## Item 8.01. Other Events

McDonald's Corporation ("McDonald's" or the "Company") is filing this Current Report on Form 8-K in order to incorporate information it previously announced into the Company's Prospectus and Prospectus Supplement, each dated July 17, 2015, governing its medium-term notes program.

### Recent Developments

On November 10, 2015, the Company announced the following:

- Refranchising Target Increased

The Company expects to refranchise about 4,000 restaurants with franchised restaurants accounting for approximately 93% of global restaurants by the end of 2018. This increase will position the Company to meet its new longer-term goal to become 95% franchised. The majority of the refranchising will take place in the High Growth and Foundational Market segments.

- General and Administrative Expense Savings Target Raised

The Company expects to realize net annual general and administrative expense ("G&A") savings of about \$500 million, the vast majority of which is expected to be realized by the end of 2017. This target reflects a 20% reduction from the Company's G&A base at the beginning of 2015. These savings will be realized through the Company's refranchising efforts, streamlining across corporate, segment and market organizations, primarily in non-customer facing functions, and realizing greater efficiencies in the Company's Global Business Services platform. This target excludes the impact of foreign currency changes.

- Fourth Quarter Dividend Raised

McDonald's Board of Directors declared a quarterly cash dividend of \$0.89 per share of common stock, payable on December 15, 2015, to shareholders of record at the close of business on December 1, 2015. This dividend declaration represents a 5% increase over the Company's previous quarterly dividend and brings the fourth quarter dividend payout to more than \$800 million. McDonald's has raised its dividend each and every year since paying its first dividend in 1976. The new quarterly dividend of \$0.89 per share is equivalent to \$3.56 annually.

- Increased Return to Shareholders

The Company plans to optimize its capital structure and increase its cash return to shareholders target to about \$30 billion for the three-year period ending 2016. The vast majority of the \$10 billion increase over the previous target is expected to be funded by issuing additional debt.

- No Real Estate Investment Trust

The Company announced that it would not pursue a real estate investment trust ("REIT") spin-off for its real estate holdings. The decision followed a close review of the REIT structure, given its potential economic benefits and current market trading multiples, and considered the impact on all stakeholders. The Company concluded that any potential value creation from a REIT was out-weighed by the significant financial and operational risks to the Company's business.
