(An Exploration Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**1. Basis of Presentation**

The unaudited financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, as well as the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim financial statements have been included. Operating results for the three-month period ended March 31, 2008, are not necessarily indicative of the results that may be expected for the full year ending December 31, 2008.

For further information refer to the financial statements and footnotes thereto in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2007.

Net Loss Per Share

Statement of Financial Accounting Standards No. 128, "Earnings per Share," requires dual presentation of basic earnings per share ("EPS") and diluted EPS on the face of all income statements issued after December 15, 1997, for all entities with complex capital structures. Basic EPS is computed as net income divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options, warrants, and other convertible securities. For the periods ended March 31, 2008 and 2007, the effect of the Company's outstanding options and common stock equivalents would have been anti-dilutive. Accordingly, only basic EPS is presented. At March 31, 2008, the Company had 155,000 stock options outstanding, that if exercised would be dilutive in a future period if the Company reports net income.

**2. Description of Business**

Thunder Mountain Gold, Inc. ("Thunder Mountain" or "The Company") was originally incorporated under the laws of the State of Idaho on November 9, 1935, under the name of Montgomery Mines, Inc. In April 1978, the Montgomery Mines Corporation was obtained by a group of the Thunder Mountain property holders and changed its name to Thunder Mountain Gold, Inc.; with the primary goal to further develop their holdings in the Thunder Mountain Mining District, Valley County, Idaho. Thunder Mountain Gold, Inc., takes its name from the Thunder Mountain Mining District in Valley County, Idaho, where its principal lode mining claims were located. In recent years the Company's activities have been restricted to maintaining its property position and exploration activities. During 2005, the Company sold its holdings in Idaho, and continued its exploration activities. During 2007, the Company acquired the South Mountain Mines property in Southern Idaho.

**3. New Accounting Pronouncements**

Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities", which is effective for fiscal years beginning after November 15, 2007. The purpose of this statement is to permit entities to measure many financial instruments and certain other items at fair market value that are not currently required to be measured at fair market value. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The Company adopted SFAS 159, effective January 1, 2008. There was no impact to the Company's financial statements upon adoption.

(An Exploration Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**3. New Accounting Pronouncements – (Continued)**

In September 2006, the FASB issued SFAS 157, “Fair Value Measurements”, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The standard is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company adopted SFAS No. 157 for financial assets and liabilities effective January 1, 2008. There was no impact to the Company’s financial statements upon adoption.

In December 2007, the FASB issued SFAS 160, “Non-controlling Interests in Consolidated Financial Statements”, which is effective for fiscal years beginning after December 15, 2008. The Company is in the process of reviewing and evaluating SFAS 160, but does not believe that its adoption will have a material impact on the financial statements.

In December 2007, the FASB issued SFAS 141(R) “Business Combinations”, which is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is in the process of reviewing and evaluating SFAS 141(R), but does not believe that its adoption will have a material impact on the financial statements.

**4. Income Taxes**

The tax net operating loss for 2007 was carried back to 2005 and resulted in a current asset of income tax refunds receivable at December 31, 2007 and March 31, 2008 of \$194,581.

**5. Stockholders’ Equity**

On January 25, 2008, the Company changed the state of incorporation from Idaho to Nevada, changed the par value of common stock from \$0.05 to \$0.001 and increased the authorized shares to 200,000,000. The Company also authorized 5,000,000 shares of preferred stock with a par value of \$0.001. No preferred shares have been issued.

## **Item 2. Management's Discussion and Analysis or Plan of Operation**

*FORWARD LOOKING STATEMENTS: The above discussion may contain forward-looking statements that involve a number of risks and uncertainties. In addition to the factors discussed above, among other factors that could cause actual results to differ materially are the following: inability to locate property with mineralization, lack of financing for exploration efforts, competition to acquire mining properties; risks inherent in the mining industry, and risk factors that are listed in the Company's reports and registration statements filed with the Securities and Exchange Commission.*

*Management's discussion and analysis is intended to be read in conjunction with the Company's unaudited financial statements and the integral notes thereto for the quarter ending March 31, 2008. The following statements may be forward- looking in nature and actual results may differ materially.*

### **Plan of Operation:**

1. During the first quarter of 2008, Thunder Mountain Resources engaged Kleinfelder, an engineering and consulting group with an office in Boise, Idaho and with "43-101 Qualified" staff to formalize the compilation of historic data and provide a Technical Report that would, to the extent possible, validate the resource base estimated by South Mountain Mines during the 1980s. This work continued throughout most of the period ending March 31, 2008 with the final report due out around mid-May 2008.

Planning for the 2008 field season exploration work at South Mountain progressed during the period with the following initial plans having been developed:

- Up to 3,000 feet of core drilling will be initiated from the surface to intercept the down dip portions of the Texas and DMEA 2 zones.
  - The Sonneman portal will be opened and the 2,500 +/- feet of tunnel rehabilitated so that underground sampling and mapping can be completed. Underground drilling may also be completed. Reports from representatives of South Mountain Mines, Inc. have indicated that the workings should be in excellent shape and a majority of ventilation pipe and electrical equipment was left in place after the shut down in 1986.
  - Limited pre-feasibility work will commence and will, in part, evaluate the marketability of a concentrate from South Mountain. The work completed by South Mountain Mines, Inc. will be utilized to the extent applicable.
2. The Trout Creek lode claim group was modified to conform with a public land section that had private ownership of mineral rights. A total of 60 claims are now owned by the Thunder Mountain Resources, Inc. and, despite the modification to the layout, covers the better portion of the defined magnetic and gravity anomaly.
  3. Regional grassroots field work continued during the reporting period. Based on prior geologic knowledge of specific areas of Arizona, a number of areas were evaluated for their gold and/or copper potential. Based on the anomalous gold in some of the sample results from the geologic work, plus an evaluation of the land status, a decision was made to stake two separate areas. This work was completed during the first week in May 2008 with two groups of lode claims staked, one with 22 claims (440 acres) and the second with 19 claims (180 acres). Additional geologic mapping and sampling will be completed during 2008, and there is a high likelihood that additional claims may be staked as the target definition is refined.

4. A number of prospect submittals were submitted to the Company during the reporting period. They are in Oregon, Nevada and California, and will be evaluated once ground conditions allow access.
5. No additional work during the reporting period was done on Company's claims on the Tonopah, Nevada silver target, or the Clover Mountain claim block out of Grandview, Idaho.

#### Financial Condition and Liquidity:

The Company has not generated any revenues from its exploration activities and no revenues are anticipated unless and until economically viable mineralized material is defined on our properties.

As of the end of the first Quarter of 2008, the Company had a positive working capital of approximately \$521,715 and maintained its liquid assets in a Merrill Lynch tax-exempt cash management fund and in a Wells Fargo Bank account. This amount includes an anticipated federal and state tax refund receivable of \$194,581. The Company's cash and cash equivalents balance at March 31, 2008 of \$351,880 are considered adequate to meet its current and near-term corporate obligations.

At the end of the reporting quarter, the Company had no outstanding liabilities other than accounts payable of approximately \$31,705 for financial services, auditing and legal work.

In order to advance the exploration and potential development of the Company's South Mountain Project, a private placement will be undertaken in May 2008. A maximum of \$500,000 will be offered to accredited investors through Pennaluna and Company of Coeur d' Alene, Idaho, or directly through the Company. The funds received will be used primarily for drilling and underground access and sampling work at South Mountain, but some will be used to further the reconnaissance work in the western United States.

On March 24, 2008 the Board also approved the retention of Grandview Capital, Inc. to evaluate available financing alternatives and the strategic value of the Company. The agreement between the Company and Grandview Capital, Inc. is for a six-month period.

#### Capital Resources:

The Company owns outright the South Mountain Property in Owyhee County, Idaho that consists of 17 patented mining claims totaling approximately 326 acres. For financial reporting purposes, Management values the claims at \$357,497.

Company opened an office in the Boise area and purchased some used office furniture and equipment during the period ending March 31, 2008.

#### Results of Operations:

The Company had no production from operations or any revenue derived from operations during the first quarter 2008.

The Company had a strong financial position for the quarter ending March 31, 2008, and was therefore able to continue the regional exploration program described above.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There are no financial instruments that are sensitive to changes in interest rates or exposed to foreign currency exchange gains/losses.

### **Item 4T. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

At the end of the period covered by this report, an evaluation was carried out under the supervision of, and with the participation of, the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a – 15(e) and Rule 15d – 15(e) of the Securities and Exchange Act of 1934, as amended). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures were adequately designed and effective in ensuring that information required to be disclosed by the Company in its reports that it files or submits to the SEC under the Exchange Act, is recorded, processed, summarized and reported within the time period specified in applicable rules and forms.

Our Chief Executive Officer and Chief Financial Officer have also determined that the disclosure controls and procedures are effective to ensure that material information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow for accurate required disclosure to be made on a timely basis.

#### **Changes in internal controls over financial reporting**

During the period covered by this report, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **ITEM II. – OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

The Company is not a party to any pending legal proceedings.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

There were no sales of Company securities during the three months ended March 31, 2008.

### **Item 3. Defaults Upon Senior Securities.**

None.

#### **Item 4. Submission of Matters to a Vote of Security Holders**

On January 25, 2008, the shareholders approved the merger of Thunder Mountain Gold, Inc. (Idaho) with Thunder Mountain Gold, Inc. (Nevada), previously incorporated on December 10, 2007, in the State in Nevada. The terms of the merger were such that the Nevada Corporation was the surviving entity. Of the 11,129,327 shares as of December 21, 2007, the date of record, a total of 6,580,350 shares were represented at the meeting. A total of 6,564,825 (58.96%) approved of the merger, 16,425 (0.15%) voted against the merger, and 7,600 (0.07%) abstained. This exceeded the required 50% + shareholder approval for passage.

I, E. James Collord, certify that:

- (1) I have reviewed this quarterly report on Form 10-Q of Thunder Mountain Gold Inc.
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
- (4) The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles; and,
  - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- (5) The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
