Note 10. Commitments and Contingencies

Series C Out-Performance Program, page 66

1. Please provide us with more details regarding the valuation of the Series C Out-Performance shares. Specifically address whether you are arriving at the value of the Out-Performance shares by discounting the expected dividend stream, and if so specify the assumptions used for future dividend payments. In addition, tell us the basis for each of the assumptions you used to value the Series C Out-Performance shares. Tell us how you determined that it was appropriate to take discounts to reflect the non-transferability of the shares and to reflect the increased potential tax liability of the holder. In your response provide us with the amount of each discount taken.
