FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy, and about Old Kent Financial Corporation ("Old Kent" or the "Corporation") itself. Words such as "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "is likely," "plans," "judgment," "projects," variations of such words and similar expressions are intended to identify such forward-looking statements. Management judgments relating to, and discussion of the provision and allowance for credit losses involve judgments as to future events and are inherently forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions which are difficult to predict with regard to timing, extent, likelihood and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed, implied or forecasted in such forward-looking statements. Future factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement include changes in interest rates and interest rate relationships; demand for products and services; the degree of competition by traditional and non-traditional competitors; changes in banking regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; governmental and regulatory policy changes; the outcomes of pending and future litigation and contingencies; trends in customer behaviors as well as their ability to repay loans; the vicissitudes of the national economy; the possibility that expected cost savings from mergers might not be fully realized within the expected time frame; and similar uncertainties. Old Kent undertakes no obligation to update, amend or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

September 30, 2000

NOTE A: BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine month period ended September 30, 2000 are not necessarily indicative of the results that may be expected for the year ending December 31, 2000. For further information, refer to the consolidated financial statements and footnotes thereto included in the Corporation's annual report on Form 10-K for the year ended December 31, 1999.

Certain reclassifications have been made to prior periods' financial statements to place them on a basis comparable with the current periods' financial statements.

NOTE B: FINANCIAL INSTRUMENT ACCOUNTING POLICIES

Old Kent uses certain off-balance sheet derivative financial instruments, including interest rate swaps; Treasury futures and options; and interest rate caps and floors, in connection with risk management activities. Provided these instruments meet specific criteria, they are considered hedges and accounted for under the accrual or deferral methods, as more fully discussed below.

Old Kent uses interest rate swaps to hedge interest rate risk on interest-earning assets and interest-bearing liabilities. Amounts receivable or payable under these agreements are included in net interest income. There is no recognition on the balance sheet for changes in the fair value of the hedging instrument. Gains or losses on terminated interest rate swaps are deferred and amortized to interest income or expense over the remaining life of the hedged item.

Old Kent uses Eurodollar futures to hedge the value of various investment securities. The fair values of the contracts are recorded as an adjustment to the carrying amount of the hedged securities and recognized in earnings as a yield adjustment over the remaining life of those securities.

Old Kent uses forward sale agreements and options on forward sale agreements to protect the value of residential loan commitments, loans held-for-sale and related mortgage-backed securities held in the trading account. The market value of the financial hedges associated with loan origination commitments and loans held-for-sale are included in the aggregate valuation of mortgages held-for-sale. Premiums paid for options are deferred as a component of other assets and amortized against gains on sale of loans over the contract term. Forward sale agreements associated with mortgage-backed securities held in the trading account are considered when marking those securities to market, with the corresponding adjustment recorded to gains on sale of loans.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

From time to time, Old Kent uses Treasury futures and options on Treasury futures to help protect against market value changes in the mortgage servicing rights ("MSR") portfolio. The fair value of the hedges are recorded as an adjustment to the carrying amount of the MSR with a corresponding adjustment to cash or other receivables or payables. If terminated, the realized gain or loss on the hedge is included in MSR amortization over the estimated life of the loan servicing that had been hedged. Option premiums paid or received are deferred as a component of other assets and amortized as MSR amortization over the contract term.

Derivative financial instruments, such as caps and floors, that do not meet the required criteria are carried on the balance sheet at fair value with realized and unrealized changes in that value recognized in earnings. If the hedged item is sold or its outstanding balance otherwise declines below that of the related hedging instrument, the derivative product (or applicable excess portion thereof) is marked-to-market and the resulting gain or loss is included in earnings.

Old Kent enters into certain off-balance sheet derivative financial instruments with its commercial clients, including interest rate swaps and interest rate caps and floors. Old Kent hedges its interest rate exposure on transactions with its commercial clients by executing offsetting transactions with third parties. These derivative financial instruments are carried on the balance sheet at fair value with realized and unrealized changes in that value recognized in earnings.

NOTE C: ADOPTION OF SFAS 133

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities as amended by SFAS No. 137, Deferral of the Effective Date of FASB Statement No. 133, and as amended by SFAS No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities - an Amendment of FASB Statement No. 133. These Statements establish accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded on the balance sheet as either an asset or a liability measured at its current fair value. These Statements require that changes in a derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows the changes in fair value of the derivative instrument to be offset against the change in fair value of the related hedged item. SFAS 133 requires a company to formally document, designate and assess the effectiveness of hedging relationships that receive hedge accounting.

Old Kent will adopt the provisions of SFAS 133 as of January 1, 2001. With respect to certain derivative instruments embedded in other contracts, Old Kent has elected to apply SFAS 133, as amended, only to those instruments that were issued, acquired or substantively modified after December 31, 1998.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

Old Kent has not yet quantified all aspects of adopting SFAS 133 on its financial statements. However, as discussed in the following paragraphs, the Statement could increase volatility in earnings and other comprehensive income or result in certain changes in Old Kent's business practices.

SFAS 133, in part, allows special hedge accounting for fair value and cash flow hedges. SFAS 133 provides that the gain or loss on a derivative instrument designated and qualifying as a fair value hedging instrument as well as the offsetting gain or loss on the hedged item attributable to the hedged risk be recognized currently in earnings in the same accounting period. SFAS 133 provides that the effective portion of the gain or loss on a derivative instrument designated and qualifying as a cash flow hedging instrument be reported as a component of other comprehensive income and be reclassified into earnings in the same period or periods during which the hedged forecasted transaction affects earnings. The ineffective portion of the gain or loss on the derivative instrument, if any, must be recognized currently in earnings.

As discussed in Note B, Old Kent uses various derivative instruments to hedge interest rate risk, to protect the value of residential loan commitments, loans held-for-sale and other assets, and to protect against market value change in the MSR portfolio. The provisions of SFAS 133 require a company to document derivative use policy and procedures, designate hedge relationships anew, and on an ongoing basis. Old Kent is in the process of evaluating all existing derivative instruments and designating the hedge relationships for treatment under SFAS 133.

SFAS 133 requires a one time transition adjustment upon adoption to account for the cumulative effect of the change in accounting standards. This transition adjustment will comprise all earnings impact as of January 1, 2001 to comply with the new accounting standard. The transition adjustment cannot be quantified at this time as it will be based on market rates and positions at the point of transition.

Old Kent has examined and updated its current derivative use policy, and identified the following hedge arrangements, along with their anticipated treatment on an ongoing operating basis under the provisions of SFAS 133.

Old Kent enters into interest rate swap agreements to manage interest rate risk. Under the provisions of SFAS 133, these swap agreements will be classified as a cash flow hedge and qualify for special hedge accounting. It is expected that these hedges will be highly effective, therefore minimizing any future impact on earnings or accumulated other comprehensive income as a result of changes in the future cash flows of the derivative instrument or hedged item.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

Old Kent Mortgage Company enters into hedging agreements to hedge the interest rate risk inherent in loan commitments. Because mortgage loan commitments are expected to be deemed derivatives under SFAS 133, the loan commitments and the corresponding hedges do not qualify for hedge accounting. As a result, both instruments will be marked-to-market on the balance sheet and will also have a direct impact to the income statement. Based on current market conditions, management believes these impacts to be not material.

Old Kent Mortgage Company utilizes instruments to hedge the mortgages held-for-sale portfolio and to help protect against market value changes in the MSR portfolio. These hedges are classified as fair value hedges under SFAS 133 and may have an impact on the earnings of the Corporation, which is deemed not material based on current estimates.

NOTE D: LOANS AND NONPERFORMING ASSETS

The following summarizes loans and nonperforming assets at the dates indicated (dollars in thousands):

	September 30, 2000	December 31, 1999
<u>Loans:</u>		
Commercial	\$3,901,944	\$3,742,234
Real estate - Commercial	3,189,808	2,988,586
Real estate - Construction	1,643,957	1,204,291
Real estate - Residential mortgages	1,328,126	1,881,498
Real estate - Consumer home equity	3,475,016	2,240,708
Consumer	1,702,906	1,582,012
Lease financing	375,570	262,334
Total Loans	<u>\$15,617,327</u>	<u>\$13,901,663</u>
	September 30, 2000	December 31, 1999
<u>Nonperforming assets:</u>		
Nonaccrual loans	\$77,383	\$66,395
Restructured loans	1,353	2,210
Impaired loans	78,736	68,605
Other real estate owned	12,149	8,538
Total nonperforming assets	<u>\$90,885</u>	<u>\$77,143</u>
Loans past due 90 days or more and still accruing	<u>\$26,777</u>	<u>\$14,854</u>

At September 30, 2000, the management of the Corporation has identified loans totaling approximately \$14.9 million as potential problem loans. These loans are not included as nonperforming assets in the table above. While these loans were in compliance with repayment terms at September 30, 2000, other circumstances caused management to seriously doubt the ability of the borrowers to continue to remain in compliance with existing loan repayment terms.

At September 30, 2000, Old Kent used short-term Eurodollar futures positions with a notional value of \$4.4 billion to hedge the value of various investment securities totaling \$257.6 million. Credit risk in these futures contracts is minimized through daily cash settlements through the Chicago Mercantile Exchange. This position was cancelled as of October 25, 2000.

NOTE H: SHAREHOLDERS' EQUITY

In June, 2000, the Board of Directors of Old Kent Financial Corporation declared a 5% stock dividend which was payable on July 14, 2000, to shareholders of record on June 30, 2000. Prior per share amounts included in this report have been adjusted to reflect this dividend.

As of October 16, 2000, Old Kent Financial Corporation announced that it is authorized to repurchase up to 1.4 million shares of its common stock over the next six months to replace the shares used to acquire Home Bancorp. It is anticipated that some or all of these shares will be purchased by the Corporation in open market or privately negotiated purchases.

NOTE I: REPORTABLE OPERATING SEGMENTS

Under the provisions of SFAS No. 131, Old Kent has five reportable operating segments: Corporate Banking, Retail Banking, Investment and Insurance Services, Mortgage Banking and Treasury. Old Kent's reportable segments are strategic business units that are managed separately because each business requires different technology and marketing strategies, and also differ in product emphasis.

The following table summarizes information about reportable operating segments' profit for the three month period ended September 30, 2000 and 1999 (dollars in thousands):

	<u>Net Interest Income</u>	<u>Non Interest Income and Fees</u>	<u>Net Income</u>
<u>September 30, 2000</u>			
Corporate Banking	\$56,164	\$4,243	\$19,740

Reconciling Items*	-	-	(17,600)
Consolidated	<u>\$578,383</u>	<u>\$343,649</u>	<u>\$205,880</u>

As of January 1, 2000, the Old Kent line of business organization structure, business methodologies and technical systems underwent changes that affect how the performance of the individual lines of business are measured and evaluated.

In 2000, the Community Banking line of business was dissolved into the Corporate Banking, Retail Banking, and Investment and Insurance Services lines of business. The historical information related to this change has been restated to provide a meaningful comparison from period to period.

In addition, Old Kent instituted the use of a new line of business reporting system which management believes provides enhanced information for measurement and evaluation. This new system has refined business methodologies for funds transfer pricing and allocations of loan loss provision, equity, indirect costs and taxes. These changes have been made at a lower level of detail than previously used and only on a prospective basis starting in 2000. It is impracticable to apply these changes historically and as such, all information prior to January 1, 2000 has not been restated for these changes.

* The reconciling items in the above tables reflect the one-time charges related to Old Kent's mergers. The following is a summary of these merger charges:

<u>Merger</u>	<u>Date</u>	<u>Amount</u>
Grand Premier Financial, Inc.	April 1, 2000	\$26.10 million (after-tax); \$5.3 million related to securities (pre-tax)
Merchants Bancorp, Inc.	February 11, 2000	\$17.50 million (after-tax); \$6.125 million related to securities (pre-tax)
Pinnacle Banc Group, Inc.	September 3, 1999	\$10.75 million (after tax)
CFSB Bancorp, Inc.	July 9, 1999	\$ 6.85 million (after tax)

NOTE K: EARNINGS PER COMMON SHARE

The following table reconciles the numerators and denominators used in the calculations of basic and diluted earnings per common share:

	For the Three Months ended September 30,		For the Nine Months ended September 30,	
	2000	1999	2000	1999
Basic:				
Net Income	\$81,654,000	\$58,985,000	\$195,440,000	\$205,880,000
Less: Dividends on preferred stock	(\$185,000)	(\$185,000)	(\$555,000)	(\$555,000)
Income available to common shareholders	<u>\$81,469,000</u>	<u>\$58,800,000</u>	<u>\$194,885,000</u>	<u>\$205,325,000</u>
Average common shares outstanding	136,965,000	138,793,000	137,333,000	139,349,000
Basic earnings per common share	\$0.59	\$0.42	\$1.42	\$1.47
Diluted:				
Net income	\$81,654,000	\$58,985,000	\$195,440,000	\$205,880,000
Less: Dividends on preferred stock	(\$185,000)	(\$185,000)	(\$555,000)	(\$555,000)
Add: Dividends on convertible preferred stock	\$145,000	\$145,000	\$435,000	\$435,000
Income available to common shareholders	<u>\$81,614,000</u>	<u>\$58,945,000</u>	<u>\$195,320,000</u>	<u>\$205,760,000</u>
Average common shares outstanding	136,965,000	138,793,000	137,333,000	139,349,000
Dilutive effect of:				
Employee stock plans	887,000	1,055,000	871,000	1,233,000
Convertible preferred stock	416,000	416,000	416,000	416,000
Total average shares and assumed conversions	<u>138,268,000</u>	<u>140,264,000</u>	<u>138,620,000</u>	<u>140,998,000</u>
Diluted earnings per common share	\$0.59	\$0.42	\$1.41	\$1.46

Potential dilutive shares resulting from employee stock plans did not include outstanding options to purchase shares totaling 2.9 million, with exercise prices per share ranging from \$29.42 to \$39.85 for the three and nine month periods ending September 30, 2000 and shares totaling 2.0 million and 3,307, with exercise prices per share ranging from \$38.80 to \$39.86 for the three and nine month periods, respectively, ending September 30, 1999. The average market price of Old Kent's common stock was less than the exercise price of these options. Under the treasury stock method of computing the impact of these options the result would be anti-dilutive and therefore is not included for purposes of calculating diluted earnings per share.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

NOTE L: COMPREHENSIVE INCOME

Comprehensive income reflects the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. For Old Kent, comprehensive income represents net income adjusted for the change in unrealized gains and losses on available-for-sale securities. Comprehensive income was approximately \$105.9 million and \$44.8 million for the quarters ended September 30, 2000 and 1999, respectively, and approximately \$230.3 million and \$126.9 million for the nine month period ended September 30, 2000 and 1999, respectively.

NOTE M: BUSINESS COMBINATIONS

On February 11, 2000, Old Kent completed the acquisition of Merchants Bancorp, Inc. ("Merchants"). The merger was accounted for as a pooling-of-interests. Old Kent exchanged .830 shares of Old Kent Common Stock for each outstanding share of Merchants Common Stock. The issuance totaled approximately 4.4 million shares. Merchants was a bank holding company headquartered in Aurora, Illinois. When acquired, Merchants had consolidated assets of approximately \$1 billion and consolidated deposits of approximately \$0.7 billion. Merchants operated 12 suburban Chicago area banking sites as well as two banking sites in Dekalb and Kendall counties. Reserves established for charges related to this acquisition were substantially utilized as of June 30, 2000.

On April 1, 2000, Old Kent completed the acquisition of Grand Premier Financial, Inc. ("Grand Premier"). The merger was accounted for as a pooling-of-interests. Old Kent exchanged .4231 shares of Old Kent Common Stock for each outstanding share of Grand Premier Common Stock. The issuance totaled approximately 9.4 million shares. Grand Premier was a bank holding company headquartered in Wauconda, Illinois, with consolidated assets of approximately \$1.7 billion and consolidated deposits of approximately \$1.3 billion at March 31, 2000. Grand Premier operated 23 banking offices in the Chicago area and Northern Illinois. Old Kent's unexpended reserves, established for charges related to this acquisition, were \$11.0 million at September 30, 2000; these reserves are expected to be substantially utilized by December 31, 2000.

On October 13, 2000, Old Kent completed the acquisition of Home Bancorp. The merger was accounted for as a purchase transaction. Old Kent exchanged .6945 shares of Old Kent Common Stock for each outstanding share of Home Bancorp Common Stock. The issuance totaled approximately 1.4 million shares. The approximate purchase price for this transaction is \$39.1 million. Home Bancorp was a bank holding company headquartered in Fort Wayne, Indiana, with consolidated assets of approximately \$390 million and consolidated deposits of approximately \$327 million at September 30, 2000. Home Bancorp operated 10 banking locations; seven in Fort Wayne, two in Decatur and one branch in New Haven.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

NOTE N: LONG -TERM DEBT

Long-term debt, as shown in the accompanying consolidated balance sheet, consists of the following:

	September 30, 2000	December 31, 1999
(dollars in thousands)		
Subordinated notes, 6 5/8% due November 15, 2005	\$100,000	\$100,000
Subordinated notes, 3 month LIBOR plus .75% due November 1, 2005	100,000	-
Subordinated notes, Years 1-5; 7.75%; Years 6-10; 1 month LIBOR plus 1.16%, due August 15, 2010	149,779	-
Capital securities, as described below	100,000	100,000
Total long-term debt	<u>\$449,779</u>	<u>\$200,000</u>

On January 31, 1997, Old Kent issued a floating rate junior subordinated debenture (the "Debenture") having a principal amount of \$103,092,784 to Old Kent Capital Trust I (the "Trust"). Cumulative interest on the principal sum of the Debenture accrues from January 31, 1997, and it is payable quarterly in arrears on the first day of February, May, August and November of each year at a variable rate per annum equal to LIBOR (London Interbank Offering Rate) plus .80% until paid. Interest is computed on the actual number of days elapsed in a year of twelve 30 day months. The Debentures rank subordinate and junior in right of payment to all indebtedness (as defined) of Old Kent. The Debenture matures on February 1, 2027, but may be redeemed in whole or in part beginning on February 1, 2007, or earlier upon the occurrence of certain special events defined in the Indenture governing the Debenture.

On January 31, 1997, the Trust sold Floating Rate Subordinated Capital Income Securities ("Preferred Securities") having an aggregate liquidation amount of \$100 million to investors and issued Common Capital Securities ("Common Securities") having an aggregate liquidation amount of \$3,092,784 to Old Kent. All of the proceeds from sale of Preferred Securities and Common Securities were invested in a Debenture issued by Old Kent. Preferred Securities and Common Securities represent undivided beneficial interests in the Debenture, which is the sole asset of the Trust. Holders of Preferred Securities and Common Securities are entitled to receive distributions from the Trust on terms which correspond to the interest and principal payments due on the Debenture. Payment of distributions by the Trust and payments on liquidation of the Trust or redemption of Preferred Securities are guaranteed by Old Kent to the extent the Trust has funds available (the "Guarantee"). Old Kent's obligations under the Guarantee, taken together with its obligations under the Debenture, the Indenture, the applicable Declaration of Trust and Old Kent's agreement to pay all fees and expenses related to the trust and all ongoing costs, expenses and liabilities of the Trust for so long as the trust holds the Debenture, constitute a full and unconditional guarantee of all of the Trust's obligations under the Preferred Securities issued by the Trust. Because the Common Securities held by Old Kent represent all of the outstanding voting securities of the Trust (in the absence of a default or other specified event), the Trust is considered to be a wholly owned subsidiary of Old Kent for reporting purposes and its accounts are reflected in the consolidated financial statements of Old Kent. The Preferred Securities qualify as Tier I capital for regulatory capital purposes.

OLD KENT FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- Continued (Unaudited)
September 30, 2000

On April 28, 2000, Old Kent Bank (the "Bank") issued subordinated bank notes (the "Notes") having a principal amount of \$100,000,000. Cumulative interest on the principal sum of the Notes accrues from April 28, 2000, and it is payable quarterly in arrears on the first day of February, May, August and November, commencing August 1, 2000, of each year at a variable rate per annum equal to three-month LIBOR (London Interbank Offered Rate) plus .75% until paid. The Notes are unsecured and subordinate and junior in right of payment to Old Kent Bank's obligations to its depositors, its obligations under bankers' acceptances, letters of credit and senior notes, collateralized borrowings, and its obligations to all of its other general creditors. The Notes mature on November 1, 2005, but the Bank at its option may redeem some or all of the Notes on any interest payment date beginning on November 1, 2000. The Notes qualify as Tier II capital for regulatory capital purposes.

On August 15, 2000, Old Kent Bank (the "Bank") issued subordinated bank notes (the "Notes") having a principal amount of \$150,000,000. Cumulative interest on the principal sum of the Notes accrues from August 15, 2000, and it is payable semi-annually in arrears on August 15, and February 15, commencing February 15, 2001 to August 15, 2005, at a fixed rate per annum equal to 7.75% (such period being referred to as the "Fixed Rate Period"). During the period commencing on August 15, 2005 to the Maturity Date or earlier redemption date, (such period being referred to as the "Floating Rate Period,") the cumulative interest on the principal sum of the Notes accrues from August 15, 2005, and it is payable monthly on the 15th day of each month of each year at a variable rate per annum equal to one-month LIBOR (London Interbank Offered Rate) plus 1.16% until paid. The Notes are unsecured and subordinate and junior in right of payment to Old Kent Bank's obligations to its depositors, its obligations under bankers' acceptances, letters of credit and senior notes, collateralized borrowings, and its obligations to all of its other creditors. The Notes mature on August 15, 2010, but the Bank at its option may redeem some or all of the Notes on any interest payment date beginning on August 15, 2005. The Notes qualify as Tier II capital for regulatory capital purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is management's discussion and analysis of certain significant factors which have affected Old Kent's financial condition and results of operations during the periods included in the consolidated financial statements included in this filing.

RESULTS OF OPERATIONS

Old Kent's net income was \$81.7 million for the third quarter of 2000 compared to \$59.0 million for the same period in 1999. Third quarter diluted earnings per common share was \$.59, a 40.5% increase over \$.42 for the same period last year. Diluted earnings per common share were \$1.41 for the nine months ended September 30, 2000 or 3.4% less than the same period for 1999.

Due to the various mergers described in Note M to the Financial Statements, Old Kent recognized merger-related charges that had a negative impact on net income and earnings per common share in 2000 and 1999. On an operating basis, earnings per common share increased 7.3% and 8.9%, respectively, for the quarter and nine months ended September 30, 2000 over the same periods for 1999.

Total assets were \$22.5 billion at quarter-end compared to \$20.6 billion at December 31, 1999. The increase was primarily due to growth in loans. Return on average equity for the third quarter of 2000 was 21.14% compared to 15.62% for the third quarter of 1999. Return on average assets was 1.47% for the third quarter of 2000 compared to 1.15% for the third quarter of 1999.

Old Kent's net interest income for the third quarter of 2000 was \$196.0 million, a 1.5% decrease from the \$199.0 million recorded in the same period of 1999. For the third quarter of 2000, the net interest margin was 3.95% compared to 4.34% a year ago. While interest-earning assets have grown \$2.0 billion year over year, core deposits have remained relatively flat. As a result, higher costing sources have been used to fund this growth. Higher yielding loans grew \$2.6 billion, while lower yielding securities and mortgages held-for-sale decreased \$537 million. On the funding side, core deposits increased \$33 million and managed liabilities, including negotiable and foreign deposits, increased \$2.1 billion. The yield on interest-earning assets increased 64 basis points, however, the funding costs increased 107 basis points. As a result, the net interest spread decreased 43 basis points and the net interest margin decreased 39 basis points.

For the third quarter of 2000, the provision for credit losses was \$8.6 million. This compares to \$8.4 million for the third quarter of 1999. Net credit losses were \$4.7 million or .12% of average loans for the third quarter of 2000 compared to \$4.6 million or .15% of average loans for the same period a year ago. The allowance for credit losses as a percent of loans and leases outstanding was 1.43% at September 30, 2000 and 1.48% at December 31, 1999. Impaired loans, as a percent of total loans was .50% at September 30, 2000 and .49% at December 31, 1999.

Total other operating income, (which excludes securities transactions and other nonrecurring income) increased 4.5% or \$4.9 million during the third quarter of 2000 over the same period a year ago. Investment management and trust revenues increased 5.5% or \$1.1 million as a result of focused sales initiatives and business development efforts. Deposit account revenues increased 3.7% or \$0.7 million. All other service charges and fees increased \$3.1 million from the same period a year ago.

Old Kent sold approximately \$2.4 billion of residential mortgage loans during the quarter. Old Kent's residential third party mortgage servicing portfolio was \$15.4 billion at September 30, 2000, and \$14.7 billion at December 31, 1999.

Total operating expenses excluding merger related charges for the third quarter of 2000 were essentially flat compared to the same period of 1999. Salaries, wages and employee benefits decreased \$1.4 million or 1.4% for the third quarter of 2000 from the third quarter of 1999. Combined occupancy and equipment expenses for the third quarter of 2000 increased \$1.4 million or 5.4% compared to the same period a year ago. Other operating expenses were essentially flat from the prior year.

Old Kent's effective tax rate (based on net income before taxes without any taxable equivalency adjustment for non-taxable interest) was 31.1% for the third quarter, 2000 and 31.4% for the first nine months of 2000. This compares to 35.1% for the first nine months of 1999, and 34.9% for the year 1999. The decrease is the result of certain corporate initiatives and an increase in assets earning non-taxable income. It is expected that the effective tax rate for 2000 will be lower than the rate for 1999.

BALANCE SHEET CHANGES

Total interest-earning assets increased 9.7% or \$1.8 billion over December 31, 1999. Loans increased \$1.7 billion or 12.3% since year-end 1999. Total securities increased \$107 million since year-end 1999. Mortgages held-for-sale increased 3.7% or \$34 million. Other interest-earning assets, primarily representing federal funds sold, increased \$12 million since year-end 1999.

As a means of better leveraging its balance sheet to enhance profitability, Old Kent has developed relationships to acquire consumer loans originated primarily through flow arrangements with third party originators. These loans, which largely consisted of home equity loans secured by residential real estate, aggregated approximately \$405 million for the third quarter of 2000. The Corporation expects to continue this strategy during 2000, by acquiring similar loan packages from time to time based on "flow" arrangements with select counterparties, provided that such portfolios, and the originators, continue to meet Old Kent's standards.

Total deposits increased \$1.0 billion or 6.3% from year-end 1999; non-interest-bearing deposits decreased 3.9% or \$91 million and interest-bearing deposits increased 8.0% or \$1.1 billion. Other borrowed funds increased \$526 million and long-term debt increased \$250 million from December 31, 1999.

LIQUIDITY AND CAPITAL RESOURCES

The maintenance of an adequate level of liquidity is necessary to ensure that sufficient funds are available to meet customers' loan demand and deposit withdrawals. Old Kent Bank's liquidity sources consist of securities available-for-sale, maturing loans and securities held-to-maturity, and other short-term investments. Liquidity has also been obtained through liabilities such as customer-related core deposits, funds borrowed, certificates of deposit and public funds deposits.

Old Kent has filed a shelf registration to issue \$250 million of common stock, preferred stock, depository shares, debt securities or warrants and a shelf registration to issue an additional \$200 million of trust preferred securities. In addition, Old Kent has a \$150 million committed line of credit from a syndicate of commercial banks. Sales of securities under these registration statements or advances against the line of credit could also be used as sources of liquidity and capital if and as needed.

Old Kent issued subordinated bank notes having a principal amount of \$100 million during the second quarter of 2000, and \$150 million during the third quarter of 2000. These notes qualify as Tier II capital for regulatory capital purposes (see Note N).

At September 30, 2000, shareholders' equity was \$1,601.6 million compared to \$1,485.8 million at December 31, 1999. The changes in total common shareholders' equity, which excludes \$9.3 million of preferred stock, and book value per common share are summarized in the tables below.

	Total Common Shareholders' Equity <i>(in millions)</i>	Book Value Per Common Share
Balance, December 31, 1999	\$ 1,476.5	\$10.70
Net income for the nine months ended September 30, 2000	195.4	1.42
Cash dividends paid on common stock	(84.9)	(.64)
Change in other comprehensive income	34.8	.25
Stock repurchases (net of stock issued)	(29.5)	(.11)
Balance, September 30, 2000	<u>\$ 1,592.3</u>	<u>\$11.62</u>

As shown in the table below, the Corporation repurchased approximately 156 thousand shares of its common stock during the three months ended September 30, 2000.

Old Kent Common Stock repurchased and reserved for future reissuance in connection with:

	Dividend Reinvestment And Employee Stock Plans
<u>Shares reserved at 6/30/00</u>	1,469,819
Shares repurchased	156,268
Shares reissued	(206,760)
<u>Shares reserved at 9/30/00</u>	<u>1,419,327</u>

For a number of years, Old Kent has been authorized by its Board of Directors to repurchase shares in connection with the Corporation's Dividend Reinvestment and employee stock plans, and on a quarterly basis has systematically maintained a level of shares equivalent to anticipated needs.

At September 30, 2000, Old Kent held over 1.4 million shares of its common stock reserved for reissuance as detailed in the table above. These shares were repurchased under a June, 1999 Board of Directors authorization allowing management to repurchase up to 3.0 million shares of Old Kent Common Stock intended for reissuance in connection with stock dividends, dividend reinvestment and employee stock plans, and other corporate purposes over the ensuing twelve month period. As of September 30, 2000, the Corporation completed the repurchase of shares under this authorization. Under the authorization, 1.5 million of the total 3.0 million shares authorized were utilized for the 5% stock dividend described below. These shares were repurchased in a systematic pattern (on a quarterly ratable basis) of open market and privately negotiated transactions. The remaining 1.5 million shares of the authorization are intended for reissue in connection with the Corporation's dividend reinvestment and employee stock plans, as well as other unspecified corporate purposes such as business acquisitions accounted for as purchases. As of October 16, 2000, Old Kent Financial Corporation announced it is authorized to repurchase up to 1.4 million shares of its common stock over the next six months to replace the shares used to acquire Home Bancorp.

In June 2000, the Board of Directors of Old Kent Financial Corporation declared a 5% stock dividend which was payable on July 14, 2000, to shareholders of record on June 30, 2000. Approximately 6.5 million shares were issued for this dividend, including 1.5 million repurchased for this purpose in the preceding twelve months. All prior per share amounts included in this report have been adjusted to reflect this dividend.

Total equity at September 30, 2000; was decreased by an after-tax unrealized loss of \$42.5 million on securities available-for-sale. Shareholders' equity as a percentage of total assets as of September 30, 2000, was 7.11%.

The following table represents Old Kent's consolidated regulatory capital position as of September 30, 2000:

Regulatory capital at September 30, 2000
(in millions)

	Leverage Ratio	Tier 1 Risk-Based Capital	Total Risk-Based Capital
Actual capital	\$1,596.9	\$1,596.9	\$2,179.8
Required minimum regulatory capital	\$663.4	\$747.6	\$1,495.3
Capital in excess of requirements	\$933.5	\$849.3	\$684.5
Actual ratio	7.22%	8.54%	11.66%
Regulatory Minimum Ratio	3.00%	4.00%	8.00%
Ratio considered "well capitalized" by regulatory agencies	5.00%	6.00%	10.00%

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The information concerning quantitative and qualitative disclosures about market risk contained and incorporated by reference in Item 7A of the Corporation's Form 10-K Annual Report for its fiscal year ended December 31, 1999, is here incorporated by reference.

Old Kent faces market risk to the extent that both earnings and the fair values of its financial instruments are affected by changes in interest rates. The Corporation measures this risk with three tools: static GAP analysis, simulation modeling, and economic value of equity estimation. Throughout the first nine months of 2000, the results of these three measurement techniques were within the Corporation's policy guidelines. The Corporation does not believe that there has been a material change in the Corporation's primary market risk exposures, including the categories of market risk to which the Corporation is exposed and the particular markets that present the primary risk of loss to the Corporation. As of the date of this Form 10-Q Quarterly Report, the Corporation does not know of or expect there to be any material change in the general nature of its primary market risk exposure in the near term.

The methods by which the Corporation manages its primary market risk exposures, as described in the sections of its Form 10-K Annual Report incorporated by reference in response to this item, have not changed materially during the current year. As of the date of this Form 10-Q Quarterly Report, the Corporation does not expect to change those methods in the near term. However, the Corporation may change those methods in the future to adapt to changes in circumstances or to implement new techniques.

The Corporation's market risk exposure is mainly comprised of its vulnerability to interest rate risk. Prevailing interest rates and interest rate relationships are primarily determined by market factors which are outside of Old Kent's control. All information provided in response to this item consists of forward-looking statements. Reference is made to the section captioned "Forward-Looking Statements" at the beginning of this Form 10-Q Quarterly Report for a discussion of the limitations on Old Kent's responsibility for such statements. In this discussion, "near term" means a period of one year following the date of the most recent balance sheet contained in this report.
