NOTES TO FINANCIAL STATEMENTS
September 30, 2018

Note 1 - ORGANIZATION

Ashton Young, Inc., a Michigan corporation, provides investment services as a registered broker-dealer with the Financial Industry Regulatory Authority (FINRA) and the Securities Exchange Commission (SEC).

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Securities Transactions

Securities transactions and the related commission revenues and expenses are recorded on a trade date basis.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Financial Instruments With Off-Balance-Sheet Risk

In the normal course of business, the Company's activities involve the execution, settlement and financing of various securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the other party to the transaction is unable to fulfill its contractual obligation.

Subsequent Events

The Company has evaluated events and transactions for potential recognition or disclosure through November 27, 2018, which is the same date the financial statements were available to be issued.

New Accounting Pronouncement

In 2017, the Financial Accounting Standards Board (FASB) issued ASC 606, Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance in accounting principles generally accepted in the United States of America. The core principle of this standard is that revenue should be recognized for the amount of consideration expected to be received for promised goods or services transferred to customers. This standard will be effective for the Company for the annual reporting period beginning after December 31, 2017. The Company has not yet selected a transition method, but it is not expected to have a significant impact on the Company's financial statements.
