NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES 2007 FOURTH-QUARTER AND ANNUAL RESULTS

Stamford, Connecticut, March 17, 2008. Independence Holding Company (NYSE: IHC) today reported 2007 fourth-quarter and annual results.

Financial Results

Revenues increased 12.7% to \$98,821,000 for the three months ended December 31, 2007, compared to revenues of \$87,666,000 for the same period in 2006, as adjusted for discontinued operations. Income from continuing operations decreased to \$844,000, or \$.06 per share, diluted, for the three months ended December 31, 2007, compared to \$3,683,000, or \$.24 per share, diluted, for the three months ended December 31, 2006. Results for the 2007 and 2006 periods include pre-tax realized investment losses of \$215,000 and \$95,000, respectively.

Revenues increased 17.5% to \$402,322,000 for the year ended December 31, 2007, compared to revenues of \$342,262,000 for the year ended December 31, 2006. Income from continuing operations decreased to \$1,504,000, or \$.10 per share, diluted, for the year ended December 31, 2007, compared to \$14,481,000, or \$.95 per share, diluted, for the year ended December 31, 2006. The decline is largely a result of reserve adjustments and strengthening of \$11,875,000 relating to the medical stop loss business written in 2006 in addition to reserving the 2007 year business at higher loss ratios due to the development on 2006 business.

The Company also reported a loss on the sale of discontinued operations of \$(3,608,000), or \$(.24) per share, diluted, from the sale of its credit segment and a loss from discontinued operations of \$(224,000), or \$(.01) per share, diluted, for the year ended December 31, 2007. Under statutory accounting principles, such sale had the effect of increasing Madison National Life's surplus. Under GAAP, the sale resulted in the loss described above, primarily due to the write-off of deferred acquisition costs related to the credit segment. Net loss amounted to \$(2,436,000), or \$(.16) per share, diluted, for the three months ended December 31, 2007, compared to income of \$3,597,000, or \$.23 per share, diluted, for the three months ended December 31, 2006. Net loss amounted to \$(2,328,000), or \$(.15) per share, diluted, for the year ended December 31, 2007, compared to income of \$14,061,000, or \$.93 per share, diluted, for the year ended December 31, 2006.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "While we are pleased with the increase in revenues in this quarter and for the entire 2007 year, we are obviously not satisfied with the drop in our earnings. This decrease is primarily attributable to medical stop-loss reserve strengthening recognized in the 2007 third quarter relating to prior years. We are optimistic that we will see increases in both revenues and earnings for 2008 for several reasons, including the following: (1) The Company reported a loss from operations from the credit segment for the past several years and the sale of our credit business allowed us to redeploy the capital associated with this business by agreeing to acquire a block of life insurance policies with approximately \$65 million of reserves. We expect this transaction to close and be effective as of April 1, 2008, and anticipate that it will be immediately accretive to earnings. (2) We had significant reserve strengthening in 2007 related to prior years. (3) The Company has a strong balance sheet and our fixed maturity portfolio is rated, on average, AA, our book value is \$14.63 per share, and we have \$1.3 billion of assets. (4) There appears to be less reinsurance capacity available for stop-loss reinsurance, which may

serve as a leading indicator of a hardening of this market. (5) We have effected cost-reduction programs at our two largest subsidiaries. (6) Our fully insured medical line is growing and continues to be more diversified and less reliant on any one product line. We also expect higher margins in 2008 due to an increase in rates and tighter underwriting in 2007 and 2008.”
