NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The accompanying statement of financial condition has been prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company has defined cash and cash equivalents as highly liquid investments with original maturities of less than ninety days at the time of purchase. The Company did not have any cash equivalents as of December 31, 2023.

Income Taxes

As a limited liability company, the Company is not subject to federal or state income taxes. As such, it is not a tax-paying entity for federal and state income tax purposes, and accordingly, the Company's statement of financial condition does not reflect any assets or liabilities for federal or state income taxes.

LINCOLN INVESTMENT PLANNING, LLC

Notes to Statement of Financial Condition

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income Taxes *(continued)*

U.S. GAAP requires the Company's management to evaluate uncertain tax positions taken by the Company. Accordingly, a tax benefit is recognized when it is more-likely-than-not to be sustained upon examination, based solely on its technical merits. The recognized benefit is measured as the largest amount of benefit, which is more-likely-than-not to be realized on ultimate settlement, based on a cumulative probability basis.

De-recognition of a previously recognized tax position occurs following the determination that the tax position no longer meets the more-likely-than-not threshold of being sustained. The Company does not have any tax positions for which a liability has been established or is otherwise unrecognized. The Company is subject to routine examination by taxing jurisdictions. The Company believes it is no longer subject to income tax examinations prior to 2020.

Property and equipment

Property and equipment include computer equipment and internally developed software and are amortized using the straight-line method over the estimated useful life of the assets. The Company assesses the recoverability of property and equipment whenever events or changes in circumstances indicate that it may not be able to recover the assets' carrying amount. The capitalization of costs of internally developed software begins when technological feasibility is established. The estimated useful life of property and equipment ranges from three to seven years.

Leases

The Company determines if an arrangement is a lease or contains a lease at inception. The Company has operating and finance leases for corporate offices and equipment with remaining lease terms of 2 months to 6 years, some of which include options to extend the lease for up to 10 years. For leases with renewal options, the lease term is extended to reflect renewal options the Company is reasonably certain to exercise. Operating and finance lease assets and liabilities are recognized based on the present value of the future lease payments over the lease term at the commencement date.

As most of the Company's leases do not provide an implicit rate, the Company estimates its incremental borrowing rate based on information available at the commencement date in determining the present value of future payments.

NOTE 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** *(continued)*

Provision for Doubtful Accounts

The Company provides for a provision for doubtful accounts for advances to and notes receivable from financial advisors and others based on experience and specifically identified risks. An allowance for losses is recorded when a determination is made that there is reasonable likelihood that the balance may not be recoverable. That determination is based on a variety of factors, including the status with the Company of the financial advisor and the ability of the financial advisor's earnings to cover his or her liability.

The method used for determining the provision for doubtful accounts is in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-13, which requires it to be based on estimated future losses, and is consistent with the method used in prior years. Allowance for doubtful accounts comprised of the following:

Doubtful accounts, beginning balance	\$ 337,518
Write-offs	(104,727)
Provision	112,970
Doubtful accounts, ending balance	<u><u>\$ 345,761</u></u>

Goodwill and Other Intangible Assets

Goodwill and advisor relationships are accounted for in accordance with the requirements of FASB Accounting Standards Codification (ASC) 350, *Intangibles—Goodwill and Other*. Goodwill and advisor relationships are tested for impairment on an annual basis and between annual tests if an event occurs or circumstances change, which would more-likely-than-not reduce its fair value below the carrying value.

The Company performed an annual impairment evaluation as of December 31, 2023 and noted there was no impairment to any of its goodwill or advisor relationships. Goodwill and advisor relationships are not amortized.

Customer lists are amortized between five and eight years. Covenants not to compete are amortized over the related contract term. Management routinely assesses if an event occurs or circumstances change indicating that the carrying value of its customer lists and covenants not to compete become non-recoverable. No such events or circumstances took place during the year.

NOTE 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** *(continued)*

Notes Receivable from Financial Advisors and Others

The Company's notes receivable balance primarily consists of notes receivable from financial advisors. These interest-bearing note agreements are given to financial advisors to assist them in growing their business. The repayment term of the note ranges from six months to 8 years.

Based on the nature of these notes receivable, the Company does not analyze this asset on a portfolio segment or class basis. Concerns regarding recoverability generally arise in the event that a financial advisor's securities registration is terminated by the Company. The Company determines the amount of the provision based on specific identification of material amounts at risk by financial advisors and maintains an allowance based on estimated future losses, pursuant to ASU 2016-13. The credit quality of the notes receivable and the adequacy of this provision is assessed on a monthly basis by evaluating all known factors, such as historical collection experience, the economic and competitive environment and changes in the creditworthiness and licensing registration status of the financial advisors. This methodology is consistent with that which was used in prior years.

The accrual of interest is discontinued for all notes classified as doubtful and non-performing. A note returns to accrual status when it is classified as performing. The note, at that time, recaptures the interest not accrued during the non-accrual period. Payments received for notes on non-accrual status are applied first to outstanding interest due on the notes and then to outstanding principal.

A note is considered impaired under applicable accounting guidance if it is classified as doubtful; that is, when based on current information, it is more likely than not that the Company will be unable to collect the scheduled amounts due according to the contractual terms of the note agreement. At December 31, 2023, there were two outstanding notes receivable that were categorized as non-performing.

Recently Issued Accounting Pronouncements

There are no recently issued accounting pronouncements that would materially impact the Company's statement of financial condition and related disclosures.

NOTE 3 **CASH SEGREGATED UNDER FEDERAL REGULATIONS**

Segregated cash of \$23,687,124 represents cash segregated in special reserve bank account for the exclusive benefit of customers pursuant to the Customer Protection Rule 15c3-3 under the U.S. Securities Exchange Act of 1934.

NOTE 4 RETIREMENT PLAN

The Company has a defined contribution profit-sharing and Section 401(k) salary deferral plan that covers employees who have attained the age of 18. Employees are eligible for the 401(k) salary deferral plan on the first day of the month following 30 days from date of hire. Employees are eligible for the profit-sharing and Section 401(k) component after completing 1,000 hours of service. The fair value of the acquisitions, after determination of the contingent consideration, was \$1,774,287, and included \$552,541 in cash paid to the seller and \$1,221,746 representing the fair value of the notes payable due to the seller. In August 2023, the Pennsylvania asset purchase was sold to a Pennsylvania financial advisor.

The Company allocated the total purchase price to customer lists and covenant not to compete intangible assets. The fair values assigned to identifiable intangible assets were determined primarily by using a market approach, as the Company has significant experience in purchasing, facilitating the purchasing of, and dealing with financial advisors who have purchased customer lists, both affiliated with the Company and with competitors.
