Parkway Properties, Inc.
Notes to Consolidated Financial Statements (Unaudited)
June 30, 2007

(1) Basis of Presentation

The consolidated financial statements include the accounts of Parkway Properties, Inc. ("Parkway" or "the Company"), its wholly-owned subsidiaries and joint ventures in which the Company has a controlling interest. Third party equity interests in the consolidated joint ventures are reflected as minority interests in the consolidated financial statements. Parkway also consolidates subsidiaries where the entity is a variable interest entity and Parkway is the primary beneficiary, as defined in FASB Interpretation 46R, *Consolidation of Variable Interest Entities* ("FIN 46R"). All significant intercompany transactions and accounts have been eliminated in the accompanying financial statements.

The Company determines consolidation for joint ventures based on standards set forth in EITF 96-16, *Investor's Accounting for an Investee When the Investor Has a Majority of the Voting Interest but the Minority Shareholder or Shareholders Have Certain Approval or Veto Rights*; EITF 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*; Statement of Position 78-9, *Accounting for Investments in Real Estate Ventures*; and FIN 46R. Based on the guidance set forth in these pronouncements, the Company consolidates certain joint ventures where it exercises significant control over major operating and management decisions, or where the Company is the sole general partner and the limited partners do not possess kick-out rights or other substantive participating rights or where the entity is a variable interest entity and Parkway is the primary beneficiary. The equity method of accounting is used for those joint ventures that do not meet the criteria for consolidation under these pronouncements.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

The accompanying financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature. Operating results for the three months and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007. The financial statements should be read in conjunction with the annual report and the notes thereto.

The balance sheet at December 31, 2006 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

On January 1, 2007, the Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109* ("FIN 48"). FIN 48 clarifies the accounting for uncertain income tax positions recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company has evaluated its tax positions and found that the adoption of FIN 48 did not have a material impact on income from continuing operations, net income, cash flow from operations, cash flow from financing activities or basic and diluted earnings per share.

(2) Net Income Per Common Share

Basic earnings per share (“EPS”) are computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. In arriving at income available to common stockholders, preferred stock dividends are deducted. Diluted EPS reflects the potential dilution that could occur if share equivalents such as employee stock options, restricted shares, deferred incentive share units, warrants and 8.34% Series B cumulative convertible preferred stock were exercised or converted into common stock that then shared in the earnings of Parkway.

The computation of diluted EPS is as follows (in thousands, except per share data):

	Three Months Ended June 30		Six Months Ended June 30	
	2007	2006	2007	2006
Numerator:				
Basic and diluted net income available to common stockholders	\$ 18,040	\$ 17,373	\$ 17,268	\$ 17,327
Dividends on convertible preferred stock	-	586	-	-
	<u>\$ 18,040</u>	<u>\$ 17,959</u>	<u>\$ 17,268</u>	<u>\$ 17,327</u>
Denominator:				
Basic weighted average shares	15,672	14,036	15,644	14,042
Dilutive effect of share equivalents	175	161	187	172
Dilutive effect of convertible preferred stock	-	803	-	-
Dilutive weighted average shares	<u>15,847</u>	<u>15,000</u>	<u>15,831</u>	<u>14,214</u>
Diluted earnings per share	<u>\$ 1.14</u>	<u>\$ 1.20</u>	<u>\$ 1.09</u>	<u>\$ 1.22</u>

The computation of diluted EPS for the six months ended June 30, 2006 did not assume the conversion of the 8.34% Series B cumulative preferred stock because their inclusion would have been anti-dilutive.

(3) Supplemental Cash Flow Information and Schedule of Non-Cash Investing and Financing Activity

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

	Six Months Ended June 30	
	2007	2006
	(in thousands)	
Supplemental cash flow information:		
Cash paid for interest	\$ 26,260	\$ 17,874
Income taxes paid (refunded)	30	(8)
Supplemental schedule of non-cash investing and financing activity:		
Shares issued in lieu of Directors’ fees	251	170

(4) Acquisitions and Dispositions

On June 14, 2007, the discretionary fund (“the Fund”) with Ohio Public Employee Retirement System (“Ohio PERS”), of which Parkway owns 25%, purchased for \$46.5 million 1401 Enclave Parkway, a 209,000 square foot six-story office building in Houston, Texas. The Fund expects to spend \$346,000 for closing costs, building improvements, leasing costs and tenant improvements during the first two years of ownership. The purchase was funded with a \$28 million first mortgage placement by the Fund and with equity contributions from the partners. Since Parkway is the sole general partner and has the authority to make major decisions on behalf of the Fund, thereby giving Parkway a controlling interest, Parkway has included the Fund in its consolidated financial statements.

On June 29, 2007, the Company sold two office properties, First Tennessee Plaza and Cedar Ridge, totaling 549,000 square feet located in Knoxville, Tennessee for a gross sales price of \$59 million. The Company received net cash proceeds from the sale of \$56.8 million and the proceeds were used to prepay the \$7.4 million first mortgage secured by First Tennessee Plaza and to reduce amounts outstanding under the Company's bank lines of credit. Parkway recorded a gain on the sale for financial reporting purposes of \$20.3 million and expenses related to the prepayment of the mortgage of \$494,000 in the second quarter of 2007. Parkway Realty Services LLC was retained to provide management services for the properties under a five-year agreement. Therefore, all revenue and expense for these properties are included as a component of continuing operations.

(5) Office Property Development

On February 28, 2007, the Company purchased 2.5 acres of land in Jackson, Mississippi for \$1.8 million. This land was purchased as part of the Company's plan to develop the 194,000 square foot Class A+ office building known as The Pinnacle at Jackson Place ("The Pinnacle"), adjacent to the Company's headquarters building. The estimated cost of the development is \$48.5 million with expected completion in the fall of 2008. The Company has received commitments to lease approximately 72% of the new office space from four major customers. Parkway will be seeking partners for an 80% ownership interest in the development. The development is designed to utilize benefits available under the Gulf Opportunity Zone Act for new developments in areas affected by Hurricane Katrina. During the six months ending June 30, 2007, the Company incurred \$3.8 million in development costs for The Pinnacle.

(6) Discontinued Operations

All current and prior period income from the following office property dispositions are included in discontinued operations for the six months ended June 30, 2007 and 2006 (in thousands).

Office Property	Location	Square Feet	Date of Sale	Gross Sales Price	Net Book Value of Real Estate	Gain (Loss) on Sale
The Park on Camelback	Phoenix, Arizona	102	09/09/05	\$ 17,500	\$ 12,526	\$ 4,419
250 Commonwealth	Greenville, South Carolina	46	09/14/05	4,020	4,104	(238)
2005 Dispositions		<u>148</u>		<u>\$ 21,520</u>	<u>\$ 16,630</u>	<u>\$ 4,181</u>
Central Station Building	St. Petersburg, Florida	133	08/02/06	\$ 15,000	\$ 14,338	\$ 211
Richmond Centre	Houston, Texas	92	11/29/06	6,906	4,551	2,018
Ashford II	Houston, Texas	59	12/07/06	5,250	2,185	2,854
2006 Dispositions		<u>284</u>		<u>\$ 27,156</u>	<u>\$ 21,074</u>	<u>\$ 5,083</u>

The amount of revenue and expense for these five office properties reported in discontinued operations for the three months and six months ended June 30, 2007 and 2006 is as follows (in thousands):

	Three Months Ended June 30		Six Months Ended June 30	
	2007	2006	2007	2006
Income Statement:				
Revenues				
Income from office and parking properties	\$ 50	\$ 1,022	\$ 51	\$ 2,058
	<u>50</u>	<u>1,022</u>	<u>51</u>	<u>2,058</u>
Expenses				
Property operating expense	-	465	(27)	989
Depreciation and amortization	1	213	1	413
	<u>1</u>	<u>678</u>	<u>(26)</u>	<u>1,402</u>
Income from discontinued operations	<u>\$ 49</u>	<u>\$ 344</u>	<u>\$ 77</u>	<u>\$ 656</u>

(7) **Investment in Unconsolidated Joint Ventures**

As of June 30, 2007, the Company was invested in four unconsolidated joint ventures with unrelated investors. These joint ventures are accounted for using the equity method of accounting, as Parkway does not control, but has the ability to significantly influence the operations of the joint ventures and is not the primary beneficiary, as that term is defined in FIN 46R. As a result, the assets and liabilities of the joint ventures are not included in Parkway's consolidated balance sheet. Information relating to the unconsolidated joint ventures at June 30, 2007 is detailed below (in thousands).

Joint Ventures	Property Name	Location	Parkway's Ownership Interest	Square Feet	Percentage Leased
Wink-Parkway Partnership	Wink Building	New Orleans, LA	50.0%	32	100.0%
Parkway Joint Venture, LLC ("Jackson JV")	UBS Building/River Oaks	Jackson, MS	20.0%	167	81.1%
RubiconPark I, LLC ("Rubicon JV")	Lakewood/Falls Pointe	Atlanta, GA	20.0%	551	98.5%
	Carmel Crossing	Charlotte, NC

Cash distributions from unconsolidated joint ventures are made to each partner based on their percentage of ownership in each entity. Cash distributions made to partners in joint ventures where the percentage of debt assumed is disproportionate to the ownership percentage in the venture is distributed based on each partner's share of cash available for distribution before debt service, based on their ownership percentage, less the partner's share of debt service based on the percentage of debt assumed by each partner.

Parkway provides management, construction and leasing services for all of the unconsolidated joint ventures except for the Wink-Parkway Partnership, and receives market based fees for these services. The portion of fees earned on unconsolidated joint ventures attributable to Parkway's ownership interest is eliminated in consolidation.

Balance sheet information for the unconsolidated joint ventures is summarized below as of June 30, 2007 and December 31, 2006 (in thousands):

(a) The mortgage debt, all of which is non-recourse, is collateralized by the individual real estate properties within each venture.

In most cases the Company's share of debt related to its unconsolidated joint ventures is the same as its ownership percentage in the venture. However, in the case of the Rubicon Joint Venture and Maitland Joint Venture, the Company's share of debt is disproportionate to its ownership percentage. The disproportionate debt structure was created to meet the Company's partner's financing criteria. In the Rubicon Joint Venture, Parkway owns a 20% interest in the venture but assumed 13.85% of the debt. In the Maitland Joint Venture, the Company owns a 20% interest in the venture and assumed none of the debt. The terms related to Parkway's share of unconsolidated joint venture mortgage debt are summarized below (in thousands):

Joint Venture	Type of Debt Service	Interest Rate	Maturity	Parkway's Share of Debt	Monthly Debt Service	Loan Balance 06/30/07	Loan Balance 12/31/06
Wink-Parkway Partnership	Amortizing	8.625%	07/01/09	50.00%	\$ 5	\$ 113	\$ 137
Maitland JV	Amortizing	4.390%	06/01/11	0.00%	-	-	-
Rubicon JV	Interest Only	4.865%	01/01/12	13.85%	30	7,200	7,200
Jackson JV	Interest Only	5.840%	07/01/15	20.00%	12	2,520	2,520
					<u>\$ 47</u>	<u>\$ 9,833</u>	<u>\$ 9,857</u>
Weighted average interest rate at end of period						<u>5.158%</u>	<u>5.167%</u>

The following table presents Parkway's proportionate share of principal payments due for mortgage debt in unconsolidated joint ventures as of June 30, 2007 (in thousands):

	Wink Partnership	Jackson JV	Rubicon JV	Maitland JV	Total
2007 (Remaining six months)	\$ 25	\$ -	\$ -	\$ -	\$ 25
2008	54	-	-	-	54
2009	34	13	100	-	147

(8) Minority Interest – Real Estate Partnerships

The Company has an interest in two joint ventures that are included in its consolidated financial statements. Information relating to these consolidated joint ventures is detailed below.

Joint Venture Entity	Property Name	Location	Parkway's Ownership %
Parkway Moore, LLC	Moore Building Associates, LP/ Toyota Center	Memphis, TN	75.025%
Parkway Properties Office Fund, LP	BellSouth Building/Centurion Centre	Jacksonville, FL	25.000%
	Maitland 100/555 Winderley	Orlando, FL	
	Chatham Centre	Schaumburg, IL	
	Renaissance Center	Memphis, TN	
	100 Ashford Center/Peachtree Ridge	Atlanta, GA	
	Overlook II	Atlanta, GA	
	1401 Enclave Parkway	Houston, TX	

Moore Building Associates, LP (“MBALP”) was established for the purpose of owning a commercial office building (the Toyota Center in Memphis, Tennessee). In acting as the general partner, Parkway is committed to providing additional funding to meet partnership operating deficits up to an aggregate amount of \$1 million. Parkway receives income from MBALP in the form of interest from a construction note receivable, incentive management fees and property management fees. Parkway also receives interest income on a note receivable from Parkway Moore, LLC (“PMLLC”). Any intercompany asset, liability, revenue and expense accounts between Parkway and MBALP and PMLLC have been eliminated.

Parkway serves as the general partner of Parkway Properties Office Fund, LP (the “Fund”) and provides asset management, property management, leasing and construction management services to the Fund, for which it is paid market-based fees. Cash distributions from the Fund are made to each joint venture partner based on their percentage of ownership in the Fund. Since Parkway is the sole general partner and has the authority to make major decisions on behalf of the Fund, Parkway is considered to have a controlling interest under GAAP. Accordingly, Parkway is required to include the Fund in its consolidated financial statements.

Minority interest in real estate partnerships represents the other partners’ proportionate share of equity in the partnerships discussed above at June 30, 2007. Income is allocated to minority interest based on the weighted average percentage ownership during the year.

(9) Share Based Compensation

Effective January 1, 2003, the stockholders of the Company approved Parkway’s 2003 Equity Incentive Plan (the “2003 Plan”) that authorized the grant of up to 200,000 equity based awards to employees of the Company. At present, it is Parkway’s intention to grant restricted shares and/or deferred incentive share units instead of stock options. Restricted shares and deferred incentive share units are valued based on the New York Stock Exchange closing market price of Parkway common shares (NYSE ticker symbol, PKY) as of the date of grant.

Compensation expense, including estimated forfeitures, is recognized over the expected vesting period, which is four to seven years from grant date for restricted shares subject to service conditions and four years from grant date for deferred incentive share units. Certain restricted shares have been granted to officers of the Company where vesting is contingent upon achieving the cumulative goals of the GEAR UP Plan, which began January 1, 2006 and ends December 31, 2008. Compensation expense will not be recorded on the shares that vest based on performance conditions until the Company determines that it is probable that the goal will be achieved. Therefore, no expense has been recorded in 2006 and 2007 for these shares.

Compensation expense related to restricted shares and deferred incentive share units of \$727,000 and \$308,000 was recognized for the six months ending June 30, 2007 and 2006, respectively. Total compensation expense related to nonvested awards subject to service conditions not yet recognized was \$4.7 million as of June 30, 2007. The weighted average period over which this expense is expected to be recognized is approximately 3.0 years. Total potential compensation expense associated with shares that vest based on performance conditions is \$1.5 million as of June 30, 2007.

Restricted shares and deferred incentive share units are forfeited if an employee leaves the Company before the vesting date. Shares and/or units that are forfeited become available for future grant under the 2003 Plan.

On January 12, 2007, the Board of Directors approved the grant of 35,874 restricted shares to officers of the Company. The shares were valued at \$1.9 million and 34,875 shares will vest four years from grant date and 999 shares will vest subject to achievement of the cumulative goals of the GEAR UP Plan, which will end on December 31, 2008.

A summary of the Company's restricted shares and deferred incentive share unit activity for the six months ended June 30, 2007 is as follows:

	Restricted Shares	Weighted Average Grant-Date Fair Value	Deferred Incentive Share Units	Weighted Average Grant-Date Fair Value
Outstanding at December 31, 2006	188,500	\$ 38.60	18,806	\$ 46.33
Granted	35,874	52.36	30	52.36
Forfeited	(3,375)	46.14	(2,716)	46.03
Outstanding at June 30, 2007	220,999	\$ 40.72	16,120	\$ 46.39

(10) Capital and Financing Transactions

On March 1, 2007, the Company paid off the \$18 million first mortgage secured by Citrus Center in Orlando, Florida which was previously scheduled to mature on August 1, 2007.

In connection with the 2006 first mortgage placed on One Illinois Center, located at 111 East Wacker Drive in Chicago, Illinois, the Company delivered \$11.3 million in letters of credit to satisfy the various escrow requirements made by the lender. On April 2, 2007, the Company renewed these letters of credit through June 30, 2008 and reduced the carrying amount from \$11.3 million to \$3 million. The reduction in the letters of credit is due to the Company funding the lender escrow requirements with cash contributions to the escrow accounts.

In connection with the purchase of office properties, the Fund placed the following non-recourse first mortgages during the six months ending June 30, 2007:

- On February 9, 2007, the Fund placed a \$31.5 million ten-year non-recourse first mortgage with an interest rate of 5.61% in connection with the 2006 purchase of Overlook II in Atlanta, Georgia. Payments during the mortgage term will be on an interest only basis and the loan matures on March 1, 2017.
- On June 14, 2007, the Fund placed a \$28 million eight-year non-recourse first mortgage with a fixed interest rate of 5.76% in connection with the purchase of 1401 Enclave Parkway in Houston, Texas. Payments during the mortgage term will be on an interest only basis for five years. Principle and interest payments of \$5.8 million will be made over remaining term of loan with a balloon payment due at maturity.

In connection with the sale of the two Knoxville office properties on June 29, 2007, the Company paid off the \$7.4 million first mortgage secured by First Tennessee Plaza and recorded expenses related to the prepayment of the mortgage of \$494,000 in the second quarter. The mortgage had an interest rate of 7.17% and was previously scheduled to mature on December 15, 2012.

On August 3, 2007, the Board of Directors authorized the repurchase of up to 1,700,000 shares of Parkway's outstanding common stock through July 30, 2008. The shares may be purchased in the open market or in privately negotiated transactions, and at times and in amounts that the Company deems appropriate.

In connection with the purchase of the Capital City Plaza in Atlanta, Georgia on April 2, 2004, Parkway issued \$15.5 million in preferred membership interests to the seller. The preferred membership interests pay the

seller a 7% coupon rate and were issued to accommodate their tax planning needs. The seller previously redeemed \$4.75 million of the preferred membership interest. On August 7, 2007, the seller redeemed the remaining \$10.7 million of preferred membership interests.

(11) Segment Information

Parkway's primary business is the ownership and operation of office properties. The Company accounts for each office property or groups of related office properties as an individual operating segment. Parkway has aggregated its individual operating segments into a single reporting segment due to the fact that the individual operating segments have similar operating and economic characteristics.

The Company believes that the individual operating segments exhibit similar economic characteristics such as being leased by the square foot, sharing the same primary operating expenses and ancillary revenue opportunities and being cyclical in the economic performance based on current supply and demand conditions. The individual operating segments are also similar in that revenues are derived from the leasing of office space to customers and each office property is managed and operated consistently in accordance with Parkway's standard operating procedures. The range and type of customer uses of our properties is similar throughout our portfolio regardless of location or class of building and the needs and priorities of our customers do not vary from building to building. Therefore, Parkway's management responsibilities do not vary from location to location based on the size of the building, geographic location or class.

The management of the Company evaluates the performance of the reportable office segment based on funds from operations applicable to common shareholders ("FFO"). Management believes that funds from operations available to common shareholders ("FFO") is an appropriate measure of performance for equity REITs and computes this measure in accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition of FFO. Funds from operations is defined by NAREIT as net income (computed in accordance with generally accepted accounting principles "GAAP"), excluding gains or losses from sales of property and extraordinary items under GAAP, plus depreciation and amortization, and after adjustments to derive the Company's pro rata share of FFO of consolidated and unconsolidated joint ventures. Further, the Company does not adjust FFO to eliminate the effects of non-recurring charges. The Company believes that FFO is a meaningful supplemental measure of its operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, as reflected through depreciation and amortization expenses. However, since real estate values have historically risen or fallen with market and other conditions, many industry investors and analysts have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient. Thus, NAREIT created FFO as a supplemental measure of operating performance for real estate investment trusts that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. The Company believes that the use of FFO, combined with the required GAAP presentations, has been beneficial in improving the understanding of operating results of real estate investment trusts among the investing public and making comparisons of operating results among such companies more meaningful. FFO as reported by Parkway may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition. Funds from operations do not represent cash generated from operating activities in accordance with accounting principles generally accepted in the United States and is not an indication of cash available to fund cash needs. Funds from operations should not be considered an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flow as a measure of liquidity.

The following is a reconciliation of FFO and net income available to common stockholders for office properties and total consolidated entities for the three months ending June 30, 2007 and 2006.

	As of or for the three months ended June 30, 2007			As of or for the three months ended June 30, 2006

(c) Interest expense for office properties represents interest expense on property secured mortgage debt and interest on subsidiary redeemable preferred membership interests. It does not include interest expense on the unsecured lines of credit.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

Parkway is a self-administered and self-managed REIT specializing in the acquisition, operations, leasing and ownership of office properties. The Company is geographically focused on the Southeastern and Southwestern United States and Chicago. As of July 1, 2007 Parkway owned or had an interest in 65 office properties located in 11 states with an aggregate of approximately 12.9 million square feet of leasable space. Included in the portfolio are 18 properties totaling 2.7 million square feet that are owned jointly with other investors, representing 21% of the portfolio. Under the Company's GEAR UP Plan, which started January 1, 2006 and ends December 31, 2008, it is the Company's goal to transform its strategy from being an owner-operator to being an operator-owner. The strategy highlights the Company's strength in providing excellent service in the operation of office properties in addition to its direct ownership of real estate assets. Fee-based real estate services are offered through the Company's wholly owned subsidiary, Parkway Realty Services LLC, which also manages and/or leases approximately 1.8 million square feet for third party owners as of July 1, 2007. The Company generates revenue primarily by leasing office space to its customers and providing management and leasing services to third party office property owners (including joint venture interests). The primary drivers behind Parkway's revenues are occupancy, rental rates and customer retention.

Occupancy. Parkway's revenues are dependent on the occupancy of its office buildings. As a result of job losses and over supply of office properties during 2001 through 2003, vacancy rates increased nationally and in Parkway's markets. In 2004, the office sector began to recover from high vacancy rates due to improving job creation. As of July 1, 2007, occupancy of Parkway's office portfolio was 91.6% compared to 90.9% as of April 1, 2007 and 90.0% as of July 1, 2006. Not included in the July 1, 2007 occupancy rate are 19 signed leases totaling 129,000 square feet, which commence during the third and fourth quarters of 2007 and will raise Parkway's percentage leased to 92.6%. To combat rising vacancy, Parkway utilizes innovative approaches to produce new leases. These include the Broker Bill of Rights, a short-form service agreement and customer advocacy programs which are models in the industry and have helped the Company maintain occupancy around 92% during a time when the national occupancy rate is approximately 87%. Parkway projects occupancy ranging from 91% to 94% during 2007 for its office properties with projected annual average occupancy of 92%.

Rental Rates. An increase in vacancy rates has the effect of reducing market rental rates and vice versa. Parkway's leases typically have three to seven year terms. As leases expire, the Company replaces the existing leases with new leases at the current market rental rate.

Customer Retention. Keeping existing customers is important as high customer retention leads to increased occupancy, less downtime between leases, and reduced leasing costs. Parkway estimates that it costs five to six times more to replace an existing customer with a new one than to retain the customer. In making this estimate, Parkway takes into account the sum of revenue lost during downtime on the space plus leasing costs, which rise as market vacancies increase. Therefore, Parkway focuses a great deal of energy on customer retention. Parkway's operating philosophy is based on the premise that it is in the customer retention business. Parkway seeks to retain its customers by continually focusing on operations at its office properties. The Company believes in providing superior customer service; hiring, training, retaining and empowering each employee; and creating an environment of open communication both internally and externally with customers and stockholders. Over the past ten years, Parkway maintained an average 73.7% customer retention rate. Parkway's customer retention for the three months and six months ended June 30, 2007 was 81.0% and 69.2%, respectively, compared to 61.3% and 70.9% for the three months and six months ended June 30, 2006, respectively.

Strategic Planning. Management continues to see Parkway defined as a focused office REIT with a hands-on, service-oriented approach, a disciplined asset allocation program and a willingness to recycle assets. However, management sees the future transformation taking Parkway from being an owner-operator to being an operator-owner. On January 1, 2006, the Company initiated a new three-year operating plan referred to as the "GEAR UP" Plan that will serve as the spring board to transform Parkway from being first an owner of real estate and secondarily an operator of real estate for others to being first an operator of real estate for others that also owns an interest in the real estate. The goals of the GEAR UP Plan are as follows:

- **Great People.** Great customer service starts with hiring great people, training them well and retaining them. It will take great people to accomplish the ambitious goals of the Plan.

- **Equity Opportunities.** Over the last several years management has created a broad array of equity opportunities for Parkway. On the private equity side this includes the use of discretionary funds, such as the Fund with Ohio PERS, and partnerships. The judicious use of private equity provides a greater return on equity to the public shareholders. Parkway intends to contribute assets from its balance sheet to form new joint ventures and expects these subsequent ventures to be similar to discretionary funds in their duration and economics. On the public equity side, this includes the judicious use of common equity and preferred equity to manage the balance sheet and growth.
- **Asset Recycling.** The Company has demonstrated its willingness in the past to sell assets when management believed the time was right. At the start of the GEAR UP Plan, Parkway identified 25 buildings in twelve markets, totaling approximately 5 million rentable square feet to be part of the asset recycling program. Most of these properties are smaller assets or located in smaller markets that do not fit with the Company strategy of owning larger assets in institutional markets. The dispositions that are planned will help align the Company's portfolio with its current acquisition criteria, which focuses on larger properties in institutional markets. In most cases, Parkway will seek to keep a 10% to 30% joint venture interest in the properties being recycled and retain management and leasing agreements. This is a fluid list of assets based on the Company's evaluation of specific market conditions and review of the portfolio. The other side of Asset Recycling is the reinvestment of proceeds from dispositions into other assets, either owned in the fee-simple format or owned jointly with a partner.

These two goals, **Equity Opportunities** and **Asset Recycling**, are what combine to transform Parkway from being an owner-operator to being an operator-owner. Management strongly believes that these actions will result in Parkway better leveraging its core strength of operating office properties and will be advantageous for the Company's shareholders over the long term.

- **Retain Customers.** Customer retention remains the cornerstone of the Company's business and is why partners choose to partner with Parkway. The goal is a customer retention rate of 70% to 75%. The average customer retention rate since the inception of the GEAR UP Plan on January 1, 2006 is 70%, and we anticipate that the annual customer retention rate for 2007 will be in the range of 70% to 75%.
- **Uncompromising Focus on Operations.** Parkway is reaffirming its commitment to do that which it does best, and that is to operate office properties for maximum returns.
- **Performance.** In the planning process, management first decided what actions to take strategically over the three years of the GEAR UP Plan and secondly, modeled the economic impact of these actions. Given the large component of Asset Recycling in the Plan, management selected a financial metric that would be most appropriate to measure the success of the Plan. This led to the adoption of Cumulative Adjusted Funds Available for Distribution ("Cumulative Adjusted FAD") as the metric for the GEAR UP Plan, with a target of \$7.18 per share cumulative over three years. Actual Adjusted FAD for 2006 exceeded the amount projected by the Company by \$.29 per diluted share. Additionally, Parkway established a self-imposed limit for the modified fixed charge coverage ratio of 2.5 times as a pledge not to use leverage to achieve Company goals.

For the GEAR UP Plan Parkway is not abandoning Funds from Operations, but rather carrying it a step further to include accountability for capital items and removing the accounting adjustments which are not directly influenced by the operations of its properties. Management believes an Adjusted FAD goal provides an effective alignment with the shareholders by focusing the team on maximizing income from operations while being mindful of capital expenses and ultimately the funds available to cover the dividend. Cumulative Adjusted FAD is calculated as the sum of Adjusted FAD for each of the three years of the plan. The adjustments that will be made to FAD reported each quarter principally include charges for impairment of value and expenses related to the early extinguishment of debt.

Parkway has made progress on its *Asset Recycling* and *Equity Opportunities* goals in 2006 and 2007 as follows:

- *Dispositions.* Parkway sold ten office properties for a gross sales price totaling \$153.8 million and recorded a total gain on the sales for financial reporting purposes in the amount of \$43.1 million.
- *Fund Acquisitions.* The Fund with Ohio PERS purchased eight office properties at an aggregate contract purchase price of \$230.2 million.
- *Fee Simple Purchases.* Parkway purchased One Illinois Center in Chicago, Illinois at a contract purchase price of \$198 million.
- *Other Purchases.* Parkway purchased an additional interest in Moore Building Associates, LP, which owns the Toyota Center in Memphis, Tennessee, for \$1.4 million raising Parkway's total ownership interest to 75.025%.
- *Equity Offering.* On December 18, 2006, the Company sold 600,000 shares of common stock to Banc of America Securities LLC at a gross offering price of \$50.25 per share and a net price of \$49.37 per share. The Company used the net proceeds of approximately \$29.6 million to repay indebtedness outstanding under a \$19.3 million mezzanine loan incurred in connection with the purchase of One Illinois Center and to purchase additional investments in office properties.

In accordance with the GEAR UP Plan, the Company projects the following acquisitions and dispositions for the remainder of 2007:

- Fee simple office property purchases totaling approximately \$100 million;
- Fund office property purchases totaling approximately \$124 million;
- Contributions of assets to funds or similar ventures where the Company will retain a 25% ownership interest are projected to be made as shown below:
 - Assets in Virginia totaling 883,000 square feet with an estimated net value of \$95.5 million in the third quarter of 2007;
 - Assets in Columbia, South Carolina totaling 867,000 square feet with an estimated value of \$106 million in the fourth quarter of 2007; and
 - In connection with the proposed ventures, Parkway may incur debt prepayment penalties and expense of approximately \$1.7 million.

Discretionary Fund. On July 6, 2005, Parkway, through affiliated entities, entered into a limited partnership agreement forming a \$500 million discretionary fund with Ohio PERS (the "Fund") for the purpose of acquiring high-quality multi-tenant office properties. Ohio PERS is a 75% investor and Parkway is a 25% investor in the Fund, which will be capitalized with approximately \$200 million of equity capital and \$300 million of non-recourse, fixed-rate first mortgage debt. The Fund targets acquisitions in the existing core Parkway markets of Memphis, Houston, Phoenix, Atlanta, Chicago, Charlotte, Orlando, Tampa/St. Petersburg, Ft. Lauderdale and Jacksonville. There is approximately \$228 million remaining capacity for Fund office investments. The remaining office investments are expected to be funded by approximately \$137 million in mortgage debt and \$91 million in equity contributions from partners.

The Fund targets properties with an anticipated cash on cash return greater than 7% and an anticipated leveraged internal rate of return of greater than 11%. Parkway serves as the general partner of the Fund and provides asset management, property management, leasing and construction management services to the Fund, for which it will be paid market-based fees. After each partner has received a 10% annual cumulative preferred return and a return of invested capital, 20% of the excess cash flow will be paid to the general partner and 80% will be paid to the limited partners. Through its general partner and limited partner ownership interests, Parkway may receive a

distribution of the cash flow equivalent to 40%. Parkway will have three years from the inception date of the Fund to identify and acquire properties (the "Commitment Period"), with funds contributed as needed to close acquisitions. Parkway will exclusively represent the Fund in making acquisitions within the target markets and within certain predefined criteria. Parkway will not be prohibited from making fee-simple or joint venture acquisitions in markets outside of the target markets, acquiring properties within the target markets that do not meet the Fund's specific criteria or selling or joint venturing any currently owned properties. The term of the Fund will be seven years from the expiration of the Commitment Period, with provisions to extend the term for two additional one-year periods.

Financial Condition

Comments are for the balance sheet dated June 30, 2007 compared to the balance sheet dated December 31, 2006.

Office and Parking Properties. In 2007, Parkway continued the application of its strategy of operating and acquiring office properties, joint venturing interests in office assets, as well as liquidating non-core assets and office assets that no longer meet the Company's investment criteria and/or the Company has determined value will be maximized by selling. During the six months ending June, 2007, total assets increased \$9.4 million or .6% and office and parking properties (before depreciation) increased \$20.8 million or 1.4%.

Purchases, Improvements and Development. Parkway's investment in office and parking properties increased \$9.9 million net of depreciation to a carrying amount of \$1.3 billion at June 30, 2007, and consisted of 59 office and parking properties. The primary reason for the increase in office and parking properties relates to the net effect of the purchase of land and an office property, building improvements, development costs, the sale of two office properties and depreciation recorded during the quarter.

On February 28, 2007, the Company purchased 2.5 acres of land in Jackson, Mississippi for \$1.8 million. This land was purchased as part of the Company's plan to develop the 194,000 square foot Class A+ office building known as The Pinnacle at Jackson Place ("The Pinnacle"), adjacent to the Company's headquarters building. The estimated cost of the development is \$48.5 million with expected completion in the fall of 2008. The Company has received commitments to lease approximately 72% of the new office space from four major customers. Parkway will be seeking partners for an 80% ownership interest in the development. The development is designed to utilize benefits available under the Gulf Opportunity Zone Act for new developments in areas affected by Hurricane Katrina. During the six months ending June 30, 2007, the Company incurred \$3.8 million in development costs for The Pinnacle.

On June 14, 2007 the Fund with Ohio PERS purchased 1401 Enclave Parkway, a 209,000 square foot, six-story office property in Houston, Texas for a purchase price of \$46.5 million. The Fund expects to spend an additional \$346,000 for closing costs, building improvements, leasing costs and tenant improvements during the first two years of ownership.

On June 29, 2007, the Company sold two office properties, First Tennessee Plaza and Cedar Ridge, totaling 549,000 square feet located in Knoxville, Tennessee for a gross sales price of \$59 million. The Company received net cash proceeds from the sale of \$56.8 million and the proceeds were used to prepay the \$7.4 million first mortgage secured by First Tennessee Plaza and to reduce amounts outstanding under the Company's bank lines of credit. Parkway recorded a gain on the sale for financial reporting purposes of \$20.3 million and expenses related to the prepayment of the mortgage of \$494,000 in the second quarter of 2007. Parkway Realty Services LLC was retained to provide management services for the properties under a five-year agreement. Therefore, all revenue and expense for these properties are included as a component of continuing operations.

During the six months ending June 30, 2007, the Company capitalized building improvements and additional purchase expenses of \$24.5 million and recorded depreciation expense of \$29.6 million related to its office and parking properties.

Intangible Assets, Net. For the six months ended June 30, 2007, intangible assets net of related amortization decreased \$4.1 million and was primarily due to the amortization of the existing intangible assets for the period.

Notes Payable to Banks. Notes payable to banks decreased \$8.2 million or 5.4% during the six months ended June 30, 2007. At June 30, 2007, notes payable to banks totaled \$144.1 million and the decrease is primarily attributable to the net effect of proceeds from the sale of assets used to reduce bank lines of credit offset by advances under bank lines of credit to purchase and develop real estate, make improvements to office properties and retire existing debt.

Mortgage Notes Payable. During the six months ended June 30, 2007, mortgage notes payable increased \$26.0 million or 3.7% and is due to scheduled principal payments on mortgages of \$8.1 million, the prepayment of existing mortgage debt of \$25.4 million and the placement of mortgage debt of \$59.5 million described below.

In connection with the purchase of office properties, the Fund with Ohio PERS placed the following non-recourse first mortgages during the six months ending June 30, 2007:

- On February 9, 2007, the Fund placed a \$31.5 million ten-year non-recourse first mortgage with an interest rate of 5.61% in connection with the 2006 purchase of Overlook II in Atlanta, Georgia. Payments during the mortgage term will be on an interest only basis and the loan matures on March 1, 2017.
- On June 14, 2007, the Fund placed a \$28 million eight-year non-recourse first mortgage with a fixed interest rate of 5.76% in connection with the purchase of 1401 Enclave Parkway in Houston, Texas. Payments during the mortgage term will be on an interest only basis for five years. Principle and Interest payments of \$5.8 million will be made over remaining term of loan with a balloon payment due at maturity.

Subsidiary Redeemable Preferred Membership Interests. In connection with the purchase of the Capital City Plaza in Atlanta, Georgia on April 2, 2004, Parkway issued \$15.5 million in preferred membership interests to the seller. The preferred membership interests pay the seller a 7% coupon rate and were issued to accommodate their tax planning needs. The seller previously redeemed \$4.75 million of the preferred membership interest. On August 7, 2007, the seller redeemed the remaining \$10.7 million of preferred membership interests.

The computation of the interest, fixed charge and modified fixed charge coverage ratios and the reconciliation of net income to EBITDA is as follows for the six months ended June 30, 2007 and 2006 (in thousands):

	Six Months Ended June 30	
	2007	2006
Net Income	\$ 19,668	\$ 20,900

Preferred dividends	2,400	3,573
Total Modified Fixed Charges	\$ 26,152	\$ 22,336
Modified Fixed Charge Coverage Ratio	2.25	2.47

(1) Parkway defines EBITDA, a non-GAAP financial measure, as net income before interest, income taxes, depreciation, amortization, losses on early extinguishment of debt and other gains and losses. EBITDA, as calculated by us, is not comparable to EBITDA reported by other REITs that do not define EBITDA exactly as we do.

The Company believes that EBITDA helps investors and Parkway's management analyze the Company's ability to service debt and pay cash distributions. However, the material limitations associated with using EBITDA as a non-GAAP financial measure compared to cash flows provided by operating, investing and financing activities are that EBITDA does not reflect the Company's historical cash expenditures or future cash requirements for working capital, capital expenditures or the cash required to make interest and principal payments on the Company's outstanding debt. Although EBITDA has limitations as an analytical tool, the Company compensates for the

limitations by only using EBITDA to supplement GAAP financial measures. Additionally, the Company believes that investors should consider EBITDA in conjunction with net income and the other required GAAP measures of its performance and liquidity to improve their understanding of Parkway's operating results and liquidity.

Parkway views EBITDA primarily as a liquidity measure and, as such, the GAAP financial measure most directly comparable to it is cash flows provided by operating activities. Because EBITDA is not a measure of financial performance calculated in accordance with GAAP, it should not be considered in isolation or as a substitute for operating income, net income, cash flows provided by operating, investing and financing activities prepared in accordance with GAAP. The following table reconciles EBITDA to cash flows provided by operating activities for the six months ended June 30, 2007 and 2006 (in thousands):

	Six Months Ended June 30	
	2007	2006
EBITDA	\$ 58,819	\$ 55,108
Amortization of above market leases	698	678
Operating distributions from unconsolidated joint ventures	670	785
Interest expense	(26,183)	(18,665)
Prepayment expense on early extinguishment of debt	(370)	-
Tax expense	(105)	-
Increase in receivables and other assets	(2,434)	(2,526)
Increase (decrease) in accounts payable and other liabilities	1,171	(812)
Adjustments for minority interests	5,983	1,361
Adjustments for unconsolidated joint ventures	(1,131)	(1,953)
Cash flows provided by operating activities	<u>\$ 37,118</u>	<u>\$ 33,976</u>

Minority Interest – Real Estate Partnerships. During the six months ending June 30, 2007, minority interest associated with real estate partnerships decreased \$11.9 million or 13.2%. The decrease is attributable to the distribution of the minority interest partner's share of the \$59.5 million mortgage notes payable placed by the Fund offset by the minority interest partner's contribution toward the purchase of an office property.

Stockholders' Equity. Stockholders' equity increased \$1.1 million or .2% during the six months ended June 30, 2007, as a result of the following (in thousands):

	Increase (Decrease)
Net income	\$ 19,668
Change in unrealized loss on equity securities	(7)
Change in market value of interest rate swaps	(37)
Comprehensive income	19,624
Common stock dividends declared	(20,616)
Preferred stock dividends declared	(2,400)
Exercise of stock options	2,788
Share based compensation expense	727
Shares distributed from deferred compensation plan	354
Shares issued through DRIP Plan	363
Shares issued in lieu of Directors' fees	251
Shares issued through Employee Stock Purchase Plan	36
Stock offering issuance costs	(30)
	<u>\$ 1,097</u>

On August 3, 2007, the Board of Directors authorized the repurchase of up to 1,700,000 shares of Parkway's outstanding common stock through July 30, 2008. The shares may be purchased in the open market or in privately negotiated transactions, and at times and in amounts that the Company deems appropriate.

Results of Operations

Comments are for the three months and six months ended June 30, 2007 compared to the three months and six months ended June 30, 2006.

Net income available to common stockholders for the three months ended June 30, 2007 was \$18.0 million (\$1.15 per basic common share) as compared to net income available to common stockholders of \$17.4 million (\$1.24 per basic common share) for the three months ended June 30, 2006. Net income available to common stockholders for the six months ended June 30, 2007 was \$17.3 million (\$1.10 per basic common share) as compared to net income available to common stockholders of \$17.3 million (\$1.23 per basic common share) for the six months ended June 30, 2006. Net gain on the sale of real estate and other assets of \$20.3 million and \$13.5 million were included in net income available to common stockholders for the three months and six months ended June 30, 2007 and 2006, respectively.

Office and Parking Properties. The analysis below includes changes attributable to same store properties, acquisitions and dispositions of office properties. Same store properties are those that the Company owned for the current and prior year reporting periods, excluding properties classified as discontinued operations. At June 30, 2007, same store properties consisted of 52 properties comprising 10.1 million square feet. Properties acquired in 2006 and 2007 that do not meet the definition of same store properties consisted of nine properties with 2.4 million square feet.

The following table represents income from office and parking properties for the three months and six months ended June 30, 2007 and 2006 (in thousands):

	Three Months Ended June 30				Six Months Ended June 30			
	2007	2006	Increase (Decrease)	% Change	2007	2006	Increase (Decrease)	% Change
Income from office and parking properties:								
Same store properties	\$ 48,292	\$ 47,263	\$ 1,029	2.2%	\$ 97,196	\$ 94,741	\$ 2,455	2.6%
Properties acquired in 2006	12,527	454	12,073	2659.3%	25,161	454	24,707	5442.1%
Properties acquired in 2007	274	-	274	0.0%	274	-	274	0.0%
Properties disposed	(8)	1,159	(1,167)	-100.7%	(8)	2,342	(2,350)	-100.3%
Total income from office and parking properties	\$ 61,085	\$ 48,876	\$ 12,209	25.0%	\$ 122,623	\$ 97,537	\$ 25,086	25.7%

Income from office and parking properties for same store properties increased \$1.0 million and \$2.5 million for the three months and six months ended June 30, 2007, respectively, compared to the same periods for 2006. The primary reason for the increase is due to an increase in same store occupancy and average rental rates for same store properties for the six months ended June 30, 2007 compared to June 30, 2006. Average same store occupancy was 91.5% for the six months ended June 30, 2007 compared to 89.1% for the same period of 2006. Same store rental rates increased 1.9% for the six months ended June 30, 2007 compared to the same period of 2006.

The following table represents property operating expenses for the three months and six months ended June 31, 2007 and 2006 (in thousands):

	Three Months Ended June 30				Six Months Ended June 30			
	2007	2006	Increase (Decrease)	% Change	2007	2006	Increase (Decrease)	% Change
Income from office and parking properties:								
Same store properties	\$ 22,448	\$ 22,000	\$ 448	2.0%	\$ 44,724	\$ 45,026	\$ (302)	-0.7%
Properties acquired in 2006	6,178	151	6,027	3991.4%	12,118	151	11,967	7925.2%
Properties acquired in 2007	110	-	110	0.0%	110	-	110	0.0%
Office property development	57	-	57	0.0%	57	-	57	0.0%
Properties disposed	26	641	(615)	-95.9%	44	1,244	(1,200)	-96.5%
Total income from office and parking properties	\$ 28,819	\$ 22,792	\$ 6,027	26.4%	\$ 57,053	\$ 46,421	\$ 10,632	22.9%

Property operating expenses for same store properties increased \$448,000 for the three months ended June 30, 2007 compared to the same period of 2006 and decreased \$302,000 for the six months ended June 30, 2007 compared to the same period of 2006. The primary reason for the year to date decrease is due to decreased utilities.

Depreciation and amortization expense attributable to office and parking properties increased \$5.1 million and \$10.8 million for the three months and six months ended June 30, 2007, respectively, compared to the same period for 2006 and is due to the increase in the net investment in office and parking properties due to additional purchases and improvements to properties.

Management Company Income. Management company income decreased \$4.0 million for the three months and six months ending June 30, 2007 compared to the same period of 2006 and is primarily due to the additional management and incentive fee recorded in 2006 as a result of the economic returns generated above an internal rate of return hurdle rate achieved over the life of the Viad joint venture. The fees were received and recognized by Parkway in the second quarter of 2006 at closing of the sale of Viad Corporate Center.

Share Based Compensation Expense. Effective January 1, 2006, Parkway adopted FASB Statement No. 123R, Share-Based Payment ("FAS 123R") using the modified-prospective transition method. In the past the Company had granted stock options for a fixed number of shares to employees and directors with an exercise price equal to or above the fair value of the shares at the date of grant. However, no stock options have been granted to employees since 2002 or to directors since 2003. Since 2003, Parkway has elected to grant restricted shares and deferred incentive share units instead of stock options. Therefore, the adoption of FAS 123R has not had a material impact on income from continuing operations, net income, cash flow from operations, cash flow from financing activities or basic and diluted earnings per share.

On January 12, 2007, the Board of Directors approved the grant of 35,874 shares to officers of the Company. The shares were valued at \$1.9 million and 34,875 shares will vest four years from grant date and 999 shares will vest subject to achievement of the cumulative goals of the GEAR UP Plan, which will end December 31, 2008. Compensation expense will not be recorded on the shares that vest based on performance conditions until the Company determines that it is probable that the goal will be achieved. Therefore, no expense has been recorded to date for the shares that vest based on achievement of the cumulative goals of the GEAR UP Plan.

Share based compensation expense of \$727,000 and \$308,000 was recognized for the six months ending June 30, 2007 and 2006, respectively. Total compensation expense related to nonvested awards subject to service conditions not yet recognized was \$4.7 million as of June 30, 2007. The weighted average period over which this expense is expected to be recognized is approximately 3.0 years. Total potential compensation expense associated with shares that vest based on performance conditions is \$1.5 million as of June 30, 2007.

General and Administrative Expense. General and administrative expense increased \$623,000 and \$1.1 million for the three months and six months ended June 30, 2007, respectively, compared to the same period of 2006 and is primarily attributable to increased personnel costs, share based compensation expense and professional fees.

Gain on Sale of Real Estate and Other Assets. For the three months and six months ended June 30, 2007, Parkway recorded a gain on the sale of two office properties in Knoxville, Tennessee in the amount of \$20.3 million. For the three months and six months ended June 30, 2006, the Company recorded a gain on the sale of the Viad Corporate Center in the amount of \$13.6 million and recognized an impairment loss on investment securities in the amount of \$119,000.

Interest Expense. Interest expense, including amortization, increased \$4.3 million and \$7.9 million for the three months and six months ended June 30, 2007, respectively, compared to the same period of 2006 and is comprised of the following (in thousands):

	Three Months Ended June 30				Six Months Ended June 30			
	2007	2006	Increase (Decrease)	% Change	2007	2006	Increase (Decrease)	% Change
Interest expenses:								
Mortgage interest expense	\$ 10,394	\$ 6,868	\$ 3,526	51.3%	\$ 20,644	\$ 13,678	\$ 6,966	50.9%
Bank line interest expense	2,687	2,466	221	9.0%	5,166	4,614	552	12.0%
Subsidiary redeemable preferred membership interest	187	187	-	0.0%	373	373	-	0.0%
Debt prepayment expense	494	-	494	0.0%	370	-	370	0.0%
Mortgage loan cost amortization	192	161	31	19.3%	389	323	66	20.4%
Bank loan cost amortization	98	114	(16)	-14.0%	194	234	(40)	-17.1%
Total interest expense	\$ 14,052	\$ 9,796	\$ 4,256	43.4%	\$ 27,136	\$ 19,222	\$ 7,914	41.2%

Mortgage interest expense increased \$3.5 million and \$7.0 million for the three months and six months ended June 30, 2007, respectively, compared to the same period for 2006 and is due to the net effect of new loans placed or assumed in 2007 and 2006 and the early extinguishment of two mortgages in 2007. The average interest rate on mortgage notes payable as of June 30, 2007 and 2006 was 5.8% and 5.7%, respectively.

Liquidity and Capital Resources

Statement of Cash Flows. Cash and cash equivalents were \$8.2 million and \$4.5 million at June 30, 2007 and December 31, 2006, respectively. Cash flows provided by operating activities for the six months ended June 30, 2007 were \$37.1 million compared to \$34.0 million for the same period of 2006. The increase in cash flows from operating activities of \$3.1 million is primarily attributable to the effect of the timing of receipt of revenues and payment of expenses.

Cash used in investing activities was \$19.6 million for the six months ended June 30, 2007 compared to cash used in investing activities of \$40.8 million for the same period of 2006. The decrease in cash used in investing activities of \$21.2 million is primarily due to the net effect of increased proceeds on the sale of office properties, offset by an increase in office property improvements and development costs.

Cash used in financing activities was \$13.8 million for the six months ended June 30, 2007 compared to cash provided by financing activities of \$7.2 million for the same period of 2006. The decrease in cash provided by financing activities of \$21.0 million is primarily due to the net effect of an early extinguishment of two mortgage notes payable in 2007, proceeds from the sale of office properties used to reduce bank lines of credit, offset by proceeds received on mortgage placements in 2007.

Liquidity. The Company plans to continue pursuing the acquisition of additional investments that meet the Company's investment criteria and intends to use bank lines of credit, proceeds from the sale of non-core assets and office properties, proceeds from the sale of portions of owned assets through joint ventures, possible sales of securities and cash balances to fund those acquisitions.

The Company's cash flows are exposed to interest rate changes primarily as a result of its lines of credit used to maintain liquidity and fund capital expenditures and expansion of the Company's real estate investment portfolio and operations. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, the Company borrows at fixed rates, but also utilizes a four-year unsecured revolving credit facility, a five-year unsecured term loan and two one-year unsecured lines of credit.

At June 30, 2007, Parkway had a total of \$144.1 million outstanding under a four-year \$140 million unsecured revolving credit facility and a five-year \$60 million unsecured term loan, both led by Wachovia Bank and syndicated to nine other banks (the "\$200 million line"), a \$15 million unsecured line of credit with PNC Bank (the "\$15 million line") and a \$9 million unsecured line of credit with Trustmark National Bank (the "\$9 million line"). The weighted average interest rate on unsecured lines of credit was 6.2% and 5.8% at June 30, 2007 and 2006, respectively.

The \$200 million line is comprised of a \$60 million term loan maturing in April 2011 and a \$140 million revolving loan maturing in April 2010. The interest rate on the \$200 million line is based on LIBOR plus 80 to 130 basis points depending upon overall Company leverage, with the current rate set at LIBOR plus 130 basis points as of June 30, 2007. The Company pays an annual administration fee of \$35,000 and fees on the unused portion of the revolver ranging between 12.5 and 20 basis points based upon overall Company leverage, with the rate set at 12.5 basis points at June 30, 2007.

The Company's \$200 million line requires compliance with a number of restrictive financial covenants, including tangible net worth, fixed charge coverage ratio, unencumbered interest coverage ratio, total debt to total asset ratio, secured debt to total asset value ratio, secured recourse debt to total asset value ratio and unencumbered pool restrictions. As of June 30, 2007 the Company was in compliance with these financial covenants.

The \$15 million line matures January 29, 2008, is unsecured and is expected to fund the daily cash requirements of the Company's treasury management system. The interest rate on the \$15 million line is based on LIBOR plus 80 to 130 basis points, depending upon overall Company leverage, with the current rate set at LIBOR plus 130 basis points as of June 30, 2007. Under the \$15 million line, the Company does not pay annual administration fees or fees on the unused portion of the line.

The \$9 million line with Trustmark National Bank is interest only, has a current interest rate equal to the 30-day LIBOR rate plus 132.5 basis points and matures December 7, 2007. The proceeds of the loan were used to finance the construction of the City Centre Garage, which was completed in 2005.

To protect against the potential for rapidly rising interest rates, the Company entered into interest rate swap agreements in 2005 and 2004. The Company designated the swaps as hedges of the variable interest rates on the Company's borrowings under the Wachovia unsecured revolving credit facility. Accordingly, changes in the fair value of the swaps are recognized in accumulated other comprehensive income until the hedged item is recognized in earnings. The Company's interest rate hedge contracts as of June 30, 2007 and 2006 are summarized as follows (in thousands):

Type of Hedge	Notional Amount	Maturity Date	Reference Rate	Fixed Rate	Fair Market Value June 30	
					2007	2006
Swap	\$40,000	12/31/08	1-Month LIBOR	4.360%	\$ 506	\$ 1,053
Swap	\$20,000	12/31/08	1-Month LIBOR	4.245%	289	578
					<u>\$ 795</u>	<u>\$ 1,631</u>

At June 30, 2007, the Company had \$722.0 million in mortgage notes payable with an average interest rate of 5.8% secured by office properties and \$144.1 million drawn under bank lines of credit. Parkway's pro rata share of unconsolidated joint venture debt was \$9.8 million with an average interest rate of 5.2% at June 30, 2007. Based on the Company's total market capitalization of approximately \$1.6 billion at June 30, 2007 (using the June 30, 2007 closing price of \$48.03 per common share), the Company's debt represented approximately 48.3% of its total market capitalization. The Company targets a debt to total market capitalization rate at a percentage in the range of 45% to 50%. This rate may vary at times pending acquisitions, sales and/or equity offerings. In addition, volatility in the price of the Company's common stock may affect the debt to total market capitalization ratio. However, over time the Company plans to maintain a percentage in the range of 45% to 50%.

In addition to the debt to total market capitalization ratio, the Company also monitors interest, fixed charge and modified fixed charge coverage ratios. The interest coverage ratio is computed by comparing the cash interest accrued to earnings before interest, taxes, depreciation and amortization ("EBITDA"). This ratio for the six months ended June 30, 2007 and 2006 was 2.48 and 2.94 times, respectively. The fixed charge coverage ratio is computed by comparing the cash interest accrued, principal payments made on mortgage loans and preferred dividends paid to EBITDA. This ratio for the six months ended June 30, 2007 and 2006 was 1.73 and 1.86 times, respectively. The modified fixed charge coverage ratio is computed by comparing the cash interest accrued and preferred dividends paid to EBITDA. This ratio for the six months ended June 30, 2007 and 2006 was 2.25 and 2.47 times, respectively. In accordance with the GEAR UP Plan, Parkway has established a self-imposed limit for the modified fixed charge coverage ratio of 2.5 times as the Company's pledge not to use leverage to achieve Company goals. Management

believes the debt to market capitalization, interest coverage, fixed charge coverage and modified fixed charge coverage ratios provide useful information on total debt levels as well as the Company's ability to cover interest, principal and/or preferred dividend payments with current income.

The table below presents the principal payments due and weighted average interest rates for the mortgage notes payable as of June 30, 2007.

	Average Interest Rate	Mortgage Notes Payable (In thousands)
2007*	5.8%	\$ 7,522
2008	5.9%	55,938
2009	5.9%	36,201
2010	5.9%	97,476
2011	6.1%	111,665
2012	6.1%	63,041
Thereafter	6.3%	350,179
Total		<u>\$ 722,022</u>
Fair value at 06/30/07		<u><u>\$ 716,549</u></u>

*Remaining six months

The Company presently has plans to make additional capital improvements at its office properties in 2007 of approximately \$22.8 million. These expenses include tenant improvements, capitalized acquisition costs and capitalized building improvements. Approximately \$11.1 million of these improvements relate to upgrades on properties acquired in recent years that were anticipated at the time of purchase. All such improvements are expected to be financed by cash flow from the properties, capital expenditure escrow accounts, advances on the bank lines of credit or contributions from partners.

In 2006, the Company announced the proposed development of a 194,000 square foot Class A+ office building in Jackson, Mississippi known as The Pinnacle at Jackson Place, adjacent to the Company's headquarters building. The estimated cost of the development is \$48.5 million with expected completion in the fall of 2008. In 2007, the Company expects to incur approximately \$11 million in construction costs. The Company has received commitments to lease approximately 72% of the new office space from four major customers. Parkway will be seeking partners for an 80% ownership interest in the development. The development is designed to utilize benefits available under the Gulf Opportunity Zone Act for new developments in areas affected by Hurricane Katrina.

In accordance with Parkway's strategic plan, GEAR UP, the Company projects the following acquisitions and dispositions in 2007. Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations – Overview – Strategic Planning," includes a full discussion of the GEAR UP Plan.

- Fee simple office property purchases totaling approximately \$100 million, which will be funded with proceeds from sales and/or bank lines of credit.
- Fund office property purchases totaling approximately \$124 million. Parkway's equity contribution will be approximately \$12.4 million and will be funded with proceeds from sales and/or bank lines of credit.
- Contributions of asset to funds or similar ventures where the Company will retain a 25% ownership interest are projected to be made as shown below:
 - Assets in Virginia totaling 883,000 square feet with an estimated net value of \$95.5 million in the third quarter of 2007;
 - Assets in Columbia, South Carolina totaling 867,000 square feet with an estimated value of \$106 million in the fourth quarter of 2007; and

- In connection with the proposed ventures, Parkway may incur debt prepayment penalties and expense of approximately \$1.7 million.

The Company anticipates that its current cash balance, operating cash flows and borrowings (including borrowings under the working capital line of credit) will be adequate to pay the Company's (i) operating and administrative expenses, (ii) debt service obligations, (iii) distributions to shareholders, (iv) capital improvements, and (v) normal repair and maintenance expenses at its properties, both in the short and long term. In addition, the Company may use proceeds from sales of assets, possible sales of securities and borrowings to fund property acquisitions.

Contractual Obligations

See information appearing under the caption "Financial Condition – Note Payable to Banks and Mortgage Notes Payable" in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations for a discussion of changes in long-term debt since December 31, 2006.

Funds From Operations

Management believes that funds from operations available to common shareholders ("FFO") is an appropriate measure of performance for equity REITs and computes this measure in accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition of FFO. Funds from operations is defined by NAREIT as net income (computed in accordance with generally accepted accounting principles "GAAP"), excluding gains or losses from sales of property and extraordinary items under GAAP, plus depreciation and amortization, and after adjustments to derive the Company's pro rata share of FFO of consolidated and unconsolidated joint ventures. Further, the Company does not adjust FFO to eliminate the effects of non-recurring charges. The Company believes that FFO is a meaningful supplemental measure of its operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, as reflected through depreciation and amortization expenses. However, since real estate values have historically risen or fallen with market and other conditions, many industry investors and analysts have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient. Thus, NAREIT created FFO as a supplemental measure of operating performance for real estate investment trusts that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. The Company believes that the use of FFO, combined with the required GAAP presentations, has been beneficial in improving the understanding of operating results of real estate investment trusts among the investing public and making comparisons of operating results among such companies more meaningful. FFO as reported by Parkway may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition. Funds from operations do not represent cash generated from operating activities in accordance with accounting principles generally accepted in the United States and is not an indication of cash available to fund cash needs. Funds from operations should not be considered an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flow as a measure of liquidity.

The following table presents a reconciliation of the Company's net income to FFO for the three months ended June 30, 2007 and 2006 (in thousands):

	Three Months Ended June 30		Six Months Ended June 30	
	2007	2006	2007	2006
Net income	\$ 19,240	\$ 19,159	\$ 19,668	\$ 20,900
Adjustments to derive funds from operations:				
Depreciation and amortization	19,168	14,082	38,379	27,608
Depreciation and amortization – discontinued operations	1	213	1	413
Minority interest depreciation and amortization	(2,284)	(415)	(4,675)	(825)
Adjustments for unconsolidated joint ventures	161	214	322	503
Preferred dividends	(1,200)	(1,200)	(2,400)	(2,400)
Convertible preferred dividends	-	(586)	-	(1,173)
Gain on sale of real estate	(20,260)	(13,584)	(20,260)	(13,584)
Funds from operations applicable to common shareholders	<u>\$ 14,826</u>	<u>\$ 17,883</u>	<u>\$ 31,035</u>	<u>\$ 31,442</u>

Inflation

Except for insurance, inflation has not had a significant impact on the Company because of the relatively low inflation rate in the Company's geographic areas of operation. Additionally, most of the leases require the customers to pay their pro rata share of operating expenses, including common area maintenance, real estate taxes, utilities and insurance, thereby reducing the Company's exposure to increases in operating expenses resulting from inflation. The Company's leases typically have three to seven year terms, which may enable the Company to replace existing leases with new leases at market base rent, which may be higher or lower than the existing lease rate.

Insurance. Following the devastating hurricanes of 2004 and 2005, the insurance market for properties located in coastal and wind prone areas of the country has been extremely volatile. Following a mild hurricane season in 2006, insurance premiums moderated and the Company renewed its property and casualty insurance policy on April 1, 2007, with an overall decrease in premium cost compared to the previous 16-month policy period. While most individual properties experienced a decline in premium, properties located in coastal or wind prone areas did experience rate increases. Increases or decreases in insurance costs directly related to each property are passed through to customers to the extent allowed by the lease terms. Upon renewal, the deductible for wind damage for properties located in Florida increased from 2% of replacement cost to 5% of replacement cost and for properties located in Harris and Fort Bend County in Texas, deductibles for wind damage increased from 2% to 3% of replacement cost. The new policy will be in effect until April 1, 2008, at which time these lines of coverage will be renewed under market conditions that exist at that time.

Forward-Looking Statements

In addition to historical information, certain sections of this Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, such as those that are not in the present or past tense, that discuss the Company's beliefs, expectations or intentions or those pertaining to the Company's capital resources, profitability and portfolio performance and estimates of market rental rates. Forward-looking statements involve numerous risks and uncertainties. The following factors, among others discussed herein and in the Company's filings under the Securities Exchange Act of 1934, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: defaults or non-renewal of leases, increased interest rates and operating costs, failure to obtain necessary outside financing, difficulties in identifying properties to acquire and in effecting acquisitions, the failure to acquire or sell properties as and when anticipated, failure to qualify as a real estate investment trust under the Internal Revenue Code of 1986, as amended, environmental uncertainties, risks related to natural disasters, financial market fluctuations, changes in real estate and zoning laws and increases in real property tax rates. The success of the Company also depends upon the trends of the economy, including interest rates, income tax laws, governmental regulation, legislation, population changes and those risk factors discussed elsewhere in this Form 10-Q and in the Company's filings under the Securities Exchange Act of 1934. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as the date hereof. The Company assumes no obligation to update forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See information appearing under the caption "Liquidity" in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the Company's most recent fiscal quarter, the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings.

During the period covered by this report, the Company reviewed its internal controls, and there have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Parkway's Form 10-K for the year ended December 31, 2006.
