**FOR IMMEDIATE RELEASE**

### Washington Trust Announces Fourth Quarter 2009 Earnings

**Westerly, Rhode Island**...Washington Trust Bancorp, Inc. (NASDAQ Global Select; symbol: WASH), parent company of The Washington Trust Company, today announced fourth quarter 2009 net income of \$4.7 million, or 30 cents per diluted share, compared to fourth quarter 2008 net income of \$4.2 million, or 27 cents per diluted share. For the year ended December 31, 2009, net income amounted to \$16.1 million, or \$1.00 per diluted share, compared to \$22.2 million, or \$1.57 per diluted share, for 2008.

Earnings in the fourth quarter of 2009 were influenced by the following:

- Credit-related impairment losses of \$679 thousand (\$438 thousand after tax; 3 cents per diluted share) were charged to earnings in the fourth quarter of 2009 for an investment security deemed to be other -than-temporarily impaired. Impairment losses of \$2.9 million (\$1.9 million after tax; 12 cents per diluted share) were recognized in earnings in the fourth quarter of 2008.
- The loan loss provision charged to earnings amounted to \$2.0 million for the fourth quarter of 2009, compared to \$1.9 million for the fourth quarter of 2008.
- Federal Deposit Insurance Corp. ("FDIC") deposit insurance premiums for the fourth quarter of 2009 were up by \$523 thousand from the fourth quarter a year earlier, reflecting higher assessment rates.

Selected Fourth Quarter 2009 developments:

- Wealth management revenues for the fourth quarter of 2009 increased by \$321 thousand, or 5 percent, from the third quarter of 2009. These revenues were \$196 thousand, or 3 percent, higher than fourth quarter 2008; the first year over year quarterly increase in 2009. Assets under administration increased by \$167 million and \$623 million, respectively, in the quarter and year ended December 31, 2009.
- Net gains on loan sales and commissions on loans originated for others for the fourth quarter of 2009 were up by \$574 thousand from the third quarter of 2009 and by \$932 thousand from the fourth quarter a year ago, due to strong residential mortgage refinancing and sales activity.

- Total loans increased by \$13 million, or 1 percent, in the fourth quarter of 2009, with commercial loan growth of \$8 million. Commercial loans have increased \$104 million, or 12 percent, from the balance at December 31, 2008.
- Total in-market deposits grew by \$38 million, or 2 percent, in the fourth quarter of 2009, due to increases in money market and NOW account balances. In-market deposit growth was strong in 2009 with a total increase of \$226 million, or 14 percent, during the year.
- Nonperforming assets amounted to \$30.5 million, or 1.06 % of total assets, at December 31, 2009 up from \$27.9 million, or 0.97% of total assets, at September 30, 2009. Total loans 30 days or more past due stood at \$30.7 million at December 31, 2009, up by \$739 thousand in the fourth quarter. This was the smallest quarterly delinquency increase in 2009.

“In 2009, Washington Trust achieved double-digit increases in commercial lending and wealth management assets under management, as well as excellent growth in both deposits and mortgage banking activity,” stated John C. Warren, Chairman and Chief Executive Officer. “Despite this solid performance, earnings continue to be affected by a weak economy.”

#### Net Interest Income

Net interest income for the fourth quarter of 2009 increased \$220 thousand, or 1 percent, from the third quarter of 2009 and decreased \$640 thousand, or 4 percent, from the fourth quarter a year ago. On a year-to-date basis, net interest income increased by \$379 thousand, or 1 percent, from 2008. No dividend was received from the Federal Home Loan Bank of Boston (“FHLBB”) in 2009, compared to \$264 thousand and \$1.3 million, respectively, for the quarter and year ended December 31, 2008.

The net interest margin (annualized tax-equivalent net interest income as a percentage of average earning assets) for the fourth quarter of 2009 was 2.56%, up 5 basis points from the third quarter of 2009 primarily due to a 16 basis point decline in the effective rate paid on interest-bearing deposits. The quarterly net interest margin was 9 basis points lower than the fourth quarter of 2008. On a year-to-date basis, the net interest margin was 2.48%, down 16 basis points from 2008. The decreases in net interest margin from 2008 reflect the elimination of FHLBB dividend income and margin compression, in general, on core deposit rates, as well as the impact of higher levels of nonaccrual loans in 2009 compared to 2008.

Noninterest Income

Wealth management revenues for the fourth quarter of 2009 increased by \$321 thousand, or 5 percent, from the third quarter of 2009 and increased by \$196 thousand, or 3 percent, from the fourth quarter a year ago. On a year-to-date basis, wealth management revenues were down \$4.5 million, or 16 percent, from 2008. Assets under administration totaled \$3.770 billion at December 31, 2009, up \$167 million, or 5 percent, from September 30, 2009. This fourth quarter 2009 increase in assets under administration reflected net market value appreciation and income of \$89 million and net client cash flows of \$78 million. Assets under administration were 20 percent higher than the balance at December 31, 2008.

Residential mortgage refinancing and sales activity continued at a strong pace in the fourth quarter of 2009. Net gains on loan sales and commissions on loans originated for others for the fourth quarter of 2009 were up by \$574 thousand from the third quarter of 2009 and up by \$932 thousand from the fourth quarter a year ago. On a year-to-date basis, this revenue source increased by \$3.0 million from 2008.

There were no net realized gains on sales of securities in the fourth quarter of 2009, compared to \$315 thousand recognized in the fourth quarter a year earlier. On a year-to-date basis, net realized gains on sales of securities totaled \$314 thousand in 2009 and \$2.2 million in 2008.

Net unrealized gains on interest rate swap contracts amounted to \$204 thousand and \$697 thousand, respectively, for the quarter and year ended December 31, 2009. For the same periods in 2008, the Corporation recognized net unrealized losses of \$663 thousand and \$542 thousand, respectively.

Other-than-temporary impairment losses on investment securities amounted to \$679 thousand in the fourth quarter of 2009, \$467 thousand in the third quarter of 2009 and \$2.9 million in the fourth quarter of 2008. On a year-to-date basis, impairment losses on investment securities totaled \$3.1 million in 2009 and \$5.9 million in 2008.

Noninterest Expenses

Noninterest expenses for the fourth quarter of 2009 remained essentially flat compared to the third quarter of 2009 and increased by \$1.2 million, or 7 percent, from the fourth quarter of 2008. This year over year increase in fourth quarter noninterest expenses was largely due to higher FDIC deposit insurance costs and increases in staffing. On a year-to-date basis, total noninterest expenses increased by \$5.4 million, or 8 percent, from 2008, which included a \$3.4 million increase in FDIC deposit insurance costs.

---

Income tax expense amounted to \$1.9 million and \$6.3 million, respectively, for the quarter and year ended December 31, 2009, as compared to \$167 thousand and \$7.3 million, respectively, for the same periods in 2008. The effective tax rate for the fourth quarter and year ended December 31, 2009 was 28.7% and 28.3%, respectively, as compared to 3.8% and 24.8% for the same periods a year earlier. Non-core income tax benefits of \$1.4 million (10 cents per diluted share) were recognized in the third and fourth quarters of 2008 resulting from changes in state income tax statutes and the resolution of certain tax positions. Excluding these non-core factors, the Corporation's effective tax rate for 2008 was 29.6%.

#### Asset Quality

Nonperforming assets (nonaccrual loans, nonaccrual investment securities and property acquired through foreclosure) amounted to \$30.5 million, or 1.06% of total assets, at December 31, 2009, compared to \$27.9 million, or 0.97% of total assets, at September 30, 2009. Nonaccrual loans totaled \$27.5 million at December 31, 2009, up by \$2.3 million in the fourth quarter of 2009, reflecting net increases of \$1.6 million in nonaccrual commercial loans and \$725 thousand in nonaccrual residential mortgages. Property acquired through foreclosure or repossession amounted to \$2.0 million at December 31, 2009, compared to \$1.2 million at September 30, 2009.

At December 31, 2009, total loans 30 days or more past due amounted to \$30.7 million, or 1.60% of total loans, up by \$739 thousand from September 30, 2009 and by \$13.1 million from December 31, 2008. The fourth quarter increase in delinquencies compares to average quarterly increases of \$4.1 million in each of the previous three quarters. Commercial loan delinquencies amounted to \$21.7 million, or 2.21% of total commercial loans, at December 31, 2009, down by \$422 thousand in the fourth quarter of 2009. Total residential mortgage and consumer loan delinquencies amounted to \$9.0 million, or 0.96% of these loans, at December 31, 2009, up by \$1.2 million in the fourth quarter of 2009.

The loan loss provision charged to earnings amounted to \$2.0 million for the fourth quarter of 2009, compared to \$1.8 million for the third quarter of 2009 and \$1.9 million for the fourth quarter of 2008. For the years ended December 31, 2009 and 2008, the loan loss provision totaled \$8.5 million and \$4.8 million, respectively. Net charge-offs amounted to \$1.0 million in the fourth quarter of 2009, compared to \$1.4 million in the third quarter of 2009. Net charge-offs were \$756 thousand in the fourth quarter of 2008. On a year-to-date basis, net charge-offs totaled \$4.8 million in 2009 and \$1.4 million in 2008.

- M O R E -

We believe that the declining credit quality trend experienced in 2009 is primarily related to weakened national and regional economic conditions. These conditions, including high unemployment levels, may continue for the next few quarters. Management will continue to assess the adequacy of the allowance for loan losses in accordance with its established policies. The allowance for loan losses was \$27.4 million, or 1.43% of total loans, at December 31, 2009, compared to \$23.7 million, or 1.29% of total loans, at December 31, 2008.

#### Loans

Total loans grew by \$13 million in the fourth quarter of 2009, with the largest increase in commercial loans. The commercial real estate portfolio grew by \$17 million in the fourth quarter, offset in part by a \$9 million decline in other commercial loans. The residential mortgage portfolio balances were essentially flat in the fourth quarter 2009, while the consumer loan portfolio increased by \$4 million. Total loans grew by \$81 million, or 4 percent, from the balance at December 31, 2008, with commercial real estate loan growth of \$112 million, or 24 percent.

#### Investment Securities

The investment securities portfolio amounted to \$691 million at December 31, 2009, down by \$41 million in the fourth quarter of 2009 and down by \$175 million from the balance at December 31, 2008. The largest component of the investment securities portfolio is mortgage-backed securities, all of which are issued by U.S. Government agencies or U.S. Government-sponsored enterprises. At December 31, 2009, the net unrealized gain position on the investment securities portfolio was \$13.8 million, including gross unrealized losses of \$14.7 million. Approximately 94% of the gross unrealized losses on the investment securities portfolio were concentrated in variable rate trust preferred securities issued by financial services companies. During the fourth quarter of 2009, net impairment losses of \$679 thousand were charged to earnings on a pooled trust preferred debt security deemed to be other-than-temporarily impaired.

#### Deposits and Borrowings

Total deposits amounted to \$1.923 billion at December 31, 2009, up by \$29 million, or 2 percent, from September 30, 2009 and by \$132 million, or 7 percent, from December 31, 2008. Excluding out-of-market brokered certificates of deposit, in-market deposits grew by \$38 million, or 2 percent, during the fourth quarter of 2009. On a year-to-date basis, in-market deposits increased by \$226 million, or 14 percent, in 2009 which included \$42 million in wealth management client money market deposits previously held in outside money market funds.

(c) Consists of various series of trust preferred securities issued by seven corporate financial institutions.

(d) This investment security is not rated by S&P. As of December 31, 2009, 15 of the 38 pooled institutions have invoked their original contractual right to defer interest payments. This investment security was placed on nonaccrual status as of March 31, 2009. During the quarter ended March 31, 2009, an adverse change occurred in the expected cash flows for this instrument indicating that, based on cash flow forecasts with regard to timing of deferrals and potential future recovery of deferred payments, default rates, and other matters, the Corporation will not receive all contractual amounts due under the instrument and will not recover the entire cost basis of the security. The Corporation had concluded that these conditions warranted a conclusion of other-than-temporary impairment for this holding as of March 31, 2009 and recognized credit-related impairment losses of \$1.4 million in earnings in the first quarter of 2009.

(e) This investment security is not rated by S&P. As of December 31, 2009, 20 of the 73 pooled institutions have invoked their original contractual right to defer interest payments. In the fourth quarter of 2008, the tranche held by Washington Trust began deferring interest payments until future periods. This investment security was placed on nonaccrual status as of December 31, 2008. During the quarter ended September 30, 2009, an adverse change occurred in the expected cash flows for this instrument indicating that, based on cash flow forecasts with regard to timing of deferrals and potential future recovery of deferred payments, default rates, and other matters, Washington Trust will not receive all contractual amounts due under the instrument and will not recover the entire cost basis of the security. The Corporation had concluded that these conditions warrant a conclusion of other-than-temporary impairment for this holding as of September 30, 2009 and recognized credit-related impairment losses of \$467 thousand in earnings in the third quarter of 2009. During the quarter ended December 31, 2009, the Corporation recognized additional credit-related impairment losses on this security of \$679 thousand.

The following tables present average balance and interest rate information. Tax-exempt income is converted to a fully taxable equivalent basis using the statutory federal income tax rate adjusted for applicable state income taxes net of the related federal tax benefit. For dividends on corporate stocks, the 70% federal dividends received deduction is also used in the calculation of tax equivalency. Unrealized gains (losses) on available for sale securities are excluded from the average balance and yield calculations. Nonaccrual and renegotiated loans, as well as interest earned on these loans (to the extent recognized in the Consolidated Statements of Income) are included in amounts presented for loans.
