**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 1. Basis of Presentation**

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ending June 30, 2006. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended June 30, 2005.

**Last-in, First-out (LIFO) Inventories**

Interim period LIFO calculations are based on interim period costs and management's estimates of year-end inventory levels. Because the availability and price of agricultural commodity-based LIFO inventories are unpredictable due to factors such as weather, government farm programs and policies, and changes in global demand, quantities of LIFO-based inventories at interim periods may vary significantly from management's estimates of year-end inventory levels.

**Note 2. New Accounting Standards**

In March 2005, the Financial Accounting Standards Board issued Interpretation Number 47, *Accounting for Conditional Asset Retirement Obligations, an Interpretation of FASB Statement No. 143* (FIN 47). FIN 47 clarifies that the term, conditional asset retirement obligation, as used in Statement of Financial Accounting Standards (SFAS) Number 143, *Accounting for Asset Retirement Obligations*, refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. However, the obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. FIN 47 clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The Company has adopted FIN 47 for the fiscal year ending June 30, 2006, and is in the process of assessing the impact of adoption on the Company's financial statements.

**Note 3. Stock Compensation**

Effective July 1, 2004, the Company adopted the fair value recognition provisions of SFAS Number 123, *Accounting for Stock-Based Compensation*, for stock-based employee compensation. Prior to July 1, 2004, the Company accounted for stock-based employee compensation under the recognition and measurement provisions of APB Opinion Number 25, *Accounting for Stock Issued to Employees*, and related interpretations. Under the modified prospective method of adoption selected by the Company under the provisions of SFAS Number 148, *Accounting for Stock-Based Compensation - Transition and Disclosure*, stock-based employee compensation cost recognized during the quarter ended September 30, 2004 was the same as that which would have been recognized had the fair value recognition provisions of SFAS Number 123 been applied to all options granted after July 1, 1995. Effective July 1, 2005, the Company adopted the fair value recognition provisions of SFAS Number 123(R), *Share-Based Payment*, using the modified prospective transition method. Under the modified prospective transition method, compensation cost recognized for the quarter ending September 30, 2005 includes: (a) compensation cost for all share-based

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 3. Stock Compensation (Continued)**

payments granted prior to, but not yet vested as of, July 1, 2005 based on the grant date fair value estimated in accordance with the original provisions of SFAS Number 123, and (b) compensation cost for all share-based payments granted subsequent to July 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS Number 123(R). Results of prior periods have not been restated.

As a result of adopting SFAS Number 123(R) on July 1, 2005, the Company's earnings before income taxes and net earnings for the quarter ended September 30, 2005, were \$31 million and \$19 million lower, respectively, than if the Company had continued to account for share-based compensation under SFAS Number 123. SFAS Number 123(R) required the acceleration of share-based compensation expense into this quarter relating to grants issued to retirement eligible employees pursuant to the Company's 2002 Incentive Compensation Plan. Basic and diluted earnings per share for the quarter ended September 30, 2005 would have been \$0.31 if the Company had not adopted SFAS Number 123(R), compared to reported basic and diluted earnings per share of \$0.29. Total share-based compensation expense recognized during the quarters ended September 30, 2005 and 2004 was \$41 million and \$6 million, respectively.

*Stock Compensation Plans*

The Company's employee stock compensation plans provide for the granting of options to employees to purchase common stock of the Company at market value on the date of grant pursuant to the Company's 1996 Stock Option Plan, 1999 Incentive Compensation Plan, and 2002 Incentive Compensation Plan. Options expire five to ten years after the date of grant, and the vesting requirements of awards under the plans range from four to nine years based upon the terms of each option grant. Compensation expense related to option grants is recognized on a straight-line basis over the vesting period.

The Company's 1999 and 2002 Incentive Compensation Plans provide for the granting of restricted stock awards at no cost to certain officers and key employees. The awarded shares are made in common stock and vest at the end of a three-year restriction period. Upon issuance of restricted stock awards, compensation expense equivalent to the market value of the shares at the date of grant is recognized on a straight-line basis over the vesting period. During the quarter ended September 30, 2005 and 2004, 2.3 million and 2.5 million common shares, respectively, were granted as restricted stock awards. At September 30, 2005, there were 0.4 million, 1.1 million, and 12.8 million shares available for future grants pursuant to the 1996, 1999, and 2002 plans, respectively.

The fair value of each option grant is estimated as of the date of grant using the Black-Scholes single option pricing model. The volatility assumption used in the Black-Scholes single option pricing model is based on the historical volatility of the Company's stock. The volatility of the Company's stock was calculated based upon the monthly closing price of the Company's stock for the eight year period immediately prior to the date of grant. The average expected life represents the period of time that option grants are expected to be outstanding. The risk-free rate is based on the rate of U.S. Treasury zero-coupon issues with a remaining term equal to the expected life of option grants. The assumptions used in the Black-Scholes single option pricing model are as follows.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 3. Stock Compensation (Continued)**

	<b>September 30,</b>	
	<b>2005</b>	<b>2004</b>
Dividend yield	2%	2%
Risk-free interest rate	4%	4%
Stock volatility	31%	27%
Average expected life (years)	8	9

A summary of option activity under the plans as of September 30, 2005, and changes during the quarter then ended is presented below:

<b>Options</b>	<b>Shares</b>	<b>Weighted-Average Exercise Price</b>	<b>Weighted-Average Remaining Contractual Term</b>	<b>Aggregate Intrinsic Value</b>
	(In thousands)		(In years)	(In thousands)
Shares under option at June 30, 2005	10,523	\$13.19		
Granted	3,059	20.90		
Exercised	(655)	12.23		
Forfeited or expired	(509)	14.84		
Shares under option at September 30, 2005	12,418	\$15.07	7	\$119,046
Exercisable at September 30, 2005	3,499	\$12.33	2	\$ 43,139

The weighted-average grant-date fair values of options granted during the quarters ended September 30, 2005 and 2004 were \$7.22 and \$4.34, respectively. The total intrinsic values of options exercised during the quarters ended September 30, 2005 and 2004, were \$6 million and \$3 million, respectively.

The fair value of restricted shares is determined based on the market value of the Company's shares on the grant date. The weighted-average grant-date fair values of shares granted during the quarters ended September 30, 2005 and 2004 were \$20.90 and \$15.73, respectively. A summary of the status of the Company's restricted shares as of September 30, 2005, and changes during the quarter then ended is presented below:

<b>Restricted Shares</b>	<b>Shares</b>	<b>Weighted-Average Grant-Date Fair Value</b>
	(In thousands)	
Nonvested at June 30, 2005	4,434	\$14.35
Granted	2,266	20.90
Vested	(913)	11.32
Forfeited	(110)	13.65
Nonvested at September 30, 2005	5,677	\$17.47

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 3. Stock Compensation (Continued)**

As of September 30, 2005 there was \$45 million of total unrecognized compensation cost related to restricted shares which will be recognized during the next 3 years. The total fair value of restricted shares vested during the quarter ended September 30, 2005 was \$10 million. There were no restricted shares vested during the quarter ended September 30, 2004.

As of September 30, 2005, there was \$86 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements which will be recognized during the next 7 years.

**Note 4. Comprehensive Income**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 6. Retirement Plan Expense**

The Company provides substantially all domestic employees and employees at certain international subsidiaries with pension benefits. The Company also provides substantially all domestic salaried employees with postretirement health care and life insurance benefits. Retirement plan expense for these pension and postretirement benefits for the quarter ended September 30, 2005 and 2004, is as follows:

	<b>Pension Benefits</b>		<b>Postretirement Benefits</b>	
	<b>THREE MONTHS ENDED</b>		<b>THREE MONTHS ENDED</b>

Net periodic defined benefit plan expense	<b>\$ 25,910</b>	\$ 24,874	<b>\$ 3,624</b>	\$ 3,285

**Note 7. Guarantees**

The Company has entered into debt guarantee agreements, primarily related to equity-method investees, which could obligate the Company to make future payments if the primary entity fails to perform its contractual obligation. The Company has not recorded a liability for these contingent obligations, as the Company believes the likelihood of any payments being made is remote. Should the Company be required to make any payments pursuant to these guarantees, the Company has, for a majority of these agreements, a security interest in the underlying assets of the primary entity. These debt guarantees totaled \$436 million at September 30, 2005. Outstanding borrowings under these guarantees were \$244 million at September 30, 2005.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Unaudited)**

**Archer-Daniels-Midland Company and Subsidiaries**

**Note 8. Segment Information**

The Company is principally engaged in procuring, transporting, storing, processing, and merchandising agricultural commodities and products. The Company's operations are classified into three reportable business segments: Oilseeds Processing, Corn Processing, and Agricultural Services. Each of these segments is organized based upon the nature of products and services offered. The Company's remaining operations are aggregated and classified as Other.

The Oilseeds Processing segment includes activities related to processing oilseeds such as soybeans, cottonseed, sunflower seeds, canola, peanuts, and flaxseed into vegetable oils and meals principally for the food and feed industries. In addition, oilseeds may be resold into the marketplace as a raw material for other processors. Crude vegetable oil is sold "as is" or is further processed by refining, bleaching, and deodorizing into salad oils. Salad oils can be further processed by hydrogenating and/or interesterifying into margarine, shortening, and other food products. Partially refined oil is sold for use in chemicals, paints, and other industrial products. Refined oil can be further processed for use in the production of biodiesel. Oilseed meals are primary ingredients used in the manufacture of commercial livestock and poultry feeds.

The Corn Processing segment includes activities related to the production of sweeteners, starches, dextrose, and syrups for the food and beverage industry as well as activities related to the production, by fermentation, of bioproducts such as alcohol, amino acids, and other specialty food and feed ingredients.

The Agricultural Services segment utilizes the Company's extensive grain elevator and transportation network to buy, store, clean, and transport agricultural commodities, such as oilseeds, corn, wheat, milo, oats, and barley, and resells these commodities primarily as feed ingredients and as raw materials for the agricultural processing industry. Agricultural Services' grain sourcing and transportation network provides reliable and efficient services to the Company's agricultural processing operations. Also included in Agricultural Services are the activities of A.C. Toepfer International, a global merchandiser of agricultural commodities and processed products.

Other includes the Company's remaining operations, consisting principally of food and feed ingredient businesses and financial activities. Food and feed ingredient businesses include Wheat Processing with activities related to the production of wheat flour; Cocoa Processing with activities related to the production of chocolate and cocoa products; the production of natural health and nutrition products; and the production of other specialty food and feed ingredients. Financial activities include banking, captive insurance, private equity fund investments, and futures commission merchant activities.

Intersegment sales have been recorded at amounts approximating market. Operating profit for each segment is based on net sales less identifiable operating expenses, including an interest charge related to working capital usage. Also included in operating profit are the related equity in earnings (losses) of affiliates based on the equity method of accounting. General corporate expenses, investment income, unallocated interest expense, marketable securities transactions, and FIFO to LIFO inventory adjustments have been excluded from segment operations and classified as Corporate.

For detailed information regarding the Company's reportable segments, see Note 13 to the consolidated financial statements included in the Company's annual report on Form 10-K for the year ended June 30, 2005.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **COMPANY OVERVIEW**

The Company is principally engaged in procuring, transporting, storing, processing and merchandising agricultural commodities and products. The Company's operations are classified into three reportable business segments: Oilseeds Processing, Corn Processing, and Agricultural Services. Each of these segments is organized based upon the nature of products and services offered. The Company's remaining operations are aggregated and classified as Other.

The Oilseeds Processing segment includes activities related to processing oilseeds such as soybeans, cottonseed, sunflower seeds, canola, peanuts, and flaxseed into vegetable oils and meals principally for the food and feed industries. In addition, oilseeds may be resold into the marketplace as a raw material for other processors. Crude vegetable oil is sold "as is" or is further processed by refining, bleaching, and deodorizing into salad oils. Salad oils can be further processed by hydrogenating and/or interesterifying into margarine, shortening, and other food products. Partially refined oil is sold for use in chemicals, paints, and other industrial products. Refined oil can be further processed for use in the production of biodiesel. Oilseed meals are primary ingredients used in the manufacture of commercial livestock and poultry feeds.

The Corn Processing segment includes activities related to the production of syrups, starches, dextrose, and sweeteners for the food and beverage industry as well as activities related to the production, by fermentation, of bioproducts such as alcohol, amino acids, and other specialty food and feed ingredients.

The Agricultural Services segment utilizes the Company's extensive grain elevator and transportation network to buy, store, clean, and transport agricultural commodities, such as oilseeds, corn, wheat, milo, oats, and barley, and resells these commodities primarily as feed ingredients and as raw materials for the agricultural processing industry. Agricultural Services' grain sourcing and transportation network provides reliable and efficient services to the Company's agricultural processing operations. Also included in Agricultural Services are the activities of A.C. Toepfer International, a global merchandiser of agricultural commodities and processed products.

Other includes the Company's remaining operations, consisting principally of food and feed ingredient businesses and financial activities. Food and feed ingredient businesses include Wheat Processing with activities related to the production of wheat flour; Cocoa Processing with activities related to the production of chocolate and cocoa products; the production of natural health and nutrition products; and the production of other specialty food and feed ingredients. Financial activities include banking, captive insurance, private equity fund investments, and futures commission merchant activities.

### *Operating Performance Indicators and Risk Factors*

The Company is exposed to certain risks inherent to an agricultural-based commodity business. These risks are further described in the "Critical Accounting Policies" and "Market Risk Sensitive Instruments and Positions" sections of "Management's Discussion of Operations and Financial Condition," included in the Company's annual report on Form 10-K for the year ended June 30, 2005.

The Company's Oilseeds Processing, Agricultural Services, and Wheat Processing operations are principally agricultural commodity-based businesses where changes in segment selling prices move in relationship to changes in prices of the commodity-based agricultural raw materials. Therefore, agricultural commodity price changes have relatively equal impacts on both net sales and cost of products sold and minimal impact on the gross profit of underlying transactions. As a result, changes in net sales amounts of these business segments do not necessarily correspond to the changes in gross profit realized by these businesses.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

The Company's Corn Processing operations and certain other food and feed processing operations also utilize agricultural commodities (or products derived from agricultural commodities) as raw materials. In these operations, agricultural commodity price changes can result in significant fluctuations in cost of products sold and such price changes cannot necessarily be passed directly through to the selling price of the finished products. For products such as ethanol, selling prices bear no direct relationship to the raw material cost of the agricultural commodity from which it is produced.

The Company conducts its business in many foreign countries. For many of the Company's subsidiaries located outside the United States, the local currency is the functional currency. Revenues and expenses denominated in foreign currencies are translated into U.S. dollars at the weighted average exchange rates for the applicable periods. Fluctuations in the exchange rates of foreign currencies, primarily the euro and British pound as compared to the U.S. dollar will result in corresponding fluctuations in the relative U.S. dollar value of the Company's revenues and expenses. The impact of these currency exchange rate changes, where significant, is discussed below.

The Company measures the performance of its business segments using key operating statistics such as segment operating profit and return on fixed capital investment. The Company's operating results can vary significantly due to changes in unpredictable factors such as weather conditions, plantings, government (domestic and foreign) farm programs and policies, changes in global demand resulting from population growth and changes in standards of living, and global production of similar and competitive crops. Due to these factors, the Company does not provide forward-looking information in "Management's Discussion and Analysis of Financial Condition and Results of Operations." Additionally, the Company's operating results for the current quarter are not necessarily indicative of the results that may be expected for the year ending June 30, 2006.

### **THREE MONTHS ENDED SEPTEMBER 30, 2005 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2004**

As an agricultural-based commodity business, the Company is subject to a variety of market factors which affect the Company's operating results. During the quarter ended September 30, 2005, the hurricanes in the gulf coast region of the United States disrupted North American grain origination and agricultural commodity export operations. The disruption in export operations reduced commodity price levels and negatively impacted export volumes. Oilseed crushing margins in North America were also adversely affected by market disruptions due to the gulf coast hurricanes. Strong biodiesel demand in Europe continued to positively impact rapeseed crushing margins in Europe. Lower commodity price levels for corn favorably impacted corn processing operations. Ethanol experienced good demand due to additional gasoline refiners replacing MTBE with ethanol.

Net earnings for the quarter decreased principally due to a \$107 million decrease in income from the effect of changing commodity prices on LIFO inventory valuations, increased energy costs, and decreased Agricultural Services operating results. These decreases were partially offset by improved operating results of Oilseeds Processing and Corn Processing. In addition, the Company recognized a \$31 million charge as a result of the Company's recent adoption of Statement of Financial Accounting Standards (SFAS) Number 123(R) requiring the acceleration of share-based compensation expense into this quarter resulting from grants issued to retirement-eligible employees pursuant to the Company's 2002 Incentive Compensation Plan.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

### ANALYSIS OF STATEMENTS OF EARNINGS

Net sales and other operating income decreased 4% for the quarter to \$8.6 billion principally due to lower average selling prices of agricultural commodities and, to a lesser extent, decreased sales volumes of agricultural commodities. These decreases were partially offset by increased ethanol sales volumes.

Net sales and other operating income by segment for the quarter are as follows:

	THREE MONTHS ENDED SEPTEMBER 30,		Change
	2005	2004	
		(In thousands)	
Oilseeds Processing	\$2,988,966	\$3,275,587	\$(286,621)
Corn Processing			
Sweeteners and Starches	503,087	509,333	(6,246)
Bioproducts	657,126	560,102	97,024
Total Corn Processing	1,160,213	1,069,435	90,778
Agricultural Services	3,353,959	3,464,477	(110,518)
Other			
Food and Feed Ingredients	1,107,881	1,145,475	(37,594)
Financial	15,930	17,437	(1,507)
Total Other	1,123,811	1,162,912	(39,101)
Total	\$8,626,949	\$8,972,411	\$(345,462)

Oilseeds Processing sales decreased 9% to \$3.0 billion primarily due to lower average selling prices of soybeans, vegetable oil, and protein meal, partially offset by increased sales volumes of protein meal. These decreases in average selling prices were primarily due to lower oilseed commodity prices resulting from increased oilseed supply levels. Corn Processing sales increased 8% to \$1.2 billion primarily due to increased Bioproducts sales, partially offset by decreased sales of Sweeteners and Starches. Bioproducts sales increased primarily due to increased sales volumes of ethanol, partially offset by lower average selling prices of lysine. The increase in ethanol sales volumes was principally due to increased demand from gasoline refiners in the eastern United States using ethanol to replace MTBE as a gasoline additive. Agricultural Services sales decreased 3% to \$3.4 billion primarily due to lower commodity prices and sales volumes in North America, partially offset by increased sales from global grain merchandising activities. The decreased commodity prices and sales volumes were primarily due to disruptions in North American grain origination and export activities caused by the hurricanes in the gulf coast region. Other sales decreased 3% to \$1.1 billion primarily due to decreased average selling prices of cocoa, wheat flour, and feed products.

Cost of products sold decreased 3% to \$8.0 billion for the quarter primarily due to lower average costs of agricultural commodities. Manufacturing costs increased \$90 million from prior year levels primarily due to increased energy costs.

Selling, general and administrative expenses increased \$53 million to \$304 million principally due to increased employee-related costs, including the \$31 million charge related to the adoption of SFAS 123(R).

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Other expense decreased \$21 million due primarily to a \$15 million increase in equity in earnings of unconsolidated affiliates and \$5 million of realized securities gains. The increase in equity in earnings of unconsolidated affiliates is primarily due to improved earnings of the Company's Asian oilseed crushing ventures. Interest expense and investment income for the quarter increased primarily due to increased average borrowing and investment levels, respectively, and higher interest rates.

Operating profit by segment for the quarter is as follows:

	THREE MONTHS ENDED SEPTEMBER 30,		
	2005	2004	Change
	(In thousands)		
Oilseeds Processing	\$ 99,115	\$ 91,273	\$7,842
Corn Processing			
Sweeteners and Starches	92,481	54,880	37,601
Bioproducts	43,777	48,193	(4,416)
Total Corn Processing	136,258	103,073	33,185
Agricultural Services	20,009	51,272	(31,263)
Other			
Food and Feed Ingredients	69,229	89,239	(20,010)
Financial	25,907	3,815	22,092
Total Other	95,136	93,054	2,082
Total Segment Operating Profit	350,518	338,672	11,846
Corporate	(76,786)	47,265	(124,051)
Earnings Before Income Taxes	\$ 273,732	\$ 385,937	(112,205)

Oilseeds Processing operating profit increased 9% to \$99 million for the quarter due primarily to improved operating results in Europe and Asia, partially offset by lower North American operating results. Strong demand for biodiesel in Europe contributed to better European processing margins. Operating results in Asia improved due to increased capacity utilization. North American operating results declined due to increased energy costs and market disruptions caused by the hurricanes in the gulf coast region.

Corn Processing operating profits increased 32% to \$136 million for the quarter primarily due to lower net corn costs. Sweeteners and Starches operating profits increased \$38 million due primarily to decreased net corn costs partially offset by higher energy costs. Bioproducts operating profits decreased \$4 million primarily due to lower lysine average selling prices, higher energy costs, and lower operating results of the Company's citric acid operations. These items were partially offset by lower net corn costs and increased ethanol sales volumes.

Agricultural Services operating profits decreased \$31 million to \$20 million for the quarter due to the negative impact of the gulf coast hurricanes on North American origination and export operations and decreased global grain merchandising operating results. These decreases were partially offset by improved river transportation operating results primarily due to increased barge tariff rates resulting from the impact of the gulf coast hurricanes.

Other operating profits increased to \$95 million for the quarter. Other – Food and Feed Ingredients operating profits decreased \$20 million due primarily to lower Vitamin E demand which reduced selling prices. In addition, cocoa and wheat processing operating results declined from prior year levels. Other – Financial increased \$22 million due primarily to improved results of the Company's captive insurance operations.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

Corporate decreased \$124 million for the quarter due primarily to a \$107 million decrease in income from the effect of changing commodity prices on LIFO inventory valuations. In addition, unallocated corporate expense increased \$22 million due to the adoption of SFAS 123(R).

Income taxes decreased due principally to lower pretax earnings, partially offset by an increase in the Company's effective tax rate. The Company's effective tax rate for the quarter is 31.9% as compared to 31.0% in the prior year quarter.

### **LIQUIDITY AND CAPITAL RESOURCES**

At September 30, 2005, the Company continued to show substantial liquidity with working capital of \$5.0 billion and a current ratio, defined as current assets divided by current liabilities, of 1.8. Working capital increased \$617 million during the quarter due principally to the Company issuing \$600 million of debentures which are due in 2035 and bear interest at a rate of 5.375%. Capital resources remained strong as reflected in the Company's net worth of \$8.7 billion. The Company's ratio of long-term debt to total capital (the sum of the Company's long-term debt and shareholders' equity) at September 30, 2005, was 32% compared to 30% at June 30, 2005. This ratio is a measure of the Company's long-term liquidity and is an indicator of financial flexibility.

### **Contractual Obligations and Commercial Commitments**

Except for the Company's issuance of \$600 million of debentures as described above, there were no material changes in the Company's contractual obligations and commercial commitments during the three months ended September 30, 2005.

### **Critical Accounting Policies**

There were no material changes in the Company's critical accounting policies during the three months ended September 30, 2005.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The market risk inherent in the Company's market risk sensitive instruments and positions is the potential loss arising from adverse changes in: commodity prices as they relate to the Company's net commodity position; marketable equity security prices; market prices of limited partnerships' investments; foreign currency exchange rates; and interest rates. Significant changes in market risk sensitive instruments and positions for the quarter ended September 30, 2005 are described below. There were no material changes during the quarter in the Company's potential loss arising from changes in market prices of limited partnerships' investments, marketable equity securities, foreign currency exchange rates, and interest rates.

For detailed information regarding the Company's market risk sensitive instruments and positions, see the "Market Risk Sensitive Instruments and Positions" section of "Management's Discussion of Operations and Financial Condition" in the Company's annual report on Form 10-K for the year ended June 30, 2005.

#### *Commodities*

The availability and price of agricultural commodities are subject to wide fluctuations due to unpredictable factors such as weather, plantings, government (domestic and foreign) farm programs and policies, changes in global demand resulting from population growth and changes in standards of living, and global production of similar and competitive crops. A sensitivity analysis has been prepared to estimate the Company's exposure to market risk of its commodity position. The Company's daily net commodity position consists of inventories, related purchase and sale contracts, and exchange-traded futures contracts, including those to hedge portions of production requirements. The fair value of such position is a summation of the fair values calculated for each commodity by valuing each net position at quoted futures prices. Market risk is estimated as the potential loss in fair value resulting from a hypothetical 10 percent adverse change in such prices. Actual results may differ.

	SEPTEMBER 30, 2005		JUNE 30, 2005	
	Fair Value	Market Risk	Fair Value	Market Risk
	(in millions)			
Highest position - long (short)	<b>\$(114)</b>	<b>\$(11)</b>	\$ 226	\$ 23
Lowest position - long (short)	<b>(574)</b>	<b>(57)</b>	(994)	(94)
Average position - long (short)	<b>(259)</b>	<b>(26)</b>	(300)	(30)

The increase in fair value of the average position was principally the result of an increase in the daily net commodity position.

### ITEM 4. CONTROLS AND PROCEDURES

As of September 30, 2005, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a – 15(e) and 15d – 15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal controls over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

## PART II – OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

#### ENVIRONMENTAL MATTERS

The United States Environmental Protection Agency (“USEPA”) issued a Finding of Violation on March 3, 2005, regarding alleged violations of the National Emission Standards for Hazardous Air Pollutants for Pharmaceutical Production relating to the operation of the Company’s Vitamin E Plant in Decatur, Illinois. The alleged violations relate to compliance demonstrations for equipment testing and monitoring, recordkeeping and reporting, but do not allege any violations of applicable air emissions limitations. The Company met with representatives of the USEPA on April 12, 2005, to discuss the allegations, and it is likely that the USEPA will seek a civil penalty in excess of \$1,000,000. The Company intends to work cooperatively with the USEPA to ensure that all applicable requirements are met. In management’s opinion, the civil penalty imposed will not have a material adverse effect on the Company’s financial condition or results of operations.

The Company is involved in approximately 25 administrative and judicial proceedings in which it has been identified as a potentially responsible party (“PRP”) under the federal Superfund law and its state analogs for the study and clean-up of sites contaminated by material discharged into the environment. In all of these matters, there are numerous PRPs. Due to various factors such as the required level of remediation and participation in the clean-up effort by others, the Company’s future clean-up costs at these sites cannot be reasonably estimated. In management’s opinion, these proceedings will not, either individually or in the aggregate, have a material adverse effect on the Company’s financial condition or results of operations.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

#### ISSUER PURCHASES OF EQUITY SECURITIES

<b>Period</b>	<b>Total Number of Shares Purchased (1)</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program (2)</b>	<b>Number of Shares Remaining that May be Purchased Under the Program (2)</b>
July 1, 2005 to July 31, 2005	356	\$ 21.32	356	92,907,002
August 1, 2005 to August 31, 2005	12,420	22.42	250	92,906,752
September 1, 2005 to September 30, 2005	1,576	24.34	222	92,906,530
Total	14,352	\$ 22.60	828	92,906,530

- (1) Total shares purchased represents those shares purchased as part of the Company’s publicly announced share repurchase program described below and shares received as payment of the exercise price for stock option exercises.
- (2) On November 4, 2004, the Company’s Board of Directors approved a stock repurchase program authorizing the Company to repurchase up to 100,000,000 shares of the Company’s common stock during the period commencing January 1, 2005 and ending December 31, 2009.

## ITEM 6. EXHIBITS

- (3)(i) Composite Certificate of Incorporation, as amended, filed on November 13, 2001 as Exhibit 3(i) to Form 10-Q for the quarter ended September 30, 2001 (File No. 1-44), is incorporated herein by reference.
- (ii) Bylaws, as amended and restated, filed on May 12, 2000 as Exhibit 3(ii) to Form 10-Q for the quarter ended March 31, 2000 (File No. 1-44), are incorporated herein by reference.
- (10) Separation Agreement between Archer-Daniels-Midland Company and Paul B. Mulhollem dated September 29, 2005, filed on September 30, 2005 as Exhibit 10 to the Company's Current Report on Form 8-K (File No. 1-44), is incorporated herein by reference
- (31.1) Certification of Chief Executive Officer pursuant to Rule 13a – 14(a) and Rule 15d-14(a) of the Securities Exchange Act, as amended.
- (31.2) Certification of Chief Financial Officer pursuant to Rule 13a – 14(a) and Rule 15d-14(a) of the Securities Exchange Act, as amended.
- (32.1) Certification of Chief Executive Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- (32.2) Certification of Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

ARCHER-DANIELS-MIDLAND COMPANY

/s/ D. J. Schmalz  
D. J. Schmalz  
Senior Vice President  
and Chief Financial Officer

/s/ D. J. Smith  
D. J. Smith  
Executive Vice President, Secretary and  
General Counsel

Dated: November 8, 2005

**RULE 13a – 14(a)/15d-14(a) CERTIFICATION**

I, G. A. Andreas, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Archer-Daniels-Midland Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(d)-15(f)) for the registrant and we have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

- c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
