Scotford Upgrader back at full production

Calgary, Alberta - Shell Canada announced today that the Scotford Upgrader has now returned to full production.

As a result of a temperature variance inside one of the residue hydro-cracker (RHC) units, one train at the upgrader had to be taken out of service on March 20 and flushed out. The RHC unit started receiving feedstock by the end of March and has now ramped back up to full production.

The Muskeg River Mine is located about 75 kilometres north of Fort McMurray, Alberta. The Scotford Upgrader is located near Fort Saskatchewan, northeast of Edmonton. Together, these facilities make up the Athabasca Oil Sands Project, a joint venture of Shell Canada Limited (60 per cent), Chevron Canada Limited (20 per cent) and Western Oil Sands L.P. (20 per cent).

This document contains "forward-looking statements" based upon current expectations, estimates and projections of future production, project startup and future capital spending. Forward-looking statements include, but are not limited to, references to future capital and other expenditures, drilling plans, construction activities, the submission of regulatory applications, refining margins, oil and gas production levels, references to resources and reserves estimates.

Readers are cautioned not to place undue reliance on forward-looking statements. Forward-looking statements involve numerous risks and uncertainties, which could cause actual results to differ materially from those anticipated by the Corporation. These risks and uncertainties include, but are not limited to, the risks of the oil and gas industry (including operating conditions and costs), demand for oil, gas and related products, disruptions in supply, project schedules, the uncertainties involving geology of oil and gas deposits, the uncertainty of reserves estimates, fluctuations in oil and gas prices and foreign currency exchange rates, general economic conditions, commercial negotiations, changes in law or government policy, and other factors, many of which are beyond the control of the Corporation.
