Letter to Shareholders

Michael J. Peters

The semi-annual period ended March 31, 2007 saw modest positive total returns for Madison Mosaic Tax-Free National and Tax-Free Virginia. The funds' yields dipped slightly, in a period in which intermediate interest rates trended slightly higher. Both funds returned 1.20% for the six-months ended

March 31, 2007. The 30-day SEC yield for Tax-Free Virginia and Tax-Free National was 2.85% and 2.87%, respectively.

Over the same period, the Lipper General Municipal Debt Index was up 1.87%, as municipal bonds of various maturities all produced modest gains. The Lipper Short Municipal Debt Index gained 1.46% for the period, while the Lipper Intermediate Municipal Debt Index was up 1.50%. Intermediate interest rates remained flat for the period as the Federal Reserve held rates steady through the period.

Economic Overview

The U.S. economy continued to expand over the six-months ended March 31, 2007, but recent moderation fostered considerable debate over the future path of economic growth. This "data dependant" status has provided considerable opportunities for investors to debate the near-term path for Fed interest rate policy. And in typical fashion, late-stage economic data has given conflicting signals. Economic strength and persistent inflation had some predicting that more rate hikes were needed. Meanwhile, the rollover in housing and the increasing default rate on loans to borrowers with lower credit ratings (sub-prime loans) argued for lower rates to prevent recession. Meanwhile, the debate allows the Fed to remain on hold, patiently watching the data before acting.

Our work confirms that the economic data has been inconsistent, with pockets of strength such as the labor market offset by areas of weakness such as manufacturing. While the pace of GDP growth was undeniably slower than earlier in the expansion, much of the slack came from housing and autos with the rest of the economy doing well. Aided by low unemployment, positive equity returns, and stable interest rates, U.S. consumers continued to support economic growth despite contraction in the manufacturing sector. However, slowing in the U.S. housing market remains a concern heading into the remainder of 2007. We remain wary of the potential for sub-prime loan problems to spread beyond the housing market to the broader economy and threaten the health of the U.S. consumer.

Against these oft conflicting economic factors, inflation pressures remain. Commodity prices, which have been rising steadily since 2002, took another leg upwards during the period, leading to further pressure on raw material input prices. Productive capacity was being utilized at a high rate. And the unemployment rate, which ended the period around 4.4%, was as low as it has been since the last recession. Inflation as a whole remained above the Fed's stated "comfort zone," as it has been since the spring of 2004, a situation which decreases the Fed's appetite for rate cuts.

Outlook

We expect economic growth to continue through the remainder of 2007, but to moderate. While we continue to believe that interest rates have upside risk, given recent inflation data, we are less concerned about a sharp interest rate increase in the coming months. We believe that our emphasis on intermediate duration bonds makes sense during this period of uncertainty, and that municipal bonds continue to be a prudent investment for conservative investors seeking tax-advantaged income.

VIRGINIA FUND

The Commonwealth of Virginia maintains an AAA general obligation bond rating based on a well-diversified economy that emphasizes services and government. The Fund had a total return of 1.20% for the semi-annual period and the 30-day SEC yield was 2.85% as of March 31, 2007. The duration of the portfolio was 6.03 years while the average credit quality was maintained at AA. Purchases during the period included James City County Economic Development Authority and Augusta County Industrial Development Authority for the Augusta Health Care System. Virginia ranked 20th in the country in terms of issuance on a year-to-date basis.

INDUSTRY DIVERSIFICATION AS OF MARCH 31, 2007 FOR MADISON MOSAIC VIRGINIA FUND

NATIONAL FUND

The National Fund had a total return of 1.20% for the semi-annual period and the 30-day SEC yield was 2.87% as of March 31, 2007. The duration of the portfolio was 6.01 years while 63.8% of the portfolio held Moody's top Aaa rating. Purchases made during

the period included Emerald Coast Utility Revenue bonds in Florida and Orangeburg, South Carolina Governmental Action Authority Public Improvement bonds. The United States and its territories have issued \$104 billion in muni bonds during the three months ending March 31, 2007, which represents a 49% increase in volume over the same period last year.

STATE DIVERSIFICATION AS OF MARCH 31, 2007 FOR MADISON MOSAIC NATIONAL FUND

We appreciate your confidence in Madison Mosaic Funds and reaffirm our commitment to provide you with competitive returns to meet your investment objectives.

Sincerely,

Michael J. Peters, CFA
Vice-President

The Notes to Financial Statements are an integral part of these statements.

Notes to Financial Statements

1. Summary of Significant Accounting Policies. Madison Mosaic Tax-Free Trust (the "Trust") is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end, diversified investment management company. The Trust maintains two separate funds, the Virginia Tax-Free Fund ("Virginia Fund") and the Tax-Free National Fund (the "National Fund") which invest principally in securities exempt from federal income taxes, commonly known as "municipal" securities. The Virginia Fund invests solely in securities exempt from both federal and state income taxes. The National Fund invests in securities exempt from federal taxes. Both Funds invest in intermediate and long-term securities. Because the Trust is 100% no-load, the shares of each Fund are offered and redeemed at the net asset value per share.

Securities Valuation: The Funds value securities having maturities of 60 days or less at amortized cost, which approximates fair market value. Securities having longer maturities, for which market quotations are readily available are valued at the mean between their bid and ask prices. Securities for which market quotations are not readily available are valued at their fair value as determined in good faith under procedures approved by the Board of Trustees.

Investment Transactions: Investment transactions are recorded on a trade date basis. The cost of investments sold is determined on the identified cost basis for financial statement and Federal income tax purposes.

Investment Income: Interest income is recorded on an accrual basis. Bond premium is amortized and original issue discount and market discount are accreted over the expected life of each applicable security using the effective interest method.

Distribution of Income and Gains: Distributions are recorded on the ex-dividend date. Net investment income, determined as gross investment income less

total expenses, is declared as a regular dividend and distributed to shareholders monthly. Capital gain distributions, if any, are declared and paid annually at calendar year-end. Additional distributions may be made if necessary. Distributions paid during the years ended September 30, 2006 and 2005 were identical for book purposes and tax purposes.

The tax character of distributions paid for the Virginia Fund was \$0 short-term and \$29,699 long-term for the year ended September 30, 2006 and \$10,506 short-term and \$168,842 long-term for the year ended September 30, 2005. The tax character of distributions paid for the National Fund was \$110,965 long-term for the year ended September 30, 2006 and had no distributable short-term or long-term capital gains for the year ended September 30, 2005.

As of March 31, 2007 the components of distributable earnings on a tax basis were as follows:

Virginia Fund:

Accumulated net realized gains	\$ 47,649
Net unrealized appreciation on investments	686,278
	<u>\$ 733,927</u>

National Fund:

Accumulated net realized gains	\$ 71,715
Net unrealized appreciation on investments	1,008,109
	<u>\$ 1,079,824</u>

Net realized gains or losses may differ for financial and tax reporting purposes as a result of loss deferrals related to wash sales and post-October transactions.

Income Tax: No provision is made for Federal income taxes since it is the intention of the Funds to comply with the provisions of the Internal Revenue Code available to investment companies and to make the requisite distribution to shareholders of taxable income which will be sufficient to relieve it from all or substantially all Federal Income Taxes.

Notes to Financial Statements (continued)

Use of Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Such estimates affect the reported amounts of assets and liabilities and reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

2. Investment Advisory Fees and Other Transactions

with Affiliates. The investment advisor to the Trust, Madison Mosaic, LLC, a wholly owned subsidiary of Madison Investment Advisors, Inc. (the "Advisor"), earns an advisory fee equal to 0.625% per annum of the average net assets of the Funds. The fees are accrued daily and are paid monthly.

3. Other Expenses.

Under a separate Services Agreement, the Advisor will provide or arrange for each Fund to have all necessary operational and support services for a fee based on a percentage of average net assets, other than the expenses of the Trust's Independent Trustees and auditor ("Independent Service Providers") which are paid directly based on cost. For the six-months ended March 31, 2007, the services fee was based on the following percentage of average net assets: 0.36% for the Virginia Fund and 0.40% for the National Fund on assets less than \$25 million and 0.36% for all assets greater than \$25 million. The amount paid by each Fund directly for Independent Service Providers fees for the six-months ended was \$4,987. The Funds use US Bancorp Fund Services LLC as their transfer agent and US Bank as their custodian. The transfer agent and custodian fees are paid by the Advisor and allocated to the Funds pursuant to a services agreement and are included in other expenses.

4. Aggregate Cost and Unrealized Appreciation. The aggregate cost for federal income tax purposes and the net unrealized appreciation (depreciation) are stated as follows as of March 31, 2007:

	Virginia Fund	National Fund
Aggregate Cost	<u>\$24,943,946</u>	<u>\$27,636,554</u>
Gross unrealized appreciation	721,432	1,035,181
Gross unrealized depreciation	<u>(35,154)</u>	<u>(27,072)</u>
Net unrealized appreciation	<u>\$ 686,278</u>	<u>\$ 1,008,109</u>

5. Investment Transactions. Purchases and sales of securities (excluding short-term securities) for the six-months ended March 31, 2007, were as follows:

	Purchases	Sales
Virginia Fund	\$2,233,664	\$2,327,946
National Fund	\$4,712,482	\$5,967,838

6. Capital Share Transactions. An unlimited number of capital shares, without par value, are authorized. Transactions in capital shares were as follows:

	(unaudited) Six-Months Ended March 31, 2007	Year Ended Sept. 30, 2006
Virginia Fund

Additional shares issued in connection with Tax-Free Missouri merger	--	604,480
Additional shares issued in connection with Tax-Free Arizona merger	--	425,682
Shares issued in reinvestment of dividends	51,477	74,985
Total shares issued	104,941	1,191,352
Shares redeemed	(230,983)	(329,078)
Net increase (decrease)	<u><u>(126,042)</u></u>	<u><u>862,274</u></u>

7. Line of Credit. The Virginia Fund has a \$7.5 million and the National Fund has an \$8 million revolving credit facility with a bank for temporary emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. The interest rate on the outstanding principal amount is equal to the prime rate less 1/2%. During the six-months ended March 31, 2007, neither Fund borrowed on their lines of credit.

8. New Accounting Pronouncement. In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109" ("FIN 48"), which clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return. FIN 48 provides guidance on the measurement, recognition, classification and disclosure of tax positions, along with accounting for the related interest and penalties. FIN 48 is effective for fiscal years beginning after December 15, 2006, and is to be applied to all open tax years as of the date of effectiveness. The Fund is currently evaluating the impact, if any, of applying the various provisions of FIN 48.

On September 15, 2006, the Financial Accounting Standards Board issued Standard No. 157, "Fair Value Measurements" ("FAS 157"). FAS 157 addresses how companies should measure fair value when specified assets and liabilities are measured at fair value for either recognition or disclosure purposes under generally accepted accounting principles (GAAP). FAS 157 is intended to make the measurement of fair value more consistent and comparable and improve disclosures about those measures. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. At this time, management believes the adoption of FAS 157 will have no material impact on the financial statements of the Fund.

Notes to Financial Statements (continued)

Fund Expenses (unaudited).

Example: This Example is intended to help you understand your costs (in dollars) of investing in a Fund and to compare these costs with the costs of investing in other mutual funds. See footnotes 2 and 3 above for an explanation of the types of costs charged by the funds. This Example is based on an investment of \$1,000 invested on October 1, 2006 and held for the six-months ended March 31, 2007.

Actual Expenses

The table below titled “Based on Actual Total Return” provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,500 ending account valued divided by \$1,000 = 8.5), then multiply the result by the number under the heading entitled “Expenses Paid During the Period.”

Based on Actual Total Return¹

	Actual Total Return ²	Beginning Account Value	Ending Account Value	Annualized Expense Ratio ³	Expenses Paid During the Period ³
Virginia Fund	1.20%	\$1,000.00	\$1,012.04	1.02%	\$5.13
National Fund	1.20%	\$1,000.00	\$1,012.02	1.05%	\$5.27

¹For the six months ended March 31, 2007.

²Assumes reinvestment of all dividends and capital gains distributions, if any, at net asset value.

³Expenses are equal to the respective Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year, then divided by 365.

Hypothetical Example
for Comparison Purposes

The table below titled “Based on Hypothetical Total Return” provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5.00% per year before expenses, which is not any fund's actual return. The hypothetical account values and expenses may not be used to

estimate the actual ending account balance or expenses you paid for the period. You may use the information provided in this table to compare the ongoing costs of investing in a Mosaic Tax-Free Trust Fund and other funds. To do so, compare the 5.00% hypothetical example relating to the Mosaic Fund with the 5.00% hypothetical examples that appear in the shareholder reports of the other funds.

Based on Hypothetical Total Return¹

	Hypothetical Annualized Total Return	Beginning Account Value	Ending Account Value	Annualized Expense Ratio ²	Expenses Paid During the Period ²
Virginia Fund	5.00%	\$1,000.00	\$1,025.19	1.02%	\$5.15
National Fund	5.00%	\$1,000.00	\$1,025.19	1.05%	\$5.30

¹For the six months ended March 31, 2007.

²Expenses are equal to the respective Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year, then divided by 365.

Notes to Financial Statements (concluded)

Forward-Looking Statement Disclosure. One of our most important responsibilities as mutual fund managers is to communicate with shareholders in an open and direct manner. Some of our comments in our letters to shareholders are based on current management expectations and are considered “forward-looking statements.” Actual future results, however, may prove to be different from our expectations. You can identify forward-looking statements by words such as “estimate,” “may,” “will,” “expect,” “believe,” “plan” and other similar terms. We cannot promise future returns. Our opinions are a reflection of our best judgment at the time this report is compiled, and we disclaim any obligation to update or alter forward-looking statements as a result of new information, future events, or otherwise.

Proxy Voting Information. The Trust only invests in non-voting securities. Nevertheless, the Trust adopted policies that provide guidance and set forth parameters for the voting of proxies relating to securities held in the Trust’s portfolios. These policies are available to you upon request and free of charge by writing to Madison Mosaic Funds, 550 Science Drive, Madison, WI 53711 or by calling toll-free at 1-800-368-3195. The Trust’s proxy voting policies may also be obtained by visiting the Securities and

Exchange Commission web site at www.sec.gov. The Trust will respond to shareholder requests for copies of our policies within two business days of request by first-class mail or other means designed to ensure prompt delivery.

N-Q Disclosure. The Trust files its complete schedule of portfolio holdings with the U.S. Securities and Exchange Commission (the “Commission”) for the first and third quarters of each fiscal year on Form N-Q. The Trust’s Forms N-Q are available on the Commission’s website. The Trust’s Forms N-Q may be reviewed and copied at the Commission’s Public Reference Room in Washington, DC. Information about the operation of the Public Reference Room may be obtained by calling the Commission at 1-202-942-8090. Form N-Q and other information about the Trust are available on the EDGAR Database on the Commission’s Internet site at <http://www.sec.gov>. Copies of this information may also be obtained, upon payment of a duplicating fee, by electronic request at the following email address: publicinfo@sec.gov, or by writing the Commission’s Public Reference Section, Washington, DC 20549-0102. Finally, you may call us at 800-368-3195 if you would like a copy of Form N-Q and we will mail one to you at no charge.
