President's Letter

September 30, 2008

DEAR SHAREHOLDER:

Not since the founding of Waddell & Reed more than 70 years ago have investors faced so many challenges in such a short period of time. In a single calendar quarter, this country's largest savings and loan, its largest insurance company, its two largest mortgage providers, its largest brokerage firm and a leading commercial bank all either were the subject of a takeover, bailout or failure. On top of that, some money market funds in the industry have been unable to maintain a \$1 a share net asset value. A severe credit crunch has taken hold.

Confidence has been shaken in bond and stock markets around the globe, and mutual fund returns of the past year reflect the emotional insecurity that comes with hard times. Enclosed is our report on your Waddell & Reed Advisors Fund's operations for the 2008 fiscal year. For the 12 months ended September 30, 2008, the Citigroup Broad Investment Grade Index rose 4.48 percent. U.S. Treasuries performed especially well for the period. However, September 2008 was the worst month for U.S. corporate bonds in more than two decades.

Can we learn from history?

While unusual in modern times, a rapidly unfolding financial panic is nothing new in American history. In fact, prior to the creation of the Federal Reserve bank system in 1912, the U.S. experienced seven major financial

crises between 1819 and 1907. In some respects, some of the same issues that plague us today – fallout from excessive commodity and property speculation, war-related debt and populist dislike of government bailouts – parallel the challenges that generations past have had to deal with. Our leaders met these problems successfully, though very often not promptly.

For example, history judged President Martin Van Buren harshly for failing to take timely steps to limit economic damage from the Panic of 1837, which occurred just five weeks after he took office. The ensuing depression lasted for six years, and out of 850 banks in the United States at the time, 343 closed entirely and 62 failed partially. We hope Washington can learn from the many lessons of history and take appropriate and rapid action to revive credit markets and restore investor faith.

A need for global leadership

We believe that today's U.S. government safety nets and financial safeguards – including the Fed, deposit insurance on bank accounts, unemployment insurance, municipal bond default insurance and social security – are likely to help cushion the effects of the economic downturn that our country appears to face in the coming months. However, the scope of the current financial crisis is global, and this is a new

phenomenon. It is one that we think may require coordinated central bank and fiscal policy action from Brussels to Beijing to

All government statistics shown are subject to periodic revision.

The U.S. Consumer Price Index is the government's measure of the change in the retail cost of goods and services. Gross domestic product measures year-over-year changes in the output of goods and services. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

President

resolve. It will likely test whether we are becoming one world that can act together for the common good, or one where national trade supremacy, resource hoarding and/or parochial political interests take precedence.

For many people it is more difficult to buy a home or expand a consumer-focused business than it was just a year ago. As shown in the Economic Snapshot table to the left, the U.S. economy at Sept. 30, 2008 is not in as good a shape as it was 12 months earlier. The unemployment rate is higher. The economy has contracted.

We believe that the investing and economic climate will get better in time, although not right away. With perseverance, initiative and ingenuity, we believe the strengths of our nation's character will surface and prosperity will be restored. In this uncertain environment, we believe a very strong effort to manage risk is paramount. With that approach in mind, we will strive to earn your continued confidence for many years to come.

The opinions expressed in this letter are those of the President of the Fund and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

Manager's Discussion of Government Securities Fund

September 30, 2008

Below, Mark J. Otterstrom, CFA, portfolio manager of the Waddell & Reed Advisors Government Securities Fund, discusses the Fund's positioning, performance and results for the fiscal year ended September 30, 2008. He was named manager effective August 15, 2008 and has 22 years of industry experience. Prior to August 15, the Fund had been managed by James C. Cusser for 11 years.

This diagram shows the Fund's fixed-income investment style by displaying the average credit quality of the bonds owned and the Fund's interest rate sensitivity, as measured by average maturity. Shaded areas show the past three years of quarterly data. Source: Morningstar

Short duration affected results

The Fund had a shorter duration than its benchmark and a greater proportion of agency debt than its benchmark for most of the fiscal year. This strategy helped the Fund outpace its Lipper peer group. However, it did not allow us to capture all of the return available from long-term Treasuries, which were a larger component of the benchmark during the period.

While this Fund was short duration relative to the index, we feel we invested in a very attractive part of the Treasury curve. Rates

across the curve declined throughout the year. However, due to the aggressive Fed easing over the last 12 months, the U.S. Treasury yield curve steepened rather dramatically. The spread (difference in interest rates) between 2-year and 10-year Treasuries widened from 60 basis points (0.60 percent) in October 2007 to nearly 200 basis points (2.00 percent) by the end of September 2008. Due to the total collapse of the housing market over the last 12 months, conventional mortgage loan pools and collateralized mortgage obligations were the worst performing sectors in the taxable bond

market. The Fund was extremely underweight this asset class.

Treasuries have been the star performer the past year. The Federal Reserve began 325 basis points of rate cutting on Sept. 17, 2007. At that point the current credit crisis was in its infancy. The Fed cut rates frequently this year in order to help provide liquidity for the financial system and to try to prevent a deep recessionary period from taking hold. The yield curve has changed dramatically this past year. Treasury yields are lower across all maturities and the curve has steepened dramatically.

Credit spreads on agency debt has been fairly wide most of the year. Agency spreads first widened due to the uncertainty over the viability and survivability of FNMA (Fannie Mae) and FHLMC (Freddie Mac). Once the Treasury put them into conservatorship this summer, agency spreads began to narrow.

The Fund's portfolio was positioned in what we felt was an ideal place during these turbulent times – Treasuries and government

agency bonds. The flight to quality trade that has been occurring over the last several months has been a great benefit for the Fund. Earlier in the year the Fund was underweight Treasury bonds and overweight mortgage bonds. Over the course of the last few months the weighting of Treasury holdings has consistently been increasing and the duration of the Fund has been extending. We feel the Fund should continue to benefit from the current dislocations in the financial markets.

With our capital markets in disarray, we think it is more important than ever to have a balanced, conservative portfolio. We intend to remain overweight Treasuries and maintain our current weightings in government-sponsored enterprise debt. Our holdings are laddered along the maturity curve. For the year ahead, we anticipate that the Fund's duration will be neutral compared to our peer group. We also plan to maintain our current strategy until there is a clear and sustainable foundation to the financial markets. We believe that we should begin to see some order within the short-term credit market as central banks worldwide make coordinated efforts to improve bank solvency. While this storm will pass, we need to be prepared to ride out some violent shifts in the financial markets. Volatility in financial assets has spiked over the last few months, and we think should remain high for the foreseeable future.

Information presented is for illustrative purposes only and is subject to change.

The Fund's performance noted above is at net asset value (NAV), and does not include the effect of any applicable sales charges. If reflected, the sales charge would reduce the performance noted.

As with any mutual fund, the value of the Fund's shares will change, and you could lose money on your investment.

Fixed-income securities are subject to interest rate risk and, as such, the net asset value of the Fund's shares may fall as interest rates rise. These and other risks are more fully described in the Fund's prospectus.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

On Sept. 7, 2008, the Federal Housing Finance Agency (FHFA), an agency of the U.S. government, placed Fannie Mae and Freddie Mac into conservatorship, a statutory process with the objective of returning the entities to normal business operations. FHFA will act as the conservator to operate Fannie Mae and Freddie Mac until they are stabilized. It is unclear what effect this conservatorship will have on the securities issued or guaranteed by Fannie Mae or Freddie Mac.

The opinions expressed in this report are those of the portfolio manager and are current only through the end of the period of the report as stated on the cover. The manager's views are subject to change at any time based on market and other conditions, and no forecasts can be guaranteed.

Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Please visit www.waddell.com for the Fund's most recent month-end performance. Class A shares carry a maximum front-end sales load of 4.25%. Class B and Class C shares carry maximum contingent deferred sales charges (CDSC) of five percent and one percent, respectively. (Accordingly, the Class C shares reflect no CDSC since it only applies to Class C shares redeemed within twelve months after purchase.) Class Y shares are not subject to sales charges.

Past performance is not necessarily indicative of future performance. Indexes are unmanaged. The performance graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

Illustration of Fund Expenses

GOVERNMENT SECURITIES FUND

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2008.

Actual Expenses

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the table. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the table, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense table. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Class Y	1,000	1,021.45	0.71	3.64

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2008, and divided by 366.

(1) This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

(2) This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustration is based on ongoing costs only and does not include any transactional costs, such as sales loads, redemption fees or exchange fees.

Notes to Financial Statements

September 30, 2008
(In Thousands, Except Where Otherwise Noted)

NOTE 1 – Significant Accounting Policies

Waddell & Reed Advisors Fixed Income Funds, Inc. (the Corporation) is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. The Corporation issues one series of capital shares through Waddell & Reed Advisors Government Securities Fund (the Fund). Its investment objective is to seek as high a current income as is consistent with safety of principal. Waddell & Reed Advisors Limited-Term Bond Fund was merged into Waddell & Reed Advisors Bond Fund effective on October 8, 2007. The following is a summary of significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. Security valuation** – Bonds, other than convertible bonds, are valued using a pricing system provided by a pricing service or dealer in bonds. Convertible bonds are valued using this pricing system only on days when there is no sale reported. Securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Corporation's Board of Directors. Management's valuation committee makes fair value determinations for the Corporation, subject to the supervision of the Board of Directors. Short-term debt securities, purchased with less than 60 days to maturity, are valued at amortized cost, which approximates market value. Short-term debt securities denominated in foreign currencies are valued at amortized cost in that currency, prior to translation.
- B. Security transactions and related investment income** – Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Premium and discount on the purchase of bonds are amortized for both financial and tax reporting purposes over the remaining lives of the bonds. Interest income is recorded on the accrual basis and includes differences between cost and face amount on principal reductions of securities. See Note 3 – Investment Security Transactions.
- C. Federal income taxes** – It is the Corporation's policy to distribute all of its taxable income and capital gains to its shareholders and otherwise continue to qualify as a regulated investment company under the Internal Revenue Code. Accordingly, provision has not been made for Federal income taxes. During the current fiscal year, the Fund instituted the provisions of Financial Accounting Standards Board Interpretation No. 48 "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109" (FIN 48). As required by FIN 48, management of the Fund periodically reviews all tax positions to assess that it is more likely than not that the position would be sustained upon examination by the relevant tax authority based on the technical merits of each position. As of September 30, 2008, management believes that under this standard no liability for unrecognized tax positions is required. The Fund is subject to examination by U.S. federal and state authorities for returns filed for years after 2004. See Note 4 – Federal Income Tax Matters.

D. Dividends and distributions – The Fund's net investment income is declared and recorded by the Fund as dividends payable on each day to shareholders of record as of the close of the preceding business day. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, net operating losses and expiring capital loss carryovers.

E. Repurchase agreements – Repurchase agreements are collateralized by the value of the resold securities which, during the entire period of the agreement, remains at least equal to the value of the loan, including accrued interest thereon. The collateral for the repurchase agreement is held by the custodian bank.

F. New Accounting Pronouncements – In September 2006, the Financial Accounting Standards Board (FASB) issued Statement on Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value for purposes of financial statement presentation, establishes a hierarchy for measuring fair value in accordance with generally accepted accounting principles and expands financial statement disclosures about fair value measurements that are relevant to mutual funds. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Corporation will institute the expanded financial statement disclosure mandated by SFAS No. 157 during the fiscal year ended September 30, 2009.

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133" (SFAS 161). SFAS 161 amends and expands disclosures about derivative instruments and hedging activities. SFAS 161 requires qualitative disclosures about the objectives and strategies of derivative instruments, quantitative disclosures about the fair value amounts of and gains and losses on derivative instruments, and disclosures of credit-risk-related contingent features in hedging activities. SFAS 161 is effective for fiscal years beginning after November 15, 2008. The Corporation will institute SFAS 161 during the fiscal year ending September 30, 2010 and its potential impact, if any, on its financial statements is currently being assessed by management.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – Investment Management and Payments to Affiliated Persons

Waddell & Reed Investment Management Company (WRIMCO), a wholly owned subsidiary of Waddell & Reed, Inc. (W&R), serves as the Corporation's investment manager. The Corporation pays a fee for investment management services. The fee is computed and paid daily based on the net asset value at the close of business. Until September 30, 2006, the fee was payable by the Corporation at the annual rates of: 0.50% of net assets up to \$500 million, 0.45% of net assets over \$500 million and up to \$1 billion, 0.40% of net assets over \$1 billion and up to \$1.5 billion, and 0.35% of net assets over \$1.5 billion. Effective October 1, 2006, under terms of a settlement agreement reached in July 2006 (see Note 6), the fee is as follows: 0.46% of net assets up to \$500 million, 0.45% of net assets over \$500 million and up to \$1 billion, 0.40% of net assets over \$1 billion and up to \$1.5 billion, and 0.35% of net assets over \$1.5 billion. During the fiscal year ended September 30, 2008, the amount of the management fee waived was \$114.

In addition, WRIMCO has agreed to waive a Fund's management fee on any day that the Fund's net assets are less than \$25 million, subject to WRIMCO's right to change or modify this waiver.

The Corporation has an Accounting Services Agreement with Waddell & Reed Services Company (WRSCO), a wholly owned subsidiary of W&R. Under the agreement, WRSCO acts as the agent in providing bookkeeping and accounting services and assistance to the Corporation, including maintenance of the Fund's records, pricing of the Fund's shares, preparation of prospectuses for existing shareholders, preparation of proxy statements and certain shareholder reports. For these services, the Fund pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee	
Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 11.5
From \$ 25 to \$ 50	\$ 23.1
From \$ 50 to \$ 100	\$ 35.5
From \$100 to \$ 200	\$ 48.4
From \$200 to \$ 350	\$ 63.2
From \$350 to \$ 550	\$ 82.5
From \$550 to \$ 750	\$ 96.3
From \$750 to \$1,000	\$121.6
\$1,000 and Over	\$148.5

In addition, for each class of shares in excess of one, the Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee. The Fund also pays monthly a fee at the annual rate of 0.01% or one basis point for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion.

For Class A, Class B and Class C shares, the Fund pays WRSCO a monthly per account charge for shareholder servicing of \$1.6958 for each shareholder account which is non-networked and which was in existence at any time during the prior month; however, WRSCO has agreed to reduce that fee if the number of total shareholder accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios, Inc., Ivy Funds and Ivy Funds, Inc.) reaches certain levels. For certain networked accounts (that is, those shareholder accounts whose Fund shares are purchased through certain financial intermediaries), WRSCO has agreed to reduce its per account fees charged to the Fund to \$0.50 per month per shareholder account and, for Class A shares, \$0.75 for each shareholder check drawn on the checking account of the Fund. Additional fees may be paid by the Fund to those intermediaries, not to exceed \$1.50 per shareholder account per month. For Class Y shares, the Fund pays WRSCO a monthly fee equal to one-twelfth of 0.15 of 1% of the average daily net assets of Class Y of the Fund for the preceding month. Additional fees may be paid by the Fund to those intermediaries. The Fund also reimburses W&R and WRSCO for certain out-of-pocket costs for all classes.

As principal underwriter for the Corporation's shares, W&R received gross sales commissions for Class A shares (which are not an expense of the Corporation) of \$525. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class A, Class B and Class C shares and paid to W&R. During the fiscal year ended September 30, 2008, W&R received \$2, \$12 and \$3 in CDSC for Class A, Class B and Class C shares, respectively. With respect to Class A, Class B and Class C shares, W&R paid sales commissions of \$381 and all expenses in connection with the sale of Corporation's shares, except for registration fees and related expenses.

Under a Distribution and Service Plan for Class A shares adopted by the Corporation pursuant to Rule 12b-1 under the Investment Company Act of 1940, the Fund may pay a distribution and/or service fee to W&R in an amount not to exceed 0.25% of the Fund's Class A average annual net assets. The fee is to be paid to reimburse W&R for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

Under the Distribution and Service Plan adopted by the Corporation for Class B and Class C shares, respectively, the Fund may pay W&R a service fee of up to 0.25%, on an annual basis, of the average daily net assets of the class to compensate W&R for providing services to shareholders of that class and/or maintaining shareholder accounts for that class and a distribution fee of up to 0.75%, on an annual basis, of the average daily net assets of the class to compensate W&R for distributing the shares of that class.

During the fiscal year ended September 30, 2008, the Fund paid Directors' regular compensation of \$17, which is included in other expenses.

W&R is a subsidiary of Waddell & Reed Financial, Inc., a public holding company, and a direct subsidiary of Waddell & Reed Financial Services, Inc., a holding company.

NOTE 3 – Investment Security Transactions

Purchases of U.S. government securities aggregated \$180,722, while proceeds from maturities and sales aggregated \$93,715.

For Federal income tax purposes, cost of investments owned at September 30, 2008 was \$364,003, resulting in net unrealized appreciation of \$987, of which \$3,783 related to appreciated securities and \$2,796 related to depreciated securities.

NOTE 4 – Federal Income Tax Matters

For Federal income tax purposes, the Fund's distributed and undistributed earnings and profit for the fiscal year ended September 30, 2008 and the related net capital losses and post-October activity were as follows:

Net ordinary income	\$10,011
Distributed ordinary income	10,028
Undistributed ordinary income	96
Realized long-term capital gains less utilized capital loss carryovers	—
Distributed long-term capital gains	—
Undistributed long-term capital gains	—
Post-October losses deferred	—

Internal Revenue Code regulations permit the Fund to defer into its next fiscal year net capital losses or net long-term capital losses and net foreign currency losses incurred between each November 1 and the end of its fiscal year (post-October losses).

Capital loss carryovers are available to offset future realized capital gain net income incurred in the eight taxable years succeeding the loss year for Federal income tax purposes. The following shows the totals by year in which the capital loss carryovers will expire if not utilized.

NOTE 5 – Multiclass Operations

The Fund currently offers four classes of shares, Class A, Class B, Class C and Class Y, each of which have equal rights as to assets and voting privileges. Class Y shares are not subject to a sales charge on purchases, are not subject to a Rule 12b–1 Distribution and Service Plan and are subject to a separate shareholder servicing fee structure. A comprehensive discussion of the terms under which shares of each class are offered is contained in the Prospectus and the Statement of Additional Information for the Fund.

Income, non-class specific expenses, and realized and unrealized gains and losses are allocated daily to each class of shares based on the value of their relative net assets as of the beginning of each day adjusted for the prior day's capital share activity.

NOTE 6 – Regulatory and Litigation Matters

On July 24, 2006, WRIMCO, W&R and WRSCO (collectively, Waddell & Reed) reached a settlement with each of the SEC, the New York Attorney General (NYAG) and the Securities Commissioner of the State of Kansas to resolve proceedings brought by each regulator in connection with its investigation of frequent trading and market timing in certain Waddell & Reed Advisors Funds.

Under the terms of the SEC's cease-and desist order (SEC Order), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among other provisions Waddell & Reed has agreed to: pay \$40 million in disgorgement and \$10 million in civil money penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to periodically review Waddell & Reed's supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (described below). According to the SEC Order, the SEC found that some market timers made profits in some of the Waddell & Reed Advisors Funds, and that this may have caused some dilution in those Funds. Also, the SEC found that Waddell & Reed failed to make certain disclosures to the Waddell & Reed Advisors Funds' Boards of Directors and shareholders regarding the market timing activity and Waddell & Reed's acceptance of service fees from some market timers.

The Assurance of Discontinuance with the NYAG (NYAG Settlement), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among its conditions requires that Waddell & Reed: reduce the aggregate investment management fees paid by certain of the Waddell & Reed Advisors Funds and by certain of the Ivy Funds Variable Insurance Portfolios, Inc., formerly W&R Target Funds, Inc., (the Funds) by \$5 million per year for five years, for a projected total of \$25 million in investment management fee reductions; bear the costs of an independent fee consultant to be retained by the Funds to review and consult regarding the Funds' investment management fee arrangements; and make additional investment management fee-related disclosures to Fund shareholders. The NYAG Settlement also effectively requires that the Funds implement certain governance measures designed to maintain the independence of the Funds' Boards of Directors and appoint an independent compliance consultant responsible for monitoring the Funds' and WRIMCO's compliance with applicable laws.

The consent order issued by the Securities Commissioner of the State of Kansas (Kansas Order), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, requires Waddell & Reed to pay a fine of \$2 million to the Office of the Commissioner.

The SEC Order further requires that the \$50 million in settlement amounts described above will be distributed in accordance with a distribution plan developed by an independent distribution consultant, in consultation with Waddell & Reed, and that is agreed to by the SEC staff and the Funds' Disinterested Directors. The SEC Order requires that the independent distribution consultant develop a methodology and distribution plan pursuant to which Fund shareholders shall receive their proportionate share of losses, if any, suffered by the Funds due to market timing. Therefore, it is not currently possible to specify which particular Fund shareholders or groups of Fund shareholders will receive distributions of those settlement monies or in what proportion and amounts.

The foregoing is only a summary of the SEC Order, NYAG Settlement and Kansas Order. A copy of the SEC Order is available on the SEC's website at www.sec.gov. A copy of the SEC Order, NYAG Settlement and Kansas Order is available as part of the Waddell & Reed Financial, Inc. Form 8-K as filed on July 24, 2006.

In addition, pursuant to the terms of agreement in the dismissal of separate litigation, Waddell & Reed has also agreed to extend the reduction in the aggregate investment management fees paid by the Funds, as described above, for an additional five years.

NOTE 7 – Subsequent Event

A special meeting of shareholders of the Fund is scheduled to be held on December 12, 2008. One of the proposals that will be considered and acted upon at the meeting is a proposal to approve a proposed Agreement and Plan of Reorganization and Termination pursuant to which the Fund will be reorganized into a corresponding series of a newly established Delaware statutory trust. The Fund is currently organized as a Maryland corporation. Shareholders of record of the Fund as of the close of business on September 25, 2008 are entitled to vote at the meeting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders,
Waddell & Reed Advisors Fixed Income Funds, Inc.:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Waddell & Reed Advisors Government Securities Fund, the sole portfolio of Waddell & Reed Advisors Fixed Income Funds, Inc. (the “Corporation”), as of September 30, 2008, and the related statement of operations for the fiscal year then ended, the statements of changes in net assets for each of the two fiscal years in the period then ended, and the financial highlights for each of the five fiscal years in the period then ended. These financial statements and financial highlights are the responsibility of the Corporation’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Corporation is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2008, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Waddell & Reed Advisors Government Securities Fund of Waddell & Reed Advisors Fixed Income Funds, Inc. as of September 30, 2008, the results of its operations for the fiscal year then ended, the changes in its net assets for each of the two fiscal years in the period then ended, and the financial highlights for each of the five fiscal years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Renewal of Investment Management Agreement for Waddell & Reed Advisors Fixed Income Funds, Inc.

At its meeting on August 11, 12 and 13, 2008, the Corporation's Board of Directors, including all of the Disinterested Directors, considered and approved the continuance of the existing Investment Management Agreement ("Management Agreement") between WRIMCO and the Corporation with respect to the Fund. The Disinterested Directors were assisted in their review by independent legal counsel and met with such counsel separately from representatives of WRIMCO. The Disinterested Directors also received and considered a memorandum from their independent legal counsel regarding the Disinterested Directors' responsibilities in evaluating the Management Agreement. This memorandum explained the regulatory requirements pertaining to the Disinterested Directors' evaluation of the Management Agreement. In addition, the Disinterested Directors engaged an independent fee consultant whose responsibilities included managing the process by which the proposed management fees under the Management Agreement were negotiated with WRIMCO.

Prior to the Board meeting, independent legal counsel sent to WRIMCO a request for information to be provided to the Directors in connection with their consideration of the continuance of the Management Agreement. WRIMCO provided materials to the Directors that included responses to the request letter and other information WRIMCO believed was useful in evaluating the continuance of the Management Agreement. Thereafter, independent legal counsel sent to WRIMCO a supplemental request for certain additional information, and WRIMCO provided additional information in response to this request. The Directors also received reports prepared by an independent third party, Lipper Inc. ("Lipper"), relating to the Fund's performance and expenses compared to the performance of the universe of comparable mutual funds selected by Lipper (the "Performance Universe") and to the expenses of a peer group of comparable funds selected by Lipper (the "Peer Group"), respectively. Further, the Directors received a written evaluation from the independent fee consultant, a summary of which is included in this Annual Report. At their meeting, the Directors received a presentation from representatives of WRIMCO regarding services provided by it and its affiliates (collectively, "W&R") to the Fund. In addition, during the course of the year, WRIMCO had provided information relevant to the Directors' consideration of the continuance of the Management Agreement.

Nature, Extent and Quality of Services Provided to the Fund

The Directors considered the nature, extent and quality of the services provided to the Fund pursuant to the Management Agreement and also the overall fairness of the Management Agreement.

The Directors considered WRIMCO's research and portfolio management capabilities and that W&R also provides oversight of day-to-day fund operations, including but not limited to fund accounting and administration and assistance in meeting legal and regulatory requirements. The Directors also considered WRIMCO's practices regarding the selection and compensation of brokers and dealers that execute portfolio transactions for the Fund, those brokers' and dealers' provision of brokerage and research services to WRIMCO, and the benefits derived by the other funds in the Advisors Fund Complex and by other clients of WRIMCO from such services. The Directors also considered the favorable history, reputation, qualification and background of WRIMCO and W&R's extensive administrative, accounting and compliance infrastructure.

Fund Performance, Management Fee and Expense Ratio. The Directors considered the Fund's performance, both on an absolute basis and in relation to the performance of its Performance

Universe. The Fund's performance was also compared to relevant market indices and to a Lipper index, as applicable.

The Directors considered the management fees and total expenses of the Fund and also considered the Fund's management fees and total expenses in relation to the management fees and total expenses, respectively, of its Peer Group. The Directors' review also included consideration of the Fund's management fees at various asset levels, which reflected breakpoints in the management fee structure, and average account size information. In addition, the Directors considered the investment management fees, if any, paid to WRIMCO (or its affiliate) by other mutual funds managed by WRIMCO (or its affiliate) with a similar investment objective and similar investment policies and strategies as the Fund ("Similar Funds"). The Directors also considered the subadvisory fees, if any, paid to WRIMCO (or its affiliate) by other mutual funds advised by WRIMCO (or its affiliate), as well as the management fees, if any, paid by other client accounts managed by WRIMCO (or its affiliate), with a similar investment objective and similar investment policies and strategies as the Fund ("Other Accounts").

The Directors considered that the Fund's total return performance was higher than the Performance Universe median for the three-, five-, seven-, and ten-year periods and was lower than the Lipper index for the one-, three-, five-, seven-, and ten-year periods.

The Directors considered the range and average of the management fees and expense ratios of the Peer Group. They considered that the Fund's management fee was lower than the Peer Group median and that the overall expense ratio was higher than the Peer Group median. They considered that the Fund's non-management fee expenses were higher than the Peer Group median on an unadjusted basis and that, when adjusted for the Fund's smaller average account size, the non-management fee expenses were higher than the Peer Group median. The Directors considered the transfer agency fee reduction that became effective September 1, 2006. They also considered that, with the breakpoints in the fee schedule, the Fund's effective management fees at certain asset levels were lower than, and at other asset levels were higher than, the asset-weighted average for its Peer Group.

The Directors also considered that there were no Similar Funds or Other Accounts managed by WRIMCO or its affiliates with a similar investment objective and similar investment policies and strategies as the Fund.

Profitability and Economies of Scale

The Directors also considered that the Fund's management fee structure includes breakpoints that provide for a reduction of payments to reflect anticipated economies of scale. The Directors also considered the management fee rate reductions that became effective October 1, 2006, for the Fund and certain other funds in the Advisors Fund Complex, and the anticipated impact of the fee rate reduction for the Fund on its investment management fees and overall expense ratio. In concluding that the benefits accruing to WRIMCO and its affiliates by virtue of their relationship to the Fund were reasonable in comparison with the costs of providing the investment management services and the benefits accruing to the Fund, the Directors considered specific data as to WRIMCO's profit with respect to the Fund for a recent period. The Directors also considered WRIMCO's methodology for determining this data.

In determining whether to approve the proposed continuance of the Management Agreement, the Directors considered the best interests of the Fund and the overall fairness of the proposed Management Agreement. The Directors considered the following factors to be of primary importance to their approval of the continuance of the Fund's Management Agreement, without any one factor being dispositive:

- the performance of the Fund compared with the average performance of its Performance Universe and with relevant indices;

-
- the Fund's investment management fees and total expenses compared with the management fees and total expenses of the Peer Group;
 - the existence or appropriateness of breakpoints in the Fund's management fees;
 - the cost/profitability to WRIMCO and any actual or anticipated economies of scale in relation to the services it provides to the Fund;
 - the other benefits that accrue to WRIMCO as a result of its relationship to the Fund; and
 - the favorable history, reputation, qualification and background of WRIMCO as well as the qualifications of its personnel.

Based on the discussions, considerations and information described generally above, including the evaluation provided by the independent fee consultant, the Board determined that the Fund's Management Agreement is fair and reasonable and that continuance of the Management Agreement is in the best interests of the Fund. In reaching these determinations, the Board concluded that: the nature, extent and quality of the services provided by WRIMCO for the Fund are adequate and appropriate; the performance of the Fund was satisfactory; it retained confidence in WRIMCO's overall ability to manage the Fund; and the management fee paid to WRIMCO is reasonable in light of comparative management fee information, the breakpoints in the proposed management fee for the Fund, the services provided by WRIMCO, the costs of the services provided, and the profits realized and other benefits likely to be derived by WRIMCO from its relationship with the Fund.

The Disinterested Directors of Waddell & Reed Advisors Funds, Ivy Funds Variable Insurance Portfolios, Inc.¹ and Waddell & Reed InvestEd Portfolios, Inc. (the “Funds”) have appointed an independent fee consultant. Below is a summary of the written fee evaluation of such consultant for the most recent year.

Summary

Pursuant to the Assurance of Discontinuance between Waddell & Reed, Inc., Waddell & Reed Investment Management Company (“WRIMCO”) and Waddell & Reed Services Company (“WRSCO”) (collectively, “Waddell”) and the Office of the New York Attorney General dated July 10, 2006 (“AOD”), the Disinterested Directors of each Fund’s Board appointed an Independent Fee Consultant (“IFC”) to manage the process by which proposed management fees paid by the Funds to WRIMCO are negotiated. The IFC does not replace the Directors in negotiating management fees and does not substitute his or her judgment for that of the Directors about the reasonableness of the proposed fees.

In the IFC’s 2008 written evaluation of the proposed management fees of the Funds (“Report”), the IFC addressed the following six factors:

1. The nature and quality of Waddell’s services, including Fund performance
2. Management fees (including any components thereof) charged by other mutual fund companies for like services
3. Possible economies of scale as the Funds grow larger
4. Management fees (including any components thereof) charged to institutional and other clients of Waddell for like services
5. Costs to Waddell and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit
6. Profit margins of Waddell and its affiliates from supplying such services

The following is a summary of the Report’s discussion of the contract renewal process, related materials, and the IFC’s findings.

Analysis of the Process

The Report noted that the Boards previously created the Special Compliance & Governance Committee (“Compliance Committee”), which is composed of Disinterested Directors and charged with the responsibility for certain work associated with the contract renewal process.

The Report stated that the contract renewal process includes a number of sequential steps by which the Disinterested Directors go about determining the reasonableness of the proposed management fees for the Funds in the context of their annual consideration of the proposed continuance of the Funds’ respective investment management agreements with WRIMCO and the sub-advisory agreements with certain sub-advisors. The Report stated that the IFC participated throughout the contract renewal process.

The Disinterested Directors instructed independent legal counsel to the Disinterested Directors, K&L Gates LLP (“K&L Gates”), to prepare a letter requesting information from WRIMCO needed for the contract renewal process, which was provided. Lipper, Inc. (“Lipper”) was asked to provide independently compiled comparative information about the Funds. The Report stated

1. Formerly, W&R Target Funds, Inc.

that Lipper selected the peer group with input from WRIMCO to ensure that Lipper understood the investment and distribution intricacies of the Funds and that the IFC observed and concurred in the selection.

The Report noted that the Compliance Committee met with the IFC and K&L Gates to discuss the information provided by WRIMCO and Lipper and to determine whether to request any additional information from WRIMCO prior to the August Disinterested Directors and Board meetings. At the Compliance Committee's direction, K&L Gates sent a supplemental request to WRIMCO for certain additional information, which was provided prior to the Disinterested Directors' August 2008 meetings.

Analysis of Materials

Materials refer to the informational materials that were prepared by Waddell and Lipper in response to the data requested by the Disinterested Directors through the Compliance Committee and K&L Gates. The IFC reviewed the information produced and found it to be responsive to the requests by the Disinterested Directors. He also reviewed certain other materials that he considered relevant.

The IFC used these materials to analyze trends and comparative information about the six factors listed above. The Report noted that, apart from these materials, the Disinterested Directors also received information throughout the year, some of which the IFC reviewed, that was also relevant to the contract renewal process.

(1) Nature and Quality of Services

In the Report, the IFC commented on the investment performance of the Funds. The performance data for these comparisons were drawn from the Lipper materials. Performance information was based on March 31, 2008 data, and references in the Report to 1-, 3- and 5-year periods referred to the periods ended on March 31, 2008.

The Report stated that the IFC's experience is that fund directors should focus on longer-term performance during the contract renewal process (though they may choose to focus on shorter-term performance for other purposes). Accordingly, the Report concentrated on 3-year performance in comparison to the "performance universe," rather than on the more limited "performance group," because, in the IFC's experience, fund investors are more typically concerned with the objective and style of management than the size of the fund. The Report recommended that the Disinterested Directors focus on a 3-year view of investment performance for the purposes of contract renewal, because it is long enough to reflect most market cycles and short enough to be relevant to the holding period for many mutual fund shareholders.

The Report stated that, overall, the Funds reflect strong and improving performance in the 1-, 3- and 5-year periods. The collective (Advisors Funds, Ivy VIP Funds and InvestEd Portfolios together) 5-year performance has 50% of the Funds in the first two quintiles of their performance universe and 3% in the 5th quintile. The 3-year figures improve to 65% of the Funds in the first two quintiles and 8% in the 5th quintile, and the 1-year figures reflect similar performance with 64% in the first two quintiles and 5% in the 5th quintile. Emphasizing the improvement, the Report noted that the 1-year short-term performance has only 7% of the Funds in the combined 4th and 5th quintiles, a decrease from 18% in the 3-year performance, and 31% in the 5-year performance periods.

Although the IFC found that the Funds have strong performance, it also noted that certain Funds have experienced either continuing or recent challenges. The IFC suggested that the Disinterested Directors request additional information from WRIMCO regarding certain Funds. The Disinterested Directors reviewed the information provided by WRIMCO.

The Report suggested that, if a Fund consistently demonstrates poor performance, higher than average expenses, or a combination of both, it may be appropriate for the Disinterested Directors to consider taking affirmative action. Possible actions cited by the Report include requesting more frequent reports, WRIMCO's providing more research support, WRIMCO's providing more portfolio management capability, seeking an outside sub-advisor, or requesting a voluntary fee waiver. The IFC did not identify any individual Funds that required this attention at this time.

The Report noted that, with respect to service provided by WRIMCO affiliates, WRSCO maintained internal statistics to track shareholder service quality, which showed marked improvement in 2008, and also retained Dalbar, Inc. to provide an independent quality assessment. WRSCO scored either very good or excellent in all categories evaluated by Dalbar.

(2) Fund Fees

The Report stated that information for this metric is drawn from the Lipper analysis and is compared with a peer group for each Fund. The Report noted that the majority of Funds have management fees above the median of their peer groups. It concluded that, overall, more Funds have improved their comparative ranking of actual management fees in 2008 than declined.

The Report also noted that, in general, the Funds have higher total expenses than the peer group and that this is often caused by non-management fees. The Report noted that a number of Advisors Funds have smaller average account sizes relative to the general mutual fund industry and commented on the impact of such account sizes on the Funds' non-management expenses. The Report also noted the Disinterested Directors' prior discussions regarding possible means of addressing this impact and their continuing attention to this matter.

(3) Possible Economies of Scale

The Report noted that economies of scale occur when assets grow and a fund's fixed costs are spread over a larger asset base. The Report also pointed out that fund managers usually share economies of scale by implementing breakpoints, or scale-downs, in the structure of the management fee. As a general rule, fund directors establish breakpoints prospectively at an asset level beyond the current asset level so that shareholders benefit from future asset growth. Lipper provided the Disinterested Directors with a comprehensive listing of breakpoints in the Funds and compared the Funds' and peer groups' effective fees at uniform asset levels.

The IFC found that the Funds, except for Waddell & Reed Advisors Money Market Fund and Ivy VIP Money Market Fund, already have breakpoints in place and that these breakpoints appear adequate in providing economies of scale. However, the IFC suggested that the Disinterested Directors review the current breakpoint structure of certain Funds to determine whether an adjustment might be needed. The Disinterested Directors did so and determined that the current breakpoint structure of the Funds is appropriate.

(4) Management Fees for Comparable and Alternative Products

The Report noted that the Advisors and Ivy VIP Funds have Funds with similar investment styles and therefore anticipated comparable management fees. The Report stated that management fee variances can be explained with the larger average asset size of the Advisors Funds, causing some of the Funds to reach breakpoints and reductions in management fees, or Funds that have remaining waivers. The Report further stated that, although their management fees are comparable, the Advisors Fund total expense ratio is on average higher than the comparable Ivy VIP Fund total expense ratio because of the shareholder service expenses of the Advisors Fund.

The Report noted that WRIMCO manages money for different types of clients besides mutual funds. These include corporate and municipal pension funds and investment pools for wealthy individuals (collectively, "separate accounts"). Several of these separate accounts are managed with the same investment objective and in the same style as some of the Advisors and Ivy VIP

Funds. In most cases, the data provided by WRIMCO show that net management fees for the Funds are higher than that of the equivalent separate accounts. WRIMCO has explained these differences by reference to the different type of responsibilities borne by WRIMCO as a mutual fund manager and as a separate account manager. The IFC found these differences reasonable.

(5) Costs to Waddell and its Affiliates of Supplying Services

The Report pointed out that an important component of the profit margin analysis involves ensuring that advisor's allocation procedures are reasonable and consistent from year to year. WRIMCO uses multiple methodologies for allocation including assets, revenue, time, and square footage. The Report found that the bases of allocation have remained consistent over the past several years and that the allocation methodologies are reasonable.

(6) Profit Margins from Supplying Management Services

The Report noted that the disinterested directors of mutual funds are required to assess that the profitability of the advisory contracts to the advisor is not excessive. In connection with the Fund-by-Fund profitability review, WRIMCO provided an analysis of the profitability of each Fund. The IFC did not find the profit margins excessive.

The Report also noted that disinterested directors often review the overall profitability of the investment management company. Lipper provided benchmarks against which to evaluate the overall profitability of Waddell and other public companies in the investment business. The Report found that this analysis places Waddell near the median of Lipper peers.

The Report stated that the IFC monitored the process, reviewed the materials, and reached the following conclusions:

- The contract renewal process conducted under the supervision of the Disinterested Directors has been careful, deliberate, and conscientious.
- The materials were prepared without bias and in sufficient detail to facilitate meaningful decisions by the Disinterested Directors and the full Boards.
- The discussion which took place leading up to and at the Disinterested Directors and Board meetings was substantive and conducted in accordance with the best interests of the shareholders of the Funds.
