Reconciliation of Income Tax Expense from Continuing Operations to Adjusted Income Tax Expense from Continuing Operations, page 14

 We note your response to our comment number 6. Given that the Other income tax adjustment items are arrived at by calculating the difference between the projected annual Non-GAAP income tax rate applied to the respective quarter's pretax income and the actual tax rate computed for the respective quarters during the year under ASC 740-270; please tell us how you considered whether the Non GAAP measure substitutes an individually tailored recognition and measurement method for those of GAAP which results in a misleading non-GAAP measure that violates Rule 100(b) of Regulation G.
