Compensation Discussion and Analysis, page 211

1. We note your response to comment 19 of our letter dated September 29, 2008. In particular, we note your statement that you assess each business unit's performance in the areas of safety and environmental goals and regulatory compliance against that unit's performance in previous years and against industry benchmarks. You also state that "[t]his assessment influences positively or negatively the amount of bonus dollars allocated to that business segment." Please enhance your disclosure to quantify, by providing a range or an illustrative historical example, the extent to which a unit's performance in these areas can positively or negatively impact an executive's bonus award.

Similarly, please identify, to the extent applicable for each executive officer, which aspects of the officer's individual performance impacted, positively or negatively, that officer's 2007 bonus award. If possible, please also quantify that impact.
