FOR IMMEDIATE RELEASE

LaBARGE, INC. REPORTS FINANCIAL RESULTS FOR FISCAL 2006 SECOND QUARTER

Second-Quarter Results are Consistent with the Company's Guidance; Backlog Reaches Record High

ST. LOUIS, January 26, 2006 LaBarge, Inc. (AMEX: LB) today reported its financial results for the fiscal 2006 second quarter and six months ended January 1, 2006.

Consistent with the Company's guidance, fiscal 2006 second-quarter sales and earnings were up substantially from first-quarter levels and comparable to fiscal 2005 second-quarter results. Specifically, fiscal 2006 second-quarter net sales were \$48,147,000, versus \$39,639,000 in the first quarter and \$48,718,000 in the fiscal 2005 second quarter. Net earnings were \$2,663,000, or \$.17 per diluted share, in the fiscal 2006 second quarter, compared with \$2,031,000, or \$.13 per diluted share, in the first quarter and \$2,721,000, or \$.17 per diluted share, in the fiscal 2005 second quarter.

For the six months ended January 1, 2006, net sales were \$87,786,000, compared with \$92,352,000 in the first half of fiscal 2005. Fiscal 2006 first-half net earnings were \$4,693,000, or \$.29 per diluted share, compared with \$5,024,000, or \$.32 per diluted share, in the fiscal 2005 first half.

The Company began expensing stock options in accordance with the Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment" in fiscal 2006. The impact was \$.01 per diluted share in the second fiscal quarter and \$.02 per diluted share in the first half of fiscal 2006.

Craig LaBarge, chief executive officer and president, commented, "As expected, sales and earnings recovered in the second quarter as shipments rebounded from earlier customer delays. This recovery culminated with second-quarter results improving substantially from first-quarter levels. Additionally, our second-quarter sales and earnings were comparable to last year's strong second-quarter results, which were augmented by several customer requests to accelerate shipments."

Gross margin in the second quarter was 21.7 percent in fiscal 2006, versus 21.6 percent in fiscal 2005; both are within the Company's typical range of 20.0 percent to 23.0 percent. Selling and administrative expense rose as a percentage of sales to 12.1 percent in the fiscal 2006 second quarter, versus 11.9 percent in the comparable period a year earlier. Nevertheless, in actual dollars, fiscal 2006 second-quarter selling and administrative expense was essentially equal to the fiscal 2005 second-quarter level. Interest expense was \$449,000 in the fiscal 2006 second quarter, versus \$405,000 one year earlier, reflecting higher interest rates.

Total debt increased on higher short-term borrowings to \$35,432,000 at January 1, 2006, compared with \$28,970,000 at October 2, 2005, and \$27,916,000 at July 3, 2005. Stockholders' equity was \$59,698,000 at January 1, 2006, versus \$56,600,000 at October 2, 2005 and \$53,830,000 at July 3, 2005.

"Bookings of new and additional business were strong during the second quarter, particularly in the government systems and natural resources market sectors," said Mr. LaBarge. "Backlog of unshipped orders at the end of the second quarter reached a record high of \$179,008,000, up 23 percent from the second quarter of fiscal 2005 and up 9 percent from last fiscal year-end.

"The largest contributor to fiscal 2006 second-quarter revenues was shipments on a variety of defense programs, which accounted for 41 percent of net sales, compared with 49 percent in the fiscal 2005 second quarter.

"Revenues from the natural resources market sector represented 25 percent of fiscal 2006 second-quarter sales versus 18 percent in the year-ago period. Actual revenue dollars from this sector were up 36 percent versus last year's second-quarter revenues, the result of significant increases in shipments to both oil-and-gas and mining customers in the current-year period.

"Shipments to industrial customers were 15 percent of second-quarter revenues in fiscal 2006, compared with 18 percent in the comparable period in 2005. The decline during the current year's second quarter reflects customers' lower capital equipment purchases related to the impact of higher energy costs.

"Revenues from the government systems market sector represented 9 percent of fiscal 2006 second-quarter sales versus 4 percent in the year-ago period. The increase is primarily attributable to increased shipments related to a postal automation program.

“The balance of second-quarter revenues was attributable to customers in other market sectors, including:

- Commercial aerospace – 5 percent in both the fiscal 2006 and 2005 second quarters, and
- Medical – 2 percent in both the fiscal 2006 and 2005 second quarters.”

Outlook and Commentary

Mr. LaBarge concluded, “Based on the strength of current backlog and the pipeline of new business opportunities, we anticipate a return to strong growth of sales and earnings in the third and fourth quarters of the fiscal year compared with both the same periods last year and sequentially. In addition, we continue to believe that we will achieve double-digit growth in fiscal 2006 full-year sales and earnings.”
