MAXIM INTEGRATED REPORTS RESULTS FOR THE FOURTH QUARTER OF FISCAL 2013; INCREASES DIVIDEND BY 8%, AUTHORIZES NEW \$1.0 BILLION SHARE REPURCHASE PROGRAM

- **Revenue: \$608 million**
- **Gross Margin: 61.1% GAAP (62.3% excluding special items)**
- **EPS: \$0.40 GAAP (\$0.44 excluding special items)**
- **Cash, cash equivalents, and short term investments: \$1.20 billion**
- **Fiscal first quarter revenue outlook: \$570 million to \$600 million**
- **Quarterly dividend increased 8% to \$0.26 per share**
- **New \$1.0 billion share repurchase program authorized**

SAN JOSE, CA - July 25, 2013 - Maxim Integrated Products, Inc. (NASDAQ:MXIM) reported net revenue of \$608 million for its fourth quarter of fiscal 2013 ended June 29, 2013, an increase from the \$605 million revenue recorded in the prior quarter.

Tunc Doluca, President and Chief Executive Officer, commented, “We are disappointed by the weakness in end market demand for our smartphone products which resulted in revenue and earnings below expectations. This was partially offset by revenue growth in 22 of the 24 market segments that we address. We continue to generate strong profits and cash flow, and we are confident in our strategy and long-term business model as demonstrated by the increase in our dividend and share repurchases.”

Fiscal Year 2013 Fourth Quarter Results

Based on Generally Accepted Accounting Principles (GAAP), diluted earnings per share in the June quarter was \$0.40. The results were primarily affected by an \$11 million pre-tax charge for acquisition related items.

GAAP earnings per share, excluding special items, was \$0.44. An analysis of GAAP versus GAAP excluding special items is provided in the last table of this press release.

Cash Flow Items

At the end of our fourth quarter of fiscal 2013, total cash, cash equivalents and short term investments was \$1.20 billion, a decrease of \$373 million from the prior quarter. Notable items include:

- Debt repayment: \$300 million
- Cash flow from operations: \$214 million
- Net capital expenditures: \$34 million
- Dividends: \$70 million (\$0.24 per share)
- Stock repurchases: \$193 million

Business Outlook

The Company's 90 day backlog at the beginning of the first fiscal quarter of 2014 was \$357 million. Due to weakness in our smartphone business, results for the September 2013 quarter are expected to be:

- Revenue: \$570 million to \$600 million
- Gross Margin: 59% to 62% GAAP (60% to 63% excluding special items)
- EPS: \$0.34 to \$0.38 GAAP (\$0.37 to \$0.41 excluding special items)

Maxim Integrated's business outlook does not include the potential impact of any restructuring activity or mergers, acquisitions, divestitures, or other business combinations that may be completed during the quarter.

Dividend

A cash dividend of \$0.26 per share will be paid on September 5, 2013, to stockholders of record on August 22, 2013. This is an 8% increase in the dividend compared to the prior quarter.

Share Repurchase Program

Maxim Integrated's Board of Directors has authorized the repurchase of up to \$1.0 billion of the Company's Common Stock. All repurchases will be subject to market and economic conditions. The stock repurchase authorization does not have an expiration date and the pace of repurchase activity will depend on factors such as current stock price, levels of cash generation from operations, cash requirements and other factors.

Under the Company's prior repurchase authorization from August 2011, which is now cancelled and superseded by this new authorization, the Company repurchased 23 million shares for \$641 million.

Conference Call

Maxim Integrated has scheduled a conference call on July 25, 2013, at 2:00 p.m. Pacific Time to discuss its financial results for the fourth quarter of fiscal 2013 and its business outlook. To listen via telephone, dial (866) 804-3545 (toll free) or (703) 639-1326. This call will be webcast by Shareholder.com and can be accessed at the Company's website at www.maximintegrated.com/company/investor.

- (3) Includes gain on sale and impairment of privately-held companies.
- (4) Includes impact due to international restructuring.
- (5) Includes gain on sale, net of tax relating to certain businesses divested.

Non-GAAP Measures

To supplement the consolidated financial results prepared under GAAP, Maxim Integrated uses non-GAAP measures which are adjusted from the most directly comparable GAAP results to exclude special items related to intangible asset amortization; impairment of long-lived assets; severance and restructuring; in-process research and development; contingent consideration adjustments relating to certain acquisitions; loss (gain) relating to sale of land and buildings; stock option related litigation; certain payroll taxes; the tax provision impacts due to international restructuring implementation; reversal of tax reserves; fiscal year 2012 research and development tax credits; loss on lease abandonment; and gain on sale, net of tax relating to certain business divested. Management uses these non-GAAP measures internally to make strategic decisions, forecast future results and evaluate Maxim Integrated's current performance. Many analysts covering Maxim Integrated use the non-GAAP measures as well. Given management's use of these non-GAAP measures, Maxim Integrated believes these measures are important to investors in understanding Maxim Integrated's current and future operating results as seen through the eyes of management. In addition, management believes these non-GAAP measures are useful to investors in enabling them to better assess changes in Maxim Integrated's core business across different time periods. These non-GAAP measures are not in accordance with or an alternative to GAAP financial data and may be different from non-GAAP measures used by other companies. Because non-GAAP financial measures are not standardized it may not be possible to compare these financial measures with other companies' non-GAAP financial measures, even if they have similar names. The non-GAAP measures displayed in the table above include the following:

GAAP gross profit excluding special items

The use of GAAP gross profit excluding special items allows management to evaluate the gross margin of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization. In addition, it is an important component of management's internal performance measurement and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP gross profit excluding special items to enable investors and analysts to evaluate our revenue generation performance relative to the direct costs of revenue of Maxim Integrated's core businesses.

GAAP operating expenses excluding special items

The use of GAAP operating expenses excluding special items allows management to evaluate the operating expenses of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization; impairment of long-lived assets;

severance and restructuring; in-process research and development; contingent consideration adjustments relating to certain acquisitions; loss on lease abandonment; loss (gain) relating to sale of land and buildings; certain payroll taxes; and stock option related litigation. In addition, it is an important component of management's internal performance measurement and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP operating expenses excluding special items to enable investors and analysts to evaluate our core business and its direct operating expenses.

GAAP net income and GAAP net income per share excluding special items

The use of GAAP net income and GAAP net income per share excluding special items allow management to evaluate the operating results of Maxim Integrated's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization; impairment of long-lived assets; severance and restructuring; in-process research and development; contingent consideration adjustments relating to certain acquisitions; loss on lease abandonment; loss (gain) relating to sale of land and buildings; stock option related litigation; certain payroll taxes; the tax provision impacts due to international restructuring implementation; reversal of tax reserves; fiscal year 2012 research and development tax credits; and gain on sale, net of tax relating to certain business divested. In addition, they are important components of management's internal performance measurement and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP net income and GAAP net income per share excluding special items to enable investors and analysts to understand the results of operations of Maxim Integrated's core businesses and to compare our results of operations on a more consistent basis against that of other companies in our industry.

“Safe Harbor” Statement

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include the Company's business outlook and financial projections for its first quarter of fiscal 2014 ending in September 2013, which includes revenue, gross margin and earnings per share, as well as the Company's confidence in its strategy and long-term business model as demonstrated by the increase in its dividend and share repurchases. These statements involve risk and uncertainty. Actual results could differ materially from those forecasted based upon, among other things, general market and economic conditions and market developments that could adversely affect the growth of the mixed-signal analog market, product mix shifts, the loss of all or a substantial portion of our sales to one of our large customers, customer cancellations and price competition, as well as other risks described in the Company's Annual Report on

Form 10-K for the fiscal year ended June 30, 2012 (the “10-K”) and Quarterly Reports on Form 10-Q filed after the 10-K.

All forward-looking statements included in this news release are made as of the date hereof, based on the information available to the Company as of the date hereof, and the Company assumes no obligation to update any forward-looking statement except as required by law.
