Average Annual Returns (%)

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of the 2% redemption fee imposed when shares are redeemed or exchanged within 30 calendar days from their date of purchase. If imposed, the fee would reduce the performance quoted. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average

Fund Objectives and Strategy

The Sit Balanced Fund seeks long-term growth consistent with preservation of principal and to provide regular income to shareholders by investing in a diversified portfolio of stocks and bonds. In seeking to achieve its long-term capital growth objective, the Fund invests in common stocks of growth companies. To provide shareholders with regular income, the Fund invests in fixed-income securities and/or common stocks selected primarily for their dividend payment potential.

Risk-Reward Profile

The Fund invests in large cap growth stocks and high quality, intermediate-duration bonds.

Investment Style

The Sit Balanced Fund has moderate risk and moderate reward potentials.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc., an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

Information reported as of September 30, 2017

Return Volatility

Bloomberg Barclays Aggregate Bond Index

Sit Balanged Fund

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the *Balanced Fund returns page*.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The S&P 500® Index is an unmanaged capitalization-weighted index that measures the performance of 500 widely held common stocks of large-cap companies. The Bloomberg Barclays Aggregate Bond Index is an unmanaged market value-weighted index which measures the performance of investment grade debt securities with maturities of at least one year. Total return comprises price appreciation/depreciation and income as a percentage of the original investment. Indices are rebalanced monthly by market capitalization. It is not possible to invest directly in an index.

Fund Objectives and Strategy

The Sit Developing Markets Growth Fund seeks to maximize long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in common stocks of companies domiciled in a developing market. In selecting investments for the Fund, the Adviser selects countries or regions that exhibit positive economic trends, earnings outlook, liquidity within the market, fiscal and monetary policy, currency exchange rate expectations, investment valuation, market sentiment, and social and political trends. The Adviser seeks industries and sectors that appear to have strong earnings growth prospects. Within the selected industries and sectors, the Adviser invests in foreign growthoriented companies it believes exhibit the potential for superior growth.

Risk-Reward Profile

LOW

The Sit Developing Markets Growth Fund has higher risk and higher reward potentials.

Investment Style

The Fund seeks to achieve its objective by investing, under normal market conditions, at least 80% of its net assets in common stocks of companies domiciled or operating in a developing market.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc., an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

Raymond E. Sit

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Stocks of small and medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies, and there may be limited liquidity for certain small cap stocks. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. Risks are enhanced for emerging market issuers. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. MSCI Emerging Markets Index is an unmanaged free float-adjusted market capitalization index that measures equity market performance of emerging markets. It is not possible to invest directly in an index. Weighted Average Market Cap is the average market capitalization of companies held by the Fund, weighted in proportion to their percentage of the Fund's net assets.

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, July 1, 1994. For more complete performance data see the *Developing Markets Growth Fund returns page*.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Stocks of small and medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies, and there may be limited liquidity for certain small cap stocks. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. Risks are enhanced for emerging market issuers. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The *prospectus* may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this *website*. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. MSCI Emerging Markets Index is an unmanaged free float-adjusted market capitalization index that measures equity market performance of emerging markets. It is not possible to invest directly in an index.

Fund Objectives and Strategy

The Sit Dividend Growth Fund seeks current income that exceeds the dividend yield of the S&P 500® Index and grows over a period of years and long-term capital appreciation. To achieve its objectives, the Fund invests, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks. The Adviser invests in dividendpaying, growth-oriented companies it believes exhibit the potential for growth and growing dividend payments. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.

Risk-Reward Profile

The Sit Dividend Growth Fund has moderate risk and moderate reward potentials.

Investment Style

The Fund invests in large cap growth-oriented stocks that pay dividends. The Fund's holdings exhibit a blend of growth and value characteristics.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc., an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Dividend paying stocks may not experience the same capital appreciation as non-dividend paying stocks, and the stocks held by the Fund may reduce or stop paying dividends. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The S&P 500® Index is an unmanaged capitalization-weighted index that measures the performance of 500 widely held common stocks of large-cap companies. It is not possible to invest directly in an index.

SIT ESG GROWTH FUND

Information reported as of September 30, 2017

Average Annual Returns (%)

	Three Month	One Year	Since Inception*
Sit ESG Growth Fund Class I	4.52	16.38	14.32
Sit ESG Growth Fund Class S	4.53	16.16	14.05
MSCI World Index	4.84	18.17	18.68

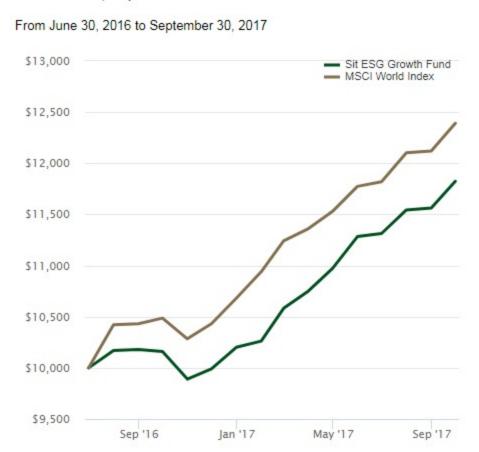

*Inception Date of 6/30/16

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains and all fee waivers. Without the fee waivers, total return figures would have been lower. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Returns by Year (%)

	Fund (Class I)	Index
2016	2.01	6.81
2017	15.91	16.01

Growth of \$10,000

Disclosure

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. The market value of securities held by the Fund may fall or fail to rise. Stocks of companies with ESG practices may not experience the same capital appreciation as companies without ESG practices. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The *prospectus* may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this *website*. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The MSCI World Index represents large and mid-cap equity performance of 23 developed markets countries. It is not possible to invest directly in an index.

3 Month

Fund Objectives and Strategy

The Sit Global Dividend Growth Fund seeks current income that exceeds the dividend yield of the MSCI World Index® and grows over a period of years and long-term capital appreciation. To achieve its objectives, the Fund invests, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks issued by U.S. and foreign companies. The Fund will invest significantly (at least 30% of its net assets) in companies outside the U.S. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.

Risk-Reward Profile

The Sit Global Dividend Growth Fund has medium risk and medium reward potentials.

Investment Style

The Fund invests in large cap, growth-oriented stocks that pay dividends. The Fund's holdings exhibit a blend of growth and value characteristics.

Investment Adviser

management.

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc., an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment

Disclosure

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Dividend paying stocks may not experience the same capital appreciation as nondividend paying stocks, and the stocks held by the Fund may reduce or stop paying dividends. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The MSCI World Index is an unmanaged free float-adjusted market capitalization index that measures the equity market performance of 23 Developed Markets countries.

Average Annual Returns

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Fund Objectives and Strategy

The Sit International Growth Fund seeks long-term growth by investing, under normal market conditions, at least 90% of its net assets in common stocks of companies domiciled outside the United States. In selecting investments for the Fund, the Adviser selects countries or regions that exhibit positive economic trends, earnings outlook, liquidity within the market, fiscal and monetary policy, currency exchange rate expectations, investment valuation, market sentiment, and social and political trends. The Adviser seeks industries and sectors that it believes have earnings growth prospects that are greater than the average. Within the selected industries and sectors, the Adviser invests in foreign growth-oriented companies it believes exhibit the potential for superior growth.

Risk-Reward Profile

higher reward potentials.

Investment Adviser

The Sit International Growth Fund has higher risk and

Investment Style

The Fund invests in common stocks of companies domiciled outside the United States.

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. MSCI EAFE Index (Europe, Australasia, Far East) is an unmanaged free float-adjusted market capitalization index that measures the equity market performance of developed markets, excluding the US & Canada. It is not possible to invest directly in an index.

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Growth of \$10,000

Returns by Year (%)

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Russell 1000® Growth Index is an unmanaged index that measures the performance of those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. Russell 1000 Index is an unmanaged index that measures the performance of approximately 1,000 of the largest U.S. companies by market capitalization. Russell Investment Group is the owner of the registered trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a registered trademark of Russell Investment Group. It is not possible to invest directly in an index.

SIT MID CAP GROWTH FUND

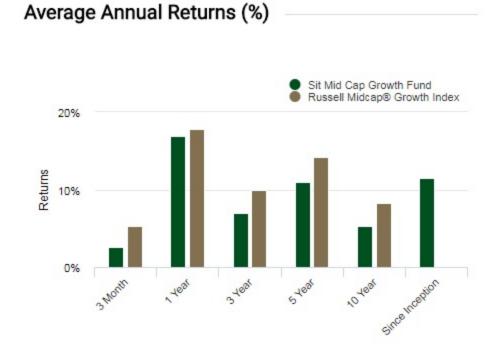

Ticker: NBNGX

Overview Risk Holdings Returns

Information reported as of September 30, 2017

Fund Details 9/2/1982 Inception Date: Fund Assets (Millions): \$158.2 Wtd. Avg. Market Cap (Billions): Median Market Cap \$10.6 (Billions): Ticker: **NBNGX**

CUSIP: 829796-10-1 Minimum Investment \$5,000 Amount: \$2,000 Minimum IRA Investment Amount: Expense Ratio: 1.25%

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains and all fee waivers. Without the fee waivers, total return figures would have been lower. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Fund Objectives and Strategy

The Sit Mid Cap Growth Fund objective is to maximize long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in the common stocks of companies with capitalizations of \$2 billion to \$15 billion. The Adviser invests in domestic growth-oriented medium to small companies it believes exhibit the potential for superior growth. The Adviser believes that a company's earnings growth is the primary determinant of its potential longterm return and evaluates a company's potential for above-average, long-term earnings and revenue growth.

Risk-Reward Profile

The Sit Mid Cap Growth Fund has higher risk and higher

Investment Style

The Fund invests in mid-cap size, growth-oriented stocks.

reward potentials.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

There is no guarantee the Fund's investment objectives will be achieved, and the market value of securities held by the Fund may fall or fail to rise. Stocks of medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, such as futures contract and large cap stock risks, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Russell Midcap® Growth Index is an unmanaged index that measures the performance of those Russell Midcap® Index companies with higher price-to-book ratios and higher forecasted growth values. Russell Midcap® Index is an unmanaged index that measures the performance of approximately 800 of the smallest companies in the Russell 1000® Index. Russell Investment Group is the owner of the registered trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a registered trademark of Russell Investment Group. It is not possible to invest directly in an index.

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance Returns for periods greater than one year are compounded average annual rates of return

Fund Objectives and Strategy

The Sit Minnesota Tax-Free Income Fund seeks current income that is exempt from federal regular income tax and Minnesota regular personal income tax consistent with preservation of capital. To achieve its objective, the Fund invests primarily in municipal securities that generate interest income that is exempt from federal regular income tax and Minnesota regular personal income tax. In selecting securities for the Fund, the Adviser seeks securities providing high current tax-exempt income. In making purchase and sales decisions for the Fund, the Adviser considers their economic outlook and interest rate forecast, as well as their evaluation of a security's structure, credit quality, yield, maturity, and liquidity.

Risk-Reward Profile

The Sit Minnesota Tax-Free Income Fund has lower risk

Investment Style

The Fund invests in investment-grade, intermediateduration municipal bonds.

and lower reward potentials.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

Michael C. Brilley

Paul J. Jungquist

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Tax, legislative, regulatory, demographic or political changes in Minnesota, as well as changes impacting Minnesota's financial, economic or other conditions may adversely impact the Fund. The Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. A relatively small number of Minnesota tax-exempt issuers may necessitate the Fund investing a larger portion of its assets in a limited number of issuers than a more diversified fund, and the Fund may be more susceptible to any single economic, political or regulatory occurrence than a more diversified fund. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 5-Year Municipal Bond Index is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Income from tax-exempt funds may be subject to state & local taxes, and a portion of income may be subject to federal income tax including the alternative minimum tax (AMT). Capital gains distributions, if any, will be subject to tax.

Return Volatility

Bloomberg Barclays 5-yr Muni Bond Index

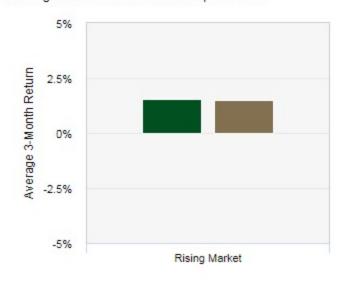

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the Minnesota Tax-Free

Income Fund returns page.

Up and Down Markets Performance

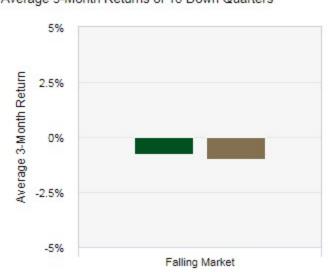

Up Market Performance

Average 3-Month Returns of 80 Up Quarters

Up Market Performance

Average 3-Month Returns of 16 Down Quarters

 Sit MN Tax-Free Income Fund Bloomberg Barclays 5-yr Muni Bond Index

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, December 1, 1993. For complete performance data see the Minnesota Tax-Free Income Fund returns page.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Tax, legislative, regulatory, demographic or political changes in Minnesota, as well as changes impacting Minnesota's financial, economic or other conditions may adversely impact the Fund. The Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. A relatively small number of Minnesota tax-exempt issuers may necessitate the Fund investing a larger portion of its assets in a limited number of issuers than a more diversified fund, and the Fund may be more susceptible to any single economic, political or regulatory occurrence than a more diversified fund. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 5-Year Municipal Bond Index is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Income from tax-exempt funds may be subject to state & local taxes, and a portion of income may be subject to federal income tax including the alternative minimum tax (AMT). Capital gains distributions, if any, will be subject to tax.

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Fund Objectives and Strategy

The Sit Quality Income Fund objective is to provide high current income and safety of principal by investing, under normal market conditions, at least 80% of its assets in debt securities issued by the U.S. government and its agencies, debt securities issued by corporations, mortgage and other asset-backed securities.

The Fund invests at least 50% of its assets in U.S. government debt securities, which are securities issued, guaranteed or insured by the U.S. government, its agencies or instrumentalities. The balance of the Fund's assets will be invested in investment-grade debt securities issued by corporations and municipalities, and mortgage and other asset-backed securities. Investment-grade debt securities are rated at the time of purchase within the top four rating categories by a Nationally Recognized Statistical Rating Organization or of comparable quality as determined by the Adviser. The Fund's dollar-weighted average portfolio quality is expected to be "A" or better.

Risk-Reward Profile

Investment Style

The Fund invests in high-quality, short-duration bonds.

The Sit Quality Income Fund has lower risk and lower

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, as futures contacts and options, are included in the Fund's prospectus. The *prospectus* may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 1-3 Year U.S. Government/Credit Index is an unmanaged index of Treasury or government agency securities and investment grade corporate debt securities with maturities of one to three years. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Information reported as of September 30, 2017

Return Volatility

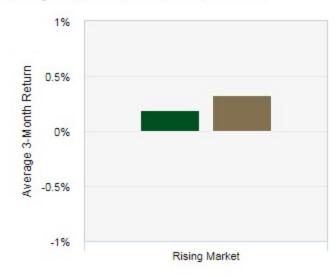

Bloomberg Barclays U.S. 1-3 Year Gov't/Credit Index

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the *Quality Income Fund returns page*.

Up and Down Markets Performance

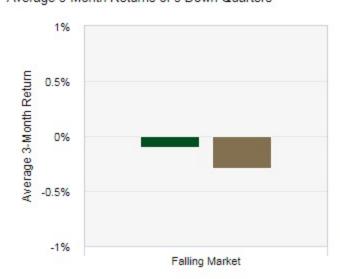

Up Market Performance

Average 3-Month Returns of 16 Up Quarters

Down Market Performance

Average 3-Month Returns of 3 Down Quarters

Sit Quality Income Fund
 Bloomberg Barclays U.S. 1-3 Year Gov't/Credit Index

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, December 31, 2012. For complete performance data see the *Quality Income Fund returns page*.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 1-3 Year U.S. Government/Credit Index is an unmanaged index of Treasury or government agency securities and investment grade corporate debt securities with maturities of one to three years. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index.

Expense Ratios

The Sit Small Cap Dividend Growth Fund seeks current income that exceeds the dividend yield of the Russell 2000® Index and that grows over a period of years, and long-term capital appreciation. To achieve its objectives, the Fund invests, under normal market conditions, at least 80% of its net assets in dividend-paying common stocks. The Adviser invests in dividend-paying, growth-oriented companies with capitalizations of up to \$3 billion, or up to the market capitalization of the largest company included in the Russell 2000® Index measured at the end of the previous 12 months, that it believes exhibit the potential for growth and growing dividend payments. The Adviser believes that a company's earnings growth is a primary determinant of its potential long-term return and that a record of increasing dividend payments is a strong indicator of financial health and growth prospects.

Risk-Reward Profile

LOW A HIGH

The Sit Small Cap Dividend Growth Fund has moderate risk and moderate reward potentials.

Investment Style

The Fund invests in small cap, growth-oriented stocks that pay dividends. The Fund's holdings exhibit a blend of growth and value characteristics.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Information reported as of September 30, 2017

Return Volatility

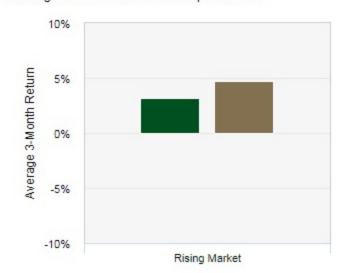

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the Small Cap Dividend Growth Fund returns page.

Up and Down Markets Performance

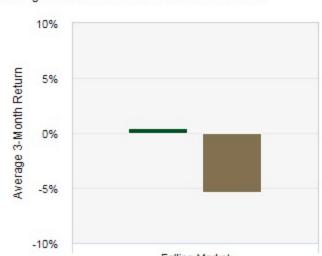

Up Market Performance

Average 3-Month Returns of 6 Up Quarters

Down Market Performance

Average 3-Month Returns of 4 Down Quarters

Sit Small Cap Dividend Growth Fund Class I
 Russell 2000® Index

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, March 31, 2015. For complete performance data see the *Small Cap Dividend Growth Fund returns page*.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss when you sell shares.

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. The market value of securities held by the Fund may fall or fail to rise. Dividend paying stocks may not experience the same capital appreciation as non-dividend paying stocks, and the stocks held by the Fund may reduce or stop paying dividends. Stocks of small and medium sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies, and there may be limited liquidity for certain small cap stocks. The Fund's focus on growth stocks may cause the Fund's performance at times to be better or worse than the performance of funds that focus on other types of stocks or that have a broader investment style. International investing involves certain risks and volatility due to potential political, economic or currency instabilities and different financial and accounting standards. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. A decrease in interest rates may lower the income earned by the Fund. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The **Russell 2000® Index** is an unmanaged index that measures the performance of the 2,000 smallest companies in the Russell 3000® Index, an index consisting of the 3,000 largest U.S. companies based on market capitalization. Russell Investment Group is the owner of the registered trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a registered trademark of Russell Investment Group. Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return

Fund Objectives and Strategy

The Sit Small Cap Growth Fund seeks to maximize long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in common stocks of companies with capitalizations of up to \$3 billion, or up to the market capitalization of the largest company included in the Russell 2000 Index measured at the end of the previous 12 months. The Adviser invests in domestic growth-oriented small companies it believes exhibit the potential for superior growth. The Adviser believes that a company's earnings growth is the primary determinant of its potential long-term return and evaluates a company's potential for above average long-term earnings and revenue growth.

Risk-Reward Profile

The Sit Small Cap Growth Fund has higher risk and higher reward potentials.

Investment Style

The Fund invests in small cap growth stocks.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Average Annual Returns

Performance figures are historical and do not guarantee future results. Investment returns and principal value will vary, and you may have a gain or loss when you sell shares. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end is available. Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return

Fund Objectives and Strategy

The Sit Tax-Free Income Fund objective is high current income that is exempt from federal income tax consistent with preservation of capital. The Fund seeks to achieve its objective by investing primarily in municipal securities that generate interest income that is exempt from both federal regular income tax and federal alternative minimum tax. In selecting securities for the Fund, the Adviser seeks securities providing high tax-exempt income. The Adviser attempts to maintain an average effective duration for the portfolio of approximately 3 to 8 years.

Risk-Reward Profile

Investment Style The Fund invests in investment-grade, intermediate

HIGH

duration municipal bonds.

The Sit Tax-Free Income Fund has lower risk and lower reward potentials.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Portfolio Management

Michael C. Brilley

Paul J. Jungquist

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. The Fund's municipal securities may be particularly affected by the political, demographic, legislative and economic conditions and developments in the issuing states and their political subdivisions, and the Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays 5-Year Municipal Bond Index is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Information reported as of September 30, 2017

Return Volatility

Bloomberg Barclays 5-Yr Municipal Bond Index

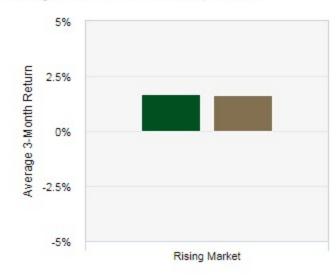

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the *Tax-Free Income Fund returns page*.

Up and Down Markets Performance

Sit Tax-Free income Fund

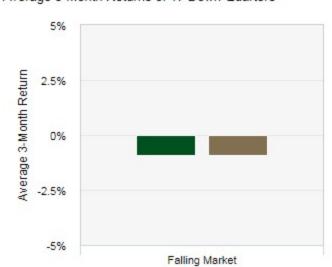

Up Market Performance

Average 3-Month Returns of 99 Up Quarters

Down Market Performance

Average 3-Month Returns of 17 Down Quarters

Sit Tax-Free income Fund
 Bloomberg Barclays 5-Yr Municipal Bond Index

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, September 29, 1988. For complete performance data see the *Tax-Free Income Fund returns page*.

Notes

Performance figures are historical and do not guarantee future results. Investment returns and principal will vary, and you may have a gain or loss

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk, and the revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. The Fund's municipal securities may be particularly affected by the political, demographic, legislative and economic conditions and developments in the issuing states and their political subdivisions, and the Fund may be more adversely affected than other funds by future changes in federal or state income tax laws. The Fund invests a significant portion of its assets in certain sectors including health care facility bonds, housing authority bonds, and education bonds, and therefore the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors. Call risk exists as a fixed-income security may be called, prepaid or redeemed before maturity and that similar yielding investments may not be available for purchase. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Falling rates may lower the income earned by the Fund and result in the Fund investing in lower yielding securities, lowering the fund's income and yield. Federal and state tax rules apply to capital gain distributions and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The **Bloomberg Barclays 5-Year Municipal Bond Index** is an unmanaged index of long-term, fixed-rate, investment-grade, tax-exempt bonds representative of the municipal bond market. It is not possible to invest directly in an index.

Returns include changes in share price as well as reinvestment of all dividends and capital gains. Returns do no reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Management fees and administrative expenses are included in the Fund's performance. Returns for periods greater than one year are compounded average annual rates of return.

Fund Objectives and Strategy

The Sit U.S. Government Securities Fund objective is high current income and safety of principal. The Fund seeks to achieve its objective by investing exclusively in U.S. government securities, which are securities issued, guaranteed or insured by the U.S. government, its agencies or instrumentalities. In selecting securities for the Fund, the Adviser seeks securities providing high current income relative to yields currently available in the market. In making purchase and sales decisions for the Fund, the Adviser considers their economic outlook and interest rate forecast, as well as their evaluation of a security's prepayment risk, yield, maturity, and liquidity.

Risk-Reward Profile

The Sit U.S. Government Securities Fund has lower risk

Investment Style

The Fund invests in high-quality, short-duration government bonds.

and lower reward potentials.

Investment Adviser

The Sit Mutual Funds' investment adviser is Sit Investment Associates, Inc. It is an employee-owned firm founded in 1981 in Minneapolis, Minnesota and currently manages \$13.8 billion (as of 9/30/17). The firm's sole business is investment management.

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixedincome securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject such as futures contacts and options, are included in the Fund's prospectus. The prospectus may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this website. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays Intermediate Government Index is a sub-index of the Bloomberg Barclays Government Bond Index covering issues with remaining maturities of between three and five years. The Bloomberg Barclays Government Bond Index is an index that measures the performance of all public U.S. government obligations with remaining maturities of one year or more. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Fixed-income securities present issuer default risk. Securities held by the Fund may not be backed by the full faith and credit of the United States. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. An increase in interest rates may lower the value of the fixed-income securities held by the Fund. Declining interest rates may compel borrowers to prepay mortgages and debt obligations underlying the mortgage-backed securities owned by the Fund. The proceeds received by the Fund from prepayments may be reinvested at interest rates lower than the original investment, thus resulting in a reduction of income to the Fund. Rising interest rates could reduce prepayments and extend the life of securities with lower interest rates, which may increase the sensitivity of the Fund's value to rising interest rates. There may be limited liquidity for certain fixed-income securities. The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable. More information on these risks considerations, as well as information on other risks to which the Fund is subject such as futures contacts and options, are included in the Fund's prospectus. The *prospectus* may be obtained by calling Sit Mutual Funds at 1-800-332-5580 or downloaded from this *website*. Read the prospectus carefully before investing. Investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The **Bloomberg Barclays Intermediate Government Index** is a sub-index of the Bloomberg Barclays Government Bond Index covering issues with remaining maturities of between three and five years. The Bloomberg Barclays Government Bond Index is an index that measures the performance of all public U.S. government obligations with remaining maturities of one year or more. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index.

Overview Returns Risk Holdings

Information reported as of September 30, 2017

Return Volatility

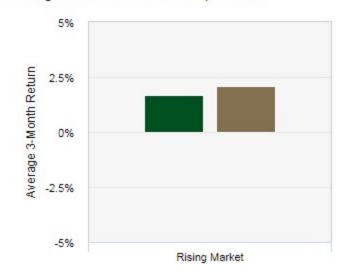

Bloomberg Barclays Intermediate Government Index

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. For complete performance data see the U.S. Government Securities Fund returns page.

Up and Down Markets Performance

Up Market Performance

Average 3-Month Returns of 89 Up Quarters

Down Market Performance

Average 3-Month Returns of 32 Down Quarters

Sit U.S. Government Securities Fund
 Bloomberg Barclays Intermediate Government Index

Positive primary Index quarterly performance indicates an "up market"; negative primary Index quarterly performance determines a "down market", regardless of Fund performance. The graph displays the average quarterly returns for the Fund and Index in both up and down markets since the Fund's inception, June 2, 1987. For complete performance data see the U.S. Government Securities Fund returns page.

Notes

Performance listed above is current to the most recent quarter-end. Performance data current to the most recent month-end can be found on the Performance Summary page.

Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Standard deviation is a measure of risk that indicates the volatility of a portfolio's total returns as measured against its mean performance. In general, the higher the standard deviation, the greater the volatility or risk. Standard Deviation is a statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. Standard deviation was calculated using the most recent monthly returns for a 3 year period. Refer to the prospectus for specific risks. The fund's measure of volatility is subject to change without notice as market or economic conditions change, and such changes may include significant and nonrecurring volatility events. Historical volatility is not necessarily indicative of future volatility and there is no guarantee that in any time period any one fund will be more or less volatile than any other fund.

Carefully consider the Fund's investment objectives, risks, charges and expenses before investing.

Fund holdings, sector allocations (as % of market value) and portfolio characteristics may change at any time and are not investment recommendations. The Bloomberg Barclays Intermediate Government Index is a sub-index of the Bloomberg Barclays Government Bond Index covering issues with remaining maturities of between three and five years. The Bloomberg Barclays Government Bond Index is an index that measures the performance of all public U.S. government obligations with remaining maturities of one year or more. The returns include the reinvestment of income and do not include any transaction costs, management fees or other costs. It is not possible to invest directly in an index. Duration is a measure of estimated price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. For example, if interest rates rise by 1%, the market value of a security with an effective duration of 5 years would decrease by 5%, with all other factors being constant. The correlation between duration and price sensitivity is greater for securities rates investment-grade than it is for securities rated below investment-grade. Duration estimates are based on assumptions by the Adviser and are subject to a number of limitations. Effective duration is calculated based on historical price changes of securities held by the Fund, and therefore is a more accurate estimate of price sensitivity provided interest rates remain within their historical range.
