Title of each class	Name of each exchange on which registered
Common stock, \$.01 par value	New York Stock Exchange Chicago Stock Exchange
8-7/8% Debentures due 2011	New York Stock Exchange
6-3/8% Debentures due 2028	New York Stock Exchange

**Securities registered pursuant to Section 12(g) of the Act:**

**None**

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer

Non-accelerated filer  (do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value of common stock held by non-affiliates of the registrant as of June 30, 2008 was \$63,201,640,840.

The number of shares outstanding of the registrant's common stock as of January 31, 2009 was 1,113,621,747.

**DOCUMENTS INCORPORATED BY REFERENCE**

Part III of this Form 10-K incorporates information by reference from the registrant's 2009 definitive proxy statement which will be filed no later than 120 days after December 31, 2008.

## **PART I**

### **ITEM 1. BUSINESS**

McDonald's Corporation, the registrant, together with its subsidiaries, is referred to herein as the "Company."

#### **a. General development of business**

During 2008, there have been no significant changes to the Company's corporate structure or material changes in the Company's method of conducting business.

#### **b. Financial information about segments**

Segment data for the years ended December 31, 2008, 2007 and 2006 are included in Part II, Item 8, page 44 of this Form 10-K.

#### **c. Narrative description of business**

##### **▪ General**

The Company franchises and operates McDonald's restaurants in the food service industry. These restaurants serve a varied, yet limited, value-priced menu (see Products) in more than 100 countries around the world.

All restaurants are operated either by the Company or by franchisees, including conventional franchisees under franchise arrangements, and foreign affiliated markets and developmental licensees under license agreements.

The Company's operations are designed to assure consistency and high quality at every restaurant. When granting franchises or licenses, the Company is selective and generally is not in the practice of franchising to passive investors.

Under the conventional franchise arrangement, franchisees provide a portion of the capital required by initially investing in the equipment, signs, seating and décor of their restaurant businesses, and by reinvesting in the business over time. The Company generally shares the initial investment by owning the land and building or securing long-term leases for both Company-operated and conventional franchised restaurant sites. A discussion regarding site selection is included in Part I, Item 2, page 7 of this Form 10-K.

Conventional franchisees contribute to the Company's revenue stream through the payment of rent and royalties based upon a percent of sales, with specified minimum rent payments, along with initial fees received upon the opening of a new restaurant or the granting of a new franchise term. The conventional franchise arrangement typically lasts 20 years, and franchising practices are generally consistent throughout the world. Approximately 70% of franchised restaurants operate under conventional franchise arrangements.

The Company has an equity investment in a limited number of foreign affiliated markets, referred to as affiliates. The largest of these affiliates is Japan, where there are 3,755 restaurants. The Company receives a royalty based on a percent of sales in these markets. Under a developmental license arrangement, licensees provide capital for the entire business, including the real estate interest. While the Company has no capital invested, it receives a royalty based on a percent of sales, as well as initial fees. During 2007, the Company sold its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean, which totaled 1,571 restaurants, to a developmental licensee organization. These markets are referred to as "Latam."

The Company and its franchisees purchase food, packaging, equipment and other goods from numerous independent suppliers. The Company has established and strictly enforces high quality standards and product specifications. The Company has quality assurance labs around the world to ensure that its high standards are consistently met. The quality assurance process not only involves ongoing product reviews, but also on-site inspections of suppliers' facilities. Further, a quality assurance board, composed of the Company's technical, safety and supply chain specialists, provides strategic global leadership for all aspects of food quality and safety. In addition, the Company works closely with suppliers to encourage innovation, assure best practices and drive continuous improvement. Leveraging scale, supply chain infrastructure and risk management strategies, the Company also collaborates with suppliers toward a goal of achieving competitive, predictable food and paper costs.

Independently owned and operated distribution centers, approved by the Company, distribute products and supplies to most McDonald's restaurants. In addition, restaurant personnel are trained in the proper storage, handling and preparation of products and in the delivery of customer service.

McDonald's global brand is well known. Marketing, promotional and public relations activities are designed to promote McDonald's brand image and differentiate the Company from competitors. Marketing and promotional efforts focus on value, food taste, menu choice and the customer experience. The Company believes that continuously improving its social and environmental performance to achieve long-term sustainability benefits McDonald's and the communities it serves.

In April 2008, the Company sold its minority ownership interest in U.K.-based Pret A Manger. The Company operated Boston Market in the U.S., prior to its sale in August 2007. Prior to October 2006, the Company had an ownership interest in Chipotle Mexican Grill (Chipotle). During 2006, the Company disposed of its investment in Chipotle through sales of shares and ultimately a tax-free exchange of all remaining shares held.

##### **▪ Products**

McDonald's restaurants offer a substantially uniform menu, although there may be geographic variations. In addition, McDonald's tests new products on an ongoing basis.

McDonald's menu includes hamburgers and cheeseburgers, Big Mac, Quarter Pounder with Cheese, Filet-O-Fish, several chicken sandwiches, Chicken McNuggets, Chicken Selects, french fries, premium salads, shakes, McFlurry desserts, sundaes, soft serve cones, pies, cookies, soft drinks, coffee and other beverages. In addition, the restaurants sell a variety of other products during limited-time promotions.

McDonald's restaurants in the U.S. and many international markets offer a full or limited breakfast menu. Breakfast offerings may include Egg McMuffin, Sausage McMuffin with Egg, McGrid-dles, biscuit and bagel sandwiches, hotcakes and muffins.

##### **▪ Intellectual property**

The Company owns or is licensed to use valuable intellectual property including trademarks, service marks, patents, copyrights, trade secrets and other proprietary information. The Company considers the trademarks "McDonald's" and "The Golden Arches Logo" to be of material importance to its business. Depending on the jurisdiction, trademarks and service marks generally are valid as long as they are used and/or registered. Patents, copyrights and licenses are of varying remaining durations.

▪ **Seasonal operations**

The Company does not consider its operations to be seasonal to any material degree.

▪ **Working capital practices**

Information about the Company's working capital practices is incorporated herein by reference to Management's discussion and analysis of financial condition and results of operations for the years ended December 31, 2008, 2007 and 2006 in Part II, Item 7, pages 12 through 30, and the Consolidated statement of cash flows for the years ended December 31, 2008, 2007 and 2006 in Part II, Item 8, page 34 of this Form 10-K.

▪ **Customers**

The Company's business is not dependent upon either a single customer or small group of customers.

▪ **Backlog**

Company-operated restaurants have no backlog orders.

▪ **Government contracts**

No material portion of the business is subject to renegotiation of profits or termination of contracts or subcontracts at the election of the U.S. government.

▪ **Competition**

McDonald's restaurants compete with international, national, regional and local retailers of food products. The Company competes on the basis of price, convenience, service, menu variety and product quality. The Company's competition in the broadest perspective includes restaurants, quick-service eating establishments, pizza parlors, coffee shops, street vendors, convenience food stores, delicatessens and supermarkets.

The U.S. restaurant industry is composed of approximately 575,000 restaurants that generated about \$370 billion in annual sales in 2008. McDonald's restaurant business accounts for 2.4% of those restaurants and 8.1% of the sales. No reasonable estimate can be made of the number of competitors outside the U.S.

▪ **Research and development**

The Company operates research and development facilities in the U.S., Europe and Asia. While research and development activities are important to the Company's business, these expenditures are not material. Independent suppliers also conduct research activities that benefit the Company, its franchisees and suppliers (collectively referred to as the System).

▪ **Environmental matters**

During 2008, there were no material capital expenditures for environmental control facilities and no such material expenditures are anticipated. The Company is not aware of any federal, state or local environmental laws or regulations that will materially affect its earnings or competitive position or result in material capital expenditures in the foreseeable future. However, there has been an increasing focus on climate change recently, including increased attention from regulatory agencies and legislative bodies globally. This increased focus may lead to new initiatives directed at regulating an as yet unspecified array of environmental matters, such as the emission of greenhouse gases. The Company is unable to predict the potential effects that any such future environmental initiatives may have on the business as those effects are likely to be complex.

▪ **Number of employees**

The Company's number of employees worldwide, including Company-operated restaurant employees, was approximately 400,000 as of year-end 2008.

**d. Financial information about geographic areas**

Financial information about geographic areas is incorporated herein by reference to Management's discussion and analysis of financial condition and results of operations in Part II, Item 7, pages 12 through 30 and Segment and geographic information in Part II, Item 8, page 44 of this Form 10-K.

**e. Available information**

The Company is subject to the informational requirements of the Securities Exchange Act of 1934 (Exchange Act). The Company therefore files periodic reports, proxy statements and other information with the Securities and Exchange Commission (SEC). Such reports may be obtained by visiting the Public Reference Room of the SEC at 100 F Street, NE, Washington, D.C. 20549, or by calling the SEC at (800) SEC-0330. In addition, the SEC maintains an internet site ([www.sec.gov](http://www.sec.gov)) that contains reports, proxy and information statements and other information.

Financial and other information can also be accessed on the investor section of the Company's website at [www.mcdonalds.com](http://www.mcdonalds.com). The Company makes available, free of charge, copies of its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after filing such material electronically or otherwise furnishing it to the SEC.

Copies of financial and other information are also available free of charge by calling (630) 623-7428 or by sending a request to McDonald's Corporation Investor Relations Service Center, Department 300, One McDonald's Plaza, Oak Brook, Illinois 60523.

Also posted on McDonald's website are the Company's Corporate Governance Principles, the charters of McDonald's Audit Committee, Compensation Committee and Governance Committee, the Company's Standards of Business Conduct, the Code of Ethics for Chief Executive Officer and Senior Financial Officers and the Code of Conduct for the Board of Directors. Copies of these documents are also available free of charge by calling (630) 623-7428 or by sending a request to McDonald's Corporation Investor Relations Service Center, Department 300, One McDonald's Plaza, Oak Brook, Illinois 60523.

The Company's Chief Executive Officer, James A. Skinner, certified to the New York Stock Exchange (NYSE) on June 11, 2008, pursuant to Section 303A.12 of the NYSE's listing standards, that he was not aware of any violation by the Company of the NYSE's corporate governance listing standards as of that date.

Information on the Company's website is not incorporated into this Form 10-K or the Company's other securities filings and is not a part of them.

**ITEM 1A. RISK FACTORS AND CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This report includes forward-looking statements about our plans and future performance, including those under Outlook for 2009. These statements use such words as "may," "will," "expect,"

“believe” and “plan.” They reflect our expectations and speak only as of the date of this report. We do not undertake to update them. Our expectations (or the underlying assumptions) may change or not be realized, and you should not rely unduly on forward-looking statements.

Our business and execution of our strategic plan, the Plan to Win, are subject to risks. The most important of these is our ability to remain relevant to our customers and a brand they trust. Meeting customer expectations is complicated by the risks inherent in our operating environment. The informal eating out segment of the restaurant industry, although largely mature in our major markets, is also highly fragmented and competitive. We have the added challenge of the cultural, economic and regulatory differences that exist among the more than 100 countries where we operate. We also face risk in adapting our business model in particular markets. The decision to own restaurants or to operate under franchise or license agreements is driven by many factors whose interrelationship is complex and changing. Regulatory and similar initiatives around the world have also become more wide-ranging and prescriptive and affect how we operate and our results. In particular, increasing focus on nutritional content and on the production, processing and preparation of food “from field to front counter” presents challenges for our Brand.

These risks can have an impact both in the near- and long-term and are reflected in the following considerations and factors that we believe are most likely to affect our performance.

**Our ability to remain a relevant and trusted brand and to increase sales depends largely on how well we execute the Plan to Win.**

*The Plan to Win addresses the key drivers of our business and results—people, products, place, price and promotion. The quality of our execution depends mainly on the following:*

- Our ability to anticipate and respond to trends or other factors that affect the informal eating out market and our competitive position in the diverse markets we serve, such as spending patterns, demographic changes, trends in food preparation, consumer preferences and publicity about our products, all of which can drive popular perceptions of our business or affect the willingness of other companies to enter into site, supply or other arrangements or alliances with us, as well as our success in addressing these trends and factors or other competitive pressures;
- The success of our initiatives to support menu choice, physical activity and nutritional awareness and to address these and other matters of social responsibility in a way that communicates our values effectively and inspires trust and confidence;
- Our ability to respond effectively to adverse perceptions about the quick-service segment of the informal eating out market, our products and promotions (including the premiums we offer, such as our Happy Meal toys) or the reliability of our supply chain and the safety of the ingredients we use, and our ability to manage the potential impact on McDonald's of food-borne illnesses or product safety issues;
- The success of our plans to improve existing products and to roll-out new products and product line extensions, as well as the impact of our competitors' actions, including in response to our product improvements and introductions, and our ability to continue robust product development and manage the complexity of our restaurant operations;

- Our ability to achieve an overall product mix that differentiates the McDonald's experience and balances consumer value with margin expansion, including in markets where cost or pricing pressures may be significant;
- The impact of pricing, marketing and promotional plans on product sales and margins and on our ability to target these efforts effectively to maintain or expand market share and increase guest counts;
- The impact of events such as boycotts or protests, labor strikes and supply chain interruptions (including due to lack of supply or price increases) that can adversely affect us directly or adversely affect the vendors, franchisees and others that are also part of the McDonald's System and whose performance has a material impact on our results;
- Our ability to recruit and retain qualified local personnel to manage our operations and growth in certain developing markets;
- Our ability to drive restaurant improvements and to motivate our restaurant personnel to achieve sustained high service levels so as to improve consumer perceptions of our ability to meet expectations for quality food served in clean and friendly environments;
- Our ability to maintain alignment with our franchisees on capital-intensive and other operating and promotional initiatives;
- The risks to our Brand if a franchisee or licensee defaults in its obligations (particularly requirements to pay royalties, make capital investments and open new restaurants), experiences food safety or other operational problems or otherwise projects a brand image inconsistent with our values, all of which become more significant risks if an agreement places a large number of restaurants under the control of a single franchisee or licensee as is the case in Latin America;
- Whether our ongoing restaurant remodeling and rebuilding initiatives, which vary from year to year by market and type, are targeted at the elements of the restaurant experience that will best accomplish our goals to enhance the relevance of our Brand and achieve an efficient allocation of our capital resources; and
- Our ability to leverage promotional or operating successes in individual markets into other markets in a timely and cost-effective way.

**Our results and financial condition are affected by global and local market conditions, which can adversely affect our sales, margins and net income.**

*Our results of operations are substantially affected not only by global economic conditions, but also by local operating and economic conditions, which can vary substantially by market. Unfavorable conditions can depress sales in a given market and may prompt promotional or other actions that adversely affect our margins, constrain our operating flexibility or result in charges, restaurant closings or sales of Company-operated restaurants. Certain macroeconomic events, such as the current uncertain economic conditions, could have an even more wide-ranging and prolonged impact on the general business environment, which could also adversely affect us. Whether we can manage these risks effectively depends mainly on the following:*

- Our ability to manage volatile commodity prices and the anticipated negative impact on our 2009 results of fluctuations in

foreign exchange rates, as well as any impact of changes in interest rates and governmental actions to manage national economic conditions such as the availability of credit, consumer spending, unemployment levels and inflation rates;

- The impact on our margins of labor costs given our labor-intensive business model, the trend toward higher wages in both mature and developing markets and the potential impact of union organizing efforts on day-to-day operations of our restaurants;
- Whether we are able to identify and develop restaurant sites, either directly or through licensees or other parties, consistent with our plans for net growth of Systemwide restaurants from year to year, and whether new sites are as profitable as expected;
- The challenges and uncertainties associated with operating in developing markets, such as China, Russia and India, which may entail a relatively higher risk of political instability, economic volatility, crime, corruption and social and ethnic unrest, all of which are exacerbated in many cases by a lack of an independent and experienced judiciary and uncertainties in how local law is applied and enforced, including in areas most relevant to commercial transactions and foreign investment; and
- The nature and timing of decisions about underperforming markets or assets, including decisions that result in impairment charges that reduce our earnings, such as those that may occur as we change our ownership mix.

**Our results and financial condition are affected by our ownership mix and whether we can achieve a mix that optimizes margins and returns, while meeting our business needs and customer expectations.**

*In recent years, we have reduced the number of Company-operated restaurants and we are planning further reductions by refranchising Company-operated restaurants or entering into developmental license agreements. Whether and when we can achieve these plans, as well as their success, is uncertain and will be affected by the following:*

- Our ability to identify prospective franchisees and licensees with the experience and financial resources in the relevant markets to be effective operators of McDonald's restaurants and how quickly we can reach agreement with our counterparties, which we expect will vary by market and could also vary significantly from period to period;
- The nature and amount of contingent liabilities and other exposures we may retain in connection with developmental license agreements, such as the indemnification obligations we may incur as a result of the Latam transaction;
- The risk that our contractual and other rights and remedies to protect against defaults by our counterparties will be limited by local law, costly to exercise or otherwise subject to limitations or litigation that may impair our ability to prevent or mitigate any adverse impact on our Brand or on the financial performance we expect under our franchising and developmental license agreements; and
- Changes in the operating or legal environment and other circumstances that cause us to delay or revise our plans to alter our ownership mix, including potential constraints on access to capital by existing or prospective franchisees.

**Increasing regulatory complexity will continue to affect our operations and results in material ways.**

*Our legal and regulatory environment worldwide exposes us to complex compliance, litigation and similar risks that affect our operations and results in material ways. In many of our markets, including the United States and Europe, we are subject to increasing regulation, which has increased our cost of doing business. In developing markets, we face the risks associated with new and untested laws and judicial systems. Among the more important regulatory and litigation risks we face and must manage are the following:*

- The cost, compliance and other risks associated with the often conflicting regulations we face, especially in the United States where inconsistent standards imposed by local, state and federal authorities can adversely affect popular perceptions of our business and increase our exposure to litigation or governmental investigations or proceedings, and the impact of new, potential or changing regulation that affects or restricts elements of our business, particularly those relating to advertising to children, nutritional content and product labeling and safety;
- The impact of nutritional, health and other scientific inquiries and conclusions, which constantly evolve and often have contradictory implications, but nonetheless drive popular opinion, litigation and regulation in ways that could be material to our business;
- The risks and costs of McDonald's nutritional labeling and other disclosure practices, particularly given differences among applicable legal requirements and practices within the restaurant industry with respect to testing and disclosure, ordinary variations in food preparation among our own restaurants, and the need to rely on the accuracy and completeness of information obtained from third party suppliers;
- The impact of litigation trends, particularly in our major markets, including class actions, labor and employment claims and landlord/tenant disputes, the relative level of our defense costs, which vary from period to period depending on the number, nature and procedural status of pending proceedings; and the cost and other effects of settlements or judgments, which may require us to make disclosures or take other actions that may affect perceptions of our Brand and products;
- Adverse results of pending or future litigation, including litigation challenging the composition of our products or the appropriateness or accuracy of our advertising or other communications;
- The increasing costs and other effects of compliance with existing and possible future U.S. federal, state and local regulations regarding immigration and evolving enforcement standards under those regulations, as well as compliance with other U.S. and overseas labor regulations, including regulations relating to wage and hour practices, job classifications, mandatory health-care benefits and unlawful workplace discrimination;
- The impact of the current economic conditions on unemployment levels and consumer confidence, particularly if conditions worsen in 2009, and the effect of initiatives to stimulate economic recovery and to stabilize or further regulate financial markets on the cost and availability of funding for the Company and its franchisees, inflation and foreign exchange rates;
- Disruptions in our operations or price volatility in a market that can result from governmental actions, such as price or import-export controls or government-mandated closure of our or our vendors' operations, and the cost and disruption of responding to government investigations, whether or not they have merit or are undertaken to achieve political impact;

- The risks associated with information security and the use of cashless payments, such as increased investment in technology, the costs of compliance with privacy, consumer protection and other laws, the impact on our margins as the use of cashless payments increases, the potential costs associated with alleged security breaches and the loss of consumer confidence that may result; and
- The impact of changes in financial reporting requirements, accounting principles or practices, related legal or regulatory interpretations or our critical accounting estimates, changes in tax accounting or tax laws (or interpretations thereof), and the impact of settlements of adjustments proposed by the IRS in connection with our tax audits, all of which will depend on their timing, nature and scope.

**The trading volatility and price of our common stock may be affected by many factors.**

*Many factors affect the volatility and price of our common stock in addition to our operating results and prospects. The most important of these, some of which are outside our control, are the following:*

- The current uncertain global economic conditions and market volatility;
- Governmental action or inaction in light of key indicators of economic activity or events that can significantly influence financial markets, particularly in the United States which is the principal trading market for our common stock, and media reports and commentary about economic or other matters, even when the matter in question does not directly relate to our business;
- Trading activity in our common stock or related instruments, which can reflect market commentary or expectations about our business (including commentary that may be unreliable or incomplete in some cases), significant purchases by shareholders who may seek to affect our business strategies, or trading activity that results from the ordinary course rebalancing of stock indices in which McDonald's may be included, such as the S&P 500 Index and the Dow Jones Industrial Average; and
- The impact of our stock repurchase program, dividend rate or changes in our debt levels that may affect our credit ratings, interest expense, ability to obtain funding on favorable terms or our flexibility, especially if lenders impose new operating or financial covenants, as well as the impact of other corporate actions, such as initiatives to rationalize our corporate structure.

**Our results can be adversely affected by disruptions or events, such as the impact of severe weather conditions and natural disasters.**

*Severe weather conditions, terrorist activities, health epidemics or pandemics or the prospect of these events can have an adverse impact on consumer spending and confidence levels or on other factors that affect our results and prospects, such as commodity costs. Our receipt of proceeds under any insurance we maintain with respect to certain of these risks may be delayed or the proceeds may be insufficient to offset our losses fully.*

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

The Company owns and leases real estate primarily in connection with its restaurant business. The Company identifies and develops sites that offer convenience to customers and long-term sales and profit potential to the Company. To assess potential, the Company analyzes traffic and walking patterns, census data and other relevant data. The Company's experience and access to advanced technology aid in evaluating this information. The Company generally owns the land and building or secures long-term leases for restaurant sites, which ensures long-term occupancy rights and helps control related costs. Restaurant profitability for both the Company and franchisees is important; therefore, ongoing efforts are made to control average development costs through construction and design efficiencies, standardization and by leveraging the Company's global sourcing network. Additional information about the Company's properties is included in Management's discussion and analysis of financial condition and results of operations in Part II, Item 7, pages 12 through 30 and in Financial statements and supplementary data in Part II, Item 8, pages 31 through 47 of this Form 10-K.

**ITEM 3. LEGAL PROCEEDINGS**

The Company has pending a number of lawsuits that have been filed from time to time in various jurisdictions. These lawsuits cover a broad variety of allegations spanning the Company's entire business. The following is a brief description of the more significant of these categories of lawsuits. In addition, the Company is subject to various federal, state and local regulations that impact various aspects of its business, as discussed below. While the Company does not believe that any such claims, lawsuits or regulations will have a material adverse effect on its financial condition or results of operations, unfavorable rulings could occur. Were an unfavorable ruling to occur, there exists the possibility of a material adverse impact on net income for the period in which the ruling occurs or for future periods.

▪ **Obesity**

On or about February 17, 2003, two minors, by their parents and guardians, filed an Amended Complaint against McDonald's Corporation in the United States District Court for the Southern District of New York (Case No. 02 Civ. 7821) (*Ashley Pelman, a child under the age of 18 years, by her mother and natural guardian, Roberta Pelman, and Jazlen Bradley, a child under the age of 18 years, by her father and natural guardian, Israel Bradley, v. McDonald's Corporation*) seeking class action status on behalf of individuals in New York under the age of 18 (and their parents and/or guardians), who became obese or developed other adverse health conditions allegedly from eating McDonald's products. On September 3, 2003, the Court dismissed all counts of the complaint with prejudice. On January 25, 2005, following an appeal by the plaintiffs, the Second Circuit Court of Appeals vacated the District Court's decision to dismiss alleged violations of Section 349 of the New York Consumer Protection Act as set forth in Counts I-III of the amended complaint.

On December 12, 2005, the plaintiffs filed their Second Amended Complaint. In this complaint, the plaintiffs alleged that McDonald's Corporation: (1) engaged in a deceptive advertising campaign to "be perceived to be less nutritionally detrimental-than-in-fact"; (2) failed to disclose adequately its use of certain

additives and ingredients; and (3) failed to provide nutritional information about its products. Plaintiffs seek unspecified compensatory damages; an order directing defendants to label their individual products specifying the fat, salt, sugar, cholesterol and dietary content; an order prohibiting marketing to certain individuals; "funding of an educational program to inform children and adults of the dangers of eating certain foods" sold by defendants; and attorneys' fees and costs.

The Company believes that it has substantial legal and factual defenses to the plaintiffs' claims and intends to defend this lawsuit vigorously.

#### ▪ **Allergens**

Plaintiffs have filed numerous complaints against the Company (and in some instances our franchisee or a franchisee's operating company), alleging that McDonald's misrepresented its french fries and hash browns as free of wheat, gluten and/or milk, when the french fries and hash browns allegedly contain derivatives of wheat, gluten and/or milk.

A number of these cases are pending in the Federal District Court for the Northern District of Illinois. Some of the cases pending in the Northern District of Illinois have been combined into one action that seeks to form a national class of consumers, generally defined as individuals who purchased McDonald's french fries and hash browns and who have allergies or sensitivities to consumption of wheat and/or dairy products. The first case of this type, *Debra Moffatt v. McDonald's Corporation* (MDL Case No. 06-cv-4467), was filed on February 17, 2006. The other cases pending in the Northern District of Illinois seek damages only for an individual plaintiff or a minor child on whose behalf the action was brought, and have been consolidated with the combined national class action for pretrial purposes.

The remainder of the cases (all of which seek damages only for an individual plaintiff) are pending in state courts. Several of these cases (including the first case of this type, *Annalise Chimiak v. McDonald's Corporation and R & L Partnership* (Case No. 2006CA3337), which was filed on February 17, 2006) are pending in the Circuit Court of Palm Beach County, Florida and have been consolidated for pretrial purposes. The remaining cases are pending in state courts in California, Illinois, Texas and Virginia.

The complaints include claims for violation of state consumer fraud acts, unfair competition or deceptive trade practices acts, strict liability, failure to warn, negligence, breach of express and implied warranties, fraud and fraudulent concealment, negligent misrepresentation and concealment, unjust enrichment, and false advertising. They seek to recover unspecified compensatory and punitive damages, restitution and disgorgement of profits, and attorneys' fees.

The Company believes that it has substantial legal and factual defenses to the plaintiffs' claims, and intends to defend its interests vigorously.

#### ▪ **Franchising**

A substantial number of McDonald's restaurants are franchised to independent entrepreneurs operating under contractual arrangements with the Company. In the course of the franchise relationship, occasional disputes arise between the Company and its franchisees relating to a broad range of subjects including, but not limited to, quality, service and cleanliness issues, contentions regarding grants or terminations of franchises, delinquent payments of rents and fees, and franchisee claims for additional

franchises or rewrites of franchises. Additionally, occasional disputes arise between the Company and individuals who claim they should have been granted a McDonald's franchise.

#### ▪ **Suppliers**

The Company and its affiliates and subsidiaries do not supply, with minor exceptions outside the U.S., food, paper or related items to any McDonald's restaurants. The Company relies upon numerous independent suppliers that are required to meet and maintain the Company's high standards and specifications. On occasion, disputes arise between the Company and its suppliers which include, by way of example, compliance with product specifications and the Company's business relationship with suppliers. In addition, disputes occasionally arise on a number of issues between the Company and individuals or entities who claim that they should be (or should have been) granted the opportunity to supply products or services to the Company's restaurants.

#### ▪ **Employees**

Hundreds of thousands of people are employed by the Company and in restaurants owned and operated by subsidiaries of the Company. In addition, thousands of people from time to time seek employment in such restaurants. In the ordinary course of business, disputes arise regarding hiring, firing, promotion and pay practices, including wage and hour disputes, alleged discrimination and compliance with employment laws.

#### ▪ **Customers**

Restaurants owned by subsidiaries of the Company regularly serve a broad segment of the public. In so doing, disputes arise as to products, service, incidents, advertising, nutritional and other disclosures as well as other matters common to an extensive restaurant business such as that of the Company.

#### ▪ **Intellectual Property**

The Company has registered trademarks and service marks, patents and copyrights, some of which are of material importance to the Company's business. From time to time, the Company may become involved in litigation to protect its intellectual property and defend against the alleged use of third party intellectual property.

#### ▪ **Government Regulations**

Local, state and federal governments have adopted laws and regulations involving various aspects of the restaurant business including, but not limited to, advertising, franchising, health, safety, environment, zoning and employment. The Company strives to comply with all applicable existing statutory and administrative rules and cannot predict the effect on its operations from the issuance of additional requirements in the future.

#### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS**

---

None.

##### **The following are the Executive Officers of our Company (as of the date of this filing):**

*Ralph Alvarez*, 53, is President and Chief Operating Officer, a position to which he was elected in August 2006, and also has served as a Director since January 2008. He served as President of McDonald's North America from January 2005 to August 2006 and as President, McDonald's USA, from July 2004 to January 2005. From January 2003 to July 2004, Mr. Alvarez served as the Chief Operations Officer for McDonald's USA. Except for a brief period in 1999, Mr. Alvarez has been with the Company for 14 years.

*Jose Armario*, 49, is Group President—McDonald's Canada and Latin America, a position he has held since February 2008. He previously served as President, McDonald's Latin America from December 2003 to February 2008 and served as Senior Vice President and International Relationship Partner for the northern markets in Latin America from July 2001 through November 2003. Mr. Armario has been with the Company for 12 years.

*Peter J. Bensen*, 46, is Corporate Executive Vice President and Chief Financial Officer, a position he has held since January 2008. From April 2007 through December 2007, he served as Corporate Senior Vice President—Controller. Prior to that time, Mr. Bensen served as Corporate Vice President—Assistant Controller from February 2002 through March 2007. Mr. Bensen has been with the Company for 12 years.

*Mary N. Dillon*, 47, is Corporate Executive Vice President—Global Chief Marketing Officer. She has served in that position since joining the Company in October 2005. Prior to joining the Company, she was Division President of Quaker Foods, a division of PepsiCo, from 2004 to October 2005. Prior to that role, Ms. Dillon served as Vice President of Marketing, Quaker Foods from 2002 to 2004. Ms. Dillon has been with the Company for three years.

*Timothy J. Fenton*, 51, is President, McDonald's Asia/Pacific, Middle East and Africa, a position he has held since January 2005. From May 2003 to January 2005, he served as President, East Division for McDonald's USA. Prior to that time, he served as Senior Vice President, International Relationship Partner from September 1999 through May 2003. Mr. Fenton has been with the Company for 35 years.

*Richard Floersch*, 51, is Corporate Executive Vice President and Chief Human Resources Officer. Mr. Floersch joined the Company in November 2003. He previously served as Senior Vice President of Human Resources for Kraft Foods from 1998 through 2003. Mr. Floersch has been with the Company for five years.

*Denis Hennequin*, 50, is President of McDonald's Europe, a position he has held since July 2005. From January 2005 to July 2005, he served as Senior Vice President and International Relationship Partner of McDonald's Europe. From January 2004 to January 2005, he served as Vice President of McDonald's Europe. Prior to that time, he served as President and Managing Director of McDonald's France from December 1996 to January 2004. Mr. Hennequin has been with the Company for 24 years.

*Kevin M. Ozan*, 45, is Corporate Senior Vice President—Controller, a position he has held since February 2008. From May 2007 to January 2008, he served as Corporate Vice Presi-

dent—Assistant Controller. Prior to that time, he served as a Senior Director in the following areas: Investor Relations (May 2006 to April 2007), Chicago Region Finance (August 2004 to April 2006), and Corporate Controller Group (March 2002 to August 2004). Mr. Ozan has been with the Company for 11 years.

*Gloria Santana*, 58, is Corporate Executive Vice President, General Counsel and Secretary, a position she has held since July 2003. From June 2001 to July 2003, she served as Corporate Senior Vice President, General Counsel and Secretary. Ms. Santana has been with the Company for 31 years.

*James A. Skinner*, 64, is Vice Chairman and Chief Executive Officer, a post to which he was elected in November 2004, and also has served as a Director since that date. He served as Vice Chairman from January 2003 to November 2004. Mr. Skinner has been with the Company for 37 years.

*Jeffrey P. Stratton*, 53, is Corporate Executive Vice President—Chief Restaurant Officer, a position he has held since January 2005. He previously served as U.S. Executive Vice President, Chief Restaurant Officer from January 2004 to December 2004. Prior to that time, he served as Senior Vice President, Chief Restaurant Officer of McDonald's USA from May 2002 to January 2004. Mr. Stratton has been with the Company for 35 years.

*Donald Thompson*, 45, is President, McDonald's USA, a position he has held since August 2006. He previously served as Executive Vice President and Chief Operations Officer for McDonald's USA from January 2005 through August 2006, as Executive Vice President, Restaurant Solutions Group from May 2004 through January 2005, and President, West Division, from October 2001 through May 2004. Mr. Thompson has been with the Company for 18 years.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's common stock trades under the symbol MCD and is listed on the New York and Chicago stock exchanges in the U.S.

The following table sets forth the common stock price ranges on the New York Stock Exchange and dividends declared per common share:

Dollars per share	2008			2007		
	High	Low	Dividend	High	Low	Dividend
Quarter:						
First	59.48	49.36	0.375	46.21	42.31	
Second	61.76	55.14	0.375	52.88	44.26	
Third	67.00	55.55	0.875*	55.73	46.64	1.50
Fourth	64.02	45.79		63.69	54.67	
Year	67.00	45.79	1.625	63.69	42.31	1.50

\* Includes a \$0.375 per share dividend declared and paid in third quarter and a \$0.50 per share dividend declared in third quarter and paid in fourth quarter.

The number of shareholders of record and beneficial owners of the Company's common stock as of January 31, 2009 was estimated to be 1,216,000.

Given the Company's returns on equity and assets, management believes it is prudent to reinvest in the business in markets with acceptable returns and/or opportunity for long-term growth and use excess cash flow to return cash to shareholders through share repurchases, dividends or a combination of both. The Company has paid dividends on common stock for 33 consecutive years through 2008 and has increased the dividend amount at least once every year. In 2008, the Company's Board of Directors decided that dividends declared will be paid on a quarterly basis. As in the past, future dividend amounts will be considered after reviewing profitability expectations and financing needs, and will be declared at the discretion of the Company's Board of Directors.

The following table presents information related to repurchases of common stock the Company made during the three months ended December 31, 2008:

#### Issuer purchases of equity securities\*

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased under the program*	Maximum dollar amount that may yet be purchased under the program*
October 1-31, 2008	314,803	\$57.71	314,803	\$4,564,318,000
November 1-30, 2008	52,267	54.26	52,267	4,561,482,000
December 1-31, 2008	2,014,456	60.88	2,014,456	4,438,841,000
Total	2,381,526	\$60.32	2,381,526	\$4,438,841,000

\* On September 12, 2007, the Company's Board of Directors approved a share repurchase program that authorizes the purchase of up to \$10 billion of the Company's outstanding common stock with no specified expiration date. As of December 31, 2008, the maximum dollar amount that may yet be purchased under the program was \$4,438,841,000. Subject to applicable law, the Company may repurchase shares directly in the open market, in privately negotiated transactions, or pursuant to derivative instruments and plans complying with Rule 10b5-1, among other types of transactions and arrangements.

(1) Includes income of \$109.0 million (\$0.09 per share) from the sale of the Company's minority ownership interest in U.K.-based Pret A Manger.

(2) Includes pretax operating charges of \$1.7 billion (\$1.32 per share) related to impairment and other charges primarily as a result of the Company's sale of its businesses in 18 Latin American and Caribbean markets to a developmental licensee (see Latam transaction note to the consolidated financial statements for further details).

(3) Includes a tax benefit of \$316.4 million (\$0.26 per share) resulting from the completion of an Internal Revenue Service (IRS) examination of the Company's 2003-2004 U.S. federal tax returns.

(4) Includes income of \$60.1 million (\$0.05 per share) related to discontinued operations primarily from the sale of our investment in Boston Market.

(5) Includes pretax operating charges of \$134 million (\$98 million after tax or \$0.08 per share) related to impairment and other charges (see Impairment and other charges, net note to the consolidated financial statements for further details).

(6) Includes income of \$678 million (\$0.54 per share) related to discontinued operations primarily resulting from the disposal of our investment in Chipotle.

(7) Includes a net tax benefit of \$73 million (\$0.05 per share) comprised of \$179 million (\$0.14 per share) of income tax benefit resulting from the completion of an IRS examination of the Company's 2000-2002 U.S. tax returns, partly offset by \$106 million (\$0.09 per share) of incremental tax expense resulting from the decision to repatriate certain foreign earnings under the Homeland Investment Act (HIA).

(8) Includes pretax operating charges of \$130 million related to impairment and \$121 million (\$12 million related to 2004 and \$109 million related to prior years) for a correction in the Company's lease accounting practices and policies, as well as a nonoperating gain of \$49 million related to the sale of the Company's interest in a U.S. real estate partnership, for a total pretax expense of \$202 million (\$148 million after tax or \$0.12 per share).

(9) Includes pretax operating charges of \$408 million (\$323 million after tax or \$0.26 per share) primarily related to the disposition of certain non-McDonald's brands and impairment.

(10) Includes a \$37 million after tax charge (\$0.03 per share) to reflect the cumulative effect of the adoption of Statement of Financial Accounting Standards (SFAS) No. 143, "Accounting for Asset Retirement Obligations," which requires legal obligations associated with the retirement of long-lived assets to be recognized at their fair value at the time the obligations are incurred.

(11) While franchised sales are not recorded as revenues by the Company, management believes they are important in understanding the Company's financial performance because these sales are the basis on which the Company calculates and records franchised revenues and are indicative of the financial health of the franchisee base.

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### OVERVIEW

#### Description of the business

The Company franchises and operates McDonald's restaurants. Of the 31,967 restaurants in 118 countries at year-end 2008, 25,465 were operated by franchisees (including 18,402 operated by conventional franchisees, 2,926 operated by developmental licensees and 4,137 operated by foreign affiliated markets (affiliates)—primarily in Japan) and 6,502 were operated by the Company. Under our conventional franchise arrangement, franchisees provide a portion of the capital required by initially investing in the equipment, signs, seating and décor of their restaurant businesses, and by reinvesting in the business over time. The Company owns the land and building or secures long-term leases for both Company-operated and conventional franchised restaurant sites. This maintains long-term occupancy rights, helps control related costs and assists in alignment with franchisees. Under our developmental license arrangement, licensees provide capital for the entire business, including the real estate interest, while the Company has no capital invested. In addition, the Company has an equity investment in a limited number of affiliates that invest in real estate and operate or franchise restaurants within a market.

We view ourselves primarily as a franchisor and continually review our mix of Company-operated and franchised (conventional franchised, developmental licensed and affiliated) restaurants to deliver a great customer experience and drive profitability. In most cases, franchising is the best way to achieve both goals. Although direct restaurant operation is more capital-intensive relative to franchising and results in lower restaurant margins as a percent of revenues, Company-operated restaurants are important to our success in both mature and developing markets. In our Company-operated restaurants, and in collaboration with our franchisees, we further develop and refine operating standards, marketing concepts and product and pricing strategies, so that only those that we believe are most beneficial are introduced Systemwide. In addition, we firmly believe that owning restaurants is paramount to being a credible franchisor and essential to providing Company personnel with restaurant operations experience. Our Company-operated business also helps to facilitate strategic changes in restaurant ownership.

The Company's revenues consist of sales by Company-operated restaurants and fees from restaurants operated by franchisees. Revenues from conventional franchised restaurants include rent and royalties based on a percent of sales along with minimum rent payments, and initial fees. Revenues from restaurants licensed to affiliates and developmental licensees include a royalty based on a percent of sales, and may include initial fees. Fees vary by type of site, amount of Company investment, if any, and local business conditions. These fees, along with occupancy and operating rights, are stipulated in franchise/license agreements that generally have 20-year terms.

The business is managed as distinct geographic segments. Significant reportable segments include the United States (U.S.), Europe, and Asia/Pacific, Middle East and Africa (APMEA). In addition, throughout this report we present "Other Countries & Corporate" that includes operations in Canada and Latin America, as well as Corporate activities. The U.S., Europe and APMEA segments account for 34%, 42% and 18% of total revenues,

respectively. France, Germany and the United Kingdom (U.K.), collectively, account for approximately 55% of Europe's revenues; and Australia, China and Japan (a 50%-owned affiliate accounted for under the equity method), collectively, account for over 50% of APMEA's revenues. These six markets along with the U.S. and Canada are referred to as "major markets" throughout this report and comprise over 70% of total revenues.

The Company continues to focus its management and financial resources on the McDonald's restaurant business as we believe the opportunities for long-term growth remain significant. Accordingly, in second quarter 2008, the Company sold its minority ownership interest in U.K.-based Pret A Manger for \$229 million. In connection with the sale, the Company recognized a non-operating gain. During the third quarter 2007, the Company sold its investment in Boston Market. In 2006, the Company disposed of its investment in Chipotle Mexican Grill (Chipotle) via public stock offerings and a tax-free exchange for McDonald's common stock. As a result of the disposals during 2007 and 2006, both Boston Market's and Chipotle's results of operations and transaction gains have been reflected as discontinued operations for all periods presented.

In analyzing business trends, management considers a variety of performance and financial measures, including comparable sales and comparable guest count growth, Systemwide sales growth, restaurant margins and returns.

- Constant currency results exclude the effects of foreign currency translation and are calculated by translating current year results at prior year average exchange rates. Management reviews and analyzes business results in constant currencies and bases certain incentive compensation plans on these results because they believe this better represents the Company's underlying business trends.
- Comparable sales and comparable guest counts are key performance indicators used within the retail industry and are indicative of acceptance of the Company's initiatives as well as local economic and consumer trends. Increases or decreases in comparable sales and comparable guest counts represent the percent change in sales and transactions, respectively, from the same period in the prior year for all restaurants in operation at least thirteen months, including those temporarily closed. Comparable sales exclude the impact of currency translation. Some of the reasons restaurants may be temporarily closed include reimagining or remodeling, rebuilding, road construction and natural disasters. McDonald's reports on a calendar basis and therefore the comparability of the same month, quarter and year with the corresponding period of the prior year will be impacted by the mix of days. The number of weekdays, weekend days and timing of holidays in a given timeframe can have a positive or negative impact on comparable sales and guest counts. The Company refers to these impacts as calendar shift/trading day adjustments. These impacts vary geographically due to consumer spending patterns and have the greatest effect on monthly comparable sales and guest counts while the annual impacts are typically minimal. In 2008, there was an incremental full day of sales and guest counts due to the leap year.
- Systemwide sales include sales at all restaurants, whether operated by the Company or by franchisees. While sales by franchisees are not recorded as revenues by the Company, management believes the information is important in understanding the Company's financial performance because these sales are the basis on which the Company calculates and

records franchised revenues and are indicative of the financial health of our franchisee base.

- Return on incremental invested capital (ROIIC) is a measure reviewed by management over one-year and three-year time periods to evaluate the overall profitability of the business units, the effectiveness of capital deployed and the future allocation of capital. The return is calculated by dividing the change in operating income plus depreciation and amortization (numerator) by the adjusted cash used for investing activities (denominator), primarily capital expenditures. The calculation assumes a constant average foreign exchange rate over the periods included in the calculation.

### **Strategic direction and financial performance**

The strength of the alignment between the Company, its franchisees and suppliers (collectively referred to as the System) has been key to McDonald's success over the years. This business model enables McDonald's to consistently deliver locally-relevant restaurant experiences to customers and be an integral part of the communities we serve. In addition, it facilitates our ability to identify, implement and scale innovative ideas that meet our customers' changing needs and preferences.

McDonald's customer-centered Plan to Win — which is focused on being better, not just bigger — provides a common framework for our restaurants yet allows for local adaptation. The Plan facilitates the execution of multiple initiatives surrounding the five factors of exceptional customer experiences — people, products, place, price and promotion. Through the execution of these initiatives, we have enhanced the McDonald's experience for customers worldwide, growing sales and guest counts in each of the last five years. This Plan, coupled with financial discipline, has delivered strong results for shareholders.

We have exceeded our long-term, constant currency financial targets of average annual Systemwide sales and revenue growth of 3% to 5%; average annual operating income growth of 6% to 7%; and annual returns on incremental invested capital in the high teens every year since the Plan's implementation in 2003, after adjusting 2007 for the Latin America developmental license transaction. Given the size and scope of our global business, we believe these financial targets are realistic and sustainable, enabling us to focus on those opportunities that best optimize long-term shareholder value.

In 2008, we continued to focus on our key global success factors of branded affordability, menu variety and beverage choice, convenience and daypart expansion, ongoing restaurant reinvestment and operations excellence. Locally-relevant initiatives around each of these success factors resonated with consumers' increasingly busy lifestyles and their growing demand for menu variety, value and simple, enjoyable eating-out experiences. As a result, every area of the world contributed to 2008 global comparable sales and guest counts increasing 6.9% and 3.1%, respectively, despite a challenging economic environment in many countries.

In the U.S., we continued to drive sales higher and increase our share of the informal eating-out market in 2008 due to our ongoing focus on breakfast, chicken, beverages, convenience and branded affordability. We extended our leadership in the breakfast and chicken categories with the launch of the Southern Style Chicken Biscuit for breakfast and Southern Style Chicken Sandwich for the remainder of the day. We profitably built greater visit frequency by leveraging our convenient locations, extended hours, drive-thru service and value-oriented local beverage promotions

that often featured our popular Iced Coffee and Sweet Tea. As part of our multi-year strategy to take advantage of the significant and growing beverage category, we began rolling-out espresso-based hot and cold specialty coffees. At year-end 2008, over 7,000 restaurants were offering the new specialty coffees, and we expect to complete the roll-out in mid-2009. To accommodate the related new equipment as well as enable potential future offerings such as smoothies, frappes and bottled beverages, construction is required in many restaurants. In most cases this construction also involves expanding and optimizing the efficiency of our drive-thru booth, which enables us to better serve even more customers, faster. The Company is investing capital to fund a portion of this construction-related reinvestment for franchised restaurants.

In Europe, we posted record-high comparable sales growth in 2008. Every country contributed to this performance, which was led by France, the U.K., Russia and Germany. This success was driven in part by greater local customer relevance created by our tiered menu approach, featuring an effective combination of premium selections, classic menu favorites, everyday value and popular limited-time food promotions. We also connected with customers throughout the day with new sandwiches such as the Bacon Roll for breakfast in the U.K. and premium M burger in France, Germany and the U.K. We continued upgrading the McDonald's experience by reimagining more than 650 locations, primarily in the U.K. and Germany. In addition, we continued the roll-out of a new kitchen operating system — currently in about 5,000 of our European restaurants — to enhance operational efficiency and support greater menu variety. Open communication and transparency is especially important to European consumers. To build brand trust, we actively communicated the facts about McDonald's as an employer and highlighted the quality and nutrition of our food with the early launch of the Company's new global packaging design.

In APMEA, our momentum continued with nearly every country delivering positive comparable sales, driven by Australia, Japan and China. In addition, aggressive restaurant development in China — where we opened our 1,000th restaurant — contributed to revenue growth. Our performance was driven by strategic initiatives surrounding convenience, breakfast, core menu extensions and value. We further enhanced McDonald's convenience with drive-thru and delivery service, as well as expansion of extended hours to 60% (or about 5,000) of our restaurants in APMEA. We built on the momentum of our breakfast business, currently in 70% of our restaurants in APMEA, by raising customer awareness, trial and visit frequency with relevant marketing and new menu offerings like the egg, tomato and pepper McPuff in China. We also continued to appeal to customers with branded affordability platforms and locally-relevant new product launches such as the premium chicken line in Australia and New Zealand.

Our customer-centered strategies to drive global momentum also consider price and product mix as a means to enhance restaurant profitability. This approach is complemented by a focus on optimizing restaurant operations and effectively managing food and paper costs by leveraging our scale, supply chain infrastructure and risk management strategies. As a result, amid a volatile commodity environment, McDonald's delivered consolidated Company-operated restaurant margins of 17.6% — its highest in nine years.

Strong sales and margin performance positively impacted growth in cash from operations, which rose \$1 billion to \$5.9 billion in 2008. Our substantial cash flow, strong credit rating and continued access to credit provides us significant flexibility to

fund capital expenditures and debt repayments as well as return cash to shareholders.

In 2008, capital expenditures of \$2.1 billion were primarily used to open 995 restaurants (590 net, after 405 closings) and reimage 1,450 locations. In addition, we believe strongly in returning cash to shareholders via dividends and share repurchases. In 2008, we returned \$5.8 billion to shareholders, consisting of \$1.8 billion in dividends and \$4.0 billion in share repurchases. This brings total cash returned to \$11.5 billion under our 2007-2009 \$15 billion to \$17 billion target. We are confident we will achieve this cash return target given the ongoing strength and stability of cash from operations and our continued evolution toward a more heavily franchised, less capital-intensive business model.

We believe locally-owned and operated restaurants are at the core of our competitive advantage, making us not just a global brand but also a locally relevant one. In addition, an optimized mix of franchised and Company-operated restaurants helps to maximize brand performance and further enhance the reliability of our cash flow and returns. To that end, in August 2007, the Company completed the sale of its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean, which totaled 1,571 restaurants, to a developmental licensee organization. Under the new ownership structure, the Company receives royalties in these markets instead of a combination of Company-operated sales and franchised rents and royalties.

In addition, in 2007 we set a three-year target to rebrand 1,000 to 1,500 existing Company-operated restaurants between 2008 and 2010, primarily in our major markets. In 2008, we rebranded about 675 restaurants, increasing the percent of franchised restaurants worldwide to 80% from 78% at year-end 2007. This transition to a greater percentage of franchised restaurants is expected to affect consolidated financial statements as follows:

- A negative impact on consolidated revenues as Company-operated sales shift to franchised sales where we receive rent and/or royalties, along with initial fees.
- A decrease in Company-operated margin dollars and an increase in franchised margin dollars, while margin percentages will vary based on sales and cost structures of rebranded restaurants.
- Fluctuations in Other Operating (Income) Expense due to gains and/or losses resulting from sales of restaurants.
- An increase in combined operating margin percent.
- An increase in return on average assets due primarily to a decrease in average asset balances.

#### **Highlights from the year included:**

- Comparable sales grew 6.9% and guest counts rose 3.1%, building on 2007 increases of 6.8% and 3.8%, respectively.
- Systemwide sales increased 11% (9% in constant currencies).
- Company-operated margins improved to 17.6% and franchised margins improved to 82.3%.
- Net income per share from continuing operations was \$3.76, an increase of 16% after adjusting for the impact of the 2007 Latin America transaction.
- Cash provided by operations totaled \$5.9 billion and capital expenditures totaled \$2.1 billion.

- Returned \$5.8 billion to shareholders through shares repurchased and dividends paid, including a 33% increase in the quarterly cash dividend to \$0.50 per share for the fourth quarter – bringing our current annual dividend rate to \$2.00 per share.
- One-year ROIC was 38.9% and three-year ROIC was 37.5% for 2008.

#### **Outlook for 2009**

We will continue to drive success in 2009 and beyond by remaining focused on being better, not just bigger. We will do so by further enhancing our understanding of consumers' needs and wants; facilitating greater sharing and adoption of best practices and new ideas worldwide; and leveraging a strategic approach to implementing initiatives to drive the best bottom-line impact.

Despite challenging economic conditions, the McDonald's System is energized by our current worldwide momentum. We will continue to build on our strength in five key areas: maintaining the balance between price and value; maximizing the benefit of available capital by improving the relevance and contemporary feel of our existing restaurants; leveraging the equity and unique tastes of core menu favorites like the Big Mac, the Quarter Pounder with Cheese and our world-famous French Fries; continuing our financial discipline and evaluation of success measures to ensure these measures are driving actions that positively impact our restaurants; and furthering operations excellence by focusing on improved execution. As we do so, we are confident we can meet or exceed the long-term constant currency financial targets previously discussed.

In the U.S., our 2009 focus is to continue to build relevance and loyalty by staying connected to customers' needs for menu variety and beverage choice, everyday affordability and convenience. Our initiatives will include reminding customers of the enduring appeal of menu classics such as the Big Mac and encouraging trial of new sandwich and beverage options including specialty coffees. Also in 2009, we will continue to offer value across our menu from the Dollar Menu to our premium products, as well as our classic menu favorites and mid-tier offerings such as our Double Cheeseburger and Snack Wraps. These initiatives combined with the convenience of our locations, optimized drive-thru service, cashless transactions and longer operating hours will reinforce McDonald's position as our customers' preferred place and way to eat.

Our priorities in Europe remain upgrading the customer and employee experience, enhancing local relevance and building brand transparency. In 2009, we will continue upgrading our restaurants' ambiance through rebranding, including adding another 200 McCafes primarily in Germany and France. In addition, we will focus on optimizing our drive-thru service, completing the conversion of our kitchen operating system in most European restaurants and increasing total locations offering extended and 24-hour service. We also will strengthen our local relevance by complementing our tiered menu with new products and a relevant variety of limited-time food events featuring beef, chicken, desserts and coffee selections. In the area of brand transparency, we will remain open and accessible and will continue to inform consumers about our food quality and reputation as an employer.

In APMEA, our goal is to be consumers' first choice when eating out. To achieve this goal, locally-relevant strategies surrounding convenience, breakfast and branded affordability are essential in this diverse and dynamic part of the world. Convenience initiatives include leveraging the success of 24-hour or extended operating hours, offering delivery service and building our drive-thru

traffic. We will also aggressively continue to open new restaurants in China. We will further build our breakfast business in APMEA by increasing the number of locations where it is served, utilizing innovative marketing support and launching new products. At the same time, we will continue to highlight our classic menu favorites and offer locally-relevant extensions of these products. In addition, we are further leveraging a strategic pricing tool to optimize menu prices to drive sales and profits.

In 2009, we will continue to optimize the mix of franchised and Company-operated restaurants and will rebrand restaurants under the previously mentioned target. The speed with which we make progress toward this goal will depend on our ability to identify the appropriate prospective franchisees with the experience and financial resources in the relevant markets. We will also continue to evaluate several small markets in APMEA and Europe for potential transition to developmental license structures. We will only convert such markets when we believe that we have identified a qualified licensee and our business is ready for transition to optimize the transaction for the long-term.

As previously discussed, our evolution toward a more heavily franchised, less capital-intensive business model has favorable implications for the amount of capital we invest, the strength and stability of our cash flow and our long-term returns. As a result, we expect free cash flow — cash from operations less capital expenditures — will continue to grow and be a significant source to fund total cash returned to shareholders. In addition, we expect our share repurchase activity will continue to yield reductions in our outstanding share count.

Finally, we will continue to be disciplined financially, remaining diligent about how and where we invest capital and selling, general and administrative expenses to grow our business. Consistent with the last few years, to drive sales and returns we will allocate nearly 50% of our \$2.1 billion of planned 2009 capital expenditures toward reinvestments in existing restaurants, mainly related to the reimagining of locations in Europe and the rollout of the beverage strategy in the U.S. The remainder of our capital expenditures will primarily be used to build new locations.

McDonald's does not provide specific guidance on net income per share. The following information is provided to assist in analyzing the Company's results:

- Changes in Systemwide sales are driven by comparable sales and net restaurant unit expansion. The Company expects net restaurant additions to add nearly 2 percentage points to 2009 Systemwide sales growth (in constant currencies), most of which will be due to the 709 net traditional restaurants added in 2008.
- The Company does not generally provide specific guidance on changes in comparable sales. However, as a perspective, assuming no change in cost structure, a 1 percentage point increase in comparable sales for either the U.S. or Europe would increase annual net income per share by about 3 cents.
- With about 75% of McDonald's grocery bill comprised of 10 different commodities, a basket of goods approach is the most comprehensive way to look at the Company's commodity costs. For the full year 2009, the total basket of goods is expected to rise about 5% to 5.5% in the U.S. and about 4% to 4.5% in Europe with more of this pressure occurring in the first half of the year. Some volatility may be experienced between quarters in the normal course of business.
- The Company expects full-year 2009 selling, general & administrative expenses to decline, in constant currencies, although fluctuations may be experienced between quarters due to certain items in 2008 such as the biennial Worldwide Owner/Operator Convention and the Beijing Summer Olympics.
- Based on current interest and foreign currency exchange rates, the Company expects interest expense in 2009 to be relatively flat compared with 2008. Interest income in 2009 is expected to decrease about 80% compared with 2008 due to expected lower average interest rates and average cash balances.
- A significant part of the Company's operating income is generated outside the U.S., and about 45% of its total debt is denominated in foreign currencies. Accordingly, earnings are affected by changes in foreign currency exchange rates, particularly the Euro, British Pound, Australian Dollar and Canadian Dollar. Collectively, these currencies represent approximately 70% of the Company's operating income outside the U.S. If all four of these currencies moved by 10% in the same direction compared with 2008, the Company's annual net income per share would change by about 12 to 15 cents. Due to the recent strengthening of the U.S. Dollar relative to virtually all foreign currencies, full year 2009 revenues and operating income will likely be negatively impacted by foreign currency translation.
- The Company expects the effective income tax rate for the full-year 2009 to be approximately 29% to 31%. In the normal course of business and based on the timing of certain transactions and events, some volatility may be experienced between the quarters resulting in a quarterly tax rate that is outside the annual range.
- The Company expects capital expenditures for 2009 to be approximately \$2.1 billion. About half of this amount will be reinvested in existing restaurants while the rest will primarily be used to open about 1,000 restaurants (950 traditional and 50 satellites). The Company expects net additions of about 650 restaurants (750 net traditional additions and 100 net satellite closings). These restaurant numbers include new unit openings (approximately 30%) in affiliated and developmental licensed markets, such as Japan and Latin America, where the Company does not fund any capital expenditures.
- For 2007 through 2009, the Company expects to return \$15 billion to \$17 billion to shareholders through share repurchases and dividends, subject to business and market conditions. For 2007 and 2008 combined, the Company returned \$11.5 billion to shareholders.
- The Company continually reviews its restaurant ownership structures to optimize cash flow and returns and to enhance local relevance. The Company expects to rebrand 1,000 to 1,500 Company-operated restaurants between 2008 and 2010, primarily in its major markets, and by continuing to utilize its developmental license strategy. In 2008, the Company rebranded about 675 restaurants, primarily in its major markets.
- In February 2009, consistent with its focus on the McDonald's restaurant business, McDonald's agreed to sell its minority interest in Redbox Automated Retail, LLC, an automated DVD rental service. The Company expects to recognize a nonoperating gain upon the closing of the transaction in first quarter 2009.

## CONSOLIDATED OPERATING RESULTS

nm Not meaningful.

In August 2007, the Company completed the sale of its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean, which totaled 1,571 restaurants, to a developmental licensee organization. The Company refers to these markets as “Latam.” As a result of the Latam transaction, the Company receives royalties in these markets instead of a combination of Company-operated sales and franchised rents and royalties.

Based on approval by the Company's Board of Directors on April 17, 2007, the Company concluded Latam was “held for sale” as of that date in accordance with the requirements of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-lived Assets*. As a result, the Company recorded an impairment charge of \$1.7 billion in 2007, substantially all of which was noncash. The charge included \$896 million for the difference between the net book value of the Latam business and approximately \$675 million in cash proceeds received. This loss in value was primarily due to a historically difficult economic environment coupled with volatility experienced in many of the markets included in this transaction. The charges also included historical foreign currency translation losses of \$769 million recorded in shareholders' equity.

The Company recorded a tax benefit of \$62 million in 2007 in connection with this transaction. As a result of meeting the “held for sale” criteria, the Company ceased recording depreciation expense with respect to Latam effective April 17, 2007. In connection with the sale, the Company agreed to indemnify the buyers for certain tax and other claims, certain of which are reflected as liabilities on McDonald's Consolidated balance sheet, totaling \$142 million at December 31, 2008 and \$179 million at December 31, 2007. The change in the balance was primarily due to foreign currency translation. The Company mitigates the currency impact to income through the use of forward foreign exchange agreements.

The buyers of the Company's operations in Latam entered into a 20-year master franchise agreement that requires the buyers, among other obligations to (i) pay monthly royalties commencing at a rate of approximately 5% of gross sales of the restaurants in these markets, substantially consistent with market rates for similar license arrangements; (ii) commit to adding approximately 150 new McDonald's restaurants by the end of 2010 and pay an initial fee for each new restaurant opened; and (iii) commit to specified annual capital expenditures for existing restaurants.

In addition to the consolidated operating results shown on the previous page, consolidated results for 2007 and adjusted growth rates for 2008 and 2007 are presented in the following table excluding the impact of the Latam transaction. These results include the effect of foreign currency translation further discussed in the section titled Impact of foreign currency translation on reported results. While the Company has converted certain other markets to a developmental license arrangement, management believes the Latam transaction and the associated charge are not indicative of ongoing operations due to the size and scope of the transaction. Management believes that the adjusted operating results better reflect the underlying business trends relevant to the periods presented.

nm Not meaningful.

(1) The results for the full year 2007 included impairment and other charges of \$1,665 million, partly offset by a benefit of \$24 million due to eliminating depreciation on the assets in Latam in mid-April 2007, and a tax benefit of \$62 million.

(2) The following items impact the comparison of adjusted growth in diluted income per share from continuing operations and diluted net income per share for the year ended December 31, 2008 compared with 2007. On a net basis, these items negatively impact the comparison by 7 and 6 percentage points, respectively:

2008

- \$0.09 per share gain on the sale of the Company's minority interest in Pret A Manger.

2007

- \$0.26 per share of income tax benefit resulting from the completion of an Internal Revenue Service (IRS) examination of the Company's 2003-2004 U.S. federal income tax returns; partly offset by
- \$0.02 per share of income tax expense related to the impact of a tax law change in Canada.

(3) The following items impact the comparison of adjusted growth in diluted income per share from continuing operations and diluted net income per share for the year ended December 31, 2007 compared with 2006. On a net basis, these items positively impact the comparison by 15 and 12 percentage points, respectively:

2007

- \$0.26 per share of income tax benefit resulting from the completion of an IRS examination of the Company's 2003-2004 U.S. federal income tax returns; partly offset by
- \$0.02 per share of income tax expense related to the impact of a tax law change in Canada.

2006

- \$0.08 per share of operating expenses primarily related to strategic actions taken to enhance overall profitability and improve returns; and
- \$0.01 per share of incremental income tax expense primarily related to the impact of a tax law change in Canada.

## Net income and diluted net income per common share

In 2008, net income and diluted net income per common share were \$4.3 billion and \$3.76. Results benefited by a \$109 million, or \$0.09 per share, gain on the sale of the Company's minority interest in Pret A Manger.

In 2007, net income and diluted net income per common share were \$2.4 billion and \$1.98. Income from continuing operations was \$2.3 billion or \$1.93 per share, which included \$1.6 billion or \$1.30 per share of net expense related to the Latam transaction. This reflects an impairment charge of \$1.32 per share, partly offset by a \$0.02 per share benefit due to eliminating depreciation on the assets in Latam in mid-April 2007 in accordance with accounting rules. In addition, 2007 results included a net tax benefit of \$288 million or \$0.24 per share resulting from the completion of an IRS examination of the Company's 2003-2004 U.S. federal income tax returns, partly offset by the impact of a tax law change

in Canada. Income from discontinued operations was \$60 million or \$0.05 per share.

In 2006, net income and diluted net income per common share were \$3.5 billion and \$2.83. Income from continuing operations was \$2.9 billion or \$2.29 per share, which included \$134 million (\$98 million after tax or \$0.08 per share) of impairment and other charges primarily related to strategic actions taken to enhance overall profitability and improve returns, as well as \$0.01 per share of net incremental income tax expense primarily related to the impact of a tax law change in Canada. Income from discontinued operations was \$678 million or \$0.54 per share.

Refer to the Impairment and other charges, net and Discontinued operations sections for further discussion.

The Company repurchased 69.7 million shares of its stock for \$4.0 billion in 2008 and 77.1 million shares for \$3.9 billion in 2007, driving reductions of over 4% and 3% of total shares outstanding, respectively, net of stock option exercises.

## Impact of foreign currency translation on reported results

While changing foreign currencies affect reported results, McDonald's mitigates exposures, where practical, by financing in local currencies, hedging certain foreign-denominated cash flows, and purchasing goods and services in local currencies.

In 2008, foreign currency translation had a positive impact on consolidated operating results, driven by the stronger Euro and most other currencies, partly offset by the weaker British Pound. However, in fourth quarter 2008, the U.S. Dollar strengthened significantly against nearly every foreign currency, reducing the full year foreign currency benefit. Due to this strengthening, full year 2009 revenues and operating income will likely be negatively impacted by foreign currency translation. In 2007, foreign currency translation had a positive impact on consolidated operating results, primarily driven by the stronger Euro, British Pound, Australian Dollar and Canadian Dollar. In 2006, consolidated operating results were positively impacted by the stronger Euro, Canadian Dollar and British Pound.

### Impact of foreign currency translation on reported results

Net income per common share—diluted	<b>3.76</b>	1.98	2.83	<b>.09</b>	.12	.01

## Revenues

The Company's revenues consist of sales by Company-operated restaurants and fees from restaurants operated by franchisees. Revenues from conventional franchised restaurants include rent and royalties based on a percent of sales along with minimum rent payments, and initial fees. Revenues from restaurants licensed to affiliates and developmental licensees include a royalty based on a percent of sales, and may include initial fees.

In both 2008 and 2007, consolidated revenue growth was driven by positive comparable sales as well as stronger foreign currencies. Revenue growth in both years was negatively impacted by the Latam transaction. Upon completion of the Latam transaction in August 2007, the Company receives royalties based on a percent of sales in these markets instead of a combination of Company-operated sales and franchised rents and royalties. Revenue growth in 2008 was also partly offset by the impact of the refranchising strategy in certain of the Company's major markets, which resulted in a higher proportion of franchised restaurants compared with 2007.

### Revenues

Dollars in millions	Amount			Increase/(decrease)		Increase/(decrease) excluding currency translation

In the U.S., the increases in revenues in 2008 and 2007 were primarily driven by our market-leading breakfast business and the ongoing appeal of new products, as well as continued focus on everyday value and convenience. New products introduced in 2008 included Southern Style Chicken products, Iced Coffee and Sweet Tea, while new products introduced in 2007 included the Southwest Salad and an extended Snack Wrap line. In 2008, revenue growth was largely offset by the impact of the refranchising strategy.

Europe's constant currency increase in revenues in 2008 and 2007 was primarily due to strong comparable sales in Russia (which is entirely Company-operated), France and the U.K., as well as positive comparable sales in all other markets. These increases were partly offset by the impact of the refranchising strategy, primarily in the U.K. and Germany in 2008 and in the U.K. in 2007.

In APMEA, the constant currency increases in revenues in 2008 and 2007 were primarily driven by strong comparable sales in Australia and China, as well as positive comparable sales throughout the segment. In addition, expansion in China contributed to the increases in both years.

In Other Countries & Corporate, Company-operated sales declined in 2008 and 2007 while franchised revenues increased primarily as a result of the Latam transaction in August 2007.

The following tables present Systemwide sales and comparable sales increases:

#### Systemwide sales increases

	<i>Excluding currency translation</i>			
	2008	2007	2008	2007
U.S.	5%	5%	5%	5%
Europe	15	18	10	9
APMEA	19	17	12	13
Other Countries & Corporate	16	19	14	12
Total	11%	12%	9%	8%

#### Comparable sales increases

	2008	2007	2006
U.S.	4.0%	4.5%	5.2%
Europe	8.5	7.6	5.8
APMEA	9.0	10.6	5.5
Other Countries & Corporate	13.0	10.8	9.4
Total	6.9%	6.8%	5.7%

#### Restaurant Margins

The Company continues to optimize its restaurant ownership mix, cash flow and returns through its refranchising strategy and expects the shift to a greater percentage of franchised restaurants to negatively impact consolidated revenues as Company-operated sales shift to franchised sales, where we receive rent and/or royalties. In addition, the Company expects a decrease in Company-operated margin dollars and an increase in franchised margin dollars, while margin percentages will vary based on sales and cost structures of refranchised restaurants.

#### ▪ Franchised margins

Franchised margin dollars represent revenues from franchised restaurants less the Company's occupancy costs (rent and depreciation) associated with those sites. Franchised margin dollars represented about 65% of the combined restaurant margins in 2008, 2007 and 2006. Franchised margin dollars increased \$695 million or 14% (11% in constant currencies) in 2008 and \$601 million or 14% (10% in constant currencies) in 2007. The August 2007 Latam transaction contributed to the growth in franchised margin dollars in both 2008 and 2007 and the refranchising strategy contributed to the growth in 2008.

#### Franchised margins

<i>In millions</i>	2008	2007	2006
U.S.	\$2,867	\$2,669	\$2,513
Europe	1,965	1,648	1,357
APMEA	511	410	333
Other Countries & Corporate	388	309	232
Total	\$5,731	\$5,036	\$4,435

#### Percent of revenues

	2008	2007	2006
U.S.	83.3%	82.8%	82.3%
Europe	78.6	78.1	77.4
APMEA	89.6	88.3	87.8
Other Countries & Corporate	86.4	81.7	75.6
Total	82.3%	81.5%	80.7%

In the U.S. and APMEA, the franchised margin percent increases in 2008 and 2007 were primarily driven by positive comparable sales. In 2008, the U.S. franchised margin percent was negatively impacted by the refranchising strategy.

Europe's franchised margin percent increased in 2008 and 2007 primarily due to strong comparable sales in most markets, partly offset by the impact of the refranchising strategy. Higher rent expense and the cost of strategic brand and sales building initiatives also negatively affected the franchised margin percent in 2008. The Company will continue to execute these strategies, which are designed to drive comparable guest count growth and long term profitability and are expected to negatively impact the 2009 franchised margin percent.

In Other Countries & Corporate, the franchised margin percent increased in 2008 and 2007 as a result of the Latam transaction. The Company receives royalties based on a percent of sales in these markets.

The franchised margin percent in APMEA and, beginning in 2008, Other Countries & Corporate is higher relative to the U.S. and Europe due to a large proportion of developmental licensed and/or affiliated restaurants where we have royalty income with no corresponding occupancy costs.

#### ▪ Company-operated margins

Company-operated margin dollars represent sales by Company-operated restaurants less the operating costs of these restaurants. Company-operated margin dollars increased \$39 million or 1% (decreased 1% in constant currencies) in 2008 and increased \$372 million or 15% (10% in constant currencies) in 2007. After the Latam transaction in August 2007, there are no Company-operated restaurants remaining in Latin America. Company-operated margin dollars were negatively impacted by this transaction in 2008 and 2007 and by the refranchising strategy in

2008. The refranchising strategy had a positive impact on the margin percent in 2008, primarily in the U.S. and Europe.

*Company-operated margins*

<i>In millions</i>	<b>2008</b>	2007	2006
U.S.	<b>\$ 856</b>	\$ 876	\$ 843
Europe	<b>1,340</b>	1,205	960
APMEA	<b>584</b>	471	341
Other Countries & Corporate	<b>128</b>	317	353
<b>Total</b>	<b>\$2,908</b>	\$2,869	\$2,497

  

<i>Percent of sales</i>			
U.S.	<b>18.5%</b>	18.7%	19.1%
Europe	<b>18.0</b>	17.7	16.3
APMEA	<b>15.9</b>	15.0	12.8
Other Countries & Corporate	<b>15.3</b>	16.1	14.5
<b>Total</b>	<b>17.6%</b>	17.3%	16.2%

In the U.S., the Company-operated margin percent decreased in 2008 and 2007 due to cost pressures including higher commodity and labor costs, partly offset by positive comparable sales.

Europe's Company-operated margin percent increased in 2008 and 2007 primarily due to strong comparable sales, partly offset by higher commodity and labor costs.

In APMEA, the Company-operated margin percent in 2008 and 2007 increased due to strong comparable sales in most markets. Both years were negatively impacted by higher labor costs and 2008 was also negatively impacted by higher commodity costs.

In Other Countries & Corporate, the Company-operated margin in 2007 benefited by about 100 basis points related to the discontinuation of depreciation on the assets in Latam from mid-April through July 2007.

**▪ Supplemental information regarding Company-operated restaurants**

We continually review our restaurant ownership mix with a goal of improving local relevance, profits and returns. In most cases, franchising is the best way to achieve these goals, but as previously stated, Company-operated restaurants are also important to our success.

We report results for Company-operated restaurants based on their sales, less costs directly incurred by that business including occupancy costs. We report the results for franchised restaurants based on franchised revenues, less associated occupancy costs. For this reason and because we manage our business based on geographic segments and not on the basis of our ownership structure, we do not specifically allocate selling, general & administrative expenses and other operating (income) expenses to Company-operated or franchised restaurants. Other operating items that relate to the Company-operated restaurants generally include gains on sales of restaurant businesses and write-offs of equipment and leasehold improvements.

We believe the following information about Company-operated restaurants in our most significant markets provides an additional perspective on this business. Management responsible for our Company-operated restaurants in these markets analyzes the Company-operated business on this basis to assess its performance. Management of the Company also considers this information when evaluating restaurant ownership mix, subject to other relevant considerations.

The following tables seek to illustrate the two components of our Company-operated margins. The first of these relates exclusively to restaurant operations, which we refer to below as "Store operating margin." The second relates to the value of our Brand and the real estate interest we retain for which we charge rent and royalties. We refer to this component as "Brand/real estate margin." Both Company-operated and conventional franchised restaurants are charged rent and royalties, although rent and royalties for Company-operated restaurants are eliminated in consolidation. Rent and royalties for both restaurant ownership types are based on a percentage of sales, and the actual rent percentage varies depending on the level of McDonald's investment in the restaurant. Royalty rates may also vary by market.

As shown in the following tables, in disaggregating the components of our Company-operated margins, certain costs with respect to Company-operated restaurants are reflected in Brand/real estate margin. Those costs consist of rent payable by McDonald's to third parties on leased sites and depreciation for buildings and leasehold improvements and constitute a portion of occupancy & other operating expenses recorded on the Consolidated statement of income. Store operating margins reflect rent and royalty expenses, and those amounts are accounted for as income in calculating Brand/real estate margin.

While we believe that the following information provides a perspective in evaluating our Company-operated business, it is not intended as a measure of our operating performance or as an alternative to operating income or restaurant margins as reported by the Company in accordance with accounting principles generally accepted in the U.S. In particular, as noted above, we do not allocate selling, general & administrative expenses to our Company-operated business. However, we believe that a range of \$40,000 to \$50,000 per restaurant, on average, is a typical range of costs to support this business in the U.S. The actual costs in markets outside the U.S. will vary depending on local circumstances and the organizational structure of the market. These costs reflect the indirect services we believe are necessary to provide the appropriate support of the restaurant.

Dollars in millions	U.S.			Europe		
	2008	2007	2006	2008	2007	2006
<b>As reported</b>						
Number of Company-operated restaurants at year end	1,782	2,090	2,104	2,024	2,177	2,253
Sales by Company-operated restaurants	\$4,636	\$4,682	\$4,410	\$7,424	\$6,817	\$5,885
Company-operated margin	\$856	\$876	\$843	\$1,340	\$1,205	\$960
<b>Store operating margin</b>						
Company-operated margin	\$856	\$876	\$843	\$1,340	\$1,205	\$960
Plus:						
Outside rent expense <sup>(1)</sup>	74	82	82	254	248	229
Depreciation – buildings & leasehold improvements <sup>(1)</sup>	70	78	74	110	107	98
Less:						
Rent & royalties <sup>(2)</sup>	(684)	(691)	(651)	(1,435)	(1,294)	(1,099)
Store operating margin	\$316	\$345	\$348	\$269	\$266	\$188
<b>Brand/real estate margin</b>						
Rent & royalties <sup>(2)</sup>	\$684	\$691	\$651	\$1,435	\$1,294	\$1,099
Less:

Depreciation – buildings & leasehold improvements <sup>(1)</sup>	(70)	(78)	(74)	(110)	(107)	(98)
Brand/real estate margin	\$540	\$531	\$495	\$1,071	\$939	\$772

(1) Represents certain costs recorded as occupancy & other operating expenses on the Consolidated statement of income – rent payable by McDonald's to third parties on leased sites and depreciation for buildings and leasehold improvements. This adjustment is made to reflect these occupancy costs in Brand/real estate margin. The relative percentage of sites that are owned versus leased varies by country.

(2) Reflects average Company-operated rent and royalties (as a percentage of 2008 sales: U.S. – 14.8% and Europe – 19.3%). This adjustment is made to reflect expense in Store operating margin and income in Brand/real estate margin. Countries within Europe have varying economic profiles and a wide range of rent and royalty rates as a percentage of sales.

### Selling, general & administrative expenses

Consolidated selling, general & administrative expenses were flat (decreased 1% in constant currencies) in 2008 and increased 3% (flat in constant currencies) in 2007. The 2008 constant currency change benefited by 3 percentage points due to the 2007 Latam transaction. In 2008, expenses included costs related to the Beijing Summer Olympics and the Company's biennial Worldwide Owner/Operator Convention. In 2007, higher employee-related costs were offset by a reduction in costs due to the Latam transaction.

#### Selling, general & administrative expenses

Dollars in millions	Amount			Increase/(decrease)		Increase/(decrease) excluding currency translation	
	2008	2007	2006	2008	2007	2008	2007
U.S.	\$745	\$744	\$727	—%	2%	—%	2%
Europe	714	689	610	4	13	1	4
APMEA	300	276	238	9	16	8	11
Other Countries & Corporate <sup>(1)</sup>	596	658	721	(9)	(9)	(9)	(10)
Total	\$2,355	\$2,367	\$2,296	—%	3%	(1)%	—%

(1) Included in Other Countries & Corporate are home office support costs in areas such as facilities, finance, human resources, information technology, legal, marketing, restaurant operations, supply chain and training.

Selling, general & administrative expenses as a percent of revenues were 10.0% in 2008 compared with 10.4% in 2007 and 11.0% in 2006. Selling, general & administrative expenses as a percent of Systemwide sales were 3.3% in 2008 compared with 3.7% in 2007 and 4.0% in 2006. Management believes that analyzing selling, general & administrative expenses as a percent of Systemwide sales, as well as revenues, is meaningful because these costs are incurred to support Systemwide restaurants.

## Impairment and other charges, net

On a pretax basis, the Company recorded impairment and other charges, net of \$6 million in 2008, \$1.7 billion in 2007 and \$134 million in 2006. McDonald's management does not include these items when reviewing business performance trends because we do not believe these items are indicative of expected ongoing results.

### Impairment and other charges (credits), net

<i>In millions, except per share data</i>	<b>2008</b>	2007	2006
U.S.			
Europe	<b>\$ 6</b>	\$ (11)	\$ 62
APMEA			48
Other Countries & Corporate		1,681	24
Total	<b>\$ 6</b>	\$1,670	\$134
After tax <sup>(1)</sup>	<b>\$ 4</b>	\$1,606	\$ 98
Income from continuing operations per common share – diluted	<b>\$.01</b>	\$ 1.32	\$.08

(1) Certain items were not tax affected.

In 2008, the charges primarily related to market restructuring costs in Greece.

In 2007, the Company recorded \$1.7 billion of pretax impairment charges primarily related to the Company's sale of its Latam businesses to a developmental licensee organization. In addition, the Company recorded a \$16 million write-off of assets associated with the Toasted Deli Sandwich products in Canada and a net gain of \$14 million as a result of the transfer of the Company's ownership interest in three European markets to a developmental licensee, partly offset by a loss on the transfer of a small market in Europe to a developmental licensee.

In 2006, the charges primarily related to losses of \$36 million incurred on the transfers of the Company's ownership interest in certain markets, primarily in APMEA and Europe, to developmental licensees, costs of \$35 million related to the closing of certain restaurants in the U.K. in conjunction with an overall restaurant portfolio review, costs of \$29 million to buy out certain litigating franchisees in Brazil, asset write-offs and other charges in APMEA of \$18 million, and a loss of \$13 million related to the decision to dispose of supply chain operations in Russia.

## Other operating (income) expense, net

### Other operating (income) expense, net

<i>In millions</i>	<b>2008</b>	2007	2006
Gains on sales of restaurant businesses	<b>\$(126)</b>	\$ (89)	\$(38)
Equity in earnings of unconsolidated affiliates	<b>(111)</b>	(116)	(77)
Asset dispositions and other expense	<b>72</b>	194	184
Total	<b>\$(165)</b>	\$ (11)	\$ 69

#### ▪ Gains on sales of restaurant businesses

Gains on sales of restaurant businesses include gains from sales of Company-operated restaurants as well as gains from exercises of purchase options by franchisees with business facilities lease arrangements (arrangements where the Company leases the businesses, including equipment, to franchisees who generally have options to purchase the businesses). The Company's purchases and sales of businesses with its franchisees are aimed at achieving an optimal ownership mix in each market. Resulting gains or losses are recorded in operating income because the transactions are a recurring part of our business. The Company realized higher gains on sales of restaurant businesses in 2008 and 2007 primarily as a result of selling more Company-operated restaurants in connection with our refranchising strategy in the Company's major markets.

#### ▪ Equity in earnings of unconsolidated affiliates

Unconsolidated affiliates and partnerships are businesses in which the Company actively participates but does not control. The Company records equity in earnings from these entities representing

McDonald's share of results. For foreign affiliated markets – primarily Japan – results are reported after interest expense and income taxes. McDonald's share of results for partnerships in certain consolidated markets such as the U.S. are reported before income taxes. These partnership restaurants are operated under conventional franchise arrangements and are included in conventional franchised restaurant counts. Results in 2008 and 2007 reflected improved results from our Japanese affiliate.

#### ▪ Asset dispositions and other expense

Asset dispositions and other expense consists of gains or losses on excess property and other asset dispositions, provisions for store closings, contingencies and uncollectible receivables, and other miscellaneous expenses. Asset dispositions in 2008 reflected lower losses on restaurant closings and property disposals compared with 2007. In addition, 2008 results included income of \$18 million due to the partial recovery of prior years' sales taxes in the U.K. Results for 2006 reflected a gain of \$26 million related to the sale of an office building in Russia.

## Operating income

### Operating income

Dollars in millions	Amount			Increase/(decrease)		Increase/(decrease) excluding currency translation	
	2008	2007	2006	2008	2007	2008	2007
U.S.	\$3,060	\$ 2,842	\$2,657	8%	7%	8%	7%
Europe	2,608	2,125	1,610	23	32	17	21

Other Countries & Corporate	(44)	(1,704)	(198)	97	nm	97	nm
Total	\$6,443	\$ 3,879	\$4,433	66%	(12)%	62%	(18)%
Latam transaction		(1,641)					
Total excluding Latam transaction*	\$6,443	\$ 5,520	\$4,433	17%	25%	14%	19%

nm Not meaningful.

\* Results for 2007 included the impact of the Latam transaction in Other Countries & Corporate. This impact reflects an impairment charge of \$1,665 million, partly offset by a benefit of \$24 million due to eliminating depreciation on the assets in Latam in mid-April 2007. In order to provide management's view of the underlying business performance, results are also shown excluding the impact of the Latam transaction.

In the U.S., 2008 and 2007 results increased primarily due to higher franchised margin dollars. In 2007, operating income also included higher Company-operated restaurant margin dollars compared with 2006.

In Europe, results for 2008 and 2007 were driven by strong performance in France, Russia and the U.K. as well as positive results in Germany and most other markets. Impairment and other charges, net in 2006 benefited the growth rate in 2007.

In APMEA, results for 2008 were driven by strong results in Australia and China, and positive performance in most other markets. Results for 2007 were driven by improved results in China, Japan, Australia, Hong Kong and most other markets.

#### ▪ Combined operating margin

Combined operating margin is defined as operating income as a percent of total revenues. Combined operating margin for 2008, 2007 and 2006 was 27.4%, 17.0% and 21.2%, respectively. Impairment and other charges negatively impacted the 2007 and 2006 combined operating margin by 7.4 percentage points and 0.7 percentage points, respectively.

#### Interest expense

Interest expense for 2008 increased primarily due to higher average debt levels, and to a lesser extent, higher average interest rates. Interest expense for 2007 increased primarily due to higher average interest rates and stronger foreign currencies, partly offset by lower average debt levels.

#### Nonoperating (income) expense, net

Nonoperating (income) expense, net

In millions	2008	2007	2006
Interest income	\$(85)	\$(124)	\$(152)
Translation and hedging activity	(5)	1	—
Other expense	12	20	29
Total	\$(78)	\$(103)	\$(123)

Interest income consists primarily of interest earned on short-term cash investments. Translation and hedging activity primarily relates to net gains or losses on certain hedges that reduce the exposure to variability on certain intercompany foreign cash flow streams. Other expense primarily consists of gains or losses on early extinguishment of debt and minority interest.

Interest income decreased for 2008 primarily due to lower average interest rates and average cash balances, while 2007 decreased primarily due to lower average cash balances.

#### Gain on Sale of Investment

In second quarter 2008, the Company sold its minority ownership interest in U.K.-based Pret A Manger. In connection with the sale, the Company received cash proceeds of \$229 million and recognized a nonoperating pretax gain of \$160 million (\$109 million after tax).

#### Provision for income taxes

In 2008, 2007 and 2006, the reported effective income tax rates were 30.0%, 34.6%, and 31.0%, respectively.

In 2007, the effective income tax rate was impacted by about 4 percentage points as a result of the following items:

- A negative impact due to a minimal tax benefit of \$62 million related to the Latam impairment charge of \$1,641 million. This benefit was minimal due to the Company's inability to utilize most of the capital losses generated by this transaction in 2007.
- A positive impact due to a benefit of \$316 million resulting from the completion of an IRS examination, partly offset by \$28 million of expense related to the impact of a tax law change in Canada.

Consolidated net deferred tax liabilities included tax assets, net of valuation allowance, of \$1.4 billion in 2008 and 2007. Substantially all of the net tax assets arose in the U.S. and other profitable markets.

#### Discontinued operations

The Company continues to focus its management and financial resources on the McDonald's restaurant business as it believes the opportunities for long-term growth remain significant. Accordingly, during third quarter 2007, the Company sold its investment in Boston Market. In 2006, the Company disposed of its investment in Chipotle via public stock offerings in the first and second quarters and a tax-free exchange for McDonald's common stock in the fourth quarter. As a result of the disposals during 2007 and 2006, both Boston Market's and Chipotle's results of operations and transaction gains are reflected as discontinued operations for all periods presented.

In connection with the Company's sale of its investment in Boston Market in August 2007, the Company received proceeds of approximately \$250 million and recorded a gain of \$69 million after tax. In addition, Boston Market's net income (loss) for 2007 and 2006 was (\$9) million and \$7 million, respectively.

In first quarter 2006, Chipotle completed an IPO of 6.1 million shares resulting in a tax-free gain to McDonald's of \$32 million to reflect an increase in the carrying value of the Company's investment as a result of Chipotle selling shares in the public offering. Concurrent with the IPO, McDonald's sold 3.0 million Chipotle shares, resulting in net proceeds to the Company of \$61 million and an additional gain of \$14 million after tax. In second quarter 2006, McDonald's sold an additional 4.5 million Chipotle shares, resulting in net proceeds to the Company of \$267 million and a gain of \$128 million after tax, while still retaining majority ownership. In fourth quarter 2006, the Company completely separated from Chipotle through a noncash, tax-free exchange of its remaining Chipotle shares for its common stock. McDonald's accepted 18.6 million shares of its common stock in exchange for the 16.5 million shares of Chipotle class B common stock held by McDonald's and recorded a tax-free gain of \$480 million. Chipotle's net income for 2006 was \$18 million.

## Accounting changes

### ▪ SFAS Statement No. 158

In 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R)* (SFAS No. 158). SFAS No. 158 requires the Company to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability on the Consolidated balance sheet and to recognize changes in that funded status in the year changes occur through accumulated other comprehensive income. The Company adopted the applicable provisions of SFAS No. 158 effective December 31, 2006, as required. This resulted in a net decrease to accumulated other comprehensive income of \$89 million, for a limited number of applicable international markets.

### ▪ EITF Issue 06-2

In 2006, the FASB ratified Emerging Issues Task Force (EITF) Issue 06-2, *Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43, Accounting for Compensated Absences* (EITF 06-2). Under EITF 06-2, compensation costs associated with a sabbatical should be accrued over the requisite service period, assuming certain conditions are met. Previously, the Company expensed sabbatical costs as incurred. The Company adopted EITF 06-2 effective January 1, 2007, as required and accordingly, recorded a \$36 million cumulative adjustment, net of tax, to decrease the January 1, 2007 balance of retained earnings. The annual impact to earnings is not significant.

### ▪ FASB Interpretation No. 48

In 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), which is an interpretation of FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also

provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the provisions of FIN 48 effective January 1, 2007, as required. As a result of the implementation of FIN 48, the Company recorded a \$20 million cumulative adjustment to increase the January 1, 2007 balance of retained earnings. FIN 48 requires that a liability associated with an unrecognized tax benefit be classified as a long-term liability except for the amount for which cash payment is anticipated within one year. Upon adoption of FIN 48, \$339 million of tax liabilities, net of deposits, were reclassified from current to long-term and included in other long-term liabilities.

### ▪ SFAS Statement No. 157

In 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements; rather, it applies to other accounting pronouncements that require or permit fair value measurements. The provisions of SFAS No. 157, as issued, were effective January 1, 2008. However, in February 2008, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which allows entities to defer the effective date of SFAS No. 157, for one year, for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (i.e., at least annually). The Company adopted SFAS No. 157 as of January 1, 2008 and elected the deferral for non-financial assets and liabilities. The effect of adopting this standard was not significant, and we do not expect the January 1, 2009 adoption of SFAS No. 157 for non-financial assets and liabilities to have a significant impact on our consolidated financial statements.

### ▪ SFAS Statement No. 141(R)

In 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), *Business Combinations* (SFAS No. 141(R)). SFAS No. 141(R) requires the acquiring entity in a business combination to record all assets acquired and liabilities assumed at their respective acquisition-date fair values, changes the recognition of assets acquired and liabilities assumed arising from preacquisition contingencies, and requires the expensing of acquisition-related costs as incurred. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. We do not expect the adoption of SFAS No. 141(R) to have a significant impact on our consolidated financial statements.

### ▪ SFAS Statement No. 160

In 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (an amendment of Accounting Research Bulletin No. 51 (ARB 51)) (SFAS No. 160). SFAS No. 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 becomes effective beginning January 1, 2009 and is required to be adopted prospectively, except for the reclassification of noncontrolling interests to equity and the recasting of net income (loss) attributable to both the controlling and noncontrolling interests, which are required to be

adopted retrospectively. We do not expect the adoption of SFAS No. 160 to have a significant impact on our consolidated financial statements.

## CASH FLOWS

The Company generates significant cash from its operations and has substantial credit availability and capacity to fund operating and discretionary spending such as capital expenditures, debt repayments, dividends and share repurchases.

Cash provided by operations totaled \$5.9 billion and exceeded capital expenditures by \$3.8 billion in 2008, while cash provided by operations totaled \$4.9 billion and exceeded capital expenditures by \$2.9 billion in 2007. In 2008, cash provided by operations increased \$1.0 billion or 21% compared to 2007 primarily due to increased operating results and changes in working capital, partly due to lower income tax payments and the receipt of \$143 million related to an IRS examination completed in 2007. In 2007, cash provided by operations increased \$535 million compared to 2006 primarily due to increased operating results and lower income tax payments.

Cash used for investing activities totaled \$1.6 billion in 2008, an increase of \$475 million compared with 2007. Proceeds from certain asset sales were lower in 2008 (Pret A Manger) than 2007 (Latam and Boston Market). In addition, capital expenditures increased \$189 million in 2008, primarily driven by increases in Europe and APMEA, partly offset by the elimination of capital expenditures as a result of the Latam transaction. The increase in cash used for investing activities was partly offset by higher proceeds from the sales of restaurant businesses and property and lower expenditures on purchases of restaurant businesses in conjunction with our overall refranchising strategy. Cash used for investing activities totaled \$1.2 billion in 2007, a decrease of \$124 million compared with 2006, primarily due to net proceeds received from the Latam transaction and the sale of Boston Market in 2007, partly offset by higher capital expenditures.

Cash used for financing activities totaled \$4.1 billion in 2008, an increase of \$118 million compared with 2007. Financing activities in 2008 reflected lower proceeds from stock option exercises, mostly offset by higher net debt issuances. In 2007, cash used for financing activities totaled \$4.0 billion, a decrease of \$1.5 billion compared to 2006, primarily due to higher net debt issuances, partly offset by higher treasury stock purchases and an increase in the common stock dividend.

As a result of the above activity, the Company's cash and equivalents balance increased \$82 million in 2008 to \$2.1 billion, compared with a decrease of \$147 million in 2007. In addition to cash and equivalents on hand and cash provided by operations, the Company can meet short-term funding needs through its continued access to commercial paper borrowings and line of credit agreements.

## Restaurant development and capital expenditures

In 2008, the Company opened 918 traditional restaurants and 77 satellite restaurants (small, limited-menu restaurants for which the land and building are generally leased), and closed 209 traditional restaurants and 196 satellite restaurants. In 2007, the Company opened 743 traditional restaurants and 93 satellite restaurants, and closed 240 traditional restaurants and 265 satellite restaurants. About 60% of restaurant openings and more than 75% of restaurant closings occurred in the major markets in both years.

## Systemwide restaurants at year end<sup>(1)</sup>

	2008	2007	2006
U.S.	13,918	13,862	13,774
Europe	6,628	6,480	6,403
APMEA	8,255	7,938	7,822
Other Countries & Corporate	3,166	3,097	3,047
Total	31,967	31,377	31,046

(1) Includes satellite units at December 31, 2008, 2007 and 2006 as follows: U.S.—1,169, 1,233, 1,254; Europe—226, 214, 201; APMEA (primarily Japan)—1,379, 1,454, 1,640; Other Countries & Corporate—447, 439, 417.

In 2009, the Company expects to open about 950 traditional restaurants and 50 satellite restaurants and close about 200 traditional restaurants and 150 satellite restaurants. About 60% of total openings and 70% of total closings will be in major markets.

Approximately 65% of Company-operated restaurants and about 80% of franchised restaurants were located in the major markets at the end of 2008. Franchisees operated 80% of the restaurants at year-end 2008.

Capital expenditures increased \$189 million or 10% in 2008 and \$205 million or 12% in 2007. The increases in capital expenditures in both years were primarily due to higher investment in new restaurants — in Europe and APMEA in 2008 and in Europe and the U.S. in 2007. Capital expenditures reflected the Company's commitment to growing sales at existing restaurants, including reinvestment initiatives such as reimaging in many markets around the world in both years and the Combined Beverage Business in the U.S. in 2008. Capital expenditures related to discontinued operations were \$10 million and \$82 million in 2007 and 2006, respectively. The expenditures in 2007 primarily related to investment in existing Boston Market restaurants and expenditures in 2006 primarily related to new Chipotle restaurants.

Capital expenditures invested in major markets, excluding Japan, represented over 70% of the total in 2008, 2007 and 2006. Japan is accounted for under the equity method, and accordingly its capital expenditures are not included in consolidated amounts.

## Capital expenditures

In millions	2008	2007	2006
New restaurants	\$ 897	\$ 687	\$ 530
Existing restaurants	1,152	1,158	1,075
Other <sup>(1)</sup>	87	102	137
Total capital expenditures	\$ 2,136	\$ 1,947	\$ 1,742
Total assets	\$28,462	\$29,392	\$28,974

(1) Primarily corporate equipment and other office related expenditures.

New restaurant investments in all years were concentrated in markets with acceptable returns or opportunities for long-term growth. Average development costs vary widely by market depending on the types of restaurants built and the real estate and construction costs within each market. These costs, which include land, buildings and equipment, are managed through the use of optimally sized restaurants, construction and design efficiencies and leveraging best practices. In addition, foreign currency fluctuations affect average development costs. Although the Company is not responsible for all costs for every restaurant opened, total development costs (consisting of land, buildings and equipment) for new traditional McDonald's restaurants in the U.S. averaged approximately \$2.6 million in 2008.

The Company owned approximately 45% of the land and about 70% of the buildings for restaurants in its consolidated markets at year-end 2008 and 2007.

### Share repurchases and dividends

For 2007 through 2009, the Company expects to return \$15 billion to \$17 billion to shareholders through a combination of share repurchases and dividends, subject to business and market conditions. In 2008, the Company returned \$5.8 billion to shareholders through a combination of shares repurchased and dividends paid, bringing the two-year total returned to shareholders for 2007 and 2008 to \$11.5 billion.

### Shares repurchased and dividends

<i>In millions, except per share data</i>	2008	2007	2006
Number of shares repurchased <sup>(1)</sup>	69.7	77.1	98.4
Shares outstanding at year end	1,115	1,165	1,204
Dividends declared per share	\$1.625	\$ 1.50	\$ 1.00
Dollar amount of shares repurchased <sup>(1)</sup>	\$3,981	\$3,949	\$3,719
Dividends paid	1,823	1,766	1,217
<b>Total returned to shareholders</b>	<b>\$5,804</b>	<b>\$5,715</b>	<b>\$4,936</b>

(1) 2006 included 18.6 million shares or \$743.6 million acquired through the October 2006 Chipotle exchange.

In September 2007, the Company's Board of Directors approved a \$10 billion share repurchase program with no specified expiration date. In 2007 and 2008 combined, approximately 147 million shares have been repurchased for \$7.9 billion, of which 97 million shares or \$5.6 billion were purchased under this program. The Company reduced its shares outstanding at year end by over 4% compared with 2007, net of stock option exercises.

The Company has paid dividends on its common stock for 33 consecutive years and has increased the dividend amount every year. The Company's Board of Directors decided that beginning in 2008, dividends declared will be paid on a quarterly basis, at the Board's discretion. The 2008 full year dividend of \$1.625 per share reflects the quarterly dividend paid for each of the first three quarters of \$0.375 per share, with an increase to \$0.50 per share paid in the fourth quarter. This 33% increase in the quarterly dividend equates to a \$2.00 per share annual dividend rate and reflects the Company's confidence in the ongoing strength and reliability of its cash flow. As in the past, future dividend amounts will be considered after reviewing profitability expectations and financing needs.

## FINANCIAL POSITION AND CAPITAL RESOURCES

### Total assets and returns

Total assets decreased \$930 million or 3% in 2008. Excluding the effect of changes in foreign currency exchange rates, total assets increased \$784 million in 2008 primarily due to capital expenditures. Over 70% of total assets were in major markets at year-end 2008. Net property and equipment decreased \$730 million in 2008 and represented about 70% of total assets at year end. Excluding the effect of changes in foreign currency exchange rates, net property and equipment increased \$681 million.

Operating income is used to compute return on average assets, while income from continuing operations is used to calculate return on average common equity. Month-end balances are used to compute both average assets and average common equity. Assets

of discontinued operations are excluded from average assets since operating income excludes results from discontinued operations.

### Returns on assets and equity

	2008	2007	2006
Return on average assets	21.8%	13.2%	15.0%
Return on average common equity	30.6	15.1	18.4

In 2008 and 2007, return on average assets and return on average common equity both benefited from strong operating results in the U.S., Europe and APMEA. During 2009, the Company will continue to concentrate restaurant openings and invest new capital in markets with acceptable returns or opportunities for long-term growth.

Impairment and other charges reduced return on average assets by 5.4 percentage points and 0.4 percentage points in 2007 and 2006, respectively. In addition, impairment and other charges, partly offset by the 2007 net tax benefit resulting from the completion of an IRS examination, reduced return on average common equity by 8.5 percentage points and 0.6 percentage points in 2007 and 2006, respectively.

Operating income, as reported, does not include interest income; however, cash balances are included in average assets. The inclusion of cash balances in average assets reduced return on average assets by 1.9 percentage points, 1.3 percentage points and 2.1 percentage points in 2008, 2007 and 2006, respectively.

### Financing and market risk

The Company generally borrows on a long-term basis and is exposed to the impact of interest rate changes and foreign currency fluctuations. Debt obligations at December 31, 2008 totaled \$10.2 billion, compared with \$9.3 billion at December 31, 2007. The net increase in 2008 was primarily due to net issuances of \$1.0 billion, partly offset by the impact of changes in exchange rates on foreign currency denominated debt of \$155 million.

### Debt highlights <sup>(1)</sup>

	2008	2007	2006
Fixed-rate debt as a percent of total debt <sup>(2,3)</sup>	72%	58%	49%
Weighted-average annual interest rate of total debt <sup>(3)</sup>	5.0	4.7	4.1
Foreign currency-denominated debt as a percent of total debt <sup>(2)</sup>	45	66	80
Total debt as a percent of total capitalization (total debt and total shareholders' equity) <sup>(2)</sup>	43	38	35
Cash provided by operations as a percent of total debt <sup>(2)</sup>	59	53	52

(1) All percentages are as of December 31, except for the weighted-average annual interest rate, which is for the year.

(2) Based on debt obligations before the effect of SFAS No. 133 fair value adjustments. This effect is excluded as these adjustments have no impact on the obligation at maturity. See Debt financing note to the consolidated financial statements.

(3) Includes the effect of interest rate exchange agreements.

Fitch, Standard & Poor's and Moody's currently rate, with a stable outlook, the Company's commercial paper F1, A-1 and P-2, respectively; and its long-term debt A, A and A3, respectively. The Company's key metrics for monitoring its credit structure are shown in the preceding table. While the Company targets these metrics for ease of focus, it also considers similar credit ratios that incorporate capitalized operating leases to estimate total adjusted debt. Total

adjusted debt, a term that is commonly used by the rating agencies referred to above, includes debt outstanding on the Company's balance sheet plus an adjustment to capitalize operating leases. Based on their most recent calculations, these agencies add between \$6 billion and \$12 billion to debt for lease capitalization purposes, which increases total debt as a percent of total capitalization and reduces cash provided by operations as a percent of total debt for credit rating purposes. The Company believes the rating agency methodology for capitalizing leases requires certain adjustments. These adjustments include: excluding percent rents in excess of minimum rents; excluding certain Company-operated restaurant lease agreements outside the U.S. that are cancelable with minimal penalties (representing approximately 30% of Company-operated restaurant minimum rents outside the U.S., based on the Company's estimate); capitalizing non-restaurant leases using a multiple of three times rent expense; and reducing total rent expense by a percentage of the annual minimum rent payments due to the Company from franchisees operating on leased sites. Based on this calculation, for credit analysis purposes, approximately \$4 billion to \$5 billion of future operating lease payments would be capitalized.

Certain of the Company's debt obligations contain cross-acceleration provisions and restrictions on Company and subsidiary mortgages and the long-term debt of certain subsidiaries. There are no provisions in the Company's debt obligations that would accelerate repayment of debt as a result of a change in credit ratings or a material adverse change in the Company's business. Under existing authorization from the Company's Board of Directors, at December 31, 2008, the Company has approximately \$2.3 billion of authority remaining to borrow funds, including through (i) public or private offering of debt securities; (ii) issuance of commercial paper; (iii) direct borrowing from banks or other financial institutions; and (iv) other forms of indebtedness. In addition to registered debt securities on a U.S. shelf registration statement and a Euro Medium-Term Notes program, the Company has \$1.3 billion available under a committed line of credit agreement (see Debt financing note to the consolidated financial statements). Debt maturing in 2009 is approximately \$400 million of long-term corporate debt and \$230 million of outstanding commercial paper. In 2009, the Company expects to issue commercial paper and long-term debt in order to refinance this maturing debt and potentially finance a portion of the Company's previously disclosed 2007-2009 expectation to return \$15 billion to \$17 billion to shareholders. The Company also has \$625 million of foreign currency bank line borrowings outstanding at year-end.

Historically, the Company has not experienced difficulty in obtaining financing or refinancing existing debt. Although the recent instability in the financial markets has resulted in constraints on available credit, the Company's ability to raise funding in the long-term and short-term debt capital markets has not been adversely affected. In November 2008, the Company directly borrowed 40 billion Japanese Yen (\$440 million) via a floating-rate syndicated term loan maturing in 2014. In January 2009, the Company issued \$400 million of 10-year U.S. Dollar-denominated notes at a coupon rate of 5.0%, and \$350 million of 30-year U.S. Dollar-denominated bonds at a coupon rate of 5.7%.

The Company uses major capital markets, bank financings and derivatives to meet its financing requirements and reduce interest expense. The Company manages its debt portfolio in response to changes in interest rates and foreign currency rates by periodically retiring, redeeming and repurchasing debt, terminating exchange agreements and using derivatives. The Company does not use derivatives with a level of complexity or with a risk higher than the exposures to be hedged and does not hold or issue derivatives for trading purposes. All exchange agreements are over-the-counter instruments.

In managing the impact of interest rate changes and foreign currency fluctuations, the Company uses interest rate exchange agreements and finances in the currencies in which assets are denominated. Derivatives were recorded at fair value on the Company's Consolidated balance sheet at December 31, 2008 as follows: miscellaneous other assets—\$88 million; prepaid expenses and other current assets—\$44 million; accrued payroll and other liabilities—\$22 million; and other long-term liabilities (excluding accrued interest)—\$4 million. For the year ended December 31, 2007, the Company's derivatives were recorded in miscellaneous other assets—\$64 million and other long-term liabilities (excluding accrued interest)—\$70 million. See Summary of significant accounting policies note to the consolidated financial statements related to financial instruments for additional information regarding their use and the impact of SFAS No. 133 regarding derivatives.

The Company uses foreign currency debt and derivatives to hedge the foreign currency risk associated with certain royalties, intercompany financings and long-term investments in foreign subsidiaries and affiliates. This reduces the impact of fluctuating foreign currencies on cash flows and shareholders' equity. Total foreign currency-denominated debt was \$4.5 billion and \$6.1 billion at December 31, 2008 and 2007, respectively. In addition, where practical, the Company's restaurants purchase goods and services in local currencies resulting in natural hedges.

The Company does not have significant exposure to any individual counterparty and has master agreements that contain netting arrangements. Certain of these agreements also require each party to post collateral if credit ratings fall below, or aggregate exposures exceed, certain contractual limits. At December 31, 2008, neither the Company nor its counterparties were required to post collateral on any derivative position.

The Company's net asset exposure is diversified among a broad basket of currencies. The Company's largest net asset exposures (defined as foreign currency assets less foreign currency liabilities) at year end were as follows:

#### *Foreign currency net asset exposures*

<i>In millions of U.S. Dollars</i>	<b>2008</b>	<b>2007</b>
<b>Euro</b>	<b>\$4,551</b>	<b>\$3,999</b>
<b>Australian Dollars</b>	<b>1,023</b>	<b>1,147</b>
<b>Canadian Dollars</b>	<b>795</b>	<b>929</b>
<b>British Pounds Sterling</b>	<b>785</b>	<b>634</b>
<b>Russian Ruble</b>	<b>407</b>	<b>463</b>

The Company prepared sensitivity analyses of its financial instruments to determine the impact of hypothetical changes in interest rates and foreign currency exchange rates on the Company's results of operations, cash flows and the fair value of its financial instruments. The interest rate analysis assumed a one percentage point adverse change in interest rates on all financial instruments but did not consider the effects of the reduced level of economic activity that could exist in such an environment. The foreign currency rate analysis assumed that each foreign currency rate would change by 10% in the same direction relative to the U.S. Dollar on all financial instruments; however, the analysis did not include the potential impact on revenues, local currency prices or the effect of fluctuating currencies on the Company's anticipated foreign currency royalties and other payments received in the U.S. Based on the results of these analyses of the Company's financial instruments, neither a one percentage point adverse change in interest rates from 2008 levels nor a 10% adverse change in foreign currency rates from 2008 levels would materially affect the Company's results of operations, cash flows or the fair value of its financial instruments.

## Contractual obligations and commitments

The Company has long-term contractual obligations primarily in the form of lease obligations (related to both Company-operated and franchised restaurants) and debt obligations. In addition, the Company has long-term revenue and cash flow streams that relate to its franchise arrangements. Cash provided by operations (including cash provided by these franchise arrangements) along with the Company's borrowing capacity and other sources of cash will be used to satisfy the obligations. The following table summarizes the Company's contractual obligations and their aggregate maturities as well as future minimum rent payments due to the Company under existing franchise arrangements as of December 31, 2008. See discussions of cash flows and financial position and capital resources as well as the Notes to the consolidated financial statements for further details.

In millions	Contractual cash outflows		Contractual cash inflows
	Operating leases	Debt obligations <sup>(1)</sup>	Minimum rent under franchise arrangements
2009	\$ 1,046	\$ 32	\$ 2,090
2010	972	616	2,028
2011	891	611	1,952
2012	809	2,214	1,886
2013	746	657	1,809
Thereafter	5,614	5,980	13,641
Total	\$10,078	\$10,110	\$23,406

(1) The maturities reflect reclassifications of short-term obligations to long-term obligations of \$1.3 billion, as they are supported by a long-term line of credit agreement expiring in 2012. Debt obligations do not include \$108 million of SFAS No. 133 noncash fair value adjustments because these adjustments have no impact on the obligation at maturity, as well as \$174 million of accrued interest.

The Company maintains certain supplemental benefit plans that allow participants to (i) make tax-deferred contributions and (ii) receive Company-provided allocations that cannot be made under the qualified benefit plans because of IRS limitations. The investment alternatives and returns are based on certain market-rate investment alternatives under the Company's qualified Profit Sharing and Savings Plan. Total liabilities for the supplemental plans were \$390 million at December 31, 2008 and were primarily included in other long-term liabilities on the Consolidated balance sheet. Also included in other long-term liabilities at December 31, 2008 were gross unrecognized tax benefits of \$272 million and liabilities for international retirement plans of \$131 million.

In connection with the Latam transaction, the Company has agreed to indemnify the buyers for certain tax and other claims, certain of which are reflected in other long-term liabilities on McDonald's Consolidated balance sheet totaling \$142 million at year-end 2008.

## OTHER MATTERS

### Critical accounting policies and estimates

Management's discussion and analysis of financial condition and results of operations is based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses as well as related disclosures. On an ongoing basis, the Company evaluates its estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under various assumptions or conditions.

The Company reviews its financial reporting and disclosure practices and accounting policies quarterly to ensure that they provide accurate and transparent information relative to the current economic and business environment. The Company believes that of its significant accounting policies, the following involve a higher degree of judgment and/or complexity:

### ▪ Property and equipment

Property and equipment are depreciated or amortized on a straight-line basis over their useful lives based on management's estimates of the period over which the assets will generate revenue (not to exceed lease term plus options for leased property). The useful lives are estimated based on historical experience with similar assets, taking into account anticipated technological or other changes. The Company periodically reviews these lives relative to physical factors, economic factors and industry trends. If there are changes in the planned use of property and equipment, or if technological changes occur more rapidly than anticipated, the useful lives assigned to these assets may need to be shortened, resulting in the recognition of increased depreciation and amortization expense or write-offs in future periods.

### ▪ Share-based compensation

The Company has a share-based compensation plan which authorizes the granting of various equity-based incentives including stock options and restricted stock units (RSUs) to employees and non-employee directors. The expense for these equity-based incentives is based on their fair value at date of grant and generally amortized over their vesting period.

The fair value of each stock option granted is estimated on the date of grant using a closed-form pricing model. The pricing model requires assumptions, such as the expected life of the stock option, the risk-free interest rate and expected volatility of the Company's stock over the expected life, which significantly impact the assumed fair value. The Company uses historical data to determine these assumptions and if these assumptions change significantly for future grants, share-based compensation expense will fluctuate in future years. The fair value of each RSU granted is equal to the market price of the Company's stock at date of grant less the present value of expected dividends over the vesting period.

### ▪ Long-lived assets impairment review

Long-lived assets (including goodwill) are reviewed for impairment annually in the fourth quarter and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In assessing the recoverability of the Company's long-lived assets, the Company considers changes in economic conditions and makes assumptions regarding estimated future cash flows and other factors. Estimates of future cash flows are highly subjective judgments based on the Company's experience and knowledge of its operations. These estimates can be significantly impacted by many factors including changes in global and local business and economic conditions, operating costs, inflation, competition, and consumer and demographic trends. A key assumption impacting estimated future cash flows is the estimated change in comparable sales. If the Company's estimates or underlying assumptions change in the future, the Company may be required to record impairment charges.

When the Company sells an existing business to a developmental licensee, it determines when these businesses are "held for sale" in accordance with the requirements of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-lived Assets*. Impairment charges on assets held for sale are recognized when

management and, if required, the Company's Board of Directors have approved and committed to a plan to dispose of the assets, the assets are available for disposal, the disposal is probable of occurring within 12 months, and the net sales proceeds are expected to be less than the assets' net book value, among other factors. An impairment charge is recognized for the difference between the net book value of the business (including foreign currency translation adjustments recorded in accumulated other comprehensive income in shareholders' equity) and the estimated cash sales price, less costs of disposal.

An alternative accounting policy would be to recharacterize some or all of any loss as an intangible asset and amortize it to expense over future periods based on the term of the relevant licensing arrangement and as revenue is recognized for royalties and initial fees. Under this alternative for the 2007 Latam transaction, approximately \$900 million of the \$1.7 billion impairment charge could have been recharacterized as an intangible asset and amortized over the franchise term of 20 years, resulting in about \$45 million of expense annually. This policy would be based on a view that the consideration for the sale consists of two components—the cash sales price and the future royalties and initial fees.

The Company bases its accounting policy on management's determination that royalties payable under its developmental license arrangements are substantially consistent with market rates for similar license arrangements. The Company does not believe it would be appropriate to recognize an asset for the right to receive market-based fees in future periods, particularly given the continuing support and services provided to the licensees. Therefore, the Company believes that the recognition of an impairment charge based on the net cash sales price reflects the substance of the sale transaction.

#### ▪ **Litigation accruals**

From time to time, the Company is subject to proceedings, lawsuits and other claims related to competitors, customers, employees, franchisees, government agencies, intellectual property, shareholders and suppliers. The Company is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after careful analysis of each matter. The required accrual may change in the future due to new developments in each matter or changes in approach such as a change in settlement strategy in dealing with these matters. The Company does not believe that any such matter currently being reviewed will have a material adverse effect on its financial condition or results of operations.

#### ▪ **Income taxes**

The Company records a valuation allowance to reduce its deferred tax assets if it is more likely than not that some portion or all of the deferred assets will not be realized. While the Company has considered future taxable income and ongoing prudent and feasible tax strategies, including the sale of appreciated assets, in assessing the need for the valuation allowance, if these estimates and assumptions change in the future, the Company may be required to adjust its valuation allowance. This could result in a charge to, or an increase in, income in the period such determination is made.

In addition, the Company operates within multiple taxing jurisdictions and is subject to audit in these jurisdictions. The Company records accruals for the estimated outcomes of these audits, and the accruals may change in the future due to new developments in each matter. During 2008, the IRS examination of the Company's 2005-2006 U.S. tax returns was completed. The tax provision impact associated with the

completion of this examination was not significant. During 2007, the Company recorded a \$316 million benefit as a result of the completion of an IRS examination of the Company's 2003-2004 U.S. tax returns. The Company's 2007 U.S. tax return is currently under examination and the completion of the examination, which will ultimately include the 2008 U.S. tax return, is expected in 2011.

Deferred U.S. income taxes have not been recorded for temporary differences totaling \$6.9 billion related to investments in certain foreign subsidiaries and corporate joint ventures. The temporary differences consist primarily of undistributed earnings that are considered permanently invested in operations outside the U.S. If management's intentions change in the future, deferred taxes may need to be provided.

#### **Effects of changing prices—inflation**

Although inflationary cost pressures increased globally in 2008, the Company has demonstrated an ability to manage inflationary cost increases effectively. This is because of rapid inventory turnover, the ability to adjust menu prices, cost controls and substantial property holdings, many of which are at fixed costs and partly financed by debt made less expensive by inflation.

#### **Reconciliation of returns on incremental invested capital**

Return on incremental invested capital (ROIIC) is a measure reviewed by management over one-year and three-year time periods to evaluate the overall profitability of the business units, the effectiveness of capital deployed and the future allocation of capital. This measure is calculated using operating income and constant foreign exchange rates to exclude the impact of foreign currency translation. The numerator is the Company's incremental operating income plus depreciation and amortization, from the base period, adjusted for the impact of the Latam transaction in 2007. While the Company has converted certain other markets to a developmental license arrangement, management believes the Latam transaction and the associated charge are not indicative of ongoing operations due to the size and scope of the transaction. Management believes that the adjusted operating results better reflect the underlying business trends relevant to the periods presented.

The denominator is the weighted-average adjusted cash used for investing activities during the applicable one- or three-year period. Adjusted cash used for investing activities is defined as cash used for investing activities less cash generated from investing activities related to the Boston Market, Chipotle, Latam and Pret A Manger transactions. The weighted-average adjusted cash used for investing activities is based on a weighting applied on a quarterly basis. These weightings are used to reflect the estimated contribution of each quarter's investing activities to incremental operating income. For example, fourth quarter 2008 investing activities are weighted less because the assets purchased have only recently been deployed and would have generated little incremental operating income (12.5% of fourth quarter 2008 investing activities are included in the one-year and three-year calculations). In contrast, fourth quarter 2007 is heavily weighted because the assets purchased were deployed more than 12 months ago, and therefore have a full year impact on 2008 operating income, with little or no impact to the base period (87.5% and 100.0% of fourth quarter 2007 investing activities are included in the one-year and three-year calculations, respectively). Management believes that weighting cash used for investing activities provides a more accurate reflection of the relationship between its investments and returns than a simple average.

The reconciliations to the most comparable measurements, in accordance with accounting principles generally accepted in the U.S., for the numerator and denominator of the one-year and three-year ROIC are as follows:

#### One-year ROIC calculation

	Years ended December 31, 2008	2007	Incremental change
<b>NUMERATOR:</b>			
Operating income	\$6,442.9	\$3,879.0	\$ 2,563.9
Depreciation and amortization <sup>(1)</sup>	1,207.8	1,192.8	15.0
Latam transaction		1,665.3	(1,665.3)
Currency translation <sup>(2)</sup>			(180.7)
<b>Incremental adjusted operating income plus depreciation and amortization (at constant foreign exchange rates)</b>			<b>\$ 732.9</b>
<b>DENOMINATOR:</b>			
Weighted-average adjusted cash used for investing activities <sup>(3)</sup>		\$ 1,911.9	
Currency translation <sup>(2)</sup>			(25.9)
<b>Weighted-average adjusted cash used for investing activities (at constant foreign exchange rates)</b>			<b>\$ 1,886.0</b>
<b>One-year ROIC</b>			<b>38.9%</b>

(1) Represents depreciation and amortization from continuing operations.

(2) Represents the effect of foreign currency translation by translating results at an average exchange rate for the periods measured.

(3) Represents one-year weighted-average adjusted cash used for investing activities, determined by applying the weightings below to the adjusted cash used for investing activities for each quarter in the two-year period ended December 31, 2008.

	Years ended December 31,	
	2007	2008
Cash used for investing activities	\$1,150.1	\$1,624.7
Less: Cash generated from investing activities related to Boston Market	(184.3)	
Less: Cash generated from investing activities related to Latam transaction	(647.5)	
Less: Cash generated from investing activities related to Pret A Manger transaction		(229.4)
Adjusted cash used for investing activities	\$1,981.9	\$1,854.1
<b>AS A PERCENT</b>		
Quarters ended:		
March 31	12.5%	87.5%
June 30	37.5	62.5
September 30	62.5	37.5
December 31	87.5	12.5

#### Three-year ROIC calculation

	Years ended December 31, 2008	2005	Incremental change
<b>NUMERATOR:</b>			
Operating income	\$6,442.9	\$3,984.0	\$2,458.9
Depreciation and amortization <sup>(4)</sup>	1,207.8	1,187.6	20.2
Currency translation <sup>(5)</sup>			(508.3)
<b>Incremental adjusted operating income plus depreciation and amortization (at constant foreign exchange rates)</b>			<b>\$1,970.8</b>
<b>DENOMINATOR:</b>			
Weighted-average adjusted cash used for investing activities <sup>(6)</sup>			\$5,267.5
Currency translation <sup>(5)</sup>			(14.0)
<b>Weighted-average adjusted cash used for investing activities (at constant foreign exchange rates)</b>			<b>\$5,253.5</b>
<b>Three-year ROIC</b>			<b>37.5%</b>

(4) Represents depreciation and amortization from continuing operations.

(5) Represents the effect of foreign currency translation by translating results at an average exchange rate for the periods measured.

(6) Represents three-year weighted-average adjusted cash used for investing activities, determined by applying the weightings below to the adjusted cash used for investing activities for each quarter in the four-year period ended December 31, 2008.

	Years ended December 31,			
	2005	2006	2007	2008
Cash used for investing activities	\$1,817.8	\$1,274.1	\$1,150.1	\$1,624.7
Less:				
Cash (generated from) used for investing activities related to Boston Market & Chipotle	109.0	(203.8)	(184.3)	
Less: Cash generated from investing activities related to Latam transaction				(647.5)
Less: Cash generated from investing activities related to Pret A Manger transaction				(229.4)
Adjusted cash used for investing activities	\$1,708.8	\$1,477.9	\$1,981.9	\$1,854.1
<b>AS A PERCENT</b>				
Quarters ended:				
March 31	12.5%	100.0%	100.0%	87.5%
June 30	37.5	100.0	100.0	62.5
September 30	62.5	100.0	100.0	37.5
December 31	87.5	100.0	100.0	12.5

#### Risk factors and cautionary statement about forward-looking information

This report includes forward-looking statements about our plans and future performance, including those under Outlook for 2009. These statements use such words as "may," "will," "expect," "believe" and "plan." They reflect our expectations and speak only as of the date of this report. We do not undertake to update them. Our expectations (or the underlying assumptions) may change or not be realized, and you should not rely unduly on forward-looking statements. We have identified the principal risks and uncertainties that affect our performance elsewhere in this report, and investors are urged to consider these risks and uncertainties when evaluating our historical and expected performance.

## **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of business

The Company franchises and operates McDonald's restaurants in the food service industry. Prior to May 2008, the Company had a minority ownership in U.K.-based Pret A Manger, which it sold in 2008. The Company previously operated Boston Market in the U.S., which it sold in August 2007, and had an ownership interest in Chipotle Mexican Grill (Chipotle), which it disposed of during 2006.

All restaurants are operated either by the Company or by franchisees, including conventional franchisees under franchise arrangements, and foreign affiliated markets (affiliates) and developmental licensees under license agreements.

The following table presents restaurant information by ownership type:

<i>Restaurants at December 31,</i>	<b>2008</b>	<i>2007</i>	<i>2006</i>
Conventional franchised	<b>18,402</b>	17,634	17,683
Developmental licensed	<b>2,926</b>	2,756	1,063
Affiliated	<b>4,137</b>	4,081	4,134
Franchised	<b>25,465</b>	24,471	22,880
Company-operated	<b>6,502</b>	6,906	8,166
<b>Systemwide restaurants</b>	<b>31,967</b>	31,377	31,046

#### Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries. Investments in affiliates owned 50% or less (primarily McDonald's Japan) are accounted for by the equity method.

The Company evaluates its business relationships to identify potential variable interest entities, and has determined that consolidation of any such entities is not appropriate.

#### Estimates in financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### Revenue recognition

The Company's revenues consist of sales by Company-operated restaurants and fees from franchised restaurants operated by conventional franchisees, developmental licensees and affiliates. Sales by Company-operated restaurants are recognized on a cash basis. The Company presents sales net of sales tax and other sales-related taxes. Revenues from conventional franchised restaurants include rent and royalties based on a percent of sales with minimum rent payments, and initial fees. Revenues from restaurants licensed to affiliates and developmental licensees include a royalty based on a percent of sales, and may include initial fees. Continuing rent and royalties are recognized in the period earned. Initial fees are recognized upon opening of a restaurant or granting of a new franchise term, which is when the Company has performed substantially all initial services required by the franchise arrangement.

#### Foreign currency translation

The functional currency of operations outside the U.S. is the respective local currency.

#### Advertising costs

Advertising costs included in expenses of Company-operated restaurants primarily consist of contributions to advertising cooperatives and were (in millions): 2008—\$703.4; 2007—\$718.3; 2006—\$669.8. Production costs for radio and television advertising are expensed when the commercials are initially aired. These production costs, primarily in the U.S., as well as other marketing-related expenses included in selling, general & administrative expenses were (in millions): 2008—\$79.2; 2007—\$87.7; 2006—\$97.4. In addition, significant advertising costs are incurred by franchisees through advertising cooperatives in individual markets.

#### Share-based compensation

Share-based compensation includes the portion vesting of all share-based payments granted based on the grant date fair value estimated in accordance with the provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (SFAS No. 123(R)).

Share-based compensation expense and the effect on diluted net income per common share were as follows:

<i>In millions, except per share data</i>	<b>2008</b>	<i>2007</i>	<i>2006</i>
Share-based compensation expense	<b>\$112.5</b>	\$142.4	\$122.5
After tax	<b>\$ 75.1</b>	\$ 94.9	\$ 82.6
Net income per common share-diluted	<b>\$ 0.07</b>	\$ 0.07	\$ 0.07

Compensation expense related to share-based awards is generally amortized on a straight-line basis over the vesting period in selling, general & administrative expenses on the Consolidated statement of income. As of December 31, 2008, there was \$115.5 million of total unrecognized compensation cost related to nonvested share-based compensation that is expected to be recognized over a weighted-average period of 2.0 years.

The fair value of each stock option granted is estimated on the date of grant using a closed-form pricing model. The following table presents the weighted-average assumptions used in the option pricing model for the 2008, 2007 and 2006 stock option grants. The expected life of the options represents the period of time the options are expected to be outstanding and is based on historical trends. Expected stock price volatility is generally based on the historical volatility of the Company's stock for a period approximating the expected life. The expected dividend yield is based on the Company's most recent annual dividend payout. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant with a term equal to the expected life.

#### Weighted-average assumptions

	<b>2008</b>	<i>2007</i>	<i>2006</i>
Expected dividend yield	<b>2.55%</b>	2.26%	1.99%
Expected stock price volatility	<b>24.9%</b>	24.7%	26.4%
Risk-free interest rate	<b>2.96%</b>	4.76%	4.55%
Expected life of options			
<i>In years</i>	<b>6.18</b>	6.26	6.22
Fair value per option granted	<b>\$11.85</b>	\$11.59	\$9.72

## Property and equipment

Property and equipment are stated at cost, with depreciation and amortization provided using the straight-line method over the following estimated useful lives: buildings—up to 40 years; leasehold

improvements—the lesser of useful lives of assets or lease terms, which generally include option periods; and equipment—three to 12 years.

## Goodwill

Goodwill represents the excess of cost over the net tangible assets and identifiable intangible assets of acquired restaurant businesses. The Company's goodwill primarily results from purchases of McDonald's restaurants from franchisees and ownership increases in international subsidiaries or affiliates, and it is generally assigned to the reporting unit expected to benefit from the synergies of the combination. If a Company-operated restaurant is sold within 24 months of acquisition, the goodwill associated with the acquisition is written off in its entirety. If a restaurant is sold beyond 24 months from the acquisition, the amount of goodwill written off is based on the relative fair value of the business sold compared to the portion of the reporting unit (defined as each individual country).

In accordance with Statement of Financial Accounting Standards No. 142, *Goodwill and Intangible Assets*, the annual goodwill impairment test, conducted in the fourth quarter, compares the fair value of a reporting unit, generally based on discounted future cash flows, with its carrying amount including goodwill. If the carrying amount of a reporting unit exceeds its fair value, an impairment loss is measured as the difference between the implied fair value of the reporting unit's goodwill and the carrying amount of goodwill.

The following table presents the 2008 activity in goodwill by segment:

<i>In millions</i>	<i>U.S.</i>	<i>Europe</i>	<i>APMEA<sup>(1)</sup></i>	<i>Other Countries &amp; Corporate<sup>(2)</sup></i>	<i>Consolidated</i>
Balance at December 31, 2007	\$1,146.5	\$700.2	\$306.1	\$148.5	\$2,301.3
Net restaurant purchases (sales)	3.2	53.2	4.9	(2.4)	58.9
Ownership increases in subsidiaries/affiliates		10.1			10.1
Currency translation		(71.5)	(34.3)	(27.1)	(132.9)
<b>Balance at December 31, 2008</b>	<b>\$1,149.7</b>	<b>\$692.0</b>	<b>\$276.7</b>	<b>\$119.0</b>	<b>\$2,237.4</b>

(1) APMEA represents Asia/Pacific, Middle East and Africa.

(2) Other Countries & Corporate represents Canada, Latin America and Corporate.

## Long-lived assets

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144), long-lived assets are reviewed for impairment annually in the fourth quarter and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. For purposes of annually reviewing McDonald's restaurant assets for potential impairment, assets are initially grouped together at a television market level in the U.S. and at a country level for each of the international markets. The Company manages its restaurants as a group or portfolio with significant common costs and promotional activities; as such, an individual restaurant's cash flows are not generally independent of the cash flows of others in a market. If an indicator of impairment (e.g., negative operating cash flows for the most recent trailing 24-month period) exists for any grouping of assets, an estimate of undiscounted future cash flows produced by each individual restaurant within the asset grouping is compared to its carrying value. If an individual restaurant is determined to be impaired, the loss is measured by the excess of the carrying amount of the restaurant over its fair value as determined by an estimate of discounted future cash flows.

Losses on assets held for disposal are recognized when management and the Board of Directors, as required, have approved and committed to a plan to dispose of the assets, the assets are available for disposal, the disposal is probable of occurring within 12 months, and the net sales proceeds are expected to be less than its net book value, among other factors. Generally, such losses relate to restaurants that have closed and ceased operations as well as other assets that meet the criteria to be considered "available for sale" in accordance with SFAS No. 144.

When the Company sells an existing business to a developmental licensee, the licensee purchases the business, including the real estate, and uses his/her capital and local knowledge to build the McDonald's Brand and optimize sales and profitability over the long term. The sale of the business includes primarily land, buildings and improvements, and equipment, along with the franchising and leasing rights under existing agreements. Under the related developmental licensing arrangement, the Company collects a royalty based on a percent of sales, as well as initial fees, but does not have either any capital invested in the business or any commitment to invest future capital.

An impairment charge is recognized for the difference between the net book value of the business (including any foreign currency translation adjustments recorded in accumulated other comprehensive income in shareholders' equity) and the estimated cash sales price, less costs of disposal.

The Company bases its accounting policy on management's determination that royalties payable under its developmental license arrangements are substantially consistent with market rates for similar license arrangements. Therefore, the Company believes that the recognition of an impairment charge based on the net cash sales price reflects the substance of the sale transaction.

## Financial instruments

The Company generally borrows on a long-term basis and is exposed to the impact of interest rate changes and foreign currency fluctuations. The Company uses foreign currency denominated debt and derivative instruments to mitigate the impact of these changes. The Company does not use derivatives with a level of complexity or with a risk higher than the exposures to be

hedged and does not hold or issue derivatives for trading purposes.

The counterparties to these agreements consist of a diverse group of financial institutions. The Company continually monitors its positions and the credit ratings of its counterparties and adjusts positions as appropriate. The Company did not have significant exposure to any individual counterparty at December 31, 2008 and has master agreements that contain netting arrangements. Some of these agreements also require each party to post collateral if credit ratings fall below, or aggregate exposures exceed, certain contractual limits. At December 31, 2008, neither the Company nor its counterparties were required to post collateral on any derivative position. At December 31, 2007, the Company was required to post collateral of \$54.8 million, which was used to reduce the carrying value of the derivatives recorded in other long-term liabilities.

Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133), as amended, requires companies to recognize all derivatives as either assets or liabilities on the balance sheet at fair value. SFAS No. 133 also requires companies to designate all derivatives that qualify as hedging instruments as fair value hedges, cash flow hedges or hedges of net investments in foreign operations. This designation is based upon the exposure being hedged.

The Company's use of derivatives primarily consists of interest rate exchange agreements, forward foreign currency exchange agreements and foreign currency options. These derivatives were classified on the Consolidated balance sheet at December 31, 2008 as follows: miscellaneous other assets—\$87.6 million; pre-paid expenses and other current assets—\$43.8 million; accrued payroll and other liabilities—\$22.1 million; and other long-term liabilities (excluding accrued interest)—\$3.5 million. For the year ended December 31, 2007, the Company's derivatives were recorded in miscellaneous other assets—\$63.7 million and other long-term liabilities (excluding accrued interest)—\$70.3 million. All derivative purchases and settlements are classified in other financing activities on the Consolidated statement of cash flows.

There was no significant impact to the Company's earnings related to the ineffective portion of any hedging instruments for the three years ended December 31, 2008.

#### ▪ **Fair value hedges**

The Company enters into fair value hedges to reduce the exposure to changes in the fair values of certain liabilities. The fair value hedges the Company enters into consist of interest rate exchange agreements which convert a portion of its fixed-rate debt into floating-rate debt.

For fair value hedges, the gains or losses on derivatives as well as the offsetting gains or losses on the related hedged items resulting from changes in fair value are recognized in nonoperating (income) expense, net.

#### ▪ **Cash flow hedges**

The Company enters into cash flow hedges to reduce the exposure to variability in certain expected future cash flows. The types of cash flow hedges the Company enters into include (i) interest rate exchange agreements that effectively convert a portion of floating-rate debt to fixed-rate debt and are designed to reduce the impact of interest rate changes on future interest expense; and (ii) forward foreign exchange contracts and foreign currency options that are designed to protect against the reduction in value of forecasted foreign currency cash flows (such as royalties denominated in foreign currencies) due to changes in foreign currency exchange rates.

For cash flow hedges, the effective portion of the gains or losses on derivatives is reported in the deferred hedging adjustment component of accumulated other comprehensive income in shareholders' equity and reclassified into earnings in the same period or periods in which the hedged transaction affects earnings. The remaining gain or loss, if any, is recognized in earnings currently.

The Company recorded after-tax adjustments related to cash flow hedges to the deferred hedging adjustment component of accumulated other comprehensive income in shareholders' equity. The Company recorded net increases of \$47.3 million, \$8.5 million and \$10.7 million for the years ended December 31, 2008, 2007 and 2006, respectively. Based on interest rates and foreign currency exchange rates at December 31, 2008, the majority of deferred hedging adjustments, after tax, included in accumulated other comprehensive income in shareholders' equity at December 31, 2008, will be recognized in earnings in 2009 as the underlying hedged transactions are realized. The maximum maturity date of any cash flow hedge of forecasted transactions at December 31, 2008 was 15 months, excluding an instrument hedging forecasted payments of variable interest on an existing financial instrument that matures in the fourth quarter of 2010.

#### ▪ **Hedges of net investments in foreign operations**

The Company uses forward foreign exchange contracts and foreign currency denominated debt to hedge its investments in certain foreign subsidiaries and affiliates. Realized and unrealized translation adjustments from these hedges are included in shareholders' equity in the foreign currency translation component of accumulated other comprehensive income and offset translation adjustments on the underlying net assets of foreign subsidiaries and affiliates, which also are recorded in accumulated other comprehensive income.

During the years ended December 31, 2008, 2007 and 2006, the Company recorded decreases in translation adjustments in accumulated other comprehensive income of \$31.2 million after tax (included in the net decrease of \$1.2 billion of translation adjustments on the Consolidated statement of shareholders' equity), \$76.5 million after tax, and \$23.2 million after tax, respectively, related to hedges of net investments.

#### **Sales of stock by subsidiaries and affiliates**

As permitted by Staff Accounting Bulletin No. 51 issued by the Securities and Exchange Commission (SEC), when a subsidiary or affiliate sells unissued shares in a public offering, the Company records an adjustment to reflect an increase or decrease in the carrying value of its investment and a resulting nonoperating gain or loss. In 2006, the Company's gain of \$32.0 million as a result of the Chipotle initial public offering (IPO) is reported in discontinued operations.

#### **Income tax uncertainties**

In 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), which is an interpretation of FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the

provisions of FIN 48 effective January 1, 2007, as required. As a result of the implementation of FIN 48, the Company recorded a \$20.1 million cumulative adjustment to increase the January 1, 2007 balance of retained earnings. FIN 48 requires that a liability associated with an unrecognized tax benefit be classified as a long-term liability except for the amount for which cash payment is anticipated within one year. Upon adoption of FIN 48, \$338.7 million of net tax liabilities were reclassified from current to long-term.

The Company, like other multi-national companies, is regularly audited by federal, state and foreign tax authorities, and tax assessments may arise several years after tax returns have been filed. Beginning in 2007, tax liabilities are recorded when, in management's judgment, a tax position does not meet the more likely than not threshold for recognition as prescribed by FIN 48. For tax positions that meet the more likely than not threshold, a tax liability may be recorded depending on management's assessment of how the tax position will ultimately be settled. Prior to 2007, tax liabilities had been recorded when, in management's judgment, it was not probable that the Company's tax position would ultimately be sustained.

The Company records interest on unrecognized tax benefits in the provision for income taxes.

### **Per common share information**

Diluted net income per common share is calculated using net income divided by diluted weighted-average shares. Diluted weighted-average shares include weighted-average shares outstanding plus the dilutive effect of share-based compensation calculated using the treasury stock method, of (in millions of shares): 2008–19.4; 2007–23.5; 2006–17.7. Stock options that were not included in diluted weighted-average shares because they would have been antidilutive were (in millions of shares): 2008–0.6; 2007–0.7; 2006–16.4.

The Company has elected to exclude the pro forma deferred tax asset associated with share-based compensation in net income per share.

### **Statement of cash flows**

The Company considers short-term, highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

### **Employers' accounting for defined benefit pension and other postretirement plans**

In 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R)* (SFAS No. 158). SFAS No. 158 requires the Company to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability on the Consolidated balance sheet and to recognize changes in that funded status during the year through accumulated other comprehensive income. The Company adopted the applicable provisions of SFAS No. 158 effective December 31, 2006, as required, which resulted in a net decrease to accumulated other comprehensive income of \$89.0 million for a limited number of applicable international markets. In 2008, the Company recorded an unrecognized actuarial loss, net of tax, of \$60.4 million and in 2007 recorded an unrecognized actuarial gain, net of tax, of \$51.3 million, in accumulated other comprehensive income.

### **Sabbatical leave**

In certain countries, eligible employees are entitled to take a paid sabbatical after a predetermined period of service. In 2006, the FASB ratified Emerging Issues Task Force Issue 06-2, *Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43, Accounting for Compensated Absences* (EITF 06-2). Under EITF 06-2, compensation costs associated with a sabbatical should be accrued over the requisite service period, assuming certain conditions are met. Previously, the Company expensed sabbatical costs as incurred. The Company adopted EITF 06-2 effective January 1, 2007, as required and accordingly, recorded a \$36.1 million cumulative adjustment, net of tax, to decrease beginning retained earnings in the first quarter 2007. The annual impact to earnings is not significant.

### **Fair value measurements**

In 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements; rather, it applies to other accounting pronouncements that require or permit fair value measurements. The provisions of SFAS No. 157, as issued, were effective January 1, 2008. However, in February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (i.e., at least annually). The Company adopted the required provisions of SFAS No. 157 related to debt and derivatives as of January 1, 2008 and elected the deferral for non-financial assets and liabilities. The effect of adopting this standard was not significant, and the Company does not expect the January 1, 2009 adoption of SFAS No. 157 for non-financial assets and liabilities to have a significant impact on its consolidated financial statements.

Fair value is defined under SFAS No. 157 as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. SFAS No. 157 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.
- Level 2 – inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The Company's use of derivatives primarily consists of interest rate exchange agreements, forward foreign currency exchange agreements and foreign currency options. The Company does not

use derivatives with a level of complexity or with a risk higher than the exposures to be hedged and does not hold or issue derivatives for trading purposes.

Certain of the Company's derivatives are valued using various pricing models or discounted cash flow analyses that incorporate observable market parameters, such as interest rate yield curves, option volatilities and currency rates, classified as Level 2 within the valuation hierarchy. In accordance with the requirements of SFAS No. 157, derivative valuations incorporate credit risk adjustments that are necessary to reflect the probability of default by the counterparty or the Company.

The following table presents financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2008 by SFAS No. 157 valuation hierarchy:

<i>In millions</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Carrying Value</i>
Cash equivalents	\$444.9			\$444.9
Investments	96.1*			96.1
Derivative receivables	90.2*	\$131.4		221.6
<b>Total assets at fair value</b>	<b>\$631.2</b>	<b>\$131.4</b>		<b>\$762.6</b>
Derivative payables		\$ (25.6)		\$ (25.6)
<b>Total liabilities at fair value</b>		<b>\$ (25.6)</b>		<b>\$ (25.6)</b>

\* Represents long-term investments and derivatives that hedge market-driven changes in liabilities associated with the Company's supplemental benefit plans.

### Business combinations

In 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), *Business Combinations* (SFAS No. 141(R)). SFAS No. 141(R) requires the acquiring entity in a business combination to record all assets acquired and liabilities assumed at their respective acquisition-date fair values, changes the recognition of assets acquired and liabilities assumed arising from preacquisition contingencies, and requires the expensing of acquisition-related costs as incurred. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. We do not expect the adoption of SFAS No. 141(R) to have a significant impact on our consolidated financial statements.

### Noncontrolling interests

In 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (an amendment of Accounting Research Bulletin No. 51 (ARB 51)) (SFAS No. 160). SFAS No. 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 becomes effective beginning January 1, 2009 and is required to be adopted prospectively, except for the reclassification of noncontrolling interests to equity and the recasting of net income (loss) attributable to both the controlling and noncontrolling interests, which are required to be adopted retrospectively. We do not expect the adoption of SFAS No. 160 to have a significant impact on our consolidated financial statements.

## PROPERTY AND EQUIPMENT

Net property and equipment consisted of:

<i>In millions</i>	<i>December 31, 2008</i>	<i>2007</i>
Land	\$ 4,689.6	\$ 4,836.6
Buildings and improvements on owned land	10,952.3	11,306.6
Buildings and improvements on leased land	10,788.6	10,962.6
Equipment, signs and seating	4,205.1	4,558.2
Other	516.8	539.7
	<b>31,152.4</b>	<b>32,203.7</b>
Accumulated depreciation and amortization	(10,897.9)	(11,219.0)
<b>Net property and equipment</b>	<b>\$20,254.5</b>	<b>\$ 20,984.7</b>

Depreciation and amortization expense related to continuing operations was (in millions): 2008-\$1,161.6; 2007-\$1,145.0; 2006-\$1,146.3.

## DISCONTINUED OPERATIONS

The Company continues to focus its management and financial resources on the McDonald's restaurant business as it believes the opportunities for long-term growth remain significant. Accordingly, during the third quarter 2007, the Company sold its investment in Boston Market. In 2006, the Company disposed of its investment in Chipotle via public stock offerings in the first and second quarters and a tax-free exchange for McDonald's common stock in the fourth quarter. As a result of the disposals during 2007 and 2006, both Boston Market's and Chipotle's results of operations and transaction gains are reflected as discontinued operations for all periods presented.

In connection with the Company's sale of its investment in Boston Market in August 2007, the Company received proceeds of approximately \$250 million and recorded a gain of \$68.6 million after tax. In addition, Boston Market's net income (loss) for 2007 and 2006 was (\$8.5) million and \$6.9 million, respectively.

In first quarter 2006, Chipotle completed an IPO of 6.1 million shares resulting in a tax-free gain to McDonald's of \$32.0 million to reflect an increase in the carrying value of the Company's investment as a result of Chipotle selling shares in the public offering. Concurrent with the IPO, McDonald's sold 3.0 million Chipotle shares, resulting in net proceeds to the Company of \$61.4 million and an additional gain of \$13.6 million after tax. In second quarter 2006, McDonald's sold an additional 4.5 million Chipotle shares, resulting in net proceeds to the Company of \$267.4 million and a gain of \$127.8 million after tax, while still retaining majority ownership. In fourth quarter 2006, the Company completely separated from Chipotle through a noncash, tax-free exchange of its remaining Chipotle shares for its common stock. McDonald's accepted 18.6 million shares of its common stock in exchange for the 16.5 million shares of Chipotle class B common stock held by McDonald's and recorded a tax-free gain of \$479.6 million. In addition, Chipotle's net income for 2006 was \$18.2 million.

Boston Market's and Chipotle's results of operations (exclusive of the transaction gains), which previously were included in Other Countries & Corporate, consisted of revenues and pretax income (loss) as follows:

<i>In millions</i>	2007	2006
<b>Boston Market</b>		
Revenues	\$444.1	\$691.2
Pretax income (loss)	(17.0)	12.0
<b>Chipotle</b>		
Revenues		\$631.7
Pretax income		39.8

## LATAM TRANSACTION

In August 2007, the Company completed the sale of its businesses in Brazil, Argentina, Mexico, Puerto Rico, Venezuela and 13 other countries in Latin America and the Caribbean, which totaled 1,571 restaurants, to a developmental licensee organization. The Company refers to these markets as "Latam". Based on approval by the Company's Board of Directors on April 17, 2007, the Company concluded Latam was "held for sale" as of that date in accordance with the requirements of SFAS No. 144. As a result, the Company recorded an impairment charge of \$1.7 billion in 2007, substantially all of which was noncash. The total charges for the full year included \$895.8 million for the difference between the net book value of the Latam business and approximately \$675 million in cash proceeds received. This loss in value was primarily due to a historically difficult economic environment coupled with volatility experienced in many of the markets included in this transaction. The charges also included historical foreign currency translation losses of \$769.5 million recorded in shareholders' equity. The Company recorded a tax benefit of \$62.0 million in connection with this transaction. The tax benefit was minimal in 2007 due to the Company's inability to utilize most of the capital losses generated by this transaction. As a result of meeting the "held for sale" criteria, the Company ceased recording depreciation expense with respect to Latam effective April 17, 2007. In connection with the sale, the Company agreed to indemnify the buyers for certain tax and other claims, certain of which are reflected in other long-term liabilities on McDonald's Consolidated balance sheet, totaling \$141.8 million at December 31, 2008 and \$179.2 million at December 31, 2007. The change in the balance was primarily due to foreign currency translation. The Company mitigates the currency impact to income through the use of forward foreign exchange agreements.

The buyers of the Company's operations in Latam entered into a 20-year master franchise agreement that requires the buyers, among other obligations to (i) pay monthly royalties commencing at a rate of approximately 5% of gross sales of the restaurants in these markets, substantially consistent with market rates for similar license arrangements; (ii) commit to adding approximately 150 new McDonald's restaurants by the end of 2010 and pay an initial fee for each new restaurant opened; and (iii) commit to specified annual capital expenditures for existing restaurants.

## IMPAIRMENT AND OTHER CHARGES, NET

On a pretax basis, the Company recorded impairment and other charges, net of \$6.0 million in 2008, \$1,670.3 million in 2007 and \$134.2 million in 2006.

In 2008, the charges primarily related to market restructuring costs in Greece.

In 2007, the Company recorded a charge of \$1.7 billion related to the sale of the Latam businesses to a developmental licensee. In addition, the charges for 2007 included a \$15.7 million write-off of assets associated with the Toasted Deli Sandwich products in Canada and a net gain of \$14.1 million as a result of the transfer of the Company's ownership interest in three European markets to a developmental licensee, partly offset by a loss on the transfer of a small market in Europe to a developmental licensee.

In 2006, the charges primarily related to losses of \$35.8 million incurred on the transfers of the Company's ownership interest in certain markets, primarily in APMEA and Europe, to developmental licensees, costs of \$35.3 million related to the closing of certain restaurants in the U.K. in conjunction with an overall restaurant portfolio review, costs of \$29.3 million to buy out certain litigating franchisees in Brazil, asset write-offs and other charges in APMEA of \$17.5 million, and a loss of \$13.1 million related to the decision to dispose of supply chain operations in Russia.

## OTHER OPERATING (INCOME) EXPENSE, NET

<i>In millions</i>	2008	2007	2006
Gains on sales of restaurant businesses	<b>\$(126.5)</b>	\$ (88.9)	\$(38.3)
Equity in earnings of unconsolidated affiliates	<b>(110.7)</b>	(115.6)	(76.8)
Asset dispositions and other expense	<b>72.0</b>	193.4	184.2
<b>Total</b>	<b>\$(165.2)</b>	<b>\$ (11.1)</b>	<b>\$ 69.1</b>

### ▪ **Gains on sales of restaurant businesses**

Gains on sales of restaurant businesses include gains from sales of Company-operated restaurants as well as gains from exercises of purchase options by franchisees with business facilities lease arrangements (arrangements where the Company leases the businesses, including equipment, to franchisees who generally have options to purchase the businesses). The Company's purchases and sales of businesses with its franchisees are aimed at achieving an optimal ownership mix in each market. Resulting gains or losses are recorded in operating income because the transactions are a recurring part of our business.

### ▪ **Equity in earnings of unconsolidated affiliates**

Unconsolidated affiliates and partnerships are businesses in which the Company actively participates but does not control. The Company records equity in earnings from these entities representing McDonald's share of results. For foreign affiliated markets – primarily Japan – results are reported after interest expense and income taxes. McDonald's share of results for partnerships in certain consolidated markets such as the U.S. are reported before income taxes. These partnership restaurants are operated under conventional franchise arrangements and are included in conventional franchised restaurant counts.

### ▪ **Asset dispositions and other expense**

Asset dispositions and other expense consists of gains or losses on excess property and other asset dispositions, provisions for store closings, contingencies and uncollectible receivables, and other miscellaneous income and expenses.

## GAIN ON SALE OF INVESTMENT

In second quarter 2008, the Company sold its minority ownership interest in U.K.-based Pret A Manger. In connection with the sale, the Company received cash proceeds of \$229.4 million and recognized a nonoperating pretax gain of \$160.1 million (\$109.0 million after tax).

## CONTINGENCIES

From time to time, the Company is subject to proceedings, lawsuits and other claims related to competitors, customers, employees, franchisees, government agencies, intellectual property, shareholders and suppliers. The Company is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after careful analysis of each matter. The required accrual may change in the future due to new developments in each matter or changes in approach such as a change in settlement strategy in dealing with these matters. The Company does not believe that any such matter currently being reviewed will have a material adverse effect on its financial condition or results of operations.

In connection with the 2007 sale of the Company's businesses in Latam, the Company agreed to indemnify the buyers for certain tax and other claims, certain of which are reflected as liabilities on McDonald's Consolidated balance sheet, totaling \$141.8 million at December 31, 2008 and \$179.2 million at December 31, 2007. The change in the balance was primarily due to foreign currency translation. The Company mitigates the currency impact to income through the use of forward foreign exchange agreements.

## FRANCHISE ARRANGEMENTS

Conventional franchise arrangements generally include a lease and a license and provide for payment of initial fees, as well as continuing rent and royalties to the Company based upon a percent of sales with minimum rent payments that parallel the Company's underlying leases and escalations (on properties that are leased). Under this arrangement, franchisees are granted the right to operate a restaurant using the McDonald's System and, in most cases, the use of a restaurant facility, generally for a period of 20 years. These franchisees pay related occupancy costs including property taxes, insurance and maintenance. In addition, in certain markets outside the U.S., franchisees pay a refundable, non-interest bearing security deposit. Affiliates and developmental licensees operating under license agreements pay a royalty to the Company based upon a percent of sales, and may pay initial fees.

The results of operations of restaurant businesses purchased and sold in transactions with franchisees were not material to the consolidated financial statements for periods prior to purchase and sale.

Revenues from franchised restaurants consisted of:

<i>In millions</i>	2008	2007	2006
Rents	\$4,612.8	\$4,177.2	\$3,756.1
Royalties	2,275.7	1,941.1	1,685.2
Initial fees	73.0	57.3	51.5
Revenues from franchised restaurants	\$6,961.5	\$6,175.6	\$5,492.8

Future minimum rent payments due to the Company under existing franchise arrangements are:

<i>In millions</i>	Owned Sites	Leased Sites	Total
2009	\$ 1,125.0	\$ 965.1	\$ 2,090.1
2010	1,091.2	936.6	2,027.8
2011	1,047.7	904.2	1,951.9
2012	1,014.1	872.2	1,886.3
2013	975.8	833.2	1,809.0
Thereafter	7,648.8	5,992.0	13,640.8
Total minimum payments	\$12,902.6	\$10,503.3	\$23,405.9

At December 31, 2008, net property and equipment under franchise arrangements totaled \$11.9 billion (including land of \$3.5 billion) after deducting accumulated depreciation and amortization of \$5.7 billion.

## LEASING ARRANGEMENTS

At December 31, 2008, the Company was the lessee at 13,620 restaurant locations through ground leases (the Company leases the land and the Company or franchisee owns the building) and through improved leases (the Company leases land and buildings). Lease terms for most restaurants are generally for 20 years and, in many cases, provide for rent escalations and renewal options, with certain leases providing purchase options. Escalation terms vary by geographic segment with examples including fixed-rent escalations, escalations based on an inflation index, and fair-value market adjustments. The timing of these escalations generally ranges from annually to every five years. For most locations, the Company is obligated for the related occupancy costs including property taxes, insurance and maintenance; however, for franchised sites, the Company requires the franchisees to pay these costs. In addition, the Company is the lessee under noncancelable leases covering certain offices and vehicles.

Future minimum payments required under existing operating leases with initial terms of one year or more are:

<i>In millions</i>	Restaurant	Other	Total
2009	\$ 980.8	\$ 65.3	\$ 1,046.1
2010	918.7	52.9	971.6
2011	849.1	41.7	890.8
2012	779.6	29.8	809.4
2013	724.5	21.6	746.1
Thereafter	5,500.0	114.4	5,614.4
Total minimum payments	\$9,752.7	\$325.7	\$10,078.4

The following table provides detail of rent expense:

<i>In millions</i>	2008	2007	2006
Company-operated restaurants:			
U.S.	\$ 73.7	\$ 82.0	\$ 81.6
Outside the U.S.	532.0	533.9	515.1
Total	605.7	615.9	596.7
Franchised restaurants:			
U.S.	374.7	358.4	340.2
Outside the U.S.	409.4	364.5	312.5
Total	784.1	722.9	652.7
Other	101.8	98.5	104.5
Total rent expense	\$1,491.6	\$1,437.3	\$1,353.9

Rent expense included percent rents in excess of minimum rents (in millions) as follows—Company-operated restaurants: 2008—\$130.2; 2007—\$118.3; 2006—\$106.9. Franchised restaurants: 2008—\$143.5; 2007—\$136.1; 2006—\$124.3.

## INCOME TAXES

Income from continuing operations before provision for income taxes, classified by source of income, was as follows:

<i>In millions</i>	2008	2007	2006
U.S.	\$2,769.4	\$2,455.0	\$2,126.2
Outside the U.S.	3,388.6	1,117.1	2,028.2
Income from continuing operations before provision for income taxes	\$6,158.0	\$3,572.1	\$4,154.4

The provision for income taxes, classified by the timing and location of payment, was as follows:

<i>In millions</i>	2008	2007	2006
U.S. federal	\$ 808.4	\$ 480.8	\$ 624.8
U.S. state	134.7	84.9	107.4
Outside the U.S.	800.2	710.5	522.7
Current tax provision	1,743.3	1,276.2	1,254.9
U.S. federal	75.6	(14.3)	55.7
U.S. state	28.7	10.0	10.8
Outside the U.S.	(2.8)	(34.8)	(33.1)
Deferred tax provision (benefit)	101.5	(39.1)	33.4
Provision for income taxes	\$1,844.8	\$1,237.1	\$1,288.3

Net deferred tax liabilities consisted of:

<i>In millions</i>	December 31, 2008	2007
Property and equipment	\$1,587.5	\$ 1,532.7
Other	308.1	231.8
Total deferred tax liabilities	1,895.6	1,764.5
Property and equipment	(243.4)	(370.5)
Employee benefit plans	(300.9)	(292.8)
Intangible assets	(227.8)	(282.4)
Capital loss carryforwards	(161.9)	(228.3)
Deferred foreign tax credits	(131.1)	(127.2)
Operating loss carryforwards	(70.9)	(102.6)
Indemnification liabilities	(49.6)	(62.7)
Other	(462.3)	(295.8)
Total deferred tax assets before valuation allowance	(1,647.9)	(1,762.3)
Valuation allowance	199.7	385.1
Net deferred tax liabilities	\$ 447.4	\$ 387.3
Balance sheet presentation:		
Deferred income taxes	\$ 944.9	\$ 960.9
Other assets—miscellaneous	(417.4)	(502.8)
Current assets—prepaid expenses and other current assets	(80.1)	(70.8)
Net deferred tax liabilities	\$ 447.4	\$ 387.3

The statutory U.S. federal income tax rate reconciles to the effective income tax rates as follows:

	2008	2007	2006
Statutory U.S. federal income tax rate	35.0%	35.0%	35.0%
State income taxes, net of related federal income tax benefit	1.8	2.3	1.9
Benefits and taxes related to foreign operations	(6.4)	(7.5)	(5.3)
Completion of federal tax audit		(8.9)	
Latam transaction		14.3	
Other, net	(0.4)	(0.6)	(0.6)
Effective income tax rates	30.0%	34.6%	31.0%

As of December 31, 2008 and 2007, the Company's gross unrecognized tax benefits totaled \$272.5 million and \$249.7 million, respectively. After considering the federal impact on state issues, about \$225 million of the total as of December 31, 2008 would favorably affect the effective tax rate if resolved in the Company's favor.

The following table presents a reconciliation of the beginning and ending amounts of unrecognized tax benefits:

<i>In millions</i>	2008	2007
Balance at January 1	\$249.7	\$ 664.3
Decreases for positions taken in prior years:		
Remeasurement due to completion of audit	(7.6)	(295.8)
Disposition of entity		(29.9)
Other	(14.2)	(60.4)
Increases for positions taken in prior years	25.0	18.3
Increases for positions related to the current year	65.9	82.5
Settlements with taxing authorities	(39.5)	(122.7)
Lapsing of statutes of limitations	(6.8)	(6.6)
Balance at December 31 <sup>(1)</sup>	\$272.5	\$ 249.7

(1) Included in other long-term liabilities on the Consolidated balance sheet.

It is reasonably possible that the total amount of unrecognized tax benefits could decrease within the next 12 months by \$30 million to \$40 million. This decrease would result from the expiration of the statute of limitations and the completion of tax audits in multiple tax jurisdictions.

The Company is generally no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years prior to 2002.

The continuing practice of the Company is to recognize interest and penalties related to income tax matters in the provision for income taxes. The Company had \$24.1 million and \$9.4 million accrued for interest at December 31, 2008 and 2007, respectively, and no accrual for penalties in either year. The Company recorded interest expense related to tax matters of \$13.7 million in 2008 and interest income related to tax matters of \$34.9 million in 2007, and no expense for penalties in either year.

Deferred U.S. income taxes have not been recorded for temporary differences related to investments in certain foreign subsidiaries and corporate joint ventures. These temporary differences were approximately \$6.9 billion at December 31, 2008 and consisted primarily of undistributed earnings considered permanently invested in operations outside the U.S. Determination of the deferred income tax liability on these unremitted earnings is not practicable because such liability, if any, is dependent on circumstances existing if and when remittance occurs.

## SEGMENT AND GEOGRAPHIC INFORMATION

The Company operates in the food service industry and manages its business as distinct geographic segments.

All intercompany revenues and expenses are eliminated in computing revenues and operating income. Royalties and other payments from subsidiaries outside the U.S. were (in millions): 2008—\$1,229.8; 2007—\$1,116.7; 2006—\$945.4.

Corporate general & administrative expenses are included in Other Countries & Corporate and consist of home office support costs in areas such as facilities, finance, human resources, information technology, legal, marketing, restaurant operations, supply chain and training. Corporate assets include corporate cash and equivalents, asset portions of financial instruments and home office facilities.

See Impairment and other charges, net note for further discussion of the following items:

(1) Includes \$1.7 billion of charges/(credits) (Other Countries & Corporate—\$1,681.0 million and Europe—(\$10.7) million) primarily related to the Latam transaction.

(2) Includes \$134.2 million of charges (Europe—\$61.9 million; APMEA—\$48.2 million and Other Countries & Corporate—\$24.1 million) primarily related to losses incurred on the transfers of the Company's ownership interest in certain markets to developmental licensees and certain other strategic actions.

Total long-lived assets, primarily property and equipment, were (in millions)—Consolidated: 2008—\$24,385.8; 2007—\$25,186.9; 2006—\$23,185.3. U.S. based: 2008—\$10,389.7; 2007—\$10,043.7; 2006—\$9,421.6.

## DEBT FINANCING

### Line of credit agreements

At December 31, 2008, the Company had a \$1.3 billion line of credit agreement expiring in 2012 with fees of 0.05% per annum on the total commitment, which remained unused. Fees and interest rates on this line are based on the Company's long-term credit rating assigned by Moody's and Standard & Poor's. In addition, certain subsidiaries outside the U.S. had unused lines of credit totaling \$783.2 million at December 31, 2008; these uncommitted lines of credit were principally short-term and denominated in various currencies at local market rates of interest.

As a result of the Company's decision to repatriate certain foreign earnings under the Homeland Investment Act (HIA), certain wholly-owned subsidiaries outside the U.S. entered into a multi-currency term loan facility totaling \$2.9 billion in 2005. The facility expired in 2008, and the \$1.8 billion in outstanding borrowings at December 31, 2007 were repaid during 2008.

The weighted-average interest rate of short-term borrowings was 4.7% at December 31, 2008 (based on \$232.1 million of commercial paper and \$625.4 million of foreign currency bank line borrowings) and 5.9% at December 31, 2007 (based on \$625.8 million of foreign currency bank line borrowings).

### Fair values

At December 31, 2008, the fair value of the Company's debt obligations was estimated at \$10.3 billion, compared to a carrying amount of \$10.2 billion. This fair value was estimated using various pricing models or discounted cash flow analyses that incorporated quoted market prices and are similar to Level 2 inputs within the SFAS No. 157 valuation hierarchy. The Company has no current plans to retire a significant amount of its debt prior to maturity.

The carrying amounts for both cash and equivalents and notes receivable approximate fair value. No fair value was estimated for non-interest bearing security deposits by franchisees, because these deposits are an integral part of the overall franchise arrangements.

### Debt obligations

The Company has incurred debt obligations principally through public and private offerings and bank loans. There are no provisions in the Company's debt obligations that would accelerate repayment of debt as a result of a change in credit ratings or a material adverse change in the Company's business. Certain of the Company's debt obligations contain cross-acceleration provisions, and restrictions on Company and subsidiary mortgages and the long-term debt of certain subsidiaries. Under certain agreements, the Company has the option to retire debt prior to maturity, either at par or at a premium over par.

In January 2009, the Company issued \$400 million of 10-year U.S. Dollar-denominated notes at a coupon rate of 5.0%, and \$350 million of 30-year U.S. Dollar-denominated bonds at a coupon rate of 5.7%.

The following table summarizes the Company's debt obligations. (Interest rates and debt amounts reflected in the table include the effects of interest rate exchange agreements.)

In millions of U.S. Dollars	Maturity dates	Interest rates <sup>(1)</sup> December 31		Amounts outstanding December 31	
		2008	2007	2008	2007
Fixed		5.6%	5.5%	\$ 4,726.1	\$3,042.3
Floating		2.3	4.8	857.1	160.0
Total U.S. Dollars	2009-2038			5,583.2	3,202.3
Fixed		5.0	2.7	704.1	121.8
Floating		5.2	4.8	829.4	2,093.3
Total Euro	2009-2015			1,533.5	2,215.1
Fixed		6.0	6.0	654.9	1,078.8
Floating		3.6	6.5	2.0	689.9
Total British Pounds Sterling	2009-2032			656.9	1,768.7
Fixed		2.2	2.2	720.1	585.0
Floating		1.6		440.2	
Total Japanese Yen	2010-2030			1,160.3	585.0
Fixed		2.8	3.4	453.8	497.8
Floating		5.6	5.7	722.5	946.9
Total other currencies <sup>(2)</sup>	2009-2014			1,176.3	1,444.7
Debt obligations before fair value adjustments <sup>(3)</sup>				10,110.2	9,215.8
Fair value adjustments <sup>(4)</sup>				107.6	85.3
Total debt obligations <sup>(5)</sup>				\$10,217.8	\$9,301.1

(1) Weighted-average effective rate, computed on a semi-annual basis.

(2) Primarily consists of Chinese Renminbi, Swiss Francs, Korean Won, and Singapore Dollars.

(3) Aggregate maturities for 2008 debt balances, before fair value adjustments, were as follows (in millions): 2009—\$31.8; 2010—\$616.5; 2011—\$610.9; 2012—\$2,214.3; 2013—\$657.0; Thereafter—\$5,979.7. These amounts include a reclassification of short-term obligations totaling \$1.3 billion to long-term obligations as they are supported by a long-term line of credit agreement expiring in 2012.

(4) SFAS No. 133 requires that the carrying value of underlying items in fair value hedges, in this case debt obligations, be adjusted for fair value changes to the extent they are attributable to the risk designated as being hedged. The related hedging instrument is also recorded at fair value in either miscellaneous other assets or other long-term liabilities. A portion (\$25.1 million) of the adjustments at December 31, 2008 related to interest rate exchange agreements that were terminated in December 2002 and will amortize as a reduction of interest expense over the remaining life of the debt.

(5) Includes notes payable, current maturities of long-term debt and long-term debt included on the Consolidated balance sheet. The increase in debt obligations from December 31, 2007 to December 31, 2008 was due to (in millions): net issuances (\$1,045.7), SFAS No. 133 noncash fair value adjustments (\$22.3) and other changes (\$4.0), partly offset by changes in exchange rates on foreign currency denominated debt (\$155.3).

## ESOP loans

Borrowings related to the leveraged Employee Stock Ownership Plan (ESOP) at December 31, 2008, which include \$63.6 million of loans from the Company to the ESOP, are reflected as debt with a corresponding reduction of shareholders' equity (additional paid-in capital included a balance of \$56.4 million and \$63.8 million at December 31, 2008 and 2007, respectively). The ESOP is repaying the loans and interest through 2018 using Company contributions and dividends from its McDonald's common stock holdings. As the principal amount of the borrowings is repaid, the debt and the unearned ESOP compensation (additional paid-in capital) are reduced.

## EMPLOYEE BENEFIT PLANS

The Company's Profit Sharing and Savings Plan for U.S.-based employees includes a 401(k) feature, an ESOP feature, and a discretionary employer profit sharing match. The 401(k) feature allows participants to make pretax contributions that are partly matched from shares released under the ESOP. The Profit Sharing and Savings Plan also provides for a discretionary employer profit sharing match after the end of the year for those participants eligible to share in the match who have contributed to the 401(k) feature.

All contributions and related earnings can be invested in several investment alternatives as well as McDonald's common stock

in accordance with each participant's elections. Beginning in 2007, participants' annual contributions to the 401(k) feature and the discretionary employer match are limited to 20% investment in McDonald's common stock.

The Company also maintains certain supplemental benefit plans that allow participants to (i) make tax-deferred contributions and (ii) receive Company-provided allocations that cannot be made under the Profit Sharing and Savings Plan because of Internal Revenue Service limitations. The investment alternatives and returns are based on certain market-rate investment alternatives under the Profit Sharing and Savings Plan. Total liabilities were \$389.7 million at December 31, 2008 and \$415.3 million at December 31, 2007 and were primarily included in other long-term liabilities on the Consolidated balance sheet.

The Company has entered into derivative contracts to hedge market-driven changes in certain of the liabilities. At December 31, 2008, derivatives with a fair value of \$90.2 million indexed to the Company's stock as well as an investment totaling \$60.7 million indexed to certain market indices were included in miscellaneous other assets on the Consolidated balance sheet. All changes in liabilities for these nonqualified plans and in the fair value of the derivatives are recorded in selling, general & administrative expenses. Changes in fair value of the derivatives indexed to the Company's stock are recorded in the income statement because the contracts provide the counterparty with a choice to settle in cash or shares.

Total U.S. costs for the Profit Sharing and Savings Plan, including nonqualified benefits and related hedging activities, were (in millions): 2008—\$61.2; 2007—\$57.6; 2006—\$60.1. Certain subsidiaries outside the U.S. also offer profit sharing, stock purchase or other similar benefit plans. Total plan costs outside the U.S. were (in millions): 2008—\$55.4; 2007—\$62.7; 2006—\$69.8.

The total combined liabilities for international retirement plans were \$131.1 million and \$129.4 million at December 31, 2008 and 2007, respectively, primarily in the U.K. and Canada.

Other postretirement benefits and post-employment benefits were immaterial.

## SHARE-BASED COMPENSATION

The Company maintains a share-based compensation plan which authorizes the granting of various equity-based incentives including stock options and restricted stock units (RSUs) to employees and nonemployee directors. The number of shares of common stock reserved for issuance under the plans was 97.3 million at December 31, 2008, including 40.9 million available for future grants.

### Stock options

Stock options to purchase common stock are granted with an exercise price equal to the closing market price of the Company's stock on the date of grant. Substantially all of the options become exercisable in four equal installments, beginning a year from the date of the grant, and generally expire 10 years from the grant date. Options granted between May 1, 1999 and December 31, 2000 (approximately 11 million options outstanding at December 31, 2008) expire 13 years from the date of grant.

Intrinsic value for stock options is defined as the difference between the current market value and the exercise price. During 2008, 2007 and 2006, the total intrinsic value of stock options exercised was \$549.5 million, \$815.3 million and \$412.6 million, respectively. Cash received from stock options exercised during 2008 was \$548.2 million and the actual tax benefit realized for tax deductions from stock options exercised totaled \$160.2 million. The Company uses treasury shares purchased under the Company's share repurchase program to satisfy share-based exercises.

A summary of the status of the Company's stock option grants as of December 31, 2008, 2007 and 2006, and changes during the years then ended, is presented in the following table:

Options	2008				2007		2006	
	Shares in millions	Weighted-average exercise price	Weighted-average remaining contractual life in years	Aggregate intrinsic value in millions	Shares in millions	Weighted-average exercise price	Shares in millions	Weighted-average exercise price
Outstanding at beginning of year	67.5	\$31.85			101.9	\$30.03	136.3	\$28.90
Granted	5.3	56.55			5.7	45.02	7.0	36.36
Exercised	(18.7)	29.97			(38.4)	28.89	(37.7)	26.86
Forfeited/expired	(0.7)	37.53			(1.7)	33.63	(3.7)	32.51
Outstanding at end of year	53.4	\$34.88	5.22	\$1,458.0	67.5	\$31.85	101.9	\$30.03
Exercisable at end of year	40.8	\$31.21	4.31	\$1,263.6	52.6		78.7	

### RSUs

RSUs generally vest 100% on the third anniversary of the grant and are payable in either shares of McDonald's common stock or cash, at the Company's discretion. Certain executives have been awarded RSUs that vest based on Company performance. The fair value of each RSU granted is equal to the market price of the

Company's stock at date of grant less the present value of expected dividends over the vesting period.

A summary of the Company's RSU activity during the years ended December 31, 2008, 2007 and 2006 is presented in the following table:

RSUs	2008		2007		2006	
	Shares in millions	Weighted-average grant date fair value	Shares in millions	Weighted-average grant date fair value	Shares in millions	Weighted-average grant date fair value
Nonvested at beginning of year	3.4	\$35.94	2.6	\$33.00	2.6	\$23.60
Granted	0.8	51.10	1.2	41.73	1.4	34.12
Vested	(1.1)	30.38	(0.2)	32.78	(1.3)	15.24
Forfeited	(0.1)	40.41	(0.2)	35.97	(0.1)	31.78
Nonvested at end of year	3.0	\$40.88	3.4	\$35.94	2.6	\$33.00

The Company realized tax deductions of \$8.8 million from RSUs vested during 2008. The total fair value of RSUs vested during 2008, 2007 and 2006 was \$56.4 million, \$12.6 million and \$43.8 million, respectively.

(1) Includes an income tax benefit of \$316.4 million (\$0.26 per share) resulting from the completion of an IRS examination of the Company's 2003-2004 U.S. federal tax returns.

(2) Includes income from discontinued operations of \$67.5 million after tax (\$0.05 per share—basic, \$0.06 per share—diluted) primarily due to the gain on the sale of Boston Market.

(3) Includes income of \$109.0 million after tax (\$0.09 per share—basic, \$0.10 per share—diluted) from the sale of the Company's minority ownership interest in U.K.-based Pret A Manger.

(4) Includes net pretax and after tax expense of \$1.6 billion (\$1.32 per share from continuing operations—basic, \$1.33 per share net income—basic, \$1.31 per share—diluted) related to the sale of Latam to a developmental licensee.

(5) Includes a \$0.375 per share dividend declared and paid in third quarter and a \$0.50 per share dividend declared in third quarter and paid in fourth quarter.

## MANAGEMENT'S ASSESSMENT OF INTERNAL CONTROL OVER FINANCIAL REPORTING

---

The financial statements were prepared by management, which is responsible for their integrity and objectivity and for establishing and maintaining adequate internal controls over financial reporting.

The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

- I. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- II. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- III. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

There are inherent limitations in the effectiveness of any internal control, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even effective internal controls can provide only reasonable assurances with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of internal controls may vary over time.

Management assessed the design and effectiveness of the Company's internal control over financial reporting as of December 31, 2008. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control – Integrated Framework.

Based on management's assessment using those criteria, as of December 31, 2008, management believes that the Company's internal control over financial reporting is effective.

Ernst & Young, LLP, independent registered public accounting firm, has audited the financial statements of the Company for the fiscal years ended December 31, 2008, 2007 and 2006 and the Company's internal control over financial reporting as of December 31, 2008. Their reports are presented on the following pages. The independent registered public accountants and internal auditors advise management of the results of their audits, and make recommendations to improve the system of internal controls. Management evaluates the audit recommendations and takes appropriate action.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

---

The Board of Directors and Shareholders of  
McDonald's Corporation

We have audited the accompanying consolidated balance sheets of McDonald's Corporation as of December 31, 2008 and 2007, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of McDonald's Corporation at December 31, 2008 and 2007, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in the Notes to the consolidated financial statements, effective January 1, 2007, the Company changed its method of accounting for uncertain tax positions to conform with FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* and for compensation costs associated with a sabbatical to conform with EITF 06-2, *Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43, Accounting for Compensated absences*. On December 31, 2006, the Company adopted the provisions of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, and changed its method of recognizing the funded status of its defined benefit postretirement plans.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), McDonald's Corporation's internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 18, 2009 expressed an unqualified opinion thereon.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

---

The Board of Directors and Shareholders of McDonald's Corporation

We have audited McDonald's Corporation's internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). McDonald's Corporation's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying report on Management's Assessment of Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, McDonald's Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of McDonald's Corporation as of December 31, 2008 and 2007 and for each of the three years in the period ended December 31, 2008, and our report dated February 18, 2009, expressed an unqualified opinion thereon.

## ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

## ITEM 9A. CONTROLS AND PROCEDURES

### Disclosure controls

An evaluation was conducted under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of December 31, 2008. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

### Internal control over financial reporting

The Company's management, including the CEO and CFO, confirm that there was no change in the Company's internal control over financial reporting during the quarter ended December 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

### Management's report

Management's report and the Report of independent registered public accounting firm on internal control over financial reporting are set forth in Part II, Item 8 of this Form 10-K.

## ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

The following table summarizes information about the Company's equity compensation plans as of December 31, 2008. All outstanding awards relate to the Company's common stock. Shares issued under all of the following plans may be from the Company's treasury, newly issued or both.

### Equity compensation plan information

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	39,490,575 <sup>(1)</sup>	\$35.10	40,870,134
Equity compensation plans not approved by security holders	16,936,105 <sup>(2)</sup>	35.45	
Total	56,426,680	\$35.21	40,870,134

(1) Includes stock options outstanding under the following plans: 2001 Omnibus Stock Ownership Plan—36,325,896 shares; 1992 Stock Ownership Incentive Plan (1992 Plan)—104,700 shares; and Non-Employee Director Stock Option Plan—25,500 shares. Also includes 3,034,479 restricted stock units granted under the McDonald's Corporation 2001 Omnibus Stock Ownership Plan.

(2) Includes stock options outstanding under the following plans: 1992 Plan—16,304,089; 1975 Stock Ownership Option Plan—617,766; and 1999 Non-Employee Director Stock Option Plan—14,250.

Additional matters incorporated herein by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after December 31, 2008.

## ITEM 9B. OTHER INFORMATION

None.

## PART III

## ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information regarding directors and the Company's Code of Conduct for the Board of Directors, its Code of Ethics for Chief Executive Officer and Senior Financial Officers and its Standards of Business Conduct is incorporated herein by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after December 31, 2008. We will post any amendments to or any waivers for directors and executive officers from provisions of the Codes on the Company's website at [www.governance.mcdonalds.com](http://www.governance.mcdonalds.com).

Information regarding all of the Company's executive officers is included in Part I, page 9 of this Form 10-K.

## ITEM 11. EXECUTIVE COMPENSATION

Incorporated herein by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after December 31, 2008.

**ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**

Incorporated herein by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after December 31, 2008.

**ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

Incorporated herein by reference from the Company's definitive proxy statement, which will be filed no later than 120 days after December 31, 2008.

**PART IV**

**ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES**

**a. (1) All financial statements**

Consolidated financial statements filed as part of this report are listed under Part II, Item 8, pages 32 through 46 of this Form 10-K.

**(2) Financial statement schedules**

No schedules are required because either the required information is not present or is not present in amounts sufficient to require submission of the schedule, or because the information required is included in the consolidated financial statements or the notes thereto.

**b. Exhibits**

The exhibits listed in the accompanying index are filed as part of this report.

**MCDONALD'S CORPORATION EXHIBIT INDEX (ITEM 15)**

McDONALD'S CORPORATION  
EXECUTIVE RETENTION REPLACEMENT PLAN  
(as amended and restated on December 31, 2008)

**Introduction**

McDonald's Corporation, a Delaware corporation (the "Company"), has established this (this "Plan"), effective as of December 31, 2007 (the "Effective Date"), in order to provide to the Executives (as hereinafter defined) who participate in this Plan, in a manner that complies with Section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), benefits that are substantially economically equivalent in the aggregate to the benefits to which the Executives would have been entitled under the Executive Retention Plan ("ERP") and thus to continue to effect the ERP's purposes of retaining key executives and providing the Company with a smooth succession process. Consistent with the McDonald's Corporation Severance Policy, the modifications hereunder to the ERP are intended solely to comply with Section 409A and not to increase the benefits already provided to the Executives pursuant to the ERP. With respect to each of the Executives, as of the Effective Date, the ERP ceased to be of any force or effect and was superseded in its entirety by this Plan.

**ARTICLE I: DEFINITIONS**

"Accrued Obligations" means, with respect to an Executive, the sum of any (i) base salary and (ii) vacation pay, in each case accrued by such Executive through his or her Date of Termination but not previously paid.

"Actual Annual Bonus" means, with respect to an Executive who elects to terminate his or her employment with the Company in an Article III Termination, the Target Annual Bonus adjusted in accordance with the applicable performance criteria under the TIP with respect to such Executive for the year in which such termination occurs.

"Aggregate Separation Pay Period" means the period beginning on the first day of the First Separation Pay Period and ending on the last day of the Second Separation Pay Period.

"Agreements" means, collectively, (i) any Termination Agreement and General Release (substantially in the form attached as Exhibit 1 hereto) executed by each Executive as a condition to receiving any payments or benefits under the Plan in connection with a Qualifying Termination, (ii) the Acknowledgment and Release (substantially in the form attached as Exhibit 2 hereto) executed by the Executive as a condition to participation in the Plan and (iii) any other noncompetition, nonsolicitation or confidentiality agreement between the Executive and the Company as may be in effect at the relevant time for purposes of this Plan (including, without limitation, any such noncompetition, nonsolicitation or confidentiality agreement executed by the Executive in connection with any equity incentive award granted by the Company to the Executive).

“Annual Base Salary” means an Executive’s base salary at the annualized rate in effect on the day immediately preceding the Date of Termination, but in no event lower than the highest base salary in effect for such Executive at any time after October 29, 1998 (or, in the case of James A. Skinner only, October 1, 1998), provided, that the Annual Base Salary shall be reduced in accordance with any across-the-board reductions applicable to Company officers generally which were approved by the Committee prior to the Date of Termination.

“Article III Termination” means a Qualifying Termination at the election of an Executive in accordance with Article III hereof.

“Beneficiary” means any person, firm, corporation, partnership, venture or other entity of any kind, including without limitation any entity which is tax-exempt under Section 501(c)(3) of the Code, designated in writing by an Executive in accordance with procedures established by the Committee.

“Benefit Plans” means the welfare benefit plans of the Company that provide health, medical, dental and/or life insurance benefits in which such Executive participated immediately prior to his or her Date of Termination.

“Board” means the Board of Directors of the Company.

“Cause” means: (i) the Willful failure of an Executive to perform substantially all of the Executive’s material duties with the Company (other than any failure resulting from incapacity resulting from physical or mental illness), after written demand for substantial performance is delivered to the Executive by the Committee or the CEO; (ii) a Willful violation of the Company’s material rules and policies (including without limitation any material provision of the Standards of Business Conduct) as in effect from time to time; (iii) the Executive’s commission of any act or acts involving dishonesty, breach of fiduciary obligation to the Company, fraud, illegality, malfeasance or moral turpitude; (iv) the Executive’s commission of a criminal or civil violation or other improper act involving fraud or dishonesty; (v) the Executive’s being found liable for or guilty in a civil matter of engaging in discriminatory conduct in violation of any labor or employment laws or in violating or contributing to a violation of an employee’s civil rights; (vi) the Executive revokes or violates any one or more of the provisions of any Agreement; or (vii) the Executive refuses to carry out clearly assigned material duties or is otherwise insubordinate; provided, however, that (x) any act or failure to act on the part of an Executive that is described in clause (i), (ii), (vi) or (vii) hereof of which the Committee receives actual notice shall not be considered “Cause” unless the Committee, the Board or an executive officer of the Company notifies the Executive that such act or failure to act is or may be considered “Cause” within one year after the Committee first receives such actual notice and (y) the termination of an Executive’s employment with the Company shall not be deemed to be for Cause unless and until there shall have been delivered to the Executive a copy of a resolution duly adopted by the affirmative vote of a majority of the Board at a meeting of the Board called and held upon appropriate notice (after reasonable notice is provided to the Executive and the Executive is given an opportunity, together with counsel, to be heard before the Board), finding that, in the good faith opinion of the Board, the Executive is guilty of the conduct described in this paragraph, and specifying the particulars thereof in detail.

“CEO” means the Chief Executive Officer of the Company.

“Claim” has the meaning assigned in Section 2.12.

“Claimant” has the meaning assigned in Section 2.12.

“Code” has the meaning assigned in the Introduction.

“Committee” means the Compensation Committee of the Board, as such committee is constituted from time to time.

“Company” has the meaning assigned in the Introduction.

“CPUP” means the Company’s Cash Performance Unit Plan or, if applicable, such other long-term cash incentive plan of the Company as may be in effect with respect to any performance period during which the Date of Termination occurs.

“Date of Termination” means the date on which an Executive’s employment with the Company terminates in accordance with the terms and provisions of the Plan (including without limitation any applicable notice requirements specified in Sections 3.1, 5.1, 6.1 and/or 10.4 and/or in any other applicable provision of the Plan and, in the event of an Executive’s election to terminate his or her employment in accordance with Article III hereof, Section 3.2 hereof), provided, that an Executive’s employment with the Company shall not be deemed to have terminated (except in the event of the Executive’s death) unless the applicable circumstances constitute such Executive’s “separation from service” with the Company within the meaning of Section 409A(a)(2)(B) of the Code.

“Deferred Compensation Matching Contribution Amount” means, with respect to an Executive whose employment terminates in an Article III Termination, a lump sum payment equal to the sum of (i), (ii) and (iii), where (i) is the product of (A) the Deferred Compensation Percentage, (B) the Executive’s Monthly Base Salary and (C) the number of months in the First Separation Pay Period; (ii) is the product of (A) the Deferred Compensation Percentage, (B) the Executive’s Monthly Base Salary, (C) the Applicable Salary Percentage and (D) 60; and (iii) is the product of (A) the Deferred Compensation Percentage, (B) the Target Annual Bonus and (C) a fraction, the numerator of which is the number of months in the First Separation Pay Period and the denominator of which is 12.

“Deferred Compensation Percentage” means, with respect to an Executive whose employment terminates in an Article III Termination, the average Company matching contribution percentage under the Deferred Compensation Plans during the five calendar years preceding the Date of Termination.

“Deferred Compensation Plans” means the McDonald’s Corporation Profit Sharing and Savings Plan, the McDonald’s Corporation Excess Benefit and Deferred Bonus Plan and any successor or other deferred compensation plans in which the Executive is eligible to participate immediately prior to the Date of Termination.

“Disability” means the material inability of an Executive, due to injury, illness, disease or bodily, mental or emotional infirmity, to carry out the job responsibilities which such Executive held or the tasks to which such Executive was assigned at the time of the incurrence of such Disability, which inability is reasonably expected to be permanent or of indefinite duration exceeding one year. “Disabled” and other terms that are cognates of “Disability” shall have correlative meanings.

“Disability Plan” has the meaning assigned in Section 5.1.

“Disability Termination Notice” has the meaning assigned in Section 5.1.

“Discount Rate” means the interest rate equal to the Prime Rate as reported The Wall Street Journal, Midwest Edition, as in effect on the Date of Termination.

“ERISA” means the Employee Retirement Income Security Act of 1974, as amended.

“Earned Bonus” means, with respect to any calendar year that ends prior to the Date of Termination, any annual bonus earned by an Executive under the TIP with respect to such calendar year and adjusted in accordance with the applicable performance criteria under the TIP that has not been paid to the Executive as of the Date of Termination.

“ERP” has the meaning assigned in the Introduction.

“Effective Date” has the meaning assigned in the Introduction.

“Executive” means one of the following executives of the Company, who are the sole participants in the Plan: Jack Daly, Gloria Santana and James A. Skinner.

“First Separation Pay Period” means, with respect to an Executive, the period beginning on such Executive’s Date of Termination and ending on the date that is the number of months following such Date of Termination determined in accordance with the following sentence. The number of months referred to in the preceding sentence shall be the lesser of (i) the number of the Executive’s Years of Service and (ii) 18.

“Full Target Percentage” means, with respect to an Executive, the target percentage of base salary which the Executive was eligible to receive as a bonus under TIP on the day immediately preceding the Date of Termination without any adjustment, but in no event lower than the Executive’s highest target percentage as in effect under TIP at any time after October 29, 1998 (or, in the case of James A. Skinner only, October 1, 1998), provided, that the Full Target Percentage shall be reduced in accordance with any across-the-board reductions applicable to Company officers generally which were approved by the Committee prior to the Date of Termination.

“Good Reason” means, with respect to James A. Skinner only, (i) the assignment to Mr. Skinner of any duties inconsistent in any respect with his position (including without limitation status, offices, titles and reporting requirements), authority, duties or responsibilities as of the Effective Date, or any other action by the Company which results in a diminution in such position, authority, duties or responsibilities, excluding for this purpose (1) an isolated, insubstantial and inadvertent action, and (2) any material change in status, duties and responsibilities that is expressly contemplated by this Plan; or (ii) the relocation of Mr. Skinner’s

principal place of employment to a location outside the greater Chicago metropolitan area; provided, however, that the Mr. Skinner's termination of his employment shall not be considered to be for Good Reason (x) if he has consented in writing to the occurrence of the event that constitutes Good Reason; and (y) unless he shall have delivered a written notice to the Committee within 30 days of his first having actual knowledge of the occurrence of the event that constitutes Good Reason, stating that he intends to terminate his employment for Good Reason and specifying the factual basis for such termination, and such event is not cured within 30 days of the Committee's receipt of such notice.

"Monthly Base Salary" means an Executive's Annual Base Salary divided by 12.

"Notice of Termination" has the meaning assigned in Section 6.1.

"Objection" has the meaning assigned in Section 5.1.

"Payment Date" means, with respect to an Executive, the six-month anniversary of such Executive's Date of Termination (provided that as of such date the Executive has executed an irrevocable Termination Agreement and General Release as required under Section 4.8 hereof).

"Plan" has the meaning assigned in the Introduction.

"Plan Administrator" has the meaning assigned in Section 2.2.

"Prorated Annual Bonus" means, for any calendar year which begins prior to the Date of Termination and ends following the Date of Termination, the product of (i) the Target Annual Bonus (or, in the case of an Article III Termination only, the Actual Annual Bonus) and (ii) a fraction, the numerator of which is the number of days in the calendar year in which the Date of Termination occurs that have elapsed as of the Date of Termination and the denominator of which is 365.

"Qualifying Termination" means, with respect to an Executive, the termination of the Executive's employment with the Company (i) by the Company without Cause; (ii) in the case of James A. Skinner only, by Mr. Skinner for Good Reason; or (iii) at the election of the Executive (for any reason or no reason) in accordance with Article III hereof.

"Retiree Medical Plan" means any retiree medical insurance plan of the Company as in effect as of the Date of Termination. In the event that the Company has no such plans in effect as of the Date of Termination, the Executive shall be provided with a payment in lieu of continued participation in the Company's group health care plans during the Aggregate Separation Pay Period, determined as set forth in Appendix A.

"Salary Percentage" means 35% or, in the case of James A. Skinner only, 50%.

"Section 409A" means Section 409A of the Code, together with the regulations and guidance promulgated thereunder.

"Separation Payment" has the meaning assigned in Section 4.1.

“Standards of Business Conduct” means, collectively, any standards of conduct, employee handbooks, ethical guidelines, internal controls and procedures, compliance manuals or similar guidelines (written or otherwise) of the Company in effect and applicable to the Executives from time to time.

“Second Separation Pay Period” means, with respect to an Executive, the period beginning on the day immediately following the last day of such Executive’s First Separation Pay Period and ending 60 months thereafter.

“Target Annual Bonus” means the product of the Annual Base Salary and the Full Target Percentage.

“TIP” means the Company’s Target Incentive Plan or, if applicable, any successor annual incentive plan of the Company as in effect as of the Date of Termination.

“Welfare Benefit” means, with respect to an Executive whose employment with the Company terminates in a Qualifying Termination, a lump sum payment in lieu of such Executive’s continued participation during the Aggregate Separation Pay Period in the Benefit Plans determined as set forth in Appendix A hereto.

“Violation” means (i) the filing by an Executive of a lawsuit, charge, complaint or other claim asserting any claim or demand within the scope of the releases given in any of his or her Agreements, (ii) an Executive’s failure properly to execute and deliver the Termination Agreement and General Release attached as Exhibit 1 hereto, (iii) an Executive’s purported revocation of any of his or her Agreements or (iv) an Executive’s breach of any of his or her noncompetition, nonsolicitation, confidentiality or other obligations to the Company pursuant to any of his or her Agreements.

“Willful” means, with respect to an act or omission by an Executive, that such act or omission was done or omitted to be done by such Executive in bad faith or without reasonable belief that the Executive’s action or omission was in the best interests of the Company, it being understood that any act or omission by an Executive based upon authority given pursuant to a resolution duly adopted by the Board or upon the instructions of the CEO or an officer of the Company senior in rank to the Executive to whom the Executive reports or based upon the advice of counsel for the Company shall be conclusively presumed to be done, or omitted to be done, by the Executive in good faith and in the best interests of the Company.

“Years of Service” means, with respect to an Executive, the number of 12-month intervals beginning on the date on which the Executive commenced service with the Company or an affiliate of the Company and ending on the Date of Termination, rounded down to the nearest complete 12-month interval (e.g., a period of 128 months and 3 days shall equal 10 “Years of Service”).

## **ARTICLE II: PURPOSE AND ADMINISTRATION OF THE PLAN**

**2.1 The Committee.** The Committee shall have overall responsibility for the establishment, amendment, administration and operation of this Plan. The Committee shall have the responsibilities and duties and powers under this Plan which are not specifically delegated to anyone else, including without limitation the following powers:

(i) subject to any limitations under this Plan or applicable law, to make and enforce such rules and regulations of this Plan and prescribe the use of such forms as it shall deem necessary for the efficient administration of this Plan;

- (ii) to require any person to furnish such information as it may reasonably request as a condition to receiving any benefit under this Plan;
- (iii) to decide on questions concerning this Plan;
- (iv) to compute or cause to be computed the amount of benefits which shall be payable to any person in accordance with the provisions of this Plan; and
- (v) to appoint and remove, as it deems advisable, the Plan Administrator.

**2.2 The Plan Administrator.** The Committee may appoint an administrator for the Plan (the “Plan Administrator”) who may (but need not) be a member of the Committee, and in the absence of such appointment the Plan Administrator shall be the Corporate Executive Vice President of Human Resources of McDonald’s Corporation. The Plan Administrator shall perform the administrative responsibilities delegated to the Plan Administrator from time to time by the Committee.

**2.3 Discretionary Power of the Committee.** The Committee from time to time may establish rules for the administration of this Plan. The Committee shall have the sole discretion to make decisions and take any action with respect to questions arising in connection with this Plan, including without limitation the construction and interpretation of this Plan and the determination of eligibility for and the amount of benefits under this Plan. The decisions or actions of the Committee as to any questions arising in connection with this Plan, including without limitation the construction and interpretation of this Plan, shall be final and binding upon all Executives and their respective beneficiaries.

**2.4 Action of the Committee.** The Committee may act at a meeting, including without limitation a telephonic meeting, by the consent of a majority of the members of the Committee at the time in office, or without a meeting, by the unanimous written consent of the individual members of the Committee. An executed document signed by an individual member of the Committee and transmitted by facsimile shall be valid as the original signed document for all purposes. Any person dealing with the Committee shall be entitled to rely upon a certificate of any member of the Committee, or the Secretary or any Assistant Secretary of the Company, as to any act or determination of the Committee.

**2.5 Advisors and Agents of the Committee.** The Committee may, subject to periodic review, (a) authorize one or more of its members or an agent to execute or deliver any instrument, and make any payment on its behalf, and (b) utilize the services of associates and engage accountants, agents, legal counsel, record keepers, professional consultants (any of whom may also be serving the Company) or authorized Company personnel to assist in the administration of this Plan or to render advice with regard to any responsibility or issue arising under this Plan.

**2.6 Records and Reports of the Committee.** The Committee shall maintain records and accounts relating to the administration of this Plan. An Executive shall be entitled to review any records relating to his or her individual participation in this Plan and to make copies of such records upon written request to the Committee.

**2.7 Liability of the Committee; Indemnification.** The members of the Committee and the Plan Administrator shall have no liability with respect to any action or omission made by them in good faith nor from any action or omission made in reliance upon (a) the advice or opinion of any accountant, legal counsel, medical adviser or other professional consultant or (b) any resolutions of the Committee or the Board certified by the Secretary or Assistant Secretary of the Company. Each member of the Committee and the Plan Administrator shall be indemnified, defended and held harmless by the Company and its respective successors against all claims, liabilities, fines and penalties and all expenses (including without limitation reasonable attorneys' fees and disbursements and other professional costs incurred in enforcing this provision) reasonably incurred by or imposed upon such individual which arise as a result of his or her actions or failure to act in connection with the operation and administration of this Plan, to the extent lawfully allowable and to the extent that such claim, liability, fine, penalty or expense is not paid for by liability insurance purchased by or paid for by the Company or an affiliate thereof. Notwithstanding the foregoing, the Company shall not indemnify any person for any such amount incurred through any settlement or compromise of any action unless the Company consents in writing to such settlement or compromise, which consent shall not be unreasonably withheld.

**2.8 Plan Expenses.** All expenses under or relating to this Plan shall be paid from the general assets of the Company. To the extent required by applicable law, the Company may require any member of the Committee to furnish a fidelity bond satisfactory to the Company.

**2.9 Service in More than One Capacity.** Any person or group of persons may serve this Plan in more than one capacity.

**2.10 Named Fiduciary.** The named fiduciary of this Plan shall be the Committee.

**2.11 Delegation of Responsibility.** The Committee shall have the authority to delegate from time to time, in writing, all or any part of its responsibilities under this Plan to one or more members of the Committee. The Committee may also delegate administrative functions to the Plan Administrator pursuant to Section 2.2 above. The Committee may in the same manner revise or revoke any such delegation of responsibility. Any action of the delegate in the exercise of such delegated responsibilities shall have the same force and effect for all purposes hereunder as if such action had been taken by the Committee. The Committee shall not be liable for any acts or omissions of any such delegate. The delegate shall periodically report to the Committee concerning the discharge of the delegated responsibilities.

**2.12 Filing a Claim.** (a) Each Executive eligible for benefits under this Plan (“Claimant”) may submit a claim for benefits (“Claim”) to the Plan Administrator in writing on a form provided or approved by the Plan Administrator or, if no such form has been so provided or approved, in a written document that specifies, in reasonable detail, facts and circumstances and the applicable Plan provisions which the Claimant believes entitle him or her to compensation or benefits under this Plan. A Claimant shall have no right to seek review of a denial of benefits, or to bring any action in any court to enforce a Claim, prior to his or her filing a Claim and exhausting his or her rights to review under this Article II.

(b) When a Claim has been filed properly, it shall be evaluated and the Claimant shall be notified of the approval or the denial of the Claim within 45 days after the receipt of such Claim unless special circumstances require an extension of time for processing the Claim. If such an extension is required, written notice of the extension shall be furnished to the Claimant prior to the end of the initial 45-day period, which notice shall specify the special circumstances requiring an extension and the date by which a final decision will be reached (which date shall not be later than 90 days after the date on which the Claim was filed). A Claimant shall be given a written notice in which the Claimant shall be advised as to whether the Claim is granted or denied, in whole or in part. If a Claim is denied, in whole or in part, the notice shall contain (i) the specific reasons for the denial, (ii) references to pertinent Plan provisions upon which the denial is based, (iii) a description of any additional material or information necessary to perfect the Claim and an explanation of why such material or information is necessary, and (iv) the Claimant’s right to seek review of the denial.

(c) An election to terminate employment with the Company pursuant to Section 3.1 of the Plan shall not be considered a Claim and shall not be subject to this Section 2.12.

**2.13 Review of Claim Denial.** (a) If a Claim is denied, in whole or in part, the Claimant shall have the right to (i) request a review of the denial by the Committee or its delegate, (ii) review pertinent documents, (iii) submit issues and comments in writing to the Committee and (iv) appear before the Committee in person to present such issues and comments; provided that the Claimant files a written request for review with the Committee within 60 days after the Claimant’s receipt of written notice of the denial. Within 60 days after the Committee receives a request for review, the review shall be made and the Claimant shall be advised in writing of the decision on review, unless special circumstances require an extension of time for such review, in which case the Claimant shall be given a written notice within such initial 60-day period specifying the reasons for the extension and when such review shall be completed; provided that such review shall be completed within 120 days after the filing of the request for review. The Committee’s decision on review shall be sent to the Claimant in writing and shall include (i) specific reasons for the decision and (ii) references to Plan provisions upon which the decision is based. A decision on review shall be binding on all persons for all purposes.

(b) If a Claimant shall fail to file a request for review in accordance with the procedures herein outlined, such Claimant shall have no right to obtain such a review or to bring an action in any court, and the denial of the Claim shall become final and binding on all persons for all purposes except upon a showing of good cause for such failure.

**2.14** Notwithstanding anything to the contrary in this Article II, to the extent of any inconsistency between this Article II and the provisions of (i) Delaware corporate law and/or (ii) the articles of incorporation, by-laws or other governing documents of the Company (including but not limited to provisions relating to the authority of persons to act as agents of the Company and to indemnification), such other provisions shall prevail over this Article II.

### ARTICLE III: ELECTION TO TERMINATE EMPLOYMENT

3.1 **Conditions to Election.** An Executive may elect to terminate his or her employment with the Company and receive benefits under the Plan upon satisfaction of the following conditions: (i) the Executive must deliver to the Committee (in the case of an election by James A. Skinner) or to the CEO (in the case of an election by any other Executive) a written notice indicating the proposed Date of Termination, substantially in the form attached hereto as Exhibit 2 and in a manner consistent with the requirements of Sections 6.1 and 10.4 hereof; (ii) in the case of any Executive other than James A. Skinner, a successor to the Executive must have been selected by the Company and approved by the CEO in his sole discretion prior to the Date of Termination and (iii) if the proposed Date of Termination of an Executive occurs prior to the Executive's 62<sup>nd</sup> birthday, such election by the Executive shall be subject to the consent of the CEO to be granted in his or her sole discretion.

3.2 **Date of Termination.** In the event of an Executive's election to terminate his or her employment with the Company in accordance with this Article III, the Committee (in the case of an election by James A. Skinner) or the CEO (in the case of an election by any other Executive), may, instead of the Date of Termination proposed by the Executive, specify an earlier or later Date of Termination reasonably selected by the Committee or the CEO, as applicable, and such date shall be the actual Date of Termination for purposes of the Plan.

### ARTICLE IV: PAYMENTS AND BENEFITS FOLLOWING QUALIFYING TERMINATION

In the event that an Executive's employment with the Company terminates in a Qualifying Termination, the Company shall provide to such Executive the following payments and benefits (provided, that the Company shall not be obligated to make any such payments or provide any such benefits (i) in the case of the Executive's termination of employment other than in a Qualifying Termination or (ii) prior to such time as the Executive has executed an irrevocable Termination Agreement and General Release substantially in the form attached as Exhibit 1 hereto and such Termination Agreement and General Release is no longer revocable by the Executive):

4.1 **Lump-Sum Separation Payment.** The Company shall pay to the Executive, on the Payment Date, a lump-sum payment (the "Separation Payment") determined as provided in clauses (a) and (b) of this Section 4.1.

(a) The Separation Payment shall be calculated based on the sum of:

(i) the product of (A) the Executive's Monthly Base Salary and (B) the number of months in the First Separation Pay Period;

- (ii) the product of (A) the Executive's Monthly Base Salary, (B) the applicable Salary Percentage and (C) 60;
  - (iii) the Prorated Annual Bonus;
  - (iv) the product of (A) the Target Annual Bonus and (B) a fraction, the numerator of which is the number of days in the First Separation Pay Period and the denominator of which is 365;
  - (v) in the case of an Article III Termination only, the Deferred Compensation Matching Contribution Amount; and
  - (vi) the Welfare Benefit.
- (b) The Separation Payment shall be equal to the sum of:
- (A) the amount determined pursuant to Section 4.1(a) above discounted, by reference to the Discount Rate, to the Payment Date from the payment dates that would have applied:
    - (I) in the case of 4.1(a)(i), if the Executive had continued to receive regularly scheduled payments of his or her Monthly Base Salary in accordance with the Company's normal payroll practices through the end of the First Separation Pay Period;
    - (II) in the case of 4.1(a)(ii), if the Executive had continued to receive regularly scheduled payments of his or her Monthly Base Salary multiplied by the applicable Salary Percentage in accordance with the Company's normal payroll practices during the Second Separation Pay Period;
    - (III) in the case of 4.1(a)(iii) through (v), if the Executive had continued to participate in TIP and the Deferred Compensation Plans through the end of the First Separation Pay Period; and
    - (IV) in the case of 4.1(a)(vi), if the Executive had continued to participate in the Benefit Plans through the end of the Aggregate Separation Pay Period; and
  - (B) In the case of an Article III Termination only, \$50,000 in lieu of fringe benefits (including annual physical examinations, financial planning assistance and a company car) during the Aggregate Separation Pay Period (and, in the case of James A. Skinner only, an additional \$85,000 in lieu of the provision of an office during the two-year period immediately following the Date of Termination).

(c) Notwithstanding anything to the contrary in Section 4.1(a) or (b), in the case of an Article III Termination only, (i) the Separation Payment paid on the Payment Date shall be determined excluding the Prorated Annual Bonus and (ii) the Prorated Annual Bonus shall be paid to the Executive in the year following the year in which the Date of Termination occurs (and in no event later than December 31 of such year), as soon as practicable following the determination of the Company's actual performance for the year in which the Date of Termination occurs measured against the applicable performance criteria under the TIP.

**4.2 Accrued Obligations.** The Company shall pay to the Executive, on the regular payment date in accordance with the regular payroll practices of the Company that next follows the Date of Termination Date or as soon as reasonably practicable thereafter, the Accrued Obligations in a lump sum.

**4.3 Earned Bonus.** In the event that the Date of Termination occurs following the end of a calendar year but prior to the date on which bonuses for such calendar year are paid to TIP participants generally, the Company shall pay the to the Executive, on the date on which bonuses for such calendar year are paid to TIP participants generally but in any event not later than March 15 of the year following such calendar year, the Earned Bonus. In the case of an Article III Termination only, in addition to the Earned Bonus the Company shall also pay to the Executive, on the same date, an amount in cash equal to the amount (if any) that would have been contributed by the Company and credited to the Executive's account under the Deferred Compensation Plans to match the portion of the Executive's annual bonus for such calendar year if, on the date on which bonuses for such calendar year are paid to TIP participants generally, the Executive had been a participant in the Deferred Compensation Plans and the Executive's deferral elections under the Deferred Compensation Plans as in effect immediately prior to the Date of Termination had still been in effect.

**4.4 CPUP.** With respect to any awards granted to the Executive under the CPUP that are outstanding immediately prior to the Date of Termination, the following provisions shall apply, subject to Section 7.1 hereof:

(a) in the case of an Article III Termination, notwithstanding any provisions to the contrary in the applicable CPUP guidelines or other plan documents or award agreements, during the Aggregate Separation Pay Period, each award that the Executive has been granted under the CPUP and that is outstanding as of the Date of Termination shall (notwithstanding any provisions to the contrary in the original award) be paid promptly (but in any event not more than 90 days) following the end of the applicable performance period under the CPUP or, if applicable, at such earlier time as provided under the McDonald's Corporation Change in Control Severance Plan or any successor plan thereto. The amount of such CPUP awards shall be determined based on the performance criteria specified for the applicable performance period under the CPUP, provided, that such amount shall be prorated by multiplying the award determined in accordance with the foregoing by a fraction, the numerator of which is the number of days in the applicable CPUP performance period that have elapsed immediately prior to the Date of Termination and the denominator of which is the total number of days in such CPUP performance period; and

(b) in the case of termination of the Executive's employment by the Company without Cause or, if applicable, by the Executive for Good Reason, the outstanding CPUP awards will be treated as provided for under the original terms of the award and pursuant to the applicable CPUP guidelines or other plan documents and/or award agreements.

**4.5 Restricted Stock Units.** With respect to any awards of restricted stock units granted to the Executive under the Company's equity incentive compensation plans that are outstanding and unvested immediately prior to the Date of Termination, the following provisions shall apply, subject to Section 7.1 hereof:

- (a) in the case of an Article III Termination, notwithstanding any provisions to the contrary in the original award, the shares and/or cash subject to such awards shall, immediately as of the Date of Termination, cease to be subject to forfeiture conditions, and shall be transferred to the Executive on the payment date or dates that would have applied had the Executive continued to be employed with the Company during the Aggregate Separation Pay Period. The number of shares or the amount in cash, as applicable, payable under each such award that is not performance based shall be 100% of the amount provided for pursuant to the original terms of the award. The number of shares or the amount in cash, as applicable, under each such award that is performance based shall be determined based on the actual performance of the Company against the applicable performance measures during the performance period as provided under the original terms of the award; and
- (b) in the case of termination of the Executive's employment by the Company without Cause or, if applicable, by the Executive for Good Reason, the restricted stock units will be treated as provided for under the original terms of the award and pursuant to the applicable plans and prospectuses.

**4.6 Stock Options.** With respect to any stock options granted to the Executive under the Company's equity incentive compensation plans that are outstanding and unexercised immediately prior to the Date of Termination, notwithstanding any provisions to the contrary in the original award, the following provisions shall apply, subject to Section 7.1 hereof:

- (a) in the case of an Article III Termination, (x) such stock options shall remain outstanding until the end of the period ending on first to occur of (i) the date on which the applicable stock option is exercised; (ii) the date that is 9<sup>1</sup>/<sub>2</sub> years from the Date of Termination; and (iii) the tenth (or, in the case of stock options granted in 1999 or 2000, the thirteenth) anniversary of the date on which the applicable stock option was granted, and (y) any unexercisable stock options that, pursuant to the original terms of the award, would have become exercisable during the period described in clause (x) of this Section 4.6(a) shall continue to become exercisable on the dates specified in the original award; and
- (b) in the case of termination of the Executive's employment by the Company without Cause or, if applicable, by the Executive for Good Reason, the following categories of such stock options shall vest as of the Executive's Date of Termination and remain exercisable until the first to occur of (i) the date on which the applicable stock option is exercised; (ii) the third (or, the case of James A. Skinner only, the fifth) anniversary of the Date of Termination; and (iii) the tenth (or, in the case of stock options

granted in 1999 or 2000, the thirteenth) anniversary of the date on which the applicable stock option was granted: (x) all stock options that are vested as of the Executive's Date of Termination and (y) all stock options that would have vested within three (or, in the case of James A. Skinner only, five) years following the Date of Termination if the Executive had remained employed with the Company.

**4.7 Secretarial Services.** In the case of an Article III termination of James A. Skinner only, the Company shall provide Mr. Skinner, during the two-year period immediately following the Date of Termination, with secretarial services substantially equivalent to those provided to Mr. Skinner immediately prior to the Date of Termination. Such secretarial services shall be provided to Mr. Skinner in accordance with the regulations applicable to reimbursement or in-kind benefit plans as set forth in U.S. Treasury Department Regulation §1.409A-3(i)(1)(iv). The benefits provided under this Section 4.7 in one calendar year shall not affect benefits provided in another calendar year. Mr. Skinner's right to benefits pursuant to this Section 4.7 is not subject to liquidation or exchange for any other benefit.

**4.8 Termination Agreement and General Release.** Upon termination of an Executive's employment with the Company in a Qualifying Termination, upon death or due to the Executive's Disability, the Executive or his or her legal representatives or estate, as the case may be, shall execute a Termination Agreement and General Release substantially in the form attached as Exhibit 1 hereto within 90 days following the Date of Termination. The Plan Administrator may, in its discretion, extend the deadline referred to in the preceding sentence, but in no event shall such deadline be later than 40 days prior to the six-month anniversary of the Date of Termination. Notwithstanding anything to the contrary in this Plan, an Executive (or, if applicable, the Executive's estate) shall not be entitled to receive any benefits under this Plan in connection with the termination of the Executive's employment in a Qualifying Termination prior to the Executive's irrevocable execution of such Termination Agreement and General Release.

## **ARTICLE V: TERMINATION OF EMPLOYMENT OTHER THAN QUALIFYING TERMINATION**

**5.1 Termination Upon Death or Due to Disability.** An Executive's employment shall terminate automatically upon his or her death. In the event that (a) the Committee determines in good faith that an Executive is suffering from a Disability and (b) the appropriate decisionmaker under any applicable Company plan or program providing long-term disability benefits to the Executive (a "Disability Plan") similarly determines that the Executive is eligible for such benefits by virtue of the Executive's disability (as defined for purposes of such plan or program), the Company may deliver to the Executive written notice (a "Disability Termination Notice") in accordance with Section 10.4 below of the Company's intention to terminate the Executive's employment. In such event, the Executive's employment shall terminate effective on the later of (y) the 30th day after receipt of such Disability Termination Notice by the Executive or (z) the first date on which the Executive becomes eligible for long-term disability benefits under the principal Disability Plan applicable to the Executive (the "Disability Effective Date"), provided, however, that (1) in the interim the Executive shall not have returned to full-time performance of the Executive's duties and/or (2) the Executive shall not have delivered to the Committee within 30 days of receipt of a Disability Termination Notice a written objection thereto (an "Objection"). In the event of a timely Objection, any termination of the Executive shall be suspended and the Executive shall be promptly examined by two physicians or other professionals skilled in the relevant field, one selected by the Executive and one by the Committee. Each of the two professionals shall issue a written opinion within 15 days following the completion of his or her examination as to whether the Executive is Disabled in accordance with the definition provided in this Plan. If the two professionals agree, each of the Executive and the Company shall be bound by their joint conclusion. If the two professionals disagree, they shall jointly agree on a third professional to conduct a similar examination. Each of the Executive and the Company shall be bound by the conclusion of such third professional. The Executive agrees to each such examination and to waive any confidentiality rights necessary to allow each of the professionals conducting such examinations to do so. The Company shall pay all fees and costs of all such examinations. In the event of a disagreement as to the determination of the Executive's disability for purposes of a Disability Plan, such disagreement shall be resolved as provided for in such Disability Plan.

**5.2 Payments and Benefits in Connection with Termination Upon Death or Due to Disability.** If an Executive's employment with the Company terminates upon the Executive's death or by reason of the Executive's Disability, the Company shall pay to the Executive or to the Executive's legal representatives:

- (a) on the regular payment date in accordance with the regular payroll practices of the Company that next follows the Date of Termination Date or as soon as reasonably practicable thereafter, the Accrued Obligations in a lump sum;
- (b) with respect to any calendar year that ends on or prior to the Date of Termination, the Earned Bonus, on the date on which bonuses under TIP for such calendar year are paid to TIP participants generally; and

(c) payment or provision of death benefits or disability benefits, as applicable, equal to the benefits provided by the Company to the estates and beneficiaries of other employees of the Company at the level in which the Executive was serving at the time of his or her death or termination for Disability, as applicable.

Except as provided above, the Company shall have no further obligation to the Executive or the Executive's legal representatives pursuant to this Plan.

**5.3 Termination by the Company for Cause.** The Company may terminate an Executive's employment at any time for Cause. In the event that the Company terminates the Executive's employment for Cause, the Company shall have no further obligation to the Executive pursuant to this Plan other than to pay to the Executive the Accrued Obligations in a lump sum in cash within 60 days following the Date of Termination.

**5.4 Termination by the Executive other than in a Qualifying Termination or by reason of death or Disability.** In the event that the Executive terminates his or her employment other than in a Qualifying Termination and neither Section 5.2 nor Section 5.3 above applies, the Company shall have no further obligation to the Executive pursuant to this Plan other than to pay to the Executive the Accrued Obligations in a lump sum in cash within 60 days following the Date of Termination and any Earned Bonus on the date on which bonuses under TIP are paid to TIP participants generally.

**5.5 Equity and CPUP Awards.** If the Executive's employment with the Company terminates under the circumstances described in any of Sections 5.2, 5.3 and 5.4, any awards granted to the Executive under the Company's equity compensation plans or under the CPUP that are outstanding immediately prior to the Date of Termination shall be treated in accordance with the applicable provisions of the applicable plans, guidelines, prospectuses and/or award agreements.

## ARTICLE VI: NOTICE OF TERMINATION

6.1 Any termination of an Executive's employment by the Company or the Executive (other than a termination due to the Executive's death) shall be communicated by Notice of Termination to the other party hereto given in accordance with this Section 6.1. For purposes of this Plan, a "Notice of Termination" means a written notice which (i) indicates the specific termination provision in this Plan relied upon, (ii) to the extent applicable, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the Executive's employment under the provision so indicated, and (iii) if the Date of Termination is other than the date of receipt of such notice, specifies the termination date (which date shall be not more than 30 days after the giving of such notice). The failure by the Executive or the Company to set forth in the Notice of Termination any fact or circumstance which contributes to a showing of Good Reason or Cause shall not waive any right of the Executive or the Company, respectively, hereunder or preclude the Executive or the Company, respectively, from asserting such fact or circumstance in enforcing the Executive's or the Company's rights hereunder. In the event that the Executive elects to terminate employment in an Article III Termination, the Executive shall provide the Notice of Termination in substantially the form attached hereto as Exhibit 3.

## **ARTICLE VII: CONSEQUENCES OF VIOLATION OR ACT OR OMISSION CONSTITUTING CAUSE BY COVERED EXECUTIVE**

7.1 If (i) an Executive commits a Violation or (ii) an Executive has committed, at any time prior to the Date of Termination, any act or omission that would constitute Cause, the Company shall be entitled (in addition to any other remedy to which the Company is entitled under the applicable Agreement) to cancel any and all future obligations of the Company to the Executive under this Plan (including but not limited to any outstanding stock options, restricted stock units and awards under the CPUP) held by the Executive, whether vested or unvested) and to recoup the value of any payments and benefits that have been provided to the Executive under this Plan as of the date on which the Violation occurs or the act or omission that would constitute Cause is discovered (including but not limited to payouts in respect of CPUP awards pursuant to Section 4.4 hereof, payouts in respect of restricted stock units pursuant to Section 4.5 hereof and proceeds realized upon the exercise of stock options that were unvested immediately prior to the Date of Termination pursuant to Section 4.6 hereof), together with the Company's costs and reasonable attorney's fees.

## **ARTICLE VIII: LEGAL FEES AND OTHER EXPENSES**

**8.1 Entitlement to Reimbursement.** If an Executive incurs legal and other fees or other expenses in a good faith effort to obtain pay or benefits under this Plan, regardless of whether the Executive ultimately prevails, the Company shall reimburse the Executive on a monthly basis upon the written request for such fees and expenses to the extent not reimbursed under the Company's officers' and directors' liability insurance policy, if any. The existence of any controlling case or regulatory law which is directly inconsistent with the position taken by the Executive shall be evidence that the Executive did not act in good faith.

**8.2 Method of Reimbursement.** Reimbursement of legal fees and expenses under this Article VIII shall be made monthly upon the written submission of a request for reimbursement, together with evidence that such fees and expenses are due and payable or were paid by the Executive. If the Company shall have reimbursed the Executive for legal fees and expenses and it is later determined that the Executive was not acting in good faith, all amounts paid on behalf of, or reimbursed to, the Executive shall be promptly refunded to the Company.

**8.3 Section 409A Compliance.** The Company's obligation to reimburse the Executive for legal fees and expenses pursuant to this Article VIII is intended to meet the requirements for a specified date or a fixed schedule of payments with respect to such reimbursements consistent with the conditions specified in U.S. Treasury Department Regulation Section 1.409A-3(i)(1)(iv), and the Company and the Executive agree that the provisions of this Article VIII shall be construed so as to comply with such conditions. The Company's obligations pursuant to this Article VIII shall terminate in their entirety on the earlier of (i) the date on which a Violation occurs, if any and (ii) the tenth anniversary of the Executive's death. In no event shall the amount of fees and expenses eligible for reimbursement pursuant to this Article VII in a calendar year affect the fees and expenses eligible for reimbursement in any other calendar year. In no event shall the Company make any reimbursement payment to the Executive pursuant to this Article VIII on a date that is later than the last year of the calendar year during which the applicable expense was incurred by the Executive. In no event shall the Executive be entitled to exchange the right to receive reimbursement pursuant to this Article VIII for cash or any other payment or benefit.

## ARTICLE IX: AMENDMENT AND TERMINATION OF THE PLAN

9.1 The Company has the right to amend this Plan in whole or in part at any time; provided that no amendment of this Plan shall be effective as to any Executive who is or may reasonably be expected to be materially adversely affected thereby until the date that is two years after the date on which the Company gives written notice to all such Executives of its intention to adopt such amendment, unless such Executive consents in writing. Any purported Plan termination or amendment in violation of this Article IX shall be void and of no effect.

## ARTICLE X: MISCELLANEOUS PROVISIONS

10.1 **Successors.** This Plan shall be binding upon the Company and its successors and assigns.

10.2 **Executive Information.** Each Executive shall notify the Committee of his or her mailing address and each change of mailing address to the extent that he or she has not previously informed the Company thereof. In addition, each Executive shall furnish the Committee with any other information and data that the Committee reasonably considers necessary for the proper administration of this Plan and the Executive's Agreements. The information provided by the Executive under this Section 10.2 shall be binding upon the Executive, his or her dependents and any beneficiaries for all purposes of this Plan and the Agreements. The Committee shall be entitled to rely on any representations regarding personal facts made by an Executive, his or her dependents or beneficiaries, unless it has knowledge that such representations are false.

10.3 **Payments to Beneficiary.** If an Executive dies before receiving amounts to which he or she is entitled under this Plan or any Agreement, such amounts shall be paid to the Executive's Beneficiary or, if there is no Beneficiary, to the Executive's estate. If a Beneficiary dies before complete payment of any benefits attributable to a deceased Executive, the remaining benefits shall be paid to the Beneficiary's estate.

10.4 **Notices.** Any notice, request, election, or other official communication under this Plan or any Agreement shall be in writing and shall be delivered personally, by courier service, by registered or certified mail, return receipt requested or (in the case of the Company, the CEO or the HR Official (as defined in the Agreements)) by facsimile, and shall be effective upon actual receipt by the party to which such notice shall be directed, and shall be addressed as follows: (i) if to the Company, or McDonald's Corporation, One McDonald's Plaza, Oak Brook IL 60523, Attention: Corporate Secretary, facsimile: (630) 623-0497, (ii) if to the CEO or the HR Official, to such official at One McDonald's Plaza, Oak Brook, Illinois 60523, facsimile: (630) 623-7409, and (iii) if to an Executive, the last mailing address as specified by the Executive in accordance with Section 10.2 above.

10.5 **Right to Amend Compensation Plans and Employee Plans.** Nothing in this Plan or any Agreement shall be construed to limit the ability of the Company to amend or terminate any of its Benefit Plans or other employee compensation or benefit plans other than this Plan, and any such terminations or amendments shall be effective as to the Executives.

**10.6 Non-Alienation.** No Executive shall have the right to assign, transfer or anticipate an interest in any benefit under this Plan or any Agreement.

**10.7 Severability.** If any one or more articles, sections or other portions of this Plan or of any Agreement are declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity shall not serve to invalidate any article, section or other portion not so declared to be unlawful or invalid. Any article, section or other portion so declared to be unlawful or invalid shall be construed so as to effectuate the terms of such article, section or other portion to the fullest extent possible while remaining lawful and valid.

**10.8 No Waiver.** The Company's or an Executive's failure to insist upon strict compliance with any provision of this Plan or of any Agreement shall not be deemed a waiver of such provision or any other provision of this Plan or of any Agreement. The Company or an Executive may waive any or all of the provisions of this Plan or of any Agreement only by signing a document to that effect. A waiver of any provision of this Plan or of any Agreement shall not be deemed a waiver of any other provision, and any waiver of any default in any such provision shall not be deemed a waiver of any later default thereof or of any other provision.

**10.9 Governing Law.** This Plan is an "employee benefit plan" within the meaning of Section 3(3) of ERISA. It is intended to constitute a "welfare plan" within the meaning of Section 3(1) of ERISA, but to the extent it is held to be a "pension plan" within the meaning of Section 3(2) of ERISA, it constitutes an unfunded plan maintained primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees. To the extent not preempted by federal law, this Plan and all Agreements shall be interpreted and construed in accordance with the laws of the State of Illinois, without regard to any otherwise applicable conflicts of law or choice of law principles.

**10.10 Captions.** The captions of the Sections and Articles of this Plan are not a part of the provisions hereof and shall have no force or effect.

**10.11 No Mitigation or Offset.** In no event shall any Executive or the Company be obligated to take any action by way of mitigation of any damages caused by the breach by the Company or any Executive, as applicable, of its, his or her obligations under this Plan. No Executive's payments or benefits under this Plan shall be reduced by any compensation that the Executive earns after his or her Date of Termination from employment or self-employment, provided that such employment or self-employment does not violate the Executive's obligations under his or her Agreements.

**10.12 Change of Control Employment Agreement.** Notwithstanding any other provision of this Plan, in the event that an Executive's Date of Termination occurs in circumstances under which the Executive would otherwise be eligible to receive severance benefits under a change of control employment agreement with the Company, such Executive shall receive the greater of, but not both of: (i) the aggregate benefits provided under the this Plan plus any golden parachute excise tax gross-up payments provided under

such change of control employment agreement, to the extent that such golden parachute excise tax gross-up payments are applicable to the benefits provided to the Executive under this Plan; or (ii) the aggregate benefits for which the Executive would qualify under the change in control employment agreement if this Section 10.12 did not apply. The value of such benefits shall be determined based on the present value of the benefits provided under each of the change in control employment agreement and this Plan as of the Termination Date.

10.13 **ERP.** As a condition to participation in the Plan, each Executive has executed an Acknowledgment and Release acknowledging that (notwithstanding Article 9 of the ERP) the ERP is no longer of any force or effect with respect to the Executive and that the payments and benefits provided to the Executive under the Plan are in lieu of any payments, benefits or arrangements to which the Executive might otherwise have been entitled under the ERP, and waiving any and all rights and claims that the Executive may otherwise have to any such payments, benefits or arrangements.

10.14 **Company Subsidiaries and Successors.** References in this Plan to employment by “the Company” shall be deemed to include employment by (1) any entity in which the Company directly or through intervening subsidiaries owns 100% of the total combined voting power or value of all classes of stock, or in the case of an unincorporated entity, 100% interest in the capital and profits and (2) any successor or assign of the Company pursuant to Section 10.1, and any obligation of the Company hereunder shall be deemed satisfied if and to the extent an entity described in clause (1) or (2) of this sentence performs such obligation.

10.15 **Section 409A.** The Company intends for the Plan to comply with the requirements of Section 409A, and the Plan shall be interpreted and administered accordingly.

McDONALD’S CORPORATION

Date: December 31, 2008

/s/ Richard Floersch

By: Richard Floersch

Title: Corporate Executive Vice President – Human Resources

WELFARE BENEFIT

Complete the following worksheet to determine the Welfare Benefit as of the Date of Termination:

*COBRA*

- A. Insert the current annual Company cost (as of the Date of Termination) in respect of the Executive's participation in McDonald's medical and dental plans: \_\_\_\_\_
- B. Multiply the amount in A by 1.5: \_\_\_\_\_

*RETIREE MEDICAL*

- C. Insert the aggregate amount of the monthly premium payable under all the Retiree Medical Plans of McDonald's in which the Executive is eligible to participate immediately prior to the Date of Termination to purchase the same type of coverage (family or individual) that the Executive has immediately prior to the Date of Termination:  
  
*(If the Company has no retiree medical insurance plans in which the Executive is eligible to participate as of the Date of Termination, insert here the same amount determined under "A" above.)* \_\_\_\_\_
- D. Subtract 18 from the number of months in the Aggregate Separation Pay Period: \_\_\_\_\_
- E. Multiply C and D: \_\_\_\_\_

*LIFE INSURANCE*

- F. Enter the annual Company cost for life insurance coverage as shown on the Executive's total compensation statement issued most recently prior to the Date of Termination: \_\_\_\_\_
- G. Divide F by 12: \_\_\_\_\_
- H. Multiply G by the number of months in the First Separation Pay Period: \_\_\_\_\_
- I. Multiply G by (i) the number of months in the Second Separation Pay Period and (ii) the applicable Salary Percentage: \_\_\_\_\_

*WELFARE BENEFIT*

- J. Add B, E, H and I. ***This is the Welfare Benefit.*** \_\_\_\_\_

**TERMINATION AGREEMENT AND GENERAL RELEASE**

THIS TERMINATION AGREEMENT AND GENERAL RELEASE (this “Agreement”) is entered into as of this \_\_\_\_ day of \_\_\_\_, \_\_\_\_, by and between McDonald’s Corporation, a Delaware corporation (the “Company”) and \_\_\_\_\_ (the “Executive”), pursuant to the Company’s Executive Retention Replacement Plan (the “Plan”), a copy of which is attached hereto as Exhibit A.

W I T N E S S E T H:

WHEREAS, the Executive participates in the Plan; and

WHEREAS, if the Executive complies with his/her obligations under the Plan, he/she will hereafter be entitled to substantial compensation and benefits under the Plan to which he/she would not otherwise be entitled; and

WHEREAS, the Executive is required under the Plan to execute this Agreement in order to receive benefits under the Plan;

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. **Definitions.** Capitalized terms used but not defined in this Agreement shall have the meanings given to them in the Plan. The following terms shall have the meanings set forth below:

*Agreement:* defined in the first paragraph above.

*Company:* defined in the first paragraph above.

*Company Property:* all records, documents, materials, papers, computer records or print-outs belonging to McDonald’s, including without limitation those containing Confidential Information and Trade Secrets.

*Competing Business:* any Person (and any branches, offices or operations thereof) that is a material and direct competitor of McDonald’s in any country in the world or in any state of the United States by virtue of selling, manufacturing, processing or promoting any product that is substantially similar to, competes with, or is intended to compete with, replace, or duplicate in the market any product that was sold or under development by McDonald’s during the five years (or shorter period of the Executive’s employment with the Company) preceding the date of execution of this Agreement or with respect to which the Executive has had specific knowledge and involvement.

*Confidential Information and Trade Secrets:* all valuable and unique tangible and intangible information and techniques acquired, developed or used by McDonald’s relating to its business, operations, employees and customers, which gives McDonald’s a competitive advantage in the businesses in which McDonald’s is engaged, including without limitation

processes, methods, techniques, systems, computer data, formulae, patents, models, devices, compilations, customer lists, supplier lists or any information of whatever nature that gives McDonald's an opportunity to obtain an advantage over competitors who do not know or use such data or information.

*Executive:* defined in the first paragraph above.

*HR Official:* the Company's Senior Executive Vice President of Human Resources (or any successor position).

*Justified Disclosure:* defined in Section 8(a) below.

*McDonald's:* the Company and its subsidiaries, divisions, affiliates and related companies.

*McDonald's-Related Person:* any director, officer, employee or franchisee of the Company or any of its subsidiaries, divisions, affiliates and related companies.

*Other Separation Benefits:* defined in Section 9(c) below.

*Person:* a person, firm, corporation, partnership, venture or other entity of any kind.

*Plan:* defined in the first paragraph above.

*Recovery Period:* the period beginning on the Date of Termination and ending on the date on which a Violation is discovered.

*Release Date:* the Executive's Date of Termination.

*Released Persons:* defined in Section 9(a) below.

*Specified Competitors:* the entities listed on Exhibit B hereto and their respective subsidiaries and affiliates, as required by Section 1.02(b) of the Plan.

*Stock Option Gains:* defined in Section 10(c)(iv) below.

*Violation:* defined in the Plan.

**2. Relationship of Agreement to Plan.** The provisions of the Plan, including without limitation the provision regarding administration in Article II of the Plan, are applicable to this Agreement and to the obligations of the Company and the Executive hereunder, and are hereby incorporated by reference into this Agreement. However, any amendments made to the Plan after the date of this Agreement will not apply to the Executive absent the consent of the Executive, to the extent such consent is required pursuant to Article IX of the Plan.

**3. Circumstances Requiring Agreement.** The Executive's employment [has terminated] [will terminate] as a result of [insert the appropriate clause from the following:]

[the Executive's election to terminate employment pursuant to Article III of the Plan]

[termination by the Company other than for Cause]

[termination by the Executive for Good Reason]<sup>1</sup>

The Executive's Date of Termination is \_\_\_\_\_, \_\_\_\_\_. This Agreement constitutes the Executive's Termination Agreement and General Release.

4. **Termination Benefits.** The Executive shall be entitled to receive the benefits specified in Article IV of the Plan, provided that the Executive properly executes this Agreement, does not revoke this Agreement, and complies with all Agreements that he or she is required under the Plan to execute. These Termination Benefits are outlined on Exhibit C hereto.

**5. Company Property and Confidentiality.**

(a) **Acknowledgements.** The Executive acknowledges that (i) it is the policy of McDonald's to maintain as secret and confidential all Confidential Information and Trade Secrets; (ii) all Confidential Information and Trade Secrets are the sole and exclusive property of McDonald's; and (iii) disclosure of Confidential Information and Trade Secrets would cause significant damage to McDonald's.

(b) **Company Property.** The Executive agrees to turn all Company Property over to the CEO or the CEO's designee, at or as promptly as practicable following the execution of this Agreement.

(c) **Confidentiality.** The Executive shall not, without obtaining the Company's consent pursuant to Section 7 below, use, disclose, furnish or make accessible to any Person any Confidential Information and Trade Secrets obtained during the Executive's employment with the Company at any time for so long as such information remains confidential or secret.

**6. Other Covenants.**

(a) **Acknowledgements.** The Executive acknowledges that McDonald's is engaged in a highly competitive, global business that requires the preservation of Confidential Information and Trade Secrets. The Executive further acknowledges that McDonald's has near-permanent relationships with vendors, affiliates, customers, suppliers, manufacturers, alliance partners, employees and service organizations, which McDonald's has a legitimate interest in protecting. Finally, the Executive acknowledges that the covenants set forth in this Section 6 are reasonable under the circumstances, that he or she has the skill and ability to find alternative commensurate work not in violation of such covenants and that he or she has the wherewithal to support himself/herself and his/her family without violating such covenants, including without limitation the covenant not to compete provided for in Section 6(b) below.

(b) **Noncompetition.** The Executive agrees to not work for or provide services to a Competing Business or to the Specified Competitors at any time on or before \_\_\_\_\_, \_\_\_\_\_ [insert date of the second anniversary of the Date of Termination].

---

<sup>1</sup> Applies only to James A. Skinner.

(c) *Exceptions.* It shall not be considered a violation of this Section 6 for the Executive to engage in any of the following:

- (i) The performance of services for and on behalf of an investment banking or commercial banking, auditing or consulting firm at any time after the termination of the Executive's employment, so long as the Executive is not personally engaged in rendering services to or soliciting business of a Competing Business or any of the Specified Competitors; or
- (ii) Being the record or beneficial owner of up to one (1) percent of the outstanding voting securities of any publicly traded entity; or

(d) *No Solicitation or Hiring of Employees.* The Executive shall not, at any time on or before \_\_\_\_\_, \_\_\_\_\_ [insert the second anniversary of the Date of Termination], solicit or attempt to solicit any employee (other than the Executive's administrative assistant), consultant, franchisee, supplier or independent contractor of McDonald's to terminate, alter, or lessen that party's affiliation with McDonald's or to interfere with or violate the terms of any agreement or understanding between such entity, employee or person and McDonald's.

(e) *No Disparagement.* The Executive shall not, at any time on or before \_\_\_\_\_, \_\_\_\_\_ [insert third anniversary of Date of Termination], (i) make any public disclosures or publish any articles or books about McDonald's, its business or any McDonald's-Related Person, or grant an interview to any representative of the public media, without the prior written consent of the CEO, or (ii) intentionally publish any statement or make any disclosure about McDonald's, its business or any McDonald's-Related Person that is disparaging, derogatory or otherwise casts a bad light on McDonald's, its business or any McDonald's-Related Person.

## **7. Consent Procedure.**

(a) *Seeking Consent.* The Executive may seek the Company's consent to engage in any of the activities prohibited by Section 5 (c) or Section 6 above, by providing written notice thereof to the Company addressed to the HR Official [or to the CEO]<sup>2</sup>, including, in the case of an activity prohibited by Section 6, a full and complete disclosure in writing to the Company of all the relevant facts, including without limitation the services to be rendered or activities to be engaged in, places of employment, performance of services or activities, compensation to be paid, expertise to be provided, amount to be invested, stock or debt to be received, and business plan or plans to be executed by such entity or person. The Company thereafter shall have fourteen (14) calendar days to consider the Executive's contemplated activities as disclosed and shall in writing, either consent or object to such activities. It is agreed that consent shall not be unreasonably withheld.

(b) *Binding Decisions.* All decisions of the Company under this Section 7 shall be final and binding upon the Executive, and the Executive shall not engage in any such activities if the Company shall object.

<sup>2</sup> Do not include in an Agreement signed by James A. Skinner.

## 8. Legal Compulsion.

(a) *Notice.* If the Executive reasonably and in good faith believes that he or she is or may be compelled by law or by a court or governmental agency by a proper proceeding to disclose Confidential Information and Trade Secrets, or to make a statement or take other action that would, absent this Section 8, violate Section 5(c) above (each such disclosure, statement or action, a “Justified Disclosure”), then the Executive shall give the Company written notice thereof as far in advance of such Justified Disclosure as is lawful and practicable, shall cooperate (at the Company’s sole expense) with the Company in its efforts to prevent such Justified Disclosure from being compelled, and shall limit his or her Justified Disclosure to the minimum compelled by law or court order, except to the extent the Company agrees otherwise in writing.

(b) *No Violation.* If the Executive complies with the foregoing procedure to the greatest extent possible without violating applicable law, then the Executive shall not be deemed to have breached Section 5(c) above as a result of the Justified Disclosure.

## 9. Release Provisions.

(a) *Release.* The Executive understands, intends and agrees that this Section 9 constitutes full, complete and final satisfaction of all claims, demands, lawsuits or actions of any kind, whether known or unknown, against McDonald’s and/or their respective directors, officers or employees (with McDonald’s, collectively, the “Released Persons”), arising at any time up to and including the Release Date, and the Executive hereby forever releases each Released Person from all such matters. This includes, but is not limited to, a release of claims, demands, lawsuits and actions of any kind relating to any employment or application for employment or franchise, claims relating to resignation and/or cessation of employment, claims alleging breach of contract of any tort, claims for wrongful termination, defamation, intentional infliction of emotional distress, personal injury, violation of public policy and/or negligence related to employment or resignation, claims under Title VII of the Civil Rights Act of 1964, as amended, Section 1981 of the Civil Rights Act of 1866, as amended, the Age Discrimination in Employment Act of 1967, as amended, the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Employee Retirement Income Security Act of 1974, as amended, the Worker Adjustment and Retraining Notification Act, the Family and Medical Leave Act of 1993, the Illinois Human Rights Act, or any other state, Federal or local law prohibiting discrimination, and claims based on any other law, regulation, or common law, whether before any Federal, state or local agency, in any court of law or before any other forum. Notwithstanding the foregoing, the Executive’s release shall not extend to any claims (i) for benefits under Employee Plans that are qualified under Section 401(a) of the Internal Revenue Code, (ii) for payments and benefits to which the Executive is entitled under the Plan as provided in Section 4 above, (iii) for payments or benefits under any Deferred Compensation Plan, Benefit Plan or other employee benefit plan of the Company to which the Executive is entitled by the terms thereof, except as provided otherwise in Section 9(c) below and except to the extent such entitlements are specifically amended or eliminated by the Plan, or (iv) for indemnification under the Company’s policy on indemnification of officers and directors and coverage under any related insurance policies.

(b) *Advice, Time to Consider and Revocation.* [The Executive is hereby advised to consult with an attorney prior to executing this Agreement. The Executive is further advised that

he/she has a period of 21 days within which to consider the terms of this Agreement and whether or not to execute it. In addition, for a period of 7 days following the Executive's execution of this Agreement, he/she has the right to revoke this Agreement, and no portion of this Agreement shall become effective or enforceable until such revocation period has expired.]<sup>3</sup>

(c) *Other Benefits.* The Executive acknowledges and agrees that the payments and benefits provided to the Executive under the Plan are in lieu of any payments, benefits or arrangements to which the Executive might otherwise be entitled to under any Employee Plan or other plan or arrangement which provides for severance or separation ("Other Separation Benefits"), and the Executive hereby waives any and all rights and claims that he or she may now or hereafter have to any Other Separation Benefits; provided, that the foregoing waiver shall not apply to any right the Executive may have to any gross-up payments related to the excise tax on excess parachute payments imposed by Section 4999 of the Internal Revenue Code under any change of control employment agreement with the Company. The foregoing shall not be construed as affecting in any manner the Executive's benefits and entitlements (if any) under any Employee Plan that provides pension or retiree medical or life insurance benefits.

(d) *Acknowledgements.* The Executive acknowledges having read and understood the provisions of this Section 9 as well as the other provisions of this Agreement, and represents that his/her execution of this Agreement constitutes his/her knowing and voluntary act, made without coercion or intimidation. The Executive acknowledges and agrees that the release set forth in this Section 9 is being given only in exchange for consideration in addition to anything of value to which the Executive already is entitled. [The Executive finally agrees not to file any lawsuits against the Company or any of the released entities or persons with respect to claims covered by the release given in this Section 9.]<sup>4</sup>

## 10. Remedies.

(a) *Acknowledgements.* In recognition of the confidential nature of the Confidential Information and Trade Secrets, and in recognition of the necessity of the limited restrictions imposed by the Agreement, the Executive acknowledges it would be impossible to measure solely in money the damages which McDonald's would suffer if the Executive were to breach any of his/her obligations under Sections 5 and 6 above. The Executive also acknowledges that his/her breach of any such obligations would irreparably injure the Company.

(b) *Entitlement to Injunctive Relief.* If the Executive breaches any of his/her obligations under Sections 5 and 6 above, McDonald's shall be entitled, in addition to any other remedies to which McDonald's may be entitled under the Agreement or otherwise, to an injunction issued by a court of competent jurisdiction, to restrain any breach or threatened breach, of such provisions, and the Executive waives any right to assert any claim or defense that McDonald's has an adequate remedy at law for any such breach and any right to require, or request a court to require, that McDonald's post a bond in connection therewith.

<sup>3</sup> This language may be deleted or modified by the Company, depending upon individual circumstances and/or changes in law relating to age discrimination or otherwise.

<sup>4</sup> To be discussed.

(c) *Effect on Other Benefits.* In the event of a breach by the Executive of any of his/her obligations under this Agreement, excluding for this purpose an isolated, insubstantial and inadvertent action, the Company shall be entitled to:

- (i) discontinue any and all payments and other benefits to which the Executive or his/her beneficiaries would otherwise be entitled pursuant to this Agreement and/or the Plan;
- (ii) terminate any and all unexercised stock options, outstanding restricted stock units and outstanding awards under the CPUP then held by the Executive or by any transferee of the Executive;
- (iii) require the Executive to repay to the Company the aggregate amount of cash payments received by the Executive from the Company pursuant to this Agreement and/or the Plan; and
- (iv) in the case of any such breach occurring after the Executive's Date of Termination, require the Executive to pay to the Company any Stock Option Gains (as defined in the next two sentences). "Stock Option Gains" with respect to the Executive's stock options that were not vested as of his or her Date of Termination means the aggregate amount of any gain recognized upon exercise of such stock options during the Recovery Period. "Stock Option Gains" with respect to the Executive's stock options that were vested as of his or her Date of Termination means the excess, if any, of (A) the aggregate amount of any gain recognized upon exercise of such stock options during the Recovery Period over (B) the amount of gain that would have been recognized, had such exercises instead occurred on the Executive's Date of Termination.

11. **Successors.** This Agreement shall be binding upon and inure to the benefit of the Company and the Executive and their respective heirs, representatives and successors.

12. **Jurisdiction and Venue.** Any action arising under this Agreement or between the Company and the Executive shall be instituted and brought exclusively under the jurisdiction and venue of the appropriate state or federal courts for the City of Oak Brook, Illinois, County of DuPage. The Executive hereby consents to the exclusive jurisdiction of said courts regardless of where the Executive may be domiciled at the time such suit is brought. It is further agreed that in the event the Company shall be required to institute any proceedings to enforce the terms of this Agreement, then the Company shall be entitled to recover its attorney fees and attendant expenses as part of any recovery.

13. **Captions.** The captions of the Sections of and Exhibits to this Agreement are not a part of the provisions hereof and shall have no force or effect.

14. **Entire Agreement.** This Agreement, together with the Plan, contain the entire agreement between the parties, and supersede any and all previous agreements, written or oral, between the Executive and the Company relating to the subject matter hereof. No amendment or modification of the terms of this Agreement shall be binding upon the parties hereto unless reduced to writing and signed by each of the parties hereto.

15. **Counterparts.** This Agreement may be executed in counterparts, each of which shall be deemed an original.

16. **Severability.** If any one or more Sections or other portions of this Agreement are declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity shall not serve to invalidate any Section or other portion not so declared to be unlawful or invalid. Any Section or other portion so declared to be unlawful or invalid shall be construed so as to effectuate the terms of such Section or other portion to the fullest extent possible while remaining lawful and valid.

17. **Governing Law.** To the extent not preempted by federal law, this Agreement shall be interpreted and construed in accordance with the laws of the State of Illinois, without regard to any otherwise applicable conflicts of law or choice of law principles.

IN WITNESS WHEREOF, the Executive has hereunto set his hand, and the Company has caused these presents to be executed in its name on its behalf, all as of the day and year first above written.

First Amendment to the McDonald's Corporation  
Amended and Restated 2001 Omnibus Stock Ownership Plan

The McDonald's Corporation Amended and Restated 2001 Omnibus Stock Ownership Plan (the "Plan"), is hereby amended, effective as of February 11, 2009, as set forth below.

Section 21 of the Plan is amended to read as follows:

**21. Change in Control Provisions**

Notwithstanding any other provision of this Plan to the contrary, the provisions of this Section 21 shall apply in the event of a Change in Control, unless otherwise determined by the Committee in connection with the grant of an Award (as reflected in the applicable Award Agreement).

(a) Upon a Change in Control, each then-outstanding stock option and stock appreciation right, and each other then-outstanding Award that is a Service-Vesting Award (each, a "Replaced Award"), shall be replaced with another Award meeting the requirements of Section 21(b) (a "Replacement Award"); provided that (i) if a Replacement Award meeting the requirements of Section 21(b) cannot be issued (because, for example, there are no publicly traded equity securities available, such that the requirement described in clause (iii) of the first sentence of Section 21(b) cannot be met), or (ii) the Committee so determines at any time prior to the Change in Control, upon a Change in Control each Replaced Award shall instead become fully vested, exercisable and free of restrictions. The treatment of any Awards which are not Replaced Awards (i.e., Awards other than stock options and stock appreciation rights, which are not Service-Based Awards) shall be as determined by the Committee in connection with the grant thereof, as reflected in the applicable Award Agreement.

(b) An Award shall meet the conditions of this Section 21(b) (and hence qualify as a Replacement Award) if: (i) it is of the same type as the Replaced Award; (ii) it has a value at least equal to the value of the Replaced Award; (iii) it relates to publicly traded equity securities of the Company or its successor in the Change in Control or another entity that is affiliated with the Company or its successor following the Change in Control; (iv) its terms and conditions comply with Section 21(c) below; and (v) its other terms and conditions are not less favorable to the Grantee than the terms and conditions of the Replaced Award (including the provisions that would apply in the event of a subsequent Change in Control). Without limiting the generality of the foregoing, the Replacement Award may take the form of a continuation of the Replaced Award if the requirements of the preceding sentence are satisfied. The determination of whether the conditions of this Section 21(b) are satisfied shall be made by the Committee, as constituted immediately before the Change in Control, in its sole discretion. Without limiting the generality of the foregoing, the Committee may determine the value of Awards and Replacement Awards that are stock options by reference to either their intrinsic value or their fair value.

(c) Upon a Termination of Employment or Termination of Directorship of a Grantee occurring in connection with or during the period of two years after such Change in Control, other than for Cause, (i) all Replacement Awards held by the Grantee shall become fully vested and (if

applicable) exercisable and free of restrictions, and (ii) all stock options and stock appreciation rights held by the Grantee immediately before the Termination of Employment or Termination of Directorship that the Grantee held as of the date of the Change in Control or that constitute Replacement Awards shall remain exercisable for not less than two years following such termination or until the expiration of the stated term of such stock option, whichever period is shorter (provided, that if Section 12 or the applicable Award Agreement provides for a longer period of exercisability, that provision shall control). Notwithstanding the above, in the case of Awards granted to employees of the Company or a Subsidiary on or following February 11, 2009, the treatment described in the preceding sentence shall not apply if the Termination of Employment is instigated by the Employee.

Except as amended above, the Plan shall remain in full force and effect.

**EXHIBIT 12.**
**McDONALD'S CORPORATION COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES**

<i>Dollars in millions</i>	<i>Years ended December 31, 2008</i>				
	<i>2008</i>	<i>2007</i>	<i>2006</i>	<i>2005</i>	<i>2004</i>
<b>Earnings available for fixed charges</b>					
Income from continuing operations before provision for income taxes and cumulative effect of accounting changes	<b>\$6,158.0</b>	\$3,572.1 <sup>(1)</sup>	\$4,154.4 <sup>(2)</sup>	\$3,660.2	\$3,217.0 <sup>(3)</sup>
Minority interest expense in operating results of majority-owned subsidiaries, including fixed charges related to redeemable preferred stock, less equity in undistributed operating results of less than 50%-owned affiliates	<b>10.7</b>	7.2	5.5	1.2	4.4
Income tax provision (benefit) of 50%-owned affiliates included in income from continuing operations before provision for income taxes	<b>30.0</b>	22.4	5.9	(3.5)	13.1
Portion of rent charges (after reduction for rental income from subleased properties) considered to be representative of interest factors*	<b>321.3</b>	312.8	304.0	292.8	272.2
Interest expense, amortization of debt discount and issuance costs, and depreciation of capitalized interest*	<b>556.8</b>	442.7	437.4	392.2	394.2
	<b>\$7,076.8</b>	\$4,357.2	\$4,907.2	\$4,342.9	\$3,900.9
<b>Fixed charges</b>					
Portion of rent charges (after reduction for rental income from subleased properties) considered to be representative of interest factors*	<b>\$ 321.3</b>	\$ 312.8	\$ 304.0	\$ 292.8	\$ 272.2
Interest expense, amortization of debt discount and issuance costs, and fixed charges related to redeemable preferred stock*	<b>539.7</b>	425.9	418.4	373.4	375.6
Capitalized interest*	<b>12.5</b>	7.0	5.5	5.0	4.1
	<b>\$ 873.5</b>	\$ 745.7	\$ 727.9	\$ 671.2	\$ 651.9
Ratio of earnings to fixed charges	<b>8.10</b>	5.84	6.74	6.47	5.98

\* Includes amounts of the Registrant and its majority-owned subsidiaries, and one-half of the amounts of 50%-owned affiliates. The Company records interest expense on unrecognized tax benefits in the provision for income taxes. This interest is not included in the computation of fixed charges.

(1) Includes pretax charges of \$1.7 billion primarily related to impairment in connection with the Company's sale of Latam to a developmental licensee.

(2) Includes pretax charges of \$134.2 million primarily related to impairment.

(3) Includes pretax charges of \$202.1 million consisting of \$130.5 million related to impairment and \$120.9 million related to the correction in the Company's lease accounting practices and policies as well as a \$49.3 million gain relating to the sale of the Company's interest in a U.S. real estate partnership.

## EXHIBIT 31.1. RULE 13A-14(A) CERTIFICATION OF CHIEF EXECUTIVE OFFICER

---

I, James A. Skinner, Vice Chairman and Chief Executive Officer of McDonald's Corporation, certify that:

- (1) I have reviewed this annual report on Form 10-K of McDonald's Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## EXHIBIT 31.2. RULE 13A-14(A) CERTIFICATION OF CHIEF FINANCIAL OFFICER

---

I, Peter J. Bensen, Corporate Executive Vice President and Chief Financial Officer of McDonald's Corporation, certify that:

- (1) I have reviewed this annual report on Form 10-K of McDonald's Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
