ITEM 1. BUSINESS

GENERAL DEVELOPMENT OF BUSINESS AND INFORMATION ABOUT BUSINESS ACTIVITY

LaBarge, Inc. (“LaBarge” or the “Company”) is a Delaware corporation.

LaBarge manufactures and designs high-performance electronics and interconnect systems for customers in diverse technology-driven markets. The Company’s core competencies are to provide complete electronic systems solutions, including the manufacturing, engineering and design of interconnect systems, circuit card assemblies and high-level assemblies for its customers’ specialized applications.

The Company markets its services to customers desiring an engineering and manufacturing partner capable of developing and providing high-reliability electronic equipment, including products capable of performing in harsh environmental conditions, such as high and low temperature, severe shock and vibration. The Company serves customers in a variety of markets including defense, government systems, aerospace, natural resources, industrial and other commercial markets. The Company’s engineering and manufacturing facilities are located in Arkansas, Missouri, Oklahoma, Texas and Pennsylvania. The Company employs approximately 1,050 people including approximately 890 people (of which 36 are engineers) who provide support for production activities and approximately 160 people who provide administrative support.

On February 17, 2004, the Company acquired substantially all of the assets of Pinnacle Electronics LLC (“Pinnacle” or “the Pittsburgh operation”). The acquired assets supplement the Company’s electronics manufacturing services (“EMS”) business with a leased manufacturing location in metropolitan Pittsburgh, Pennsylvania, substantially enhancing the Company’s commercial/industrial sales mix. Pinnacle’s commercial/industrial market expertise, supported by a strong management team, further diversifies the Company’s historic strength in the government/defense marketplace.

Pinnacle understands the unique characteristics of the commercial/industrial EMS market and has developed competencies and inventory management practices to maximize productivity and profitability. The Pittsburgh operation designs, engineers and manufactures printed circuit card assemblies, cables and harnesses, full “box-build” assemblies and electronic/electro-mechanical systems for customers in a variety of commercial/industrial markets. The Company believes there will be continued growth in these markets as the trend to outsource non-core-competency manufacturing continues.

The purchase price for Pinnacle was \$43.1 million, which included a post closing working capital adjustment of approximately \$2.1 million, and was funded by senior bank debt and cash on hand. In addition, the Company assumed working capital liabilities of approximately \$3.7 million, primarily trade accounts payable, and incurred transaction costs of approximately \$0.3 million.

On August 7, 2003, the Company sold the remainder of its ScadaNET Network™ business for \$225,000 cash. The Company recorded a \$20,000 pretax gain on the transaction. This sale completed the Company’s exit from the ScadaNET Network™ businesses.

Fiscal 2005 Company net sales were \$182.3 million, compared with \$131.5 million for fiscal 2004, and \$102.9 million for fiscal 2003. The backlog for the Company at July 3, 2005 was \$164.9 million, compared with \$156.9 million at June 27, 2004, an increase of 5%. The growth in backlog is the result of a sales and marketing effort that focuses on matching the Company’s core competencies to the outsourcing needs of targeted large customers in a variety of industries. Approximately \$32.4 million and \$41.0 million of the backlog at fiscal 2005 year end and fiscal 2004 year end, respectively, are scheduled to ship beyond the next 12 months pursuant to the shipment schedules contained in those contracts.

SALES AND MARKETING

During fiscal 2005, 44.6% of the Company’s revenues were generated from defense customers, 19.3% from

natural resource customers, 19.0% from industrial customers and 4.2% from customers in the government systems market. The remaining 12.9% of sales comes from various customers in the medical, telecommunications, semiconductor and other industries. The Company produces electronic equipment for use in a variety of high-technology applications, including military communication and radar systems, industrial automation, military and commercial aircraft, satellites, space launch vehicles, down-hole instrumentation for oil and gas wells, and postal automation equipment. The Company's broad-based core competencies in electronics design and manufacturing allow it to pursue diverse opportunities with customers in many different markets. The diversification of the Company's customer base helps protect it from volatility in any one market sector.

With few exceptions, the Company's sales are made pursuant to fixed-price contracts. Larger, long-term government contracts generally have provisions for milestone, progress payments or cash advances for purchase of inventory.

The Company seeks to develop strong, long-term relationships with its customers, which will provide the basis for future sales. These close relationships allow the Company to better understand each customer's business needs and identify ways to provide greater value to the customer.

COMPETITION

There is intense competition for all of the Company's targeted customers. While the Company is not aware of another entity that competes in all of its capabilities, there are numerous companies, many larger, which compete in one or more of these capabilities. The Company's customers frequently have the ability to produce internally the products contracted to the Company, but because of cost, capacity, engineering capability or other reasons, outsource production of such products to the Company. The principal bases of competition are service, price, engineering expertise, technical and manufacturing capability, quality, reliability, and overall project management capability.

CONCENTRATION OF BUSINESS

Three customers, each with multiple operating units, together accounted for in excess of 32.0% of the Company's consolidated sales in fiscal 2005: Owens-Illinois, Inc. accounted for 11% of total sales; Northrop Grumman Corporation accounted for 11% of total sales; and Schlumberger Ltd. accounted for 10% of total sales. No other customer accounted for more than 9% of total sales. Sales to the largest 10 customers represented approximately 72% of the Company's total sales in fiscal year 2005 and 61% in fiscal year 2004.

MANUFACTURING OPERATIONS

The Company has organized its engineering and production to provide flexible independent plant locations with specific design and manufacturing capabilities. This approach allows local management at each facility to concentrate the necessary attention on specific customer needs and, at the same time, control all key aspects of the engineering and manufacturing processes.

STRATEGY

The Company's business strategy is to serve as an outsourcing partner to original equipment manufacturers (OEMs) that do business in diverse markets by providing a package of broad-based manufacturing capabilities and value-added services. This strategy is designed around the Company's core competencies in manufacturing complex electronic assemblies, subsystems and interconnect systems for specialized applications where reliability is critical. The Company's business historically was concentrated in the defense and other government related markets. In recent years, that focus has broadened to include industrial and commercial customers. This greater diversity in markets served helps protect the Company from downturns in any one market.

CAPITAL STRUCTURE

The Company entered into a senior secured loan agreement with a group of banks on February 17, 2004. The following is a summary of the agreement:

- A revolving credit facility up to \$20.0 million, available for direct borrowings or letters of

credit. This facility is based on a borrowing base formula equal to the sum of 85% of eligible receivables and 35% of eligible inventories. As of July 3, 2005, outstanding loans under the revolving credit facility were \$1.7 million. Letters of credit outstanding were \$1.4 million and \$16.9 million was available. This credit facility matures on February 17, 2009.

- A \$25.0 million term loan amortizing at a quarterly rate of \$1.0 million, beginning May 2004, increasing to \$1.25 million in May 2006 and increasing to \$1.5 million in May 2007. Final maturity is February 2009. As of July 3, 2005, the outstanding balance was \$20.0 million.
- On April 15, 2004, the Company entered into an Interest Rate Cap Agreement with a bank. This Agreement caps the Company's exposure to LIBOR at 4% for a period of three years on a notional amount beginning at \$24.0 million and amortizing on a schedule that matches amortization of the \$25.0 million term loan dated February 17, 2004.
- Interest on both loans is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended July 3, 2005, the average rate was approximately 4.82%. For the year ended July 3, 2005, the average rate was approximately 4.45%.
- Both loans are secured by substantially all the assets of the Company other than real estate.
- Covenants and performance criteria consist of Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in relation to debt, EBITDA in relation to fixed charges, and minimum net worth. The Company is in compliance with its borrowing agreement covenants as of July 3, 2005.

OTHER LONG-TERM DEBT:

Mortgage Loan:

The Company has a \$6.4 million term loan secured by the Company's headquarters building in St. Louis, Missouri. The loan repayment schedule is based on a 25-year amortization with a final balloon payment due in October 2009. The balance at July 3, 2005 was \$5.7 million. Interest is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended July 3, 2005, the average rate was approximately 3.8%. For the year ended July 3, 2005, the average rate was approximately 3.0%.

Industrial Revenue Bonds:

In July 1998, the Company acquired tax-exempt Industrial Revenue Bond financing in the amount of \$1.3 million. The debt is payable over 10 years with an interest rate of 5.28%. This funding was used to expand the Berryville, Arkansas, facility. The outstanding balance at July 3, 2005 was \$519,000.

The aggregate maturities of long-term obligations are as follows:

(dollars in thousands)

Fiscal Year	
2006	\$ 4,661
2007	5,668
2008	6,424
2009	4,798
2010	4,715
Total	\$ 26,266

ENVIRONMENTAL COMPLIANCE

Compliance with federal, state and local environmental laws is not expected to materially affect the capital expenditures, earnings or competitive position of the Company.

FINANCIAL INFORMATION ABOUT FOREIGN AND DOMESTIC OPERATIONS AND EXPORT SALES

No information has been included hereunder because the Company's foreign sales in each of fiscal 2005, fiscal 2004 and fiscal 2003 were less than 10% of the total Company revenue.

RISK FACTORS

In addition to the other risks identified herein, the Company's business is subject to the following risks:

The Company Experiences Variable Operating Results:

The Company's results of operations have varied and may continue to fluctuate significantly from period to period, including on a quarterly basis. Consequently, results of operations in any period should not be considered indicative of the results for any future period, and fluctuations in operating results may also result in fluctuations in the price of the Company's common stock.

The Company's quarterly and annual results may vary significantly depending on numerous factors, many of which are beyond the Company's control. These factors include:

- Changes in sales mix to customers
- Changes in availability and cost of components
- Volume of customer orders relative to capacity
- Market demand and acceptance of our customers' products
- Price erosion within the EMS marketplace
- Capital equipment requirements needed to remain technologically competitive

The Company's Customer Base is Concentrated:

Significant reduction in sales to any of the Company's major customers or the loss of a major customer could have a material impact on the Company's operations. If the Company cannot replace completed, canceled or reduced orders, sales will decline, which could have a material impact on the results of operations. Although the Company believes its relationships with its large customers are good, the Company generally does not enter into long-term contracts. There can be no assurance that the Company will retain any or all of its large customers. This risk may be further complicated by pricing pressures and intense competition prevalent in our industry.

There is Variability in the Requirements of the Company's Customers:

The Company does not generally obtain long-term purchase contracts. The timing of purchase orders placed by the Company's customers is affected by a number of factors, including variation in demand for the customers' products, federal government funding, regulatory changes affecting customer industries, customer attempts to manage their inventory, changes in the customers' manufacturing strategies and customers' technical problems or issues. Many of these factors are outside the control of the Company.

The Company and its Customers May Be Unable to Keep Current with the Industry's Technological Changes:

The market for the Company's manufacturing services is characterized by rapidly changing technology and continuing product development. The future success of the Company's business will depend in large part upon its ability to maintain and enhance its technological capabilities, develop and market manufacturing services which meet changing customer needs and successfully anticipate or respond to technological changes in manufacturing processes on a cost-effective and timely basis.

Effective mid-2006 certain of the Company's customers must be in compliance with a new European standard, Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS Directive 2002-95-EC) for all products shipped to the European marketplace. The purpose of the directive is to restrict the use of hazardous substances in electrical and electronic equipment and to contribute to the environmentally sound

recovery and disposal of electrical and electronic equipment waste. In addition, electronic component manufacturers must produce electronic components which are lead-free. The Company's Pittsburgh operation has implemented lead-free wave solder and reflow systems. The Company relies on numerous third-party suppliers for components used in the Company's production process. Customers' specifications may require the Company to obtain components from a single source or a small number of suppliers. There is no assurance these suppliers will comply with RoHS. The inability to utilize any such suppliers could increase the cost of components and have a material impact on the Company's results of operations.

The Company Faces Intense Industry Competition and Downward Pricing Pressures:

The EMS industry is highly fragmented and characterized by intense competition. Some of the Company's competitors have substantially greater manufacturing, purchasing, marketing and financial resources than the Company. Many of the Company's customers have the in-house capability to fulfill their material requirements.

There can be no assurance that competition from existing or potential competitors will not have a material adverse impact on the Company's business, financial condition or results of operations. The introduction of lower priced competitive products, significant price reductions by the Company's competitors or significant pricing pressures from its customers could adversely affect the Company's business, financial condition, and results of operations.

The Availability of Raw Components May Affect the Company's Operations:

The Company relies on numerous third-party suppliers for components used in the Company's production process. Certain of these components are available only from single sources or a limited number of suppliers. In addition, a customer's specifications may require the Company to obtain components from a single source or a small number of suppliers. The loss of any such suppliers could have a material impact on the Company's results of operations. The Company could operate at a cost disadvantage compared to competitors who have greater direct buying power from suppliers.

The Company is Dependent on Key Personnel:

The Company depends significantly on its executive and plant management. The loss of the services of any of these key employees could have a material impact on the Company's business and results of operations. In addition, despite significant competition, continued growth and expansion of the Company's contract manufacturing business will require that it attract, motivate and retain additional skilled and experienced personnel. The inability to satisfy these requirements could have a negative impact on the Company's ability to remain competitive in the future.

Failure to Comply with Environmental Regulations Could Subject the Company to Liability:

The Company is subject to a variety of environmental regulations relating to the use, storage, discharge and disposal of hazardous chemicals used during its manufacturing process. Any failure by the Company to comply with present or future regulations could subject it to future liabilities or the suspension of production which could have a material negative impact on the Company's results of operations.

The Price of the Company's Stock is Volatile:

The price of the Company's Common Stock historically has experienced significant volatility due to a number of factors including: fluctuations in the Company's revenue and earnings, the market's changing expectations for the Company's growth, overall equity market conditions, the limited float of the Company's Common Stock and other factors either related or unrelated to the Company's operations. Such fluctuations are expected to continue.

ITEM 2. PROPERTIES

The Company's principal facilities, which are deemed adequate and suitable for the Company's business, are as follows:

<u>Location</u>	<u>Principal Use</u>	<u>Land (acres)</u>	<u>Buildings (sq. ft.)</u>	<u>Calendar Year of Termination of Lease</u>
Berryville, AR	Manufacturing & Offices	17.5	52,000	Owned
Houston, TX	Manufacturing & Offices	2	33,000	2013

Tulsa, OK	Manufacturing & Offices	3	55,000	2006
Tulsa, OK	Manufacturing	1	6,425	2006
Tulsa, OK	Offices	.5	3,235	2006

The Company has substantially completed negotiations to extend the Pittsburgh lease to 2010. The new lease is expected to be executed within the next 30 days at similar economic provisions as the current lease.

ITEM 3. LEGAL PROCEEDINGS

In March 2004, the Company received notice from the Library of Congress ("LOC") that seeks financial restitution in the amount of \$1.8 million stemming from the Company's production of audiocassette machines during the period 1992 through 1996. The LOC claims the machines are defective. The Company advised the LOC that the machines were tested and certified by an independent laboratory, were manufactured to the requirements of the contract and the alleged failure could not be recreated under any usual and typical operating conditions. These issues are now in litigation in the Court of Federal Claims. The Company intends to vigorously defend its position. Discovery period is to commence in September 2005 and trial will likely be scheduled for 2007.

After consultation with legal counsel, it is management's belief that the LOC claim against the Company will not prevail.

ITEM 4. SUBMISSION OF MATTER TO A VOTE OF SECURITY HOLDERS

There were no items submitted to a vote of the security holders in the quarter ended July 3, 2005.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Stock Price and Cash Dividends: LaBarge, Inc.'s Common Stock is listed on the American Stock Exchange, under the trading symbol of LB. As of August 31, 2005, there were approximately 2,360 holders of record of LaBarge, Inc.'s Common Stock. The following table indicates the quarterly high and low closing prices for the stock for the fiscal years 2005 and 2004, as reported by the American Stock Exchange.

Certain events occurring during the above reporting periods involving acquisitions, divestitures, joint ventures, and deferred tax valuation adjustments affect the comparability of financial data presented on a year-to-year basis. No cash dividends have been paid during the aforementioned periods.

The Company's interest in the Network Technologies Group was reported as a discontinued operation (see Note 2). Accordingly, the operating results of Network Technologies Group for fiscal years 2001, 2002, 2003 and 2004 are reported as discontinued operations.

The Company acquired substantially all of the assets of Pinnacle in fiscal year 2004. See Note 2 to the financial statements.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Reference is made to the information contained in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 45 through 50 herewith.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Risk

No information has been included hereunder because the Company's foreign sales in each of fiscal 2005, 2004 and 2003 were less than 10% of total Company revenue. All foreign contracts are paid in U.S. dollars and the Company is not significantly exposed to foreign currency translation. However, if the significance of foreign sales grows, management will continue to monitor whether it would be appropriate to use foreign currency risk management instruments to mitigate any exposures.

Interest Rate Risk

As of July 3, 2005, the Company had \$27.9 million in total debt. Industrial revenue bonds totaling \$519,000 have a fixed rate and are not subject to interest rate risk. The interest rate on the remaining \$27.4 million is subject to fluctuation. The additional interest cost to the Company if interest rates increased 1% would be approximately \$96,000 for one year. On April 15, 2004, the Company entered into an Interest Rate Cap Agreement with a bank. This Agreement caps the Company's exposure to 90-day LIBOR at 4% for a period of three years on a notional amount beginning at \$24.0 million and amortizing on a schedule that matches amortization of the \$25.0 million term loan dated February 17, 2004.

ITEM 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Reference is made to the "Index to Consolidated Financial Statements and Schedules" contained on page ____ filed herewith.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and President, and the Company's Vice President, Chief Financial Officer and Secretary, have conducted an evaluation of the design and effectiveness the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report.

The Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls, procedures and systems are functioning effectively to provide reasonable assurance that the Company can meet its disclosure obligations. The Company's disclosure controls system is based upon a chain of financial and general business reporting lines that converge in the headquarters of the Company in St. Louis, Missouri. The reporting process is designed to ensure that information required to be disclosed by the Company in the reports that it files with or submits to the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

During our fourth fiscal quarter, there were no significant changes in internal controls over financial reporting identified in connection with the evaluation that have materially affected or that are reasonably likely to materially affect these controls.

Refer to Management's Report on Internal Control Over Financial Reporting and the Reports of Independent Registered Public Accounting Firm on page 19.

ITEM 9B. OTHER INFORMATION

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in the Securities Exchange Act Rule 13a-15(f)). Under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we assessed the effectiveness of our internal control over financial reporting as of July 3, 2005. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the report entitled "Internal Control-Integrated Framework." Although there are inherent limitations in the effectiveness of any system of internal control over the financial reporting, our management has concluded that, as of July 3, 2005, our internal control over financial reporting is effective based on its evaluation. Our independent registered public accounting firm, KPMG LLP, has issued an audit report on our assessment of our internal control over financial reporting, which is included herein.

REPORTS OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of LaBarge, Inc.:

We have audited the accompanying consolidated balance sheets of LaBarge, Inc. and subsidiaries as of July 3, 2005 and June 27, 2004, and related consolidated statements of income, stockholders' equity, and cash flows for each of the years in the three-year period ended July 3, 2005. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentations. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of LaBarge, Inc. and subsidiaries as of July 3, 2005 and June 27, 2004, and the results of their operations and their cash flows for each of the years in the three-year period ended July 3, 2005, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of LaBarge, Inc.'s internal control over financial reporting as of July 3, 2005, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the (COSO), and our report dated September 7, 2005, expressed an unqualified opinion on management's assessment of, and the effective operation of, internal control over financial reporting.

To the Board of Directors and Stockholders of LaBarge, Inc.:

We have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting on the previous page that LaBarge, Inc. maintained effective internal control over the financial reporting as of July 3, 2005, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). LaBarge, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards required that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and the receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements..

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that LaBarge, Inc. maintained effective internal control over financial reporting as of July 3, 2005, is fairly stated, in all material respects, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, LaBarge, Inc. maintained, in all material respects, effective internal control over financial reporting as of July 3, 2005, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of LaBarge, Inc and subsidiaries as of July 3, 2005 and June 27, 2004, and the related consolidated statements of income, stockholders' equity and cash flows for each of the years in the three-year period ended July 3, 2005, and our report dated September 7, 2005, expressed an unqualified opinion on those consolidated financial statements.

LaBarge, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

The Company designs, engineers and produces sophisticated electronic systems and devices and complex interconnect systems on a contract basis for its customers in diverse markets.

Our contract manufacturing capabilities are marketed to companies desiring an engineering and manufacturing partner capable of developing and providing high-reliability electronic equipment, including products capable of performing in harsh environmental conditions, such as high and low temperature, severe shock and vibration. The Company serves customers in the defense, aerospace, natural resources, industrial, and other commercial markets. The group's engineering and manufacturing facilities are located in Arkansas, Missouri, Oklahoma, Texas and Pennsylvania.

On February 17, 2004, the Company acquired substantially all the assets of Pinnacle Electronics LLC, a complimentary electronics manufacturing services business, for approximately \$43.1 million.

On August 7, 2003, LaBarge, Inc. sold the non-railroad industry portion of its ScadaNET Network™ remote equipment monitoring businesses for \$225,000. See Note 2, "Acquisitions, Discontinued Operations and Investments."

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of LaBarge, Inc. and its wholly-owned subsidiaries. Investments in less than 20%-owned companies are accounted for at cost.

ACCOUNTING PERIOD

The Company uses a fiscal year ending the Sunday closest to June 30. Fiscal year 2005 consisted of 53 weeks compared with 52 weeks in fiscal years 2004 and 2003.

RECLASSIFICATIONS OF PRIOR YEAR AMOUNTS

Certain prior period amounts have been reclassified to conform to the current year's presentation.

SEGMENT REPORTING POLICY

The Company reports its operations as one segment.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

REVENUE RECOGNITION AND COST OF SALES

Revenue is generally recognized on the percentage-of-completion method based upon the units delivered. The percentage-of-completion method gives effect to the most recent contract value and estimates of cost at completion. When appropriate, contract prices are adjusted for increased scope and other changes ordered or caused by the customer. When percentage-of-completion is not appropriate, the Company recognizes revenue when title transfers which is usually upon shipment. On a very limited number of contracts, at a customers' request, the Company will recognize revenue when ownership passes. As of July 3, 2005 and June 27, 2004, the Company has recognized revenue under these arrangements of \$2.0 million and \$0.5 million, respectively. The Company recognizes revenue for storage and other related services when the services are provided.

Management's estimates of material, labor and overhead costs on long-term contracts are critical to the Company. Since some contracts extend over a long period of time, revisions in cost during the progress of work have the effect of adjusting current period earnings applicable to performance in prior periods. When the current contract cost estimate indicates a loss, provision is made for the total anticipated loss in the period the loss becomes evident.

ACCOUNTS RECEIVABLE

Accounts receivable have been reduced by an allowance for amounts that management estimates are uncollectable. This estimated allowance is based primarily on management's evaluation of the financial condition of the Company's customers.

The Company does not believe that concentration of accounts receivable is a significant credit risk due to the financial strength of the account debtors and collection experience.

INVENTORIES

Inventories are valued at the lower of cost or market. If actual demand or market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

The Company procures materials and manufactures products to customer requirements. Raw materials are stated at the lower of cost or market as determined by the weighted average cost method.

Work in process consists of actual production costs, including factory overhead and tooling costs, reduced by costs attributable to units for which sales have been recognized. Such costs under contracts are determined by the average cost method based on the estimated average cost of all units expected to be produced under the contract. Inventories relating to long-term contracts are classified as current assets although a portion of these amounts is not expected to be realized within one year.

INCOME TAXES

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. The Company has considered future taxable income analyses and feasible tax planning strategies in assessing the need for the valuation allowance. Should the Company determine that it would not be able to recognize all or part of its net deferred tax assets in the future, an adjustment to the carrying value of the deferred tax assets would be charged to income in the period in which such determination is made.

GOODWILL AND INTANGIBLE ASSETS

The Company has adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 142 "Goodwill and Other Intangible Assets" and has reassessed the useful lives and residual values of all recorded intangible assets. Goodwill and other long-lived assets with indefinite useful lives are reviewed by management for impairment annually or whenever events or changes in circumstance indicate the carrying amount may not be recoverable. If indicators of impairment are present, the determination of the amount of impairment is based on the Company's judgment as to the future operating cash flows to be generated from these assets throughout their estimated useful lives.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company considered the carrying amounts of cash and cash equivalents, securities and other including, accounts receivable and accounts payable to approximate fair value because of the short maturity of these financial instruments.

The Company has considered amounts outstanding under the term loan, and the Industrial Revenue Bonds, and the Interest Rate Cap Agreement and determined that carrying amounts recorded on the financial statement are consistent with the estimated fair value as of July 3, 2005.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is carried at cost and includes additions and improvement which extend the remaining useful life of the assets. Depreciation is computed on the straight-line method.

CASH EQUIVALENTS

The Company considers cash equivalents to be temporary investments which are readily convertible to cash, such as certificates of deposit, commercial paper and treasury bills with original maturities of less than three months.

CASH ADVANCES

The Company receives cash advances from customers under certain contracts. Cash advances are usually liquidated over the period of product deliveries.

EMPLOYEE BENEFIT PLANS

The Company has a contributory savings plan covering certain employees. The Company expenses all plan costs as incurred.

The Company offers a non-qualified deferred compensation program to certain key employees whereby they may defer a portion of their annual compensation for payment upon retirement plus a guaranteed return. The program is unfunded; however, the Company purchases Company-owned life insurance contracts through which the Company will recover a portion of its cost upon the death of the employee.

The Company also offers an employee stock purchase plan that allows any eligible employee to purchase common stock at the end of each quarter at 15% below the market price as of the first or last day of the quarter, whichever is lower. The Company recognizes an expense for the 15% discount.

STOCK-BASED COMPENSATION

In December 2002, the Financial Accounting Standards Board ("FASB") issued SFAS No. 148 "Accounting for Stock-Based Compensation – Transition and Disclosure, an Amendment of FASB Statement No. 123," to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company previously adopted the disclosure-only provisions of SFAS No. 123, "Accounting for Stock-Based Compensation." Under APB No. 25, "Accounting for Stock Issued to Employees," no compensation expense is recognized for the Company's stock option plans. The following table illustrates the effect on net earnings and net earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

(dollars in thousands, except per-share amounts)

Diluted -- pro forma	0.63	0.42	0.14

The fair market value of stock options granted is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions for fiscal year 2005: risk-free interest rate of 3.8%; expected dividend yield of 0%; expected life of six years, and expected volatility of 66.5%.

The risk-free interest rate was 3.3% for fiscal years 2004 and 2003. The expected volatility was 49% and 48% for fiscal years 2004 and 2003, respectively, and the expected life of stock options for fiscal 2004 and fiscal 2003 was six years.

All options outstanding at July 3, 2005 were dilutive and included in computation of diluted earnings per share. Options to purchase 59,275 shares (at a per-share price of \$5.97 to \$7.24) and 270,000 shares (at a per-share price of \$3.03 to \$7.24) were outstanding during the twelve months ended June 27, 2004, and June 29, 2003, respectively, and were not included in the respective computations of diluted earnings per share because the options' exercise price was greater than the average market price of the common shares. These options expire in various periods through 2011.

NEW ACCOUNTING PRONOUNCEMENTS

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs." SFAS No. 151 requires that costs such as idle facility expense, freight handling costs and wasted material be recognized as current period charges, regardless of whether they are abnormal. SFAS No. 151 is effective for LaBarge for inventory costs incurred after July 4, 2005. Management does not believe adoption of this statement will have a material impact on the Company's financial statements.

During December 2004, the FASB issued SFAS No. 123R, "Share-Based Compensation" which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions under other Company stock plans. SFAS No. 123R is effective for the first fiscal year beginning after June 15, 2005. The Company will adopt this Standard in the first quarter of fiscal 2006. The Company has determined that the impact of the adoption of SFAS No. 123R will reduce fiscal year 2006 net earnings by approximately \$395,000.

2. ACQUISITIONS, DISCONTINUED OPERATIONS AND INVESTMENTS

ACQUISITIONS

On February 17, 2004, the Company acquired substantially all of the assets of Pinnacle Electronics LLC. The acquired assets supplement the Company's electronics manufacturing services ("EMS") business with a leased location in metropolitan Pittsburgh, Pennsylvania, adding substantial commercial/industrial sales to the Company's customer mix. Pinnacle's commercial/industrial market expertise, supported by a strong management team, supplements the Company's historic position in the government/defense marketplace.

The Pittsburgh operation designs, engineers and manufactures printed circuit card assemblies, cables and harnesses, full "box-build" assemblies and electronic/electro mechanical systems for customer applications in a variety of commercial/industrial markets.

The purchase price for the acquired assets was \$43.1 million, which includes a post closing working capital adjustment of approximately \$2.1 million, funded by senior bank debt and cash on hand. In addition, the Company assumed working capital liabilities of approximately \$3.7 million, primarily trade accounts payable, and incurred transaction costs of approximately \$0.3 million.

Under the purchase method of accounting, the initial purchase price is allocated to Pinnacle's net tangible and intangible assets and liabilities based upon their fair value as of the date of the acquisition. The purchase price allocation is as follows:

(dollars in thousands)

	At July 3, 2005
Current assets	\$ 14,791
Property and equipment	4,350
Intangible assets	3,800
Goodwill	24,089
Total assets acquired	47,030
Current liabilities	3,678
Long-term liabilities	4
Total liabilities assumed	3,682
Net assets acquired	\$ 43,348

The Company believes that substantially all of the goodwill will be deductible for tax purposes. Intangible assets consist of \$3.4 million of a "Customer List" asset which will be amortized over six years and \$0.4 million of "Employee Non-Compete Contracts" assets which will be amortized over three and one half years.

The following table represents LaBarge's pro forma consolidated results of operations as if the acquisition of Pinnacle had occurred at the beginning of each period presented. Such results have been prepared by adjusting the historical LaBarge results to include Pinnacle results of operations and incremental interest and other expenses related to acquisition debt. The pro forma results do not include any cost savings that may result from the combination of LaBarge and Pinnacle operations. The pro forma results may not necessarily reflect the consolidated operations that would have existed had the acquisition been completed at the beginning of such periods nor are they necessarily indicative of future results.

DISCONTINUED OPERATIONS

On August 7, 2003, the Company sold the remainder of its ScadaNET Network™ business for \$225,000 cash. The Company recorded a \$20,000 pretax gain on the transaction. This sale completes the Company's exit from the ScadaNET Network™ business. On November 1, 2002, LaBarge, Inc. sold the railroad industry portion of its ScadaNET Network™ remote equipment monitoring business to GE Transportation Systems Global Signaling, LLC ("GETS Global Signaling"), Grain Valley, Missouri. The ScadaNET Network remote equipment monitoring business had been operated as the Network Technologies Group.

The GETS Global Signaling sale was valued at approximately \$6.8 million, including \$5.3 million in cash and GETS Global Signaling's assumption of approximately \$1.5 million in certain liabilities. The \$5.3 million of cash included \$795,000 held in an escrow account against any claims GETS Global Signaling has for breaches

of representations and warranties. Two-thirds of the escrow was released on July 3, 2005. The Company expects the remaining escrowed balance to be released in November 2005. The Company recognized a pretax gain of \$2.2 million and a book tax expense of \$(2.4 million), netting to a loss of \$212,000.

Restricted cash	---	265
Deferred financing costs, net	239	240
Other	149	212
	\$ 5,514	\$ 5,694

Restricted cash refers to cash in an escrow account which is related to the sale of the railroad industry portion of the Company's ScadaNET Network™ remote equipment monitoring businesses to GE Transportation Systems Global Signaling, LLC. See Note 2, "Discontinued Operations."

In December 1999, the Company received 640,008 shares and options to acquire 5.2 million shares of Norwood Abbey Ltd. in partial settlement of a note receivable. At that time, Norwood Abbey Ltd. was a newly formed Australian company. These shares and options were valued at \$100,000. Norwood Abbey was listed on the Australian Stock Exchange in August 2000. Options to acquire 2.4 million shares expired, unexercised, due to the market price. During the quarter ended December 28, 2003, the Company exercised options for 2.0 million shares at a per-share price of 1.00 Australian dollars, or \$0.70, totaling \$1.4 million. During the year ended June 27, 2004, 850,000 shares were sold, resulting in a pre-tax gain of \$225,000. The remaining 1.8 million shares are held as available-for-sale securities. In the fiscal year 2005, the Company evaluated the fair value of the investment and took a write-down for an other-than-temporary impairment. As a result, a pretax loss of \$415,000 was booked in other expenses for the fiscal year. On July 3, 2005, the remaining 1.8 million shares are reported at fair value of \$504,000.

At June 27, 2004, the shares were reported at fair value of \$1.2 million, with the unrealized after-tax gain of \$157,000, reported as accumulated other comprehensive income in stockholders' equity.

The Company entered into a senior loan agreement on February 17, 2004. See Note 10. The Company incurred \$264,000 of financing costs that have been deferred and will be amortized over a period beginning May 2004 and ending February 2009. At July 3, 2005, the unamortized amount was \$239,000.

10. SHORT- AND LONG-TERM OBLIGATIONS

Short-term borrowings, long-term debt and the current maturities of long-term debt consist of the following:
(dollars in thousands)

	July 3, 2005	June 27, 2004
Short-term borrowings:		
Revolving credit agreement:		
Balance at year-end	\$ 1,650	\$ 7,050
Interest rate at year-end	6.25%	4.20%
Average amount of short-term borrowings outstanding during period	\$ 7,922	\$ 2,150
Average interest rate for fiscal year	4.48%	3.73%
Maximum short-term borrowings at any month-end	\$ 11,650	\$ 7,050
Senior long-term debt:		
Senior lender:		
Term loan	\$ 20,000	\$ 24,000
Mortgage loan	5,738	5,995
Other	528	690
Total senior long-term debt	26,266	30,685
Less current maturities	4,661	4,415
Long-term debt, less current maturities	\$ 21,605	\$ 26,270

The average interest rate was computed by dividing the sum of daily interest costs by the sum of the daily borrowings for the respective periods.

Total cash payments for the interest in fiscal years 2005, 2004 and 2003 were \$1.6 million, \$0.6 million and \$0.8 million, respectively.

SENIOR LENDER:

The Company entered into a senior secured loan agreement with a group of banks on February 17, 2004. The following is a summary of the agreement:

- A revolving credit facility up to \$20.0 million, available for direct borrowings or letters of credit. The facility is based on a borrowing base formula equal to the sum of 85% of eligible receivables and 35% of eligible inventories. As of July 3, 2005, outstanding loans under the revolving credit facility were \$1.7 million. Letters of credit outstanding were \$1.4 million and \$16.9 million was available. This credit facility matures on February 17, 2009.
- A \$25.0 million term loan amortizing at a quarterly rate of \$1.0 million, beginning May 2004, increasing to \$1.25 million in May 2006 and increasing to \$1.5 million in May 2007. Final maturity is February 2009. As of July 3, 2005, the outstanding balance was \$20.0 million.
- On April 15, 2004, the Company entered into an Interest Rate Cap Agreement with a bank. This Agreement caps the Company's exposure to LIBOR at 4% for a period of three years on a notional amount beginning at \$24.0 million and amortizing on a schedule that matches amortization of the \$25.0 million term loan dated February 17, 2004.
- Interest on both loans is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended July 3, 2005, the average rate was approximately 4.82%. For the year ended July 3, 2005, the average rate was approximately 4.45%.

- Both loans are secured by substantially all the assets of the Company other than real estate.
- Covenants and performance criteria consist of Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in relation to debt, EBITDA in relation to fixed charges, and minimum net worth. The Company is in compliance with its borrowing agreement covenants as of July 3, 2005.

OTHER LONG-TERM DEBT:

Mortgage Loan:

The Company has a \$6.4 million term loan secured by the Company's headquarters building in St. Louis, Missouri. The loan repayment schedule is based on a 25-year amortization with a final balloon payment due in October 2009. The balance at July 3, 2005 was \$5.7 million. Interest is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended July 3, 2005, the average rate was approximately 3.8%. For the year ended July 3, 2005, the average rate was approximately 3.0%.

Industrial Revenue Bonds:

In July 1998, the Company acquired tax-exempt Industrial Revenue Bond financing in the amount of \$1.3 million. The debt is payable over 10 years with an interest rate of 5.28%. This funding was used to expand the Berryville, Arkansas, facility. The outstanding balance at July 3, 2005 was \$519,000.

The aggregate maturities of long-term obligations are as follows:

(dollars in thousands)

Fiscal Year		
2006	\$ 4,661
2007	5,668
2008	6,424
2009	4,798
2010	4,715
Total	\$ 26,266

11. RELATED PARTY TRANSACTIONS

During the quarter ended January 2, 2005, a shareholder, holding more than 10% of the Company's outstanding shares, sold shares of LaBarge Common Stock in transactions deemed to be short-swing sales. Under Section 16(b) of the Securities Exchange Act of 1934, the shareholder was required to disgorge to the Company the profits realized from the stock sale in the amount of approximately \$58,000. The Company accounted for the cash receipt as a contribution from a shareholder and reflected the proceeds as an increase to additional paid-in capital in its financial statements. Proceeds from this sale did not effect the Company's consolidated statement of income.

12. OPERATING LEASES

The Company operates certain of its manufacturing facilities in leased premises and with leased equipment under noncancellable operating lease agreements having an initial term of more than one year and expiring at various dates through 2020. The real property leases require the Company to pay maintenance, insurance and real estate taxes.

Rental expense under operating leases is as follows:
(dollars in thousands)

	Fiscal Year Ended		
	July 3, 2005	June 27, 2004	June 29, 2003
Initial term of more than one year	\$ 2,098	\$ 1,754	\$ 1,791
Short-term rentals	89	288	345
	\$ 2,187	\$ 2,042	\$ 2,136

At July 3, 2005, the future minimum lease payments under operating leases with initial noncancellable terms in excess of one year are as follows:
(dollars in thousands)

Fiscal Year		
2006	\$ 1,585
2007	936
2008	573
2009	437
2010	431
Thereafter	3,214

The \$3.2 million thereafter relates to obligations under long-term facility leases in Huntsville, Arkansas and Houston, Texas.

13. EMPLOYEE BENEFIT PLANS

The Company has a qualified contributory savings plan under Section 401(k) of the Internal Revenue Code for employees meeting certain service requirements. The plan allows eligible employees to contribute up to 60% of their compensation, with the Company matching 50% of the first \$25 per month and 25% of the excess on the first 8% of this contribution. During 2005, 2004 and 2003, Company matching contributions were \$428,000, \$365,000 and \$358,000, respectively.

At the discretion of the Board of Directors, the Company may also make contributions dependent on profits each year for the benefit of all eligible employees under the plan. There were no such contributions for 2005, 2004 and 2003.

The Company has a deferred compensation plan for selected employees who, due to Internal Revenue Service guidelines, cannot take full advantage of the contributory savings plan. This plan, which is not required to be funded, allows eligible employees to defer portions of their current compensation and the Company guarantees an interest rate of between prime and prime plus 2%. To support the deferred compensation plan, the Company may elect to purchase Company-owned life insurance. The increase in the cash value of the life insurance policies exceeded the premiums paid by \$73,000, \$78,000 and \$115,000 in fiscal years 2005, 2004 and 2003, respectively. The cash surrender value of the Company-owned life insurance related to deferred compensation is included in other assets along with other policies owned by the Company, and was \$1.3 million at July 3, 2005, compared with \$1.3 million, at June 27, 2004. The liability for the deferred compensation and interest thereon is in accrued employee compensation and was \$3.2 million at July 3, 2005 versus \$2.6 million at June 27, 2004.

The Company has an employee stock purchase plan that allows any eligible employee to purchase common stock at the end of each quarter at 15% below the market price as of the first or last day of the quarter, whichever is lower. In fiscal 2005, 27,469 shares were purchased in the amount of \$278,000, for which the Company recognized expense of approximately \$113,000. In fiscal 2004, 57,337 shares were purchased in the amount of \$261,000, of which the Company recognized expense of approximately \$75,000. In fiscal 2003,

87,640 shares were purchased in the amount of \$268,500, for which the Company recognized expense of approximately \$36,000.

14. OTHER INCOME, NET

The components of other income, net, are as follows:

(dollars in thousands)

	Fiscal Year Ended		
	July 3, 2005	June 27, 2004	June 29, 2003
Interest income	\$ 10	\$ 37	\$ 71
Property rental income	1,039	1,025	937
Property rental expense	(640)	(566)	(592)
Other, net	68	181	294
	\$ 477	\$ 677	\$ 710

In fiscal 1998, the Company purchased its headquarters building in St. Louis, Missouri, and leases a significant portion of the facilities to third parties. Rental income represents rent receipts from these third parties.

In fiscal 2005, Other, net includes a \$415,000 other than temporary impairment of the Company's investment in Norwood Abbey (see Note 9), offset by a \$385,000 gain on a lease termination fee and \$56,000 receipt of a death benefit under a life insurance benefit program. In fiscal 2004, Other, net includes income of \$225,000 relating to the sale of a portion of the Company's investment in Norwood Abbey. In fiscal 2003, Other, net includes income of \$436,000, representing a receipt of a death benefit under a split-dollar insurance benefit program.

15. INCOME TAXES

Total income tax expense (benefit) was allocated as follows:

(dollars in thousands)

	July 3, 2005	June 27, 2004	June 29, 2003
Current:			
U.S. Federal	\$ 4,889	\$ 3,618	\$ 1,391
State and Local	902	817	265
Total	\$ 5,791	\$ 4,435	\$ 1,656
Deferred:			
U.S. Federal	\$ 185	\$ 79	\$ 92
State and Local	19	18	9
Total	\$ 204	\$ 97	\$ 101
Discontinued operations:			
U.S. Federal	\$ ---	\$ (66)	\$ (434)
State and Local	---	(4)	(85)
Total	\$ ---	\$ (70)	\$ (519)

Income tax expense (benefit) from continuing operations differed from the amounts computed by applying the U.S. Federal income tax rate of 35% as a result of the following:

(dollars in thousands)

	July 3, 2005	June 27, 2004	June 29, 2003
Computed "expected" tax expense	\$ 5,903	\$ 3,908	\$ 1,726
Increase (reduction) in income taxes resulting from:			
Federal tax credit – current year	(81)	(72)	(76)
Tax exposure adjustment	(245)	---	---
State and local tax	599	551	163
Other	(181)	145	(56)
Total	\$ 5,995	\$ 4,532	\$ 1,757

The Company regularly reviews its potential tax liabilities for tax years subject to audit. Based on reviews during 2004, the Company determined that adjustments to tax expense were necessary. The net reduction of approximately \$245,000 is a tax exposure adjustment.

In October 2004, the American Jobs Creation Act of 2004 was signed into law. The new law phases out the EIE benefit, phases in a new deduction on U.S. manufacturing income, and allows the repatriation of undistributed foreign earnings at a reduced rate in 2005 subject to certain limitations. Due to the fact that the Company's fiscal and tax year began June 28, 2004, the new law does not impact the Company's fiscal year 2005 provision materially. The only impact on the Company's provision was a slight reduction in the EIE benefit earned in the last six months of the year. The Company has no foreign earnings to repatriate and the new manufacturing deductions do not become effective for the Company until fiscal year 2006.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities are presented below:

(dollars in thousands)

	July 3, 2005	June 27, 2004
Deferred tax assets:		
Inventories due to additional costs inventoried for tax purposes pursuant to the Tax Reform Act of 1986 and inventory reserves	\$ 653	\$ 444
Deferred compensation	1,300	1,043
Loss reserves on long-term contracts	248	---
Accrued vacation	361	235
Other than temporary impairment of asset - held for sale	160	---
Other	177	89
Total gross deferred tax assets	\$ 2,899	\$ 1,811
Deferred tax liabilities:		
Goodwill and intangibles, due to Pinnacle acquisition	\$ (652)	\$ (86)
Property, plant and equipment, principally due to differences in depreciation methods	(1,524)	(971)
Other	(81)	(3)
Total gross deferred tax liabilities	\$ (2,257)	\$ (1,060)
Net deferred tax assets	\$ 642	\$ 751

A valuation allowance is provided, if necessary, to reduce the deferred tax assets to a level, which, more likely

than not, will be realized. The net deferred tax assets reflect management's belief that it is more likely than not that the results of future operation will generate sufficient taxable income to realize the deferred tax assets.

Total cash payments for federal and state income taxes were \$5.9 million for fiscal 2005, \$3.4 million for fiscal 2004 and \$1.8 million for fiscal 2003.

16. EARNINGS PER COMMON SHARE

Basic and diluted earnings (loss) per share are computed as follows:

(amounts in thousands, except earnings per-share amounts)

	July 3, 2005	June 27, 2004	June 29, 2003
Net earnings from continuing operations	\$ 10,870	\$ 6,971	\$ 3,319
Net loss from discontinued operations	---	(114)	(859)
Gain (loss) on disposal, net of tax	---	12	(212)
Net earnings	\$ 10,870	\$ 6,869	\$ 2,248

Basic net earnings per share:

Net earnings from continuing operations	\$ 0.72	\$ 0.47	\$ 0.22
Net loss from discontinued operations	---	(0.01)	(0.06)
Gain (loss) on disposal, net of tax	---	---	(0.01)
Basic net earnings	\$ 0.72	\$ 0.46	\$ 0.15

Diluted earnings per share:

Net earnings from continuing operations	\$ 0.68	\$ 0.45	\$ 0.22
Net loss from discontinued operations	---	(0.01)	(0.06)
Gain (loss) on disposal, net of tax	---	---	(0.01)
Diluted net earnings per share	\$ 0.68	\$ 0.44	\$ 0.15

Basic earnings per share are calculated using the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated using the weighted average number of common shares outstanding during the period plus shares issuable upon the assumed exercise of dilutive common share options by using the treasury stock method.

(in thousands)

	July 3, 2005	June 27, 2004	June 29, 2003
Average common shares outstanding -- basic	15,013	14,981	14,977
Dilutive options	870	571	124
Adjusted average common shares outstanding -- diluted	15,883	15,552	15,101

17. STOCK OPTION PLANS

The Company has three stock option plans for key management personnel. Under the 1993 Incentive Stock Option Plan, the Company was authorized to grant options for up to 300,000 shares of common stock. The 1995 Incentive Stock Option Plan authorized 400,000 shares to be granted. The 1999 Non-Qualified Stock Option Plan authorized 1,520,000 shares to be granted.

The following table summarizes information about stock options outstanding:

Range of Exercise Prices	Outstanding Options			Exercisable Options	
	Number Outstanding at July 3, 2005	Weighted Average Remaining Contractual Life (In Years)	Weighted Average Exercise Price	Number Exercisable at July 3, 2005	Weighted Average Exercise Price
\$2.50 – \$3.76	1,469,636	5.7	\$ 2.83	1,006,188	\$ 2.61
\$3.77 – \$5.96	47,263	1.8	5.62	47,263	5.62

\$2.50 – \$8.54	1,880,576	6.0	\$ 3.96	1,100,226	2.92

All stock options are granted at prices not less than fair market value of the common stock at the grant date. The Company has adopted the disclosure-only provision of SFAS No. 123, “Accounting for Stock-Based Compensation.” Accordingly, no compensation expense has been recognized for the stock option plans.

18. LITIGATION AND CONTINGENCIES

In March 2004, the Company received notice from the Library of Congress (“LOC”) that seeks financial restitution in the amount of \$1.8 million stemming from the Company’s production of audiocassette machines during the period 1992 through 1996. The LOC claims the machines are defective. The Company advised the LOC that the machines were tested and certified by an independent laboratory, were manufactured to the requirements of the contract and the alleged failure could not be recreated under any usual and typical operating conditions. These issues are now in litigation in the Court of Federal Claims. The Company intends to vigorously defend its position. Discovery period is to commence in September 2005 and trial will likely be scheduled for 2007.

After consultation with legal counsel, it is management's belief that the LOC claim against the Company will not prevail.

These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions.

Actual results may differ from projections or estimates due to a variety of important factors, including the following:

- *The Company's dependence on a few large customers;*
- *The Company's dependence on government contracts, which are subject to cancellation;*
- *The Company's ability to control costs, especially on fixed-price contracts;*
- *The size and time of new contract awards to replace completed or expired contracts;*
- *Cutbacks in defense spending by the U.S. Government;*
- *Dependence of the Company on U.S. economic conditions and economic conditions in the markets the Company serves;*
- *The Company's ability to integrate recently acquired businesses;*
- *Availability of and increases in the cost of raw materials, labor and other resources;*
- *Increased competition in the Company's markets;*
- *The Company's ability to manage operating expenses;*
- *The outcome of litigation to which the Company is or may become a party; and*
- *The availability, amount, type and cost of financing for the Company, any change to that financing, and an increase in the level of interest rates.*

Given these uncertainties, undue reliance should not be placed on such forward-looking statements. Unless otherwise required by law, the Company disclaims an obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking statements contained herein to reflect future events or developments.

OVERVIEW

LaBarge, Inc. ("LaBarge or the "Company") is a Delaware corporation.

The Company's electronics manufacturing services ("EMS") business has been its principal business since 1985. The Company designs, engineers and produces sophisticated electronic systems and devices, and complex interconnect systems on a contract basis for its customers. The Company markets its services to companies in technology-driven industries desiring an engineering and manufacturing partner capable of developing and providing high-reliability electronic equipment, including products capable of performing in harsh environmental conditions, such as high and low temperature, and severe shock and vibration. Customers are served in a variety of markets with significant revenues from customers in the defense, government systems, aerospace, natural resources, industrial, and other commercial markets. Engineering and manufacturing facilities are located in Arkansas, Missouri, Oklahoma, Texas and Pennsylvania. During fiscal years 2003 and 2004, the Company exited its ScadaNET Network™ businesses.

On February 17, 2004, the Company acquired substantially all of the assets of Pinnacle Electronics LLC. The acquired assets supplement the Company's electronics manufacturing services business with a leased location in metropolitan Pittsburgh, Pennsylvania, adding substantial commercial/industrial sales to the Company's

customer mix. Pinnacle's commercial/industrial market expertise, supported by a strong management team, supplements the Company's historic position in the government/defense marketplace.

Pinnacle understands the unique characteristics of the commercial/industrial EMS market and has developed competencies and inventory management practices to maximize productivity and profitability.

The Pittsburgh operation designs, engineers and manufactures printed circuit card assemblies, cables and harnesses, full "box-build" assemblies and electronic/electro mechanical systems for customers in a variety of commercial/industrial markets. The Company believes there will be continued growth in these markets as the trend to outsource non-core-competency manufacturing continues.

The purchase price for the acquired assets was \$43.1 million, which includes a post closing working capital adjustment of approximately \$2.1 million, funded by senior bank debt and cash on hand. In addition, the Company assumed working capital liabilities of approximately \$3.7 million, primarily trade accounts payable, and incurred estimated transaction costs of \$0.3 million. The purchase price allocation includes \$3.4 million of amortizable intangibles.

RESULTS OF OPERATIONS – FISCAL 2005 – 2004 – 2003

Net Sales

(dollars in thousands)

	Change 2005 vs. 2004	Fiscal Year Ended		
		2005	2004	2003
Net sales	39%	\$ 182,294	\$ 131,510	\$ 102,901

The primary contributors to the increase in sales in fiscal year 2005 were: (i) a full year of the results from the Pittsburgh operation, which generated \$53.0 million in sales versus \$17.6 million in 2004; and, (ii) shipments to defense customers which generated sales of \$81.2 million versus \$62.6 million in 2004 and \$50.1 million in 2003. Fiscal year 2005 results included 53 weeks of sales compared with 52 weeks in fiscal years 2004 and 2003. This contributed approximately \$3.4 million in additional sales. During the current year, LaBarge provided cables and electronic assemblies for a variety of defense applications including aircraft, radar systems and shipboard programs. In addition, shipments of capital equipment to natural resources customers including downhole tools and industrial mining equipment represented \$35.1 million of sales versus \$18.6 million in 2004 and \$16.9 million in 2003. Sales to government systems customers, primarily postal automation equipment and airport security equipment, declined in fiscal 2005 to \$7.6 million from \$13.4 million in 2004 and \$17.4 million in 2003.

Sales to the Company's 10 largest customers represented 72% of total revenue in fiscal 2005 versus 73% in fiscal 2004 and 73% in fiscal 2003. The Company's top three customers for fiscal 2005 and the portion of total sales they represented were as follows: Owens-Illinois, Inc., 11%; Northrop Grumman Corporation, 11%; and Schlumberger Ltd., 10%.

The backlog for the Company at July 3, 2005 was \$164.9 million, compared with \$156.9 million at June 27, 2004, an increase of 5%. The growth in backlog is the result of a sales and marketing effort that focuses on matching the Company's core competencies and the application of those competencies to the outsourcing needs of targeted large customers in a variety of industries. Approximately \$32.4 million of the backlog at fiscal 2005 year end is scheduled to ship beyond the next 12 months pursuant to the shipment schedules contained in those contracts. This compares with \$41.0 million at fiscal year end 2004. Approximately one third of consolidated sales is booked and shipped within the same fiscal year. The balance of the year's sales is shipped from the prior year's ending backlog.

Continued strength in the defense, natural resource and industrial markets, plus the Company's record backlog at July 3, 2005, contribute to the Company's expectation for higher sales in fiscal 2006.

Gross Profit
(dollars in thousands)

	Change 2005 vs. 2004	Fiscal Year Ended		
		2005	2004	2003
Gross profit	\$10,742	\$ 41,114	\$ 30,372	\$ 20,848
Gross margin	(0.5)%	22.6%	23.1%	20.3%

The gross profit margin for fiscal 2005 showed a slight decline from 2004, but remains within our recent historical range. The Company bids each new contract at a unique margin determined by its estimate of expected costs and competitive factors. As a result, the Company expects that margins will fluctuate. The Company's total gross margin generally runs in a range of approximately 20-23%. It is our expectation that range will continue in the near future. The Company defines gross profit as net sales less cost of sales.

Selling and Administrative Expense
(dollars in thousands)

	Change 2005 vs. 2004	Fiscal Year Ended		
		2005	2004	2003
Selling and administrative expenses	\$4,151	\$ 22,979	\$ 18,828	\$ 15,662
Percent of sales	(1.7)%	12.6%	14.3%	15.2%

Selling and administrative expense increased in fiscal 2005 primarily as a result of the inclusion of the Pittsburgh operation for a full year (\$2.0 million), higher professional fees due to Sarbanes-Oxley compliance, (\$0.5 million), higher compensation costs due to higher headcount and wage inflation (\$1.0 million), and higher accrued compensation costs due to improved performance in fiscal year 2005 (\$0.3 million). As a percent of sales, selling and administrative expenses declined due to leverage on certain fixed expenses.

Fiscal year 2004 selling and administrative expense increased over fiscal year 2003 primarily due to the addition of the Pittsburgh acquisition which accounted for \$1.0 million and the \$1.5 million in higher accrued compensation costs due to improved performance in fiscal 2004.

Interest Expense
(dollars in thousands)

	Change 2004 vs. 2003	Fiscal Year Ended		
		2005	2004	2003
Interest expense	\$1,029	\$ 1,747	\$ 718	\$ 820

Interest expense increased in fiscal 2005 from prior years due to higher average debt levels, resulting from the February 2004 acquisition of Pinnacle Electronics.

Interest expense decreased in fiscal 2004 from prior year due to lower average debt levels. Fiscal year 2004 was significantly impacted by the repayment of \$5.6 million 7.5% subordinated notes during fiscal 2003 and the borrowing of approximately \$30 million to fund the acquisition of Pinnacle in February 2004.

Pretax Earnings from Continuing Operations
(dollars in thousands)

	Change 2005 vs. 2004	Fiscal Year Ended		
		2005	2004	2003
Pretax earnings	\$5,362	\$ 16,865	\$ 11,503	\$ 5,076

Comparing fiscal 2005 with fiscal 2004, the 47% increase in pretax earnings from continuing operations is

attributable to a \$10.7 million increase in gross profit, on a 39% increase in net sales, offset by increased selling and administrative expenses and interest of \$4.2 million and \$1.0 million, respectively.

Comparing fiscal 2004 with fiscal 2003, the more than doubling of pretax earnings from continuing operations is attributable to: i) a \$9.5 million increase in gross profit on a 27.8% increase in net sales, and ii) a \$100,000 decline in interest expense, offset by iii) a \$3.1 million increase in selling and administrative expenses.

Tax Expense from Continuing Operations

(dollars in thousands)

	Change 2005 vs. 2004	Fiscal Year Ended		
		2005	2004	2003
Tax expense from continuing operations	\$1,463	\$ 5,995	\$ 4,532	\$ 1,757

The effective income tax rate for fiscal 2005 was 36%, compared with 39% and 35% in fiscal years 2004 and 2003, respectively. The Pittsburgh operation had the effect of raising our effective tax rates in fiscal 2005 and 2004 due to the 10% maximum statutory rates in Pennsylvania. In addition, lower rates in fiscal 2003 were the result of receipt of \$436,000 of non-taxable death benefit under a split-dollar insurance benefit program.

Part of the decrease in the tax rate in fiscal year 2005 reflects the recognition of certain research and experimentation tax credits (\$245,000) previously reserved.

Discontinued Operations, Net of Tax

(dollars in thousands)

	Fiscal Year Ended		
	2005	2004	2003
Loss from discontinued operations, (less applicable income tax benefit of \$0, \$70 and \$519, respectively)	\$ ---	\$ (114)	\$ (859)
Income on disposal of discontinued operations of \$0, \$20 and \$2,222 (less applicable income tax expense of \$0, \$8 and \$2,434)	\$ ---	\$ 12	\$ (212)

Discontinued operations arose from the sale of the non-railroad ScadaNET Network™ remote equipment monitoring business in August 2003 and the sale of the railroad industry portion of the ScadaNET Network businesses in November 2002. See Note 2, “Discontinued Operations.”

Net Earnings and Earnings Per Share

(dollars in thousands, except per-share data)

	Fiscal Year Ended		
	2005	2004	2003
Net earnings	\$ 10,870	\$ 6,869	\$ 2,248
Basic net earnings per share:			
Net earnings from continuing operations	0.72	0.47	0.22
Loss from discontinued operations	---	(0.01)	(0.07)
Basic net earnings	\$ 0.72	\$ 0.46	\$ 0.15
Diluted earnings per share:			
Net earnings from continuing operations	\$ 0.68	\$ 0.45	\$ 0.22
Gain (loss) from discontinued operations	---	(0.01)	(0.07)
Diluted net earnings	\$ 0.68	\$ 0.44	\$ 0.15

Fiscal year 2005 included 53 weeks of operations compared with 52 weeks in fiscal years 2004 and 2003. This contributed approximately \$0.02 and \$0.01 to basic and diluted earnings per share, respectively.

FINANCIAL CONDITION AND LIQUIDITY

The following shows LaBarge's equity and total debt positions:

Stockholders' Equity and Debt

(dollars in thousands)

	Fiscal Year Ended	
	2004	2004
Stockholders' equity	\$ 53,830	\$ 42,584
Debt	27,916	37,735

The Company's continuing operations provided \$13.5 million of cash in fiscal 2005 compared with \$13.0 million in fiscal 2004. Net changes in advance payments from customers contributed \$1.3 million and \$7.2 million to cash flow from continuing operations in fiscal 2005 and 2004, respectively. Days sales outstanding declined in fiscal 2005 to 50 days from 51 days in 2004. Inventory turned 3.2 times in fiscal 2005 versus 3.2 times in fiscal 2004. The Company expects modest improvements in both these measures to increase cash flow from operations in the coming fiscal year.

Investing activities, primarily capital expenditures, used \$4.1 million in fiscal 2005. Currently, our total debt-to-equity ratio is .53 to 1 versus .89 to 1 at the end of fiscal 2004.

Overall, management believes our availability of funds going forward from cash generated from operations and available bank credit facilities should be sufficient to support the planned operations and capital expenditures of the Company's business for the next two fiscal years.

The following shows LaBarge's contractual obligations as of July 3, 2005:

(dollars in thousands)

Contractual Obligations	Payment Due by Period				
	Total	Less than 1 year	1 – 3 years	3 – 5 years	More than 5 years
Long-term debt	\$ 26,266	\$ 4,661	\$ 12,092	\$ 9,514	\$ ---
Operating lease obligations	7,176	1,585	1,509	868	3,214

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgment of certain amounts included in the financial statements. The Company believes there is a likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. Application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Company's senior management discusses the accounting policies described below with the audit committee of the Company's Board of Directors on a periodic basis.

The following discussion of critical accounting policies is intended to bring to the attention of readers those accounting policies that we believe are critical to our consolidated financial statements and other financial disclosures. It is not intended to be a comprehensive list of all of our significant accounting policies that are more fully described in Note 1 of the Notes to the Consolidated Financial Statements included in our 2004 Annual Report on Form 10-K.

Revenue Recognition and Cost of Sales

Revenue is generally recognized on the percentage-of-completion method based upon the units delivered. The percentage-of-completion method gives effect to the most recent contract value and estimates of cost at completion. The percentage-of-completion method gives effect to the most recent contract value and estimates of cost at completion. When appropriate, contract prices are adjusted for increased scope and other changes ordered or caused by the customer. When percentage-of-completion is not appropriate, the Company recognizes revenue when title transfers which is usually upon shipment. On a very limited number of contracts, at a customers' request, the Company will recognize revenue when ownership passes. As of July 3, 2005 and June 27, 2004, the Company has recognized revenue under these arrangements of \$2.0 million and \$0.5 million, respectively. The Company recognizes revenue for storage and other related services when the services are provided.

Management's estimates of material, labor and overhead costs on long-term contracts are critical to the Company. Since some contracts extend over a long period of time, revisions in cost during the progress of work have the effect of adjusting current period earnings applicable to performance in prior periods. When the current contract cost estimate indicates a loss, provision is made for the total anticipated loss on the period the loss becomes evident.

Inventories

Inventories, which consist of materials, labor and manufacturing overhead, are carried at the lower of cost or market value. Inventory that has been held beyond specific time limits is automatically reserved, in addition, management regularly reviews inventory for obsolescence to determine whether any additional write-down is necessary. Various factors are considered in making this determination, including expected program life, recent sales history, predicted trends, and market conditions. If actual demand or market conditions are less favorable than those projected by management additional inventory write-downs may be required. For the fiscal years ended July 3, 2005, June 27, 2004 and June 29, 2003, expense for obsolete or slow moving inventory charged to income before income taxes was \$1.0 million, \$0.8 million and \$0.6 million, respectively.

Goodwill and Intangible Assets

The Company has adopted SFAS No. 142 "Goodwill and Other Intangible Assets." Under the provisions of this standard, intangible assets deemed to have indefinite lives and goodwill are not subject to amortization. All other intangible assets are amortized over their estimated useful lives. Goodwill and other intangible assets not subject to amortization are tested for impairment annually or more frequently if events or changes in circumstances

indicate that the asset might be impaired. This testing requires comparison of carrying values to fair values, and when appropriate, the carrying value of impaired assets is reduced to fair value. During the fourth quarter of 2005, the Company completed its annual impairment test and determined that estimates of fair value are reasonable. Different assumptions regarding such factors as sales levels and price changes, labor and material cost changes, interest rates and productivity could affect such valuations.

New Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs." SFAS No. 151 requires that costs such as idle facility expense, freight handling costs and wasted material be recognized as current period charges, regardless of whether they are abnormal. SFAS No. 151 is effective for LaBarge for inventory costs incurred after July 4, 2005. Management does not believe adoption of this statement will have a material impact on the Company's financial statements.

During December 2004, the FASB issued SFAS No. 123R, "Share-Based Compensation" which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions under other Company stock plans. SFAS No. 123R is effective for the first fiscal year beginning after June 15, 2005. The Company will adopt this Standard in the first quarter of fiscal 2006. The Company has determined that the impact of the adoption of SFAS No. 123R will reduce fiscal year 2006 net earnings by approximately \$395,000.
