.S. Consumer Price Index)	2.80%	2.80%
U.S. GDP	3.90%	1.50%
30-year fixed mortgage rate	6.28%	6.13%
Oil price per barrel	\$81.66	\$65.87

Source: Bloomberg, U.S. Department of Labor

The U.S. Consumer Price Index is the government's measure of the change in the retail cost of goods and services. Gross domestic product measures year-over-year changes in the output of goods and services. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

Stock valuations for companies in the S&P 500 appear reasonable to us. As we look

Respectfully,

Henry J. Herrmann, CFA
President

The opinions expressed in this letter are those of the President of Ivy Funds, and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

forward, even though past performance does not guarantee future results, presidential election years typically have been positive for investors. However, we recommend a prudent level of caution in 2008, as we believe that the range of possibilities for investors is as wide as the current field of presidential candidates. As always, we believe that maintaining a well-rounded portfolio is an essential element for securing your long-term financial future. In both politics and investing, it may be wise to remember that nothing – good or bad – can ever be assured.

Our commitment

At the Ivy Funds, we consistently focus on offering you strategies that emphasize participation in positive markets, as well as a very strong effort to manage risk. We will strive to earn your continued confidence for many years to come.

Illustration of Fund Expenses

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following tables are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2007.

Actual Expenses

The first line for each share class in the following tables provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the tables. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the tables, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense tables. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class of the following tables provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the tables is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the tables), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2007, and divided by 365.

**Actual inception date of Class E and Class I shares for each Fund is 4-2-07 (the date on which shares were first acquired by shareholders). The calculations are based on 181 days in the period ended September 30, 2007

***Class closed to investment.

(1) This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the fourth column.

(2) This section uses a hypothetical 5% annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

(1) Total return calculated without taking into account the sales load deducted on an initial purchase.

(2) Adventus Capital reimbursed the Fund for losses related to certain investment trades. With reimbursed losses, the total return for Class A, for the year ended September 30, 2003, would have been 17.26%.

(3) Annualized.

(4) In connection with the reorganization plan effected December 8, 2003, Class B and Class C shares of the predecessor Adventus Fund were exchanged into Class A shares at the time of the merger. The ratios shown above reflect a blended rate that includes the effect of income and expenses for those Class B and Class C shares from October 1, 2003 up to the time of the merger. Actual expenses that applied to Class A shareholders were lower than shown above.

(5) There was no waiver of expenses during the period.

Notes to Schedule of Investments

Certain acronyms may be used within the body of the Fund's holdings. The definitions of these acronyms are as follows: ADR – American Depositary Receipts; CMO – Collateralized Mortgage Obligation; GDR – Global Depositary Receipts; and REMIC – Real Estate Mortgage Investment Conduit.

(A) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2007.

(B) Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Directors/Trustees. At September 30, 2007, the total value of these securities amounted to \$11,456,942, or 13.17% if net assets.

(C) Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Directors/Trustees. At September 30, 2007, the total value of these securities amounted to \$4,872,641, or 5.6% if net assets.

(D) The interest rate for this security is a stated rate, but the interest payments are determined by multiplying the inflation-adjusted principal by one half of the stated rate for each semiannual interest payment date.

(E) Security serves as collateral for the following open futures contracts at September 30, 2007. (See Note 7 to financial statements):

Description	Type	Number of Contracts	Expiration Date	Market Value	Unrealized Appreciation (Depreciation)

(3) Annualized.

(4) In connection with the reorganization plan effected December 8, 2003, Class B and Class C shares of the predecessor Adventus Fund were exchanged into Class A shares at the time of the merger. The ratios shown reflect a blended rate that includes income and expenses for those Class B and Class C shares before October 1, 2003 up to the time of merger. Expenses for Class A shares before and after the merger were limited to 0.95% of average net assets.

(5) There was no waiver of expenses during the period.

NOTE 1 – Significant Accounting Policies

Ivy Funds (the Trust) is organized as a Massachusetts business trust under a Declaration of Trust dated December 21, 1983 and is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. The Trust issues sixteen series of capital shares; each series represents ownership of a separate mutual fund (Fund). The assets belonging to each Fund are held separately by the custodian. The capital shares of each Fund represent a pro rata beneficial interest in the principal, net income and realized and unrealized capital gains or losses of its respective investments and other assets. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. Security valuation** – Each stock and convertible bond is valued at the latest sale price thereof on each business day of the fiscal period as reported by the principal securities exchange on which the issue is traded or, if no sale is reported for a stock, the average of the latest bid and asked prices. Bonds, other than convertible bonds, are valued using a pricing system provided by a pricing service or dealer in bonds. Convertible bonds are valued using this pricing system only on days when there is no sale reported. Stocks which are traded over-the-counter are priced using the Nasdaq Stock Market, which provides information on bid and asked prices quoted by major dealers in such stocks. Securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Trust's Board of Trustees. Management's valuation committee makes fair value determinations for the Trust, subject to the supervision of the Board of Trustees. Short-term debt securities, purchased with less than 60 days to maturity, are valued at amortized cost, which approximates market value. Short-term debt securities denominated in foreign currencies are valued at amortized cost in that currency.
- B. Security transactions and related investment income** – Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Premium and discount on the purchase of bonds are amortized for both financial and tax reporting purposes over the remaining lives of the bonds. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis. See Note 3 – Investment Securities Transactions.
- C. Foreign currency translations** – All assets and liabilities denominated in foreign currencies are translated into United States dollars daily. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. The Trust combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized and unrealized gain or loss from investments.

- D. Forward foreign currency exchange contracts** – A forward foreign currency exchange contract (Forward Contract) is an obligation to purchase or sell a specific currency at a future date at a fixed price. Forward Contracts are marked-to-market daily at the applicable translation rates and the resulting unrealized gains or losses are reflected in the Trust's financial statements. Gains or losses are realized by the Trust at the time the Forward Contract is extinguished. Contracts may be extinguished either by entry into a closing transaction or by delivery of the currency. Risks may arise from the possibility that the other party will not complete the obligations of the contract and from unanticipated movements in the value of the foreign currency relative to the United States dollar. The Trust uses Forward Contracts to attempt to reduce the overall risk of its investments.
- E. Federal income taxes** – It is the Trust's policy to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, the Trust intends to pay distributions as required to avoid imposition of excise tax. Accordingly, provision has not been made for Federal income taxes. See Note 4 – Federal Income Tax Matters.
- F. Dividends and distributions** – Dividends and distributions to shareholders are recorded by each Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, foreign currency transactions, net operating losses and expiring capital loss carryovers.
- G. Repurchase agreements** – Repurchase agreements are collateralized by the value of the resold securities which, during the entire period of the agreement, remains at least equal to the value of the loan, including accrued interest thereon. The collateral for the repurchase agreement is held by the custodian bank.
- H. New Accounting Pronouncements** – In June 2006, Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* (FIN 48), was issued and is effective on the last business day of the semiannual reporting period for fiscal years beginning after December 16, 2006. FIN 48 sets forth a threshold for financial statement recognition, measurement and disclosure of a tax position taken or expected to be taken on a tax return. Management has concluded that the adoption of FIN 48 will not result in a material impact on the Trust's net assets, results of operations and financial statement disclosures. In September 2006, FASB issued Statement on Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements." SFAS 157 defines fair value for purposes of financial statement presentation, establishes a hierarchy for measuring fair value in generally accepted accounting principles and expands financial statement disclosures about fair value measurements that are relevant to mutual funds. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Trust will adopt SFAS 157 during 2008 and its potential impact, if any, on each Fund's financial statements is currently being assessed by management.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

These fees are accrued daily and are paid monthly. However, IICO has voluntarily agreed to waive its management fee for Ivy Dividend Income Fund, Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund on any day that the Fund's net assets are less than \$25 million, subject to IICO's right to change or modify this waiver. During the six-month period ending September 30, 2007, IICO voluntarily waived its fee (in thousands) as shown in the following table:

Ivy Managed European/Pacific Fund	\$2
Ivy Managed International Opportunities Fund	1

Mackenzie Financial Corporation (MFC) serves as subadvisor to Ivy Global Natural Resources Fund under an agreement with IICO and receives a fee as follows: 0.50% of the Fund's average daily net assets up to \$500 million, 0.425% of net assets over \$500 million and up to \$1 billion, 0.415% of net assets over \$1 billion and up to \$2 billion, 0.40% of net assets over \$2 billion and up to \$3 billion, and 0.38% of net assets over \$3 billion.

Effective December 7, 2006, MFC serves as subadvisor to Ivy Cundill Global Value Fund under an agreement with IICO and receives a fee as follows:

Fund	Net Asset Breakpoints	Annual Rate
Ivy Cundill Global Value Fund	On the first \$500 Million	0.50%
	On the next \$500 Million	0.425%
	On the next \$1 Billion	0.415%
	On the next \$1 Billion	0.40%
	On all assets exceeding \$3 Billion	0.38%

MFC was the interim subadvisor to Ivy Cundill Global Value Fund from September 22, 2006 until December 7, 2006. Prior to September 22, 2006, Cundill Investment Research Ltd. served as subadvisor to the Fund.

Henderson Global Investors (North America) Inc. (HGINA) serves as subadvisor to Ivy European Opportunities Fund under an agreement with IICO. Henderson Investment Management Ltd., under a subadvisory agreement with HGINA, serves as subadvisor to the Fund. HGINA receives a fee payable monthly at an annual rate of 0.50% of average net assets.

Advantus Capital Management, Inc. serves as subadvisor to Ivy Bond Fund, Ivy Mortgage Securities Fund and Ivy Real Estate Securities Fund under an agreement with IICO and receives a fee equal to, on an annual basis, 0.27%, 0.30% and 0.55% of the respective Fund's average net assets.

Effective February 2, 2007, BlackRock Capital Management, Inc. serves as subadvisor to Ivy Small Cap Value Fund under an agreement with IICO and receives a fee equal to, on an annual basis, 0.50% of the Fund's average net assets.

BlackRock Capital Management, Inc. was the interim subadvisor to the Fund from September 27, 2006 until February 2, 2007. Prior to September 27, 2006, Blackrock Financial Management Inc. served as subadvisor to the Fund.

Templeton Investment Counsel, LLC serves as subadvisor to Ivy International Balanced Fund under an agreement with IICO and receives a fee that is shown in the following table:

Fund	Net Asset Breakpoints	Annual Rate
Ivy International Balanced Fund	On the first \$100 Million	0.50%
	All net assets exceeding \$100 Million	0.40%

Pursuant to a Master Fund Accounting Services Agreement, IICO provides certain accounting and pricing services for each Fund. As of March 18, 2003, IICO assigned its responsibilities under the Accounting Services Agreement to Waddell & Reed Services Company (WRSCO), an indirect subsidiary of WDR. For these services, each Fund, other than Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund (the Ivy Managed Funds), pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee

Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 11,500
From \$ 25 to \$ 50	\$ 23,100
From \$ 50 to \$ 100	\$ 35,500
From \$100 to \$ 200	\$ 48,400
From \$200 to \$ 350	\$ 63,200
From \$350 to \$ 550	\$ 82,500
From \$550 to \$ 750	\$ 96,300
From \$750 to \$1,000	\$121,600
\$1,000 and Over	\$148,500

In addition, for each class of shares in excess of one, each Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

Under the Accounting and Administrative Services Agreement for the Ivy Managed Funds, each Fund pays WRSCO, for its services, a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee

Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 5,748
From \$ 25 to \$ 50	\$11,550
From \$ 50 to \$ 100	\$17,748
From \$100 to \$ 200	\$24,198
From \$200 to \$ 350	\$31,602
From \$350 to \$ 550	\$41,250
From \$550 to \$ 750	\$48,150
From \$750 to \$1,000	\$60,798
\$1,000 and Over	\$74,250

In addition, for each class of shares in excess of one, each of the Ivy Managed Funds pays WRSCO a monthly per-class fee equal to 1.25% of the monthly accounting services base fee.

Under the Shareholder Servicing Agreement, except for the Ivy Managed Funds, with respect to Class A, Class B, Class C, Class E, Advisor Class and Class II shares, for each shareholder account that was in existence at any time during the prior month: Ivy Balanced Fund, Ivy Dividend Income Fund, Ivy International Balanced Fund, Ivy Real Estate Securities Fund, Ivy Small Cap Value Fund and Ivy Value Fund pay WRSCO a monthly fee of \$1.5792; Ivy Bond Fund and Ivy Mortgage Securities Fund pay WRSCO a monthly fee of \$1.6958; and Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy Global Natural Resources Fund, Ivy International Growth Fund, Ivy International Core Equity Fund and Ivy Pacific Opportunities Fund each pay WRSCO a monthly fee of \$1.5042. For Class I and Class Y shares, each Fund pays WRSCO a monthly fee at an annual rate of 0.15% of the average daily net assets of the class for the preceding month. For Class R shares, each Fund pays WRSCO a monthly fee at an annual rate of 0.20% of the average daily net assets of the class for the preceding month. Effective September 1, 2006, the Shareholder Servicing Agreement with respect to Class A, Class B and Class C shares has been revised so that each Fund pays WRSCO an annual fee (payable monthly) for each account of the Fund that is non-networked and is as shown above; however, WRSCO has agreed to reduce those

fees if the number of total shareholders accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios, Inc., Ivy Funds and Ivy Funds, Inc.) reaches certain levels. For certain networked accounts (that is, those accounts whose Fund shares are purchased through certain intermediaries), WRSCO has agreed to reduce its per account fees charged to the Funds to \$0.50 per month per shareholder account. Additional fees may be paid by the Funds to those intermediaries. Each Fund also reimburses WRSCO for certain out-of-pocket costs for all classes. Certain broker-dealers that maintain shareholder accounts with each Fund through an omnibus account provide transfer agent and other shareholder-related services that would otherwise be provided by WRSCO if the individual accounts that comprise the omnibus account were opened by their beneficial owners directly. WRSCO pays such broker-dealers a per account fee for each open account within the omnibus account, or a fixed rate (e.g., 0.10%) fee, based on the average daily net asset value of the omnibus account (or a combination thereof).

Under the Shareholder Servicing Agreement for the Ivy Managed Funds, no fee is charged to the Ivy Managed Funds as compensation for services rendered under this Shareholder Servicing Agreement. The Ivy Managed Funds do, however, reimburse any out-of-pocket expenses incurred by WRSCO in the performance of its duties under this Agreement, including long distance telephone communications costs; microfilm and storage costs for certain documents; forms, printing and mailing costs; charges of any sub-agent used by WRSCO in performing services under the Shareholder Servicing Agreement; and costs of legal and special services not provided by IFDI, IICO or WRSCO.

Pursuant to an Administrative Services Agreement, IICO provides certain administrative services to each Fund. The administrative fee for each Fund is a monthly fee at the annual rate of 0.01% of each Fund's average daily net assets.

As principal underwriter for the Trust's shares, Ivy Funds Distributor, Inc. (IFDI) receives sales commissions (which are not an expense of the Trust) for Class A and Class E shares. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class B, Class C or certain Class A and Class E shares and is paid to IFDI. During the six-month period ended September 30, 2007, IFDI received the following amounts in sales commissions and CDSC:

Under a Distribution and Service Plan for Class A shares adopted by the Trust pursuant to Rule 12b-1 under the Investment Company Act of 1940, each Fund may pay a distribution and/or service fee to IFDI in an amount not to exceed 0.25% of the Fund's average annual net assets attributable to that class. The fee is to be paid to reimburse IFDI for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts. Under a Distribution and Service Plan for Class B and Class C shares adopted by the Trust pursuant to Rule 12b-1 under the Investment Company Act of 1940, each Fund may pay IFDI a service fee in an amount not to exceed 0.25% of the Fund's average annual net assets attributable to that class. The fee is to be paid to reimburse IFDI for amounts it expends in connection with the provision of personal services to Fund shareholders and/or maintenance of shareholder accounts. Under the Distribution and Service Plan for Class B shares and Class C shares adopted by the Trust pursuant to Rule 12b-1 under the Investment Company Act of 1940, each Fund may pay IFDI a distribution fee not to exceed 0.75% of the Fund's average annual net assets attributable to that class to compensate IFDI for its services in connection with the distribution of shares of that class. The Class B Plan and the Class C Plan each permit IFDI to receive compensation, through

the distribution fee, for its distribution activities for that class. Under the Distribution and Service Plan for Class E shares adopted by the Trust on behalf of each of the Ivy Funds pursuant to Rule 12b-1 under the 1940 Act, each Fund may pay IFDI, the principal underwriter for the Fund, a fee up to 0.25% of the Fund's average annual net assets attributable to Class E shares, paid daily, to compensate IFDI for its costs and expenses in connection with, either directly or through others, the distribution of the Class E shares, the provision of personal services to Class E shareholders and/or maintenance of Class E shareholder accounts. The Class E Plan permits IFDI to be compensated for these Class E-related distribution activities through the distribution fee, subject to the limit contained in the Plan. The Class E Plan also permits IFDI to be compensated for amounts it expends: in compensating, training and supporting registered financial advisors, sales manager and/or other appropriate personnel in providing personal services to Class E shareholders of the funds and/or maintaining Class E shareholder accounts; increasing services provided to Class E shareholders of the Funds by office personnel located at field sales offices; engaging in other activities useful in providing personal service to Class E shareholders of the Funds and/or maintenance of Class E shareholder accounts; and in compensating broker-dealers and other third parties who may regularly sell Class E shares of the Funds, and may regularly provide shareholder services and/or maintain shareholder accounts with respect to Class E shares. Under the Class R Plan, each Fund may pay IFDI a fee of up to 0.50%, on an annual basis, of the average daily net assets attributable to that class to compensate IFDI for, either directly or through third parties, distributing the Class R shares of that Fund, providing personal service to Class R shareholders and/or maintenance of Class R shareholder accounts. Under the Class Y Plan, each Fund may pay IFDI a fee of up to 0.25%, on an annual basis, of the average daily net assets attributable to that class to compensate IFDI for, either directly or through third parties, distributing the Class Y shares of that Fund, providing personal service to Class Y shareholders and/or maintenance of Class Y shareholder accounts.

For Ivy Cundill Global Value Fund, Ivy Global Natural Resources Fund, Ivy International Core Equity Fund and Ivy Pacific Opportunities Fund, IICO has contractually agreed to reimburse a Fund's expenses, for the calendar year ended December 31, 2006, and for the following five years, to the extent necessary to ensure that the Fund's annual operating expenses, when calculated at the Fund level, do not exceed 2.50% of the Fund's average net assets (excluding 12b-1 fees and certain other expenses). During the six-month period ended September 30, 2007, IICO did not reimburse any of the Fund's expenses.

In addition, IFDI and WRSCO have voluntarily agreed to waive sufficient Fund expenses to ensure that the total annual fund operating expenses do not exceed the following levels for the specified funds/classes:

Fund and Class	Expense Limitation (as a percentage of average net assets of each Class)
Ivy Cundill Global Value Fund, Class A	1.90%
Ivy Cundill Global Value Fund, Class C	2.55%
Ivy Cundill Global Value Fund, Class Y	1.20%
Ivy Global Natural Resources Fund, Class A	1.70%
Ivy Global Natural Resources Fund, Class C	2.40%
Ivy Global Natural Resources Fund, Class Y	1.20%

During the six-month period ended September 30, 2007, IFDI reimbursed the Fund's service fees (in thousands) as shown:

Ivy Cundill Global Value Fund, Class Y	\$ 15
Ivy Global Natural Resources Fund, Class Y	132

During the six-month period ended September 30, 2007, the Funds paid Trustees' regular compensation of \$220,538, which is included in other expenses.

NOTE 6 – Options

Options purchased by a Fund are accounted for in the same manner as marketable portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from securities sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current market value of the option written. The current market value of an option is the last sales price on the principal exchange on which the option is traded or, in the absence of transactions, the mean between the bid and asked prices or at a value supplied by a broker-dealer. When an option expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the call option was sold) and the liability related to such option is extinguished. When a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. For each Fund, when a written put is exercised, the cost basis of the securities purchased by the Fund is reduced by the amount of the premium received.

For Ivy Pacific Opportunities Fund, transactions in written call options were as follows:

	Number of Contracts	Premiums Received
Outstanding at March 31, 2007	—	\$ —

NOTE 7 – Futures

The Trust may engage in buying and selling futures contracts. Upon entering into a futures contract, the Trust is required to deposit, in a segregated account, an amount of cash or United States Treasury Bills equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Trust each day, dependent on the daily fluctuations in the value of the underlying debt security or index. These changes in the variation margins are recorded by the Trust as unrealized gains or losses. Upon the closing of the contracts, the cumulative net change in the variation margin is recorded as realized gain or loss. The Trust uses futures to attempt to reduce the overall risk of its investments.

NOTE 8 – Affiliated Company Transactions

The Ivy Managed Funds make investments in funds within the Ivy Funds family, which funds may be deemed to be under common control because the Funds share the same board of trustees. A summary of the transactions in each underlying fund during the six months ended September 30, 2007 follows:

Renewal of Investment Management Agreements for the Ivy Funds

At a Meeting of the Board of Trustees of Ivy Funds (the “Trust”) held on August 28 and 29, 2007, the Trustees, including all of the Trustees who are not “interested persons” as defined in Section 2(a)(19) of the 1940 Act, unanimously approved the continuance of the existing management agreements between Ivy Investment Management Company (“IICO”) and the Trust. The existing management agreements considered were (i) the Master Business Management and Investment Advisory Agreement between the Trust and IICO (with respect to the Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy International Growth Fund, Ivy International Core Equity Fund and the Ivy Pacific Opportunities Fund); (ii) the Investment Management Agreement between the Trust and IICO (with respect to the Ivy Dividend Fund, Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund); (iii) the Investment Management Agreement between the Trust and IICO (with respect to the Ivy Balanced Fund, Ivy Bond Fund, Ivy International Balanced Fund, Ivy Mortgage Securities Fund, Ivy Real Estate Securities Fund, Ivy Small Cap Value Fund, Ivy Value Fund and the Ivy Global Natural Resources Fund); and (iv) the Subadvisory Agreements between IICO and:

- Henderson Investment Management Limited and Henderson Global Investors (North America) Inc. (Ivy European Opportunities Fund)
- Adventus Capital Management, Inc. (Ivy Bond Fund, Ivy Mortgage Securities Fund, Ivy Real Estate Securities Fund)
- Templeton Investment Counsel, LLC (Ivy International Balanced Fund)
- BlackRock Capital Management, Inc. (Ivy Small Cap Value Fund)
- Mackenzie Financial Corporation (Ivy Cundill Global Value Fund and Ivy Global Natural Resources Fund).

(each such subadviser referred to herein as a “Subadviser”).

The Board’s Independent Trustees were assisted in their review by independent legal counsel, and met with such counsel separately from representatives of IICO. Independent legal counsel provided the Board with a memorandum that discussed the various factors that the Board should consider as part of its review of the various agreements, including, among other things, the nature and the quality of the services provided by IICO, profitability (including any fall-out benefits) from the relationships with the Funds, economies of scale, the role played by the Independent Trustees, and information on comparative fees and expenses. The Board also considered the written responses and supplementary materials produced by IICO and each Subadviser in response to a 15(c) due diligence request list submitted by the Independent Trustees’ counsel prior to the meeting. Included in those responses, which had been provided to the Board prior to the meeting, was a Fund-by-Fund profitability analysis prepared by IICO. The Board also received extensive materials on performance, expenses and comparable fund information from Lipper, Inc., an independent mutual fund rating service. Finally, the Independent Trustees received and reviewed a considerable amount of information that their independent fee consultant had provided to them. The Independent Trustees discussed this material extensively among themselves, with their independent legal counsel and independent fee consultant, and with the other Board members, after which the Board considered various factors described below, none of which by itself was considered dispositive. However, the material factors and conclusions that formed the basis for the Board’s determination to approve the agreements are discussed separately below.

Nature, Extent and Quality of Services

The Board considered the fact that they were provided with performance and expense information for each of the Funds during the year in regularly scheduled Board meetings, during which they met with the Funds' portfolio managers and other investment personnel. In that regard, they discussed the nature, extent and quality of services provided to each Fund by IICO and each Subadviser, taking into account the investment objective and strategy of the Fund and the knowledge the Board gained from those regular meetings, including from the materials provided in connection with those meetings. In addition, the Board reviewed the resources and key personnel of IICO and each Subadviser. The Board also considered other services provided to the Funds by IICO and each Subadviser, such as managing the quality of execution of portfolio transactions and the selection of broker-dealers for those transactions, monitoring adherence to the Funds' investment restrictions, producing reports, providing support services for the Board and Board committees, communicating with shareholders and overseeing the activities of other service providers, including monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations. The Board concluded that the nature and extent of the services provided by IICO and each Subadviser were appropriate, that the quality of those services had been consistent with quality norms in the industry and that the Funds were likely to benefit from the continued provision of those services.

Benefits from the Relationship with the Funds

The Board next discussed whether IICO or any Subadviser derives any other direct or indirect benefit from serving the Funds. The Board considered benefits that accrue to each organization from its respective relationship with a Fund, including the fact that a variety of services are provided by affiliates of IICO, including distribution, shareholder servicing and transfer agency services. After full consideration of these and other factors, the Board concluded that none of IICO, any Subadviser or any of their affiliates receive any additional direct or indirect benefits that would preclude the Board from approving the continuation of the investment advisory contract with IICO or the investment sub-advisory agreements.

Economies of Scale

The Board discussed whether economies of scale are being realized by the Funds and whether fee levels reflect those economies of scale for the benefit of the Funds' shareholders. In that context, the Board discussed the current level of the Funds' advisory fee breakpoints and also considered the current and anticipated asset levels of the Funds and the potential for growth in each Fund. With respect to the Global Natural Resources Fund, the Board requested that management examine the continuing appropriateness of that Fund's breakpoint schedule. The Board also noted that as the assets of the Funds continue to increase, the Funds' expense ratios generally continue to fall. Except as noted, the Board concluded that the current asset size of the Funds and other relevant factors did not warrant further reevaluation or restructuring of the fee breakpoints for the Funds at this time.

Performance of the Funds and Costs of Services Provided

The Board considered, on a Fund by Fund basis, the performance of each Fund and the costs of the services provided. The Board focused particularly on the Ivy Real Estate Securities Fund, Ivy Cundill Global Value Fund, Ivy Small Cap Value Fund and Ivy Pacific Opportunities Fund.

Specifically, the Board examined the investment performance of each Fund, including quintile ranking for short- and long-term time periods and each Fund's performance against its peers. The Board also examined the performance of each Fund against its respective Lipper index for the same periods. After extensively reviewing all of the performance information provided, the Board concluded that the Funds' performance in each asset class was acceptable. Although the performance of some of the focus Funds identified by the independent fee consultant lagged that of their peers or respective Lipper index, the Board recognized that IICO or the applicable subadviser had taken, or was taking, steps to address that underperformance, and determined to continue to monitor closely the performance of those Funds.

The Board also considered the expenses of each Fund, the expense ratio of each Fund, and the expense limitation arrangements entered into by IICO in light of the services provided by IICO and each Sub-Adviser. The Board also compared each Fund's expenses, including advisory, distribution and shareholder servicing fees, with the expenses and advisory fees of other investment advisers managing similarly situated funds, as well as the advisory fees that IICO (or an affiliate) charges for providing advisory services to separately managed accounts in the same asset class for certain Funds. In that regard, the Board noted that IICO performs significant additional services for those Funds. The Board also took into account the information on IICO's profitability in managing the Funds, including the methodology used to calculate profitability. The Board finally considered the amount of assets in each Fund, each Fund's average account size and how those factors affect the Funds' expense ratios. After completing this examination, the Independent Directors concluded that the Fund's expenses are appropriate at the current time.

The Board of Directors/Trustees for each of the mutual funds has appointed an independent fee consultant. Posted below is a summary of the written fee evaluation of such consultant for the most recent year.

During August of 2007, and as part of their regularly scheduled meetings, the Boards of Trustees of Ivy Funds and the Board of Directors of Ivy Funds, Inc. (collectively, the "Ivy Funds" and any separate series thereof an "Ivy Fund") reviewed significant information in connection with considering the continuation of existing investment management agreements currently in effect between Ivy Investment Management Company ("IICO") and the Ivy Funds. Pursuant to the Assurance of Discontinuance between Waddell & Reed, Inc., Waddell & Reed Services Company ("WRSCO"), and Waddell & Reed Investment Management Company (collectively, "Waddell") and the Office of the New York Attorney General dated July 10, 2006 ("Assurance of Discontinuance"), the Trustees/Directors of the Ivy Funds engaged an independent fee consultant to assist them in evaluating the reasonableness of the management fees charged by IICO, an affiliate of Waddell, to the Ivy Funds. The independent fee consultant's review addressed the following fee-related factors:

1. The nature and quality of IICO's services to the Ivy Funds, including performance
2. Management fees (including any components thereof) charged by other mutual fund companies for like services
3. Management fees (including any components thereof) charged to institutional and other clients of IICO for like services
4. Costs to IICO and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit
5. Profit margins of IICO and its affiliates from supplying such services
6. Possible economies of scale as a fund grows larger

The following summarizes the findings of the independent fee consultant retained by the Trustees/Directors.¹

Summary Findings

The independent fee consultant believes that IICO delivers strong levels of performance and service to the Ivy Funds in relation to IICO management fees and relative to investment advisers of comparable mutual funds. For the 36 months ended April 30, 2007, when compared to their respective peer groups established by Lipper, Inc. ("Lipper") approximately: (a) 21% of the Ivy Funds were in the top 10 percentiles; (b) 33% of the Ivy Funds were in the top quartile of performance; and (c) 62% of the Ivy Funds were in the top two quartiles. The independent fee consultant noted that the Ivy Funds' performance appears to be grounded in a number of institutional competitive advantages at IICO, including stock selection ability, ability to attract top talent, strategic vision, performance-focused culture, ability to manage smaller AUM funds, ability to serve small account sizes and an effective trading infrastructure.

¹The independent fee consultant's evaluation was based on information provided by IICO, Lipper, Inc., other information providers and other independent analyses. The term "management fees" refers to the actual annual advisory and administrative fees, net of any fee waivers, paid by an Ivy Fund, as a percentage of such fund's average net assets. The term "total expenses" refers to the total annual expenses, net of any fee waivers, paid by an Ivy Fund, as a percentage of such fund's average net assets. Where these terms are used in reference to groups of Ivy Funds, numbers expressed are on an asset-weighted basis. Fee and performance data used in screening methodologies are usually for the period ending February 28, 2007. In other areas, data is from various periods ending between December 31, 2006 and July 31, 2007.

For the 12 months ended March 31, 2007, the total expenses of the Ivy Funds on average were 7% above the mean total expenses of their respective Lipper Expense Group peers and 1% below the mean total expenses for their Lipper Expense Universes. The management fees for the Ivy Funds on average were 9% above the mean management fees for their Lipper Expense Groups and 10% above the means for their Lipper Expense Universes. Ivy Funds' small average account size and small fund AUM introduces certain biases in the Lipper analyses that can work against Ivy Funds in Lipper expense comparisons. As a result, the Lipper findings can be considered conservative. Within the larger Lipper averages, the management fees and total expenses of individual Ivy Funds and share classes are reasonable relative to their performance.

The independent fee consultant believes that the management fees IICO charges to the Ivy Funds also are reasonable in relation to the management fees it charges to its other institutional accounts. These institutional accounts have different service and infrastructure needs. Moreover, based on industry data, the average spread between management fees charged to the Ivy Funds and those charged to institutional accounts is below the average fee spreads observed at other investment advisers.

The independent fee consultant found that the level of profit earned by IICO from managing the Ivy Funds does not appear to be unreasonable. Waddell's overall profitability from managing the Ivy Funds and its other operations is below the mean profitability of other publicly traded peers, but appears adequate to enable IICO to continue to provide quality support to the Ivy Funds and their shareholders.

Analyses was undertaken by the independent fee consultant to measure economies of scale in the industry in a manner that would give an overall "net" view of any economies or diseconomies of scale across all cost elements. This analysis, however, was unable to quantitatively assess or confirm overall economies of scale in the IICO complex. A separate economy of pricing analysis, also undertaken by the independent fee consultant, did show that Ivy Funds incur lower fees and expenses with increasing fund AUM and with increasing average account size which the independent fee consultant believes should benefit Ivy Fund investors as the Ivy Funds mature.

Conclusions

The independent fee consultant concluded that the services provided by IICO and its affiliates and expenses incurred by the Ivy Funds over the year ending August 31, 2007 are reasonable and provide adequate justification for renewal of the Ivy Funds' existing advisory agreements.
