## Item 2.02 Results of Operations and Financial Condition

On April 22, 2008, Raymond James Financial, Inc. issued a press release disclosing second quarter results for the period ended March 31, 2008. A copy of the release is attached hereto as Exhibit 99.1 and incorporated by reference herein. The press release includes instructions as to how and when to access the Company's complementary quarterly conference call that will be available to all interested persons telephonically and by webcast through the Company's website.

The information furnished herein, including Exhibit 99.1, is not deemed to be "filed" for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section. This information will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates them by reference.

## Item 7.01 Regulation FD Disclosure

On April 22, 2008, the Company issued the press release referred to under Item 2.02 providing previously non-public information consisting of forward-looking statements relating to the Company's business and results of operations.

## Item 9.01 Financial Statements and Exhibits

(d) The following are filed as exhibits to this report:

### Exhibit No.

99.1 Press release dated April 22, 2008 issued by Raymond James Financial, Inc.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: April 22, 2008

April 22, 2008

FOR IMMEDIATE RELEASE

## RAYMOND JAMES FINANCIAL, INC. ANNOUNCES SECOND QUARTER RESULTS

ST. PETERSBURG, Fla. – Raymond James Financial, Inc. today reported a slight increase over the prior year's quarterly net income to \$59,790,000, or \$0.50 per diluted share, for the second quarter ended March 31, 2008. In comparison, the firm earned \$59,715,000, or \$0.50 per diluted share, for 2007's second quarter. Net revenues increased 11 percent to \$691,687,000, while gross revenues grew 9 percent to \$807,134,000.

Net income for the first half of fiscal 2008 was reported at \$116,032,000, down 3 percent from 2007's \$119,110,000, while net revenues increased 12 percent to \$1,377,514,000 from \$1,229,619,000 the previous year. Diluted earnings per share were \$0.97, down from \$1.00 per diluted share for last year's comparable period.

"In light of the well-documented problems suffered by the financial services industry, I'm pleased with the results recorded by Raymond James in the March quarter and the first six months of fiscal year 2008," stated Chairman and CEO Thomas A. James. "In the second quarter, gross revenues of \$807 million increased 9 percent while net revenues grew 11 percent to a record \$692 million. Unfortunately, non-interest expenses grew at a somewhat faster rate of 13 percent. This uncharacteristic differential resulted from depressed revenues from some segments as well as increases in the occupancy and "other" expenses categories. Occupancy costs included approximately \$1.2 million in lease expenses related to prior periods. The 'other' expense category continued to be inflated by additions to reserves for potential losses which were generated by additional investment in loans, rather than charge-offs.

"Nonetheless, net income of \$59.8 million was flat with last year's second quarter, in spite of the relatively light calendar in Equity Capital Markets and unfavorable trading results in Fixed Income occasioned by more erratic and volatile price movements. Both of those departments experienced dramatically higher volume of over-the-desk institutional commissions, which augmented the Capital Markets' overall results. Less turbulent markets will be a necessary ingredient to re-ignite new issue and merger and acquisition revenues.

"While net interest income grew impressively from last year's levels, principally as a result of much larger loan balances at Raymond James Bank, the contribution to net interest income would have been even better if margins had not been depressed by the continuing pressure of lowering overnight rates by the Federal Reserve Board, which reduced our normal margins. Of course, Raymond James Bank's reported profits were also dampened by the formulaic additions to reserves in excess of charge offs and before any earnings were generated by the growth in loan balances. Both of these factors should have less impact in future quarters as overnight rates near a bottom and the planned growth rate of Raymond James Bank slows. To preempt the inevitable question related to credit quality, while absolute losses will increase somewhat in the near term related to fall-out from the sub-prime crisis and economic slowdown, we expect our reserves for losses at 1.24 percent of loan balances to be adequate to subsume any actual future losses relating to current market conditions," James continued.

"Our Private Client Group performed admirably during the quarter as PCG segment revenues increased 5 percent and pre-tax income slightly exceeded last year's second quarter results. Our PCG financial advisor count is up 105 from last March's total and recruiting momentum is excellent. In addition, average productivity per financial advisor is continuing to rise, which contrasts markedly to what would be expected in this environment.

"Operating results weren't quite as good as they appear because the quarterly mark to market of option and stock plan values for independent contractor financial advisors actually reduced compensation expense by \$6 million as contrasted to the normal additions to expense when our stock price increases. This accounting treatment of certain equity compensation expense is arcane and only obfuscates operating results.

"Although our results are a pleasant relief from the incessant flurry of write-offs and negative earnings comparisons reported by a number of larger financial services companies, I'm frustrated by the fact that our results and those of many other conservatively managed financial institutions have been impacted negatively by fallout from inadequate underwriting standards and other lax management policies as well as a lack of regulatory oversight, ill-derived ratings and unregulated mortgage practices. Of course, this plague has infected many other companies and individuals as well. I pray that these very expensive lessons will serve to improve performance and to result in better regulatory and privately implemented management controls in the future. On the other hand, any changes imposed by regulators or legislators must be far more thoughtful than those imposed by Congress following the Enron scandal, i.e., Sarbanes Oxley, to avoid punishing the innocent and causing more harm than good.

"Although the damage to the financial services industry is not yet over, I believe that the worst is behind us. I don't mean to suggest that the economy might not still suffer from a slowdown or that real estate prices, which were very inflated, will immediately start to increase. As another example of a challenge, our clients own \$1.9 billion in auction rate securities, almost all of which are illiquid as the auction process has failed in spite of generally excellent collateral and 20 years of good performance. This issue is beginning to be resolved through refinancing and I expect most of the issues to be rectified in the next six months. What I do mean, more importantly, is that the financial system is beginning to heal and that uncertainty and fear will diminish. Raymond James Financial will emerge relatively stronger than ever.

"As a consequence of these unusual times, I have expanded my comments and the financial information provided in this press release. I hope that it is helpful," James concluded.

The company will conduct its quarterly conference call Wednesday, April 23, at 8:15 a.m. EDT. The telephone number is 877-777-1971. The call will also be available on demand on the company's website, [raymondjames.com](http://raymondjames.com), under "About Our Company," "Investor Relations," "Financial Reports," "[Quarterly Analyst Conference Call](#)." The subjects to be covered may also include forward-looking information. Questions may be posed to management by participants on the call, and in response the company may disclose additional material information.

Raymond James Financial (NYSE-RJF) is a Florida-based diversified holding company providing financial services to individuals, corporations and municipalities through its subsidiary companies. Its three wholly owned broker/dealers, (Raymond James & Associates, Raymond James Financial Services and Raymond James Ltd.) and Raymond James Investment Services Limited, a majority-owned independent contractor subsidiary in the United Kingdom, have a total of more than 4,850 financial advisors serving approximately 1.7 million accounts in more than 2,200 locations throughout the United States, Canada and overseas. In addition, total client assets are approximately \$209 billion, of which \$35.4 billion are managed by the firm's asset management subsidiaries.

To the extent that Raymond James makes or publishes forward-looking statements (regarding economic conditions, management expectations, strategic objectives, business prospects, anticipated expense savings, loan reserves/losses, financial results, anticipated results of litigation and regulatory proceedings, and other similar matters), a variety of factors, many of which are beyond Raymond James' control, could cause actual results and experiences to differ materially from the expectations and objectives expressed in these statements. These factors are described in Raymond James' 2007 annual report on Form 10-K, which is available on [raymondjames.com](http://raymondjames.com) and [sec.gov](http://sec.gov).

**RAYMOND JAMES BANK**  
Supplemental Information

Raymond James Bank, FSB ("RJBANK") is a federally chartered savings bank, regulated by the Office of Thrift Supervision, which provides residential, consumer and commercial loans, as well as FDIC-insured deposit accounts, to clients of the Raymond James Financial, Inc. ("RJF") broker-dealer subsidiaries and to the general public. RJBANK also purchases residential whole loan packages and is active in bank participations and corporate loan syndications. RJBANK operates from a single branch location adjacent to the Raymond James headquarters complex in St. Petersburg, Florida. RJBANK's deposits consist predominately of cash balances swept from the client investment accounts carried by Raymond James & Associates, Inc. in the Raymond James Bank Deposit Program ("RJBDP"). In all periods presented, RJBANK was categorized as "well capitalized" under the bank regulatory framework.

**Corporate Loan Portfolio**

RJBANK's corporate loan portfolio is comprised of project finance real estate loans and commercial lines of credit and term loans. The majority of these loans are participations in shared national credits agent by approximately 30 different financial institutions with whom RJBANK has a relationship. RJBANK is sometimes involved in the initial syndication of the loan at inception and some of these loans have been purchased in secondary trading markets. Regardless of the source, all loans are independently underwritten to RJBANK credit policies, are subject to loan committee approval, and credit quality is continually monitored by corporate lending staff. Approximately one-third of the corporate borrowers have a capital markets relationship with Raymond James. More than half of RJBANK's corporate borrowers are public companies and nearly two-thirds have annual EBITDA greater than \$50 million. RJBANK's corporate loans are generally secured by all assets of the borrower and in some instances are secured by mortgages on specific real estate. In a limited number of transactions, loans in the portfolio are extended on an unsecured basis to very creditworthy borrowers. There are no subordinated loans or mezzanine financings in the corporate loan portfolio.

**Residential Loan Portfolio**

RJBANK's residential loan portfolio consists primarily of first mortgage loans originated by RJBANK via referrals from RJF Private Client Group financial advisors, and first mortgage loans purchased by RJBANK originated by select large financial institutions. These purchased mortgage loans represent over 90 percent of RJBANK's residential portfolio. All of RJBANK's residential loans adhere to strict underwriting parameters pertaining to credit score and credit history, debt-to-income ratio of the borrower, loan-to-value ("LTV"), and combined LTV (including second mortgage/home equity loans). On average, three-fourths of the purchased residential loans are re-underwritten with new credit information and valuations, if warranted, by RJBANK staff prior to purchase, with the remainder coming from long-standing sources and meeting extremely high credit criteria. Approximately 90 percent of the residential loans are fully documented loans to owner-occupant borrowers. More than three-fourths of RJBANK's residential loan portfolio are adjustable rate mortgage ("ARM") loans with interest-only payments based on a fixed rate for an initial period of the loan, typically three to five years, then become fully amortizing, subject to annual and lifetime interest rate caps. RJBANK does not originate or purchase option ARM loans with negative amortization, reverse mortgages, or other types of exotic loan products. Loans with deeply discounted teaser rates are not originated or purchased. Adjustable mortgage rate resets in the next six months are expected to be to rates similar to or lower than the current loan rates. RJBANK has a long history with these types of loans. Originated 15 or 30-year fixed rate mortgages are typically sold to correspondents and only retained on an exception basis. All of RJBANK's first mortgage loans are serviced by the seller or by third party professional firms.

**Investments and Securities Purchased Under Agreement to Resell**

RJBANK's investment portfolio consists of mortgage backed securities, Federal Home Loan Bank stock and a very small Community Reinvestment Act investment. About 40 percent of the portfolio is invested in relatively short average-life floating rate securities issued by Ginnie Mae, Fannie Mae or Freddie Mac. Other than approximately \$10 million invested in securities rated less than "AAA," the remainder of the mortgage backed securities portfolio is comprised of "AAA" rated non-agency residential mortgage backed securities. These securities were purchased based on the underlying loan characteristics such as LTV ratio, credit scores, property type, location and the current level of credit enhancement. Current characteristics of each security owned such as delinquency and foreclosure levels, credit enhancement, projected losses and coverage are reviewed monthly by management.

All mortgage backed securities are classified as available for sale and, although many securities were sharply lower in market value due to ongoing market disruptions that resulted in an aggregate pre-tax unrealized loss of \$61.8 million, these securities were not considered to be other-than-temporarily impaired as of March 31, 2008. This is based on RJBANK's evaluation of the performance and underlying characteristics of the securities including the low levels of current and estimated credit losses relative to the level of credit enhancement, and RJBANK's consideration of its intent and ability to hold the securities for a period of time sufficient to allow for the anticipated recovery in the market value of the securities.

RJBANK manages its cash position primarily through overnight investments in repurchase agreements with the collateral held by a third party custodian. Collateral for these repurchase agreements consists of agency-issued mortgage backed securities. Collateral backing these agreements is required to be a minimum of 102 percent of the principal amount.
