Report of Independent Registered Public Accounting Firm

Stockholder and the Board of Directors
First Analysis Securities Corporation

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of First Analysis Securities Corporation (the Company) as of December 31, 2022, and the related notes (collectively, the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

RSM US LLP

We have served as the Company's auditor since 2016.

The accompanying notes are an integral part of this statement.

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT
December 31, 2022

NOTE A - ORGANIZATION

First Analysis Securities Corporation (the Corporation) is a wholly owned subsidiary of First Analysis Corporation (the Parent). The Corporation is a broker-dealer registered with the U.S. Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA). The Corporation is an investment banker acting as a financial advisor.

For the year ended December 31, 2022, the Corporation relied on Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.15c3-3 because the Corporation limited its activities to proprietary trading, receiving transaction-based compensation for identifying potential merger and acquisition opportunities for clients, and receiving compensation for research services provided to institutional clients. The Corporation did not directly or indirectly receive, hold or otherwise owe funds or securities for or to customers, did not carry accounts of or for customer and did not carry proprietary accounts of broker-dealers (as defined in Rule 15c3-3).

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Accounting Policies

The Corporation follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition, results of operations, and cash flows.

Fair Value Measurements

The Corporation defines fair value as the amount to be received to sell an asset in an orderly transaction with market participants at the reporting date. Money market funds are valued based on the published net asset value per share on the day of valuation. U.S. Treasury bills are valued at amortized cost which approximates fair value. All other investments will be valued by the Corporation in the absence of readily ascertainable market values. In determining the valuation of such securities, the Corporation considers the internal and external variables, including the current holding period of the investments, transactional events, market events, economic conditions and the industry environment. At December 31, 2022, the Corporation held shares in Nasdaq, Inc. (NDAQ) and RA Medical Systems, Inc., with fair values of \$55,215 and \$17, respectively. The Corporation also held warrants in: Built In, Inc., Cartasite, LLC, Molculera Labs, Inc., and Visiquate, Inc. The Corporation deemed the Visiquate warrants to have a fair value of \$68,916, while the Built In, Cartasite and Molculera warrants were deemed to have a value of \$0.

Investment in securities transactions are reflected on a trade date basis.

The Corporation classifies its investments under a fair value hierarchy as follows: Level 1, which refers to securities traded in an active market; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available or Level 1 securities that have a contractual restriction; and Level 3, which refers to securities not traded in an active market and for which no significant observable market

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

inputs are available. At December 31, 2022, the Corporation's assets were classified as follows, based on fair values:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market funds (1)	\$ 2,393,918	\$ -	\$ -	\$ 2,393,918
U.S. Treasury bills	-	4,955,673	-	4,955,673
Investments in securities (2)	<u>55,232</u>	<u>-</u>	<u>68,916</u>	<u>124,148</u>
Total assets	<u>\$ 2,449,150</u>	<u>\$ 4,955,673</u>	<u>\$ 68,916</u>	<u>\$ 7,473,739</u>

(1) Included in cash and cash equivalents on the accompanying statement of financial condition.

(2) Included in investments in securities on the accompanying statement of financial condition.

The Corporation assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Corporation's accounting policy regarding the recognition of transfers between the levels of the fair value hierarchy. There were no transfers among Levels 1, 2, and 3 during the year.

Revenue Recognition

Commissions revenue represents research commissions received from third parties for investment research services provided. The performance obligation for research commissions is satisfied when the research services are provided to the customer. These commissions are generally recognized for the period in which they were invoiced and/or received, which is when the service is performed.

Consulting fees represent investment banking revenues. The Corporation recognizes investment banking revenue when (i) there is substantial evidence of an arrangement with a client, (ii) the agreed-upon services have been completed and delivered to the client or the transaction or events noted in the engagement letter are determined to be substantially complete, (iii) fees are fixed and determinable, and (iv) collection is reasonably assured.

As part of consulting fees, success fees are recognized when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter and all other requirements for revenue recognition are met. On-going retainer fees are also earned and recognized as consulting fees over the period in which the related services are performed. Deferred revenue represents the portion of retainer fees received by the Corporation for which revenue has not yet been recognized.

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

To satisfy the other disclosure requirements for contract assets and liabilities, the Corporation includes the following information:

	<u>2022</u>	<u>2021</u>
Contract assets	\$ 575,768	\$ 58,235
Contract liabilities (deferred revenue)	(337,737)	(47,945)

The timing of revenue recognition, billings, and cash collections results in receivables, contract assets and contract liabilities. Generally, billing occurs subsequent to revenue recognition, resulting in contract assets. Occasionally, the Corporation may receive advances or deposits from our customers before revenue is recognized, resulting in contract liabilities. Accounts receivable are recorded when consideration becomes unconditional. Contract assets are included in accounts receivable, and contract liabilities are included in deferred revenue in the statement of financial condition.

In 2022, contract assets increased by \$517,533 and contract liabilities increased by \$289,792 as a result of business operations.

Income Taxes

Income taxes are provided at the statutory rate based on income reported in the financial statements.

The Corporation is a member of a controlled group for income tax purposes and files as part of a consolidated federal income tax return with the Parent. The Corporation reports income taxes based on the separate company methodology.

The Corporation's provision for income taxes is calculated using the asset and liability method. The measurement of deferred tax assets and liabilities is based on enacted tax rates that will be in effect when the deferred items are expected to be realized. Deferred tax assets are reduced, if necessary, by the amount of such benefits that are not expected to be realized based on available evidence.

A tax position is recognized as a benefit only if it is more likely than not that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that has a greater than 50% likelihood of being realized on examination. As of December 31, 2022, the open tax years are 2019 through 2022. For tax positions not meeting the more likely than not test, no tax benefit is recorded. The Corporation did not have any material amounts accrued for interest and penalties at December 31, 2022. Interest or penalties on income taxes, if incurred, are recognized on the statement of operations. There were no material uncertain tax positions at December 31, 2022.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash at banks, money market funds, and money market accounts.

The Corporation is exposed to concentrations of credit risk. The Corporation maintains cash and cash equivalents at a financial institution where the total cash balance is insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per bank. At times, the Corporation may maintain balances in excess of FDIC limits. In addition, the Corporation holds money market funds and money market accounts with a financial institution where the Corporation is exposed to credit risks associated with the performance of the counterparty. The Corporation monitors these credit risks at financial institutions and has not experienced any losses related to these risks.

Leases

Under Accounting Standards Update (ASU) 2016-02, *Leases* (Topic 842), lessees are required to recognize a right-of-use asset and lease liability for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification determining the pattern of expense recognition in the statement of operations. The right-of-use asset and corresponding liability will be allocated to and reflected in the financial statements of the entity that has the ability to use the leased asset. As of December 31, 2022, the Corporation concluded it does not have any leases that meet the definition under ASC 842.

Credit Losses

ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, requires an entity to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts of future economic conditions. Due to the short-term nature of its accounts receivable, the Corporation uses historical collection experience and aging of the receivables balances as a basis in determining the expected credit loss allowance. The Corporation continuously monitors current and estimated future economic conditions and adjusts its assumptions when necessary. The ASU did not have a material impact on the Corporation's financial statements.

NOTE C - RELATED-PARTY TRANSACTIONS

The Parent performs certain administrative functions, including payment of common expenses, and other indirect expenses of the Corporation. Pursuant to a written agreement between the Parent and Corporation, the Corporation reimburses the Parent for its allocated portion of these expenses. At December 31, 2022, the Corporation had a payable to the Parent in the amount of \$157,773, which is included in payable to affiliate on the accompanying statement of financial condition.

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE C – RELATED-PARTY TRANSACTIONS - CONTINUED

The Parent leases office space under a long-term lease agreement, a portion of which is made available to the Corporation through an expense sharing agreement. The Corporation pays the Parent for rent on a pro rata basis of the Parent's total rent payments. As the Parent's lease has a rent holiday and escalation clauses, the Corporation records rent expense on a straight-line basis. The difference between the rent expense recorded and the actual payments to the Parent is recorded as a liability. At December 31, 2022, the accrued rent liability of \$153,557 is included in accounts payable and accrued expenses on the accompanying statement of financial condition.

The Parent has a stock option plan. Stock options have been granted with an exercise price greater than the fair market value of the Company stock on the date of grant and have a 15-year contractual term. The stock options typically vest one-third after years five, seven and nine. Various employees of the Corporation have stock options under such plan. At December 31, 2022, the Parent had 372,020 stock options outstanding, of which 87,500 were granted to employees of the Corporation. The 87,500 options outstanding have exercise prices between \$84.42 and \$89.80, with a weighted-average exercise price of \$86.97 and a weighted-average remaining contractual life of 12.72 years.

The fair market value of stock options is estimated using the Options Pricing Model and the Corporation uses the following method to determine its underlying assumptions: expected volatilities are based on the historical volatilities of comparable public companies' common stock prices; the expected term represents the remaining period during which the option contracts are expected to be outstanding; the risk-free interest rate is based on the U.S. Treasury bonds issued with similar life terms to the expected term; the forfeiture rate is based on historical experience; and the Parent has not historically issued any dividends and does not expect to in the future.

The vested balance of these awards is \$2,188,327, as of December 31, 2022, and is included within accounts payable and accrued expenses on the accompanying statement of financial condition.

NOTE D - NET CAPITAL REQUIREMENTS

The Corporation is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) (the Rule). Under the Rule, the Corporation is required to maintain net capital equivalent to \$100,000 or 6-2/3% of aggregate indebtedness, whichever is greater, as these terms are defined.

Net capital and aggregate indebtedness change from day to day but, at December 31, 2022, the Corporation had net capital and net capital requirements of \$2,954,866 and \$305,129, respectively. The Rule may effectively restrict the payment of cash dividends. The ratio of aggregate indebtedness to total net capital was 1.55 to 1 at December 31, 2022.

NOTE E - INDEMNIFICATIONS

In the normal course of business, the Corporation is subject to various claims, litigation, regulatory and arbitration matters. Because these claims and matters are at different stages, management is unable to predict their outcomes. The Corporation also enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Corporation's maximum exposure

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE E - INDEMNIFICATIONS - CONTINUED

under these arrangements is unknown, as this would involve future claims that may be made against the Corporation that have not yet occurred. The Corporation expects the risk of loss to be remote.

NOTE F - INCOME TAXES

Deferred income taxes relate primarily to the difference between the tax basis and carrying value of accrued expenses and investments.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be utilized. A deferred tax asset of \$3,128,613 for the year ended December 31, 2022 has been reduced to \$0 through a valuation allowance. The deferred tax asset and valuation allowance both increased by \$105,363 for the year ended December 31, 2022.

Deferred tax assets as of December 31, 2022, are comprised of the following:

Deferred tax assets	
NOL carryforwards	\$ 2,013,254
Stock compensation	623,783
Capital loss carryforward	85,448
Deferred rent	43,771
Deferred revenue	96,272
Other accruals and reserves	<u>301,474</u>
Total deferred income tax assets	<u>3,164,002</u>
Deferred tax liabilities	
Investments in securities	<u>(35,389)</u>
Total deferred income tax liabilities	<u>(35,389)</u>
Subtotal	<u>3,128,613</u>
Less: valuation allowance	<u>(3,128,613)</u>
Net deferred income tax asset	<u>\$ -</u>

First Analysis Securities Corporation
NOTES TO FINANCIAL STATEMENT - CONTINUED
December 31, 2022

NOTE G - SUBSEQUENT EVENTS

The Corporation's management has determined that no other material events or transactions occurred subsequent to December 31, 2022 and through the date the Corporation's financial statements were issued, that would require adjustments and/or additional disclosures in the Corporation's financial statements.
