NEUBERGER BERMAN BD LLC

Notes to Financial Statements

December 31, 2020

(Dollars in thousands, except where noted)

(1) Organization and Description of Business

Neuberger Berman BD LLC, a Delaware limited liability company (NBBD LLC or the Company), is an indirect wholly owned subsidiary of Neuberger Berman Group LLC, a Delaware limited liability company (NB Group), which is a majority owned subsidiary of NBSH Acquisition, LLC, a Delaware limited liability company (NBSH). Neuberger Berman Investment Advisers LLC (NBIA) is the sole member of the Company. NBBD LLC is a registered broker-dealer and registered investment adviser with the Securities and Exchange Commission and a registered introducing broker with the National Futures Association.

NBBD LLC is engaged principally in providing distribution services to registered mutual funds that are part of the Neuberger Berman mutual funds complex (Mutual Funds), acting as broker to certain clients as a placement agent for the sale of certain funds managed by affiliated companies. The Company also introduces certain NBIA clients' securities transactions on a fully disclosed basis through National Financial Services LLC (NFS) for execution and settlement. NFS also serves as custodian for certain of NBIA's clients.

(2) Significant Accounting Policies

(a) *Basis of Presentation*

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as set forth in the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC). The preparation of the financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates and assumptions are based on the best available information, actual results could differ from those estimates.

(b) *Cash and Cash Equivalents*

Cash and cash equivalents consist of cash held at Citibank, N.A. and other liquid investments that are payable on demand. At December 31, 2020, the Company held money market mutual fund investments of \$12.5 million and \$0.1 million as cash with Citibank, N.A.

(c) *Segregated Cash*

At December 31, 2020, cash of \$0.1 million was segregated in a special reserve bank account for the exclusive benefit of customers. Such amounts are not available for the creditors of the Company.

Notes to Financial Statements

(Dollars in thousands, except where noted)

(d) ***Investments***

Investments held by the Company are carried at market or fair value, with realized and unrealized gains and losses recognized in the statement of income. Investments in money market funds are valued using the year end quoted net asset value per share.

(e) ***Fair Value of Investments***

The Company follows GAAP with respect to fair value measurements, which among other things, requires enhanced disclosure about investments that are measured and reported at fair value. Fair value of a financial instrument is the amount at which the Company believes the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

GAAP establishes a hierarchal disclosure framework, which prioritizes and ranks the level of market price observability used in measuring financial instruments at fair value. In accordance with GAAP, investments measured and reported at fair value are classified and disclosed based on the observability of inputs used in the determination of fair values in one of the following categories:

Level 1 – Quoted prices are available in active markets for identical investments as of the reporting date. The types of investments included in Level 1 are, among other things, money market funds and listed equities. As required by GAAP, the Company does not adjust the quoted price for these investments, even in situations where the Company holds a large position and the sale of such position would likely deviate from the quoted price.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include fixed income securities.

Level 3 – Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs used in the determination of fair value require significant management judgment or estimation. Shares in privately held companies and certain loans and bonds are examples of investments that would be included in this category.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input used to determine the fair value measurement in its entirety requires judgment and includes factors specific to the investment.

NEUBERGER BERMAN BD LLC

Notes to Financial Statements

December 31, 2020

(Dollars in thousands, except where noted)

(f) *Securities Transactions*

Securities transactions are recorded on a trade date basis. Securities owned and securities sold, not yet purchased are valued at fair value.

(g) *Revenue Recognition*

Distribution Revenue and Distribution Fees

Distribution revenues consist of fees paid to NBBD LLC from Mutual Funds for the costs of marketing and selling fund shares and are generally determined as a percentage of funds' assets. These revenues accrue daily and are recorded at month end. When NBBD LLC enters into third-party distribution arrangements and marketing support arrangements with third party broker-dealers to sell or market Mutual Funds, distribution fees are accrued for the amounts owed. As the Company is acting in a principal capacity in these transactions, the revenues and expenses are recorded on a gross basis.

Commissions

Brokerage commission revenues are related to securities transactions introduced on behalf of NBIA clients to the Company's clearing firm, NFS. Brokerage commissions for trade execution services and related expenses are recorded on a trade-date basis when the performance obligations are satisfied. Generally, the transaction price is agreed upon at the point of each trade and based upon the number of shares traded or the value of the consideration traded.

Other Income

Other income includes the following:

Dividends and interest income.

Dividends and interest income is accrued as earned.

Net Realized and Unrealized Gains and Losses From Investment Activities

Investment gains and losses include unrealized gains and losses on investments held at fair value and realized gains and losses on investments sold.

(h) *Income Taxes*

The Company is a single member LLC wholly owned by NBIA, which is a partnership subject to New York City Unincorporated Business Tax ("NYC UBT"). The Company is disregarded for income tax purposes and, instead, any NYC UBT income tax amounts are solely those of NBIA. The Company has early adopted ASU 2019-12 'Simplifying the Accounting for Income Taxes' and as such is no longer required to include a tax provision on a proforma basis in its financial statements.

NEUBERGER BERMAN BD LLC

Notes to Financial Statements

December 31, 2020

(Dollars in thousands, except where noted)

(i) *Expenses*

The Company incurs distribution fees for services provided by third parties which are recognized as an expense when incurred and are included in distribution fee expense. The Company incurs brokerage and clearing fees in its capacity as an introducing broker which are expensed as they are incurred. All other operating costs are accounted for as they are incurred.

(j) *Adoption of New Accounting Standard*

The Company adopted FASB ASC 326-20, *Financial Instruments – Credit Losses*. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. The effects of adoption of the new accounting standard were immaterial to the Company.

(3) **Fair Value Measurements**

Financial assets and financial liabilities measured at fair value on a recurring basis using the fair value hierarchy levels at December 31, 2020 were as follows:

| | December 31, 2020 | | | |
|-------------------|-------------------|----------|----------|------------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Financial Assets: | | | | |
| Cash equivalents | \$ 12,500 | - | - | \$ 12,500 |
| Foreign equities | 1,375 | - | - | 1,375 |
| U.S. equities | 42 | - | - | 42 |
| | <u>\$ 13,917</u> | <u>-</u> | <u>-</u> | <u>\$ 13,917</u> |

The following is a description of the valuation methodologies used for NBBD LLC investments measured at fair value on a recurring basis, as well as the general classification of those investments pursuant to the valuation hierarchy:

Cash equivalents – Cash equivalents consist of excess cash invested in various money market mutual funds that are valued based on published net asset values and are included in Level 1 of the valuation hierarchy.

Equities – Equity investments include both U.S. and foreign equity securities. Equity securities generally are valued using unadjusted quoted market prices and are included in Level 1 of the valuation hierarchy.

(4) Related Party Transactions

Investments include \$1.4 million invested in sponsored strategies at December 31, 2020, and included on the statement of income is approximately \$46 thousand of net realized and unrealized gains from investment activities in various sponsored strategies.

The Company has entered into an agreement where it sells certain distribution fees receivable to NBIA, without recourse to the Company. The distribution fees receivable are sold at carrying value and in 2020, the Company sold \$15.8 million of distribution fees receivable to NBIA.

During 2020, the Company was allocated \$0.1 million of expense for its office space, and provided and received a variety of services to and from related parties, which were primarily NB Group and NBIA. The Company clears certain of NBIA clients' securities transactions on a fully disclosed basis through National Financial Services LLC. Under a remuneration agreement between the Company and NBIA, costs incurred in performing these services in excess of commission revenues generated are charged back to NBIA under the terms stipulated in the agreement. The Company was allocated \$18.9 million in compensation expense by NBIA which is reflected as Intercompany expense on the statement of income. For 2020, NBBD LLC charged NBIA \$31.6 million under the agreement which is reflected as Intercompany revenue on the statement of income. The Company also reimburses NB Group for various expenses paid on its behalf. At December 31, 2020, the Company owed NB Group \$0.5 million which is reflected on the statement of financial condition under "Due to affiliates".

The Company, as a single member LLC, is a disregarded entity for tax purposes. The Company is wholly owned by NBIA, which is a partnership subject to New York City unincorporated business tax ("NYC UBT"). The Company is not itself a taxpayer nor is it considered an entity for NYC UBT purposes. Instead, any NYC UBT is accrued and paid by NBIA.

(5) Commitments and Contingencies

Litigation and Contingencies

From time to time, NBBD LLC is involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its business. NBBD LLC recognizes liabilities for contingencies when there is an exposure that, when analyzed, indicates it is both probable that a liability will be incurred and the amount of such liability can be reasonably estimated. When a range of probable liability can be estimated, NBBD LLC accrues the amount it has determined it is most likely to incur. If the amount is not determinable, NBBD LLC accrues the minimum of the range of probable loss. The Company's management believes, based on currently available information, advice of counsel, and established reserves, that the eventual outcome of such proceedings, in the aggregate, will not have a material adverse effect on NBBD LLC's financial condition, results of operations or liquidity.

(6) Capital Requirements

As a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc., NBBD LLC is subject to the Securities Exchange Commission's (SEC) Uniform Net Capital Rule 15c3-1. NBBD LLC is also a member of the National Futures Association and is subject to the Commodity Futures Trading Commission's (CFTC) Rule 1.17.

Under these rules, the Company is required to maintain minimum net capital, as defined, of not less than the greater of; a) 2% of aggregate debit items arising from customer transactions; b) \$45 under CFTC Rule 1.17, or c) \$250 under SEC Rule 15c3-1. As of December 31, 2020, NBBD LLC had net capital of approximately \$7.6 million, which exceeded the minimum net capital requirement by approximately \$7.3 million. Based on applicable regulatory requirements, the Company may not withdraw equity capital if its net capital falls below certain specified levels, as defined.

(7) Subsequent Events

The Company's management has evaluated events occurring after the date of the financial statements (subsequent events) through the date the financial statements were available to be issued. All subsequent events requiring recognition have been incorporated into these financial statements.

The Company is monitoring the ongoing developments related to COVID-19 with a particular focus on two areas: the safety and health of its employees, and the ability to continue to conduct effectively its business operations. The Company currently has not experienced an adverse impact on its operating model, but acknowledges it is too difficult to predict the full extent of the current outbreak. The Company will continue to monitor the developments of the pandemic and adapt the Company's operations and processes as necessary.

Report of Independent Registered Public Accounting Firm

To the Member and Management
Neuberger Berman BD LLC:

We have reviewed management's statements, included in the accompanying Neuberger Berman BD LLC Exemption Report (the Exemption Report), in which Neuberger Berman BD LLC (the Company) identified the following provision of 17 C.F.R. § 240.15c3-3(k)(2) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3(k): (2)(ii), and is filing the exemption report pursuant to footnote 74 of SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 because the Company's other business activities are limited to participating in distributions of securities and the Company (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers; (2) did not carry accounts of or for customers; and (3) did not carry PAB accounts (as defined in Rule 15c3-3) (together, the exemption provisions). We have also reviewed management's statements, included in the Exemption Report, in which the Company stated that it met the identified exemption provisions throughout the year ended December 31, 2020 without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934 and pursuant to footnote 74 of SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5.
