FINANCIAL OVERVIEW

Diversified and High Quality Loan Portfolio

\$28 Billion Loan Portfolio \$BN

Loan Quality Notably Better than Industry Averages

All data is as of 3/31/10. NPAs = Nonperforming Assets. NCOs = Net Charge-offs

High Quality Securities Portfolio

- High quality, short duration securities portfolio
- 90% invested in U.S. Treasury, government sponsored agency and triple-A rated securities
- Minimal level of unrealized losses due to long-term focus on conservative, high quality investments

Securities Portfolio \$BN

Consistently Strong Capital Ratios

- Capital ratios well above “well capitalized” guidelines
- High percentage of common equity

Capital Ratios	3/31/09	3/31/10

Tangible Common Equity	5.9%	7.9%

FINANCIAL OVERVIEW

Financial Implications of the Current Environment

Northern Trust

Trust, Investment and Other Servicing Fees

- 52% of FY2009 revenue
- Based generally on market value of client assets, volume of transactions and fees for other services rendered
- Extremely low short term interest rates have resulted in waived fees in money market mutual funds, which equaled \$20 million in 1Q 2010 (\$80 million annualized)

Trust, Investment and Other Servicing Fees \$MM
(Excludes impact of mark to market fund)

Securities Lending Fees

- 4% of FY2009 revenue
- Affected by market values; supply of securities to be lent; demand for securities (all of which drive volumes); and the interest rate spread earned on reinvested collateral
- Credit crisis caused spread widening from 2H2007 through 1H2009 when compared with historical averages
- Extremely low short-term interest rates and more conservative investment guidelines have compressed fee realization in 2010

Foreign Exchange Trading Income

- 12% of FY2009 revenue
- Foreign exchange services provided to clients as an integral part of global custody service
- Credit crisis heightened market and currency volatility in 2007-2009 when compared with historical averages

Foreign Exchange Trading Income \$MM

Net Interest Income

- 27% of FY2009 revenue
- Liability driven balance sheet fuels significant generation of deposits from institutional and personal clients
- Credit crisis has pressured net interest margin due to extremely low short-term interest rates
- Net interest margin in 1Q 2010 of 1.44% well below 2003-2008 average of 1.74%

Net Interest Income \$MM

Loan Loss Provision

- Lending strategy focuses on personal and institutional clients who are looking to establish a full range of financial services with Northern Trust
- Long-standing adherence to conservative lending standards
- Centralized credit policy function assures uniform application of credit risk management policies and practices
- Elevated loan loss provision in current cycle reflects ongoing weakness in the broader economic environment

Loan Loss Provision \$MM

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	1Q10

Key Takeaways

- Leadership positions in excellent client-focused businesses
- Attractive client, geographic and demographic growth opportunities
- Long track record of serving clients and successfully aggregating assets
- Distinctive balance sheet and capital strength
- Proven record of managing the business for long-term growth and profitability
