IMPORTANT INFORMATION ABOUT THE VOYA RUSSELLTM LARGE CAP GROWTH INDEX PORTFOLIO (the “Fund”)

Effective immediately, the Fund’s diversification status will be considered either “diversified” or “non-diversified,” as defined in the 1940 Act, depending upon the composition of the Russell Top 200[®] Growth Index (the “Index”) at the time.

A “non-diversified” mutual fund may invest a greater percentage of its assets in the securities of a single issuer than a “diversified” mutual fund. A “non-diversified” investment company is subject to the risks of focusing investments in a small number of issuers, industries or foreign currencies, including being more susceptible to risks associated with a single economic, political or regulatory occurrence than a more diversified mutual fund might be. The Fund may significantly underperform other mutual funds or investments due to the poor performance of relatively few stocks, or even a single stock, and the Fund shares may experience significant fluctuations in value.
