Form 10-Q for the quarter ended October 26, 2013

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, page 19
Results of Operations, page 21

1. In future annual and quarterly filings please provide a more robust discussion of your results that identifies, explains, and quantifies the factors that impacted your results during each period. For example, we note that consolidated sales, upholstery sales, and retail sales benefited from increased volumes, favorable product mix, and increased selling prices without quantification of each factor and without explanation of the reasons for the changes. In addition, we note casegoods sales showed "continued weakness" without further explanation. To the extent practicable, please further explain the underlying reasons for changes and quantify the impact that the factors you identify had on your results. See Item 303 of Regulations S-K and SEC Release No. 33-8350.

In responding to our comments, please provide a written statement from the company acknowledging that:
