Item 8.01. Other Events.

In September 2018, McDonald's Corporation (the "Company") announced several organizational changes to its global business structure as a result of the Company's continued evolution to a more heavily franchised structure. Effective January 1, 2019, the Company operates under a new organizational structure with the global business segments listed below.

- U.S. - the Company's largest market. This segment did not change as a result of the new organizational structure.
- International Operated Markets - comprised of wholly-owned markets, or countries in which the Company operates restaurants, including Australia, Canada, France, Germany, Italy, the Netherlands, Russia, Spain and the U.K.
- International Developmental Licensed Markets - comprised of primarily developmental license and affiliate markets in the McDonald's system. Corporate activities will also be reported in this segment.

The Company's new reporting segments are aligned with its strategic priorities and reflect how management now reviews and evaluates operating performance. The new organizational structure is designed to support the Company's efforts toward driving growth through the Velocity Growth Plan.

Starting with the Quarterly Report on Form 10-Q for the quarter ending March 31, 2019, the Company's new reporting segments will be presented as described above. The Company will present prior periods in accordance with the new reporting segments in future quarterly and annual filings.

The Company is issuing this Current Report on Form 8-K in order to provide investors with segment summary financial information and segment historical data that is consistent with its new organizational structure. The schedules in [Exhibit 99.1](#) provide unaudited summary financial information and other data according to the new reporting segments for the previously reported years ended December 31, 2016 through 2018, and the previously reported quarters in the year ended December 31, 2018.

This information in no way revises or restates the Company's previously reported consolidated financial statements for any period. It does not change the Company's previously reported total assets, liabilities or shareholders' equity or its reported net income or earnings per share, nor does it reflect any subsequent information or events, other than as required to reflect the change in reporting segments as described above. This information should be read in conjunction with our previously filed reports.

Item 9.01. Financial Statements and Exhibits.

(d) *Exhibits.*

99.1 Schedule of Segment Summary Financial Information and Other Data for the years ended December 31, 2016 through 2018 and quarters ended March 31, 2018 through December 31, 2018

THE FOLLOWING DEFINITIONS APPLY TO THESE TERMS AS USED THROUGHOUT EXHIBIT 99.1

- Information in constant currency is calculated by translating current year results at prior year average exchange rates. Management reviews and analyzes business results excluding the effect of foreign currency translation, impairment and other strategic charges and gains, as well as adjustments to the provisional amounts recorded in December 2017 under the Tax Cuts and Jobs Act, and bases incentive compensation plans on these results, because the Company believes this better represents underlying business trends.
- Comparable sales represent sales at all restaurants and comparable guest counts represent the number of transactions at all restaurants, whether operated by the Company or by franchisees, in operation at least thirteen months including those temporarily closed. Some of the reasons restaurants may be temporarily closed include reimagining or remodeling, rebuilding, road construction and natural disasters. Beginning in 2017, the Company excluded sales from markets identified as hyper-inflationary (currently, only Venezuela) from the comparable sales calculation as the Company believes this more accurately reflects the underlying business trends. There was no significant impact related to 2016. Management generally identifies hyper-inflationary markets as those markets whose cumulative inflation rate over a three-year period exceeds 100%. Management believes that these exclusions more accurately reflect the underlying business trends. Comparable sales are driven by changes in guest counts and average check, which is affected by changes in pricing and product mix. Typically, pricing has a greater impact on average check than product mix. Management reviews the increase or decrease in comparable sales and comparable guest counts compared with the same period in the prior year to assess business trends.
- While franchised sales are not recorded as revenues by the Company, management believes the information is important in understanding the Company's financial performance, because these sales are the basis on which the Company calculates and records franchised revenues and are indicative of the financial health of the franchisee base.
