Form 40-F for the Year Ended December 31, 2009

Exhibit 99.3

Financial Statements

Note 4 – Acquisitions, page 99

1. We note that on December 16, 2008 you acquired a 40% interest in Minera Santa Rosa SCM ("Minera") and subsequently purchased the remaining 60% interest on January 7, 2009. We understand that as of December 31, 2008, you accounted for your 40% interest in Minera as an equity investment and upon obtaining control of the entity, in January 2009, you began to consolidate the entity and reclassified

the original investment of \$141.1 million to mineral interests. Please tell us how you considered the guidance on acquisitions achieved in stages as seen in FASB ASC paragraphs 805-10-25-9 through 10, quantifying the impact this guidance would have on your U.S. GAAP results.

2. We understand in 2008, you acquired Aurelian Resources Inc., a Canadian based public company by purchasing all of its issued and outstanding shares of common stock. We note your disclosures indicate that you have accounted for this acquisition as an asset purchase. Please tell us how you determined that this transaction should not be accounted for as an acquisition of a business for U.S. GAAP purposes. Within your response please provide an analysis to support Aurelian Resources Inc. does not qualify as a business as defined in paragraph 6 of EITF 98-3.

Note 9 - Long Term Debt and Credit Facilities, page 122

Corporate revolving credit and term loan facilities, page 123

3. We note your narrative disclosures on page 123 which indicate that you had drawn down \$28.9 million on your corporate revolving credit facility as of December 31, 2009. Please clarify whether this amount is outstanding as of December 31, 2009 and explain why it does not appear to be reflected in the line item labeled "corporate revolving credit facility" in your tabular disclosures at page 122.

Kupol project financing, page 125

4. We note your disclosures indicate that you issued 3.8 million shares to IFC upon their exercise of 8.5 million share purchase warrants on March 20, 2009 and that you assigned a \$25 million outstanding loan balance owed to IFC to EastWest Gold Corporation, as a result of the aforementioned issuance. Further, we understand that you have treated the loan as an intercompany transaction and have eliminated the balance upon consolidation in your June 30, 2009 financial statements. Please address the following points:
 - Explain how IFC's warrant exercise alleviated your obligations to IFC, also describing how the issuance of your shares resulted in the transfer of the \$25 million liability to EastWest Gold Corporation.
 - As you characterize East West Gold Corporation as a wholly owned subsidiary, tell us why the \$25 million obligation to IFC should not be included in your consolidated results.
