

NAREIT Chicago

October 10 - 12, 2001

Overview of Company

- 30 Year History of Quality and Performance
- Class B Apartments – Garden Style
- Diversified Portfolio Across Growing Markets
- 3rd Largest Apartment REIT
- Market Capitalization of \$4.0 Billion
- 25 Consecutive Years of Dividend Increases
- 78,000 Units
- 62 Markets, No One Market More Than 6%

Investment Decision Making

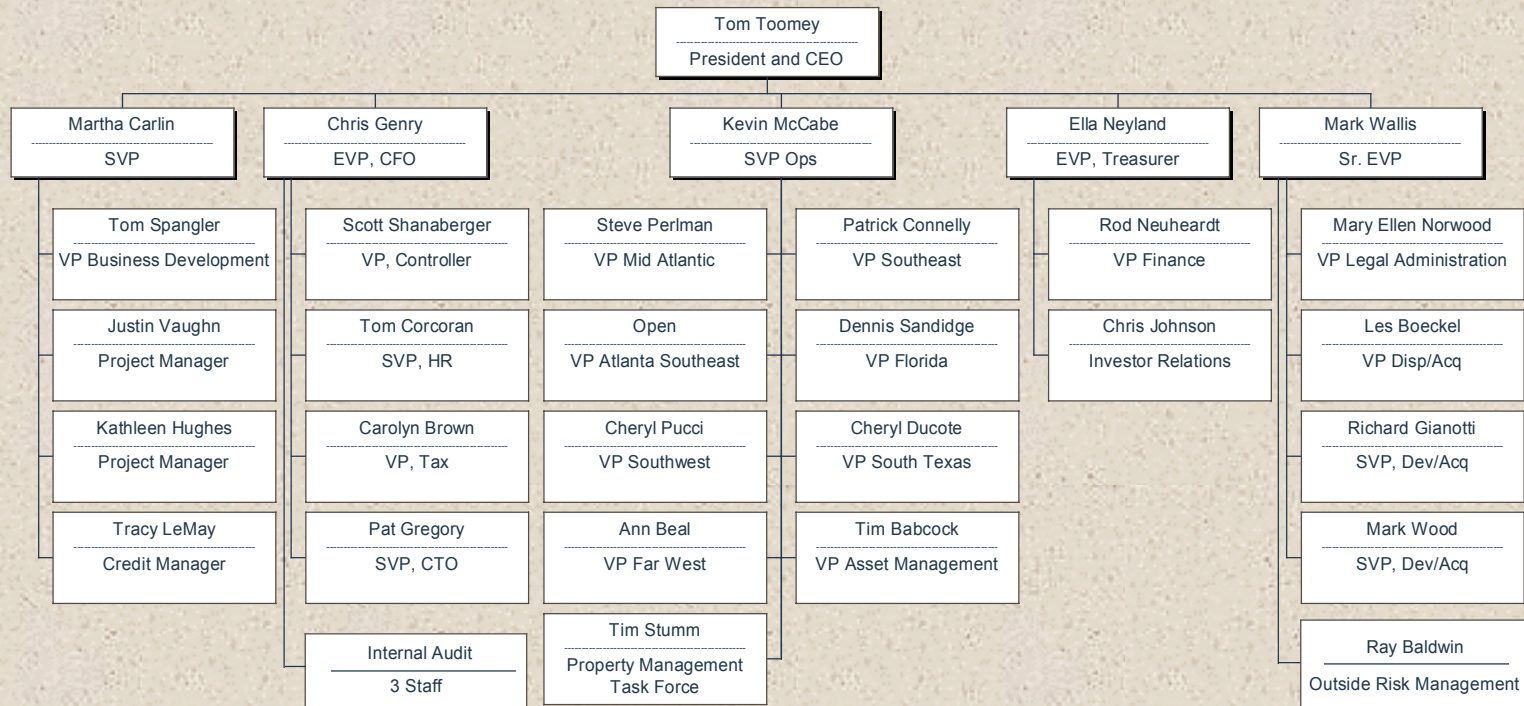

- Why Invest in REITs?
 - Liquid investment
 - Real property assets
 - Dividends
- Why Invest in Apartment REITs?
 - Relative resiliency of housing fundamentals
 - Construction and lending remain in check
 - Only REITs with access to Fannie and Freddie
- Why Invest in UDR?
 - Diversified portfolio with large customer base
 - 7% discount to NAV
 - 15-18% total returns projected for 2002

New Management Team

- Events:
- February – New CEO
 - April – New Management Team
 - All have multi-family experience
 - All have worked together

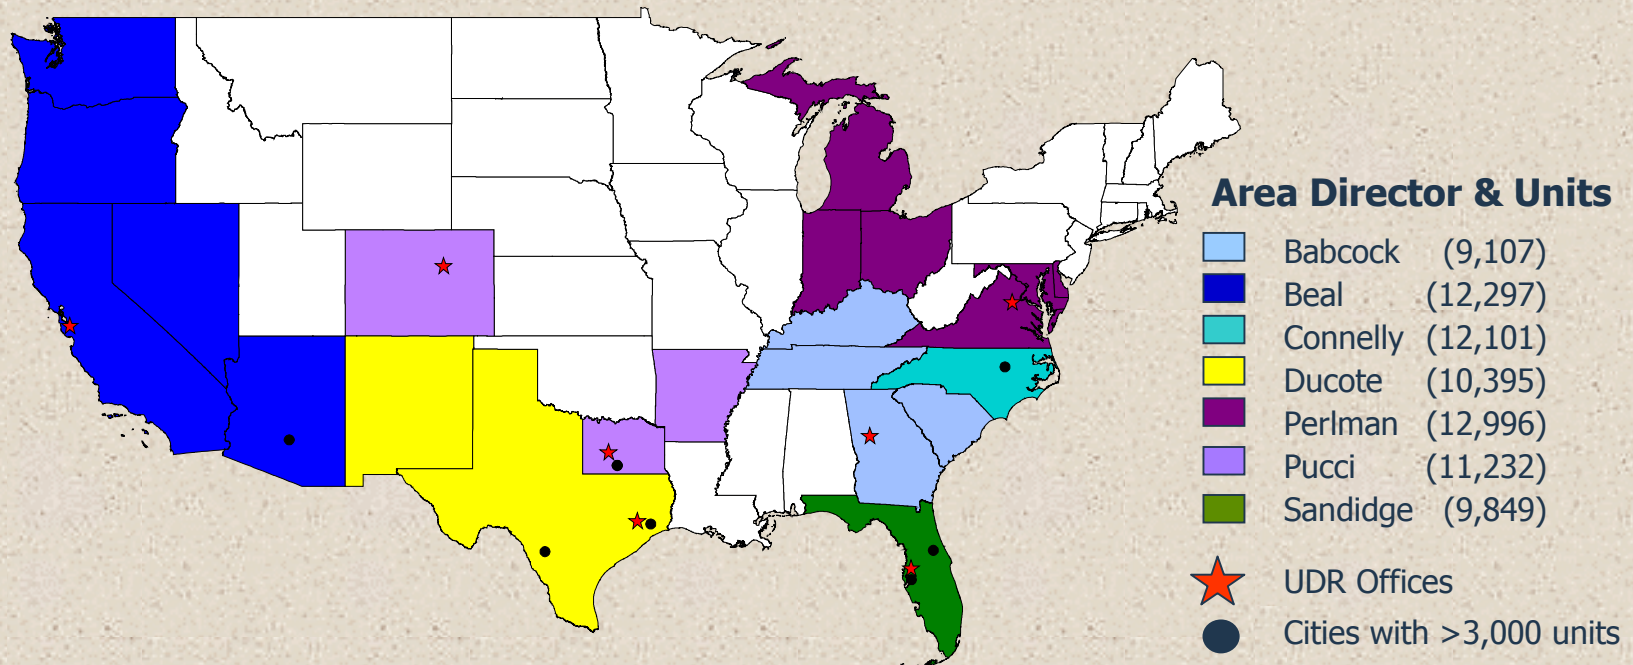

Mark Wallis	Sr. EVP	Strategic Planning, Acquisition & Development
Chris Genry	CFO	Financial Reporting, Technology and Human Resources
Ella Neyland	EVP	Treasurer/Investor Relations
Martha Carlin	SVP	Operations
Kevin McCabe	SVP	Property Operations

Management Organization

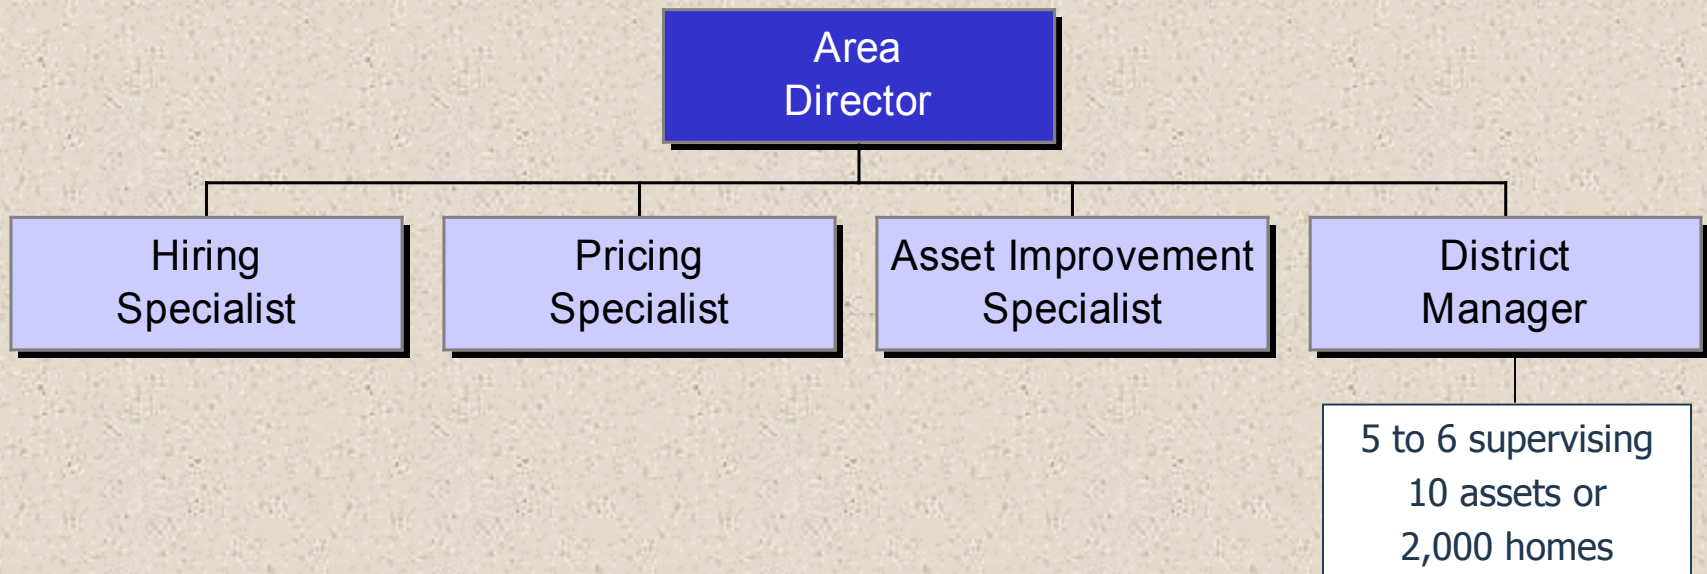

Property Management Organization

- Decentralized Property Management Team
 - Experienced local experts
 - Flat organization

Typical Area Operating Organization

- Self Sufficient Organizations
- Operate Autonomously to React to Markets in Real Time

Bottom Line Orientation

- Forced Ranking of Personnel Based Upon Performance
- All Incentive Plans Tied to Cash Flow Improvement Over Prior Years
- Long-Term Performance and Retention Program via Restricted Stock and Out-Performance Program

Business Plan for 2002

- Increased Operating Efficiency
- Continue Improvement in Asset Quality
- Portfolio Repositioning Strategy

Increased Operating Efficiency Managing the Business

Management has developed a program whereby key metrics are monitored on a timely basis to ensure financial performance is optimized. The discussion that follows highlights those key metrics and their progress since the new management team.

	<u>Monitored</u>
Revenue	Weekly
Expenses	Weekly
Corporate Overhead	Monthly
Interest	Monthly
Capital Replacements	Monthly

In addition to the practices outlined above and the following pages, management utilizes third party data to evaluate its performance.

Revenue: Quarterly comparison by market: rent, concessions and occupancy, via Axiometrics, which covers over one million units.

Expenses: Annual comparison to IREM.

For both areas we compare UDR results to our peers.

Managing Revenues

These metrics are used to manage rental revenues on a weekly basis.

**Physical Occupancy
1999-2001**

**Month-to-Month Leases
Apr-Sep 01**

**60+ Day Vacants
2001**

**Average Rent per Occupied Unit
2001**

**Turnover
1999-2001**

Managing Expenses

Expenses will be managed according to our annual budget. Additionally, management monitors total expenses by asset on a weekly basis comparing to prior year and quarter-to-date. Selected expenses are monitored as stated below.

Breakdown of Expenses

Category	Projected Year End
Taxes	\$ 52.9
Insurance	12.4
Utilities	24.0
Repairs & Maintenance	33.0
Personnel	60.6
Admin & Marketing	20.7
TOTAL	\$203.6

Managing Expense

Expenses are generally managed through a budget process. Additionally, management monitors total expenses by asset on a weekly basis comparing to prior year and quarter-to-date. Expenses are monitored as stated below.

Taxes:

- Centralized Operations to One Department in July
- Centralized Web-based data management system
- Planned reduction in number of consultants for 2002
- Increased systematic focus at site level for issues that will reduce taxes

Insurance:

- Material losses are reported via email immediately
- Monthly reporting
- Re-bid all programs - ongoing

Utilities:

- Centralized data collection and standardized
- Monthly review of water and gas billing an collections to improve re-bill penetration
- Implemented bill management systems to collect rate and usage data for better commodity management

Repairs & Maintenance and Admin & Marketing

- Weekly company wide A/P reporting
- Budget vs. Actual
- Vendor pricing re-bid periodically

Managing Overhead

Expenses for overhead are managed through a budget process, and historical budgets and costs have been reassessed for improvement opportunities.

Breakdown of Overhead

Management Approach	Process
Payroll Box	<ul style="list-style-type: none"> Specific number of employees based on each department Bi-Weekly monitoring of box compliance
Outsource and Capitalize Deal Costs	<ul style="list-style-type: none"> Reduced payroll/headcount in the areas of in-house legal counsel
Manage Accountability and Incentives	<ul style="list-style-type: none"> Department heads are accountable for expenses and incentives to reduce costs
Run like a Project <ul style="list-style-type: none"> Establish Metrics Efficiency Task Teams Measure Progress 	<ul style="list-style-type: none"> Evaluating cost per invoice and paycheck processed, cost per new hire, benefits costs per EE, support costs per PC, etc., to compare ourselves to best practices data and set goals for improvement

Improvement in Asset Quality

- Continue the Trend of Improving Age and Rents
- Disciplined Development Activities
- Reinvesting in Assets Through Maintenance and Capital Spending

• 2002 Earnings Range	\$1.65	-	\$1.65

Impact of A Recession

- Negative
 - Decreasing occupancy levels
 - Restricts ability to raise rents
 - Bad debt and concessions increase
 - Slower sales
- Positive
 - Fewer residents buy homes
 - Lower interest rates
 - Acquisition opportunities

Lasting Impressions ...

- FFO Growth of 8-10%
- Dividend Yield of 7-8%

Total Return of 15-18%
