NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Basis of Presentation

The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements contained in the Company's December 31, 2007 Annual Report on Form 10-K. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included. The results for the quarter ended March 31, 2008 do not necessarily indicate the results that may be expected for the full year.

Certain prior period amounts have been reclassified to conform to current year presentation, including reclassifying results and amounts of Boston Market to discontinued operations as a result of the sale in August 2007.

The results of operations of McDonald's restaurant businesses purchased and sold were not material to the condensed consolidated financial statements for periods prior to purchase and sale.

Restaurant Information

The following table presents restaurant information by ownership type:

Restaurants at March 31,	2008	2007
Operated by franchisees*	20,635	18,766
Operated by the Company**	6,815	8,190
Operated by affiliates	3,989	4,106
Systemwide restaurants	31,439	31,062

* At March 31, 2008 and 2007 included 2,804 and 1,093 restaurants, respectively, operated by developmental licensees.

** The decrease is primarily due to the August 2007 Latam transaction.

Conversion of Certain Markets to Developmental License

In August 2007, the Company completed the sale of its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean to a developmental licensee organization. The Company refers to these markets, which total about 1,600 restaurants, as "Latam". Under a developmental license, a local licensee owns the business, including the real estate, and uses his/her capital and local knowledge to build the McDonald's Brand and optimize sales and profitability over the long term. Under this arrangement, the Company collects a royalty, which varies by market, based on a percent of sales, but does not invest any capital.

The buyers of the Company's operations in Latam have entered into a 20-year master franchise agreement that requires the buyers, among other obligations, to pay monthly royalties commencing at a rate of approximately 5% of gross sales of the restaurants in these markets, substantially consistent with market rates for similar license arrangements.

Comprehensive Income

The following table presents the components of comprehensive income for the quarters ended March 31, 2008 and 2007:

In millions	Quarters Ended March 31,	
	2008	2007
Net income	\$ 946.1	\$762.4
Other comprehensive income (loss):		
Foreign currency translation adjustments	421.8	89.0
Deferred hedging adjustments	31.5	4.4
Pension liability adjustment	(14.9)	1.8
Total other comprehensive income (loss)	438.4	95.2
Total comprehensive income	\$1,384.5	\$857.6

Per Common Share Information

Diluted net income per common share is calculated using net income divided by diluted weighted-average shares outstanding. Diluted weighted-average shares outstanding included weighted-average shares outstanding plus the dilutive effect of share-based compensation, calculated using the treasury stock method, of 19.7 million shares and 21.1 million shares for the first quarter 2008 and 2007, respectively. Stock options that were not included in diluted weighted-average shares outstanding because they would have

been antidilutive were 5.2 million shares for the first quarter 2008 and 6.0 million shares for the first quarter 2007.

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements; rather, it applies to other accounting pronouncements that require or permit fair value measurements. The provisions of SFAS No. 157, as issued, were effective January 1, 2008. However, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which allows entities to defer the effective date of SFAS No. 157, for one year, for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (i.e., at least annually). The Company adopted SFAS No. 157 as of January 1, 2008 and elected the deferral for non-financial assets and liabilities. The effect of adopting this standard was not significant.

Fair value is defined under SFAS No. 157 as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. SFAS No. 157 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market
- Level 2 – inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability

Certain of the Company's derivatives are valued using various pricing models or discounted cash flow analyses that incorporate observable market parameters, such as interest rate yield curves, option volatilities and currency rates, classified as Level 2 within the valuation hierarchy. In accordance with the requirements of SFAS No. 157, derivative valuations incorporate credit risk adjustments that are necessary to reflect the probability of default by the counterparty or the Company.

The following table presents assets and liabilities measured at fair value on a recurring basis as of March 31, 2008 by SFAS No. 157 valuation hierarchy:

<i>In millions</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Carrying Value</i>
Cash equivalents	\$ 163.2			\$163.2
Investments	121.6*			121.6
Derivative receivables	98.1*	\$ 87.9		186.0
Total assets at fair value	\$ 382.9	\$ 87.9		\$470.8
Derivative payables**		\$ (50.1)		\$(50.1)
Total liabilities at fair value		\$ (50.1)		\$(50.1)

* Represents long-term investments and derivatives entered into to hedge market driven changes in liabilities associated with the Company's supplemental benefit plans.

** Includes cash collateral posted of \$68.3 million against derivative payables of \$118.4 million in accordance with FASB Staff Position No. FIN 39-1, *Amendment of FASB Interpretation No. 39*.

Discontinued Operations

In August 2007, the Company sold its investment in Boston Market and as a result, Boston Market's results of operations have been reflected in discontinued operations. Boston Market's results of operations, which previously were included in Other Countries & Corporate, consisted of revenues and pretax loss for the first quarter 2007 of \$171.4 million and \$6.8 million, respectively. Boston Market's net loss for the first quarter 2007 was \$4.1 million.

Segment Information

The Company franchises and operates McDonald's restaurants in the food service industry. The following table presents the Company's revenues and operating income by geographic segment. The APMEA segment represents operations in Asia/Pacific, Middle East and Africa. Other Countries & Corporate represents operations in Canada and Latin America, as well as Corporate activities.

In millions	Quarters Ended March 31,	
	2008	2007
Revenues		
U.S.	\$1,896.6	\$1,841.4
Europe	2,375.6	1,926.5

U.S.	\$ 682.5	\$ 649.6
Europe	577.2	393.1
APMEA	217.5	148.7
Other Countries & Corporate	(14.4)	(10.1)
Total operating income	\$1,462.8	\$1,181.3

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company primarily franchises and operates McDonald's restaurants. Of the 31,439 restaurants in 118 countries at March 31, 2008, 20,635 are operated by franchisees (including 2,804 operated by developmental licensees), 3,989 are operated by affiliates (primarily in Japan) and 6,815 are operated by the Company. Under our conventional franchise arrangement, franchisees provide a portion of the required capital by initially investing in the equipment, signs, seating and décor of their restaurant businesses, and by reinvesting in the business over time. The Company owns the land and building or secures long-term leases for both Company-operated and conventional franchised restaurant sites. This ensures long-term occupancy rights, helps control related costs and improves alignment with franchisees. Under our developmental license arrangement, licensees provide capital for the entire business, including the real estate interest, while the Company generally has no capital invested.

We view ourselves primarily as a franchisor and continually review our restaurant ownership mix (that is, our mix among Company-operated, franchised - conventional or developmental license, and affiliated) to deliver a great customer experience and drive profitability. In most cases, franchising is the best way to achieve both goals. Although direct restaurant operation is more capital-intensive relative to franchising and results in lower restaurant margins as a percent of revenues, Company-operated restaurants are important to our success in both mature and developing markets. In our Company-operated restaurants, and in collaboration with our franchisees, we further develop and refine operating standards, marketing concepts and product and pricing strategies, so that only those that we believe are most beneficial are introduced Systemwide. In addition, we firmly believe that owning restaurants is paramount to being a credible franchisor and essential to providing Company personnel with restaurant operations experience. Our Company-operated business also helps to facilitate changes in restaurant ownership as warranted by strategic considerations.

Revenues consist of sales by Company-operated restaurants and fees from restaurants operated by franchisees and affiliates. These fees primarily include rent and/or royalties that are based on a percent of sales, with specified minimum rent payments, along with initial fees. Fees vary by type of site, amount of Company investment and local business conditions. These fees, along with occupancy and operating rights, are stipulated in franchise/license agreements that generally have 20-year terms.

The business is managed as distinct geographic segments. Significant reportable segments include the United States (U.S.), Europe, and Asia/Pacific, Middle East and Africa (APMEA). In addition, throughout this report we present "Other Countries & Corporate" that includes operations in Canada and Latin America, as well as Corporate activities. The U.S. and Europe segments account for about 35% and 40% of total revenues, respectively.

In August 2007, the Company sold its investment in Boston Market and as a result, Boston Market's results of operations have been reflected as discontinued operations.

Strategic Direction and Financial Performance

Since implementing the customer-centered Plan to Win several years ago, the Company remains focused on being better, not just bigger. Our strategic alignment behind this plan has created better McDonald's experiences through the execution of multiple initiatives surrounding the five factors of exceptional customer experiences — people, products, place, price and promotion. While our focus has remained the same, we have adapted and evolved our initiatives based on the changing needs and preferences of our customers. These multiple initiatives have increased our consumer relevance and contributed to sales and guest counts worldwide increasing every year since 2003. In the first quarter 2008, our strong results were driven by positive comparable sales across all geographic segments.

In the U.S., the strategies of everyday affordability, menu variety and our market-leading breakfast enabled the Company to build market share and deliver solid quarterly results. We remain focused on what is most important — the customer. We will continue to provide a relevant restaurant experience that resonates with customers and leverages the strength of our 3-tiered menu.

In Europe, our execution along three key priorities — strengthening local relevance, upgrading the customer and employee experience and building greater brand transparency — continued to drive results. Double-digit revenue and operating income growth was fueled by an 11.1% comparable sales increase — the highest in the segment's history. These strong results reflected broad-based strength throughout the segment.

In APMEA, first quarter performance was strong, driven by positive comparable sales across the segment. Our focus on value, convenience, breakfast and core menu items contributed to the segment's strong results with revenues over \$1 billion.

We remain committed to returning value to shareholders through share repurchases and dividends. For 2007 through 2009, the Company expects to return \$15 billion to \$17 billion to shareholders, subject to business and market conditions. In the first quarter 2008, we repurchased 37.1 million shares of McDonald's stock for \$2.0 billion and paid a dividend of \$0.375 per share or \$426.4 million. For the full year 2007 and the first quarter 2008 combined, the Company returned \$8.2 billion to shareholders.

We also continue to enhance the mix of franchised and Company-operated restaurants, including refranchising certain Company-operated restaurants and executing our developmental license strategy, to maximize long-term brand performance and returns. The Company expects to refranchise 1,000 to 1,500 Company-operated restaurants over the next three or more years, primarily in our major markets. In first quarter 2008, the Company refranchised about 130 restaurants, primarily in our major markets.

In August 2007, the Company completed the sale of its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean to a developmental licensee organization. The Company refers to these markets, which total about 1,600 restaurants, as “Latam”. Under a developmental license, a local licensee owns the business, including the real estate, and uses his/her capital and local knowledge to build the McDonald’s Brand and optimize sales and profitability over the long term. Under this arrangement, the Company collects a royalty, which varies by market, based on a percent of sales, but does not invest any capital.

Operating Highlights Included:

- Global comparable sales increased 7.4%
- Consolidated Company-operated and franchised restaurant margins grew for the ninth consecutive quarter
- Consolidated operating income increased 24% (16% in constant currencies)
- Earnings per share were \$0.81, up 31% versus \$0.62 in 2007, and included \$0.05 per share of currency benefit
- The Company repurchased \$2 billion of stock and paid a quarterly dividend of \$0.375 per share, totaling \$426.4 million

Outlook

While the Company does not provide specific guidance on net income per share, the following information is provided to assist in forecasting the Company’s future results.

- Changes in Systemwide sales are driven by comparable sales and net restaurant unit expansion. The Company expects net restaurant additions to add slightly more than 1 percentage point to 2008 Systemwide sales growth (in constant currencies), most of which will be due to the 503 net traditional restaurants added in 2007.
- The Company does not generally provide specific guidance on changes in comparable sales. However, as a perspective, assuming no change in cost structure, a 1 percentage point increase in U.S. comparable sales would increase annual net income per share by about 2.5 cents. Similarly, an increase of 1 percentage point in Europe’s comparable sales would increase annual net income per share by about 2.5 cents.
- In 2008, U.S. beef costs are expected to be relatively flat and chicken costs are expected to rise about 5% to 6%. In Europe, beef costs are expected to be up 3% to 4%, while chicken costs are expected to increase approximately 6% to 8%. Some volatility may be experienced between quarters in the normal course of business.
- The Company expects full-year 2008 selling, general & administrative expenses to decline, in constant currencies, although fluctuations may be experienced between the quarters due to items such as the 2008 biennial Worldwide Owner/Operator Convention, the 2008 Beijing Summer Olympics and the August 2007 sale of the Company’s businesses in Latam.
- Based on current interest and foreign currency exchange rates, the Company expects interest expense in 2008 to increase approximately 35% compared with 2007, while 2008 interest income is expected to decrease about 30% compared with 2007. In 2008, the Company issued certain debt earlier than originally expected to take advantage of favorable market conditions to pre-fund a portion of its debt maturing in the second half of the year.
- A significant part of the Company’s operating income is generated outside the U.S., and about 55% of its total debt is denominated in foreign currencies. Accordingly, earnings are affected by changes in foreign currency exchange rates, particularly the Euro and the British Pound. If the Euro and the British Pound both move 10% in the same direction compared with 2007, the Company’s annual net income per share would change by about 8 cents to 9 cents.
- The Company expects the effective income tax rate for the full-year 2008 to be approximately 30% to 32%, although some volatility may be experienced between the quarters in the normal course of business.
- The Company expects capital expenditures for 2008 to be approximately \$2 billion. About half of this amount will be reinvested in existing restaurants while the rest will primarily be used to open 1,000 restaurants (950 traditional and 50 satellites). The Company expects net additions of about 600 restaurants (700 net traditional additions and 100 net satellite closings). These restaurant numbers include new unit openings in affiliate and developmental license markets, such as Japan and those in Latin America, where the Company invests no capital.
- For 2007 through 2009, the Company expects to return \$15 billion to \$17 billion to shareholders through share repurchases and dividends, subject to business and market conditions. For the full year 2007 and the first quarter 2008 combined, the Company returned \$8.2 billion to shareholders.
- As a result of the developmental licensee structure, the Company’s operating results in Latin America will reflect royalty income of approximately 5% of sales and minimal selling, general and administrative expenses to support the business.

- The Company continually reviews our restaurant ownership structures to maximize cash flow and returns and to enhance local relevance. The Company expects to optimize our restaurant ownership mix by refranchising 1,000 to 1,500 Company-operated restaurants over the next three or more years, primarily in our major markets, and by continuing to utilize our developmental license strategy. In first quarter 2008, the Company refranchised about 130 restaurants, primarily in our major markets.
- In early April 2008, the Company sold its minority ownership interest in U.K.-based Pret A Manger. In connection with the sale, the Company received net proceeds of approximately \$215 million, resulting in a nonoperating gain of about \$150 million that will be reflected in the second quarter.

The Following Definitions Apply to These Terms as Used Throughout This Form 10-Q:

- Constant currency results exclude the effects of foreign currency translation and are calculated by translating current year results at prior year average exchange rates. Management reviews and analyzes business results in constant currencies and bases certain compensation plans on these results because we believe they better represent the underlying business trends.
- Systemwide sales include sales at all restaurants, whether operated by the Company, by franchisees or by affiliates. While sales by franchisees and affiliates are not recorded as revenues by the Company, management believes the information is important in understanding the Company's financial performance because it is the basis on which the Company calculates and records franchised and affiliated revenues and is indicative of the financial health of our franchisee base.
- Comparable sales represent the change in sales at all restaurants, including those operated by the Company, franchisees and affiliates, in operation at least thirteen months including those temporarily closed, excluding the impact of currency translation. Some of the reasons restaurants may be temporarily closed include road construction, reimagining or remodeling, and natural disasters. Management reviews the increase or decrease in comparable sales compared with the same period in the prior year to assess business trends.

CONSOLIDATED OPERATING RESULTS

Dollars in millions, except per share data	Quarter Ended March 31, 2008	
	Amount	% Increase / (Decrease)
Revenues		
Sales by Company-operated restaurants	\$3,998.8	2
Revenues from franchised and affiliated restaurants	1,616.0	17

n/m Not meaningful

Net Income and Diluted Net Income per Common Share

For the first quarter 2008, net income was \$946.1 million and diluted net income per common share was \$0.81. For the first quarter 2007, net income was \$762.4 million and diluted net income per common share was \$0.62. The 2007 results included income from continuing operations of \$766.5 million or \$0.63 per share, and a loss of \$4.1 million from discontinued operations related to Boston Market, which was sold in August 2007.

During the first quarter, the Company repurchased 37.1 million shares of its stock for \$2.0 billion. As previously announced, the Company's Board of Directors decided that dividends declared will be paid on a quarterly basis, at the Board's discretion. During the first quarter 2008, the Company paid a dividend of \$0.375 per share or \$426.4 million.

Impact of Foreign Currency Translation

IMPACT OF FOREIGN CURRENCY TRANSLATION			
<i>Dollars in millions, except per share data</i>			
Quarters Ended March 31,	2008	2007	Currency Translation Benefit / (Loss) 2008
Revenues	\$5,614.8	\$5,292.7	\$345.5
Combined restaurant margins*	1,975.4	1,723.7	119.4
Selling, general & administrative expenses	552.4	545.2	(23.3)

Net income	946.1	762.4	61.0
Net income per common share – diluted	0.81	0.62	0.05

* Reflects both franchised and Company-operated margin dollars.

Foreign currency translation had a positive impact on consolidated revenues, operating income, net income and net income per common share for the quarter, primarily driven by the stronger Euro, Australian Dollar and Canadian Dollar.

Conversion of Certain Markets to Developmental License

In August 2007, the Company completed the sale of Latam to a developmental licensee organization. Under a developmental license, a local licensee owns the business, including the real estate, and uses his/her capital and local knowledge to build the McDonald's Brand and optimize sales and profitability over the long term. Under this arrangement, the Company collects a royalty, which varies by market, based on a percent of sales, but does not invest any capital. As a result of the Latam transaction, the revenues generated from these markets were less than in the prior year.

The buyers of the Company's operations in Latam have entered into a 20-year master franchise agreement that requires the buyers, among other obligations, to pay monthly royalties commencing at a rate of approximately 5% of gross sales of the restaurants in these markets, substantially consistent with market rates for similar license arrangements.

Revenues

Revenues consist of sales by Company-operated restaurants and fees from restaurants operated by franchisees and affiliates. These fees primarily include rent and/or royalties that are based on a percent of sales, with specified minimum rent payments.

Total	\$5,614.8	\$5,292.7	6	—

Consolidated revenues increased 6% (flat in constant currencies) for the quarter, primarily due to positive comparable sales in all segments, offset by the Company's sale of its Latam business and the refranchising strategy in the Company's major markets. Upon completion of the Latam sale in August 2007, the Company receives royalties based on a percent of sales in these markets. All royalties are recorded in franchised and affiliated revenues. The Latam transaction and the refranchising strategy resulted in a higher proportion of franchised and affiliated restaurants compared with the prior year.

In the U.S., the increase in revenues was primarily driven by our market-leading breakfast business, continued focus on everyday value and the ongoing appeal of new products.

In Europe, the constant currency increase in revenues was primarily due to strong comparable sales in Russia (which is entirely Company-operated), France, Germany and the U.K., as well as positive comparable sales throughout the segment.

In APMEA, the constant currency increase in revenues was primarily driven by strong comparable sales in Australia and China, as well as positive comparable sales in substantially all other markets. In addition, expansion in China contributed to the increase.

Comparable sales for 2008 benefited from an extra day due to leap year. The following table presents the percent change in comparable sales for the quarters ended March 31, 2008 and 2007:

COMPARABLE SALES

Total	16.5	15.9	\$ 659.2	\$ 620.5	6	(1)

Franchised margin dollars increased \$213.0 million or 19% (12% in constant currencies) for the quarter. The U.S. and Europe segments accounted for about 85% of the franchised margin dollars in both periods. The Latam transaction positively impacted the franchised margin percent increase by 60 basis points.

- In the U.S., Europe and APMEA, the increase in the franchised margin percent for each segment was primarily driven by positive comparable sales.
- In Other Countries & Corporate, Latin America's franchised margin percent increased significantly as a result of the sale of Latam in third quarter 2007. The Company receives royalties based on a percent of sales in these markets.

Company-operated margin dollars increased \$38.7 million or 6% (decreased 1% in constant currencies) for the quarter. The U.S. and Europe segments accounted for about 70% of the Company-operated margin dollars in both periods. As a result of the Latam transaction, there are no Company-operated restaurants remaining in Latin America in 2008. This transaction positively impacted the Company-operated margin percent increase by 20 basis points, but negatively impacted the Company-operated margin dollars.

- In the U.S., the Company-operated margin percent decreased as higher commodity and other costs offset positive comparable sales.
- Europe's Company-operated margin percent increased primarily due to strong comparable sales in most markets. This increase was partly offset by higher labor and commodity costs.
- In APMEA, the Company-operated margin percent increased due to strong comparable sales in most markets.

The following table presents margin components as a percent of sales:

COMPANY-OPERATED RESTAURANT EXPENSES AND MARGINS AS A PERCENT OF SALES		
	Quarters Ended March 31,	
	2008	2007
Food & paper	33.4	33.2
Payroll & employee benefits	26.8	26.2
Occupancy & other operating expenses	23.3	24.7
Total expenses	83.5	84.1
Company-operated margins	16.5	15.9

Selling, General & Administrative Expenses

Selling, general & administrative expenses increased 1% (decreased 3% in constant currencies) for the quarter. The constant currency change in selling, general & administrative expenses benefited by 6 percentage points due to the Latam transaction. Selling, general & administrative expenses as a percent of revenues decreased to 9.8% for the first quarter 2008 compared with 10.3% for 2007 and as a percent of Systemwide sales decreased to 3.3% for 2008 compared with 3.8% for 2007.

Other Operating (Income) Expense, Net

OTHER OPERATING (INCOME) EXPENSE, NET		
<i>In millions</i>		
	Quarters Ended March 31,

Equity in earnings of unconsolidated affiliates	(23.4)	(24.0)
Asset dispositions and other (income) expense	(3.8)	26.3
Total	\$(40.3)	\$ (5.4)

Gains on sales of restaurant businesses increased primarily as a result of selling more Company-operated restaurants in connection with our refranchising strategy in the Company's major markets.

Asset dispositions and other (income) expense included income of \$17.8 million due to the partial recovery of prior years' sales taxes in the U.K. in 2008. In addition, 2007 results reflected higher losses on restaurant closings and property disposals.

Operating Income

OPERATING INCOME <i>Dollars in millions</i>

Total	\$1,462.8	\$1,181.3	24	16

n/m Not meaningful

In the U.S., results increased for the quarter primarily due to higher franchised margin dollars.

In Europe, operating results for the quarter were driven by strong performance in France, the U.K. and Germany, as well as positive results in most other markets. In addition, 2008 reflected income of \$17.8 million due to the partial recovery of prior years' sales taxes in the U.K.

In APMEA, operating results for the quarter were driven by strong results in Australia and China, as well as positive performance in most other markets.

- Combined Operating Margin**

Combined operating margin is defined as operating income as a percent of total revenues. Combined operating margin for the first quarter 2008 and 2007 was 26.1% and 22.3%, respectively.

Interest Expense

Interest expense for the quarter increased due to higher average debt levels and interest rates. Higher average debt levels were driven by net debt issuances in the first quarter 2008 and the fourth quarter 2007.

Nonoperating (Income) Expense, Net

NONOPERATING (INCOME) EXPENSE, NET <i>In millions</i>		
	Quarters Ended March 31,	
	2008	2007
Interest income	\$(31.4)	\$(24.5)
Translation and hedging activity	4.7	2.9
Other (income) expense	(2.2)	4.9
Total	\$(28.9)	\$(16.7)

Interest income increased for the quarter due to \$11.6 million of interest on the partial recovery of prior years' sales taxes in the U.K.

Income Taxes

The effective income tax rate was 30.6% for first quarter 2008 compared with 30.4% for first quarter 2007.

Discontinued Operations

In August 2007, the Company sold its investment in Boston Market and as a result, Boston Market's results of operations have been reflected in discontinued operations. Boston Market's net loss for the first quarter 2007 was \$4.1 million.

Cash Flows and Financial Position

The Company generates significant cash from operations and has substantial credit capacity to fund operating and discretionary spending such as capital expenditures, debt repayments, dividends and share repurchases.

Cash provided by operations totaled \$1.5 billion and exceeded capital expenditures by \$1.1 billion for the first quarter 2008. Cash provided by operations increased \$550.1 million compared to first quarter 2007 driven by strong operating results and changes in working capital items, partly due to the receipt of \$123.5 million in first quarter 2008 related to the Internal Revenue Service (IRS) examination completed in fourth quarter 2007.

Cash used for investing activities totaled \$317.5 million in first quarter 2008, a decrease of \$88.0 million, primarily due to higher proceeds from sales of restaurant businesses in conjunction with our overall refranchising strategy and lower purchases of restaurant businesses. Capital expenditures were relatively flat compared with first quarter 2007.

Cash used for financing activities totaled \$281.4 million for first quarter 2008, an increase of \$44.0 million. First quarter 2008 reflected higher treasury stock purchases, the first quarter dividend payment, lower proceeds from stock option exercises and higher net debt issuances. As previously announced, the Company's Board of Directors decided that beginning in 2008 dividends declared will be paid on a quarterly basis, at the Board's discretion.

Debt obligations at March 31, 2008 totaled \$11.7 billion compared with \$9.3 billion at December 31, 2007. The increase in 2008 was primarily due to net issuances of \$2.1 billion. In 2008, the Company issued certain debt earlier than originally expected to take advantage of favorable market conditions to pre-fund a portion of its debt maturing in the second half of the year.

Accounting Changes

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements; rather, it applies to other accounting pronouncements that require or permit fair value measurements. The provisions of SFAS No. 157, as issued, were effective January 1, 2008. However, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which allows entities to defer the effective date of SFAS No. 157, for one year, for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (i.e., at least annually). The Company adopted SFAS No. 157 as of January 1, 2008 and elected the deferral for non-financial assets and liabilities. The effect of adopting this standard was not significant.

Risk Factors and Cautionary Statement Regarding Forward-Looking Statements

This report includes forward-looking statements about our plans and future performance, including those under Outlook. These statements use such words as “may,” “will,” “expect,” “believe” and “plan.” They reflect our expectations and speak only as of the date of this report. We do not undertake to update them. Our expectations (or the underlying assumptions) may change or not be realized, and you should not rely unduly on forward-looking statements.

Our business and execution of our strategic plan, the Plan to Win, are subject to risks. By far the most important of these is our ability to remain relevant to our customers and a brand they trust. Meeting customer expectations is complicated by the risks inherent in our operating environment. The informal eating out segment of the restaurant industry, although largely mature in our major markets, is also highly fragmented and competitive. We have the added challenge of the cultural, economic and regulatory differences that exist among the more than 100 countries where we operate. We also face risk in adapting our business model in particular markets. The decision to own restaurants or to operate under franchise, developmental license or joint venture agreements is driven by many factors whose interrelationship is complex and changing. Regulatory and similar initiatives around the world have also become more wide-ranging and prescriptive and affect how we operate and our results. In particular, increasing focus on nutritional content and on the production, processing and preparation of food “from field to front counter” presents challenges for our Brand and may adversely affect our results.

These risks can have an impact both in the near-and long-term and are reflected in the following considerations and factors that we believe are most likely to affect our performance.

Our ability to remain a relevant and trusted brand and to increase sales depends largely on how well we execute the Plan to Win.

The Plan to Win addresses the key drivers of our business and results—people, products, place, price and promotion. The quality of our execution depends mainly on the following:

- Our ability to anticipate and respond to trends or other factors that affect the informal eating out market and our competitive position in the diverse markets we serve, such as spending patterns, demographic changes, trends in food preparation, consumer preferences and publicity about our products, all of which can drive consumer perceptions or affect the willingness of other companies to enter into site, supply or other arrangements or alliances with us, as well as our success in addressing these trends and factors or other competitive pressures;
- The success of our initiatives to support menu choice, physical activity and nutritional awareness and to address these and other matters of social responsibility in a way that communicates our values effectively and inspires the trust and confidence of our customers;
- Our ability to respond effectively to adverse consumer perceptions about the quick-service segment of the informal eating out market, our products and promotions (including the premiums we offer, such as our Happy Meal toys) or the reliability of our supply chain and the safety of the ingredients we use, and our ability to manage the potential impact on McDonald’s of food-borne illnesses or product safety issues;
- The success of our plans to improve existing products and to roll-out new products and product line extensions, as well as the impact of our competitors’ actions, including in response to our product improvements and introductions, and our ability to continue robust product development and manage the complexity of our restaurant operations;
- Our ability to achieve an overall product mix that differentiates the McDonald’s experience and balances consumer value with margin expansion, including in markets where cost or pricing pressures may be significant;
- The impact of pricing, marketing and promotional plans on product sales and margins and on our ability to target these efforts effectively to maintain or expand market share;

- The impact of events such as consumer boycotts or protests, labor strikes and supply chain interruptions (including due to lack of supply or price increases) that can adversely affect us directly or adversely affect the vendors, franchisees and others that are also part of the McDonald's System and whose performance has a material impact on our results;
- Our ability to recruit and retain qualified local personnel to manage our operations and growth in certain developing markets;
- Our ability to drive restaurant improvements and to motivate our restaurant personnel to achieve sustained high service levels so as to improve consumer perceptions of our ability to meet expectations for quality food served in clean and friendly environments;
- Our ability to maintain alignment with our franchisees on capital-intensive and other operating initiatives;
- The risks to our Brand if a franchisee or licensee defaults in its obligations (particularly requirements to pay royalties, make capital investments and open new restaurants), experiences food safety or other operational problems or otherwise projects a brand image inconsistent with our values, all of which become more significant risks if an agreement places a large number of restaurants under the control of a single franchisee or licensee as is the case in Latin America;
- Whether our ongoing restaurant remodeling and rebuilding initiatives, which vary from year to year by market and type, are targeted at the elements of the restaurant experience that will best accomplish our goals to enhance the relevance of our Brand and achieve an efficient allocation of our capital resources; and
- Our ability to leverage promotional or operating successes in individual markets into other markets in a timely and cost-effective way.

Our results and financial condition are affected by our ownership mix and whether we can achieve a mix that optimizes margins and returns, while meeting our business needs and customer expectations.

In recent years, we have reduced the number of Company-operated restaurants and we are planning further reductions by franchising Company-operated restaurants or entering into developmental license agreements. Whether and when we can achieve these plans, as well as their success, is uncertain and will be affected by the following:

- Our ability to identify prospective franchisees and licensees with the experience and financial resources in the relevant markets to be effective operators of McDonald's restaurants and how quickly we can reach agreement with our counterparties, which we expect will vary by market and could also vary significantly from period to period;
- The nature and amount of contingent liabilities and other exposures we may retain in connection with developmental license agreements, such as the indemnification obligations we may incur as a result of the Latam transaction;
- The risk that our contractual and other rights and remedies to protect against defaults by our counterparties will be limited by local law, costly to exercise or otherwise subject to limitations or litigation that may impair our ability to prevent or mitigate any adverse impact on our Brand or on the financial performance we expect under our franchising and developmental license agreements; and
- Changes in the operating or legal environment and other circumstances that cause us to delay or revise our plans to alter our ownership mix.

Our results and financial condition are affected by global and local market conditions, which can adversely affect our sales, margins and net income.

Our results of operations are substantially affected not only by global economic conditions, but also by local operating and economic conditions, which can vary substantially by market. Unfavorable conditions can depress sales in a given market and may prompt promotional or other actions that adversely affect our margins, constrain our operating flexibility or result in charges, restaurant closings or sales of Company-operated restaurants. Whether we can manage this risk effectively depends mainly on the following:

- Our ability to manage upward pressure on commodity prices, as well as fluctuations in interest and foreign exchange rates and local governmental actions to manage national economic conditions, such as consumer spending, inflation rates and unemployment levels, particularly in the United States, which faces an uncertain economy in 2008;
- The impact on our margins of labor costs given our labor-intensive business model, the trend toward higher wages in both mature and developing markets and the potential impact of union organizing efforts on day-to-day operations of our restaurants;
- Whether we are able to identify and develop restaurant sites, either directly or through licensees or other parties, consistent with our plans for net growth of Systemwide restaurants from year to year, and whether new sites are as profitable as expected;
- Whether we can develop effective initiatives in markets that may be experiencing challenges;

- The challenges and uncertainties associated with operating in developing markets, such as China, Russia and India, which may entail a relatively higher risk of political instability, economic volatility, crime, corruption and social and ethnic unrest, all of which are exacerbated in many cases by a lack of an independent and experienced judiciary and uncertainties in how local law is applied and enforced, including in areas most relevant to commercial transactions and foreign investment; and
- The nature and timing of decisions about underperforming markets or assets, including decisions that result in impairment charges that reduce our earnings, such as those that may occur as we change our ownership mix as described above.

Increasing regulatory complexity will continue to affect our operations and results in material ways.

Our legal and regulatory environment worldwide exposes us to complex compliance, litigation and similar risks that affect our operations and results in material ways. In many of our markets, including the United States and Europe, we are subject to increasing regulation, which has increased our cost of doing business. In developing markets, we face the risks associated with new and untested laws and judicial systems. Among the more important regulatory and litigation risks we face are the following:

- Our ability to manage the cost, compliance and other risks associated with the often conflicting regulations we face, especially in the United States where inconsistent standards imposed by local, state and federal authorities can adversely affect consumer perceptions and increase our exposure to litigation or governmental investigations or proceedings, and the impact of new, potential or changing regulation that affects or restricts elements of our business, particularly those relating to advertising to children, nutritional content and product labeling and safety;
- The impact of nutritional, health and other scientific inquiries and conclusions, which constantly evolve and often have contradictory implications, but nonetheless drive consumer perceptions, litigation and regulation in ways that could be material to our business;
- The risks and costs of McDonald's nutritional labeling and other disclosure practices, particularly given differences among applicable legal requirements and laws and among practices within the restaurant industry with respect to testing and disclosure, ordinary variations in food preparation among our own restaurants, and reliance on the accuracy and completeness of information obtained from third party suppliers;
- The impact of litigation trends, particularly in our major markets, including class actions, labor and employment matters and landlord/tenant disputes, the relative level of our defense costs, which vary from period to period depending on the number, nature and procedural status of pending proceedings; and the cost and other effects of settlements or judgments, which may require us to make disclosures or take other actions that may affect perceptions of our Brand and products;
- Adverse results of pending or future litigation, including litigation challenging the composition of our products or the appropriateness or accuracy of our advertising or other communications;
- The costs and other effects of compliance with U.S. federal, state and local regulations regarding immigration and the enforcement of those regulations, as well as compliance with other U.S. and overseas labor regulations, including with respect to wage and hour matters, employee classification, mandatory healthcare benefits and unlawful workplace discrimination;
- Disruptions in our operations or price volatility in a market that can result from governmental actions, such as price or import-export controls or government-mandated closure of our or our vendors' operations, and the cost and disruption of responding to government investigations, whether or not they have merit or are undertaken to achieve political impact;
- The risks associated with information security and the use of cashless payments, such as increased investment in technology, the costs of compliance with privacy, consumer protection and other laws, the impact on our margins as the use of cashless payments increases, the potential costs associated with consumer fraud and the loss of consumer confidence that may result from alleged security breaches involving our point of sale and other systems; and
- The impact of changes in financial reporting requirements, accounting principles or practices, related legal or regulatory interpretations or our critical accounting estimates, changes in tax accounting or tax laws (or interpretations thereof), and the impact of settlements of adjustments proposed by the IRS in connection with our tax audits, all of which will depend on their timing, nature and scope.

The trading volatility and price of our common stock may be affected by many factors.

Many factors affect the volatility and price of our common stock in addition to our operating results and prospects. The most important of these, some of which are outside our control, are the following:

- Governmental actions or media reports and commentary relating to economic activity or events, such as the current U.S. Presidential election, even where the action, report or event does not directly relate to our business or prospects, and particularly actions by U.S. authorities or U.S. economic activity, which are of special import because the United States is the principal trading market for our common stock;

- Trading activity in our common stock (whether in the cash or derivative markets), which can reflect not only market commentary or expectations about our business, but also significant purchases by shareholders who may seek to affect our business strategies, or trading activity that results from the ordinary course rebalancing of stock indices in which McDonald's may be included, such as the S&P 500 Index and the Dow Jones Industrial Average; and
- The impact of our stock repurchase program, dividend rate or changes in our debt levels that may affect our credit ratings, interest expense, ability to obtain funding on favorable terms or our flexibility, especially if lenders impose new operating or financial covenants, as well as the impact of other corporate actions, such as initiatives to rationalize our operating structure.

Our results can be adversely affected by disruptions or events, such as the impact of severe weather conditions and natural disasters.

Severe weather conditions, terrorist activities, health epidemics or pandemics or the prospect of these events can have an adverse impact on consumer spending and confidence levels and in turn the McDonald's System and our results and prospects in the affected markets. Our receipt of proceeds under any insurance we maintain for these purposes may be delayed or the proceeds may be insufficient to offset our losses fully.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the disclosure made in our Annual Report on Form 10-K for the year ended December 31, 2007 regarding this matter.

Item 4. Controls and Procedures

An evaluation was conducted under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of March 31, 2008. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Such officers also confirm that there was no change in the Company's internal control over financial reporting during the quarter ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There were no material changes to the disclosure made in our Annual Report on Form 10-K for the year ended December 31, 2007 regarding these matters.

Item 1A. Risk Factors

This report contains certain forward-looking statements which reflect management's expectations regarding future events and operating performance and speak only as of the date hereof. These forward-looking statements involve a number of risks and uncertainties. These and other risks are noted in the Risk Factors and Cautionary Statement Regarding Forward-Looking Statements following Management's Discussion and Analysis.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents information related to repurchases of common stock the Company made during the three months ended March 31, 2008:

Issuer Purchases of Equity Securities*

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased Under the Program *	Maximum Dollar Amount that May Yet Be Purchased Under the Program *
January 1-31, 2008	14,800,419	\$53.96	14,800,419	\$7,621,067,000
February 1-29, 2008	16,674,982	\$55.29	16,674,982	6,699,149,000
March 1-31, 2008	5,618,165	\$54.32	5,618,165	6,393,944,000
Total	37,093,566	\$54.61	37,093,566	\$6,393,944,000

* On September 12, 2007, the Company's Board of Directors terminated a previously-approved share repurchase program and replaced it with a new share repurchase program that authorizes the purchase of up to \$10.0 billion of the Company's outstanding common stock with no specified expiration date. As of March 31, 2008, the maximum dollar amount that may yet be purchased under the new program was \$6,393,944,000.

Consistent with the above authorization and subject to applicable law, the Company may repurchase shares directly in the open market, in privately negotiated transactions, or pursuant to derivative instruments and plans complying with Rule 10b5-1, among other types of transactions and arrangements.

McDONALD'S CORPORATION
(Registrant)

May 6, 2008

/s/ Peter J. Bensen

Peter J. Bensen

*Corporate Executive Vice President and
Chief Financial Officer*

January 2006

Tim Fenton

Dear Tim,

This letter is to review your salary and benefits package for your assignment in Hong Kong. The term of the assignment is expected to be approximately three to five years. In Hong Kong, your position will continue to be President APMEA, effective March 1, 2006. Your band will continue to be the Executive Management Band for compensation and benefit purposes.

This letter confirms our mutual understanding of the terms and conditions that apply to your employment with McDonald's while on assignment. Such employment is subject, of course, to medical clearances, foreign government entry documents, work/residency permits and/or visas, and your acceptance of the terms and conditions outlined in this letter.

Your compensation and benefits package is designed to provide you with a level of compensation and benefits that is approximately comparable to your home country of the United States (U.S.). We have taken into consideration the additional costs that you may reasonably anticipate as a result of living in Hong Kong.

The terms and conditions outlined in this letter will be in effect only for the period of this assignment.

Total Overseas Compensation

For purposes of this assignment, the U.S. shall be designated as your point of origin or your home country. Hong Kong shall be designated as your assignment location.

McDonald's uses a balance sheet approach to help ensure that your standard of living in Hong Kong will be reasonably comparable to that which you had in the U.S. A copy of your compensation balance sheet is attached to this letter.

Base Salary

Your current annual base salary is \$400,000 effective January 4, 2005. You will remain on the U.S. payroll and you will continue to follow the U.S. compensation and benefits programs. You will receive an annual performance and base salary review on March 1, 2006 based on your home country guidelines.

Bonus

You will continue to be eligible to be considered for a bonus under the Corporate Officer target incentive program according to your level. The performance factor of the bonus computation will continue to be based on a combination of McDonald's APMEA and Corporate performance.

Long Term Incentives

You will continue to be eligible for long term incentives based on McDonald's U.S. guidelines.

Cash Performance Unit Plan

You will maintain your eligibility in the Cash Performance Unit Plan based on the plan guidelines.

Cost of Living Allowance

A cost of living allowance (COLA) is a differential paid to equalize for the difference between the cost of goods and services in the U.S. versus the cost goods and services in Hong Kong. The COLA is determined by an outside consulting firm and is adjusted as warranted due to changes in prices, fluctuations in exchange rates, base salary and family size. While your COLA will be paid at the same time as your payroll, it can fluctuate from time to time based on these adjustments.

Housing Allowance

A budget for your housing in Hong Kong will be determined. Housing includes rent and utilities excluding telephone, cable television and internet, which are your responsibility.

Housing Contribution

A housing contribution is an estimated amount that a person with your base salary and family size would spend on housing (includes assumed utility cost) in the U.S. The amount is determined by an outside consultant at the start of the assignment and is based on base salary and family size. The housing contribution amount is fixed for the duration of the assignment and does not change unless there is a change in family status.

Your housing contribution has been set at an annual amount of \$26,019 for the term of the assignment. This is a reduced portion of the full housing contribution amount of \$48,272. This amount will be deducted from your payroll. Any housing you decide to maintain in the U.S. during your assignment will be your responsibility.

Family Assistance Allowance

A family assistance allowance is paid to compensate for additional family costs that arise when relocation outside of your home country. You will receive an annual family assistance allowance for your spouse in the amount of US\$5,000 per year and US\$1,000 for each additional dependent. Your family assistance payment will be paid to you through your U.S. payroll on an ongoing basis.

Tax Equalization

You will be tax equalized to ensure that you pay approximately the same amount of taxes that you would have paid in the U.S. McDonald's will pay your actual U.S. and Hong Kong tax obligations either directly or by reimbursing you. You will be responsible for paying a "hypothetical" U.S. federal and state tax to McDonald's. Deductions from your paycheck for this "hypothetical" tax should reflect approximately what you would have paid in tax had you remained working in the U.S. This "hypothetical" tax withholding is only an estimate; your actual tax liabilities may be more or less.

An accounting firm selected by McDonald's Corporation will be retained to assist in the preparation of your U.S. and Hong Kong income tax returns. The accounting firm will calculate a final tax equalization settlement after your tax returns have been completed. At this time, your final tax liability will be determined. Your total hypothetical tax withholding will be compared to this final tax liability as calculated by the accounting firm to determine whether tax has been overwithheld, in which case McDonald's will refund the excess withholding to you within 30 days, or whether not enough tax was withheld, in which case you must pay the additional tax liability to McDonald's within 30 days.

Relocation Assistance

You will be eligible to receive the global relocation program for long-term assignments. Please contact Tracy Toth (xxx-xxx-xxxx) in Relocation Services, Oak Brook. She will provide you with relocation assistance throughout your relocation.

Medical Insurance

McDonald's will provide you with medical coverage approximately equivalent to that you had in U.S. You will be removed from the McDonald's medical plan during the course of your international assignment and will be placed on the CIGNA International medical program.

The selection of insurance provider and determination of equivalence will be solely within McDonald's discretion.

Cultural Training

You and your family are eligible for cross-cultural training. Please contact Gaby Gutierrez (xxx-xxx-xxxx) to arrange for cultural training before your move to Hong Kong.

Holidays and Vacation

You will follow the public holiday schedule in effect in Hong Kong. You will continue the same eligibility for vacation as under McDonald's U.S. policy.

Automobile

McDonald's China Development Company will provide you with a company car according to its policies.

Home Leave

You and your eligible family members are eligible for home leave. The number of home leave trips for you and your eligible family members is agreed to between you and Mike Roberts, COO of McDonald's. McDonald's will reimburse round-trip coach airfare or lowest available fare (business class airfare for flights over 6 hours in length) from Hong Kong to South Carolina. While you are encouraged to return home on your leave, you may choose another destination. McDonald's will reimburse up to the limit of the

equivalent airfare of Hong Kong to South Carolina.

Sabbatical Entitlement

Your eligibility for sabbatical will be determined under McDonald's U.S. policy. If you intend to take your sabbatical during your assignment you must give at least 6 months notice and obtain approval prior to taking the sabbatical.

Human Resource Policies

McDonald's Corporation's benefits and compensation guidelines and global assignee policies (including vacation, home leave, and tax equalization) will apply to you and your family. Such guidelines and policies may be changed from time to time by McDonald's at its sole discretion.

Data Protection

Personal information relating to you and your family in connection with your employment and your overseas assignment will need to be processed and such information may need to be sent between Hong Kong and the U.S. and to other McDonald's entities located elsewhere. By signing below, you agree on behalf of yourself and your family members to all such transmittal and processing of this information.

Governing Law

This assignment letter is governed by and construed in accordance with the laws of the State of Illinois and the United States, without reference to principles of conflicts of laws. In the event of any dispute arising with respect to this assignment letter, which cannot amicably be resolved, the courts of the United States of America shall have sole and exclusive jurisdiction over any and all such claims.

Termination while Overseas

Your assignment to Hong Kong may be voluntarily ended by you, or involuntarily by McDonald's Corporation or McDonald's China Development Company at will, with or without notice or reason. If your assignment ends for whatever reason and you continue to be an employee of McDonald's Corporation or a McDonald's subsidiary or joint venture, McDonald's will reimburse you for return airfare (coach/economy class) for you and your eligible dependents and will provide for shipment of your household goods within prescribed limits to your point of origin or, if appropriate, to the place of your next assignment, whether in or outside the United States.

If you voluntarily terminate your employment with McDonald's Corporation while on assignment, and do not immediately become an employee of a McDonald's subsidiary or joint venture, you are solely responsible for your own relocation and repatriation. If your employment with McDonald's Corporation is involuntarily terminated while you are on assignment, McDonald's will reimburse you for return airfare (coach/economy class) for you and your eligible dependents and will provide for shipment of your household goods within prescribed limits to your point of origin within the U.S. This reimbursement and shipment is contingent on your moving back to the U.S. within 60 days of termination.

You understand that this letter is not to be construed as an employment contract or guarantee of employment for any period of time. Your employment at McDonald's shall continue to be "at will." This means that you are free to terminate your employment at any time, for any reason, and McDonald's Corporation retains the same right.

Summary

We wish you success in your global assignment. If you have any questions, please contact Gaby Gutierrez (xxx-xxx-xxxx) or me.

/s/ Richard Floersch
Rich Floersch

Please sign and return this letter of understanding to Gaby Gutierrez.

I hereby agree and accept this assignment as outlined above and other general McDonald's policies.

/s/ Timothy J. Fenton
Tim Fenton

January 2006

2008 AMENDMENT

Effective January 1, 2008, the Home Leave benefits provided to Mr. Fenton have been revised so that Mr. Fenton is eligible to receive Home Leave benefits consistent with the Home Leave benefits available pursuant to the Company's expatriate policy.

This European Prospectus Supplement describes the stock ownership plans of McDonald's Corporation. You should read this European Prospectus Supplement as well as the global prospectus, dated February 14, 2007 (the "Global Prospectus"). This European Prospectus Supplement focuses on the treatment of McDonald's stock options and restricted stock units granted on or after February 14, 2007 to recipients in European Markets. In the case of a discrepancy between the plans, the Global Prospectus and this European Prospectus Supplement, the terms of this European Prospectus Supplement govern for matters addressed herein. Capitalized terms used and not defined in this European Prospectus Supplement have the meanings given in the Amended and Restated 2001 Omnibus Stock Ownership Plan, unless otherwise noted.

What happens to my stock options and restricted stock units (RSUs) if I no longer work for McDonald's?

- Retirement With At Least 12 Months Notice and Execution of Non-Compete Agreement

If you retire from employment with the Company and you (i) provide at least 12 months advance notice of your retirement to the officer in charge of the Global Compensation Department in Oak Brook, Lisa Emerson, and such notice is accepted by the officer, and (2) execute and deliver to the Company a non-competition agreement satisfactory to the Company the following rules apply.

Stock Options. Options that are either exercisable on the date of your termination or that are scheduled to become exercisable within two (2) years of that date can be exercised immediately or at any time within two (2) years following your termination (but not after the original expiration date of the grant). If you violate the non-competition agreement following your termination, all of your stock options will immediately terminate and will no longer be exercisable.

RSUs. You will vest in a pro-rata portion of your RSUs, based on the formula provided in the Global Prospectus, and, unless the RSUs are subject to performance-based vesting, those vested RSUs will be paid out in shares or cash, at the Company's discretion, as soon as administratively practicable after termination of employment, except that if you were an Officer (as defined in the Global Prospectus), your payment will be deferred until as soon as administratively practicable following the first to occur of the originally scheduled vesting date, the six-month anniversary of your termination of employment, or your death. If the RSUs are subject to performance-based vesting, they will be paid out in shares or cash, at the Company's discretion, as soon as administratively practicable after the originally scheduled vesting date, in the same amount, if any, that would have been paid to you based on actual performance had you remained employed through the originally scheduled vesting date but subject to the proration noted above in accordance with the formula provided in the Global Prospectus.

- Termination As a Result of Death or Disability

If your employment with the Company ends because of death or Disability, the following rules apply.

Stock Options. All options will be exercisable at any time for three (3) years following termination, regardless of the original expiration date of the options. However, in no event may any option be exercised after the fifteenth anniversary of the grant date.

RSUs. If you terminate employment because of death or Disability before your RSUs vest, they will, unless the award is subject to performance-based vesting, immediately vest and be paid out in shares or in cash, at the Company's discretion, as soon as is administratively practicable after termination of employment, except that if you were an Officer (as defined in the Global Prospectus) and your termination is due to Disability but you are not disabled within the meaning of Section 409A, your payment will be deferred until as soon as administratively practicable following the first to occur of the originally scheduled vesting date, the six-month anniversary of your termination of employment, or your death. If your RSUs are subject to performance-based vesting and you die or terminate employment because of Disability before your RSUs vest, they will be paid out in shares or in cash, at the Company's discretion, as soon as is administratively practicable after the originally scheduled vesting date, in the same amount, if any, that would have been paid to you based on actual performance had you remained employed through the originally scheduled vesting date.

- Termination For Cause

If your employment with the Company is terminated for Cause (generally, any termination based on an act or acts involving dishonesty, fraud, illegality or moral turpitude), your unexercised stock options and unvested RSUs will be terminated immediately.

- All Other Company Initiated Terminations

If the Company terminates your employment for any reason other than those detailed above, the following rules will apply.

Stock Options. Options that are either exercisable on the date of your termination or that are scheduled to become exercisable within one (1) year of that date can be exercised immediately or at any time within one (1) year following your termination (but not after the original expiration date of the grant).

RSUs. You will vest in a pro-rata portion of your RSUs, based on the formula provided in the Global Prospectus, and, unless the RSUs are subject to performance-based vesting, those vested RSUs will be paid out in shares or cash, at the Company's discretion, as soon as administratively practicable after termination of employment, except that if you were an Officer (as defined in the Global Prospectus), your payment will be deferred until as soon as administratively practicable following the first to occur of the originally scheduled vesting date, the six-month anniversary of your termination of employment, or your death. If the RSUs are subject to performance-based vesting, they will be paid out in shares or cash, at the Company's discretion, as soon as administratively practicable after the originally scheduled vesting date, in the same amount, if any, that would have been paid to you based on actual performance had you remained employed through the originally scheduled vesting date but subject to the proration noted above in accordance with the formula provided in the Global Prospectus.

- Employee Initiated Termination

If you choose to terminate your employment with the Company and do not qualify for an extension pursuant to the rules detailed above, the following rules apply.

Stock Options. Any stock options exercisable on the date of your termination may be exercised within ninety (90) calendar days following your termination. Stock options not vested on your termination date will be immediately forfeited (no options will vest post-termination).

RSUs. All unvested RSUs will be immediately forfeited upon your termination.

- (2) Includes pretax charges of \$134.2 million primarily related to impairment.
- (3) Includes pretax charges of \$232.1 million consisting of \$130.5 million related to impairment and \$150.9 million related to the correction in the Company's lease accounting practices and policies as well as a \$49.3 million gain relating to the sale of the Company's interest in a U.S. real estate partnership.
- (4) Includes pretax charges of \$407.6 million primarily related to the disposition of certain non-McDonald's brands and impairment.

Exhibit 31.1. Rule 13a-14(a) Certification of Chief Executive Officer

I, James A. Skinner, Vice Chairman and Chief Executive Officer of McDonald's Corporation, certify that:

- (1) I have reviewed this quarterly report on Form 10-Q of McDonald's Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.2. Rule 13a-14(a) Certification of Chief Financial Officer

I, Peter J. Bensen, Corporate Executive Vice President and Chief Financial Officer of McDonald's Corporation, certify that:

- (1) I have reviewed this quarterly report on Form 10-Q of McDonald's Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
