

ALLIANCEBERNSTEIN INVESTMENTS, INC.
(an indirect wholly-owned subsidiary of
AllianceBernstein L.P.)
Notes to the Statement of Financial Condition
December 31, 2020

1. Organization and Summary of Operations

AllianceBernstein Investments, Inc. (“**AllianceBernstein Investments**” or the “**Company**”) is a wholly-owned subsidiary of AllianceBernstein Corporation of Delaware, which is a wholly-owned subsidiary of AllianceBernstein L.P. (“**AB**” or the “**Parent**”), which is majority-owned by Equitable Holdings, Inc. (“**EQH**”), the holding company for a diversified financial services organization.

The Company serves as a distributor and/or underwriter for certain registered investment companies and other investment vehicles managed by AB (“**AB Mutual Funds**”). The Company is registered as a broker-dealer under the Securities and Exchange Act of 1934, as amended (“**Exchange Act**”).

2. Summary of Significant Accounting Policies

Basis of Presentation

The statement of financial position has been prepared in accordance with accounting principles generally accepted in the United States of America (“**US GAAP**”). The preparation of the statement of financial position requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position. Actual results could differ materially from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, money market accounts, and highly liquid investments with original maturities of three months or less. Due to the short-term nature of these instruments, the recorded value has been determined to approximate fair value and is considered Level 1 in the fair value hierarchy. Cash equivalents at December 31, 2020 include \$55.3 million invested in a third-party money market fund that is registered under the Investment Company Act of 1940.

Deferred Sales Commissions, Net

The Company pays commissions to financial intermediaries in connection with the sale of shares of open-end AB sponsored mutual funds sold without a front-end sales charge (“**back-end load shares**”). These commissions are capitalized as deferred sales commissions and amortized over periods not exceeding one year for U.S. fund shares and four years for Non-U.S. fund shares, the periods of time during which deferred sales commissions generally are recovered. The Company recovers these commissions from distribution services fees received from those funds and from contingent deferred sales commissions (“**CDSC**”) received from shareholders of those funds upon the redemption of their shares. CDSC cash recoveries are recorded as reductions of unamortized deferred sales commissions when received.

The Company periodically reviews the deferred sales commission asset for impairment as events or changes in circumstances indicate that the carrying value may not be recoverable. If these factors indicate impairment in value, management compares the carrying value to the undiscounted cash flows expected to be generated by the asset over its remaining life. If management determines the deferred sales commission asset is not fully recoverable, the asset will be deemed impaired and a loss will be recorded in the amount by which the recorded amount of the asset exceeds its estimated fair value. There were no impairment charges recorded during 2020.

Loss Contingencies

With respect to all significant litigation matters, we consider the likelihood of a negative outcome. If we determine the likelihood of a negative outcome is probable and the amount of the loss can be reasonably estimated, we record an estimated loss for the expected outcome of the litigation. If the likelihood of a negative outcome is reasonably possible and we are able to determine an estimate of the possible loss or range of loss in excess of amounts already accrued, if any, we disclose that fact together with the estimate of the possible loss or range of loss. However, it is often difficult to predict the outcome or estimate a possible loss or range of loss because litigation is subject to inherent uncertainties, particularly when plaintiffs allege substantial or indeterminate damages. Such is also the case when the litigation is in its early stages or when the litigation is highly complex or broad in scope. In these cases, we disclose that we are unable to predict the outcome or estimate a possible loss or range of loss.

Subsequent Events

We evaluated subsequent events through February 26, 2021, the date this financial statement was available to be issued. No subsequent events were identified.

3. Income Taxes

The Company is included in the consolidated federal income tax return filed by AllianceBernstein Corporation of Delaware. The Company files separate state and local income tax returns. Federal, state and local income tax expense is computed on a separate company basis.

The effect of a tax position is recognized in the financial statements only if, as of the reporting date, it is “more likely than not” to be sustained based on its technical merits and their applicability to the facts and circumstances of the tax position. In making this assessment, the Company must assume that the taxing authority will examine the tax position and have full knowledge of all relevant information. Accordingly, the Company has no liability for unrecognized tax benefits as of December 31, 2020.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. As of December 31, 2020, the Company had a net deferred tax asset primarily related to long-term incentive compensation of \$2.4 million. Management has determined that realization of the net deferred tax asset is more likely than not based on anticipated future taxable income.

The Company is generally no longer subject to U.S. federal, or state and local tax examinations by tax authorities for any year prior to 2016 except as noted below.

Subject to the results of any future examinations for the tax years 2016 and forward, there is the possibility that we may set up reserves, including accrued interest, over the next twelve months.

4. Deferred Sales Commission, Net

The amount recorded for the net deferred sales commission asset was \$64.1 million as of December 31, 2020.

The components of deferred sales commissions, net (excluding amounts related to fully amortized deferred sales commissions) for the year ended December 31, 2020 were as follows (in thousands):

Carrying amount of deferred sales commission	\$ 116,484
Less: Accumulated amortization	(30,001)
Cumulative CDSC received	(22,417)
Deferred sales commission, net	<u>\$ 64,066</u>

Amortization expense was \$27.4 million for the year ended December 31, 2020. Estimated future amortization expense related to the December 31, 2020 net asset balance, assuming no additional CDSC is received in future periods, is as follows (in thousands):

2021	\$ 28,963
2022	23,637
2023	10,793
2024	673
Total	<u>\$ 64,066</u>

5. Commitments and Contingencies

Legal and Regulatory Proceedings

The Company may be involved in various matters, including regulatory inquiries, administrative proceedings and litigation, some of which may allege substantial damages. It is reasonably possible that we could incur losses pertaining to these matters, but we cannot currently estimate any such losses.

Management, after consultation with legal counsel, currently believes that the outcome of any individual matter that is pending or threatened, or all of them combined, will not have a material adverse effect on the Company's results of operations, financial condition or liquidity. However, any inquiry, proceeding or litigation has an element of uncertainty; management cannot determine whether further developments relating to any individual matter that is pending or threatened, or all of them combined, will have a material adverse effect on the Company's results of operations, financial condition or liquidity in any future reporting period.

6. Related Party Transactions

During 2020, Equitable Advisors, LLC ("**Equitable Advisors**"), a subsidiary of EQH, distributed AB Mutual Funds for which it received distribution payments which totaled \$2.0 million for the year ended December 31, 2020. Included in due to affiliates, as of December 31, 2020, are distribution payments owed to Equitable Advisors aggregating \$0.5 million. Also, Equitable Advisors provides certain distribution and other services including but not limited to: access to dedicated relationship management, national meetings, branch offices, sales

Notes to the Statement of Financial Condition
December 31, 2020

desk and national/regional speaking opportunities pursuant to Equitable Advisors' Financial Support Program. Due to affiliates includes \$0.2 million relating to these services at December 31, 2020.

Employees of the Company are eligible to participate in a 401(k) plan maintained by AB. Employer contributions are discretionary and generally are limited to the maximum amount deductible for federal income tax purposes.

Certain employees of the Company participate in unfunded, non-qualified deferred compensation plans maintained by AB. Aggregate awards made to these plans by AB on behalf of employees of the Company for 2020 were \$3.2 million.

7. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The three broad levels of fair value hierarchy are as follows:

- Level 1 – Quoted prices in active markets that are available for identical assets or liabilities as of the reported date.
- Level 2 – Quoted prices in markets that are not active or other pricing inputs that are either directly or indirectly observable as of the reported date.
- Level 3 – Prices or valuation techniques that are both significant to the fair value measurement and unobservable as of the reported date. These financial instruments do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

Assets Measured at Fair Value on a Recurring Basis

We invest excess cash in various money market funds (\$55.3 million as of December 31, 2020) that are valued based on quoted prices in active markets; as such, these are included in Level 1 of the valuation hierarchy.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

The Company did not have any material assets or liabilities that were measured at fair value for impairment on a nonrecurring basis during the year ended December 31, 2020.

US GAAP requires disclosure of the estimated fair value of certain financial instruments and the methods and significant assumptions used to estimate their fair values. Certain financial instruments that are not carried at fair value on the balance sheet are carried at amounts that approximate fair value due to their short-term nature and generally negligible credit risk. These instruments include cash and cash equivalents, receivables from AB Mutual Funds, receivables from Parent, receivables from affiliates, other assets, due to affiliates, payable to brokers and dealers and accounts payable.

8. Net Capital

The Company is subject to the minimum net capital requirements imposed under Rule 15c3-1 of the Exchange Act. In 2011, pursuant to section (a)(1)(ii) of the Net Capital Rule, the Company notified FINRA of its election not to be subject to the Aggregate Indebtedness Standard of paragraph (a)(1)(i). As a result, the Company has elected to utilize the Alternative Standard under the Net Capital Rule. As such, the Company is subject to a net capital requirement of \$250,000 as the Company is exempt from the service requirements pursuant to Securities Exchange Rule 15c3-3(k)(1), the Customer Protection Rule. As of December 31, 2020, the Company's net capital of \$32.1 million was \$31.8 million in excess of its required net capital of \$0.3 million.
