Note 1 Summary of Significant Accounting Policies

Nature of Operations and Basis of Presentation

Investors Brokerage of Texas, Ltd (the "Partnership") is a limited partnership organized under the laws of the State of Texas. The Partnership is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Partnership operates under SEC Rule 15c3-3(k)(2)(ii) and paragraph 74 of SEC Release 34-70073, whereby a clearing broker-dealer performs clearing functions for all broker-dealer transactions with customers and brokers and dealers on a fully disclosed basis or limits its activities to those that are considered the activities of a "Non-covered Firm". The Partnership promptly transmits all customer funds and securities. The Partnership also has agreements for clearing functions with other various mutual funds and variable annuity brokers. The majority of the Partnership's customers are located in the central and south Texas areas. The Partnership receives commissions on trades that are facilitated through the clearing broker-dealer and other brokers. The accounting and reporting policies of the Partnership conform to U.S. generally accepted accounting principles and to general practices within the broker-dealer industry.

The accompanying financial statements include only the accounts of the Partnership. The general partner (0.1%) is Insurors General Partner, LLC, which is a wholly-owned subsidiary of the limited partner (99.9%), Insurors.com, Inc. (the "Parent"). The Parent is owned by individual shareholders.

The Partnership carries no customer cash accounts, margin accounts or credit balances and promptly transmits all customer funds and delivers all securities received in connection with its activities to its clearing broker, Hilltop Securities in Dallas, Texas.

Use of Estimates

Management of the Partnership has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

Revenue Recognition

Revenues are recognized when control of the promised services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. Revenues are analyzed to determine whether the Company is the principal (i.e., reports revenues on a gross basis) or agent (i.e., reports revenues on a net basis) in the contract. Principal or agent designations depend primarily on the control an entity has over the product or service before control is transferred to a customer. The indicators of which party exercises control include primary responsibility over performance obligations, inventory risk before the good or service is transferred and discretion in establishing the price.

Commission Revenue

Commission revenue represents sales commissions generated by advisors for their clients' purchases and sales of securities on exchanges and over-the-counter, as well as purchases of other investment products. The Company views the selling, distribution and marketing, or any combination thereof, of investment products to such clients as a single performance obligation to the product sponsors. The Company is the principal for commission revenue, as it is responsible for the execution of the clients purchases and sales, and maintains relationships with the product sponsors. Advisors assist the Company in performing its obligations. Accordingly, total commission revenues are reported on a gross basis and recorded on a settlement date basis, generally the second business day following the transaction date. This is not materially different from the trade date.

The Company generates two types of commission revenue: sales-based commission revenue that is recognized at the point of sale on the trade date and trailing commission revenue that is recognized over time as earned. Sales-based commission revenue varies by investment product and is based on a percentage of an investment product's current market value at the time of purchase. Trailing commission revenue is generally based on a percentage of the current market value of clients' investment holdings in trail-eligible assets, and is recognized over the period during which services, such as on-going support, are performed. As trailing commission revenue is based on the market value of clients' investment holdings, this variable consideration is constrained until the market value is determinable.

Advisory Revenue

Advisory revenue represents fees charged to advisors' clients' accounts on the respective advisory platform. The Company provides ongoing investment advice as well as brokerage and execution services on transactions, and performs administrative services for these accounts. This series of performance obligations transfers control of the services to the client over time as the services are performed. This revenue is recognized ratably over time to match the continued delivery of the performance obligations to the client over the life of the contract. The advisory revenue generated from the respective advisory platform is based on a percentage of the market value of the eligible assets in the clients' advisory accounts. As such, the consideration for this revenue is variable and an estimate of the variable consideration is constrained due to dependence on unpredictable market impacts on client portfolio values. The constraint is removed once the portfolio value can be determined. The Company provides advisory services to clients on its respective advisory platform through the advisor. The Company is the principal in these arrangements and recognizes advisory revenue on a gross basis, as the Company is responsible for satisfying the performance obligations and has control over determining the fees. Advisors assist the Company in performing its obligations. Fees are billed on a quarterly basis based on the account's value at the end of the quarter. Advance payments, if received, are deferred and recognized during the periods for which services are provided.

Distribution Fees

Mutual Funds, Insurance and Annuity Products

The Company earns revenue for selling mutual funds, fixed variable annuities and insurance products. The performance obligation is satisfied at the time of each individual sale. A portion of the revenue is based on a fixed rate applied, as a percentage, to the net asset value of the fund, or the value of the insurance policy or annuity contract. The ongoing revenue is not at the time of sale because it is variable constrained due to factors outside the Company's control including market volatility and client behavior (such as how long clients hold their investment, insurance policy or annuity contract).

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies, continued

Interest Income

The Company earns interest income from client margin accounts and cash equivalents, net of operating expense.

Income Taxes

The Partnership is a qualified subchapter S subsidiary. The Parent has been approved to pay federal income taxes with an S corporation election. The Partnership and its affiliates are included in the consolidated federal income tax return filed by the Parent. Income taxes are calculated and paid by the shareholders of the Parent. Therefore, no provision or liability for federal income taxes has been included in the financial statements.

The Partnership is subject to income taxes in the State of Texas and files a combined return with the Parent. The Partnership's federal and state income tax returns generally remain subject to examination by the Internal Revenue Service and state authorities for three to four years from the date the return is filed.

Note 2 Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Act of 1934, the Partnership is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2021, the Partnership had net capital of \$833,173 which was \$783,173 in excess of its net capital requirements of \$50,000. The Partnership's ratio of aggregate indebtedness to net capital was 12.89 to 1.

Note 3 Possession or Control Requirements

The Partnership does not have any possession or control of customer funds or securities. There were no material weaknesses in the procedures followed in adhering to the exemptive provision of SEC Rule 15c3-3(k)(2)(ii) by promptly transmitting all customer funds and securities to the clearing broker who carries the customer accounts. The Company is also considered a "Non-Covered Firm" under paragraph 74 of SEC Release 34-70073 by limiting its activities to those considered to be the activities of a "Non-covered Firm".

Note 4 Retirement Plan

The Partnership participates in the retirement plan (the "Plan") of a related company which covers substantially all employees. The Plan has a 401 (k) provision which allows employees with at least one year and 1,000 hours of service to make contributions. Employee contributions are matched up to 4% of participating compensation. Contributions exceeding 4% are at the discretion of the Plan sponsor. The Partnership made contributions of \$34,051 to the Plan for the year ended December 31, 2021.

Note 5 Related Party Transactions

The partnership has an expense sharing agreement with a related entity which covers rent, accounting services and equipment. The related party can affect the amount of these expenses to the Company.

Total	<u>\$ 44,196</u>

Note 6 Commitments and Contingencies

Included in the Partnership's clearing agreement with its clearing broker-dealer is an indemnification clause. This clause relates to instances where the Partnership's customers fail to settle security transactions. In the event this occurs, the Partnership will indemnify the clearing broker-dealer to the extent of the net loss on any unsettled trades. At December 31, 2021, management of the Partnership had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

Note 7 Concentration Risk

The Partnership has maintained balances in deposit accounts at a financial institution in excess of federally insured limits.

The Company (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers (other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of 17 C.F.R. § 240.15c2-4 and/or funds received and promptly transmitted for effecting transactions via subscriptions on a subscription-way basis where the funds are payable to the issuer or its agent and not to the Company); (2) did not carry accounts of or for customers; and (3) did not carry proprietary accounts of broker-dealers (as defined in 17 C.F.R. § 240.15c3-3), throughout the most recent fiscal year without exception.

The Company's management is responsible for its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions and that the Company's other business activities were limited to acting as a mutual fund retailer, acting as a broker or dealer selling variable life insurance or annuities, solicitor of time deposits in a financial institution and providing investment advisory services and (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers (other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of 17 C.F.R. § 240.15c2-4 and/or funds received and promptly transmitted for effecting transactions via subscriptions on a subscription-way basis where the funds are payable to the issuer or its agent and not to the Company); (2) did not carry accounts of or for customers; and (3) did not carry proprietary accounts of broker-dealers (as defined in 17 C.F.R. § 240.15c3-3) throughout the most recent fiscal year without exception. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in 17 C.F.R. § 240.15c3-3 and 17 C.F.R. § 240.17a-5.
