1. We read your response to prior comment four, and that you believe it is appropriate to include ad valorem and production taxes in your determination of average production cost by unit of production (MBOE). However, Item 1204(b)(2) of Regulation S-K prohibits the inclusion of ad valorem and severance taxes in average production cost per unit of production. Accordingly, please revise your disclosure to fully comply with this requirement.

2. We note your January 7, 2011 response to our December 1, 2010 comment six wherein you state that you do not have the requested technical evidence for the disclosed gas flow rate projections. It is not appropriate to provide quotations from any party's news releases in documents that you file with us. You are responsible for the material that you include in your filing and must be able to support statements that are included in your filing. Please remove this and any similar unsupported disclosure.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.
